INDEX

UMI

This INDEX is based on a consolidation of contents entries appearing in this month's issues of the FEDERAL REGISTER together with broad subject references. It is published monthly, quarterly, and annually.

A GENERAL INDEX to the entire Code of Federal Regulations is revised as of July 1 each year.

Numerical Finding Aids. A CUMULATIVE LIST OF CFR SECTIONS AFFECTED is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

All FEDERAL REGISTER publications are available for purchase from the Superintendent of Documents, U.S. Government Printing Office, Wash. D.C. 20402.

INQUIRIES may be made to the Finding Aids Unit at area code 202—523–5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

RULES

Air commerce regulations:
Shipper's export declarations; alternative procedure for filing, 36497
Antidumping:
Acrylic sheet from Japan, 36497
Potassium chloride (muriate of potash) from Canada, 32894
Roller bearings (tapered) and certain components from Japan, 34975
Tuners (type used in consumer electronic products) from Japan, 32421, 34597
Liquidation of duties; countervailing duties:
Cap screws from Italy, 34250
Sugar content of certain articles from Australia, 32230
Organization and functions; field organization; ports of entry, etc.:
Battle Creek, Mich., 35061
Permits, special, for immediate delivery prior to entry:
Produce, fresh, arriving from Canada or Mexico, 33248
Relief from duties on merchandise lost, etc.; produce, fresh, arriving from Canada or Mexico, 33248

PROPOSED RULES

Canada and Mexico, Customs relations with; bonded merchandise, transportation, 34273
Operations provisions, 34261
Organization and functions; field organization; ports of entry, etc.:
Orlando, Fla., 34049
Transportation in bond and merchandise in transit; bonded merchandise, 34272
Warehouse and rewarehouse entries and withdrawals:
Bonded merchandise, transportation, 34273

NOTICES

Antidumping:
Sheet glass, clear, from Romania, 36520
Countervailing duty petitions:
Litharge and red lead from Mexico, 32248
Scissors and shears from Brazil, 33312
Zinc, unwrought, from Spain, 32249
Customshouse cartman's license:
Marino Express, Inc.; revoked, 33926

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

RULES

Conduct standards; CFR Part transferred and redesignated, 34732
Procurement, 36021

PROPOSED RULES

Protection of human subjects; policies and procedures, 34778

NOTICES

Committees; establishment, renewals, etc.:
  Global Environmental Effects of Carbon Dioxide Study Group, 35758
Energy research, development, and demonstration plan, National; meetings, 32945
Environmental statements; availability, etc.:
  Intense neutron source facility, 34352
Fuels, spent; chemical processing and conversion, 36244
Heavy water; temporary suspension of sales, 35020
Meetings:
  Demonstration Projects as Commercialization Incentive Task Force, 32777, 35889
  Energy Research, Development and Demonstration National Plan, 32945
  Geothermal Energy Advisory Committee, 36688

ENGINEERS CORPS

RULES

Navigation regulations:
  New York, 34035

NOTICES

Meetings:
  Shoreline Erosion Advisory Panel, 33926
Pipeline application:
  Northern Illinois Gas Co., 35079

ENVIRONMENTAL PROTECTION AGENCY

RULES

Air pollutants, hazardous; National emission standards:
  California; authority delegation, 33264
  Virgin Islands; authority delegation, 34629
Air pollution; standards of performance for new stationary sources:
  California; authority delegation, 33264
  Emission monitoring, performance testing methods, 35185
  Virgin Islands; authority delegation, 34629
Air pollution control, aircraft and engines:
  Supersonic aircraft; emission standards, 34724
Air pollution control, new motor vehicles and engines:
  Light duty vehicles and trucks; evaporative emission test procedures, 35628
Air quality implementation plans:
  Preparation, adoption, and submittal; reports; CFR correction; 35676
Air quality implementation plans; various States, etc.:
  Georgia, 35185
  Indiana, 35677
  New Mexico, 34749
  New York; CFR correction, 34259
  Ohio, 36327
  Oklahoma, 32890
  South Dakota, 32744
  Virginia; CFR correction, 35676
  Wyoming, 36653
Cooling water intake structures:
  Minimizing adverse environmental impact; best technology available, 33265
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.:
  Captafol, 35678
  n-Octyl bicycloheptenedicarboximide; correction, 32426
  S-(2-(ethylsulfinyl) ethyl) O,O-dimethyl phosphorothioate, 33265
  S-(2-(ethylsulfinyl-ethyl)O,O-dimethyl phosphorothioate, 34629
Water pollution; effluent guidelines for certain point source categories:
  Coal mining; extension of time, 34440
  Iron and steel manufacturing; correction, 32218
  Mineral mining and processing; extension of time, 36653
  Plastics and synthetics manufacturing, 32587

PROPOSED RULES

Air pollution; standards of performance for new stationary sources:
  Petroleum refinery fluid catalytic cracking units, 36600
Air quality implementation plans; various States, etc.:
  California, 34782
  Oregon, 32241, 35725
  Tennessee, 34322
Grants, State and local assistance:
  Underground water source protection programs, 36726
Pesticide chemicals in or on raw agricultural commodities; tolerances and exemptions, etc.:
  Sodium chlorate, 32899
Water pollution; effluent guidelines for certain point source categories:
  Coal mining; extension of time, 34441
  Iron and steel manufacturing; correction, 32242
  Mineral mining and processing; extension of time, 36669
  Plastics and synthetics manufacturing; withdrawal, 32613
Water pollution control:
  Ocean dumping; requirements and criteria; extension of time, 34078
  Safe drinking water; underground injection control programs, 36730

NOTICES

Air pollutants, hazardous; National emission standards:
  California; authority delegation, 33324
  Virgin Islands; authority delegation, 34685
Air pollution; ambient air monitoring reference and equivalent methods, 32946, 32948, 34105, 34106, 36245, 36538
Air pollution; standards of performance for new stationary sources:
  California; authority delegation, 33324
  Virgin Islands; authority delegation, 34685

Control tower, Cedar Rapids, Iowa; partial closing, 34676
Control tower, Sioux City, Iowa; partial closing, 34676
Control tower, Springfield, Mo.; partial closing, 34676
Station/tower at Pueblo, Colo.; designation change, 32286

FEDERAL BUREAU OF INVESTIGATION

NOTICES

Meetings:
National Crime Information Center Advisory Policy Board, 36045

FEDERAL COMMUNICATIONS COMMISSION

RULES

Cable television:
Relay service (CARS), 32429
Service requirements; technical changes, 32429
Specialty stations and specialty format programming; correction, 35068
Subscriber rates, 34968
Citizens radio service:
Class D stations; operating rules, 32682, 36209
Domestic public radio services:
Filing requirements, general; common carriers, 33895
Offshore radio telecommunications service, 33885
Power limitations of transmitters, 33270
Employee responsibilities and conduct:
Commission members and staff, former, 32891
Experimental broadcast services:
Remote pickup broadcast stations; correction, 35068
FM broadcast stations; table of assignments:
California, 32220
Idaho, 35849
Texas, 36022
Frequency allocations and radio treaty matters:
Frequency allocations table, 32680, 36209
Offshore stations, 33885
Industrial radio services:
Frequencies available, 32680, 35068, 36209
Frequency allocation; Southern Louisiana Offshore zone, 33889
Transmitter power, frequency, and modulation specifications, annual measurement, etc., 33903, 35522
Land transportation radio services:
Frequencies available, 32682, 36209
Transmitter power, frequency, and measurement specifications, annual measurement, etc., 33907, 35522
Maritime services, land and shipboard stations:
Listening watch requirements, tugboats, 32221
Organization and functions:
Subscription Television Committee, 33272
Telecommunications Committee, 33272
Practice and procedure:
Applications; consolidation of cases, 33895
Briefs, format, 34259
Offshore radio telecommunications service; fees, 33885
Pleadings, length of, 34260
Public safety radio services
Frequencies, 36280
Transmitter power, frequency, and modulation specifications, annual measurement, etc., 33902, 35522
Radio broadcast services:
Antenna monitors, type-approval specifications, 32891
Candidates for public office, 32219, 33272, 35068
Experimental, auxiliary, special broadcast, and other program distributional services; remote pickup broadcast stations; corrections, 32429, 32593
Radio frequency devices:
CB receivers; certification extension, 32593
Television broadcast stations:
Wisconsin, 36023
Television broadcast stations; table of assignments:
Maryland, 33559
Wisconsin, 33560

PROPOSED RULES

Aviation services:
Telemetry transmitters; standards, 32242
Cable television:
Candidates, legally qualified; cablecasts by, 33281
Employment practices; nondiscrimination, 34930
Commercial radio operations:
Radiotelegraphy usage in maritime services; extension of time, 32434
Communications common carriers:
Data processing services, 33566
FM broadcast stations; table of assignments:
Alabama; extension of time, 34323
Arizona, 36219
California, 34078, 34789
Illinois, 33280
Indiana, 32434
Iowa, 33566, 34078
Kansas, 34078
Louisiana, 34980
Michigan, 34078
Missouri, 35533
Nebraska, 33566
New Mexico, 36220
New York; extension of time, 34323
Ohio, 34078
Tennessee, 34078
Texas, 34078
Utah, 34079, 34787
Wisconsin, 35534
Wyoming, 36220
Frequency allocations and radio treaty matters:
Radiotelegraphy usage in maritime services; extension of time, 32434
Maritime services, land and shipboard stations:
Great Lakes communication system, operation of, 34791
Mobile service, VHF; operational; state control, 33282
Radiotelegraphy usage; extension of time, 32434
Organization and functions:
Hybrid services, 33566
Public safety radio services:
Land mobile radio systems, private; interconnection with public telephone network; extension of time, 35863
Radio broadcast services:
Standard AM and FM stations; review of network regulation; extension of time, 33281, 36221
Radio frequency devices:
RF equipment, wide-band swept; extension of time, 34323
Telephone companies:
Carriers, extension of lines and discontinuance of service, 33280

NOTICES

Broadcast stations; changes in entertainment formats, 32950, 35020
Cable television systems; leasing of telephone pole space to, 35024
Coast radiotelegraph stations, stay of order, 32317

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

NOTICES
Meetings, 35099

FEDERAL RAILROAD ADMINISTRATION

PROPOSED RULES
Railroad Revitalization and Regulatory Reform Act of 1976:
  Rail service assistance to States; applications and disbursements, 33354

FEDERAL REGISTER OFFICE

RULES
CFR checklist; 1976 issuances, 32205
PROPOSED RULES
Document preparation; clarity of explanatory material; standardized format, 32861
NOTICES
Agency documents; experimental scheduling program; inquiry, 32914
Directory of Federal regional structure; agency maps and tables, 33452
"Federal Register-what it is and how to use it", public briefings:
  Kansas City, Mo., 36546
Privacy Act; publications guidelines, 32362

FEDERAL RESERVE SYSTEM

RULES
Authority delegations:
  Board employees and Federal Reserve Banks; specific functions; correction, 36198
Credit by banks:
  Margin stocks, purchasing or carrying; form revised; effective date postponed, 35477
Credit by brokers and dealers:
  Escrow receipts for option transactions, 34938
Interest on deposits:
  Payment of time deposits before maturity; CFR correction, 32578
Truth-in-lending:
  Transaction description; open-end credit accounts, 36662
PROPOSED RULES
Bank holding companies:
  Management consulting advice, 33306
Truth-in-lending:
  Dealer participation, amount, disclosure, 35536
NOTICES
Board actions; applications and reports, 32291, 34364, 35571, 36547
Federal Open Market Committee:
  Domestic policy directives, 32293, 35570
Home mortgage disclosure, applications:
  Massachusetts, 34701
Applications, etc.:

  Ottawa National Wildlife Refuge, Ohio, 34049
Marine mammals:
  Monk seal, Hawaiian; endangered status, 33922
Migratory bird hunting:
  Seasons, limits, and shooting hours establishment, 34273
Public access, use, and recreation:
  Johnston Atoll National Wildlife Refuge, 32433

INDEX

UMI

NOTICES
Endangered species permits; applications, 32621, 33569, 34330, 34992, 35081, 36047, 36048, 36049, 36051, 36052, 36225
Marine mammal applications, etc.:
Martini, Frederic, 36224
Miami University, 36224

FLOOD ASSISTANCE

See Engineers Corps.
Federal Disaster Assistance Administration.
Federal Insurance Administration.

FOOD AND DRUG ADMINISTRATION

RULES
Administrative practices and procedures, authority delegations, etc., 32738, 32886
Animal drugs, feeds, and related products:
Chloramphenicol tablets, 32583, 33882
Dichlorophene and toluene capsules, 32889
Gentamacin sulfate injection, 32889
Medicated blocks, 32215, 36650
Medicated feed applications; maintenance of copies, 36203
New drug applications; submission of advertising and promotional data, 35844
Orgotein for injection, 32583, 33882
Prednisone suspension, sterile, 36018
Sponsors; listing, 34743
Tylosin and sulfamethazine, 34943
Biological products:
Blood and blood products; labeling requirements for syphillis and hepatitas testing, 35062
Pertussis vaccine; standards, 35480
Cosmetic products:
Hypoallergenic products; stay of effective date revoked, 32583
Food additives:
Adhesives, 35170
Dimethylamine-epichlorohydrin copolymer, 34742
Olefin polymers, 35170
Paper and paperboard components in contact with aqueous and fatty foods, 34943
Polyamide-inide resins, 34598
Resinous and polymeric coatings, 34598
Sanitizing solutions, 32580
Food products; quality standards, 33252
Fruits and fruit juices, canned; identity standards:
Apricots, 32287
Figs, 32888
Fruit cocktail, 32887
Peaches, 32887
Pears, 32887
Plums, 32887
Human drugs:
Antibiotic susceptibility discs, 35061
Over-the-counter drugs; marketing status of recommended ingredients, 32582
Petri dish covers, 34742
Radioactive new drugs and biologics; continued commercial distribution, 35171
Organization and authority delegations, 33249, 34597
Pesticide tolerances in food:
Glyphosate, 32888

PROPOSED RULES
Administrative practices and procedures, authority delegations, etc., 35855
Animal drugs, feeds, and related products:
Furazolidone, nihydrazone, furaltadone, nitrofurazone, 34884
Hexachlorophene, correction, 32434
Timed-release dosage form drugs for veterinary use, 34052
Environmental impact considerations:
Investigational device exemptions, 35282
Food labeling:
Small individual serving size packaged foods, 34051
Information:
Investigational device exemptions, 35282
Investigational device exemptions, 35282
Labeling:
Investigational device exemption, 35282
Margarine (oleomargarine) or butter substitutes; identity standards, 36509
Nuts; almonds, peanuts, etc.; good manufacturing practice; extension of time, 35532

NOTICES
Animal drugs:
Furaltadone, 34891
Furazolidone, 34891
Hexederm and Derma Hex shampoos; approval withdrawn, 36063
Nihydrazone, 34908
Nitrofurazone, 34899
Potassium penicillin G tablets; approval withdrawn, 32938
Bacteriological Analytical Manual for Foods; availability, 35551
Brazil nuts, aflatoxins imported; control program; memorandum of understanding with Agricultural Marketing Service, 36232
Color additives; petitions filed or withdrawn:
FD & C Blue No. 1, etc., 33573
FD & C Red No. 2; hearing postponed, 36531
Committees; establishment, renewals, etc.:
Device Good Manufacturing Practice Advisory Committee, 36233
Diagnostic Products Advisory Committee, 35088
Medical Device Classification Panels, 35877, 35878
Food, food containers, and food related articles and equipment; memorandums of understanding:
Consumer Product Safety Commission, 34342
Food additives; petitions filed or withdrawn:
Heterochemical Corp., 35009
Nalco Chemical Co., 33316
Uniroyal Chemical, 32635
Food labeling; listing of ingredients; extension of time, 33573
GRAS status, petitions:
Whey, modified; Dean Foods Co., 33929
Whey-partially delactosed, modified; Land O'Lakes, Inc., 33929
Human drugs:
Alcohol-dextrose intravenous solutions, 34336
Antihypertensive combination drugs, 34337
Antihypertensive drugs; efficacy study, 32767
Carbonic anhydrase inhibitors, 34338
Chlordiazepoxide; correction, 34099
Chlordiazepoxide hydrochloride preparations; correction, 34099
Dermatologic anti-infective and corticosteroid combination prescriptions, certain, 32937
Dexamyl elixir spansule capsules and tablets; hearing denial and approval refusal, 35741
Dextran containing drug products; approval withdrawn, 35877
Furazolidone, 34662
Hydroxydione sodium succinate, 34664, 36063
Meperidine hydrochloride injection, etc., 35878
Meperidine hydrochloride tablets and elixir; hearing; correction, 33573
Meprobamate and chlordiazepoxide; labeling; birth defects warning, 32461, 32938
Oral reserpine; hearing, 34806
Orphenadrine hydrochloride tablets, 34665
Propiolactone for sterilization, 34343
Sodium acetrizoate and povidone, 34345
Steroid preparations for ophthalmic and/or otic use, 34340
Sulfonamides, long-acting systemic, 34661
Medical devices:
Classification procedures; panel reports; availability, 32280, 32938
Performance standards activities, 34099
Meetings:
Advisory committees, panels, etc., 32770, 35548

FOOD AND NUTRITION SERVICE

RULES
Administrative expense funds, State:
Payment and administration, 32405
Food stamp program:
State agencies and eligible household participation; coupon distribution, issuance and accounting methods, 34761
Nonfood assistance program:
Policies and procedures, 35686
School breakfast and nonfood assistance programs:
Administrative expense funds, State; payment, 32405
School breakfast program, 34758, 36013
Summer food service program for children; summary of comments, 35685

FOREIGN AID

See Agency for International Development.

See Education of Disadvantaged Children, National Advisory Council.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RULES
Conduct standards; indebtedness, financial statements, honorariums; correction, 35479

NOTICES
Agent certification:
King, Dr. James Jr., 34833
Applications Steering Committee et al.; meeting reports availability, 32794
Meetings:
Space Program Advisory Council, 36553

NATIONAL ARCHIVES AND RECORDS SERVICE

See Federal Register Office.

NATIONAL BUREAU OF STANDARDS

NOTICES
Meetings:
Computer Networking Standards for Library and Information Science Community Task Force, 34099
Federal Information Processing Standards Task Groups, 34334
Voluntary product standards:
Timber, structural glued laminated, 33573

NATIONAL COMMISSION ON ELECTRONIC FUND TRANSFERS

See Electronic Fund Transfers, National Commission.

NATIONAL COMMISSION ON SUPPLIES AND SHORTAGES

See Supplies and Shortages, National Commission.

NATIONAL CREDIT UNION ADMINISTRATION

NOTICES
Meetings:
National Credit Union Board, 32477, 36701
Privacy Act; systems of records, 34370

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

See Arts and Humanities, National Foundation.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

RULES
Consumer information:
Vehicle stopping distance; correction, 34607
Motor vehicle safety standards:
Brake system, air; correction, 32221
Bumper requirements, 35068
Lamps, reflective devices, and associated equipment, 35522
Occupant crash protection, 36494
Rearview mirrors, 36025
School bus rollover protection, 36026
Tire selection and rims for other than passenger cars, 36658
Windshield mounting, 36494

PROPOSED RULES
Highway safety programs, State; uniform standards:
Occupant crash protection; correction, 33280
Inflation impact statement, 36037, 36513
Motor vehicle safety standards:
Occupant crash protection; correction, 33280
Rearview mirrors, 36038
Speedometers and odometers, 36513

NOTICES
Meetings:
Highway Safety National Advisory Committee, 35091
Motor Vehicle Safety National Advisory Council, 36065
Youth Highway Safety Advisory Committee, 32772
Motor vehicle safety standards; exemption petitions, etc.:
Daihatsu Motor Co. Ltd.; lamps, reflective devices, and associated equipment, 35554
General Motors Corp.; tire selection and rims for passenger cars, 36064
Travel Equipment Corp.; flammability of interior materials, 36065
Wayne Corp.; fuel system integrity, 35555

NATIONAL INSTITUTE OF EDUCATION

NOTICES
Committees; establishment, renewals, etc.:
Education and Work Panel et al., 32286
Meetings:
Education and Work Panel, 32285, 33317
Educational Research National Council, 35755

NATIONAL INSTITUTES OF HEALTH

NOTICES
Committees; establishment, renewals, etc.:
Animal Resources Advisory Committee et al., 33577
Cancer Institutional Fellowship Temporary Review Committee, 35206
Heart, Lung, and Blood National Institute; Director's third report; correction, 35009
Meetings:
Allergy and Immunology Study Section et al., 35552
Allergy and Infectious Diseases National Advisory Council, 33575, 35206
Arthritis, Metabolism, and Digestive Diseases National Advisory Council, 3526
Arthritis, Metabolism, and Digestive Diseases National Institute, Board of Scientific Counselors, 32283

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index **$8.00**
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402

There is enclosed $_____ for _____ subscription(s) to the publications checked below:

CUMULATIVE LIST OF CFR SECTIONS AFFECTED

The CUMULATIVE LIST OF CFR SECTIONS AFFECTED is designed to lead users of the Code of Federal Regulations (CFR) to amendatory actions published in the Federal Register (FR). It should be shelved with current CFR volumes. Entries are by CFR title, chapter, part, and section. Proposed rules are listed at the end of appropriate titles, except for Title 41, in which proposed rules follow each chapter.

HOW TO USE THIS FINDING AID

The CFR is revised annually according to the following schedule:

Titles 1–16—as of Jan. 1
17–27—as of April 1
28–41—as of July 1
42–50—as of Oct. 1

To bring these regulations up to date, consult this CUMULATIVE LIST OF CFR SECTIONS AFFECTED for any changes, additions, or deletions published after the revision date of the volume you are using. Then check the CUMULATIVE LIST OF PARTS AFFECTED appearing at the front of the latest Federal Register for less detailed but timely changes published after the final date included in this publication.

Cite a page reference from this publication:

1975 page numbers—40 FR
1976 page numbers—41 FR

Example: Page 5678 in 1976—cite as 41 FR 5678.

ISSUES TO BE SAVED

There is no longer a single annual issue of the CUMULATIVE LIST OF CFR SECTIONS AFFECTED. Four publications must be saved: the December issue is the annual for Titles 1–16; the March issue is the annual for Titles 17–27; the June issue is the annual for Titles 28–41; the September issue is the annual for Titles 42–50.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

A table is included after Title 50 which contains references to the U.S. Code sections cited as authority for CFR regulations added or revised during the calendar year.

TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A table is included at the end of this publication which identifies the inclusive page numbers and corresponding dates for the period covered.

INDEXES

An INDEX to the daily Federal Register is published monthly, quarterly, and annually for the calendar year. A separate volume, the CFR INDEX to the entire Code of Federal Regulations, is revised as of July 1 each year.

INQUIRIES AND SUGGESTIONS

This publication was prepared under the editorial direction of Rose Steinman, with Carol Blanchard and Loren Myers as Chief Editors. INQUIRIES, telephone 202–523–5227.

SUGGESTIONS concerning this and other publications of the Office will be welcomed by Fred J. Emery, Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to CFR Finding Aids Volume, Table 1; January through August 1976)

This table lists the sections of the U.S. Code and U.S. Statutes at Large which are being added to Table 1 of the CFR Finding Aids Volume as a result of authority citations carried in the *Federal Register* from January through August 1976. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, consult the Cumulative List of CFR Sections Affected above.

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Twelve agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5284. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

VETERANS EDUCATION
VA changes procedure for disapproving program modification; effective 7–27–76..... 32217

RELEASE OF INFORMATION
VA proposes to reduce search charge; comments by 9–1–76..... 32247

FEDERAL REGISTER PAGES AND DATES—AUGUST

Pages	*Date*
32205–32398	Aug. 2

V41 I149 AUG 2 76 UMI

Table of Effective Dates and Time Periods—August 1976

This table is for use in computing dates certain in connection with documents which are published in the FEDERAL REGISTER subject to advance notice requirements or which impose time limits on public response.

Federal Agencies using this table in calculating time requirements for submissions must allow sufficient extra time for FEDERAL REGISTER scheduling procedures.

In computing dates certain, the day after publication counts as one. All succeeding days are counted except that when a date certain falls on a weekend or holiday, it is moved forward to the next Federal business day. (See 1 CFR 18.17)

A new table will be published monthly in the first issue of each month.

Dates of FR publication	15 days after publication	30 days after publication	45 days after publication	60 days after publication	90 days after publication
August 2	August 17	September 1	September 16	October 1	November 1

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions

CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

CFR CHECKLIST

1976 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1976. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

The rate for subscription service to all revised volumes issued for 1976 is $350 domestic, $75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 15966; Amdt. 13–11]

PART 13—ENFORCEMENT PROCEDURES

Redelegation of Hazardous Materials Enforcement Authority

The purpose of this amendment to Part 13 of the Federal Aviation Regulations (14 CFR 13) is to redelegate the Administrator's enforcement authority, with respect to the Hazardous Materials Transportation Act, concerning the transportation and shipment of hazardous materials by air, as delegated to him by the Secretary of Transportation.

V 41 I 149 AUG 2 76 UMI

The Secretary of Transportation has delegated to the Federal Aviation Administrator authority to carry out functions vested in the Secretary by the Hazardous Materials Transportation Act (49 U.S.C. 1801 *et seq.*) concerning investigations, records, inspection, penalties, and specific relief so far as they apply to the transportation or shipment of hazardous materials by air (paragraph 1.47(k) of the Regulations of the Office of the Secretary of Transportation 49 CFR 1.47(k))). In order to further delegate this authority to the same officials who currently have responsibility under Part 13 with respect to the enforcement provisions of the Federal Aviation Act of 1958, this amendment redelegates the Administrator's enforcement authority with respect to the Hazardous Materials Transportation Act, and regulations issued under that Act, to the Chief Counsel, the Deputy Chief Counsel, each Assistant Chief Counsel, and to each Regional Counsel (as appropriate). This amendment adds new § 13.16, and affects §§ 13.1, 13.3, and 13.23 of Part 13. A conforming clarification is also made to § 13.19.

With respect to civil penalty actions, new § 13.16 deals solely with the Hazardous Materials Transportation Act and regulations issued under that Act. It is thus in addition to, and does not affect, the continuing authority, pursuant to § 13.15, to take civil penalty actions with respect to violations of the Federal Aviation Act of 1958, and regulations or orders issued under that Act, in cases involving transportation or shipment of hazardous materials, as delegated to the Administrator. This is made clear in § 13.16(c).

As this amendment merely redelegates authority within the FAA, and involves agency organization, procedure or practice only, notice and public procedure thereon are not required. Furthermore, in order to support timely enforcement of the Hazardous Materials Transportation Act, and in order to ensure uninterrupted enforcement with respect to regulations issued under that Act, this redelegation should be effective as soon as possible. I, therefore, find that good cause exists for making this amendment effective in less than 30 days after publication in the FEDERAL REGISTER.

AUTHORITY: [sections 302(f), 303(d), and 313(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1343(f), 1344(d), and 1354(a)); and § 1.47 of the regulations of the Office of the Secretary of Transportation (49 CFR 1.47)].

In consideration of the foregoing, Part 13 of the Federal Aviation Regulations is amended, effective August 2, 1976, as follows:

1. Paragraph (a) of § 13.1 is amended to read as follows:

§ 13.1 Reports of violations.

(a) Any person who knows of a violation of the Federal Aviation Act of 1958, or of any regulation or order issued under it, or any violation of the Hazardous Materials Transportation Act or of any regulation or order issued under it, relating to the transportation or shipment by air of hazardous materials, may report it to appropriate personnel of an FAA regional or district office.

* * * * *

2. Paragraph (a) of § 13.3 is amended by adding the following language at the end thereof:

3. In the first sentence of § 13.3(b), the word "Act" is deleted and the words "Federal Aviation Act of 1958" are inserted in place thereof.

4. Section 13.3 is amended by adding a new paragraph (c) reading as follows:

§ 13.3 Investigations.

(a) "Under § 1.47(k) of the Regulations of the Office of the Secretary of Transportation (49 CFR 1.47(k)), the Administrator may, with respect to the transportation or shipment by air of hazardous materials, conduct investigations, issue subpoenas, conduct hearings, require the production of relevant documents, records, and property, and take depositions as prescribed in Section 109 of the Hazardous Materials Transportation Act (49 U.S.C. 1808)."

(c) For the purpose of investigating alleged violations of the Hazardous Materials Transportation Act, or of any regulation or order issued under it, relating to the transportation or shipment by air of hazardous materials, the authority under Section 109 of that Act (49 U.S.C. 1808), as delegated to the Administrator, has been redelegated to the Chief Counsel, the Deputy Chief Counsel, each Assistant Chief Counsel, and each Regional Counsel.

5. A new § 13.16 is added to read as follows:

§ 13.16 Civil Penalties: Hazardous Materials Transportation Act.

(a) Section 110 of the Hazardous Materials Transportation Act (49 U.S.C. 1809) provides for civil penalties, for persons who knowingly commit acts that are violations of that Act, or of any regulation issued under it, of not more than $10,000 for each violation.

(b) The authority under § 110 of the Hazardous Materials Transportation Act to initiate, compromise, and assess civil penalties, and refer cases to the U.S. Attorney General for collection of such civil penalties for violations of that Act, or of regulations dealing with transportation or shipment of hazardous materials by air issued under that Act, as delegated to the Administrator, has been redelegated to the Chief Counsel, the Assistant Chief Counsel for Operations and Evaluation, and to each Regional Counsel.

(c) The redelegation in paragraph (b) of this section is in addition to the authority to take civil penalty action under § 13.15 of this Part with respect to violations of the Federal Aviation Act of 1958, and regulations or orders issued under that Act, involving transportation or shipment of hazardous materials, as delegated to the Administrator.

§ 13.19 [Amended]

6. Section 13.19 is amended by amending paragraph (b) by adding the following new sentence after the first sentence (which ends with the words "or air agency certificate") and before the second sentence (which begins with the words "this authority is"): "This authority may be exercised for remedial purposes in cases involving the Hazardous Materials Transportation Act (49 U.S.C. 1801 *et seq.*) or regulations issued under that Act."

7. § 13.23 is amended to read as follows:

§ 13.23 Criminal penalties.

(a) Sections 902 and 1203 of the Federal Aviation Act of 1958 (49 U.S.C. 1472 and 1523), provide criminal penalties for any person who knowingly and willfully violates specified provisions of that Act or any regulation or order issued under those provisions. Section 110(b) of the Hazardous Materials Transportation Act (49 U.S.C. 1809(b)) provides for a criminal penalty of a fine of not more than $25,000, imprisonment for not more than five years, or both, for any person who willfully violates a provision of that Act or a regulation or order issued under it.

(b) If an inspector or other employee of the FAA becomes aware of a possible violation of any criminal provision of the Federal Aviation Act of 1958 (except a violation of § 902(i) through (m) which is reported directly to the Federal Bureau of Investigation), or of the Hazardous Materials Transportation Act, relating to the transportation or shipment by air of hazardous materials, he shall report it to the Office of the Chief Counsel or the Regional Counsel concerned. If appropriate, that office refers the report to the Department of Justice for criminal prosecution of the offender. If such an inspector or other employee becomes aware of a possible violation of a Federal statute that is within the investigatory jurisdiction of another Federal agency, he shall immediately report it to that agency according to standard FAA practices.

Issued in Washington, D.C., on July 26, 1976.

JOHN L. MCLUCAS,
Administrator.

[Docket No. 76-NW-13-AD; Amdt. 39-2678]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 727 Series Airplanes

It has come to the attention of the FAA that incompatible installations of the elevator balance panel aft hinges in bay number two and number five may have been made on in-service Boeing Model 727 series airplanes. In June 1974, the aft hinge for the bay number 5 elevator balance panel was changed from tungsten to aluminum-bronze. To maintain proper balance, the aft hinge of the bay number 2 elevator balance panel material was changed from aluminum to aluminum-bronze and the fixed weight material was changed from aluminum to steel. Some operators may have replaced the aft hinges only in bay number 5 or bay number 2 which results in the elevator system exceeding the balance limits. The combination of an aluminum hinge in bay number 2 and an aluminum-bronze hinge in bay number 5 would result in a critical shift of the elevator system center of gravity which degrades the established flutter margins. Although the probability is low, stabilizer flutter could occur if hydraulic pressure to both the system A and system B elevator power control units was turned off or lost. Boeing 727 Structural Repair Manual Temporary Revision TR 51-25, dated January 15, 1976 (Boeing SRM, July 1, 1976), contains instructions for replacement of the hinges. Due to the unsafe condition which exists, an airworthiness directive is being issued to require inspection of the elevator balance panel aft hinges in bays 2 and 5 on Boeing Model 727 series airplanes. Engineering for the material changes was released in August 1973, and the replacement hinges incorporating these changes became available from Boeing in June 1974. Therefore, if it can be shown through an operator's records or airplane's maintenance records that the elevator balance panel aft hinges are not of the combination of aluminum in bay number 2 and aluminum-bronze in bay number 5, the AD is not applicable.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to all Model 727 series airplanes, categorized as Group I and II in Boeing Service Bulletin No. 727-55-A65, or later FAA approved revisions, and certificated in all categories. Compliance required as indicated unless it can be shown that this AD is not applicable per paragraph B.

To prevent possible stabilizer flutter from mismatch of the elevator balance panel aft hinges in bays 2 and 5, accomplish the following:

A. Unless already accomplished, within the next 300 flight hours from the effective date of this AD, inspect the elevator balance panel aft hinges in bays 2 and 5, accomplish the right) for compatibility in accordance with Boeing Service Bulletin No. 727-55-A65, or later FAA approved revisions, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. If an aluminum hinge is installed in bay 2 and an aluminum-bronze hinge is installed in bay 5, replace in accordance with the service bulletin and physically rebalance in accordance with the Boeing 727 Structural Repair Manual prior to the next flight.

B. If it can be shown through an operator's records or airplane's maintenance records that the elevator balance panel aft hinges are not of the combination of aluminum in bay number 2 and aluminum-bronze in bay number 5, the AD is not applicable.

C. Airplanes requiring action prior to the next flight per paragraph A may be flown to the nearest maintenance base in accordance with FAR 21.197 and 21.199.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive, who have not already received these documents from the manufacturer, may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98108. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108.

This amendment becomes effective August 9, 1976.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Seattle, Washington, July 19, 1976.

C. B. WALK, JR.,
Director,
Northwest Region.

NOTE: The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.76-22101 Filed 7-30-76;8:45 am]

[Airworthiness Docket No. 75-WE-3-AD; Amdt. 39-2681]

PART 39—AIRWORTHINESS DIRECTIVES

Rockwell International NA-265 Series Airplanes

Amendment 39-2161 (40 FR 16299), AD 75-08-11 requires a one-time test or replacement of the electrical generating system 100 ampere circuit breakers in certain airplanes, a placard near the aft cabin circuit breaker panel, and an Airplane Flight Manual (AFM) limitation which specifies that a check is to be made of the circuit breakers prior to the first flight of each day. After issuance of Amendment 39-2161, two additional instances of loss of all electrical power due to tripping of the five 100 ampere circuit breakers at fuselage station 333 in the cabin have occurred. Subsequently the agency has, with the cooperation of Rockwell International, determined that operational temperatures in the vicinity of the circuit breakers at fuselage station 333 exceed the temperatures at the front circuit breakers at fuselage station 143. This temperature differential causes the rear circuit breakers to be susceptible to tripping prior to the front breakers. To correct this situation, Rockwell International has issued Service Bulletin No. 11 dated March 12, 1976 and revised May 14, 1976. This service bulletin which is applicable to airplane models NA-265-40, -60, and -70, covers replacement of the 100 ampere circuit breakers at Station 333 with 140 ampere circuit breakers and improves convection cooling at this location.

Rockwell International has also developed for airplane models NA-265-40, -60 and -70 an "Essential Bus Circuit Breaker Out" indicating system, covered by Service Bulletin 75-20. This system provides a caution light in the cockpit, which monitors the condition of the rear Essential Bus circuit breakers. By a revision of May 24, 1976, Service Bulletin 75-20 also incorporates a press-to-test button in the cockpit.

To date there have been no reports of electrical system failures in models NA-265 (T-39A), NA-265-20 (T-39B), and NA-265-30 (T-39D) airplanes. There are certain differences in the electrical systems and load requirements for these airplanes as compared with models NA-265-40, NA-265-60 and NA-265-70. Therefore the AD requirements for these models are being amended at this time to increase the frequency of checking of the Essential Bus Circuit breaker, but not to require modifications to the aircraft electrical system.

Therefore, in view of the additional electrical system failures and the corrective measures available, the AD is being amended for all NA-265 Series airplanes to:

(1) Require a check of the Essential Bus circuit breakers prior to each flight after the shutdown of both engines.

(2) Incorporate new Airplane Flight Manual material which revises the Certificate Limitations applicable to the circuit breaker preflight check, and adds Emergency Procedures covering the failure of 28V DC Essential Bus system.

(3) Provide for removal of placard in cockpit concurrent with incorporation of AFM revision.

(4) Provide for optional placards at fuselage station 333.

For airplane models NA-265-40, -60 and -70, the following additional items are being required:

(1) The installation of five 140 ampere circuit breakers and improved ventilation at station 333.

(2) The installation of the Essential Bus Circuit Breaker Out indicating system.

Since a situation exists that requires immediate adoption of the regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2161 (40 FR 16299), AD 75-08-11 is amended as follows:

(1) Revise compliance statement as follows:

For paragraphs (a) through (f), compliance required within the next 50 hours time in service or 30 days, whichever is sooner, after April 14, 1975 (the effective date of Amendment 39-2161, AD 75-08-11), unless already accomplished.

For paragraphs (g) through (i), compliance is required as indicated.

(2) Add a new paragraph (g) as follows:

(g) After August 5, 1976 (the effective date of Amendment 39-2681) the placard specified in paragraph (e), above, may be removed when:

V 41 1149 AUG 2 76 UMI

(1) A placard is installed on or immediately adjacent to the circuit breaker access cover:

'CIRCUIT BREAKER ACCESS', and

(2) A placard is installed on or immediately adjacent to the circuit breaker panel so that it is visible when the circuit breaker access cover is opened:

'CIRCUIT BREAKERS ON THIS PANEL ARE ESSENTIAL TO SAFETY AND MUST BE ACCESSIBLE FOR INSPECTION ON THE GROUND AND IN FLIGHT'

(3) Add a new paragraph (h) as follows:

(h) Before September 1, 1976, unless already accomplished, revise the FAA-approved Airplane Flight Manual (AFM) appropriate to the airplane model as listed below, by incorporating the AFM revision as dated, or later FAA-approved revision. (This revised manual material incorporates revised Certificate Limitations pertaining to the circuit breaker preflight check, and new Emergency Procedures covering the failure of the 28V DC Essential Bus system).

Model and AFM	*Date of AFM revision*
NA-265 (T-39A)—NA-61-3..	July 19, 1976.
NA-265-20 (T-39B)—NA-61-3.	Do.
NA-265-30 (T-39D)—NA-61-3.	Do.
NA-265-40(S/N 1-97)—NA-62-1300; (S/N 98-137)—NA-72-25.	Do.
NA-265-60—NA-66-1030	Do.
NA-265-70—NA-69-422	Do.

Concurrently with incorporating this AFM revision, remove AFM material specified in paragraph (c) and the placard specified in paragraph (d).

(4) Add a new paragraph (i) as follows:

(i) For models NA-265-40, NA-265-60 and NA-265-70

(1) Before October 15, 1976, unless already accomplished, comply with Part I of Rockwell International Service Bulletin No. 11 as revised May 14, 1976 or later FAA-approved revision, to provide improved circuit breaker cooling at Station 333.

(2) Before April 25, 1977, unless already accomplished:

(i) Comply with Part II (replacement of five 100 ampere circuit breakers with five 140 ampere circuit breakers at Station 333 and providing additional circuit breaker cooling), of Rockwell International Service Bulletin No. 11 as revised May 14, 1976, or later FAA-approved revision, and

(ii) Install an 'Essential Bus Circuit Breaker Out' caution light and test circuit system in accordance with Rockwell International Service Bulletin No. 75-20 as revised May 24, 1976 or later FAA-approved revision.

(iii) When the replacement of the five circuit breakers in accordance with subparagraph (i)(2)(i) is accomplished the requirements of Paragraph (b) no longer apply to the five circuit breakers located at station 333.

This amendment becomes effective August 5, 1976.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on July 21, 1976.

LYNN L. HINK,
Acting Director,
FAA Western Region.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-962, Amdt. 52; Docket 29387]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Compensation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. July 27, 1976.

By ER-896, adopted January 17, 1975,[1] the Board amended Part 288 of the Economic Regulations (14 CFR Part 288) establishing minimum rates for foreign and overseas air transportation services performed by air carriers for the Department of Defense (DOD) and procured by the Military Airlift Command (MAC). On June 11, 1976, nine carriers[2] jointly filed a petition requesting that the Board institute a full-scale rate review for amendment of Part 288 of the Economic Regulations and § 399.16(b) of the Policy Statements to establish new minimum rates for foreign and overseas military charter air transportation. The carriers also request that, pending completion of the review, the Board take immediate action to establish interim final rates effective on and after July 1, 1976, consistent with past practice.[3] The petitioners request interim final rates reflecting increases of 7.64 percent for passenger services and 15.05 percent for cargo services over the rates established in ER-896, based on an analysis of CAB Form 243 reported data for MAC Category B operations during calendar year 1975 (excluding services with wide-body aircraft) allocated to passenger and cargo services. The joint MAC carriers also applied a 25 percent reduction factor for potential adjustments to the reported data.

Answers were timely filed by Northwest Airlines, Inc. (Northwest) and by the DOD.

Northwest supports the requests of the joint MAC carriers, citing cost increases it has experienced in performing MAC charter services since the adoption of ER-896.

The DOD does not object, on procedural grounds, to the request for interim final rates based on an analysis of Form 243 reports and the initiation of a full-scale rate review as long as the revised rates are set prospectively. However, the DOD does object to the interim final rate increases and the effective date of July 1, 1976, proposed by the joint MAC carriers. The DOD recommends interim final rate increases of 5.21 and 4.53 percent for round-trip and one-way passenger services, respectively, and 5.48 and 15.05 percent for round-trip and one-way cargo services, respectively, above the base rates established in ER-896. These recommendations are based on the DOD's analyses of the reported Form 243 data for calendar year 1975, exclusive of operations performed with wide-body equipment. The DOD has adjusted the investment and depreciation expense consistent with levels recognized in ER-896 (as modified for changes in daily utilization and revenue aircraft-miles per hour) and the indirect operating expense (except passenger service expense) to the amounts which are derived from application of the ratio for such expenses to the total of direct operating expenses plus passenger service expenses as set forth in the appendices to ER-896. Furthermore, the DOD takes exception to the joint MAC carriers' allocation of investment and expense amounts between passenger and cargo services. Finally, the DOD has, in addition to the adjustments mentioned above, applied the carriers' proposed 25 percent reduction factor to arrive at the recommended rate increases.

Based on the carriers' showing that the currently effective rates are inadequate coupled with the Department of Defense's concurrence, the Board is hereby instituting a full-scale review of Part 288 minimum rates for foreign and overseas transportation services performed by air carriers under contracts with the Military Airlift Command and establishing herein interim final rates for such services pending completion of the full-scale review.

As indicated above, the interim rate proposals of the carriers and of DOD are based on different methodologies, both of which represent departures from past practice which we believe produced fair and reasonable interim final rates. Moreover, the adoption at this time of a new rate-calculation methodology would unduly delay implementation of interim rate relief which both the joint petitioners and the DOD agree is clearly warranted. In these circumstances, the Board has concluded that, consistent with our established policy and practice, the interim final rates, as set forth herein, should be based on an analysis of the most recent available Form 243 reported data, the twelve months ended March 31, 1976. As set forth in the attached appendices, adjustments to the carriers' reported investment and operating expense data have been made on the same bases as in previous interim final rate determinations.[4] Also, consistent with our prior practice and for the same reasons, results of operations with wide-body equipment have not been included in the rate determinations.[5] An additional adjustment has been made to reflect for the base year's operations the current average prices of military and commercial fuel as of June 1, 1976; and, thus, the interim final rates established herein incorporate the current fuel surcharge rates established by ER-955, July 1, 1976.[6]

The adjusted reported returns on investment for the twelve months ended March 31, 1976, as set forth in Appendix B, were —2.59 and —5.00 percent for the long-range and short-range "all other" carriers, respectively. As set forth in Appendix A, the long-range and short-range "all other" carriers require $14.1 million and $128,000, respectively, to achieve the recognized level of return on investment, or, increases in the current final rates of 10.62 and 5.66 percent for the long-range and short-range "all other" carriers, respectively. On the basis of these results, we will amend the current final minimum MAC rates adopted in ER-896 and amended by ER-955 as follows: (1) increase the long-range Category B and Category A rates by 10.62 percent; [7] (2) increase the short-range Pacific interisland Category B rates by 5.66 percent; [8] and (3) increase the short-range "all other" Category B rates by 5.66 percent.

In accordance with past practice, we have eliminated the notice procedures and are establishing the amendments herein, on a final basis, to be effective seven calendar days after adoption of this rule. This procedure represents a reasonable balancing of the conflicting interests of the carriers in obtaining prompt rate relief and of the DOD in maintaining rate finality. In order to permit interested persons to make their views known, we will permit the filing of petitions for reconsideration of this rule. Any adjustment to the interim final rates adopted herein resulting from a review of such petitions will be effective prospectively. Twenty (20) copies of such petitions shall be filed with the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428 on or before August 13, 1976. Copies of any petition filed will be available in the Docket Section for inspection and copying by interested persons. The filing of petitions shall not operate to stay the effective date of the within-rule amendment.

In view of the carriers' need for prompt rate relief, we find good cause exists to make the amendments effective on less than thirty (30) days' notice. Also, for the reasons previously set forth, we find that notice and public proceeding herein are unnecessary.

In consideration of the foregoing, the Board hereby amends Part 288 of the Economic Regulations (14 CFR Part 288) effective August 3, 1976 as follows:

1. Revise § 288.7 (a) and (d) (1) and (2) to read as follows:

§ 288.7 Reasonable level of compensation.

50 and 3							4.745	9.249
46 and 4							4.720	9.213
0 and 7							4.425	8.806

1/ Conversion rates shall apply only for flights that are converted a minimum of 10 days in advance of the performance of the service. Conversion charges for convertible flights or variable mixed flights shall be at the rate of $75 per seat changed on each segment. If a flight is converted with less than 10 days' notice, the one-way rates shall apply to each leg of the converted round trip.
2/ For the Coral Sea variable mixed operation the conversion charge shall be $207 per cargo pallet in lieu of a seat charge.
3/ Also applies to wide-bodied (B-747, DC-10, and L-1011) equipment.
4/ Shall also apply to the L-382/L-100-10/20/30 and CV-990 aircraft.

[1] ER-896 has been amended periodically for fuel surcharge rates; the currently effective rates were fixed by ER-955, July 1, 1976.

[2] Airlift International, Inc.; Capitol Airways, Inc.; The Flying Tiger Line Inc.; Overseas National Airways, Inc.; Pan American World Airways, Inc.; Saturn Airways, Inc.; Seaboard World Airlines, Inc.; Trans International Airlines, Inc.; and World Airways, Inc.

[3] The interim final rate procedure, adopted by the Board during the prior full-scale review, is intended to maintain prospective final rates, thereby minimizing retroactive MAC ratemaking.

[4] ER-819, ER-867, and ER-879.

[5] ER-867 and ER-879.

[6] Inasmuch as the rates herein incorporate the current fuel surcharges established by ER-955, the provisos to § 288.7 which specify those surcharges are unnecessary and have been eliminated.

[7] By PS-61, adopted January 17, 1975, the Board amended Part 399, specifically § 399.16 (b). By that amendment Category Z minimum charges were established to be the same as the Category B one-way passenger rate per mile set forth in § 288.7 of Part 288 of the Economic Regulations, thus eliminating the need for further amendments of § 399.16(b) whenever the rates in § 288.7 are adjusted.

[8] No short-range Pacific interisland services have been performed since the end of fiscal year 1975. However, in order to maintain this rate on a current basis in case of resumption of this service and since this service has been provided with the same aircraft type (B-727) as the short-range "all other" services, we are providing for the same increase in the current short-range Pacific interisland rates as determined for the short-range "all other" rates.

V 41 149 AUG 2 76 UMI

(2) * * *

Provided, That subject to the provisions of § 288.8, the minimum rates set forth above shall not be applicable to passengers or cargo carried on a particular trip in excess of the amount that the contract calls for the DOD to supply and the carrier to provide space: *And provided further*, That if a carrier performs a one-way charter flight carrying nonmilitary traffic for a nonmilitary user, the carrier may charter the return flight of that aircraft to the DOD at a published one-way charter tariff rate that is in fact available to the general public for equivalent services.

* * * * *

(d) For Category A transportation services performed on and after August 3, 1976:

(1) Passengers, 5.715 cents per passenger-mile.

(2) Cargo, 18.427 cents per ton-mile.

* * * * *

(Secs. 204, 403, and 416 of the Federal Aviation Act of 1958 as amended; 72 Stat. 743, 758, and 771, as amended; 49 U.S.C. 1324, 1373, and 1386.)

Effective: August 3, 1976.

Adopted: July 27, 1976.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

V 41 I 149 AUG 2 76 UMI

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. RM76-5; Order No. 553]

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Small Producer Regulation

JULY 27, 1976.

By Notice issued in Docket No. RM 76-5, August 28, 1975, pursuant to the Administrative Procedure Act, 5 U.S.C. 553 et seq. (APA) and sections 4, 5, 7 and 16 of the Natural Gas Act (Act)[1], the Commission proposed to amend § 157.40 of Part 157, Subchapter E of Chapter I, Title 18 of the Code of Federal Regulations to require small producers, making jurisdictional sales under § 157.40 at a rate in excess of the applicable just and reasonable ceiling established for small producers by the Commission in Opinion No. 742[2], to reduce such rate to the ceilings prescribed in Opinion No. 742.

It was proposed that paragraph (c) of § 157.40, relating to the rate a small producer may charge, and paragraph (f) of § 157.40, relating to purchases by a large producer from a small producer, be revised. Also proposed was the elimination of paragraph (e) of § 157.40 relating to the limitation on the right of a small producer to utilize certain contractual provisions and paragraph (i) of § 157.40 relating to pipeline purchases, inasmuch as there would be no need prospectively for such subparagraphs in the event the Commission required small producers to reduce their rates to the applicable level prescribed in Opinion No. 742, supra.

Numerous comments and replies thereto have been filed in this proceeding by small and large producers, pipelines and various associations. Some of the notices of intent to participate were filed after the September 17, 1975 deadline specified in the notice of proposed rulemaking, but the comments by these parties have been given full consideration by the Commission.

A number of persons filing comments[3] contend that they have relied on the Commission's proposed ceiling of 150 percent,[4] Order No. 428,[5] and the assurance therein that the provisions of their contracts would not be changed. These parties assert that any downward adjustment of their contract rates will violate the sanctity of their contracts, cause a loss of private investor confidence, result in decreased exploratory drilling and the abandonment of marginal wells. For the reasons stated hereinafter, these allegations are without merit.

The Commission, in its September 9, 1974 notice in Docket No. R-393, supra, n. 4, at 9, stated that the level of the rate differential might be "lesser or greater than 50 percent, or that no differential should be permitted."

Furthermore, the Supreme Court in F.P.C. *v.* Texaco, 417 U.S. 380, in reviewing Order No. 428, concluded that the just and reasonable standards of Sections 4 and 5 of the Natural Gas Act apply to all producers, including small producers. While the Court held that the Commission had authority under Section 4 to refrain from imposing a refund obligation on small producers, it also noted (Id. at 394):

> The Court of Appeals rejected what it apparently understood was "the Commission's basic contention all along that the just and reasonable rate standard was not mandatory and that the FPC can simply choose not to regulate rates." Whatever the position of the Commission heretofore has been it wisely does not challenge that aspect of the Court of Appeals judgment. Sections 4 and 5 of the Natural Gas Act require that all gas rates be just and reasonable; and the Court held in *Phillips* that this very prescription applies to the rates of *all* gas producers. (Emphasis added.)

In Opinion No. 742, we determined that the just and reasonable rate for small producer sales should be 130 percent above the applicable rate for a comparable large producer sale.[6] This conclusion was based on the risks of small producers, their relatively weaker credit standing and, consequently, higher borrowing costs, their higher equity financing, and the desirability of reversing the long-term decline in the number of producers in the industry. The Commission therein did not require the producers to reduce their contract rates to 130 percent of the applicable base rate, but instead chose to retain indirect regulation. However, with the adoption of just and reasonable rates for small producers in Opinion Nos. 742 and 742-A,[7] it is in the public interest to require the small producers to reduce their rates to the just and reasonable ceilings. If some marginal wells are threatened with abandonment because of a reduction of rate, the small producer may petition the Commission for special relief.

In their comments filed herein, Consolidated Gas Supply Corporation (Consolidated), National Fuel, Ohio Oil and Gas Association (Ohio) and Sulpetro International Ltd. (Sulpetro) argue that small producers in the Appalachian Area should not be required to reduce their contractual rates. They contend that the geological conditions, drilling costs and productivity levels are markedly different from those found in other producing areas and that, as a result, rates based on average nationwide cost data are inappropriate for gas produced in the Appalachian-Illinois Basin.

In both Opinion No. 639[8] and Opinion No. 699-H, supra n. 6, we refused to establish a separate rate for the Appalachian-Illinois Basin Area. We adhere to that determination. The Court held in Permian Basin Area Rate Cases, 390 U.S. 747 (1968), that the use of average nationwide costs to establish an area rate was a permissible means of rate regulation under the Constitution, *Id.* at 768-770, and the Act, *Id.* at 774-777.

Many of the comments filed herein oppose the proposed deletion of paragraph (i) of § 157.40 of the Commission's regulations. The proposed amendment would shift the burden of justifying a rate in excess of that allowed by Opinion No. 742 from pipeline purchasers to small producers. Abercrombie, Home Petroleum Corporation (Home) and National Fuel oppose this amendment because it eliminates indirect regulation of small producers and forces small producers to shoulder a regulatory burden which they believe they are not equipped to do.

Abercrombie and Columbia Gas Transmission Corporation (Columbia) have proposed alternatives to the blanket reduction of rates to the level established in Opinion No. 742 (and Opinion No. 742-A). Abercrombie suggests that small producers who file contract rates in excess of the 130 percent level should be allowed to collect such excess rates subject to refund pending investigation in pipeline rate cases. Columbia recommends that the price rollback question be reserved by the Commission and that small producers be allowed to come forward with evidence justifying their contract rates in excess of the ceiling established in Opinion No. 742 (and Opinion No. 742-A).

Contrary to this position, Interstate Natural Gas Association of America (INGAA), Panhandle Eastern Pipe Line Company and Trunkline Gas Company (Trunkline) and United Gas Pipe Line Company (United) argue that paragraph (i) of § 157.40 must be eliminated as an improper test of justness and reasonableness. They contend that Opinion No. 742 has already established the just

[5] 45 FPC 454 (1971).

[6] Such determination was based upon application of a 20 percent rate of return to the Opinion No. 699-H DCF analysis (aff'd sub nom National Rate Cases For New Gas (Shell Oil Co. v. F.P.C.), 520 F. 2d 1061 (5th Cir. 1975), cert. denied sub nom, The California Co. et al. v. F.P.C., U.S.L.W., Docket No. 75-1289, June 14, 1976).

[7] Opinion No. 742, supra; Opinion No. 742-A, "Opinion And Order Denying Rehearing And Reconsideration", issued July 27, 1976.

[8] Area Rates for the Appalachian and Illinois Basin Areas, 48 FPC 1269 (1972), affirmed sub nom, Shell Oil Co. et al. v. F.P.C. 491 F. 2d 82 (5th Cir. 1974).

and reasonable rate for small producers and that since the producer may not charge and the pipeline may not pay an amount in excess of that rate, this Subparagraph is no longer necessary.

Natural Gas Pipeline Company of America (Natural) urges the Commission to retain and modify paragraph (i) of § 157.40. Natural maintains that the pipelines should be responsible for justifying their costs in excess of the ceiling imposed by Opinion No. 742 but feels that the proper legal standard for prices paid by pipelines should be "prudently incurred" rather than "just and reasonable" costs.

Since the Commission is eliminating indirect regulation of small producer rates, the burden of seeking a higher rate is on the small producer. The establishment of the rate differentials in Opinion No. 742 and Opinion No. 742-A adequately takes into account the basic differences between small and large producers. As a result, there is no need for indirect regulation of small producers. Accordingly, we shall require all small producers to reduce their rates to the just and reasonable ceilings established in Opinion No. 742 and Opinion No. 742-A effective upon issuance of this order. As stated previously, to the extent a small producer believes it needs special relief in a specific situation, it may seek such relief, but, in such a case, the burden belongs on the small producer.

The Commission finds. (1) The notice and opportunity to participate in this rulemaking proceeding through the submission, in writing, of data, views, comments, and suggestions are in accordance with all procedural requirements therefore as prescribed in section 553, Title 5 of the United States Code.

(2) The action taken herein is necessary and appropriate for the administration of the Natural Gas Act.

(3) In view of the purpose, intent, and effect of the amendments herein ordered, good cause exists for making the amendments effective upon issuance of this order.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly Sections 4, 5, 7, and 16 (52 Stat. 822, 823, 824, 825, and 830; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f, and 717o) *orders:* (A) Section 157.40 in Part 157, Subchapter E of Chapter I, Title 18 of the Code of Federal Regulations is amended by eliminating paragraphs (e) and (i), and by revising paragraphs (c) and (f) to read as follows:

§ 157.40 Exemption of small producers from certain filing requirements.

* * * * *

(c) *Rate and certificate regulation under blanket certificate.* Small producers certificated hereunder shall be authorized to make small producer sales pursuant to existing and future contracts at the following rate levels:

(1) All sales of natural gas by small producers for resale in interstate commerce made in accordance with, and under the provisions of, Opinion Nos. 699, et seq., shall be made at a maximum rate of 130 percent of the applicable base ceiling rate established by the Commission in Opinion No. 699, et seq.

(2) All sales of natural gas by small producers for resale in interstate commerce made in accordance with, and under the provisions of, Opinion Nos. 749, et seq., shall be made at a maximum rate of 35.0¢ per Mcf except as provided for below:

(i) For gas produced in the Permian Basin Area, as defined by Opinion Nos. 662 and 662-A, and sold pursuant to contracts dated on or after October 1, 1968, small producers shall be entitled to collect a maximum rate of 40.5¢ per Mcf.

(ii) For gas produced in the Rocky Mountain Area, as defined in Section 154.109(b) of the Commission's Regulations and Opinion No. 699, et seq., small producers shall be entitled to collect a maximum rate of 40.5¢ per Mcf.

The above rates are subject to any adjustments permitted or required under the particular order of general applicability involved. Such rate may be charged and received by the small producer and paid by the purchaser, as the lawful, just and reasonable rate approved by the Commission pursuant to sections 4, 5, and 7 of the Act. However, no small producer shall be relieved from compliance with section 7(b) of the Natural Gas Act with respect to any small producer sale regulated hereunder. Rate regulation as prescribed herein shall not apply to any jurisdictional sales made by a small producer where the gas reserves relating thereto were acquired by the purchase of developed reserves in place from a large producer. Nothing done hereunder shall be recognized by the Commission as triggering any escalation clause in an existing contract involving a producer not covered by a small producer certificate, except as provided in paragraph (f) of this section.

* * * * *

(f) *Filings by large producers with respect to related resales.* A large producer may file for the price specified in its related contract for the resale of any natural gas sold to it by a small producer pursuant to the exemption authorized hereunder. In determining whether to accept or suspend such a filing, we shall be guided by the rate level sought and the size of the differential between the purchase and resale price. A large producer under an area rate clause in its resale contract may file for the rate paid by it for gas purchased from a small producer as long as the rate does not exceed the just and reasonable rate prescribed in paragraph (c) of this section.

* * * * *

(B) The Secretary shall cause prompt publication of this Order to be made in the FEDERAL REGISTER.

(C) The amendments adopted herein shall be effected on the date of the issuance of this order.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22329 Filed 7-30-76;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0356]

PART 510—NEW ANIMAL DRUGS

Medicated Blocks

The Food and Drug Administration (FDA) is issuing a regulation that requires new animal drug approval for medicated blocks. Applications for approval are required on or before March 19, 1977. Certain allowance is made for continued interim marketing.

The Commissioner of Food and Drugs proposed in the FEDERAL REGISTER of November 7, 1973 (38 FR 30746), that Part 135 (now Part 510 pursuant to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) be amended by adding to Subpart B a new § 135.114 *Animal feed blocks; new animal drug requirements* (now designated § 510.455 of Subchapter E). The purpose of the proposal was to clarify the status of animal drugs when administered in block form.

Comments in response to the proposal were received from livestock producers, producer associations, a feed manufacturers' association, various individual feed manufacturers, several drug manufacturers, an association representing animal drug manufacturers, a university, several veterinarians, a consumer group, and a number of members of Congress. The comments submitted and the Commissioner's conclusions with respect to the comments are as follows:

1. Many comments stated that blocks are not a new means for administration of animal drugs. The comments outlined the use of mineral and salt blocks for many years. In general, the comments indicate that medicated blocks for administration of animal drugs have been in use for approximately 12 years.

In the proposal, it was stated that blocks are a relatively new means for administration of animal drugs. The questions raised appear to concern the words "relatively new." The Commissioner is of the opinion that, in comparison with the other methods of administration of animal drugs, the use of medicated blocks is relatively new. Therefore, the Commissioner is unable to conclude that such means of administration of drugs is generally recognized as safe and effective when considered solely on the basis of use for such a period of time.

V41149 AUG 2 76 UMI

2. Comments from a livestock growers' association, several drug manufacturers, and others stated that use of blocks is an economical way to give drugs to cattle in open grazing areas, where access may be difficult. The comments contended that administration of drugs by other methods would pose many problems, and the proposed regulation would restrict these blocks and alter their economy.

The Food and Drug Administration is concerned with safe and effective use of animal drugs. The regulation is not intended to eliminate blocks for administration of drugs to animals, but to require submission of data consisting of adequate and well-controlled studies establishing safety and efficacy to comply with the requirements of the law. An even greater economic impact on the grower than may result from the proposed regulation would be the costs related to the use of drug products that have not been demonstrated to be safe and effective and that may not provide the benefits expected.

3. Comments stated that use of medicated blocks is one of the few techniques that ensures that timid and/or slow-eating animals receive an effective dose of orally administered drugs. It was suggested that labeling include data on average daily consumption per head, effective levels, harmful levels, stability, and warnings on the effects of overconsumption.

No data of adequate and well-controlled studies were submitted in support of these comments to establish the effectiveness of drugs administered in blocks for the treatment of livestock.

4. Many comments from associations, manufacturers, and others stated that there have been no complaints of ineffectiveness with regard to use of medicated blocks; safe and effective use of medicated blocks should be generally apparent; and antibiotics in blocks are the most economical and effective treatment of anaplasmosis, resulting in a considerable reduction in the high loss otherwise occurring from the disease. Elimination of this mode of administration of drugs would remove the only feasible method available for treating range cattle.

The comments were not supported by adequate and well-controlled studies to establish efficacy of medicated blocks for prevention or control of anaplasmosis and other diseases. The comments contained data that were testimonial and by themselves do not constitute substantial evidence of safety and efficacy that is needed to support approval of an application, as described in §§ 514.1(a)(8) and 514.111(a)(5) (21 CFR 514.1(a)(8) and 514.111(a)(5)) of the new animal drug regulations. The Commissioner concludes that submission of data is required to establish effectiveness of medicated blocks for the conditions recommended, suggested, or prescribed in their labeling.

5. Comments from block manufacturers and a block manufacturers' association stated that stability of chlortetracycline in blocks exceeds that in conventional forms of feeds. The comments also stated that manufacturing pellets and crumbles requires heat, steam, and high pressure, whereas less stress is required for manufacturing medicated blocks.

Due to the varying conditions of manufacture and use of medicated blocks, the Commissioner concludes that drug stability may vary, depending on the particular drug involved, the composition of the block, and the specific conditions under which the block is used, including exposure to weather during the variable time intervals that may be required for complete block consumption. It is the purpose of the regulation to assure safety and efficacy of medicated blocks under the specific conditions of use that will be encountered. Data are required to substantiate the claimed stability, including conditions of field exposure.

6. Comments from veterinarians, livestock growers, and block manufacturers and their associations pointed out the cost of obtaining the necessary data and the economic impact on continued use of medicated blocks. Objections stated that the time and expense of obtaining the necessary administrative clearances for use of medicated blocks would result in their becoming an uneconomical method of administering drugs, would limit their availability or even force them from the market, and would unnecessarily restrict the introduction of newer drugs in medicated blocks.

The kind of data required by the regulation is the same kind as required for other new animal drugs. The Federal Food, Drug, and Cosmetic Act requires the submission of data to establish substantial evidence of effectiveness and to establish safety by adequate and well-controlled studies for the marketing of new animal drugs. The requirement that medicated blocks be safe and effective is not inconsistent with economic considerations. The cost of obtaining the necessary data to establish safe and effective conditions of use could be exceeded by the economic loss to producers through use of unsafe or ineffective products.

7. Comments from a block manufacturers' association, a block manufacturer, and a drug manufacturer suggested that medicated blocks should be considered as medicated feeds and subject to approval pursuant to section 512(m) of the act (21 U.S.C. 360b(m)) rather than section 512(c) of the act (21 U.S.C. 360b(c)). They expressed the opinion that feed mills are not drug manufacturers and are not prepared at this time to develop the required information necessary to comply with the drug provisions of the act. They also requested that approvals be given on the basis of data for typical block formulations rather than specific formulations. Comment from a manufacturer of a drug used in medicated blocks stated that rather than delineating a specific type of block, the regulations should specify label requirements only.

The Commissioner concludes that composition, hardness, and drug concentration may influence stability and consumption rate, and therefore, the safety and effectiveness of medicated blocks may be affected. Accordingly, these factors will be evaluated by regarding medicated premixes for use in the manufacture of medicated blocks as new animal drugs under the provisions of section 512(b) of the act. Insufficient information is currently available to assure that all medicated blocks produced can be treated as a class. Also, data are not currently available to prescribe drug consumption rates of medicated blocks. Approval will be required for specific premix and medicated block formulations, unless data are adequate to support stability and consumption rates of drugs in general classes of block formulations. The manufacture of medicated blocks will be approved by one of two courses of action. A new animal drug application may be submitted under section 512(b) of the act for the manufacture of finished medicated blocks or such an application may be submitted for a premix to be used by holders of applications approved under section 512(m) of the act in producing finished medicated blocks. The manufacture of medicated blocks from premixes approved under section 512(c) of the act will require an approval pursuant to section 512(m) of the act. Alternatively, new animal drug applications (NADA's) submitted for approval pursuant to section 512(c) of the act for the manufacture of finished medicated blocks will be deemed oral dosage form drugs and will not provide a basis for approval of medicated feed applications.

8. Comment from a university suggested that more time be provided to acquire the necessary data regarding medicated blocks.

The Commissioner has considered this suggestion and concludes that 180 days should be provided for the submission of applications establishing the safety and efficacy of medicated blocks. Medicated blocks may be marketed for an interim period of 15 months after which marketing shall be only in accordance with an approved application for a premix to provide a basis for approval of applications pursuant to section 512(m) of the act or an approved application for the marketing of medicated blocks pursuant to section 512(c) of the act.

9. Comment from a manufacturer of drugs used in fabricating medicated blocks stated that the proposal would unnecessarily add to the Food and Drug Administration's current overload of mandated duties.

The Commissioner is of the opinion that use of medicated blocks is an important area of responsibility subject to the provisions of section 512 of the act and, therefore, must be given appropriate consideration under the law.

10. Comments from an animal drug and animal feed manufacturers' association suggested that the regulation be clarified to define medicated blocks and to set them apart from other forms of drug administration by describing the blocks as weighing over 2 pounds and generally 30 to 50 pounds in weight as currently defined by the Association of American Feed Control Officials.

The Commissioner advises that the regulation has been modified to include a definition for medicated blocks as agglomerated feed containing one or more drugs compressed into a solid mass, cohesive enough to hold its form, and of such size that they are not intended to be fully consumed at a single feeding. A weight limitation has not been included in the regulation since to do so would necessarily result in setting arbitrary limits. Medicated blocks weighing less than 2 pounds have been approved for administration to baby pigs. The term "medicated feed block" has been replaced by the term "medicated block" since, by definition, such articles are agglomerated feed.

11. Members of a consumer organization endorsed the proposal and adoption of the regulation; however, they were concerned that FDA had unnecessarily delayed proposing the regulation. They commented that the public was entitled to know why the proposal had been delayed and asked FDA to provide an explanation. They further commented that the proposed 90-day grace period for medicated blocks currently on the market is too long and unwarranted. They believe the manufacturers could and should be required to submit safety and efficacy data within 30 days after final promulgation; they opposed granting a 30-day period in which to file an NADA.

As stated above, use of medicated blocks is relatively new. Medicated animal blocks have always been subject to the requirements of the drug provisions of the act. The regulation is intended to clarify the status of animal drugs in blocks and require additional data further to ensure safe and effective use of said drugs. The Commissioner is not aware of any data indicating that present uses of medicated animal blocks constitute a hazard to consumers. The Commissioner, therefore, concludes that the interim periods for the submission of applications established by this regulation are justified.

The Commissioner concludes that the regulation, as proposed, should be issued with the following changes:

a. The section is codified in Part 510—New Animal Drugs, Subpart E—Requirements For Specific New Animal Drugs.

b. The title of the section is revised to refer to medicated blocks.

c. Medicated blocks are defined to differentiate them from other forms of feed.

d. An application approved pursuant to section 512(c) of the act for the manufacture of a premix bearing adequate directions for the subsequent manufacture of medicated blocks shall provide a basis for the approval of applications pursuant to section 512(m) of the act. Such medicated feed applications shall include, in addition to the other currently required information, a description of the manufacturing facilities, equipment, and controls that will be used to meet the specifications set forth for the finished medicated block.

e. An application may be submitted pursuant to section 512(b) of the act for approval for the manufacture of a finished medicated block. Approved applications of this kind do not provide a basis upon which an application can be approved pursuant to section 512(m) of the act.

f. The period of time for the submission of NADA's has been extended to 180 days after the effective date of the final regulation. A period of 12 months is provided after which marketing of a medicated premix intended for the manufacture of a medicated block shall only be in accordance with an approval application. A period of 15 months is provided after which marketing of a finished medicated block shall only be in accordance with an approved application.

The Commissioner has carefully considered the environmental effects of the regulation and, because the action would not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. A copy of the FDA environmental impact assessment is on file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343-351 (21 U.S.C. 360b, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 510 is amended by adding to Subpart E new § 510.455 to read as follows:

§ 510.455 New animal drug requirements for medicated blocks.

(a) For the purpose of this section, medicated blocks are agglomerated feed containing one or more drugs compressed into a solid mass, cohesive enough to hold its form, and of such size that they are not intended to be fully consumed at a single feeding. They are usually placed in feeding or grazing areas and consumed by animals as a free-choice supplemental source of nutrients to their diet.

(b) The Commissioner of Food and Drugs has concluded that there are questions regarding the safety and effectiveness of drugs when administered in medicated blocks. Therefore, it has been concluded that medicated blocks constitute a new animal drug, use for which approved applications are required.

(c) An application submitted for approval pursuant to section 512(c) of the act shall provide for either:

(1) The manufacture of a finished medicated block (such an approval will not provide a basis upon which an application can be approved pursuant to section 512(m) of the act); or,

(2) The manufacture of a medicated premix for use in the subsequent manufacture of a medicated block. (Such an approval will provide a basis upon which an application can be approved pursuant to section 512(m) of the act.)

(d) An application submitted for approval pursuant to section 512(m) of the act shall include in addition to the other required information, a description of the manufacturing facilities and controls that will be used to meet the specifications set forth for the finished medicated block.

(e) In order to provide an adequate period of time for manufacturers to obtain approved applications for use of specified drugs in specific types of blocks, the following transitional provisions shall apply:

(1) All persons interested in the continued marketing of a medicated block that is not produced from a medicated premix, or in the continued marketing of a medicated premix intended for use in the manufacture of a medicated block, shall submit a new animal drug application (NADA) requesting approval of such use pursuant to section 512(b) of the act on or before March 1, 1977.

(2) Any existing use of a specific animal drug in a specific type of medicated block (not produced from a medicated premix) marketed prior to March 1, 1977 for which a new animal drug application has been filed in accordance with paragraph (e)(1) of this section may continue on an interim basis until December 1, 1977, after which marketing shall be only in accordance with an application approved pursuant to section 512(c) of the act.

(3) Any existing use of a specific animal drug in a premix for use in the manufacture of medicated blocks marketed prior to March 1, 1977 for which a new animal drug application has been filed in accordance with paragraph (e)(1) of this section may continue on an interim basis until September 1, 1977, after which marketing shall be only in accordance with an application approved pursuant to section 512(c) of the act.

(4) Any existing use of a specific animal drug in a specific type of medicated block (manufactured from a premix) marketed prior to March 1, 1977 may continue on an interim basis until December 1, 1977, after which marketing shall be only in accordance with an application approved pursuant to section 512 of the act.

(5) No new medicated block not marketed prior to March 1, 1977 may be introduced into interstate commerce in the absence of an approved application. No medicated block marketed on an interim basis under paragraph (e)(2) and (3) of this section shall be introduced into interstate commerce unless subject to an application approved pursuant to section 512(c) or 512(m) of the act after December 1, 1977. Medicated blocks, or premixes intended for their manufacture, that are introduced into interstate commerce and are not in compliance with this section will be subject to regulatory action.

Effective date: This regulation shall be effective September 1, 1976.

(Secs. 512, 701(a), 52 Stat. 1055, 82 Stat. 343-351 (21 U.S.C. 360b, 371(a)).)

Dated: July 26, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-22225 Filed 7-30-76;8:45 am]

V 41 1149 AUG 2 76 UMI

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT-FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-76-403]

DEBENTURE INTEREST RATES

The following amendments have been made to this chapter to change the debenture interest rate. The Secretary has determined that advance publication and notice and public procedure are unnecessary since the debenture interest rate is set by the Secretary of the Treasury in accordance with a procedure established by statute and that good cause exists for making this amendment effective on July 1, 1976.

Accordingly, Chapter II is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart B—Contract Rights and Obligations

1. Section 203.405 is revised to read as follows:

§ 203.405 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semi-annually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the mortgage was endorsed for insurance, whichever rate is higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
5¾	July 1, 1971	Jan. 1, 1972
5¾	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	July 1, 1973
6	July 1, 1973	Jan. 1, 1974
6¼	Jan. 1, 1974	July 1, 1974
6⅜	July 1, 1974	July 1, 1975
7	July 1, 1975	Jan. 1, 1976
7⅛	Jan. 1, 1976	July 1, 1976
7	July 1, 1976	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

2. Section 203.479 is revised to read as follows:

§ 203.479 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the loan was endorsed for insurance, whichever rate is the higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
5¾	July 1, 1971	Jan. 1, 1972
5¾	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	July 1, 1973
6	July 1, 1973	Jan. 1, 1974
6¼	Jan. 1, 1974	July 1, 1974
6⅜	July 1, 1974	July 1, 1975
7	July 1, 1975	Jan. 1, 1976
7⅛	Jan. 1, 1976	July 1, 1976
7	July 1, 1976	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart B—Contract Rights and Obligations

In § 207.259 paragraph (e)(6) is revised to read as follows:

§ 207.259 Insurance benefits.

* * * * *

(e) Issuance of debentures. * * *

(6) Bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date of initial insurance endorsement of the mortgage, whichever rate is the higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
5¾	July 1, 1971	Jan. 1, 1972
5¾	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	July 1, 1973
6	July 1, 1973	Jan. 1, 1974
6¼	Jan. 1, 1974	July 1, 1974
6⅜	July 1, 1974	July 1, 1975
7	July 1, 1975	Jan. 1, 1976
7⅛	Jan. 1, 1976	July 1, 1976
7	July 1, 1976	

* * * * *

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 207, 52 Stat. 16, as amended; 12 U.S.C. 1713)

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

Subpart D—Contract Rights and Obligations—Projects

Section 220.830 is revised to read as follows:

§ 220.830 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the loan was endorsed for insurance, whichever rate is higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
5¾	July 1, 1971	Jan. 1, 1972
5¾	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	July 1, 1973
6	July 1, 1973	Jan. 1, 1974
6¼	Jan. 1, 1974	July 1, 1974
6⅜	July 1, 1974	July 1, 1975
7	July 1, 1975	Jan. 1, 1976
7⅛	Jan. 1, 1976	July 1, 1976
7	July 1, 1976	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 220, 68 Stat. 596, as amended; 12 U.S.C. 1715k)

Effective date: These amendments are effective as of July 1, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing.

[FR Doc 76-22118 Filed 7-30-76;8:45 am]

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2242]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Suspension of Community Eligibility

The purpose of this notice is to list communities wherein the sale of flood insurance as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) will be suspended because of noncompliance with the program regulations (23 CFR Part 1909 et seq.).

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and insurance is purchased. Accordingly, for communities listed under this Part such restriction exists as of the effective date of suspension because insurance, which is required, cannot be purchased.

Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities suspended in this notice no longer meet that statutory requirement. Accordingly, the communities are suspended on the effective date in the list below:

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 List of eligible communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Colorado	Arapahoe	Sheridan, city of	February 4, 1974, emergency; July 13, 1976, regular; Sept. 15, 1976, suspended.	May 3, 1974 Jan. 23, 1976	080018A

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, (34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974)

Issued: July 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 76-036]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Danvers River, Massachusetts, Passaic River, New Jersey, Arkansas River, Arkansas, Coos Bay, Oregon and Isthmus Slouth, Oregon

This amendment revokes several temporary regulations for drawbridges because the repairs to the bridges have been completed.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations, is amended as follows:

§ 117.65a [Removed]

1. By revoking § 117.65a.

§ 117.200 [Amended]

2. By revoking § 117.200 (j) and (k).

§ 117.556 [Amended]

3. In § 117.556(b), by revoking the second sentence.

§ 117.720(a) [Removed]

4. By revoking § 117.720(a).

§ 117.722 [Removed]

5. By revoking § 117.722.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on August 2, 1976.

Dated: July 27, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.76-22313 Filed 7-30-76;8:45 am]

[CGD 76-152]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Siuslaw River, Oregon

This amendment revokes the regulations for the Oregon State Highway Commission bridge at Florence contained in § 117.730 because these regulations are now included in § 117.759b(f)(11).

§ 117.730 [Removed]

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revoking § 117.730.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on August 2, 1976.

Dated: July 27, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.76-22312 Filed 7-30-76;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Counseling; Change or Reentrance

On page 20425 of the FEDERAL REGISTER of May 18, 1976, there was published a notice of proposed regulatory development to amend § 21.4106 to delete the requirement that the Veterans Administration counselor shall refer to the Vocational Rehabilitation Board recommendations for disapproving reentrance into training or changes of programs of a veteran or eligible person following discontinuance due to unsatisfactory progress or conduct.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

One comment was received endorsing the proposed change. However, the person commenting may have misconstrued the actual effect of the proposed change. The individual endorses the change because he believes that the existing procedures result in unwarranted delay due to the lack of expeditious Veterans Administration scheduling of required counseling. It should be noted that the proposal will not have any effect in this regard because it does not in any way alter the counseling requirement. The only effect of the change, so far as case processing time is concerned, would be in those cases where the Veterans Administration counseling psychologist is unable to make a favorable recommendation that the veteran or other eligible person should be allowed to reenter training following unsatisfactory progress or conduct. Under the amended regulation the counselor will advise the adjudicative activity that such a student may not reenter training, and will not be required to refer the case to the Vocational Rehabilitation Board for final determination. By eliminating the necessity for the Vocational Rehabilitation Board to review and act on these cases following counseling, overall processing time in these instances will be reduced. The proposal is considered to be desirable and is, therefore, adopted without change.

Effective date: This VA Regulation is effective July 27, 1976.

Approved: July 27, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

In § 21.4106, paragraph (b) is revised to read as follows:

§ 21.4106 Counseling: change or reentrance.

* * * * * *

(b) *Approval.* The counselor will recommend approval of a change of program or reentrance into the same program, if he or she finds that the program which the veteran or eligible person proposes to pursue is suitable to his or her aptitudes, interests, and abilities; and where the veteran's or eligible person's program has been interrupted, or he or she has failed to progress in, his or her program due to his or her own misconduct, neglect or lack of application, the cause for the unsatisfactory conduct or progress has been removed and there exists a reasonable likelihood that there will not be a recurrenceof such an interruption or failure to progress. Subject to this approval criteria, approval for

V 41 149 AUG 2 76 UMI

changes of program subsequent to the second change may be recommended.

[FR Doc.76-22246 Filed 7-30-76;8:45 am]

PART 36—LOAN GUARANTY

Mobile Home Loans; Increase in Maximum Guaranty

The Veterans Administration is amending the appropriate sections of Part 36, Title 38 of the Code of Federal Regulations to implement the Veterans Housing Amendments Act of 1976 (Pub. L. 94-324; 90 Stat. 720) which makes substantive changes in the Veterans Administration Loan Guaranty program.

The Administrator is now authorized to guarantee not in excess of 50 percent of a mobile home loan. The amendments to §§ 36.4205(a) and 36.4210 of this title will implement the statutory revision.

The eligibility requirements for veterans who served after January 31, 1955 are now set forth in the loan guaranty section of Title 38, United States Code (chapter 37), eliminating the need to incorporate by reference similar requirements of 38 U.S.C. 1652(a). The amendments to §§ 36.4301(gg) and 36.4501(o) of this title will implement the statutory revisions.

Section 10 of Public Law 91-584 (84 Stat. 1575), amending 38 U.S.C. 1652 (a)(2), rendered obsolete the Loan Guaranty definition in § 36.4501(p). Section 36.4501(p) is therefore revoked.

In addition minor editorial changes have been made in § 36.4504 (a) and (b)(2)(iii), to reflect agency policy of using precise terms to denote gender.

Compliance with the provisions of § 1.12 of this chapter is waived in this instance. The substantive changes implement statutory mandate. Those changes not required by statute are editorial rather than substantive. Compliance with § 1.12 would serve little purpose and would not be in the public interest.

1. In § 36.4205, paragraph (a) is revised to read as follows:

§ 36.4205 Computation of guaranty.

(a) The amount of the guaranty in respect to a loan guaranteed under 38 U.S.C. 1819 shall be fifty (50) percent of the loan. The amount of the guaranty is reduced or increased pro rata with any reduction or increase in the amount of the guaranteed loan.

* * * * *

2. Section 36.4210 is revised to read as follows:

§ 36.4210 Joint loans.

The joinder of the spouse of a veteran-borrower in the ownership of the property purchased with the loan proceeds shall not preclude issuance of guaranty based upon the entire amount of the loan. The amount or percentage of guaranty may not, however, be increased beyond the 50 percent maximum by reason of such spouse's eligibility for the mobile home loan benefit or by the joinder in ownership of the property of more than one eligible veteran.

3. In § 36.4301, paragraph (gg) is revised to read as follows:

§ 36.4301 Definitions.

* * * * *

(gg) *A period of more than 180 days.*—For the purposes of section 1818 of title 38, United States Code, the term "a period of more than 180 days" shall mean 181 or more calendar days of continuous active duty.

* * * * *

4. In § 36.4501, paragraph (o) is revised and paragraph (p) is revoked so that paragraph (o) reads as follows:

§ 36.4501 Definitions.

* * * * *

(o) *A period of more than 180 days.*—For the purposes of section 1818 of title 38, United States Code, the term "a period of more than 180 days" shall mean 181 or more calendar days of continuous active duty.

(p) [Revoked]

5. In § 36.4504, paragraphs (a) and (b)(2)(iii) are revised to read as follows:

§ 36.4504 Loan closing expenses.

(a) The Veterans Administration will designate a loan closer to represent the Veterans Administration at the closing and in advance thereof will agree with the loan closer upon the fee to be paid by the Veterans Administration for preparing the loan closing instruments and attendance at the closing of the loan. The loan closer as such is neither an agent nor employee of the Veterans Administration.

(b) * * *

(2) * * *

(iii) That portion of taxes, assessments, and other similar items for the current year chargeable to the borrower and the initial deposit (lump-sum payment) for the tax and insurance account;

* * * * *

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

Effective date: Sections 36.4205(a) and 36.4210 are effective July 1, 1976, §§ 36.4301(gg) and 36.4501(o) are effective June 30, 1976 and the revocation of § 36.4501(p) is effective July 27, 1976.

Approved: July 27, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

[FR Doc.76-22245 Filed 7-30-76;8:45 am]

Title 40—Protection of Environment

[FRL 591-4]

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

PART 420—IRON AND STEEL MANUFACTURING POINT SOURCE CATEGORY

Interim Final Rulemaking; Correction

Notice is hereby given that the Environmental Protection Agency (EPA) is correcting 40 CFR 420, Iron and Steel Manufacturing Point Source Category as set forth below. On March 29, 1976, the Agency published a notice of interim final rulemaking (41 FR 12990) establishing effluent limitations and guidelines for existing sources for the iron and steel manufacturing point source category.

The purpose of this notice is to correct errors in the preamble and Subparts O and Q. The corrections encompass typographical and computational errors and do not involve any substantive or policy issues.

Because the comment period has closed, the Agency will accept amendments to comments already filed where, and to the extent, such comments specifically relied upon numbers or words contained in the March 29 notice and corrected today. Amended comments must be received on or before September 1, 1976.

In FR Doc. 76-8351 appearing on pages 12990 through 13014 in the issue of March 29, 1976, the following corrections are being made:

1. On page 12997, paragraph (4)(b) is corrected to read:

(b) The best available technology economically achievable includes the best practicable control technology currently available and recycle to the sprays of 820 gpt (1180 gpt for alloy) of filter effluent, with a discharge of 25 gpt (40 gpt for alloy). The best available demonstrated control technology, processes, operating methods or other alternatives is limited water usage of 614 gpt (1230 gpt for alloy), in combination with best practicable control technology currently available and the best available control technology economically achievable to achieve a discharge blowdown rate of 10 gpt (20 gpt for alloy).

2. On page 13002, comment number 5, the second paragraph is corrected to read: "The applicability section of Subparts M through U and W through Z (the "operations" oriented subparts) all specify that the limitations apply only to the process wastewater discharges."

3. On page 13007, § 420.152(c), "Suspended solids____1.1280____0.3760" is corrected to read "Suspended solids____1.1718____0.3906".

4. On page 13007, § 420.152(c), "Oil and grease____1.1280____0.3760" is corrected to read "Oil and grease____1.1718____0.3906".

5. On page 13008, § 420.172(c), "* * * English units, 1b/1000 ob * * *" is corrected to read "* * * English units, 1b/1000 lb * * *".

6. On page 13008, § 420.172(c), "Dissolved iron '" is corrected to read "Dissolved iron".

7. On page 13008, § 420.172(c), "Oil ans grease" is corrected to read "Oil and grease".

Dated: July 21, 1976.

JOHN QUARLES,
Acting Administrator.

[FR Doc.76-22361 Filed 7-30-76;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 8—VETERANS ADMINISTRATION

PART 8-1—GENERAL

PART 8-3—PROCUREMENT BY NEGOTIATION

Minority Business Enterprises and Small Purchases

Federal Procurement Regulations Amendment 148 added Federal Procurement Regulations § 1-1.1302 which prescribes agency minority business enterprise program procedures which supersede certain information heretofore contained in § 8-1.1350. Redundant material in § 8-1.1350 is deleted and the section is renumbered accordingly.

Federal Procurement Regulations Amendment 153 amended Federal Procurement Regulations § 1-3.603-1 by prescribing that reasonable competition be obtained for small purchases in excess of $500. Consequently, § 8-3.603-1 is extraneous and is hereby deleted.

It is the general policy of the Veterans Administration to allow time for interested parties to participate in the rule making process (§ 1.12, Title 38, Code of Federal Regulations). However, the amendments herein concern agency practices and procedures. Therefore, the public rule making process is deemed unnecessary in this instance.

1. In Subpart 8-1.13, § 8-1.1302 is added to read as follows:

§ 8-1.1302 Agency programs.

The Administrator, in implementation of the desires of the President to enhance the sharing of the nation's minorities in the free enterprise system, has pledged the full participation of the Veterans Administration in achieving this goal. The VA Committee on Minority Business Enterprise establishes goals to be achieved by this agency in the award of contracts during each fiscal year. To achieve these goals, it is essential that contracting officers exercise their best efforts to determine which requirements can be channeled into this program.

§ 8-1.1350 [Revoked]

2. Section 8-1.1350 is revoked.

§ 8-3.603-1 [Revoked]

3. In Subpart 8-3.6, § 8-3.603-1 is revoked.

(72 Stat. 1114, sec. 205(c), 63 Stat. 390; 38 U.S.C. 210, 40 U.S.C. 486(c))

Effective date: This regulation is effective August 2, 1976.

It is hereby certified that the economic and inflationary impacts on this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

Approved: July 27, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

[FR Doc.76-22244 Filed 7-30-76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20779; FCC 76-698]

PART 73—RADIO BROADCAST SERVICES

Report and Order

By the Commission: Chairman Wiley absent.

In the Matter of Amendment of Part 73 of the Commission's Rules Relating to Broadcasts by Legally Qualified Candidates for Public Office.

1. The Commission has before it the Notice of Proposed Rule Making (adopted April 14, 1976) in this proceeding and comments filed by the American Broadcasting Companies ("ABC"). No other filings were received.

2. The proceeding[1] deals with the definition in the Commission's rules of who is a legally qualified candidate for public office. This is a crucial point in those situations where "equal opportunities" questions are raised under Section 315 of the Communications Act or for whatever reason a station has to deal with questions in the realm of political broadcasting. The Commission's rules now contain a definition as follows:

"A 'legally qualified candidate' means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, State or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who:

(1) Has qualified for a place on the ballot, or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

3. The Commission proposed to change this rule by striking the material under (i) in subparagraph (2), and by inserting in the beginning of subparagraph (2) "Has publicly committed himself to seeking election by the write-in method, and." The rule, as proposed, would read:

A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, State or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who either:

(1) Has qualified for a place on the ballot, or

(2) Has publicly committed himself to seeking election by the write-in method, and is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method; and makes a substantial showing that he is a bona fide candidate for nomination or office.

4. The proposal was an outgrowth of the decision of the Seventh Circuit Court of Appeals in *Flory* v. *F.C.C.*, Case No. 74-2010, decided December 23, 1975. In that case the Court raised a question about the Commission's interpretation of the requirements which must be met before a candidate will be considered a legally qualified write-in candidate.[2] Although disputing the Commission's interpretation, the Court did not question the appropriateness of a Commission rule that limited the category of legally qualified candidates in such a way as to exclude potential candidates—see page 12 of the slip opinion. In issuing the Notice we emphasized the point recognized by the Court that the status of legally qualified candidate was not to be conferred on potential write-in candidates. To this end the rule proposed stated that to be considered as a legally qualified candidate, a write-in candidate was called upon to make a public commitment of his intention to seek election by the write-in method and to make a substantial showing that he is a bona fide candidate. No question has arisen on this point, and the only comment filed in this proceeding seeks only to add the phrase "or similar" to refer to a write-in candidacy. It is not entirely clear why ABC believes use of the phrase by the write-in "or similar method" would provide a clarification. The rule already recognizes the fact that write-in methods vary, and it mentions stickers, writing-in the name or other method. We believe ABC's suggestion might create doubt rather than resolve it and leave uncertain whether a particular write-in method could be considered "similar." For that reason, we do not intend to follow ABC's suggestion. As to the proposal itself, we are persuaded that it would respond to the need for clarification in this area and would be entirely consistent with the Court's opinion in *Flory, supra*. Accordingly the change will be made.

5. Therefore *It is ordered*, That pursuant to Sections 4(i), 303(r), and 315

[1] Amendments to Sections 73.120(a), 73.290(a), 73.590(a) and 73.657(a) were proposed. In a companion document in this proceeding, we are proposing a parallel amendment to the pertinent cable television rule, Section 76.5(y).

V 41 I 149 AUG 2 76 UMI

(g) of the Communications Act of 1934, as amended, Sections 73.120(a), 73.290 (a), 73.590(a) and 73.657(a) are amended to read as set forth below, effective September 2, 1976.

(Secs. 4, 303, 315, 48 Stat., as amended, 1066, 1082, 1088; 47 U.S.C. 154, 303, 315.)

Adopted: July 20, 1976; Released: July 29, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

1. Section 73.120(a), 73.290(a), 73.590 (a) and 73.657(a) are identically amended to read as follows:

§ 73.____ Broadcasts by candidates for public office.

(a) *Definitions.*—A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, State or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who either:

(1) Has qualified for a place on the ballot, or

(2) Has publicly committed himself to seeking election by the write-in method, and is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method; and makes a substantial showing that he is a bona fide candidate for nomination or office.

* * * * *

[FR Doc.76-22197 Filed 7-30-76;8:45 am]

[Docket No. 20729; RM-2648]

PART 73—RADIO BROADCAST SERVICES, KERNVILLE, CALIFORNIA

Table of Assignments, FM Broadcast Stations

In the Matter of Amendment of Section 73.202(b), Table of Assignments, FM Boadcast Stations. (Kernville, California).

By the Chief, Broadcast Bureau:

1. The Commission has under consideration its Notice of Proposed Rule Making, adopted February 25, 1976, 41 Fed. Reg. 9567, inviting comments on a proposal to assign FM Channel 272A to Kernville, California. Channel 272A was originally assigned to Kernville on May 9, 1973,[1] and was recently deleted by the Commission.[2] The Commission deleted the FM channel without prior public notice in view of the fact that no one had come forward to apply for the channel in the more than two years that it had remained assigned and unused. The current proceeding was instituted on the basis of a petition filed by Kern River Broadcasting Company ("KRB"). There were no oppositions to the proposal. Supporting comments were filed by the petitioner.

2. KRB states that, while Kernville is a very small unincorporated community, it is surrounded by other communities, including Lake Isabella, Weldon, Wofford Heights, and Bodfish, and that the total population in the area of service approaches 10,000. KRB adds that an FM signal could reach nearly all of these people and meet a need for the community. Kernville is located in Kern County (pop. 329,162) and is situated in central California, immediately north of Los Angeles County. It presently has no local broadcast transmission service of any type. Channel 272A could be assigned to Kernville in full compliance with our minimum mileage separation requirements. KRB affirms its intent to construct an FM facility immediately upon receipt of a construction permit.

3. We have given careful consideration to the proposal and believe that Channel 272A should be assigned to Kernville, California. An interest has been shown for its use and it would be in the public interest as it would provide Kernville with an FM channel for a first local broadcast station.

4. Authority for the adoption of the amendment contained herein appears in Sections 4(i), 5(d)(1), 303, and 307(b) of the Communications Act of 1934, as amended, and Section 0.281(b)(6) of the Commission's Rules.

5. In view of the foregoing, *It is ordered*, That effective September 2, 1976, Section 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended to read as follows:

City:	Channel No.
Kernville, California	272A

6. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 5, 303, 307, 48 Stat., as amended, 1066, 1068, 1082, 1083; 47 U.S.C. 154, 155, 303, 307)

Adopted: July 20, 1976.

Released: July 22, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.76-22198 Filed 7-30-76;8:45 am]

[Docket No. 20083; FCC 76 693]

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Relaxation of Watch Requirements for Certain Tug Boats; Proceeding Termination

By the Commission: Chairman Wiley absent.

In the Matter of Amendment of Part 83 of the rules to relax the Channel 16 (156.8 MHz) listening watch requirements for certain tug boats.

1. A Notice of Proposed Rule Making in the above captioned matter was released on January 12, 1976, and was published in the FEDERAL REGISTER on January 22, 1976, (41 FR 3321). The time for filing comments and reply comments has expired.

2. In general, the proposed amendment was designed to relax the channel 16 listening watch requirements for certain tug boats operating in the new U.S. Coast Guard designated Vessel Traffic Service (VTS) areas. The Coast Guard intends to require that subject vessels operating in a VTS area maintain a listening watch on the specified VTS frequency. In most cases a listening watch on the designated bridge-to-bridge frequency is required as well. In addition, tug boats by the very nature of their operations find it necessary to guard a company working frequency ("house frequency"). We felt that in this limited case the requirement to watch the distress, safety and calling frequency (channel 16) could be relaxed without compromising the public interest and safety.

3. Comments were filed by:
(a) American Institute of Merchant Shipping (AIMS);
(b) American Petroleum Institute (API);
(c) Waterway Communications System, Inc. (WATERCOM);
(d) American Waterways Operators, Inc. (AWO);
(e) Sightseeing Yachts, Inc.;
(f) Upper Mississippi Towing Corporation;
(g) Shaver Transportation Company;
(h) Red Star Marine Services, Inc.; and
(i) William M. Riley, Radiotelephone Operator third class.

In addition, after the time for filing comments and reply comments expired, comments from the United New York Sandy Hooks Pilots' Benevolent Association and United New Jersey Sandy Hook Pilots' Benevolent Association were received. We have also included for appropriate consideration in this docket a copy of a letter, which is related to this matter, from the Commandant, U.S. Coast Guard, to the president of AIMS.

4. All of the comments received, except those of Mr. Riley, generally supported the proposed amendment. AIMS, API, AWO, Shaver Transportation, Red Star Marine Services and the Sandy Hook Pilots' Associations further suggested that the proposed amendment be extended to encompass all subject vessels operating in any designated VTS area. AWO additionally recommended that the words "towing vessel" be substituted for "tug boats". WATERCOM requested that the rule change proposed apply to all VTS areas also. Sightseeing yachts desired river passenger vessels in the New York VTS area be included as within the class of vessels exempted from the channel 16 watch. Mr. Riley, on the other hand, opposed the proposed amendment because of the need for a "universal" calling frequency which is only satisfied by the channel 16 listening watch requirements. He also pointed out that small independent tug operators may not gaurd a house frequency, which was one of the underlying assumptions our proposed rule making was based on.

5. In the Commandant's letter to the president of AIMS, the Coast Guard generally declined to assist AIMS in seeking to eliminate the channel 16 listening watch requirements for merchant vessels operating within VTS areas. The Commandant stated that the need for relief from additional radio watch requirements existed for those small vessels that are normally one man pilothouse operations, that vessels above 1600 gross tons normally have either a radio room or more than one person on the bridge, and that consequently the Coast Guard has no valid or germane reason to oppose the channel 16 listening watch for larger vessels. The Commandant further indicated that although the Coast Guard has no objection to assuming responsibility for the detection and response to distress communications on channel 16 within the designated VTS areas, it could not, however, assume responsibility for response to and relay of communications of a public correspondence nature on channel 16.

6. The comments received which indicated that limiting the applicability of the proposed amendment to "multisectored" VTS areas only would be unduly restricted are well taken. We have, therefore, deleted this restriction so that the exemption from the channel 16 watch will apply to subject tug boats in any VTS area rather than just in multisectored VTS areas. In addition, for clarification purposes, we have added the phrase "or other towing vessels" after "tug boats", thus substantively complying with AWO's recommendation. However, after further consultation with the Coast Guard, we do not feel that it is in the public interest to generally exempt all vessels operating in VTS areas from the channel 16 listening watch requirements. This amendment was conceived as a special accommodation for small towing vessels in the light of what we feel are extenuating circumstances. These vessels find it a business necessity to guard a "house frequency", no matter how many other listening watches are required. The small pilothouse and pace of activity make the maintenance of four listening watches only marginally beneficial, if not counterproductive. The capacity to generate an exchange of communications with these vessels on public correspondence or other frequencies is maintained via the house frequency, and distress and safety communications are adequately provided for in the VTS and bridge-to-bridge environment. Although other types of vessels may prefer to guard a working frequency rather than channel 16, no showing has been made in other cases sufficient to justify compromising the one "universal" safety and calling frequency in the maritime services. Furthermore, we have included herein another clause to make explicit our intent that only subject tug boats which guard a working frequency of a limited coast station ("house frequency") as directed by the commercial organization to which they are affiliated, are relieved of the requirement to maintain a listening watch on channel 16.

7. Accordingly, *It is ordered*, That, pursuant to the authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Part 83 of the Commission's rules is amended, as set forth below, effective September 2, 1976.

8. *It is further ordered*, That this proceeding is *terminated*.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: July 20, 1976.

Released: July 29, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Part 83 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In Section 83.224, the headnote and text are amended to read as follows:

§ 83.224 Watch on 156.8 MHz.

Each ship station, or if more than one maritime mobile station is being operated from a vessel then at least one station, licensed to transmit by telephony on one or more frequencies within the band 156–162 MHz, shall, during its hours of service for radiotelephony in this band, maintain an efficient watch for the reception of F3 emissions on the frequency 156.8 MHz whenever such station is not being used for exchanging communications; Provided, however, that the watch is not required:

(a) When ship stations are operating only with single or dual channel bridge-to-bridge radio equipment pursuant to Section 83.106(a)(5) of the rules; or

(b) For tug boats, or other towing vessels, of less than 1600 gross tons when operating in a U.S. Coast Guard designated Vessel Traffic Service (VTS) area and maintaining a listening watch on the specified VTS frequency; and provided further that a watch is also maintained on a frequency assigned to a limited coast station as directed by the commercial organization to which the vessel is affiliated.

Correction

In FR Doc. 76–20623 appearing at page 29629 in the issue of Monday, July 19, 1976, make the following corrections:

1. In the first column on page 29707, the first line following paragraph S6.1.10 should read as follows:

"S6.1.10.1 The control trailer conforms".

2. In the second column on page 29707, the third line from the bottom of the page should be deleted.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Service Order No. 1249]

PART 1033—CAR SERVICE

Octoraro Railway, Inc., Authorized To Operate Over Portion of USRA Line No. 142, Former Octoraro Branch of Penn Central Transportation Co.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of July, 1976.

It appearing, that railroad service on the former Octoraro Branch of the Penn Central, (PC) identified in the Final System Plan of Reorganization of the Northeastern Railroads as USRA Line No. 142 between former PC milepost 18.0 and the end of the branch at Rising Sun, Maryland, has been discontinued; that that portion of this line between mileposts 18.0 and 54.2 at the Maryland-Pennsylvania state line south of Nottingham, Pennsylvania, has been purchased by the Southeastern Pennsylvania Transportation Authority, an agency of the Commonwealth of Pennsylvania (the Commonwealth); that the Commonwealth has designated the Octoraro Railway, Inc. (ORI), as its operator of rail service over this line and has entered into a rail service continuation payment operating agreement with ORI pursuant to Section 304(d)(1) of the Regional Rail Reorganization Act of 1973, as amended (the Rail Act); that by virtue of the Commonwealth's ownership of said line and the stated intention of ORI to provide service over this line so long as it can profitably do so with or without subsidy, the ORI is not eligible to receive a Certificate of Designated Operator pursuant to regulations issued by the Commission on March 17, 1976; that the ORI will apply to the Commission under Section 1(18) of the Interstate Commerce Act seeking permanent authority to operate this line on behalf of the Commonwealth; that unless service over this line is immediately required by the Commission to be continued until the ORI's application has been acted upon there may be a loss of rail service on or about July 29, 1976, in violation of the express requirements of Section 304(d)(3) of the Rail Act that the Commission act to prevent any disruption or loss of service under the circumstances presented herein; that operation by the ORI over the aforementioned tracks formerly operated by the PC is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

[1] At issue was the application of the rule to a candidate who had indicated an intention to pursue a write-in candidacy if his effort to be placed on the ballot were unsuccessful.

[2] Second Report and Order, 40 F.C.C. 2d 310 (1973).

[3] Memorandum Opinion and Order, 40 Fed. Reg. 55644, adopted November 17, 1975, effective December 1, 1975.

V41149 AUG 2 76 UMI

§ 1033.1249 Octoraro Railway, Inc., authorized to operate over portion of USRA Line No. 142, former Octoraro Branch of Penn Central Transportation Company.

(a) The Octoraro Railway, Inc. (ORI) be, and it is hereby authorized to operate over certain tracks of USRA Line No. 142, formerly known as the Octoraro Branch of the Penn Central Transportation Company (PC) between former PC milepost 18.0 in the vicinity of Wawa, Pennsylvania, and milepost 54.2 at the Pennsylvania-Maryland state line south of Nottingham, Pennsylvania, pending disposition by the Commission of the application of ORI seeking permanent authority to operate over the aforementioned tracks.

(b) *Rates Applicable.* Inasmuch as this operation by the ORI over tracks formerly operated by the PC is deemed to be due to carrier disability, the rates applicable to traffic moved by the ORI over these lines shall be the rates which were formerly in effect on such traffic when routed via the PC until tariffs naming rates specifically applicable via the ORI become effective.

(c) *Station Conditions.* The cancellation of former PC Pennsylvania District Stations 7521, Chester Heights, Pennsylvania, to 7582, Nottingham, Pennsylvania, inclusive, published in the Supplement 13 to the Official List of Open and Prepay Stations No. 51, ICC No. A–55, issued by the Station List Publishing Company to become effective July 29, 1976, is hereby suspended until such stations are adopted by the ORI.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(e) In transporting traffic over these lines the ORI and all other common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date. This order shall become effective at 11:59 p.m., July 28, 1976.

(g) Expiration date. The provisions of this order shall expire at 11:59 p.m., November 15, 1976, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2). Sec. 304 of Regional Rail Reorganization Act of 1973, as amended (45 U.S.C. 744): Pub. L. 95–236 and 94–210.)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Lewis R. Teeple, Thomas J. Byrne and William J. Love.

ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Opening of Cibola National Wildlife Refuge, Arizona and California to Sport Fishing

On June 4, 1976, there was published in the FEDERAL REGISTER (41 FR 22568) a notice of proposed rulemaking adding Cibola National Wildlife Refuge, Arizona and California to the list of refuge areas which are open for sport fishing. This list is published at 50 CFR 33.4. As a general rule most areas within the National Wildlife Refuge System are closed to sport hunting until officially opened by regulation.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director has determined that allowing sport fishing on Cibola National Wildlife Refuge would not be detrimental to the objectives for which the area was acquired.

The public was provided a 26-day comment period and was advised that an environmental assessment had been prepared on the proposal and was available for public inspection.

No comments were received on the proposed rulemaking.

Based on the preceding and an evaluation of the environmental assessment, it has been determined that sport fishing on Cibola National Wildlife Refuge, Arizona and California, is not a major Federal action which would significantly affect the quality of the human environment within the meaning of § 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. § 4332(2)(C). The preparation of an environmental impact statement on the proposed action is, therefore, not required.

Accordingly, the proposed rulemaking is hereby adopted without change and § 33.4 amended as set forth below:

§ 33.4 List of open areas; sport fishing.

ARIZONA AND CALIFORNIA

CIBOLA NATIONAL WILDLIFE REFUGE

Effective date: August 31, 1976.

Dated: July 23, 1976.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

[FR Doc.76–22195 Filed 7–30–76;8:45 am]

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Standards for Grades of Canned Dried Beans, Canned Pork and Beans, and Canned Baked Beans

This document revises the United States Standards for Grades of Canned Dried Beans by setting apart standards for grades of canned dried beans, canned pork and beans, and canned baked beans as separate standards. Notice of proposed rulemaking was published by the Department in the February 26, 1975; March 17, 1975; May 7, 1975; and October 29, 1975 issues of the FEDERAL REGISTER. This extended period of proposed rulemaking was necessary to enable review of the opinions, comments, and arguments which were submitted. Each subsequent FEDERAL REGISTER publications attempted to settle the differences of opinion between all parties that submitted comments regarding the proposed rulemaking.

NOTE: Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

Since 1934, the U.S. Standards for Grades of Canned Dried Beans were revised only once—in 1947. Today, many different kinds of canned dried beans are available in the marketplace. And manufacturers take into account the taste preferences of many different regions within the United States. The 1947 standards contain definitions that are too limited in context to cover adequately these many different kinds of canned dried beans. Canned pork and beans and canned baked beans differed most from the other kinds of canned dried beans. Thus, it was proposed that canned pork and beans and canned baked beans be set apart as separate standards.

Except for language clarification changes, a small number of changes to the context of a few definitions, and a provision for three classifications of "blemished" beans, the U.S. Standards for Grades of Canned Dried Beans and the U.S. Standards for Grades of Canned Pork and Beans are essentially as published in the FEDERAL REGISTER of October 29, 1975. However, the U.S. Standards for Grades of Canned Baked Beans are broader in definition than the October publication. These changes were made in "baked beans" to resolve the argument which originated with the definition of "baked beans" and to provide for three classifications of "blemished" beans.

These grade standards are issued under the authority of the Agricultural Marketing Act of 1946 (Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this Act upon request of the applicant and upon payment of a fee to cover the cost of such services. The Act also specifies that among other things, standards are for the purpose of effecting an orderly marketing of food products.

STATEMENT OF CONSIDERATION LEADING TO THE REVISION

Four parties commented on the October 29, 1975, notice of proposed rulemaking published in the FEDERAL REGISTER. The comments were mainly directed at canned baked beans. Comments concerning canned dried beans and canned pork and beans were largely editorial in nature and suggested changes in language to improve reader understanding of the standards.

Two parties opposed the definition of "baked beans" as too restrictive and further stated that the definition was a regional interpretation of "baked beans" which required a special food processing technique. They argued that U.S. standards should cover all of the processes currently used to manufacture baked beans. It was suggested that any subsequent attempt to define "baked beans" should be channeled through an arbitrator, acquainted with food processing techniques, with all parties given the opportunity to present their viewpoint. The arbitrator would then recommend a definition of "baked beans" which would be fair to all manufacturers of the product. Arbitration failed. It was obvious that additional notices of proposed rulemaking would do little more than serve as an opportunity for all parties to restate their original stand.

Opposition to the definition of "baked beans" involved the point at which baking was actually to take place. Should beans be first baked in ovens and then transferred to market containers? Could beans be baked in the can? Could beans receive only a token bake and still be called "baked beans"? Also, descriptions of the quality characteristics (color, consistency, flavor, texture, and absence of defects) in the standards were challenged as being partial to specific regional preferences for canned baked beans.

In resolving the definition of "baked beans," the U.S. Standards for Grades of Canned Baked Beans published in this issue of the FEDERAL REGISTER require only that beans must be baked. The point at which baking is to occur is not stipulated. Any good commercial process, recognized as safe and suitable, may be used for baking beans. There is no minimum length of time required for baking. It is recognized that beans receiving only a token bake would not be expected to have the typical characteristics of baked beans and would receive a lower grade. The proposed descriptions of the quality characteristics of canned baked beans, published in the FEDERAL REGISTER of October 29, 1975, are retained in the final standards as meaningful, useful descriptions. Several editorial changes were made for language clarification purposes.

U.S. Standards for Grades of Canned Dried Beans contain two significant changes. The first change would allow "mixed" type (two or more varietal types of beans in any proportions) canned dried beans. Mixed beans are available in the marketplace today. Inclusion of mixed beans would make the standards responsive to currently marketable product. The second change would allow for three classifications of "blemished" beans.

One request to change the factor of consistency for the U.S. Standards for Grades of Canned Pork and Beans was denied. Originally, the February 26, 1975 issue of the FEDERAL REGISTER, proposed standards for canned pork and beans with a requirement for minimum weight of beans in any given container. Opposing comments indicated that this requirement was not realistic. In the second notice of proposed rulemaking, published in the FEDERAL REGISTER of October 29, 1975, the requirement was deleted. But a strict requirement was proposed for the factor of consistency as a safeguard against cans filled with too few beans and too much sauce (watery). There is no reason to change this requirement in the final standards. Another change in the U.S. standards for canned pork and beans would allow for three classifications of "blemished" beans.

Early in 1976, Department supervisory inspection personnel reported occurrences of "water-damaged" beans in market containers of canned dried beans. It was thought that these beans would be removed during sorting. "Water-damaged" beans affect critically the appearance and eating quality of canned dried beans, canned pork and beans, and canned baked beans. In the long run the expected frequency of occurrence of "water-damaged" beans is low, but during seasons of abnormally high rainfall, these beans may occur more frequently. "Water-damaged" beans are classified as "blemished" beans. However, the proposed tolerances for "blemished" beans did not take into account the increased occurrence of "water-damaged" beans. Thus, the tolerance was too liberal. To restrict the allowance for "water-damaged" beans in market containers, the final standards published in this issue of the FEDERAL REGISTER contain an expanded definition of "blemished" beans and a reduced allowance for "seriously blemished" beans.

The Department has considered each comment, suggestion, and argument carefully. Unless discussed in previous paragraphs, it is concluded that they are not substantial reasons to change the standards as proposed.

Accordingly, the United States Standards for Grades of Canned Dried Beans are revised; and United States Standards for Grades of Canned Pork and Beans and United States Standards for Grades of Canned Baked Beans are established as set forth in this issue of the FEDERAL REGISTER.

Effective date: These standards shall become effective September 1, 1976.

The revision is as follows:

Subpart—United States Standards for Grades of Canned Dried Beans

Sec.
52.411 Product description.
52.412 Types.
52.413 Styles.
52.414 Grades.
52.415 Sample unit size.
52.416 Determining the grade.
52.417 Determining the rating of the factors which are scored.
52.418 Color.
52.419 Absence of defects.
52.420 Character.
52.421 Determining the grade of a lot.
52.422 Score sheet for canned dried beans.

AUTHORITY: Agricultural Marketing Act of 1946, Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

Subpart—United States Standards for Grades of Canned Dried Beans

§ 52.411 Product description.

"Canned dried beans" is the product prepared from dry mature beans or peas used for canning; but not including soybeans, sweet peas, or early peas. Any safe and suitable ingredients permissible under the provisions of the Federal Food, Drug, and Cosmetic Act may be used. The product is prepared by washing, soaking, blanching, cooking, or other processing. It is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

§ 52.412 Types.

(a) White beans.
(b) Lima beans.
(c) Red beans.
(d) Pinto beans.
(e) Pink beans.
(f) Garbanzos or chick-peas.
(g) Black beans.
(h) Yelloweye beans.
(i) Black-eye peas or field peas (Southern peas).
(j) Mixed beans (two or more varietal types of beans in any proportions).
(k) Beans of other colors or types (except soybeans, sweet peas, and early peas).

§ 52.413 Styles.

(a) "In tomato sauce" means packed with tomato pulp or a similar tomato product and any other safe and suitable ingredient(s). The sauce may be highly seasoned.

V 41 1149 AUG 2 76 UMI

(b) "In sweetened sauce" means packed with nutritive carbohydrate sweetening ingredient(s) and any other safe and suitable ingredient(s). The sauce may be highly seasoned.

(c) "In brine" means packed in brine and any other safe and suitable ingredient(s).

§ 52.414 Grades.

(a) "U.S. Grade A" is the quality of canned dried beans that has the following attributes:

(1) Practically similar varietal characteristics (except "mixed" type);

(2) At least a reasonably good consistency for the styles of "in tomato sauce" and "in sweetened sauce";

(3) Practically free from defects;

(4) Good character;

(5) Good flavor;

(6) Scores at least 17 points for color; and

(7) Totals not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" is the quality of canned dried beans that has at least the following attributes:

(1) Reasonably similar varietal characteristics (except "mixed" type);

(2) Reasonably good consistency for the styles of "in tomato sauce" and "in sweetened sauce";

(3) Reasonably free from defects;

(4) Reasonably good character;

(5) Reasonably good flavor;

(6) Reasonably good color; and

(7) Totals not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned dried beans that fails to meet the requirements of U.S. Grade B.

§ 52.415 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit consisting of the entire contents of one container, irrespective of container size.

§ 52.416 Determining the grade.

(a) *General.*—The grade of canned dried beans is determined by considering, in addition to the requirements of the respective grade, the following factors:

(1) *Factors not rated by score points.*

(i) Similar varietal characteristics;

(ii) Consistency; and

(iii) Flavor.

(2) *Factors rated by score points.* The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
Color	20
Absence of defects	40
Character	40
Total	100

(b) *Definitions.*

(1) Similar varietal characteristics:

(i) "Contrasting varieties" means dried beans of the same type or of other types that are of a noticeably different color, size, or shape from the dried beans of the predominating variety (such as red beans with white beans);

(ii) "Varieties that blend" means dried beans of the same type or of other types that are similar in color, size, or shape to the dried beans of the predominating variety (such as pea beans with small white beans);

(iii) "Practically similar varietal characteristics" means that the beans are practically alike in size, shape, color, general characteristics, and that there may be present not more than 0.5 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend (not applicable to "mixed" type); and

(iv) "Reasonably similar varietal characteristics" means that the beans are reasonably alike in size, shape color, general characteristics, and that there may be present not more than 1 percent, by weight, of contrasting varieties; and not more than 10 percent, by weight, of varieties that blend (not applicable to "mixed" type).

(2) Consistency:

(i) "Reasonably good consistency" means that the sauce is reasonably smooth and may be slightly grainy or slightly lumpy. The product may have a thick consistency but is practically free from "matting" and when emptied on a flat surface may have practically no separation of liquid; or, the product may have a thin consistency with separation of liquid, but it shall not be watery (not applicable to "in brine" style) "Matting" means compaction to the extent that the beans cannot be removed from the container without causing damage or excessive mushiness.

(3) Flavor:

(i) "Good flavor" means that the product has a good, normal flavor and odor, characteristic of the style of pack, and is free from objectionable flavors and objectionable odors of any kind; and

(ii) "Reasonably good flavor" means that the product may be lacking in good flavor and odor, but is characteristic of the style of pack, and is free from objectionable flavors and objectionable odors of any kind.

§ 52.417 Determining the rating of the factors which are scored.

The essential variations within each factor which is scored are so described that the value is determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.418 Color.

(a) "Good color" means that the beans have a color that is bright and reasonably uniform, typical of the type; and that the sauce or brine has a color typical of the style of pack. Canned dried beans that have a good color may be given a score of 18 to 20 points.

(b) "Reasonably good color" means that the beans have a color that is fairly uniform, typical of the type; may be dull but not off-color; and that the sauce or brine has a color typical of the style of pack. Canned dried beans that have a reasonably good color may be given a score of 16 or 17 points. Canned dried beans that score 16 points for color shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a partial limiting rule).

(c) "Substandard." Canned dried beans that fail to meet the requirements of grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.419 Absence of defects.

(a) *General.*—The factor of absence of defects refers to the degree of freedom from extraneous vegetable material, loose skin, broken and mashed beans, and blemished beans; or any other defects that may affect the appearance or eating quality of the product.

(b) *Definitions.*

(1) "Loose skin" means a skin or portions of a skin which have become separated wholly from the cotyledons;

(2) "Broken" means a cotyledon or portions of a cotyledon which have become separated; or a bean or portions of a bean with the skin or portions of the skin missing;

(3) "Mashed" means a bean that is crushed or flattened to the extent that the appearance is seriously affected;

(4) "Blemished" means a bean that is affected or damaged by any means to the extent that its appearance or eating quality is adversely affected;

(i) Slightly;

(ii) Materially;

(iii) Seriously; and

(5) "Extraneous vegetable material" means vegetable material common to the bean plant or other plants that is harmless upon eating and includes, but is not limited to, peas, lentils, cereal grains, and corn.

(c) "Practically free from defects" means that the canned dried beans comply with the allowances in Table I. Canned dried beans that are practically free from defects may be given a score of 36 to 40 points.

(d) "Reasonably free from defects" means that the canned dried beans comply with the allowances in Table II. Canned dried beans that are reasonably free from defects may be given a score of 32 to 35 points and shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule).

(e) "Substandard." Canned dried beans that fail to meet the allowances for grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I.—*Allowances for defects in canned dried beans—U.S. grade A*

Defects	Maximum amount of defects permitted	
	Sample unit	Sample average
	Percent of net weight	
Loose skin, broken, and mashed.	5	
Total blemished (slightly, materially, and seriously).	3	
Materially blemished	2	
Seriously blemished	1	
Extraneous vegetable material.	(1)	1 piece per 80 oz net weight.

[1] No limit.

TABLE II.—*Allowances for defects in canned dried beans—U.S. grade B*

Defects	Maximum amount of defects permitted	
	Sample unit	Sample average
	Percent of net weight	
Loose skin, broken, and mashed.	10	
Total blemished (slightly, materially, and seriously).	6	
Materially blemished	4	
Seriously blemished	2	
Extraneous vegetable material.	(1)	1 piece per 30 oz. net weight.

[1] No limit.

§ 52.420 Character.

(a) *General.*—The factor of character refers to the degree of freedom from hard beans, mushy beans, beans with tough skins; and the overall texture of the product.

(b) "Good character" means that the beans have a good, typical texture, that may be slightly soft or slightly firm; and that the skins are tender. Canned dried beans that have a good character may be given a score of 36 to 40 points.

(c) "Reasonably good character" means that the beans have a reasonably good, typical texture, that the beans may be firm or soft and that the presence of hard or mushy beans does not materially affect the eating quality; and that the skins may be slightly tough. Canned dried beans that have a reasonably good character may be given a score of 32 to 35 points and shall not be graded above "*U.S. Grade B,*" regardless of the total score for the product (this is a limiting rule).

(d) "Substandard." Canned dried beans that fail to meet the requirements of grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.421 Determining the grade of a lot.

The grade of a lot of canned dried beans covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.83).

AUTHORITY: Agricultural Marketing Act of 1946, Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

Subpart—United States Standards for Grades of Canned Pork and Beans

§ 52.6441 Product description.

"Canned pork and beans" (canned dried white beans with pork) is the product prepared from dry mature white beans of the species *Phaseolus vulgaris L.* with pork or pork fat; and with a packing medium or sauce consisting of water, tomato products, and any other safe and suitable ingredients permissible under the provisions of the Federal Food, Drug, and Cosmetic Act. The product is prepared by washing, soaking, blanching, or other processing. It is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

§ 52.6442 Types.

(a) Pea beans (known also as Navy beans).

(b) Small white beans.

(c) Flat small white beans.

(d) Great northern beans.

(e) Other types of white beans (except white lima beans).

§ 52.6443 Grades.

(a) "U.S. Grade A" is the quality of canned pork and beans that has the following attributes:

(1) Practically similar varietal characteristics;

(2) At least a reasonably good consistency;

(3) Practically free from defects;

(4) Good character;

(5) Good flavor;

(6) Good color; and

(7) Totals not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" is the quality of canned pork and beans that has at least the following attributes:

(1) Reasonably similar varietal characteristics;

(2) Reasonably good consistency;

(3) Reasonably free from defects;

(4) Reasonably good character;

(5) Reasonably good flavor;

(6) Reasonably good color; and

(7) Totals not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned pork and beans that fails to meet the requirements of U.S. Grade B.

§ 52.6444 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit consisting of the entire contents of one container, irrespective of container size.

§ 52.6445 Determining the grade.

(a) *General.*—The grade of canned pork and beans is determined by considering, in addition to the requirements of the respective grade, the following factors:

(1) *Factors not rated by score points.*

(i) Similar varietal characteristics;

(ii) Color; and

(iii) Flavor.

(2) *Factors rated by score points.* The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
Consistency	20
Absence of defects	40
Character	40
Total	100

(b) *Definitions.*

(1) Similar varietal characteristics:

(i) "Contrasting varieties" means varieties of dried beans other than those specified in 52.6442 (such as red beans);

(ii) "Varieties that blend" means one or more of the varieties of dried beans specified in 52.6442 other than the predominating variety of white beans (such as pea beans with small white beans);

(iii) "Practically similar varietal characteristics" means that the beans are practically alike in size, shape, color, general characteristics, and that there may be present not more than 0.5 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend; and

(iv) "Reasonably similar varietal characteristics" means that the beans are reasonably alike in size, shape, color, general characteristics, and that there

V 41 I 149 AUG 2 76 UMI

may be present not more than 1 percent, by weight, of contrasting varieties; and not more than 10 percent, by weight, of varieties that blend.

(2) Color:

(i) "Good color" means that the beans have a color that is bright, typical and reasonably uniform; and that the sauce is reasonably bright and has the distinguishing color characteristics of the addition of tomato products; and

(ii) "Reasonably good color" means that the beans have a color that is fairly uniform, that may be slightly dull but not off-color; and that the sauce may be lacking in the distinguishing color characteristics of the addition of tomato products.

(3) Flavor:

(i) "Good flavor" means that the product has a good, characteristic flavor and odor, and is free from objectionable flavors and objectionable odors of any kind; and that the flavor of the sauce is rich, distinct and characteristic of the ingredients including but not limited to tomato products; and

(ii) "Reasonably good flavor" means that the product may be lacking in good flavor and odor, but is free from objectionable flavors and objectionable odors of any kind; and that the flavor of the sauce may be weak.

§ 52.6446 Determining the rating of the factors which are scored.

The essential variations within each factor which is scored are so described that the value is determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.6447 Consistency.

(a) "Matting" means compaction to the extent that the beans cannot be removed from the container without causing damage or excessive mushiness.

(b) "Good consistency" means that the sauce is smooth and is neither grainy nor lumpy; the product is practically free from "matting"; and when emptied on a flat surface forms a slightly mounded mass of beans and sauce with not more than a slight separation of liquid. Canned pork and beans that have a good consistency may be given a score of 18 to 20 points.

(c) "Reasonably good consistency" means that the sauce is reasonably smooth and may be slightly grainy or slightly lumpy; the product may have a thick consistency but is reasonably free from "matting"; and when emptied on a flat surface may have practically no separation of liquid; or, the product may have a thin consistency with separation of liquid, but it shall not be watery. Canned pork and beans that have a reasonably good consistency may be given a score of 16 or 17 points.

(d) "Substandard." Canned pork and beans that fail to meet the requirements of grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6448 Absence of defects.

(a) *General.*—The factor of absence of defects refers to the degree of freedom from extraneous vegetable material, loose skin, broken and mashed beans, and blemished beans: or any other defects that may affect the appearance or eating quality of the product.

(b) *Definitions.*

(1) "Loose skin" means a skin or portions of a skin which have become separated wholly from the cotyledons;

(2) "Broken" means a cotyledon or portions of a cotyledon which have become separated; or a bean or portions of a bean with the skin or portions of the skin missing;

(3) "Mashed" means a bean that is crushed or flattened to the extent that the appearance is seriously affected;

(4) "Blemished" means a bean that is affected or damaged by any means to the extent that its appearance or eating quality is adversely affected;

(i) Slightly;

(ii) Materially;

(iii) Seriously; and

(5) "Extraneous vegetable material" means vegetable material common to the bean plant or other plants that is harmless upon eating and includes, but is not limited to, peas, lentils, field peas, cereal grains, and corn.

(c) "Practically free from defects" means that the canned pork and beans comply with the allowances in Table I. Canned pork and beans that are practically free from defects may be given a score of 36 to 40 points.

(d) "Reasonably free from defects" means that the canned pork and beans comply with the allowances in Table II. Canned pork and beans that are reasonably free from defects may be given a score of 32 to 35 points and shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule).

(e) "Substandard" Canned pork and beans that fail to meet the allowances for grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I.—*Allowances for defects in canned pork and beans—U.S. Grade A*

Defects	Maximum amount of defects permitted	
	Sample unit	Sample average
	Percent of net weight	
Loose skin, broken and mashed.	5	
Total blemished (slightly, materially, and seriously).	3	
Materially blemished	2	
Seriously blemished	1	
Extraneous vegetable material.	(1)	1 piece per 80 oz net weight.

[1] No limit.

TABLE II.—*Allowances for defects in canned pork and beans—U.S. Grade B*

Defects	Maximum amount of defects permitted	
	Sample unit	Sample average
	Percent of net weight	
Loose skin, broken, and mashed.	10	
Total blemished (slightly, materially, and seriously).	6	
Materially blemished	4	
Seriously blemished	2	
Extraneous vegetable material.	(1)	1 piece per 20 oz net weight.

[1] No limit.

§ 52.6449 Character.

(a) *General.*—The factor of character refers to the degree of freedom from hard beans, mushy beans, beans with tough skins, and from granulation; and to the overall palatability and texture of the beans.

(b) "Good character" means that the beans have a good, typical texture, that may be slightly granular or slightly firm; and that the skins are tender. Canned pork and beans that have a good character may be given a score of 36 to 40 points.

(c) "Reasonably good character" means that the beans have a reasonably good, typical texture, that the beans may be firm or soft and that the presence of hard and mushy beans does not materially affect the eating quality; that the skins may be slightly tough; and that the beans may be granular or mealy. Canned pork and beans that have a reasonably good character may be given a score of 32 to 35 points and shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule).

(d) "Substandard." Canned pork and beans that fail to meet the requirements of grade B may be given a score of 0 to 31 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6450 Determining the grade of a lot.

The grade of a lot of canned pork and beans covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.83).

United States Standards for Grades of Canned Baked Beans

§ 52.6461 Product description.

"Canned baked beans" is the product prepared from dry mature beans used for canning; but not including soybeans. Any safe and suitable ingredients permissible under the provisions of the Federal Food, Drug, and Cosmetic Act may be used. The product is prepared by washing, soaking, and baking by the application of dry heat in open or loosely covered containers in a closed oven at atmospheric pressure for sufficient prolonged time to produce a typical texture and flavor. It is packed in hermetically sealed containers and sufficiently processed by heat to assure preservation.

§ 52.6462 Types.

(a) White beans.

(b) Red kidney beans.

(c) Yelloweye beans (including soldier beans).

(d) Beans of other colors or types suitable for baking (except soybeans).

§ 52.6463 Styles.

(a) "In brown sugar, molasses, or New England sauce" means packed with nutritive carbohydrate sweetening ingredient(s) and any other safe and suitable ingredient(s).

(b) "In tomato sauce" means packed with tomato pulp or a similar tomato product and any other safe and suitable ingredient(s).

§ 52.6464 Grades.

(a) "U.S. Grade A" is the quality of canned baked beans that has the following attributes:

(1) Practically similar varietal characteristics;

(2) Scores at least 17 points for consistency;

(3) Practically free from defects;

(4) Scores at least 17 points for character;

(5) Scores at least 17 points for flavor;

(6) Scores at least 13 points for color; and

(7) Totals not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" is the quality of canned baked beans that has at least the following attributes:

(1) Reasonably similar varietal characteristics;

(2) Reasonably good consistency;

(3) Reasonably free from defects;

(4) Reasonably good character;

(5) Reasonably good flavor;

(6) Reasonably good color; and

(7) Totals not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned baked beans that fails to meet the requirements of U.S. Grade B.

§ 52.6465 Sample unit size.

Compliance with requirements for factors of quality is based on a sample unit consisting of the entire contents of one container, irrespective of container size.

§ 52.6466 Determining the grade.

(a) *General.* The grade of canned baked beans is determined by considering, in addition to the requirements of the respective grade, the following factors:

(1) *Factor not rated by score points;*

(i) Similar varietal characteristics.

(2) *Factors rated by score points.* The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
Color	15
Consistency	20
Flavor	20
Character	20
Absence of defects	25
Total	100

(b) *Definitions.*

(1) Similar varietal characteristics:

(i) "Contrasting varieties" means dried beans of the same type or of other types that are of a noticeable different color, size, or shape from the dried beans of the predominating variety (such as red beans with white beans);

(ii) "Varieties that blend" means dried beans of the same type or of other types that are similar in color, size, or shape to the dried beans of the predominating variety (such as pea beans with small white beans);

(iii) "Practically similar varietal characteristics" means that the beans are practically alike in size, shape, color, general characteristics, and that there may be present not more than 0.5 percent, by weight, of contrasting varieties; and not more than 5 percent, by weight, of varieties that blend; and

(iv) "Reasonably similar varietal characteristics" means that the beans are reasonably alike in size, shape, color, general characteristics, and that there may be present not more than 1 percent, by weight, of contrasting varieties; and not more than 10 percent, by weight, of varieties that blend.

§ 52.6467 Determining the rating of the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be determined for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.6468 Color.

(a) "Good color"[1] means that the baked beans have a uniform color typical of the baked variety and style of pack. Canned baked beans that have a good color may be given a score of 14 or 15 points.

(b) "Reasonably good color" means that the baked beans have a reasonably uniform color typical of the baked variety and style of pack. Canned baked beans that have a reasonably good color may be given a score of 12 or 13 points. Canned baked beans that score 12 points for color shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a partial limiting rule).

(c) "Substandard." Canned baked beans that fail to meet the requirements of grade B may be given a score of 0 to 11 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6469 Consistency.

(a) General. The factor of consistency is determined two minutes after the product, without prior stirring or shaking, is emptied on to a flat surface.

(b) "Good consistency" means that the product shall form a well-rounded mound when emptied from the container and that the sauce shall be of such quantity and character that it clings to the beans with not more than a reasonable separation from the mound. Canned baked beans that have a good consistency may be given a score of 18 to 20 points.

(c) "Reasonably good consistency" means that the product shall form a mound that may tend to take the shape of the container with little leveling or may level itself substantially with a

V 41 149 AUG 2 76 UMI

fairly large amount of sauce separation from the beans. Canned baked beans that have a reasonably good consistency may be given a score of 16 or 17 points. Canned baked beans that score 16 points for consistency shall not be graded above "U.S. Grade B" regardless of the total score for the product (this is a partial limiting rule).

(d) "Substandard." Canned baked beans that fail to meet the requirements of grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6470 Flavor.

(a) "Good flavor" means that the product has a good baked bean flavor and odor which is characteristic of the variety of bean and style of pack with all flavor components in proper balance. The product is free from objectionable flavors and objectionable odors. Canned baked beans that have a good flavor may be given a score of 18 to 20 points.

(b) "Reasonably good flavor" means that the product has a reasonably good baked bean flavor and odor which is characteristic of the variety of bean and style of pack with all flavor components in reasonable balance. The product is free from objectionable flavors and objectionable odors. Canned baked beans that have a reasonably good flavor may be given a score of 16 or 17 points. Canned baked beans that score 16 points for flavor shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a partial limiting rule).

(c) "Substandard." Canned baked beans that fail to meet the requirements of grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6471 Character.

(a) General. The factor of character refers to the degree of freedom from hard beans, mushy beans, beans with tough skins; and the overall texture of the product.

(b) "Good character" means that the baked beans have a good, typical texture, that may be slightly soft or slightly firm; and that the skins are tender. Canned baked beans that have a good character may be given a score of 18 to 20 points.

(c) "Reasonably good character" means that the baked beans have a reasonably good, typical texture, that may be firm or soft but not hard or mushy; and that the skins may be slightly tough. Canned baked beans that have a reasonably good character may be given a score of 16 or 17 points. Canned baked beans that score 16 points for character shall not be graded above *"U.S. Grade B,"* regardless of the total score for the product (this is a partial limiting rule).

(d) "Substandard." Canned baked beans that fail to meet the requirements of grade B may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6472 Absence of defects.

(a) General. The factor of absence of defects refers to the degree of freedom from extraneous vegetable material, loose skin, broken and mashed beans, and blemished beans; or any other defects that may affect the appearance or eating quality of the product.

(b) *Definitions:*

(1) "Loose skin" means a skin or portions of a skin which have become separated wholly from the cotyledons;

(2) "Broken" means a cotyledon or portions of a cotyledon which have become separated; or a bean or portions of a bean with the skin or portions of the skin missing;

(3) "Mashed" means a bean that is crushed or flattened to the extent that the appearance is seriously affected;

(4) "Blemished" means a bean that is affected or damaged by any means to the extent that its appearance or eating quality is adversely affected;

(i) Slightly;

(ii) Materially;

(iii) Seriously; and

(5) "Extraneous vegetable material" means vegetable material common to the bean plant or other plants that is harmless upon eating and includes, but is not limited to, peas, lentils, cereal grains, and corn.

(c) "Practically free from defects" means that the canned baked beans comply with the allowances in Table I. Canned baked beans that are practically free from defects may be given a score of 22 to 25 points.

(d) "Reasonably free from defects" means that the canned baked beans comply with the allowances in Table II. Canned baked beans that are reasonably free from defects may be given a score of 20 or 21 points and shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule).

(e) "Substandard." Canned baked beans that fail to meet the allowances for grade B may be given a score of 0 to 19 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I.—*Allowances for defects in canned baked beans—U.S. Grade A*

Defects	Maximum amount of defects permitted		
	Sample unit		Sample average
	Type (a)	Types (b), (c), (d)	
	Percent of net weight		
Loose skin, broken, and mashed	10	20	
Total blemished (slightly, materially, and seriously)	3	3	
Materially blemished	2	2	
Seriously blemished	1	1	
Extraneous vegetable material	(1)	(1)	1 piece per 50 oz net weight.

[1] No limit.

TABLE II.—*Allowances for defects in canned baked beans—U.S. grade B*

Defects	Maximum amount of defects permitted		
	Sample unit		Sample average
	Type (a)	Types (b), (c), (d)	
	Percent of net weight		
Loose skin, broken, and mashed	20	35

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Mediterranean Fruit Fly

EMERGENCY AND RELATED REGULATIONS; REVOCATION

• Purpose: To revoke the Mediterreanean fruit fly emergency regulations in Los Angeles County, California. •

The notice of existence of emergency and regulations related thereto with respect to the Mediterranean fruit fly, in 7 CFR 331.1 (40 FR 49784), are hereby revoked. However, such provisions shall be deemed to continue in full force and effect for the purpose of sustaining any action or other proceeding with respect to any right that accrued, liability that was incurred, or violation that occurred prior to said date.

Statement of Considerations.—An intensive eradication program was begun following the discovery in September 1975 of an infestation of the Mediterranean fruit fly in Los Angeles, California. Delimiting surveys utilizing traps indicated that the Mediterranean fruit fly infestation was limited to an area of approximately 100 square miles of Los Angeles County. Foliar spraying of citrus and related host trees and soil treatments were begun in October 1975. Because of the urban environment, however, the normal chemical treatments in the amounts needed to achieve eradication could not be utilized and, therefore, a sterile fly release program was instituted for the purpose of eradicating the Mediterranean fruit fly. Ground releases of sterile flies began in late October 1975, and aerial releases began in December. Ground and aerial releases ended the last of May 1976. The trapping program has continued since the pest was discovered. The last adult nonsterile fly was trapped on November 14, 1975. The Deputy Administrator has determined that eradication of the Mediterranean fruit fly has been achieved because enough time has elapsed for development of three complete life cycles without the detection of nonsterile flies, and a followup intensive surveillance has confirmed such finding.

Accordingly, the Mediterranean fruit fly-notice of existence of emergency and regulations related thereto in section 331.1 (7 CFR 331.1) are hereby revoked. Also, section 331.1 is reserved.

This revocation relieves restrictions heretofore imposed, and should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved. Also, it does not appear that public participation in rulemaking procedures concerning this action would make additional relevant information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such pubic participation with respect to this action is impracticable, unnecessary, and contrary to the public interest and good cause is found for making the revocation effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 105, 106, 107; 71 Stat. 32, 33, 34; (7 U.S.C. 150dd-150ff); 37 FR 28464, 28477, 38 FR 19141.)

The foregoing revocation of notice of existence of emergency and regulations related thereto shall become effective August 2, 1976.

Done at Washington, D.C. this 27 day of July 1976.

T. G. DARLING,
Acting Deputy Administrator Plant Protection and Quarantine Programs Animal and Plant Health Inspection Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 537, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 23-29, 1976. The quantity that may be shipped is increased due to improved market conditions for California-Arizona Valencia oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674) and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Valencia Orange Regulation 537 (41 FR 30093). The marketing picture now indicates that there is a greater demand for Valencia oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Valencia oranges to fill the current demand thereby making a greater quantity of Valencia oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling

V 41 149 AUG 2 76 UMI

of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), and (ii) of § 908.837 (Valencia Orange Regulation 537 (41 FR 30093) are hereby amended to read as follows:

§ 908.837 Valencia Orange Regulation 537.

* * * * *

(b) * * * (1) * * *

(i) District 1: 345,000 cartons;

(ii) District 2: 405,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: July 28, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-22323 Filed 7-30-76;8:45 am]

PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Expenses, Rate of Assessment and Late Payment Charges

This document authorizes the Oregon-California Potato Committee to spend $32,375 for its operations during the fiscal period ending June 30, 1977, and to collect three-tenths cent per hundredweight on assessable potatoes handled by each handler to defray such expenses.

The committee is the administrative agency established under Marketing Agreement No. 114 and Order No. 947, both as amended (7 CFR Part 947), regulating the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon except Malheur County. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

Notice was published in the July 16 FEDERAL REGISTER (41 FR 29411) regarding the proposals. It afforded interested persons an opportunity to file written comments not later than July 26, 1976. None was received.

After consideration of all relevant matters, including the proposals in the notice, it is found that the following expenses and rate of assessment should be approved.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because this part requires that the rate of assessment for a particular fiscal period shall apply to all assessable potatoes from the beginning of such period.

The regulation follows:

§ 947.229 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1977, by the Oregon-California Potato Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate will amount to $32,375.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be three-tenths cent ($0.003) per hundredweight or equivalent quantity of assessable potatoes handled by him as the first handler during the fiscal period except seed potatoes and potatoes for canning, freezing and "other processing" as defined in the amendment to the act (Pub. L. 91–196) shall be exempt.

(c) In accordance with the provisions of § 947.41, late payment charges of $1.00 per month or one percent per month, whichever is greater, shall be charged on the unpaid balance for each past-due account. An account is past-due 60 days after the billing date.

(d) Unexpended income in excess of expenses for the fiscal period ending June 30, 1977, may be carried over as a reserve to the extent authorized in § 947.41.

(e) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: July 28, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 76–214]

PART 159—LIQUIDATION OF DUTIES

Countervailing Duties—Sugar Content of Certain Articles From Australia

JULY 13, 1976.

Net amount of bounty declared for the period January 1976 through June 1976 for products of Australia subject to the countervailing duty order published in T.D. 54582, Section 159.47(f), Customs Regulations, amended.

The Treasury Department is in receipt of official information that no bounties or grants were paid or bestowed by the Australian Government within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303), on the exportation during the period January 1976 through June 1976 of approved fruit products and other approved products containing sugar.

Accordingly, no additional duties on the above-described commodities, imported directly or indirectly from that country, shall be assessed and collected under section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303).

§ 159.47 [Amended]

The table in § 159.47(f) of the Customs Regulations (19 CFR 159.47(f)), under "Australia—Sugar content of certain articles" is amended (1) by deleting therefrom the reference to T.D. 74–133, and (2) by adding a reference to this Treasury Decision. As amended, the last four lines of the table under this commodity will read:

Country	Commodity	Treasury decision	Action
		55716	Certain articles exempted as to shipments exported on or after July 19, 1962.
		75–54	New rate.
		76–167	Do.
		76–214	Do.

(R.S. 251, as amended, secs. 303, 624, 46 Stat. 687, as amended(759; 19 U.S.C. 66, 1303, 1624).

VERNON D. ACREE,
Commissioner of Customs.

Approved: July 27, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 31]

EMPLOYMENT TAX, GROUP-TERM INSURANCE, WAGE CONTINUATION PAYMENTS, AND MOVING EXPENSES

Public Hearing on Proposed Regulations

Proposed regulations under section 3401 of the Internal Revenue Code of 1954, relating to group-term insurance, wage continuation payments, and moving expenses, appeared in the FEDERAL REGISTER for January 14, 1976 (41 FR 2087).

A public hearing on the provisions of such proposed regulations will be held on August 31, 1976, beginning at 1 p.m. in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C., 20224, or telephoning (Washington, D.C.) 202–964–3935. Under such § 601.601(a)(3) persons who have submitted written comments within the time prescribed in the notice of proposed rule making, and who desire to present oral comments at the hearing on such proposed regulations, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by August 20, 1976. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601(a)(3) (26 CFR Part 601) each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers thereto.

Persons who desire a copy of such written comments or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by August 23, 1976. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents ($.10) per page.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of charge at the hearing, and information with respect to its contents may be obtained on August 30, 1976, by telephoning (Washington, D.C.) 202–964–3935.

JAMES F. DRING,
Director, Legislation and Regulations Division.

DEPARTMENT OF DEFENSE

Defense Supply Agency

[32 CFR Part 1286]

[DSAR 5400.21: RCS DD(A&AR)1379]

PERSONAL PRIVACY AND RIGHTS OF INDIVIDUALS REGARDING THEIR PERSONAL RECORDS

Exempted Record Systems

On May 7, 1976, there was published in the FEDERAL REGISTER (41 FR 18836) (FR Doc 76–13337) the final adopted rules of the Defense Supply Agency pertaining to the Privacy Act of 1974.

The Defense Supply Agency proposes to amend Appendix C, Exempted Record Systems (41 FR 18844, May 7, 1976) of its final rules by adding the following paragraph D to Appendix C containing an additional exempted system:

APPENDIX C

EXEMPTED RECORD SYSTEMS

* * * * *

D. ID: S155.53 DCAS–NS. (Specific Exemptions)

Sysname: Industrial Personnel Security Clearance File.

Exemption: This system of records is exempt from the following provisions of title 5, United States Code, section 552a: subsection (d).

Authority: 5 U.S.C. 552a(k)(5).

Reasons: Investigatory material is exempt to the extent that the disclosure of such material would reveal the identity of a source who furnished the information to the Government under an express promise that the identity of the source would be held in confidence, or prior to 27 September 1975 under an implied promise that the identity of the source would be held in confidence. This exemption will protect the identities of certain sources who would be otherwise unwilling to provide information to the Government.

Interested parties are invited to submit written comments, suggestions or objections regarding the proposed amendment to Defense Supply Agency, ATTN: DSAH–XA, Cameron Station, Alexandria, Virginia 22314 on or before September 1, 1976.

All relevant material received will be considered. All written comments will be available for public inspection during normal business hours at the above address.

By order of the Director.

J. J. MCALEER, JR.,
Colonel, USA,
Staff Director, Administration.

JULY 28, 1976.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

[FR Doc.76-22251 Filed 7-30-76;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 47]

ADMINISTRATIVE DETERMINATION OF WHO IS A RESPONSIBLY CONNECTED PERSON

Proposed Rules of Practice

The Department of Agriculture is considering the promulgation of rules of practice governing the administrative determination as to whether a person is responsibly connected as defined under the Perishable Agricultural Commodities Act (7 U.S.C. 499a *et seq.*). Such rules would appear in Part 47 of Title 7 of the Code of Federal Regulations now in existence.

All applicants for a license under the Act are required to report the names of the owner, or, if a partnership, the names of all general partners, or, if an association or corporation, the names of all officers, directors, or holders of more than 10 percent of the outstanding stock.

In order to provide each individual a full opportunity to challenge an initial administrative determination that he is or was responsibly connected with a licensee, the proposed rules would establish a procedure under which such person may present evidence in an oral hearing before a Presiding Officer designated to conduct such hearings for the Agricultural Marketing Service, Department of Agriculture, that his status is not that which was previously determined. The Presiding Officer would then issue a report including his proposed findings of fact. Either party to the proceeding may, within 30 days, file objections to the proposed findings of fact with the Administrator. The Administrator will issue a final decision as to whether petitioner is, or was, responsibly connected.

In the event a licensee fails to satisfy a reparation order issued under the Act against it, or is found to have committed flagrant or repeated violations of the Act,

V41I149 AUG 2 76 UMI

or its license is otherwise suspended or revoked, the licensee and responsibly connected persons are subject to restrictions with respect to relicensing, or employment by another licensee.

There have been several instances where the person who has been reported to be responsibly connected with a licensee has challenged the Department's determination and records. These persons have requested formal hearings for the purpose of obtaining an official determination of their status. However, there are presently no provisions for such hearings, nor is there an established procedure to govern this type of proceeding.

It is proposed to establish rules of practice applicable only to the administrative determination of who is a responsibly connected person. These rules will appear in Part 7 of Title 7 of the Code of Federal Regulations now in existence.

Interested persons may file comments on the proposed rules not later than September 1, 1976. Comments should be filed in duplicate with the Hearing Clerk, Room 112 Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250. All comments submitted pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours.

These rules are proposed under the authority of Section 15 of the Perishable Agricultural Commodities Act, 1930 (7 U.S.C. 499o).

In consideration of the foregoing it is proposed to amend Title 7 Part 47 CFR as follows:

1. Under general provisions revise § 47.5 as follows:

§ 47.5 Scope and applicability of rules of practice.

Sections 47.6 through 47.25 shall be applicable to the procedure governing the filing and disposition of formal complaints in reparation proceedings. Sections 47.26 through 47.43 shall be applicable to the procedure governing the filing and disposition of formal complaints and other moving papers instituting disciplinary proceedings. Sections 47.47 through 47.68 shall be applicable to the proceedings for determining whether a person is responsibly connected with a licensee under the Perishable Agricultural Commodities Act. Sections 47.1 through 47.5 and Section 47.46 shall be applicable to all proceedings under parts 47.6 through 47.46 of these regulations in this part. Sections 47.1 and 47.2(a) through (h) shall be applicable to all proceedings under Sections 47.47 through 47.68 of the regulations in this part.

2. Add Sections 47.47 through 47.68 as follows:

RULES APPLICABLE TO THE DETERMINATION AS TO WHETHER A PERSON IS RESPONSIBLY CONNECTED WITH A LICENSEE UNDER THE PERISHABLE AGRICULTURAL COMMODITIES ACT

47.47 Additional definitions.
47.48 Scope and applicability.
47.49 Determinations.
47.50 Designation of parties.
47.51 Motions.
47.52 Consent orders.
47.53 Notice of hearing.
47.54 Appearances.
47.55 Order of proceeding.
47.56 Powers of presiding officer.
47.57 Who may act in absence of presiding officer.
47.58 Evidence.
47.59 Filing transcripts and exhibits.
47.60 Transcripts.
47.61 Proposed findings of fact, conclusions, and determination.
47.62 Presiding officer's report.
47.63 Exceptions; proposed determination; objection.
47.64 Final determination.
47.65 Filing; number of copies.
47.66 Service; proof of service.
47.67 Computation of time.
47.68 Extensions of time.

§ 47.47 Additional definitions.

(a) "Administrator" means the Administrator, Agricultural Marketing Service, U.S. Department of Agriculture.

(b) "Regulatory Branch" means the Regulatory Branch of the Fruit and Vegetable Division.

(c) "Chief" means the Chief of the Regulatory Branch, or any officer or employee to whom authority has heretofore lawfully been delegated or to whom authority may hereafter lawfully be delegated by the Chief, to act in his stead.

(d) "Presiding Officer" means any member of the Board of Contract Appeals, U.S. Department of Agriculture duly assigned upon the request of the Administrator, to preside at a hearing held pursuant to the rules of this part.

(e) "Chairman of the Board" means the Chairman of the Board of Contract Appeals.

(f) "Petitioner" means any person to whom notice of being responsibly connected has been given, and who files a petition with the Administrator contesting the Regulatory Branch's determination requesting a final determination that he is not responsibly connected.

(g) "Presiding Officer's Report" includes the Presiding Officer's proposed findings of fact and such other matters as may be pertinent to the hearing.

(h) "Decision" includes the Administrator's finding of fact, conclusions with respect to all material issues of fact and law, as well as the reasons or basis therefor; and order.

§ 47.48 Scope and applicability.

These rules shall govern the determination of whether a person is responsibly connected with licensees under the Perishable Agricultural Commodities Act, of 1930, as amended, or with persons whose license issued under the Act has been suspended, revoked, or terminated or with persons who transact business subject to the Act, but fail to obtain the required license.

§ 47.49 Determinations.

(a) An initial determination shall be made by the Regulatory Branch as to whether a person is responsibly connected with a licensee whose license is subject to suspension or revocation, or which is subject to having the facts and circumstances of violations of the Act published. Such initial determination shall be made on the basis of license records on file with the Regulatory Branch, and such other information as may be available.

(b) Upon determining that a person is or was responsibly connected with a licensee which is subject to the suspension or revocation of its license, or which is subject to having the facts and circumstances of violations of the Act published, and that the employment status and licensing of such person may be restricted, the Regulatory Branch shall notify the person of his status and of the employment and licensing restrictions.

(c) If a person believes he was not responsibly connected with a licensee at the time in issue, he may submit his reasons for such belief in written form, along with all pertinent documents, within 30 days of his receipt of such notification to the Chief of the Regulatory Branch, who will consider the matter and promptly advise the person of his final determination and the reason for reaching such determination.

(d) If a person disagrees with the determination of the Chief of the Regulatory Branch, he may file a petition with the Administrator of the Service, along with a statement as to why he believes the determination was incorrect, within 30 days of his receipt of notification of such final determination, and may if he so desires, request an oral hearing. Immediately upon notification of such petition, the Regulatory Branch shall forward the file to the Administrator or his representative for review.

(e) The Administrator shall make an administrative determination as to whether a person is or was responsibly connected with a licensee on the basis of the record before him. If he believes the record is incomplete, he may ask either the person, the Regulatory Branch, or any other source for further information and may direct the submission of written statements.

(f) The Administrator may order that an oral hearing be held at a convenient location, and shall do so if it is requested by the petitioner. Upon deciding that an oral hearing is necessary, or upon receipt of a request by petitioner that an oral hearing be held, the Administrator shall request the Chairman of the Board of Contract Appeals to assign a member of the Board to serve as Presiding Officer. The Presiding Officer shall require the petitioner to appear in person for the purpose of oral testimony and examination. Such hearing shall be reported verbatim in accordance with the following rules.

§ 47.50 Designation of parties.

(a) The person who has challenged the initial determination that he is responsibly connected shall be designated the petitioner.

(b) The United States Department of Agriculture shall be designated the "Agency."

§ 47.51 Motions.

(a) All motions and requests shall be filed with the Administrator prior to the designation of a Presiding Officer. The Administrator shall rule upon all motions and requests filed in cases in which there will be no oral hearing. The Presiding Officer shall rule upon all motions and requests where an oral hearing will be held.

(b) Motions entertained. Any motion will be entertained. All written motions shall state the particular order, ruling, or action desired and the grounds therefor.

(c) Answers to motions. Within 15 days after service of any written motion, or within any longer period fixed by the Administrator or the Presiding Officer, as the case may be, the opposing party shall file an answer to the motion or shall be deemed to have no objection to granting of the relief asked for in the motion. Unless permitted by the Administrator or Presiding Officer, the moving party shall have no right to reply to the answer.

§ 47.52 Consent Orders.

At any time after the institution of a proceeding, the petitioner may withdraw his petition. Such withdrawal shall be final, and have the effect of a consent to a determination that petitioner was responsibly connected during the time in issue.

§ 47.53 Notice of time and place of hearing.

Upon assignment of the matter for an oral hearing, the Presiding Officer shall notify the parties of the time and place for such hearing, and shall make the official file a part of the records of the proceeding. The parties will be notified as soon as possible of any change in the time and place of hearing.

§ 47.54 Appearances.

(a) The petitioner shall appear in person and may be accompanied by counsel.

(b) If any petitioner to a proceeding, after being duly notified, fails to appear at the hearing, he shall be deemed to have waived the right to present evidence and to have withdrawn his petition. Failure to appear at a hearing shall not be deemed to be a waiver of the right to be served with a copy of the Presiding Officer's report.

§ 47.55 Order of proceeding.

Except as may be determined otherwise by the Presiding Officer, the petitioner shall proceed first at the hearing.

§ 47.56 Powers of Presiding Officer.

The Presiding Officer shall have the power to:

(a) Rule upon motions and requests, and accept motions for withdrawal or dismissal of the petition;

(b) Set the time and place of hearing, adjourn the hearing from time to time, and change the time and place of hearing;

(c) Administer oaths and affirmations and take affidavits;

(d) Examine witnesses;

(e) Admit or exclude evidence;

(f) Hear oral argument on facts or law; and

(g) Do all acts and take measures necessary for the maintenance of order at the hearing and for the efficient, fair and impartial conduct of the proceeding.

§ 47.57 Who may act in the absence of the Presiding Officer.

In case of the absence of the Presiding Officer or his inability to act, the powers and duties to be performed by him under this part in connection with a proceeding assigned to him may, without abatement of the proceeding unless otherwise directed by the Administrator, be assigned to any other Presiding Officer.

§ 47.58 Evidence.

(a) General. The testimony of witnesses at a hearing shall be upon oath or affirmation and subject to cross-examination. Any witness may, in the discretion of the Presiding Officer, be examined separately and apart from all other witnesses, except those who may be parties to the proceeding. The Presiding Officer shall admit all relevant and material evidence, except evidence which is unduly repetitious.

(b) Objections. If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination, he shall state briefly the grounds for such objection, whereupon an automatic exception will follow if the objection is overruled by the Presiding Officer. The transcript shall not include argument or debate thereon except as ordered by the Presiding Officer. The ruling of the Presiding Officer on any objection shall be a part of the transcript. Only objections made before the Presiding Officer may subsequently be relied upon in the proceeding.

(c) Records of the Department. A true copy of every written entry in the records of the Department, made by an officer or employee thereof in the course of his official duty and relevant and material to the issues involved in the hearing, shall be admissible as prima facie evidence of the facts stated therein, without the production of such officer or employee.

(d) Exhibits. Except where the Presiding Officer finds that the furnishing of copies is impracticable, copies of each exhibit, in addition to the original, shall be filed with the Presiding Officer for the use of the other parties to the proceeding.

(e) Official notice. Official notice may be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical or scientific fact of established character: *Provided*, That the parties shall be given adequate notice, at the hearing or by reference in the Presiding Officer's report or otherwise, of matters so noticed, and shall be given adequate opportunity to show that such facts are erroneously noticed.

(f) Offer of proof. Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Administrator decides that the Presiding Officer's ruling in excluding the evidence was erroneous. The Presiding Officer shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if the Administrator decides that the Presiding Officer's ruling excluding the evidence was erroneous, the hearing shall be reopened to permit the taking of such evidence.

§ 47.59 Filing the transcripts and exhibits.

As soon as practicable after the close of the hearing, the Presiding Officer shall certify an original and two copies of the transcript of testimony, and the original and copies of exhibits introduced in evidence at the hearing. He shall attach to the original transcript of the evidence a certificate stating that the transcript is a true transcript of the testimony offered or received at the hearing, except in such particulars as he shall specify, and that the exhibits are all the exhibits introduced at the hearing, with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript and exhibits.

§ 47.60 Transcripts.

Parties to the proceeding who desire a copy of the transcript of the hearing may place orders at the hearing with the reporter who will furnish and deliver such copies direct to the purchaser upon payment therefor at the rate per page provided by the contract between the reporter and the Department for such reporting service.

§ 47.61 Proposed finding of fact, conclusions, and determination.

Within such time as the Presiding Officer may prescribe, each party may file with the Presiding Officer proposed findings of fact and conclusions and a brief in support thereof. A copy of each such document filed by a party shall be served upon the party or parties by the Presiding Officer.

§ 47.62 Presiding Officer's Report.

The Presiding Officer, within a reasonable time after the filing of transcript of evidence, shall prepare a report containing his recommended findings of fact. A copy of such Report shall be served by the Presiding Officer upon each of the parties.

V 41 1149 AUG 2 76 UMI

§ 47.63 Exceptions; proposed determination; objection.

The Regulatory Branch and the petitioner, within 30 days after service of the Presiding Officer's Report, may take exception to any matter set out in such Report and in such case file exceptions in writing with the Administrator. Within the same period of time, each party shall file with the Administrator a brief statement in writing concerning each of the objections taken to the action of the Presiding Officer at the hearing, upon which the party wishes to rely, referring where relevant to the pages of the transcript. A party, if he filed exceptions or a statement of objections, may file a brief in support of his exceptions or objections. Within 20 days of service of such exceptions or objections, the opposing party shall file a reply.

§ 47.64 Final Determination.

Within a reasonable time after the expiration of the period for filing exceptions, proposed determination, and objections, the Administrator shall issue and cause to be served upon the parties his final Decision, including his ruling on any exceptions or objections filed by the parties.

§ 47.65 Filing; number of copies.

Except as is provided otherwise by these rules, all documents or papers required or authorized to be filed shall be filed in triplicate; *Provided*, That where there are more than two parties to the proceeding, a sufficient number of copies shall be filed so as to provide copies for service upon all the parties to the proceeding.

§ 47.66 Service; proof of service.

Copies of all documents or papers required or authorized by these rules to be served on any party to a proceeding shall be served by the Presiding Officer, or Administrator, or by some other employee of the Department. Except as is provided otherwise by these rules, service shall be made either by (a) delivering a copy of the document or paper to the person to be served, or to the attorney, or agent of record of such person; (b) by leaving a copy of the document or paper at the principal office or place of business of such person, or of his attorney or agent of record; (c) by registering or certifying and mailing a copy of the document or paper, addressed to such person or to his last known residence or principle office or place of business; or (d) in the case of service upon an attorney or agent of record, by mailing, by regular mail, a copy of the document or paper, addressed to him at his address of record. Proof of service hereunder shall be made by the affidavit of the person who actually made the service: *Provided*, That if service is made by the Administrator or Presiding Officer by regular mail, proof of service shall be made by certification of the Administrator or Presiding Officer, and if the service be made by registered or certified mail, proof of service shall be made by the return post office receipt. The affidavit or post office receipt contemplated hereby shall be filed with the Presiding Officer, or the Administrator after a Recommended Decision has been filed, and the fact of filing therof shall be noted in the record of the proceeding.

§ 47.67 Computation of time.

Saturday, Sundays, and holidays shall be included in computing the time allowed for the filing of any document or paper: *Provided*, That when such time expires on a Saturday, Sunday, or legal holiday, such period shall be extended to include the next following business day.

§ 47.68 Extensions of time.

The time for filing any document or paper required or authorized by these rules to be filed may be extended by the Administrator or the Presiding Officer, if request for such extension of time is made prior to or on the final date allowed for such filing, and if in the judgment of the Administrator or Presiding Officer, as the case may be, after notice to and consideration of the views of the other party, when practicable, there is good reason for the extension.

Done at Washington, D.C. July 28, 1976.

IRVING W. THOMAS,
Acting Administrator,
Agricultural Marketing Service.

[7 CFR Part 909]

HANDLING OF GRAPEFRUIT GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Proposed Increase in Assessment Rate for 1976–76 Fiscal Year

This notice invites written comment relative to the proposed increase in the rate of assessment of one-half cent ($0.005) per carton of grapefruit to support the activities of the Administrative Committee for the 1975–76 fiscal period under Marketing Order No. 909. Under the proposal, the currently approved assessment rate of two and one-half cents would be increased to three cents per carton of grapefruit.

Consideration is being given to the following proposal submitted by the Grapefruit Administrative Committee, established under Order No. 909, as amended (7 CFR Part 909), regulating the handling of grapegruit grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof. The committee now estimates that due to a decrease in the projected grapefruit crop, 4 million cartons of assessable grapefruit will be shipped during 1975–76, down from the 5 million cartons estimated at the beginning of the year. Therefore, income from the currently approved rate of assessment is not sufficient to meet the expenses of the committee.

The proposal is that the provisions of paragraph (b) Rate of assessment of § 909.214 (40 FR 54236) be amended to read as follows:

§ 909.214 Expenses, rate of assessment, and carryover of unexpended funds.

* * * * *

(b) *Rate of assessment.*—The rate of assessment for such period, payable by each handler in accordance with § 909.41, is hereby fixed at three cents ($0.03) per carton, or equivalent quantity of grapefruit.

* * * * *

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, no later than August 18, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 28, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-22320 Filed 7-30-76;8:45 am]

[7 CFR Part 919]

FRESH PEACHES GROWN IN COLORADO

Redefinition of Districts

The proposed amendment would redefine the districts into which the production area is divided to reflect shifts in peach production within the area.

Notice is hereby given that the Department is considering an amendment, as hereinafter set forth, to the rules and regulations (Subpart—Rules and Regulations; 7 CFR 919.100–919.171) currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 919, as amended (7 CFR Part 919), regulating the handling of fresh peaches grown in the County of Mesa in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The additional rules and regulations were proposed by the Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal may file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 30, 1976. All written submissions made pursuant to this notice will be available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendment would redefine the districts into which the production area is divided by expanding district 3's boundaries to include portions of districts 2 and 4. Shifts of peach production within the production area, especially the removal of a large number of trees in district 3, has created the need for redefining the districts. It is desirable to have districts equal in peach production potential, because 1 producer member is selected for each district and peach producers should have equal representation on the committee. The amendment would be issued under § 919.32(1) which authorize redefinition of the districts to reflect shifts in peach production within the districts and the production area.

The proposal would establish a new § 919.111 Redefinition of districts, reading as follows:

§ 919.111 Redefinition of districts.

The districts into which the production area is divided are redefined as follows:

(a) "District No. 1" shall include all that portion of Mesa County lying north of the Colorado River and east of 37.3 Road and an extension thereof to the Mesa County line.

(b) "District No. 2" shall include all that portion of Mesa County lying south of the Colorado River, known as Vineland, on the floor of the valley and northeasterly which is to include the Rapid Creek Area.

(c) "District No. 3" shall include all that portion of Mesa County lying south of the Colorado River on the west of District No. 2, known as Orchard Mesa, to the natural barrier known as the Big Wash.

(d) "District No. 4" shall include all that portion of Mesa County lying south of the Colorado River bounded on the west by the Gunnison River and bounded on the east by natural barrier known as the Big Wash.

(e) "District No. 5" shall include all that portion of Mesa County west of 37.3 Road and an extension therof to the Mesa County line, north of the Colorado River to the junction of the Colorado River and the Gunnison River, and all of the rest of Mesa County west and north of the junction of the Colorado and Gunnison Rivers.

Dated: July 28, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[45 CFR Part 73b]

STANDARDS OF CONDUCT

Proposed Supplement for the National Institutes of Health

In an effort to provide guidance to employees on Standards of Conduct, NIH proposes to adopt, in regulation form, a liberalized policy on outside work activities. This liberalized policy follows consultation with the U.S. Civil Service Commission. Authorization for this proposed supplementation is contained in 73.735–105 of Part 73 of the Department's Standards of Conduct.

The proposed regulations add a new part 73b to Title 45 of the Code of Federal Regulations and amplify the provisions of the existing DHEW Standards of Conduct regulations as they relate to the National Institutes of Health. This supplement is necessary to meet research responsibilities and assure full protection of the integrity of NIH and its employees. It recognizes the increasing demand for the services of NIH staff members by the community and by business and industrial organizations with which NIH maintains official relationships. Specifically, to prevent these relationships from being compromised by conflict of interest, or the appearance of conflict of interest, the following policy relating to outside work and activities is being proposed:

1. Top level operating officials may not accept remuneration for outside activities except in unusual circumstances. A teaching activity in their particular specialty may involve such an exception.

2. NIH officials holding positions which may enable them to influence a grant or contract award, may not accept an honorarium for any outside work activity from an institution that has recently negotiated, or in the near future may seek a grant or contract from their NIH organization.

3. Profession-oriented activities including private medical and dental practice; consultative services; teaching, lecturing and speechmaking; and, in certain circumstances, service to PHS contract or grant-assisted institutions may be performed by professional employees under new criteria.

Written comments concerning these proposed regulations are invited from interested persons. Inquiries may be addressed, and data, views and arguments relating to the regulations may be presented in writing in triplicate, to the Director, Division of Personnel Management, Office of the Director, National Institutes of Health, Building 1, Room 21, 9000 Rockville Pike, Bethesda, Maryland, 20014.

All comments received will be available for public inspection at said office on weekdays (Federal holidays excepted) on or before September 1, 1976. All relevant material received will be considered.

Dated: June 22, 1976.

JAMES F. DICKSON,
Acting Assistant Secretary for Health.

Approved: JULY 22, 1976.
DAVID MATHEWS,
Secretary.

Accordingly, NIH proposes to amend Title 45 of the Code of Federal Regulations by adding a new Part 73b, as follows:

Subpart A—General Provisions

Sec.
73b.735–101 Principles and purpose.

Subpart D—Outside Employment

73b.735–401 General provisions.
73b.735–402 Professional and consultative services.
73b.735–405 Teaching, lecturing, and speechmaking.

AUTHORITY: 45 CFR 73.735–105.

Subpart A—General Provisions

§ 73b.735–101 Principles and purpose.

(a) To assure that the functions of the National Institutes of Health are conducted effectively, objectively, and without improper influence or appearance thereof, all employees must be persons of integrity and observe the highest standards of conduct. This supplement recognizes the increasing demand for the services of NIH staff members by the community and by business and industrial organizations with which NIH maintains official relationships. These relationships must not be compromised by conflict of interest or the appearance of conflict of interest on the part of NIH employees.

(b) In order to meet NIH's research responsibilities and to otherwise assure full protection of the public confidence in the integrity of its employees, the DHEW Standards of Conduct need further supplementation. Therefore, for purposes of implementing the DHEW Standards of Conduct regulations within the National Institutes of Health, this supplement provides interpretive definitions and additional requirements. As further guidance to its employees and supervisory officials, NIH will issue internal procedural instructions in accordance with this supplement.

Subpart D—Outside Employment

§ 73b.735–401 General provisions.

(a) Each employee of the National Institutes of Health is expected to so regulate his outside activities that they do not interfere with performance on the job or constitute a real or apparent conflict with the requirements of his position. All responsibilities must be so organized that no NIH time or facilities will be committed. No NIH employees should engage in any outside activity which would:

(1) Constitute a real or apparent conflict of interest;

(2) Tend to damage the NIH appearance of objectivity in the eyes of the biomedical community, particularly those organizations whose products are tested by NIH or with which NIH participates through grants or contracts;

(3) Interfere with an employee's regularly assigned duties. "Regularly assigned duties" include the total set of obligations and responsibilities which characterize the performance of professional researchers and research administrators at the NIH.

(b) The employee is initially responsible for avoiding such activities. When there is doubt in an employee's mind about the propriety of contemplated ac-

V 41 149 AUG 2 76 UMI

tivities, he should consult with his supervisor before undertaking the proposed outside activity. In any case where there is doubt or where the contemplated outside activity involves professional performance, HEW Form 520, Request for Approval of Outside Activity, should be submitted.

(c) Some NIH officials hold positions of such national prominence the most of their proposed outside work activity could reasonably be considered to fall within their official responsibilities for which they are already being compensated. These officials must be very circumspect about engaging in outside work for remuneration in order to avoid causing embarrassment to themselves and to NIH or creating an apparent conflict of interest. There may be occasions, however, when they may separate themselves from their official role and accept remuneration. In general a teaching activity in their particular specialty would constitute such a separation, and with approval the official may accept compensation.

(d) Some NIH officials hold positions that appear to enable them to influence a grant or contract award. They may not accept an honorarium for any outside work activity, from an institution that has recently negotiated, or in the near future may be expected to seek, a grant or contract from their NIH organization.

(e) On occasions, defined by the official travel regulations, it may be proper to accept payment from an outside institution, in lieu of Government funds, for travel expenses when the visit is on official time. However, when participating in an official role, it is preferable to travel on official funds, if available.

(f) Recognizing the increasing demands of professional participation in clinical research, basic research, and research administration, staff members so engaged will normally limit outside professional clinical and consultative work to a minimum except where such activities directly contribute to the professional growth of the staff member or to professional education.

(g) The NIH requires each professional employee to submit a formal written request (HEW Form 520) for approval before engaging in outside activities which require the use of professional qualifications readily identified with his NIH employment.

(1) The activity may utilize qualifications identified with the employee's professional training. As an example, a medical officer must submit an outside work form before practicing medicine whether he is currently a clinician or an administrator.

(2) The activity may utilize qualifications identified directly with the employee's current NIH assignment. As an example, an employee engaged in personnel management, regardless of his academic preparation for that position, must obtain prior approval before practicing outside in a personnel management field.

(h) Activities subject to this requirement include private medical and dental practice, consultative services, teaching, lecturing, and speechmaking, and the acceptance, from a "for-profit" organization, of any award. Each request will be judged on its individual merits against the criteria listed in paragraph (a) of this section. The requirements of individual assignments at the NIH vary sufficiently so that outside work appropriate for an employee in one assignment may not be appropriate for him in another assignment.

(i) Approved outside work and activities must be undertaken outside of officially scheduled work hours or during periods of approved annual leave. With the supervisor's consent, a special workweek may be scheduled by the approving official, on specific occasions or on a regular basis, when the contemplated outside work would serve the public interest and when neither performance of the outside work nor special rescheduling of the workweek would adversely affect performance of the employee's duties.

§ 73b.735–102 Professional and consultative services.

(a) In order to prevent an appearance of conflict each staff member requesting authority to engage in the private practice of medicine must agree that:

(1) No patient with whom he establishes a continuing physician-patient relationship in outside private practice will be referred to the NIH as either an inpatient or out-patient as a consequence of that relationship.

(2) He will never knowingly establish a physician-patient relationship in outside private practice with any current or recently discharged NIH patient.

(3) Additionally, no staff member with final responsibility for the admission of patients to the Clinical Center may receive a fee for service as a consultant to another physician where the condition of the patient would appear to make him eligible for Clinical Center admission in an area currently supervised by that staff member.

(b) The professional eminence of NIH staff members tends to create demands for their services by business and industrial organizations with which NIH maintains official relationships. These relationships must not be compromised by conflict of interest or the appearance of conflict of interest on the part of NIH employees. Therefore, it is imperative that the conflict of interest statutes and the Standards of Conduct regulations be scrupulously applied. The requirements and limitations of each employee's assignment must be weighted with care in making these determinations. In the past, two areas requiring the most careful review have been extramural program officials consulting with universities and staff members involved in clinical trials consulting with pharmaceutical houses.

(c) Acceptance of an award directly from a profit-making organization is permitted if there is no quid pro quo arrangement, and if the award has been made to other non-NIH scientists, or is one for which non-NIH scientists would be eligible.

(d) Remuneration may not be accepted for srevice of any kind to a PHS contract or grant-assisted project. This policy does not preclude remunerated service to an organization in its institutional capacity when some part of the organization is receiving a contract or grant. It does, however, preclude service to any specifically identified contract or grant-assisted project of such an organization.

(1) For example, if a university receiving a contract or grant for a specific project requests the services of an NIH staff member for such a project, the service may be authorized only as part of his official duties.

(2) However, if the requested service is for some other project of the university which is not assisted by a PHS contract or grant, this limitation does not apply as long as the service does not include participating in applying for contract or grant assistance.

(e) It is important that the application of this policy be understood by all who are concerned with arranging for or recommending approval of outside work. Each official who initiates a request for approval of service for which there will be remuneration must ascertain and identify whether or not the proposed remuneration is derived in whole or in part from a PHS grant or contract.

(f) NIH employees, including Commissioned Corps, Staff Fellows and members of the Visiting Program, may not hold PHS Fellowships (postdoctoral or special) or Traineeships (direct or indirect). Any employee who accepts such fellowship or traineeship must resign, or inactivate his commission, before beginning travel to his fellowship/traineeship institution. NIH is under no obligation to provide employment upon the completion of such training.

§ 73b.735–405 Teaching, lecturing, and speechmaking.

(a) Teaching, lecturing, and speechmaking activities with or without remuneration, are recognized as beneficial to NIH and staff members who are so engaged. Employees may participate in these activities only with prior approval to ensure that the outside activity does not infringe upon the employee's capacity to perform his official duties. If the employee wishes to accept responsibility for the conduct of a complete course, he should be encouraged to schedule this activity outside of the normal working day.

(b) When teaching as a Federal City College Instructor in NIH Upward Mobility College:

(1) Employees must follow guidelines in paragraph (a) above.

(2) Not receive remuneration if teaching is a part of regular duties.

(c) Employees may accept remuneration from Federal City College by agreeing to one of the following options:

(1) Teaching outside of working hours;

(2) Teaching while on scheduled annual leave or leave without pay; or

(3) Adjusting the work schedule. Any arrangement must have official prior approval.

This amendment was approved by the Civil Service Commission on October 23, 1974.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[24 CFR Part 2205]

[Docket No. R–76–282]

INDIVIDUAL AND FAMILY GRANTS

Advance of State Share

The Department promulgated the Final Regulations for Federal Disaster Assistance under the Disaster Relief Act of 1974 (88 Stat. 143 et seq.; 42 U.S.C. § 5121 note et seq.), in the FEDERAL REGISTER (40 FR 23252), May 28, 1975, as 24 CFR Part 2205.

Section 2205.48(h) contains the regulations governing Advance of State share for the Individual and Family Grant Program under Section 408 of the Act. This Paragraph provides that a State which is immediately unable to pay its 25 percent share of grants to be made under this Section may request an advance of funds from the Federal Government conditioned by the Governor's certification that the State will repay the advance when it is able to do so.

While this Paragraph prescribes that a failure to repay any advance ". . . may result in the withholding by the Federal Government of subsequent advances under this section.", there has been no other prescribed mechanism to recover unrepaid advances. To overcome this deficiency, the Department proposes to amend 24 CFR 2205.48 to provide that advances not repaid within two years may be recovered through an offset against other funds to which the State is entitled under the Act.

Interested persons may participate in this proposed rule making by submitting written data, views or arguments to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410. Each person submitting a comment should identify this notice, and give reasons for any recommendations. Comments received on or before August 31, 1976, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons at the above address. This proposal may be changed in the light of the comments received.

The Administrator of the Federal Disaster Assistance Administration, with the concurrence of the appropriate Departmental officials, has issued a Finding of Inapplicability of Environmental Impact concerning this proposed amendment. It is the position of the signatories to the Finding that this amendment in itself would have no significant impact on the human environment. Interested parties may inspect this Finding of Inapplicability of Environmental Impact at the Office of the Rules Docket Clerk of the Department of Housing and Urban Development, Washington, D.C.

In consideration of the foregoing, it is proposed to amend 24 CFR Part 2205 by adding a new § 2205.48(h)(3), reading as follows:

§ 2205.48 Advance of State share.

(h) * * *

(3) Any advance of the State's share not repaid to the Federal Government within two years subsequent to the date on which the major disaster was declared may, at the discretion of the Administrator, be recovered by the offset of Federal funds to which the State would otherwise be entitled under other sections of this Act.

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A–107.

(Section 408, Pub. L. 93–288, 88 Stat. 156 (42 U.S.C. 5178), Executive Order 11795, 39 FR 25939, Delegation of Authority, 39 FR 28227)

Issued at Washington, D.C., July 23, 1976.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR Part 93]

[CGD 76–080]

DAMAGE STABILITY STANDARDS FOR HOPPER DREDGES

Advance Notice of Proposed Rule Making

The Coast Guard is considering developing damage stability standards for hopper dredges that will improve their capability to withstand flooding caused by hull damage or damage to interior piping.

Interested persons are invited to submit written comments concerning this notice to the Executive Secretary, Marine Safety Council (G–CMC/81), U.S. Coast Guard, Washington, D.C. 20590. Each person submitting a comment should include his name and address, identify this notice (CGD 76–080) and the specific subject in this notice to which his comment applies, and give reasons in support of his comment. All comments received before September 16, 1976, will be considered before final action is taken on this notice. Copies of all written comments will be available for examination by interested persons in room 8117, Nassif Building, 400 Seventh St., SW., Washington, D.C. 20590.

If the Coast Guard determines after evaluating the comments received that it is in the public interest to proceed further with this rule making, a notice of proposed rule making will be issued.

Private marine interests are actively considering entering the dredging field and many hopper dredges may ultimately be built. The Coast Guard is studying the stability aspects of these commercial dredges and, accordingly, may propose damage stability standards that would apply to them. Possible regulations include limitations on draft and requirements for extra bulkheads to increase the number of compartments. The purpose of the regulations would be to prevent hopper dredges from sinking after damage or flooding.

Past experience of the U.S. Army Corps of Engineers (COE) in the use of hopper dredges has shown the need for having damage stability standards. Since 1902, the COE has been the principal builder and operator of hopper dredges in the United States. Most of their early designs were not built in accordance with any definite damage stability standards and several of these sunk as a result of flooding incidents. However, dredges built more recently have been designed to remain afloat after flooding in two compartments. None of these later designs have sunk in flooding incidents.

The following considerations also show the need for damage stability standards:

1. A hopper dredge generally operates in harbors and channels where vessel congestion poses a continual possibility of a collision and subsequent hull damage and flooding.

2. A hopper dredge often risks bottom damage and flooding when operating close to shoal areas.

3. A hopper dredge may be flooded if its pump or piping system is damaged by an object it dredges up.

Relevant comments, casualty data, and other information are requested to assist in the development of proposed damage stability standards for hopper dredges. Recommendations will be welcome concerning what standards should be imposed and concerning the type, size, and operational characteristics of hopper dredges that should be considered in the development of proposed standards.

In addition, information that will be helpful in addressing the following specific questions is requested:

1. What economic and environmental factors should be considered in the development of proposed damage stability standards?

2. Should the proposed damage stability standards apply only to hopper dredges or should they apply to all types of dredges?

3. Should different standards be developed depending on the type of dredge and area of operation?

The Coast Guard welcomes all relevant comments and suggestions concerning this advanced notice.

Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

[FR Doc. 76-22316 Filed 7-30-76;8:45 am]

[33 CFR Part 117]

[CGD 76 139]

DODGE ISLAND, FLORIDA

Proposed Drawbridge Operation

At the request of Port of Miami, the Coast Guard is considering revising the regulations for the highway and railroad drawbridges across Biscayne Bay to the Port of Miami, mile 372.4, Atlantic Intracoastal Waterway. This revision would provide that from 7:15 a.m. to 5:45 p.m., Monday through Saturday, except legal holidays, the draw need open only on the quarter and three-quarter hour. The present regulations permit closed periods from 7:30 a.m. to 9 a.m., 11:30 a.m. to 1:30 p.m., and 4:30 p.m. to 6 p.m., Monday through Saturday. This change is being considered because of a significant increase in vehicular traffic during the period proposed.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, 51 SW. First Avenue, Miami, Florida 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before September 7, 1976, with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.446(f) to read as follows:

§ 117.446(f) Dodge Island bridges.

(a) From 7:15 a.m. to 5:45 p.m., Monday through Saturday, except legal holidays, the draws need not open except on the quarter and three-quarter hour to allow any accumulated vessels to pass. At all other times the draws shall open on signal.

(b) The draws shall open at any time for the passage of public vessels of the United States, tugs with tows, cruise boats operated on a regular schedule, or vessels in distress. The opening signal from these vessels is four blasts of a whistle, horn, or by shouting.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: July 27, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[33 CFR Part 117]

[CGD 76-135]

PRESUMPSCOT RIVER, MAINE

Proposed Drawbridge Operation

At the request of Maine Department of Transportation, the Coast Guard is considering revising the regulations for the highway drawbridge across the Presumpscot River, mile 0.0, between Portland and Falmouth. This revision would provide that from June 1 through September 30, Monday through Friday, except holidays, from 7 a.m. to 6 p.m., the draw shall open on signal if at least 6 hours notice is given. At all other times, the draw shall open on signal if at least 24 hours notice is given. Present regulations require that from April 1 through November 30 from 7 a.m. to 6 p.m., the draw open on signal. Timely previous notice is required at all other times. The reason this change is being considered is the decrease of the use of this waterway by vessels which require the opening of the draw (1969-57, 1970-7, 1971-6, 1972-7, 1973-13, 1974-4, and 1975-6).

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander (oan-1), First Coast Guard District, 150 Causeway Street, Boston, Mass. 02114. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, First Coast Guard District.

The Commander, First Coast Guard District, will forward any comments received before September 7, 1976, with his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, Washington, D.C., who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.15 to read as follows:

§ 117.15 Presumpscot River, Portland, Maine; highway bridge at Martin Point.

From June 1 through September 30, from Monday through Friday, except holidays, from 7 a.m. to 6 p.m., the draw shall open on signal if at least 6 hours notice is given. At all other times the draw shall open on signal if at least 24 hours notice is given. The opening signal is one long blast followed by one short blast.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)))

Dated: July 27, 1976.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.76-22314 Filed 7-30-76;8:45 am]

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 76-NE-28]

AIRWORTHINESS DIRECTIVE; PROPOSED

Pratt & Whitney Aircraft Model JT8D Engines

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to the Pratt & Whitney JT8D aircraft engines. There have been several fatigue failures of the eighth stage compressor disk, P/N 496908, on Pratt & Whitney JT8D aircraft engines. Since this condition is likely to exist or develop in other engines of the same type, the proposed airworthiness directive would require removal of the eighth stage compressor disk prior to reaching 6000 cycles in service after the effective date of this AD or by December 31, 1977, whichever comes later. The 6000 cycle limit is based upon crack initiation and propagation rates determined from service experience. The date was selected after careful review of the safety considerations, parts availability, and the shop capability of the industry to effect the change.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before September 2, 1976 will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of the Regional Counsel, for examination by interested persons.

This amendment is proposed under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT8D-1, -1A, -1B, -7, -7A, -7B, -9A, and -11 turbofan engines containing eighth stage compressor disk, P/N 496908.

Compliance required as indicated.

To prevent possible failure, remove from service the eighth stage compressor disk, P/N 496908, prior to reaching 6000 cycles in service after the effective date of this AD or by December 31, 1977, whichever comes later. The established life limit of 11,000 cycles is not to be exceeded.

Issued in Burlington, Massachusetts on July 22, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

[FR Doc.76-22103 Filed 7-30-76;8:45 am]

[14 CFR Part 39]

[Docket No. 76-NE-29]

AIRWORTHINESS DIRECTIVE; PROPOSED

Pratt & Whitney Model JT8D Engines

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Pratt & Whitney JT8D aircraft engines. There have been numerous instances of failed second stage fan blade retaining straps from taper wear on certain Pratt & Whitney JT8D aircraft engines that have resulted in liberation of the second stage fan blade. Since this condition is likely to exist or develop in other engines of the same type design, an airworthiness directive is being proposed to require an inspection of the second stage fan blade retaining strap for excessive taper wear, and installation of blade bumpers to reduce strap taper wear.

The reported second stage fan blade failures have not been time related but rather have occurred at random service times. Therefore, the Notice proposes the utilization of a calendar date compliance time rather than the usual compliance time based on time in service. The proposal provides that all engines would have to be in compliance by June 30, 1978. The date was selected after careful review of the safety considerations, parts availability, and the shop capability of the industry to effect the change.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before September 2, 1976 will be considered before taking action upon the proposed rule. The proposals cotnained in this Notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of the Regional Counsel for examination by interested persons.

This amendment is proposed under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend 39.13 of Part 39 of the Federal Aviation Regulation by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT8D-1, -1A, -B, -7, -7A, and -7B engines.

Compliance required prior to June 30, 1978, unless already accomplished.

To preclude liberation of second stage fan blades:

A. Inspect the blade retaining strap for taper wear in accordance with Section 72-33-1 of Pratt & Whitney Aircraft JT8D Series Engine Manual P/N 481672, Revision 78, or later FAA approved revision or equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region. Remove from service second stage fan blades with taper wear in excess of .0025 inch before further flight.

B. Install second stage fan blade bumper, P/N 642409, in accordance with Pratt & Whitney Aircraft Service Bulletin 2406 or later FAA approved revision or equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

The manufacturer's service bulletins identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, 400 Main Street, East Hartford, Connecticut 06108. These documents may also be examined at the Office of the Regional Counsel, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, and at Federal Aviation Administration Headquarters, 800 Independence Avenue, S.W., Washington, D.C. 20591. A historical file on this AD which includes the incorporated material in full is maintained by the Federal Aviation Administration at its headquarters in Washington, D.C., and at the New England Regional Office in Burlington, Massachusetts.

Issued in Burlington, Massachusetts, on July 22, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

NOTE: The incorporation by reference provision in this document was approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.76-22104 Filed 7-30-76;8:45 am]

[14 CFR Part 39]

[Docket No. 76-NE-27]

PRATT AND WHITNEY AIRCRAFT MODEL JT9D ENGINES

Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Pratt & Whitney Aircraft JT9D -3, -7, and -20 series turbofan engines containing certain fan blades. There have been several fatigue fractures of these blades, two of which released particles that severed fuel and hydraulic lines.

It has been determined that the fatigue originates at a shear crack caused by foreign object damage in a critical section of the fan blade leading and trailing edges.

Since this condition is likely to exist in all JT9D engines containing the subject fan blades, an airworthiness directive is being proposed that would require a repetitive inspection of the fan blade critical area for foreign object damage and provides a blade blending procedure if excessive damage is found. In addition, the AD would require a one-time inspection for blades that have been previously blended or reworked.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Department of Transportation, Federal Aviation Administration, Attention: Regional Counsel, Airworthiness Rules Docket, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before September 1, 1976 will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of the Regional Counsel for examination by interested parties.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

PRATT & WHITNEY. Applies to all Pratt & Whitney Aircraft JT9D turbofan engines containing fan blades, part numbers 658931, 718431, 726221, 734721, 735831, 735841, 740421, 740431, 740441, 740521, 741131, 741141, 748231, 748321, 748931, 750621, 750631, 758031, 758181, 758191, 758221, 760631, 760641, 760721, 760731, 760831, 760841, 760941, 761041, 761121, 761131, and 761141.

Compliance required as indicated.

To preclude failure of fan blades due to fatigue originating from undetected foreign object damage inspect the blades in accordance with the procedures given in PWA ASB 4673, dated March 26, 1976, or later FAA approved revision, per the following schedule:

1. Visually inspect all fan blades within the next 600 hours time in service after the effective date of this AD, and every 600 hours time in service thereafter.

2. Eddy current inspect all fan blades that have been previously blended (except blades reworked per the requirements of PWA serv-

V 41 149 AUG 2 76 UMI

ice bulletins 4124 and 4262) within the next 600 hours time in service after the effective date of this AD.

3. Eddy current inspect fan blades reworked per PWA service bulletins 4124 and 4262 within the next 3500 hours time in service after the effective date of this AD.

If foreign object damage with a depth of .005 inch or more is found, in the critical area, blend and inspect in accordance with Option 1 or Option 2 procedures given in PWA ASB No. 4573, dated March 26, 1976, or later FAA approved revision.

(NOTE.—The AD does not change the present fan blade blend limits given in the JT9D engine manual.)

Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA New England Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Pratt & Whitney Aircraft, Division of United Technologies Corporation, 400 Main Street, East Hartford, Connecticut 06108. These documents may also be examined at Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803, and at FAA headquarters, 800 Independence Avenue, SW., Washington, D.C.

A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at New England Region.

Issued in Burlington, Massachusetts on July 20, 1976.

QUENTIN S. TAYLOR,
Director, New England Region.

NOTE: The incorporation by reference provisions in this document was approved by the Director of the Federal Register on June 19, 1967.

[14 CFR Part 71]

[Airspace Docket No. 76-GL-25]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Peoria, Illinois.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018. All communications received on or before September 1, 1976 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon, Des Plaines, Illinois 60018.

An instrument approach procedure has been developed to the Mt. Hawley Airport, Peoria, Illinois. Controlled airspace is required to protect the procedure. This will be combined with the Peoria transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (41 FR 440), the following transition area is amended to read:

PEORIA, ILLINOIS

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 40°54' N., longitude 89°59' W., to latitude 40°53' N., longitude 89°33' W., to latitude 40°49' N., longitude 89°29' W., to latitude 40°23' N., longitude 89°34' W., to latitude 40°26' N., longitude 90°07' W., to latitude 40°34' N., longitude 90°11' W., to latitude 40°47' N., longitude 90°08' W., to point of beginning.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348, sec. 6(c) Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Des Plaines, Illinois on July 16, 1976.

LEON C. DAUGHERTY,
Acting Director, Great Lakes Region.

[FR Doc.76-22105 Filed 7-30-76;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76-EA-45]

CHAMPION, PA.

Proposed Designation of Transition Area

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Champion, Pa., Transition Area.

A VOR-A instrument approach procedure developed for Seven Springs Airport, Champion, Pa. requires designation of a transition area to provide controlled airspace protection for IFR arrivals and departures at Seven Springs Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before September 1, 1976 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Champion, Pa. proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by designating a Champion, Pa. Transition Area as follows:

CHAMPION, PA.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the center, 40°00'35" N., 79°19'20" W., of Seven Springs Airport, Champion, Pa.; within 3.5 miles each side of the Indian Head, Pa. VORTAC 218° radial, extending from the 6-mile radius area to 11.5 miles southwest of the Indian Head VORTAC. This transition area is effective from sunrise to sunset, daily.

(Sec. 307(a) Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348), sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, N.Y., on July 16, 1976.

L. J. CARDINALI,
Acting Director, Eastern Region.

Federal Highway Administration

[23 CFR Part 658]

[Docket No. 75-4; Notice 6]

NATIONAL MAXIMUM SPEED LIMIT

Proposed Amendments to State Certification of Speed Limit Enforcement

This notice proposes clarifying amendments to the regulation on the national maximum speed limit.

The speed limit regulation, 23 CFR Part 658, was published and amended in the FEDERAL REGISTER September 9, 1975 (40 FR 41776) and September 11, 1975 (40 FR 42186). The Part implements those provisions of the Federal-Aid Highway Amendments of 1974. Pub. L. 93-643, relating to the establishment

of a 55 mph national maximum speed limit, to the enforcement of the speed limit on all public highways, and to the enforcement of the weight and size limitations on the Federal-aid highways.

23 CFR 658.7 requires the Governor of each State, or an official designated by the Governor, to certify annually that the State is enforcing the 55 mph speed limit and to provide certain supporting data. Review of State certifications by Department of Transportation officials has indicated certain weak points in § 658.7. In order to remedy these weaknesses, this notice proposes several amendments designed to clarify certain requirements and make others more precise.

The first amendment concerns § 658.7 (a). This section presently requires that a statement be supplied certifying that the State is enforcing the national maximum speed limit. However, many of the initial certification statements contained vague language such as "It is our opinion that we are enforcing the • • • limit," or "We believe we are in compliance." In order to reduce uncertainty and ambiguities in the certification statements, the Department proposes to amend § 658.7 to specify the language of the certifying statement.

Another proposed amendment concerns § 658.7(c)(1). This section presently requires that States provide information "on the number of miles of State highways having posted or allowable speeds of 55 mph." The Department intended that the States supply information on the total mileage of all roadways having a 55 mph limit in the State. However the term "State highways" proved to be ambiguous. Some States included interstate and U.S. route mileage in their certification while others excluded interstate and U.S. route mileage. Still others included U.S. routes but excluded interstate mileage. The Department's proposal is designed to clarify the language of § 658.7(c)(1) to ensure that the States provide information on the total mileage of all roads of all types having a 55 mph speed limit.

The Department is also proposing clarifying language for § 658.7(c)(2). This section presently requires States to provide information on the portion of road mileage, listed in § 658.7(c)(1), on which the State has "patrol responsibility." This passage has been read narrowly by some States and broadly by others. To remedy this confusion, the Department is proposing language which will indicate that the provision should be read broadly to include all roads on which the State has any traffic responsibility. The Department is also proposing that the information required in this section be broken down by types of road.

The final proposed amendment concerns § 658.7(c)(4). This section presently requires States to provide the Department with the number of citations issued by a State for violation of the speed limit. Evaluation of these submissions has been hampered by an inability to determine at what speed the citations have been issued. The Department is unable to determine whether citations are being issued at 60 mph or 80 mph. To remedy this situation, the Department is proposing that the information on the number of citations be broken down to indicate how many were given out at speeds from 56 to 65 mph, from 66 to 75 mph, and over 75 mph.

If these proposals are eventually adopted, the Department would propose that all but the last amendment be given immediate effective dates, requiring the State certifications due by January 1, 1977, to conform to the amendments. The revision concerning the speed limit citation would have an effective date of October 1, 1976, and States would be required to comply with its requirements in the certification due January 1, 1978.

In light of the foregoing, it is proposed that 23 CFR 658.7 be amended as set forth below:

In § 658.7, paragraphs (a), (c)(1), (c)(2), and (c)(4) are revised to read as follows:

§ 658.7 Certification of speed limit enforcement.

• • • • •

(a) A statement signed by the Governor, or by an official, designated by the Governor, certifying that the State is enforcing the national maximum speed limit. The certifying statement shall be worded as follows: I (name of certifying official), (position title), of the State of _____, do hereby certify that the State of _____ is enforcing the 55 mph National Maximum Speed Limit.

• • • • •

(c) • • •

(1) The number of miles of all roads of all types within the State having a posted or allowable maximum speed of 55 miles per hour, listed by type of roads. (For example, interstate rural, interstate urban, other multilane divided rural, other multilane divided urban, major non-divided urban.)

(2) The approximate portion of the mileage listed in (1) on which the State has police traffic responsibility, including portions on which the State shares responsibility with local law enforcement agencies, listed by type of road.

• • • • •

(4) The number of citations issued by State agencies for violation of the 55 mph speed limit, indicating the number issued at speeds of 56 mph to 65 mph, at speeds of 66 mph to 75 mph and at speeds over 75 mph, during each month of the 12-month period ending on the September 30 before the date by which certification is required.

• • • • •

Interested persons are invited to submit comments on the proposals. Comments should refer to the docket number and be submitted to: National Highway Traffic Safety Administration, Docket Section, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. Relevant material will continue to be filed as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: September 2, 1976.

(Secs. 106, 107, 114, Pub. L. 93-643, 80 Stat. 2281; 23 U.S.C. 127, 141, 154; 23 U.S.C. 315; delegations at 49 CFR 1.48 and 1.50)

Issued on: July 27, 1976.

NORBERT T. TIEMANN,
Federal Highway Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

OREGON IMPLEMENTATION PLAN

[FRL 591-7]

Approval and Promulgation of Implementation Plans

The purpose of this notice is to announce receipt of proposed revisions to the Oregon State Implementation Plan and to invite public comment as to whether the revisions should be approved by the Administrator of the Environmental Protection Agency (EPA).

On February 17, 1976 the State of Oregon Department of Environmental Quality (DEQ) submitted for EPA's approval revisions to the State Air Contaminant Discharge Permits regulation (Oregon Administrative Rules 20-033). The revisions to the regulation were adopted by the Oregon Environmental Quality Commission on December 12, 1975.

In a similar action, the DEQ submitted for EPA's approval revisions to Title 22—Permits of the Lane Regional Air Pollution Authority Rules on June 7, 1976. The revisions were adopted by the Board of the Lane Authority on February 9, 1976.

The revisions to both the State and Regional Authority regulations were adopted following notice to the public and public hearing, as required by 40 CFR 51.4.

The permit regulations require that an air contaminant discharge permit be obtained for certain sources of air contaminants. Source categories subject to the regulation are identified in each reg-

V 41 149 AUG 2 76 UMI

ulation by Standard Industrial Classification Numbers.

The revisons to both regulations primarily represent changes in the fee schedules for permits, and do not alter attainment of air quality standards as indicated in the State plan. The three-part fee consists of a uniform $25 filing fee, an application processing fee and an annual compliance determination fee, the amounts of which are determined by category of source.

The revision to the State regulation was made after an increase in permit fees was approved by the State legislature in 1975. The revision to the Regional Authority regulation was made because of a State regulation which requires that regional authorities follow the same fee schedule as the DEQ.

The Administrator is required by Section 110 of the federal Clean Air Act to approve or disapprove any proposed revison to an implementation plan submitted by a State. Interested persons are invited to participate in this rulemaking by submitting written comments, preferably in triplicate, to the Regional Administrator, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101. Attention: K. Higley, M/S 625. Relevant comments received on or before September 1, 1976 will be considered and will also be available for public review during normal working hours at the Region X Office and EPA Headquarters at the addresses noted below. Copies of the proposed revisions are available for public inspection during normal working hours at the following locations:

Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101.
State of Oregon, Department of Environmental Quality, 1234 S.W. Morrison Street, Portland, Oregon 97205.
Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), 401 M. Street S.W., Washington, D.C. 20460.
Lane Regional Air Pollution Authority, 16 Oakway Mall, Eugene, Oregon 97401.

This notice of proposed rulemaking is issued under the authority of Section 110(a) of the Clean Air Act as amended (42 U.S.C. 1857c-5(a)).

Dated: July 20, 1976.

DONALD P. DUBOIS,
Regional Administrator,
Region X.

[40 CFR Part 420]

[FRL 591-5]

IRON AND STEEL MANUFACTURING POINT SOURCE CATEGORY

Proposed Rulemaking; Correction

Correction

Notice is hereby given that the Environmental Protection Agency (EPA) is correcting 40 CFR 420, Iron and Steel Manufacturing Point Source Category as set forth below. On March 29, 1976, the Agency published a notice of proposed rulemaking (41 FR 13015) establishing effluent limitations and guidelines for existing sources, standards of performance for new sources and pretreatment standards for new and existing sources for the iron and steel manufacturing point source category.

The purpose of this notice is to correct errors in subparts N, O, Q, R, U, W, X, and Y. The corrections encompass primarily typographical errors with some calculation errors and do not involve any substantive or policy issues.

Because the comment period has closed, the Agency will accept amendments to comments already filed where, and to the extent, such comments specifically relied upon numbers or words contained in the March 29 notice and corrected today. Amended comments must be received on or before September 1, 1976.

In FR Doc. 76-8352 appearing on page 13015 through 13030 in the issue of March 29, 1976, the following corrections are being made:

1. On page 13018, § 420.143(a), the Oil and grease limitation which presently reads "Of2345" is corrected to read "0.2354".

2. On page 13019, § 420.153(d), the oil and grease limitations which read "Oil and grease ---- 1.7136 ---- 0.5712" are corrected to read "Oil and grease ---- 0.8568 ---- 0.2856".

3. On page 13021, § 420.174, the first sentence is corrected by inserting the words "and continuous" after the phrase "pickling-sulfuric acid-batch".

4. On page 13021, § 420.176, the first sentence is corrected by inserting the words "and continuous" after the phrase "pickling-sulfuric acid-batch".

5. On page 13021, § 420.176 line 11, which reads "• • • as set forth in 40 CFA 128 • • •", is corrected to read "• • • as set forth in 40 CFR 128 • • •".

6. On page 13022, § 420.186, which reads "• • • (and which 306 of the Act • • •" is corrected to read "• • • (and which would be a new source subject to section 306 of the Act • • •".

7. On page 13025, § 420.213(b), which reads "• • • in § 420.212(a) of this subpart • • •", is corrected to read "• • • in § 420.212 (a) or (b) of this subpart • • •".

8. On page 13027, § 420.234(a), the line which reads "pH—No limitation" should be deleted.

9. On page 13028, § 420.243(c), which reads "• • • § 42 (a) or (b) 0.242 of this subpart • • •" is corrected to read "• • • § 420.242 (a) or (b) of this subpart • • •".

10. On page 13029, § 420.253, which reads "Oil and grease" is corrected to read "Oil and grease'".

11. On page 13029, § 420.254, the pretreatment standard for dissolved chromium which reads "0.003" is corrected to read "0.0063".

12. On page 13029, § 420.256, the pretreatment standard for dissolved chromium which reads "0.003" is being corrected to read "0.0063".

13. On page 13029, § 420.256, the pretreatment standard for cyanide which reads "0.010" is being corrected to read "0.0010".

Dated: July 21, 1976.

JOHN QUARLES,
Acting Administrator.

[FR Doc.76-22360 Filed 7-30-76;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 87]

[Docket No. 20808; RM-2075; FCC 76-692]

TELEMETRY TRANSMITTERS EMPLOYED IN FLIGHT TEST STATIONS

Technical Standards

By the Commission: Chairman Wiley absent.

In the Matter of Amendment of Part 87 to provide technical standards for telemetry transmitters in the frequency band 1435–1535 MHz employed in flight test stations.

1. Notice is hereby given of rule making in the above entitled matter.

2. A flight test station may be operated by a manufacturer, person, or educational institution engaged in the design, development, modification and flight test evaluation of aircraft components. Such stations are authorized to transmit telemetry signals in the 1435–1535 MHz band for use in testing of manned or unmanned aircraft or missiles as well as in conjunction with launching, orbiting and re-entry of vehicles in the earth's atmosphere. A number of frequencies are also provided in the VHF and HF frequency band for communications in support of flight test programs.

3. The frequency band 1435–1535 MHz is a shared band allocated to both Government and non-Government users engaged in flight test operations. Shared usage is common in many portions of the frequency spectrum and normally presents few problems from a frequency management standpoint. However, the instant situation is complicated by the fact that different technical standards are applied to Government and non-Government users in this band. The Commission has received a petition requesting that the technical standards governing these stations be modified to facilitate and increase the spectrum utilization of the telemetry band used for flight test purposes.

THE AEROSPACE AND FLIGHT TEST RADIO COORDINATING COUNCIL PETITION

4. On October 10, 1972, the Aerospace and Flight Test Radio Coordinating Council (AFTRCC) filed a petition with the Commission requesting that a rule making proceeding be instituted to modify Part 87 of the rules concerning telemetry transmitters operating in the frequency band 1435–1535 MHz. A supplement to this petition was received January 26, 1976, in response to an FCC staff request[1] for additional information concerning clarification of certain matters raised in the AFTRCC petition. No statements in support or in opposition to the petition have been filed with the Commission.

[1] FCC letter, Safety and Special Radio Services Bureau, File Number 7210-7, dated December 5, 1974.

5. The Aerospace and Flight Test Radio Coordinating Council (AFTRCC)[2] was recognized by the Commission and public notice given (FCC 69–490, dated May 8, 1969) establishing the council as a frequency advisory committee pursuant to Section 87.334 of our rules. In this capacity AFTRCC provides recommendations to the Commission concerning pending applications for station authorizations in the following matters:

Probable interference to Government and non-Government stations,
Conditions to be placed on the authorization to reduce the possibility of interference, and
Frequency assignments.

6. AFTRCC in its petition points out that in the frequency band 1435–1535 MHz the Commission issues authorizations to non-Government entities while the Director of the Office of Telecommunications Policy (OTP) grants authorizations to Government users. In administering this band the Commission and OTP apply dissimilar technical standards to govern the operation of equipment used in flight test stations. Consequently, coordination between Government and non-Government users becomes essential at the field level to maximize spectrum utilization and minimize the probability of interference. AFTRCC, the vehicle by which such coordination is effected, states that the existence of a dual technical standard makes efficient use of the spectrum difficult and engenders administrative problems.

7. AFTRCC in its petition requests the Commission adopt technical standards similar to those developed by OTP to govern equipment used in the 1435–1535 MHz telemetry band. The petitioner states in support of his request that:

> • • • coordination is a practical necessity in this band and would not be unduly burdensome except for the fact that different, and in some cases inconsistent, technical characteristics are applicable to the two categories of users.

The petitioner states further that by virtue of the coordination required with Government frequency management personnel at the field level certain of the OTP technical and operational requirements are imposed on non-Government users, at least by implication, if not by legislative fiat.

8. The emission limitations recommended for adoption in the petition are generally more severe than the standards presently set out in the rules. The petitioner states that Section 87.71 currently provides less protection to the adjacent channel assignments than the rules recommended for adoption and consequently results in a greater bandwidth requirement than would be necessary for a comparable Government operation. While this additional bandwidth is almost always unnecessary, AFTRCC states that it cannot insist that the non-Government user comply with OTP standards and must protect the greater bandwidth requirement of Commission licensees even though such protection is wasteful of bandwidth.

9. The petitioner submits that the authorized bandwidth for this class of station is not defined with sufficient specificity in the rules. This is significant because the authorized bandwidth is the determining factor in establishing the emission limits that a transmitter is required to meet. It is further noted that in Section 87.67 the authorized bandwidth is not equal to the necessary bandwidth for the cases shown and the degree of difference between these bandwidths varies depending on the emission designator. AFTRCC suggests that because of this lack of definition "a user may conclude that there is no real limitation on his emission and feel that if the emission designator he requests is somewhere within the area of reasonableness, it may be properly used." In some cases, this may lead to over-protection or in other cases, under-protection—in either instance inefficient use of the spectrum is the result.

THE COMMISSION'S PROPOSAL

10. The Commission has studied the AFTRCC proposal with interest and as an aid in evaluating the requested rule changes concerning spurious emissions has made a comparison of the existing and recommended emission limits for a number of different cases. Appendix A attached hereto is included to describe these differences for a typical case; emission limitations based on the existing rules (§ 87.71) are shown by solid lines and limitations predicated on the requested rules are shown by dotted lines. The extent to which the proposed rules modify the existing technical standards is indicated by the shaded areas shown in Appendix A. The shaded region A of Appendix A describes the area close to the carrier frequency in which the proposed standard is 25 dB less severe than the present emission limits. This area primarily contains spurious emissions which are modulation related. Region B of Appendix A describes the area in which the proposed standard is more severe than the present emission limits. This area includes spurious emissions which are both modulation and non-modulation related depending on the magnitude of frequency separation from the center frequency. Certain close in modulation related spurious are as much as 35 dB more severe while nonmodulation related spurious, removed by more than 250 percent of the authorized bandwidth, are 12 dB lower than the present emission limits.

11. The Commission notes however that the proposed limitations may in some cases be much more severe than indicated in the AFTRCC petition because of the bandwidth specified for the measurement of spurious emissions. The Commission limits set out in § 87.71 apply to the level of spurious emissions on a discrete frequency while the proposed rules would require that the spurious signal level be measured in a 3 kHz band. This increased measurement bandwidth could result in more than an order of magnitude more spurious rejection than discussed in the AFTRCC Petition for both modulated and nonmodulated related spurious under certain conditions.

12. Generalizing in this matter, if there are N random spurious signals equal to a specified level in a 3 kHz measurement bandwidth, the measuring device will indicate a spurious energy level of N times the specified level. In this case, equipment required to meet this specified level would be rejected if more than one signal was present in the 3 kHz bandwidth. However, if the discrete frequency method presently specified in the Commission's rules were used the equipment would be considered acceptable. The Commission's concerns in this regard are diminished by the AFTRCC petition which states that equipment complying with the proposed standards are in use at many Government stations. Nevertheless, interested parties are requested to give careful consideration to this matter especially as it relates to spurious signals generated by modulation products.

13. The present Commission rules require that spurious emissions be measured relative to the mean output power; the petitioner has requested that this be modified to require rejection relative to the unmodulated carrier power. In the case of frequency modulated signals the mean output power is equal to the unmodulated carrier power and therefore the Commission is not disposed to modify the rules in this regard since no clear benefit is seen to be derived.

14. The Commission concurs with AFTRCC that rule modifications to define more clearly the bandwidth requirements and the emission designator applicable to FM transmitters in the 1435–1535 MHz band used for flight test stations should be considered. Therefore, the emission designator (F9) and information to compute the necessary bandwidth and authorized bandwidth have been included in the proposed modification of Section 87.67 of our rules. Additionally, the authorized bandwidth has been defined to be equal to the necessary bandwidth for these emissions; this definition permits a precise determination of the authorized bandwidth which is necessary to determine spurious limits for effective frequency management of flight test stations in this frequency band.

15. The proposed amendments to the rules as set forth below are issued pursuant to the authority contained in Sections 4(i), 303(b), (c), (f) and (r) of the Communication Act of 1934, as amended.

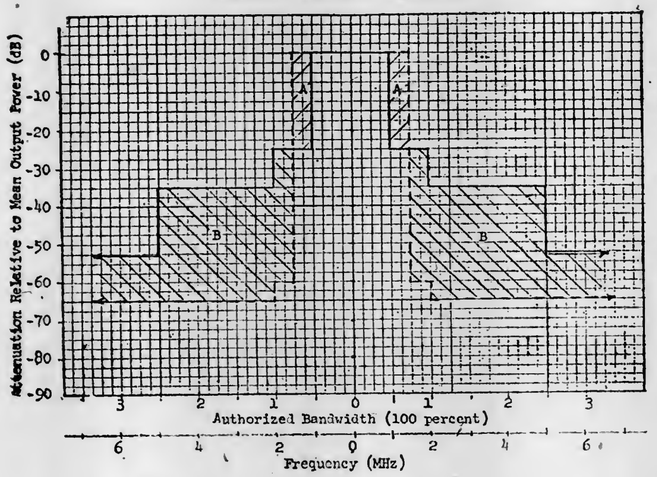
16. Pursuant to applicable procedures set forth in Section 1.415 of the Commission's rules, interested persons may file comments on or before September 28, 1976, and reply comments on or before October 28, 1976. All relevant and timely

[2] AFTRCC membership consists of twelve major entities in the aerospace industry.

V 41 149 AUG 2 76 UMI

comments and reply comments will be considered by the Commission before final action is taken in the proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

17. In accordance with the provision of Section 1.419 of the Commission's rules, an original and 11 copies of all statements, briefs or comments filed shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.



Adopted: July 20, 1976.

Released: July 29, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPENDIX A

Emission Limitation Comparison

Legend:
Present rules: ——— Attenuation Reduction:
Proposed rules: ----- Attenuation Increase:

Parameter description:

The emission limitation comparison shown above is based on an authorized bandwidth of 2.0 MHz and a mean output power of 10 watts.

Part 87 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 87.67(b) is amended by adding a new "class of emission" to the table and a new footnote 8 to read as follows:

§ 87.67 Types of emission.

(b) * * *

Class of emission	Emission designator	Authorized bandwidth: Below (megahertz)	50 above (megahertz)	50 frequency deviation
*	*	*	*	*
F9*	(8)	*	(8)	*
*	*	*	*	*

[8] The authorized bandwidth is equal to the necessary bandwidth for frequency modulated transmitters used in flight-test stations operating in the 1345–1535 MH band. The necessary bandwidth shall be computed in accordance with pt. 2 of this chapter.

2. Section 87.71(a) is amended to read as follows:

§ 87.71 Emission limitations.

(a) * * *

(1) When using transmissions other than single sideband (3A3A, 3A3H, 3A3J) as authorized frequency modulation (F9) in the frequency band 1435–1535 MHz:

(i) * * *

(ii) * * *

(3) On any frequency removed from the assigned frequency by more than 250 percent of the authorized bandwidth except for FM telemetry transmitters in the 1435–1535 MHz band:

(i) * * *

(ii) * * *

(4) [1] When using frequency modulated transmissions (F9) for telemetry at flight test stations in the 1435–1535 MHz frequency band with an authorized bandwidth equal to or less than 1 MHz:

(i) On any frequencies removed from the assigned frequency by more than 100 percent of the authorized bandwidth up to and including 100 percent of the authorized handwidth plus 0.5 MHz: at least 60 decibels or 25 decibels below a milliwatt, whichever is greater, when measured in a 3 kHz bandwidth.

(ii) On any frequencies removed from the assigned frequency by more than the authorized bandwidth plus 0.5 MHz: at least 55 plus 10 $\log_{10}$ (mean power output in watts) decibels when measured in a 3 kHz bandwidth.

(5) [1] When using frequency modulated transmission (F9) for telemetry at flight test stations in the 1435–1535 MHz frequency band with an authorized bandwidth greater than 1 MHz:

(i) On any frequencies removed from the assigned frequency by more than 50 percent of the authorized bandwidth plus 0.5 MHz up to and including 50 percent of the authorized bandwidth plus 1.0 MHz: at least 60 decibels or 25 decibels below a milliwatt, whichever is greater, when measured in a 3 kHz bandwidth.

(ii) On any frequencies removed from the assigned frequency by 50 percent of the authorized bandwidth plus 1.0 MHz at least 55 plus 10 $\log_{10}$ (mean output power in watts) measured in a 3 kHz bandwidth.

* * * * *

[FR Doc.76-22200 Filed 7-30-76;8:45 am]

GENERAL SERVICES ADMINISTRATION

[41 CFR Part 105–64]

[ADM 7900.4 CHGE]

REGULATIONS IMPLEMENTING THE PRIVACY ACT OF 1974

Proposed Rulemaking

The General Services Administration proposes to amend 41 CFR Part 105–64 to clarify or modify certain provisions of the GSA regulations implementing the privacy Act of 1974. Most of the proposed changes were requested by the Office of Management and Budget, which has oversight responsibility for implementation of the Act. Major proposed changes are outlined below.

Section 105–64.002 would be amended to add new definition for the terms "subject individual," "disclosure," "access," and "solicitation."

Subsection 105–64.101–1 would be revised to provide that an individual may be requested to disclose his social security number only if the disclosure is required by Federal statute or was required under statute or regulation adopted before January 1, 1975, to verify the identity of an individual and only after the individual is informed whether disclosure is mandatory of voluntary, the authority for solicitation, and what uses will be made of the number. This subsection would also provide that GSA should inform third parties who are requested to provide information about another individual for the purposes of which the information will be used.

Subsection 105–64.101–4 would be amended to provide that Official Personnel Folders, authorized personnel operating or work folders, and certain other personnel records, rather than all personnel records in paper files as specified by the current regulations, shall be stored in a lockable metal filing cabinet or an alternative storage system that furnishes an equivalent degree of physical security. The current provision in paragraph (b) of the subsection for special safeguards for ADP documents containing personnel information would be deleted. A new paragraph (b) would be added to provide that the system manager may designate additional records which require special safeguards.

Section 105–64.201a would be added to provide procedures for disclosing records permitted to be disclosed under § 105–64.201.

Subsection 105–64.301–1 would be amended to permit the system manager, at his discretion, to accept oral requests for access to records subject to verification of identity.

Subsection 105–64.301–2 would be amended to clarify those medical records which are subject to reivew by a Federal Medical Officer before access by the subject.

Subsection 105–64.301–3 would be amended to require an individual to identify himself by signature and to eliminate the requirement that an accounting of accesses be maintained. Currently, § 105–64.301–3(d) specifies several types of identification that may be used by the requester to identify himself and further allows the system manager to require a notarized statement of identity under certain circumstances.

Paragraph 105–64.301–4(f) of the current regulations would be deleted and a new § 105–64.301–5 would be added to provide procedures for making an administrative appeal of a denial of access within GSA.

Subsection 105–64.302–3 would be revised to provide a limit of 50 pages that will be made available without charge to a requester who is an employee of GSA. The current regulation provides that one copy of a record of an unspecified number of pages will be made available to such a requester.

A new subpart 105–64.7 provides an address to which requests may be made for assistance and referral to the responsible GSA system manager or operating official.

Any person interested in the amendment herein may participate in the proposed rulemaking by submitting written data, views, or arguments on the proposed amendments to the General Services Administration (LR), Washington, DC 20405, on or before September 1, 1976. Copies of all written comments received will be available for examination by interested persons in room 3101 of the GSA Building, 18th and F Streets, NW, Washington, DC 20405.

In consideration of the foregoing, it is proposed to amend Part 105–64 as follows:

Dated: July 21, 1976.

HERMAN W. BARTH,
Acting General Counsel.

[1] The requirements of paragraphs (a)(4) and (a)(5) of this section shall apply to transmitters type accepted after January 1, 1977, and to all transmitters first installed after January 1, 1983.

The table of contents for Part 105–64 is amended by adding the following entries:

105–64.201a. Procedure for disclosure.
105–64.301–5. Appeal of denial of access within GSA.

Subpart 105–64.7—Assistance and Referrals

105–64.701. Requests for assistance.

1. Section 105–64.002 is amended by adding new paragraphs (i) through (l) as follows:

§ 105–64.002 Definitions.

* * * * *

(i) The term "subject individual" means the individual named or discussed in a record or the individual to whom a record otherwise pertains.

(j) The term "disclosure" means a transfer of a record, a copy of a record, or the information contained in a record to a recipient other than the subject individual, or the review of a record by someone other than the subject individual.

(k) The term "access" means a transfer of a record, a copy of a record, or the information in a record to the subject individual, or the review of a record by the subject individual.

(l) The term "solicitation" means a request by an officer or employee of GSA that an individual provide information about himself.

Subpart 105–64.1—General Policy

1. Section 105–64.101–1 is revised to read as follows:

§ 105–64.101–1 Collection and use.

(a) *General.* Any information used in whole or in part in making a determination about an individual's rights, benefits, or privileges under GSA programs will be collected directly from the subject individual to the extent practicable. The system manager also shall ensure that information collected is used only in conformance with the provisions of the act and these regulations.

(b) *Solicitation of information.* System managers shall ensure that at the time information is solicited the solicited individual is informed of the authority for collecting that information, whether providing the information is mandatory or voluntary, the purposes for which the information will be used, the routine uses of the information, and the effects on the individual, if any, of not providing the information. Heads of Services and Staff Offices and Regional Administrators shall ensure that forms used to solicit information are in compliance with the act and these regulations.

(c) *Solicitation of social security number.* Before an officer or employee of GSA requests an individual to disclose his social security number, the officer or employee of GSA shall ensure that either:

(1) The disclosure is required by Federal statute, or;

(2) The disclosure of a social security number was required under statute or regulation adopted before January 1, 1975, to verify the identify of an individual, and the social security number will become a part of a system of records in

V 41 1149 AUG 2 76 UMI

existence and operating before January 1, 1975.

If solicitation of the social security number is authorized under paragraph (c) (1) or (2) of this section, the GSA officer or employee who requests an individual to disclose his social security account number shall first inform that individual whether that disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, and the uses that will be made of it.

(d) *Soliciting information from third parties.* An officer or employee of GSA shall inform third parties who are requested to provide information about another individual of the purposes for which the information will be used.

2. Section 105–64.104–4 is amended by revising paragraphs (a) and (b) to read as follows:

§ 105–64.101–4 Safeguarding systems of records.

* * * * *

(a) Official personnel folders, authorized personnel operating or work folders, and other records of personnel actions effected during an employee's Federal service or affecting the employee's status and service, including information on experience, education, training, special qualifications and skills, position descriptions, performance appraisals, and conduct, shall be stored in a lockable metal filing cabinet when not in use by an authorized person. A system manager may employ an alternative storage system providing that it furnishes an equivalent degree of physical security as storage in a lockable metal filing cabinet.

(b) The system manager, at his discretion, may designate additional records of unusual sensitivity which require safeguards similar to those described in paragraph (a) of this section.

* * * * *

Subpart 105–64.2—Disclosure of Records

§ 105–64.201 [Amended]

1. Section 105–64.201 is amended by replacing in paragraph (b) the words "Pursuant to" with the new words "Required by".

2. Section 105–64.201a is added as follows:

§ 105–64.201a Procedures for disclosure.

(a) Upon receipt of a request for disclosure, the system manager shall verify the right of the requester to obtain disclosure pursuant to § 105–64.201. Upon that verification, the system manager shall make the requested records available.

(b) If the system manager determines that the disclosure is not permitted under the provision of § 105–64.201, he shall deny the request in writing and shall inform the requester of his right to submit his request for review and final determination to the Director of Administration, General Services Administration.

Subpart 105–64.3—Individual Access to Records

1. Section 105–64.301–1(b) is amended to read as follows and a new paragraph (c) is added as follows:

§ 105–64.301–1 Form of requests.

* * * * *

(b) The request shall be in writing and shall bear the legend "Privacy Act Request" both on the request letter and on the envelope. The request letter should contain the complete name and identifying number of the system as published in the FEDERAL REGISTER; the full name and address of the subject individual; a brief description of the nature, time, place, and circumstances of the individual's association with GSA; and any other information which the individual believes would help the system manager to determine whether the information about the individual is included in the system of records. The system manager or applicable individual shall answer or acknowledge the request within 10 work days of its receipt by GSA.

(c) The system manager, at his discretion, may accept oral requests for access subject to verification of identity.

2. Section 105–64.301–2 (a) and (b) are amended to read as follows:

§ 105–64.301–2 Special requirements for medical records.

(a) A system manager who receives a request from an individual for access to those official medical records which belong to the U.S. Civil Service Commission and are described in Chapter 339, Federal Personnel Manual (medical records about entrance qualification or fitness for duty, or medical records which are otherwise filed in the Official Personnel Folder), shall refer the pertinent system of records to a Federal Medical Officer for review and determination in accordance with this section. If no Federal Medical Officer is available to make the determination required by this section, the system manager shall refer the request and the medical reports concerned to the U.S. Civil Service Commission for determination.

(b) If, in the opinion of a Federal Medical Officer, medical records requested by the subject individual indicate a condition about which a prudent physician would hesitate to inform a person suffering from such a condition of its exact nature and probable outcome, the system manager shall not release the medical information to the subject individual nor to any person other than a physician designated in writing by the subject individual, his guardian, or conservator.

* * * * *

3. Section 105–64.301–3 is amended by revising paragraphs (d) and (g) and deleting paragraph (h) as follows:

§ 105–64.301–3 Granting access.

* * * * *

(d) Records will be available for authorized access during normal business hours at the offices where the records are located. A requester should be prepared to identify himself by signature; i.e., to note by signature the date of access and/or to produce other identification verifying the signature.

* * * * *

(g) An individual who wishes to have a person of his choosing review, accompany him in reviewing, or obtain a copy of a record must, prior to the disclosure, sign a statement authorizing the disclosure of his record. The system manager shall maintain this statement with the record.

(h) [Reserved.]

* * * * *

§ 105–64.301–4 [Amended]

4. Section 105–64.301–4 is amended by deleting paragraph (f).

5. Section 105–64.301–5 is added to read as follows:

§ 105–64.301–5 Appeal of denial of access within GSA.

(a) A requester denied access, in whole or in part, to records pertaining to him, exclusive of those records for which the system manager is the Administrator, may file an administrative appeal of that denial. All appeals should be addressed to the Director of Information (AVI), General Services Administration, Washington, DC 20405, regardless whether the denial being appealed was made by a Central Office or a regional official.

(b) Each appeal to the GSA Director of Information shall be in writing. The appeal should bear the legend "Privacy Act—Access Appeal," on both the face of the letter and the envelope.

(c) Upon receipt of an appeal, the Director of Information shall consult with the system manager, the official who made the denial, legal counsel, and such other officials as may be appropriate. If the Director of Information, in consultation with these officials, determines that the request for access should be granted because the subject records are not exempt, he shall immediately either instruct the system manager in writing to grant access to the record in accordance with § 105–64.301–3, or shall grant access himself, and shall notify the requester of that action.

(d) If the Director of Information, in consultation with the officials specified in paragraph (c) of this section, determines that the appeal should be rejected, he shall submit the file on the request and appeal, including his findings and recommendations, to the Deputy Administrator for a final administrative determination.

(e) If the Deputy Administrator determines that access to the record should be granted, he shall immediately instruct the system manager in writing to grant access to the record in accordance with § 105–64.301–3. The Deputy Administrator shall send a copy of his instructions to the Director of Information, who shall notify the requester of that action.

(f) If the Deputy Administrator determines to reject the appeal, he immediately shall notify the requester in writing of that determination. This action shall constitute the final administrative determination on the request for access to the record and shall include:

(1) The reasons for the rejection of the appeal; and

(2) Notice of the requester's right to seek judicial review of the final administrative determination, as provided in § 105–64.408.

(g) The final agency determination will be made no later than 30 work days from the date on which the appeal is received by the Director of Information. The Deputy Administrator may extend this time limit by notifying the requester in writing before the expiration of the 30 work days. The Deputy Administrator's notification shall include an explanation for the extention.

6. Section 105–64.302–3 is revised to read as follows:

§ 105–64.302–3 Waiver of fee.

The system manager shall make one copy of a record, up to 50 pages, available without charge to a requester who is an employee of GSA. The system manager may waive the fee requirement for any other requester if the cost of collecting the fee is an unduly large part of, or greater than, the fee, or when furnishing the record without charge conforms to generally established business custom or is in the public interest.

Subpart 105–64.6—Exemptions

§ 105–64.602–1 [Amended]

1. Section 105–64.602–1 is revised by changing the designation of the Investigation and Personnel Security Case Files system of records from "GSA/QAD 25" to "GSA/OAD 24."

§ 105–64.602–2 [Amended]

2. Section 105–64.602–2 is revised by changing the designation of the Test Material system of records from "GSA/OAD 21" to "GSA/OAD 20."

1. A new Subpart 105–64.7 is added as follows:

Subpart 105–64.7—Assistance and Referrals

§ 105–64.701 Requests for assistance and referral.

Requests for assistance and referral to the responsible system manager or other GSA employee charged with implementing these regulations should be made to the Director of Information (AVI), General Services Administration, Washington, DC 20405.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 88 Stat. 1897; 5 U.S.C. 552a.)

VETERANS ADMINISTRATION

[38 CFR Part 1]

RELEASE OF INFORMATION FROM OTHER THAN CLAIMANT RECORDS

Schedule of Fees

Notice is hereby given that the Veterans Administration is considering amending Part 1, Title 38 of the Code of Federal Regulations to change the schedule of fees indicated in § 1.555(h) (2) pertaining to charges for document search. The proposed amendment is issued to eliminate the minimum search charge for the release of information from other than claimant records and to provide that there will be no charge for the first hour or fraction thereof.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, D.C. 20420. All relevant material received before September 1, 1976, will be considered. All written comments received will be available for inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any Veterans Administration field station will be informed that the records are available for inspection only in Central Office and furnished the address and above room number.

Notice is hereby given that it is proposed to make any regulations that are adopted effective on the date of final approval.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A–10.

Approved: July 27, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

In § 1.555, paragraph (h) (2) is revised to read as follows:

§ 1.555 Fees.

* * * * *

(h) Schedule of fees: * * *

(2) Searching, per hour (No charge for the first hour or fraction thereof)	$3.50

* * * * *

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

CHASE MANHATTAN BANK

Acceleration of Registration

Whereas, The Chase Manhattan Bank, National Association, has filed, pursuant to Section 12(b) of the Securities Exchange Act of 1934, as amended, and the Comptroller's regulations thereunder, with the Comptroller and the New York Stock Exchange, Inc., an application on Form F-1 for registration on such Exchange of 8¾% Capital Notes due 1986; and

Whereas, the authorities of said Exchange have certified to the Comptroller, pursuant to Section 12(d) of said Act and the Comptroller's regulations thereunder, that such class of security has been approved for listing and registration on such Exchange; and

Whereas, it has been requested that registration of such class of security be accelerated by making it effective prior to the expiration of thirty days after the date of receipt by the Comptroller of such certification; and

Whereas, acceleration appears appropriate in the public interest and for the protection of investors:

Now therefore it is ordered that registration of such class of security shall become effective immediately on the New York Stock Exchange, Inc.

Dated: July 27, 1976.

JAMES E. SMITH,
Comptroller of the Currency.

Customs Service

ASSESSMENT OF COUNTERVAILING DUTIES ON LITHARGE AND RED LEAD FROM MEXICO

Petition Filed by American Manufacturer, Producer, or Wholesaler

JULY 13, 1976.

The Customs Service received on February 5, 1976, a petition filed on behalf of Hammond Lead Products, Inc., alleging that litharge and red lead from Mexico benefit from bounties or grants by virtue of the operation of the Mexican export tax and price control systems. By letter dated May 18, 1976, the petitioner was notified that:

After careful consideration, the Department has concluded that the information and allegations contained in this petition do not on their face describe a bounty or grant and are therefore insufficient to warrant initiation of formal investigation.

On June 17, 1976, notification was received by the Department that Hammond Lead Products, Inc., desired to contest the failure of the Department to assess countervailing duties.

In accordance with the provisions of section 516 of the Tariff Act of 1930, as amended by the Trade Act of 1974 (19 U.S.C. 1516), notice is hereby given that the Secretary of the Treasury has decided that the countervailing duties should not be assessed and that a domestic producer has given notice as contemplated by section 516 of the Tariff Act of 1930, as amended (19 U.S.C. 1516), that it desires to contest such decision.

VERNON D. ACREE,
Commissioner of Customs.

APPROVED: DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

JULY 26, 1976.

Office of the Secretary

LARGE POWER TRANSFORMERS FROM SWEDEN

Tentative Termination of Antidumping Investigation

A "Notice of Discontinuance of Antidumping Investigation" with respect to large power transformers from Sweden was published in the FEDERAL REGISTER of January 21, 1972 (37 FR 961).

After due investigation, it has been determined, tentatively, that large power transformers manufactured and sold for export by Allmanna Svenska Elektriska Aktiebolaget of Vasteras, Sweden, the only Swedish manufacturer, have not been sold at less than fair value. This is in accordance with price assurances submitted by the company prior to the discontinuance of the fair value investigation.

STATEMENT OF REASONS ON WHICH THIS TENTATIVE DETERMINATION IS BASED

The investigation indicated that no sales at less than fair value of large power transformers by Allmanna Svenska Elektriska Aktiebolaget have been made for a period of 2 years from the discontinuance of the fair value investigation.

Accordingly, notice is hereby given that the Department of the Treasury intends to terminate the antidumping investigation with respect to large power transformers from Sweden.

In accordance with section 153.40, Customs Regulations (19 CFR 153.40), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, N.W., Washington, D.C. 20229, in time to be received by his office not later than August 12, 1976. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice is published pursuant to section 153.33(h) of the Customs Regulations (19 CFR 153.33(h)).

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

JULY 28, 1976.

[FR Doc.76-22297 Filed 7-30-76;8:45 am]

UNWROUGHT ZINC FROM SPAIN

Receipt of Countervailing Duty Petition and Initiation of Investigation

A petition in satisfactory form was received on June 17, 1976, alleging that payments or bestowals conferred by the Government of Spain upon the manufacture, production, or exportation of unwrought zinc constitute the payment or bestowal of a bounty or grant within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303) (herein referred to as the Countervailing Duty Law).

Pursuant to section 303(a)(4) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(4)), the Department of the Treasury is required to issue a preliminary determination as to whether or not any bounties or grant is being paid or bestowed within the meaning of the Countervailing Duty Law within 6 months of the receipt, in satisfactory form, of a petition alleging the payment or bestowal of a bounty or grant. A final decision must be issued within 12 months of the receipt of such petition.

Therefore, a preliminary determination on this petition will be made no later than December 17, 1976, as to whether the alleged payments or bestowals conferred by the Government of Spain upon the manufacture, production, or exportation of unwrought zinc constitute the payment or bestowal of a bounty or grant within the meaning of the Countervailing Duty Law. A final determination will be issued no later than June 17, 1977.

This petition is published pursuant to section 303(a)(3) of the Tariff Act of 1930, as amended (19 U.S.C. 1303(a)(3)), and section 159.47(c) of the Customs Regulations (19 CFR 159.47(c)).

VERNON D. ACREE,
Commissioner of Customs.

Approved: DAVID R. MACDONALD
Assistant Secretary of the Treasury.

PRIVACY ACT OF 1974

Change to Systems Notice

In FR Doc. 75-21075 published in the FEDERAL REGISTER (40 FR 36045) of August 18, 1975 setting forth the systems of records prescribed by the Privacy Act of 1974 within the Defense Supply Agency, the following system of record is changed. Following the brief identification of the record system and the specific changes made therein, the complete revised record system, as changed, is published in its entirety. Any public comment, including written data, views or arguments concerning this system of records should be addressed to the system manager identified in the system notice on or before

S155.53DCAS-NS

System name: S155.53 Industrial Personnel Security Clearance File (40 FR 36050).

Changes:

Systems exempted from certain provisions of the Act: Delete the word "NONE" and insert "Information, contained in records, which would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to 27 Sept 1975, under an implied promise of confidentiality, is exempt from disclosure under the provisions of subsection (k)(5) of the Privacy Act of 1974. Also, information classified in the interest of national defense may be exempt from disclosure under the provisions of the aforementioned subsection."

S155.53DCAS-NS

System name: 155.53 Industrial Personnel Security Clearance File.

System location: Defense Industrial Security Clearance Office, Defense Construction Supply Center, P.O. Box 2499, Columbus, Ohio 43216.

Categories of individuals covered by the system: Employees of Government contractors who have been issued, now possess, or are in process for personnel security clearances, including Overseas Security Eligibilities.

Categories of records in the system: Information contained in each record in the automated portion of the system may include: name of the individual; aliases; maiden name; date of birth, place of birth; Social Security Account number; name and address of employer; level of security clearance granted; date security clearance granted; type of investigation; date of investigation; identity of investigating agency; file or case number; location of file; record of Communication Security (COMSEC) security clearance and sequential record of security clearance terminations, transfers and reinstatements.

Information contained in each record in the manual portion of the system may contain the original application for se-

V 41 149 AUG 2 76 UMI

curity clearance (Personnel Security Questionnaire); a copy of the personal security investigation; a record of security clearance; record of COMSEC security clearance; Overseas Security Eligibility; foreign travel reports; all correspondence concerning the processing of the initial clearance, termination, reinstatement, transfer, emergency suspension, revocation or denial of security clearance; adverse information reports; security violation reports; and internal Government correspondence and interoffice memoranda relative to the security clearance process.

Authority for maintenance of the system: Presidential Executive Order 10865, Safeguarding Classified Information Within Industry.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The automated portion of the system is retained as a central record of industrial security clearances granted. Access to this record is restricted to authorized Defense Supply Agency employees. The Defense Industrial Security Clearance Office will verify Security clearance status only to cleared Department of Defense contractors and authorized Government agencies. Also on occasion, the clearance record may be used to reconcile security clearance records maintained by the individual's employer.

The manual portion of the system serves as a central repository for all hard copy material concerning an applicant for industrial security personnel clearance. All information contained in this record is used to back up the security clearance determination. The manual system also contains suspense records for cases in adjudication and Overseas Security Eligibility control records. Access to this record is permitted only to personnel of the Defense Industrial Security Office or authorized Federal Government investigative agency personnel during an official investigation.

Policies and practices in storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Automated Records are maintained in computer disc packs, magnetic tapes, and associated data processing files used to initially build or update the master file. The individual records in the manual part of the system are microfiche, 5 x 8 cards and hard copy paper records maintained in file folders.

Retrievability: Automated records are accessed by individual Social Security Account number. Computerized indices are required to retrieve records from the system. Manual Records are accessed by Social Security Account number or alphabetically by name.

Safeguards: In the automated part of the system special codes, available only to authorized Defense Supply Agency personnel, are required to access records by means of cathode ray tube readers located only in the Defense Industrial Security Clearance Office area. Access to the manual records is limited to authorized personnel of the Defense Industrial Security Clearance Office. The Defense Industrial Security Clearance Office area is on a military controlled installation and segregated from other Government operational areas. All visitors are badged and escorted. During nonworking hours the entire area is secured and protected by a perimeter alarm system and roving guard patrols, motorized an on foot.

Retention and disposal: The automated records are retained for 25 months following the termination of a security clearance. A record concerning an individual is retained, following termination, until the individual would reach the chronological age of 80 years in those cases where adverse information is existant or the clearance is terminated because of the death of the holder. Destruction is accomplished through degaussing the disc pack entry or magnetic tape. Retention of the manual records is authorized for 30 years after the date of the last action; however, records are purged 10 years after the date of the last action. Destruction is by burning. Microfiche records are updated at approximately 30-day intervals and superseded records are burned.

System manager(s) and address: The official responsible for policies an procedures governing this system is the Chief, Office of Industrial Security, Defense Contract Administration Services, Defense Supply Agency. Operational management of the system is exercised by the Chief, Defense Industrial Security Clearance Office.

Notification procedure: An individual who wishes to be notified if the system contains a record about him or her should direct the request to the Chief, Defense Industrial Security Clearance Office, Defense Construction Supply Center, P.O. Box 2499, Columbus, Ohio 43216. Requests must contain the full name, date and place of birth and Social Security Account number. An individual may also visit the Defense Industrial Security Clearance Office to determine if the system contains a record pertaining to him or her. For visits to the Defense Industrial Security Clearance Office the individual must present proof of identity such as birth certificate, driver's license, or employee identification card, and proof of Social Security Account number.

Record access procedures: An individual can obtain access to or a copy of any record pertaining to him or her, except for the personnel security investigation, by directing a request to the Chief, Defense Industrial Security Clearance Office, Defense Construction Supply Center, P.O. Box 2499, Columbus, Ohio 43216. Requests for personnel security investigations will be promptly referred to the appropriate investigative agency which is authorized to release the record. A record can be released at the Defense Industrial Security Clearance Office, Columbus, Ohio or through one of the 9 Regional Offices of Industrial Security or a Field Office of any Regional Office of Industrial Security. A release will take place at the Office of Industrial Security nearest the residence or place of employment of the requester. The 9 Regional Offices of Industrial Security are located in Atlanta, Boston, Chicago, Cleveland, Dallas, Los Angeles, New York, Philadelphia, and St. Louis.

Contesting record procedures: The Agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the System Manager, the Chief, Office of Industrial Security.

Record source categories: The sources of information contained in a record are the employer and the Defense Investigative Service which is responsible for conducting personnel security investigations.

Systems exempted from certain provisions of the act: Information contained in records, which would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to 27 September 1975, under an implied promise of confidentiality, is exempt from disclosure under the provisions of subsection (k)(5) of the Privacy Act of 1974. Also, information classified in the interest of national defense may be exempt from disclosure under the provisions of the aforementioned subsection.

Reason: Investigatory material is exempt to the extent that the disclosure of such material would reveal the identity of a source who furnished the information to the Government under an express promise that the identity of the source would be held in confidence, or prior to 27 September 1975, under an implied promise that the identity of the souree would be held in confidence. This exemption will protect the identities of certain sources who would be otherwise unwilling to provide information to the Government.

By order of the director, defense supply agency.

J. J. McALEER, Jr.,
Colonel, USA,
Staff Director, Administration.

MAURICE W. ROCHE,
Director, Correspondence and Directives, ASD (Comptroller).

FEDERAL POWER COMMISSION

[Docket No. RP72-110 (PGA 76-11)]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change; Purchased Gas Cost Adjustment

JULY 26, 1976.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas"), on July 12, 1976, tendered for filing Nineteenth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

This tariff sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate adjustment, amounting to a net decrease of $.0116 per MMBtu in Algonquin Gas' sales rates under applicable rate schedules, is being filed to amortize the balance in Algonquin Gas' Unrecovered Purchased Gas Cost Account.

The proposed effective date of the revised tariff sheet is September 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 Capitol Street, NE, Washington, DC 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76 22284 Filed 7-30-76;8:45 am]

[Docket No. ER76-799]

APPALACHIAN POWER CO.

Tariff Change

JULY 26, 1976.

Take notice that Appalachian Power Company (APCO) on July 21, 1976, tendered for filing proposed changes in its FPC Rate Schedule No. 23. Service to Kingsport Power Company, an affiliate. APCO states that the proposed changes would increase revenues from jurisdictional sales and service by $5,952,207, based on the 12-month period ending December 31, 1976. APCO proposes that the rates and charges and terms and conditions of service revised by this filing shall become effective August 20, 1976.

APCO states that the changes reflected in the Supplement primarily involve (i) increased demand and energy charges and (ii) a revised fuel adjustment clause prepared in conformity with Section 35.-14 of the Commission's Regulations. The proposed rate increase is occasioned by increases in the cost of providing electric service and increased capital costs, APCO asserts.

Copies of the filing were served upon the Kingsport Power Company and the Tennessee Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-800]

APPALACHIAN POWER CO.

Tariff Change

JULY 26, 1976.

Take notice that Appalachian Power Company (APCO) on July 21, 1976, tendered for filing proposed changes in its FPC Rate Schedule No. 24, Service to Carolina Power & Light Company. APCO states that the proposed changes would increase revenues from jurisdictional sales and service by $1,949,555, based on the 12-month period ending December 31, 1976. APCO proposes that the rates and charges and terms and conditions of service revised by this filing shall become effective August 20, 1976.

APCO states that the changes reflected in the Supplement tendered for filing herewith primarily involve (i) increased demand and energy changes and (ii) a revised fuel adjustment clause prepared in conformity with Section 35.14 of the Commission's Regulations. The proposed rate increase is occasioned by increases in the cost of providing electric service and in the cost of capital, APCO asserts.

Copies of the filing were served upon the Carolina Power & Light Company, North Carolina Utilities Commission and the South Carolina Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22286 Filed 7-30-76;8:45 am]

[Docket No. RP71-122]

ARKANSAS LOUISIANA GAS CO.

Filing of Revised Tariff Sheets

JULY 27, 1976.

Take notice that on July 13, 1976 Arkansas Louisiana Gas Company (Arkla) filed revised tariff sheets in its FPC Gas Tariff, First Revised Volume No. 1. The sheets were filed in accordance with the Commission's order issued June 2, 1976 in Docket No. RP71-122. The sheets are designated as follows:

(1) Third Revised Sheet No. 3A, Superseding Second Revised Sheet No. 3A.
(2) Third Revised Sheet No. 3B, Superseding Second Revised Sheet No. 3B.
(3) Third Revised Sheet No. 3C, Superseding Second Revised Sheet No. 3C and Superseding First Revised Sheet No. 3D.

The filed tariff sheets contain the six priority of service plan outlined in the Commission order issued June 2, 1976 and eliminate the firm-interruptible distinction.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8, 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

Certification of Proposed Settlement Agreement

JULY 26, 1976.

In the matter of: Boston Edison Co., New England Power Service Co. and Boston Edison Co.

Take notice that on June 30, 1976, Presiding Administrative Law Judge Levant certified to the Commission a proposed settlement in the above-entitled proceeding which, if approved, would resolve all the issues in the consolidated dockets.

Any person desiring to be heard or to protest said Settlement Agreement should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before August 10, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of the Agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

V 41 149 AUG 2 76 UMI

[Docket No. ER76-383]

CENTRAL MAINE POWER CO.

Filing

JULY 26, 1976.

Take notice that on July 2, 1976, Central Maine Power Company (CMP) revised its February 20, 1976, filing of a fuel adjustment clause applicable to its five wholesale customers: Rangely Power Company, Kennebunk Light & Power District, Squirrel Island Village Corporation, Carrabasset Light & Power Company and the Town of Madison, Maine. The instant filing is in response to deficiency letters from the Commission dated March 9, 1976, and May 11, 1976, and purports to comply with the requirements of Section 35.14 of the Commission's Regulations as revised by Order No. 517.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 4, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22288 Filed 7-30-76;8:45 am]

[Docket No. CP76-420]

CIG GAS SUPPLY CO.

Application

JULY 23, 1976.

Take notice that on June 30, 1976, CIG Gas Supply Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP76-420 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Colorado Interstate Gas Company (CIG) produced by Texaco Inc. (Texaco) and Champlin Petroleum Company (Champlin) from the Madison or deeper formations in the Table Rock Unit in Sweetwater County, Wyoming, and purchased by Applicant, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that in order to meet its investment needs CIG will require substantial sums to be derived from external financng; however, CIG is said to be limited under the terms of its agreements with security holders as to the amounts of additional securities that can be issued.

It is said that CIG has been purchasing gas produced at the shallower depths in the Table Rock area since 1959 and that with the 1975 discovery of gas in the Madison formation at a depth of approximately 18,000 feet plans to exploit said formation were formulated. Applicant states that CIG executed advance payment agreements with Texaco and Champlin which provide for the drilling of our Madison wells in addition to those already contemplated. Under the agreements, it is stated, CIG agreed to advance to the producers up to $5,000,000 per well and up to a total of $20,000,000. Through these agreements Texaco and Champlin intend to drill four future wells to develop the Madison formation, the application states.

Applicant says that CIG agreed to make advance payments to the producers for their costs of drilling, equiping, and completing successful wells and drilling, plugging, and abandoning unsuccessful wells. The advances would be made on an individual well basis, allocated to expenditures incurred or to be incurerd applicable to each well. On or before 30 days prior to commencement of drilling of each well the producers might submit separate statements to CIG summarizing costs to be incurred in drilling such well, and no later than 30 days after receipt of such statements or spudding, whichever might be later, CIG might advance one-half of the amount indicated in the statements with the remainder to be advanced six months later. The advances would be repaid within five years from the date of initial deliveries on a well-by-well basis by CIG's retention of forty percent of seven-eights of the purchase price otherwise paid to the producers.

The application states that CIG has assigned to Applicant the advance payment agreements and the gas purchase agreements, insofar as the latter agreements pertain to the wells which are the subject to the instant application, and that Applicant proposes to sell the gas to CIG. It is said that because the advance payment agreements contain guaranteed repayment provisions and because of the high credit ratings of the producers, these agreements provide excellent collateral for bank credit, provided the repayment obligations can be assigned directly to the lenders through pledge of the advance payment agreements. Further, it is said that if CIG placed the financing for these advance payments, the particular lenders would be required under certain provisions of CIG's long-term debt instruments to share CIG's general credit security equally and ratably or behind CIG's debenture holders. Applicant states that these provisions would thus prevent the direct assignment of the guaranteed repayment obligations of the producers and CIG's new lenders would have to limit their security to the general credit worthiness of CIG. Applicant asserts that said method of financing would thus fail to utilize a valuable intangible asset which CIG presently holds which could otherwise provide significant benefits to CIG and its customers. Said benefits are stated to be probable lower interest rates and lower income taxes in cost of service and a preservation of CIG's financing capacity for other projects. Although it is to attain these benefits that Applicant proposes to finance the advance payments for CIG, it is said that should the instant proposal not be approved by the Commission the advance payments would be made in any case in order to obtain the expected additional gas supply.

Applicant proposes to charge CIG monthly the sum of the following:

A. Commodity Cost of gas charge: The actual cost of gas purchased by Applicant during the month.

B. Demand 1. Advance payment charge: A charge per month determined by the sum of the following:

(a) The debt cost incurred in financing the advance payment agreements as accrued by Applicant for the month.

(b) Return on equity determined by the application of the rate of return on equity reflected in CIG's tariff to the average equity rate base for the month. The equity rate base would consist of the difference between Applicant's average outstanding advance payments and the average debt outstanding during the month, but not less than zero.

(c) Income taxes for the month determined by the application of a Federal income factor of 92.308 applied to the return on equity determined in accordance with (b) above.

2. Other charges: All other costs net of miscellaneous revenues received during the month.

The application states that the assignment by CIG of the advance purchase agreements and gas purchase rights have been made to Applicant with the understanding that CIG would treat all payments as a cost of purchased gas and that such payments would be subject to the purchased gas cost adjustment provisions of CIG's tariff as though made to a certificated independent producer.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7

and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22279 Filed 7-30-76;8:45 am]

[Docket No. RP72-142 (PGA76-5)]

CITIES SERVICE GAS CO.

Proposed Purchased Gas Cost Adjustment; Order; Deferring Hearing and Requiring Submission of Information

JULY 22, 1976.

On June 7, 1976, Cities Service Gas Company (Cities) tendered for filing alternate proposed tariff sheets reflecting an increase in purchased gas costs. Cities requests that the proposed increase be made effective on July 23, 1976. For the reasons discussed in this order, the Commission will accept for filing the proposed tariff sheet reflecting the greater increase, suspend its effectiveness for one day, and permit it to become effective on July 24, 1976, subject to refund.

Cities' June 7, 1976, Purchased Gas Adjustment consists of a 3.92¢ per Mcf rate increase[1] or $11,088,260 annually to reflect increased purchased gas costs and the recovery of deferred purchased gas costs of $8,441,641. Anticipating a one day suspension due to the inclusion in the PGA rate increase of small producer purchases and emergency purchases at rates in excess of Opinion Nos. 742 and 699-H rate levels, Cities filed alternate rates[2] which reflect an increase of 3.52¢ per Mcf or $9,956,804 annually and which purportedly exclude the effect of the costs in excess of the applicable rate levels prescribed by Opinion Nos. 742 and 699-H. Cities proposes that if the higher tariff sheet is accepted and suspended for one day until July 24, 1976, the lower tariff sheet would become effective on July 23, 1976.

Public notice of Cities' filing was issued on June 7, 1976, with petitions to intervene or protests due on or before June 25, 1976.

The Commission's review of the lower alternate rates indicates that they also include purchases from small producers at rates in excess of the applicable rate levels prescribed in Opinion No. 742. Therefore, the lower alternate tariff sheet tendered by Cities shall be rejected.

The Commission's review of Cities' higher proposed tariff sheet indicates that the rates included therein are based in part on small producer and 60 day emegency purchases in excess of the rate levels prescribed in Opinion Nos. 742 and 699-H respectively. Therefore the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, the Commission shall accept the higher proposed tariff sheet for filing and suspend its effectiveness for one day until July 24, 1976, when it shall become effective subject to refund.

With regard to the issue of the small producer purchases described above other than those small producer purchases made pursuant to the Commission's 60 day emergency sales regulation, we shall defer establishing a hearing schedule for this matter pending Commission action on rehearing of Opinion No. 742[4] and the proposed rulemaking in Docket No. RM 76-5.[4]

Notwithstanding the deferral of a procedural schedule on the small producer issue, Cities shall file within 15 days of the date of this order, a list of the small producers, other than small producers making 60-day emergency sales, reflected in the instant filing in excess of the "130% formula" rates.

With regard to the 60-day emergency purchases, the Commission noted in Opinion No. 699-B[5] that a pipeline would be entitled to include in its purchased gas costs a rate for such purchases "which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances." To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Cities shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased[6] under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, it will be duly noticed for receipt of comments with respect thereto. Should our review indicate that the information filed meets the criterion set forth in Opinion No. 699-B, we shall terminate the proceedings and relieve Cities of its refund obligation. Should our review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases, they would be established by subsequent order.

Our review of Cities' claimed increased purchased gas costs other than those claimed increased costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed by the "130% formula" in Opinion No. 742 and the rate levels prescribed by Opinion No. 699-H respectively, indicates that they comply with the standard set forth in Docket No. R-406. Accordingly, we shall permit Cities to file a revised tariff sheet to become effective July 23, 1976, to reflect the elimination of these costs.

The Commission finds: (1) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that hearing procedures on the issue of small producer purchases other than those small producer purchases made pursuant to the Commission's 60-day emergency sales regulation be deferred pending further Commission order and that Cities' Alternate Fifteenth Revised Sheet PGA-1 to its Second Revised Volume No. 1 of its FPC Gas Tariff be accepted for filing, suspended and permitted to become effective July 24, 1976, subject to refund, as hereinafter ordered.

(2) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that Cities' Fifteenth Revised Sheet PGA-1 to its Second Revised Volume No. 1 of its FPC Gas Tariff be rejected.

(3) It is necessary and appropriate to aid in the enforcement of the Natural Gas Act that Cities be permitted to file, to become effective July 23, 1976, a revised tariff sheet reflecting the elimination of purchased gas costs associated with that portion of small producer and emergency purchases in excess of the rate levels established in Opinion Nos. 742 and 699-H, as appropriate.

(4) The claimed increased costs, other than those associated with that portion of small producer and emergency purchases in excess of the rate levels established in Opinion No. 742 and Opinion 699-H as appropriate, have been reviewed and found to be in compliance with the standards set forth in Docket No. R-406.

The Commission orders: (A) Cities' proposed Fifteenth Revised Sheet PGA-1 to its Second Revised Volume No. 1 of its FPC Gas Tariff tendered in this docket on June 7, 1976, is hereby rejected.

(B) Cities' proposed Alternate Fifteenth Revised Sheet PGA-1 to its Second Revised Volume No. 1 of its FPC Gas Tariff tendered in this docket on June 7, 1976, is hereby accepted for filing and suspended for one day, until July 24, 1976, when it shall become effective, subject to refund.

(C) The hearing procedures on the issue of small producer purchases, other than small producer purchases made

[1] Alternate Fifteenth Revised Sheet PGA-1 to Second Revised Volume No. 1.

[2] Fifteenth Revised Sheet PGA-1 to Second Revised Volume No. 1.

[4] — FPC — issued August 28, 1975, in Docket No. R-393.

[4] Small Producers, Docket No. RM76-5, Notice of Proposed Rulemaking, issued August 28, 1975.

[5] — FPC — issued September 9, 1975, in Docket No. R-389-B.

[6] Cities' June 7, 1976, filing does not include the information required by Ordering Paragraph (D) of Opinion No. 699-B.

V 41 149 AUG 2 76 UMI

pursuant to the Commission's 60-day emergency sales regulation, in excess of the rate levels prescribed by Opinion No. 742, are hereby deferred pending further Commission order.

(D) Within 15 days of the date of this order, Cities shall file with the Commission a list, including addresses, of the small producers other than small producers under 60-day emergency purchase sales, from whom it purchased at rates in excess of the rate level provided for by Opinion No. 742.

(E) Within 15 days of the date of issuance of this order, Cities may file a revised tariff sheet to become effective July 23, 1976, which reflects those claimed increased purchased gas costs contained in its PGA adjustment other than those claimed increased costs associated with that portion of small producer purchases in excess of the rate levels resulting from the "130% formula" prescribed by Opinion 742 and that portion of the 60-day emergency purchases from producers other than small producers in excess of the rate levels prescribed in Opinion 699-H.

(F) To assist in Commission review of the 60-day emergency purchases and in determining whether a public hearing is necessary thereon, Cities shall be required to file and serve on all its customers and interested state commissions within thirty days of the issuance hereof the following information: (1) the pipeline's need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased under each 60-day transaction, (4) a comparison of each emergency purchase price with appropriate market prices in the same or nearby areas, and (5) the relationship between the purchaser and the seller. Upon receipt of this information, it will be duly noticed for receipt of comments with respect thereto. Should our review indicate that the information filed meets the criterion set forth in Opinion No. 699-B, we shall terminate the proceedings and relieve Cities of its refund obligation. Should our review of the information and any comments related thereto indicate that further proceedings are required as to any or all of the 60-day emergency purchases, they would be established by subsequent order.

(G) The Secretary shall cause prompt publication of this order to be issued in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22257 Filed 7-30-76;8:45 am]

[Docket No. CP76-415]

CITIES SERVICE GAS CO.

Application

JULY 22, 1976.

Take notice that on June 29, 1976, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP76-415 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing (1) the exchange of up to 100,000 Mcf of natural gas per day with Colorado Interstate Gas Company (Colorado Interstate),[1] (2) the sale of up to 25 percent of such gas to Colorado Interstate, and (3) the construction and operation of a pipeline tap which is required for such exchange, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The application indicates that Applicant has entered into a Gas Purchase and Exchange Agreement, dated March 11, 1976, as amended April 9, 1976, with Colorado Interstate in order to enable it to receive much needed gas supplies which have been dedicated to Applicant by contract from producing reservoirs in the Greater Green River Basin in south central Wyoming. Applicant states that under the agreement, it would deliver to Colorado Interstate certain dedicated gas volumes (delivery volumes) up to 100,000 Mcf per day produced from the south central Wyoming area and Colorado Interstate would transport, exchange, and deliver or cause to be transported, exchanged and delivered to Applicant certain volumes (redelivery volumes) through Colorado Interstate's existing facilities into Applicant's system and into Kansas-Nebraska Natural Gas Company, Inc.'s (Kansas-Nebraska) system for the account of Applicant. It is proposed that Applicant would construct and operate the individual facilities necessary for gathering the delivery volumes to the points of delivery on Colorado Interstate's system pursuant to its current gas-purchase budget authorization in Docket No. CP76-115.

The application indicates that the redelivery volumes would be redelivered by Colorado Interstate at the following exchange points:

1. The Forgan exchange point located at a mutually agreeable point in Beaver County, Oklahoma.
2. The Lakin exchange point located at a mutually agreeable point near Colorado Interstate's Lakin compressor station in Kearny County, Kansas.
3. The Deerfield exchange point on Kansas-Nebraska's transmission line located at a mutually agreeable point in Kearny County, Kansas.

Applicant states that the sole facilities to be constructed by it at this time is a pipeline tap at the Forgan exchange point estimated to cost $1,530.

Applicant states that the presently estimated rate for the sale gas is $1.2814 per Mcf at 14.73 psia and that the transportation charge to be paid to Colorado Interstate is initially 17.35 cents per Mcf. It is asserted that Colorado Interstate has the right to predeliever to Applicant during any April 1 to September 30 period at uniform daily rates up to the aggregate of 20 percent of the redelivery volumes required to balance thermally the exchange and would have the right to recoup such predelivered volumes during the subsequent October 1 to March 31 period at a reasonably uniform daily rate up to a maximum daily rate of the thermal equivalent of 1 percent of the aggregate volumes of gas predelivered to Applicant during the previous April 1 to September 30 period.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22258 Filed 7-30-76;8:45 am]

[Docket No. CP76-422]

COLORADO INTERSTATE GAS CO.

Application

JULY 22, 1976.

Take notice that on July 1, 1976, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP76-422 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities and the transportation and exchange of natural gas with Cities Service Gas Company (Cities Service),[1] all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that Applicant and Cities Service have entered into a gas purchase and exchange agreement, dated March 11, 1976, whereby Cities would deliver volumes of gas to Applicant from certain sources in south central Wyoming and Applicant would have the option of purchasing up to 25 percent of these volumes, with the remainder less applicable fuel and unaccounted-for volumes to be redelivered on a thermally equivalent basis to Cities Service at points located in Kansas and Oklahoma. It is said that to effectuate redeliveries, Applicant proposes herein to install and operate three meter stations at an estimated cost of $133,213 with all other jurisdictional connecting facilities required by Applicant being constructed under its effective budget authorization. Applicant states that to effectuate deliveries to it, Cities Service would install the necessary gathering facilities to connect the wells it controls to Applicant's system.

The application shows that to effectuate redeliveries to Cities Service, Applicant would construct and operate three delivery points on its southern system in Oklahoma and Kansas. It is asserted that redeliveries would initially be made from a point on Applicant's Garden City Lateral (Deerfield sales meter station), Kearny County, Kansas, to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska) for Cities Service's account and from a point on Applicant's Mocane-to-Morton 22-inch line (Floris sales meter Station) near Forgan, Oklahoma. It is indicated that redeliveries from the Lakin Cities Service sales meter station, Kearny County, Kansas, would not commence until Applicant is unable to make the required redeliveries from the Deerfield and Floris redelivery points.

The application shows that Applicant has the right to predeliver to Cities Service, from April 1 through September 30 of each of the first five years of operation, volumes of gas (swing gas) at a reasonably uniform rate up to the aggregate of 20 percent of the redelivery volumes otherwise required to balance thermally the exchange gas received by Applicant during such summer season. Further, it is said that during the succeeding period from October 1 through March 31, Applicant has the right to reduce the redelivery volumes otherwise required by an amount thermally equivalent to the volume of swing gas so predelivered, provided that on no one day would the volume reduction exceed the equivalent of 1 percent of the aggregate volume of swing gas predelivered.

It is indicated that for the gas purchased Applicant would reimburse Cities Service at a price per Mcf to reflect Cities Service's actual gas purchase cost plus costs attributable to gathering, compression, dehydration, taxes, and a reasonable return on the related investment. It is further indicated that Cities Service would reimburse Applicant for transportation of the redelivery volumes at a rate to reflect Applicant's transmission system cost of service, including a reasonable rate of return on investment. Applicant states that volumes of gas to be purchased from Cities Service would be used to meet the requirements of Applicant's existing customers, and no new or increased sales are contemplated by Applicant in the subject application.

Applicant asserts that granting of the authority requested would enable Cities Service to connect a supply source which is distant from its pipeline system without major facility additions and to obtain up to 100,000 Mcf of natural gas per day (less sale gas) which is vitally needed to overcome severe supply deficiencies on Cities Service's pipeline system. Additionally, it is asserted that the projected sale and exchange would enable Applicant to purchase critically needed volumes while at the same time enabling Applicant to utilize more effectively its existing pipeline facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22259 Filed 7-30-76;8:45 am]

[Docket No. RP73-65 (PGA76-5)]

COLUMBIA GAS TRANSMISSION CORP.

Revised Tariff Sheets

JULY 23, 1976.

Take notice that on July 16, 1976 Columbia Gas Transmission Corporation (Columbia) tendered for filing Twenty-ninth Revised Sheet No. 16 and Thirteenth Revised Sheet No. 64A to its FPC Gas Tariff, Original Volume No. 1. The rates contained in these revised sheets reflect current purchased gas costs, a surcharge adjustment and supplier rates underlying such revenue rates.

An effective date of September 1, 1976 is requested for these tariff sheets. Columbia states that copies of the filing have been served upon its jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 13, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22266 Filed 7-30-76;8:45 am]

[Docket No. CP76-439]

COLUMBIA GAS TRANSMISSION CORP.

Application

JULY 22, 1976.

Take notice that on July 13, 1976, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP76-439 an application pursuant to Section 7(c) of the Natural Gas Act and Section 2.79 of the Commission's Statement of General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing a transportation service for an initial two-year term for Anchor Hocking Corporation (Anchor Hocking), all as more full set forth in the application which is on file with the Commission and open to public inspection.

It is proposed that the gas would be received by Applicant at an existing point of delivery from Gas Transport, Inc. (Gas Transport), and delivered by Applicant to Baltimore Gas & Electric Company (BG & E), a wholesale customer of Applicant, at existing points of delivery near Baltimore, Maryland, for

[1] Colorado Interstate has filed its related application in Docket No. CP76-422.

[1] Cities Service has filed its related application in Docket No. CP76-415.

V 41 149 AUG 2 76 UMI

redelivery to Anchor Hocking. The application indicates that the gas to be transported is part of Anchor Hocking's gas supply presently being transported by Applicant from Gravel Bank, Warren Township, Washington County, Ohio, to Lancaster, Fairfield County, Ohio, under an existing authorized transportation arrangement. It is stated that Anchor Hocking requests the transfer of a portion of existing gas supply from its Lancaster plant to its Carr-Lowrey Glass Company Division (Carr-Lowrey) in Baltimore, with volumes to be transported varying from 0 Mcf per day to a maximum of 800 Mcf per day depending upon the degree of curtailment imposed on Carr-Lowrey by BG & E.

The application shows that Gas Transport, a wholly-owned subsidiary of Anchor Hocking, was founded in 1941 for the sole purpose of purchasing natural gas for Anchor Hocking, its only customer. It is indicated that a March 1, 1976, amendment to the gas sale contract between Anchor Hocking and Gas Transport provides that for the months of March and April 1976, the first 75,000 Mcf delivered per month were to be billed at $1.50 per Mcf and any volumes over 75,000 Mcf per month were to be billed at the price established by a January 1, 1976, amendment which price was $1.25 per Mcf. It is stated that after the months of March and April 1976, the price for gas is to be in accordance with the January 1, 1976 amendment price of $1.25 Mcf. It is indicated that the gas is to be used for Priority 3 purposes that would have been Priority 2 uses had the gas been purchased on a firm basis.

It is proposed to charge a transportation rate of 21.99 cents per Mcf, with Applicant's retaining for company-use and unaccounted-for gas 3.6 percent of the volumes received for the account of Anchor Hocking.

The application shows the following information submitted by Applicant:

1. Applicant proposes to transport no gas for Anchor Hocking on a peak day, up to 800 Mcf on an average day and up to 292,000 Mcf on an annual basis.

2. The proposed transportation is expected to have no adverse impact on Applicant's ability to provide system-wide deliveries for Priority 1 requirements inasmuch as the transportation agreement is expressly subject to the limits of Applicant's pipeline capacity and its service obligations to its customers.

3. The gas to be transported hereunder is a transfer of existing gas supply, which has been under contract to Anchor Hocking since May 21, 1947.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 17, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8952]

CONNECTICUT LIGHT & POWER CO.

Certification of Settlement Agreement

JULY 27, 1976.

Take notice that on July 21, 1976, Presiding Administrative Law Judge William Jensen certified to the Federal Power Commission a Settlement Agreement between the Connecticut Light and Power Company and its municipal wholesale customers involving a wholesale rate increase application in the above captioned docket.

Copies of the Settlement Agreement are on file with the Commission and are available for public inspection. Any person desiring to comment on matters contained in the Settlement Agreement should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before August 16, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22339 Filed 7-30-76;8:45 am]

[Docket No. E-9435]

CONSUMERS POWER CO.

Filing of Letter Agreement

JULY 23, 1976.

Take notice that Consumers Power Company ("Consumers Power") on July 9, 1976 tendered for filing a letter dated July 1, 1976 from Consumers Power to the City of Petoskey ("Petoskey"). The letter informs Petoskey that a certain 15,000 kVA substation by means of which Consumers Power is to provide wholesale electric service to Petoskey was first placed into service on June 21, 1976. Under the terms of the Contract for Electric Service between the two parties, dated April 11, 1975, and filed with the Commission by letter dated May 7, 1975, June 21, 1976 is established as the effective date of the contract.

Consumers Power states that copies of the filing were served on Petoskey and on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said Agreement should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8947]

DELMARVA POWER & LIGHT CO.

Electric Rates; Order Granting Petition To Intervene and Reopening Record

JULY 26, 1976.

On June 21, 1976, the Municipal Intervenors (Municipals) in this proceeding[1] filed a motion requesting, in part, that the Commission act on their amended petition to intervene that alleges an anticompetitive "price-squeeze" through an unjustified disparity between the retail and wholesale rates of Delmarva Power & Light Company (Delmarva), and reopen the record in this proceeding that is pending before the Presiding Administrative Law Judge. In light of the decision of the Supreme Court in *F.P.C. v. Conway Corp.*, No. 75-342, decided June 7, 1976, the Commission will grant the Municipals amended petition to intervene and reopen the record. However, the Municipal's alternative requests, that the subject rate filing by Delmarva be rejected or reduced, will be denied.

Delmarva's rate filing in this docket was tendered on August 1, 1974. Prior to the hearing ordered by the Commission, on June 10, 1975, the Municipals filed an amended petition to intervene and prepared testimony alleging and discussing an anticompetitive "price squeeze". After consideration of opposing responses by the Commission Staff and Delmarva, the Commission by order of July 2, 1976, deferred action on the amendment to the petition to intervene, pending final resolution of the *Conway* case, and struck the portion of the Municipal's prepared testimony relating to the price squeeze issue.

[1] Cities of Newark, Seaford, and Milford, Delaware, and the Board of Public Works of Lewes, Delaware.

The Municipals argue that grant of their petition and requests is necessary based upon the Commission's original deferral order of July 2, 1975, and the decision of the Supreme Court in *Conway, supra*. On July 6, 1976, Delmarva filed two pleadings, an opposition to the amended petition to intervene and a response opposing reopening of the record. Delmarva specifically denies the allegations of anticompetitive practices made in the Municipal's amended petition to intervene and argues that the Municipal's have shown only that some disparity exists in some instances between Delmarva's wholesale and retail rates. Delmarva further contends that the amended petition lacks specificity in detailing the practices challenged and the facts relied upon by the Municipals, and that the reopening of this record would unduly delay the resolution of this case and violate Delmarva's Constitutional rights.

The decision of the Supreme Court in *Conway* requires the reopening of this record to permit the development and presentation of evidence on the "price squeeze" issues. The Municipals petition presents a sufficient basis for the further evidentiary review of this issue; while Delmarva's response recites rebuttal argument that may properly be addressed in the proceedings herein established. Similarly, the Municipal's untested allegations will not support rejection of the rate filing or a summary reduction at this time of the rates being collected subjected to refund.

The Commission finds: (1) Good cause has been shown to grant the amended petition to intervene filed by the Municipal on June 10, 1975 and to reopen the record in this docket.

(2) Good cause has not been shown to reject or summarily dispose of Delmarva's rate filing in this docket.

The Commission orders: (A) The motion filed by the Municipals on June 21, 1976, in this docket is hereby granted, in part, as hereafter ordered.

(B) The amended petition to intervene filed by the Municipals on June 10, 1975, in this docket is hereby granted, subject to the conditions already attached to the grant of their original petition to intervene in this docket.

(C) The Presiding Administrative Law Judge shall fix a date for a further prehearing conference in this proceeding and shall thereafter establish such procedural dates for the admission of evidence on the "price-squeeze" issues and for further hearing and procedures, as may be appropriate and necessary.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22330 Filed 7-30-76;8:45 am]

[Docket No. E-8947]

DELMARVA POWER & LIGHT CO.

Electric Rates; Order Reopening Record

JULY 26, 1976.

On June 25, 1976, the Municipal Intervenors in this proceeding[1] filed a motion to reopen this record to require the submission of evidence concerning the impact on the filed rates of the settlement and cancellation of Delmarva Power and Light Company's (Delmarva) contract for the construction of the Summit Power Station (Summit Settlement), under which Delmarva has received $106,250,000. The motion will be granted, in part, herein; and the record will be reopened as requested.[2]

The instant rate increase was tendered for filing on August 1, 1974 and is based on a twelve month test period ended September 30, 1975. The record was closed in February 1976; and this case is awaiting decision by the Presiding Administrative Law Judge. During the hearings in this docket, on October 27, 1975, the Summit Settlement (Exhibit 53) was executed. It provided for the cancellation of the contract for the construction of the Summit Generation Station and for the payment to Delmarva of $106,250,000, which was received on November 3, 1975 and January 2, 1975.

The Municipals argue that the reopening of this record is necessary due to the "sheer magnitude" of this settlement, the lack of information about it available to the other parties during the hearing and briefing process, and the issuance of an order by the Delaware Public Service Commission on April 13, 1976, that addressed this issue. Delmarva, in an opposing response filed on July 9, 1976, argues chiefly that this issue should be considered in a later case, Docket No. ER76-494, since the settlement was reached after the end of the test period in this docket, and as a reopening of the record would delay an already extended proceeding and prejudice Delmarva's constitutional rights.

In a response filed on July 8, 1976, the Commission Staff supported the Municipal's motion, as did the Cooperative Intervenors[3] in an untimely response filed July 19, 1976. The Staff concedes that the Summit Settlement will have "little direct effect" on Delmarva's test year rate base. However, the Staff suggests that the cancellation of significant projected construction expenses and the receipt of a substantial amount of "cost free" capital should have an impact on Delmarva's capital structure and on the rate of return to be determined for this docket.

Although the Summit Settlement occurred after the end of the test period here and need not be reflected in the test period rate base, it cannot be concluded that these events will not have an effect on the determination of just and reasonable rates, and particularly on the proper rate of return. Further, the record in this docket is already being reopened for the adduction of evidence on "price squeeze" issues, pursuant to the decision of the Supreme Court in *F.P.C. v. Conway Corp.*, No. 75-342 decided June 7, 1976. Therefore, this second motion by the Municipals for reopening of the record will be granted. However, a further request by the Municipals that Delmarva be directed to file testimony justifying its treatment of the proceeds of the Summit Settlement will be left to the discretion of the Presiding Administrative Law Judge.

The Commission finds: Good cause has been shown to grant, in part, the motion filed by the Municipal Intervenors, on June 25, 1976, in this docket and to reopen the record herein.

The Commission orders: (A) The motion filed by the Municipal Intervenors in this docket on June 25, 1976, is hereby granted in part, and the record in this proceeding is hereby reopened.

(B) The Presiding Administrative Law Judge shall fix a date for a further prehearing conference in this proceeding and shall thereafter establish such procedural dates for the admission of evidence on the issues raised in the Municipal's Motion of June 25, 1976, and for further hearing and procedures, as may be appropriate and necessary.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-151]

DELMARVA POWER & LIGHT CO.

Extension of Time

JULY 26, 1976.

On July 21, 1976, Staff Counsel filed a motion to extend the hearing date fixed by order issued October 31, 1975, as most recently modified by notice issued May 11, 1976, in the above-designated proceeding. The motion requests the extension because of an amended notice of intervention filed by the Delaware Public Service Commission which is pending before the Commission. The motion further states that no party objects to the requested extension.

Upon consideration, notice is hereby given that the hearing date in this proceeding is changed to August 27, 1976 (10:00 a.m., EDT).

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-494]

DELMARVA POWER & LIGHT CO.

Electric Rates; Order Permitting Amendment to Petition To Intervene

JULY 26, 1976.

On June 21, 1976, the Municipal Intervenors (Municipals)[1] in this proceeding filed an amended petition to intervene for the stated purpose of affording the Commission an opportunity "to inject the discriminatory price squeeze issues into the instant docket", in light of the decision of the Supreme Court in *F.P.C. v. Conway Corporation*, No. 75-342, decided June 7, 1976. This petition, as amended, will be granted; and our prior orders in this docket excluding "price squeeze" issues will be modified accordingly.

In their argual petition to intervene, filed on February 23, 1976, the Municipals alleged that:

> [N]otwithstanding the status of *Conway*, the Petitioners herein reallege and reassert that there exists a gross disparity between the Company's existing and proposed wholesale rates and its Rate Schedule "GS" under which the Company serves its industrial retail customers in the State of Delaware. There is no adequate justification for the disparity between the Company's wholesale and retail rate schedules and this existence of such disparity clearly violates the spirit and intendment of the antitrust laws.

By order issued February 27, 1976, the Commission, *inter alia*, suspended for one month the rate increase proposed by Delmarva Power & Light Company (Delmarva) and set the matter for hearing. The Municipals, in an application for rehearing filed on March 2, 1976, again alleged an anticompetitive price squeeze. That issue was specifically excluded from this docket by the Commission's order of April 1, 1976, that granted the Municipal's Petition To Intervene. On April 29, 1976, the Municipals filed a petition for reconsideration which was then denied by the Commission in an order issued June 1, 1976.

In an "Opposition" to the amended petition filed on July 6, 1976, Delmarva responds that the Municipals have not alleged any anti-trust violations with sufficient specificity and have presented only "sweeping generalizations without reference to any specific material fact demonstrating anticompetitive practice by Delmarva."

In the *Conway* decision, the Supreme Court held that this Commission has jurisdiction to consider allegations that wholesale rates are anti-competitive and discriminatory in comparison to retail rates. Given this most recent decision, the Municipals should be given an opportunity to develop and present evidence on the price squeeze issue as set forth in their amended petition to intervene.

The Commission finds: Good cause exists to permit the Municipals to amend their petition to intervene as filed on June 21, 1976.

The Commission orders: (A) The Municipal's petition to intervene, as amended on June 21, 1976, is hereby granted subject to the conditions already stated in the Commission order of April 1, 1976, in this docket.

(B) Ordering Paragraph (D) in the Commission's order of April 1, 1976, in this docket is hereby rescinded.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Project Nos. 2770, 2771, 2772, and 2775]

EAGLE-A/LINWEAVE DIVISION, BROWN CO.

Applications for Minor Licenses for Constructed Projects

JULY 27, 1976.

Public notice is hereby given that applications were filed on May 5, 14, 21, and 28, 1976, under the Federal Power Act, 16 U.S.C. §§ 791a-825r, by Eagle-A/Linweave Division, Brown Company (Correspondence to: Mr. C. L. Kirkpatrick, Vice President, Eagle-A/Linweave Division, Brown Company, 10 Eagle-A Avenue, Holyoke, Massachusetts 01040) for minor licenses for its constructed Crocker Mill (C Wheel), Nonotuck Mill, Linweave Warehouse (A Wheel), and Linweave Warehouse (D Wheel) Projects, FPC Nos. 2770, 2771, 2772, and 2775, respectively, located on the canal sytsem in the City of Holyoke, Hampden County, Massachusetts. The canal system, which is part of Holyoke Water Power Company's licensed Hadley Falls Project No. 2004, utilizes water diverted from the Connecticut River, a navigable waterway of the United States.

The Crocker Mill (C Wheel) Project, FPC No. 2770, which has an installed capacity of 240 kW, consists of: (1) a steel penstock approximately seven feet in diameter; (2) a 400 hp water wheel directly connected to a generator of 240 kW capacity located in Applicant's mill building; and (3) a brick tailrace.

The Nonotuck Mill Project, FPC No. 2771, which has an installed capacity of 400 kW, consists of: (1) a steel penstock approximately 10.5 feet in diameter; (2) a 585 hp water wheel directly connected to a generator of 400 kW capacity located in Applicant's mill building; and (3) a brick tailrace.

The Linweave Warehouse (A Wheel) Project, FPC No. 2772, which has an installed capacity of 460 kW, consists of: (1) a steel penstock approximately eight feet in diameter; (2) a 625 hp water wheel directly connected to a generator of 460 kW capacity located in Applicant's mill building; and (3) a brick tailrace.

The Linweave Warehouse (D Wheel) Project, FPC No. 2775, which has an installed capacity of 360 kW, consists of: (1) a steel penstock approximately 12 feet in diameter; (2) a 625 hp water wheel directly connected to a generator of 360 kW capacity located in Applicant's mill building; and (3) a brick tailrace.

Projects Nos. 2770, 2771, 2772, and 2775 utilize 152, 220, 253, and 161 cfs of water, respectively. This water is withdrawn from the second level canal in the City of Holyoke and discharged into the Connecticut River.

The power generated at these projects is used solely in Applicant's industrial plants, except to the extent that power may be made available to Holyoke Water Power Company pursuant to Article 16 of the license for Project No. 2004.

Applicant has requested the shortened procedures pursuant to Section 1.32(b) of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 1.32(b) (1975).

Any person desiring to be heard or to make any protest with reference to said applications should, on or before October 4, 1976, file with the Federal Power Commission, 825 N. Capitol St. NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 1.8 or § 1.10 (1975). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Comimssion's Rules.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act, 16 U.S.C. § 825g and 825h, and the Commission's Rules of Practice and Procedure, specifically Section 1.32(b), hearings on these applications may be held before the Commission without further notice if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein. If an issue of substance is so raised, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or be represented at the hearings before the Commission.

The applications are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP9596, et al]

EL PASO ALASKA CO. ET AL.

Order Granting Motion Setting Hearings, Establishing Prehearing Conference, Granting Interventions, and Deferring Determination et al.

JULY 23, 1976.

In the matter of: El Paso Alaska Company, Docket No. CP75-96, Western LNG Terminal Company, Docket No. CP75-83-1, Alaskan Arctic Gas Pipeline Company, Docket Nos. CP74-239-CP74-240, Pacific Gas Transmission Company, Docket Nos. CP74-241, CP74-242, CP71-182, Northern Border Pipeline Company, Docket Nos. CP74-290, CP74-291, Alcan Pipeline Company, Docket Nos. CP76-433, CP76-434, and Northwest Pipeline Corporation, Docket Nos. CP76-435, CP-76-436, CP76-437.

On July 9, 1976, Alcan Pipeline Company (Alcan) filed in Docket No. CP76-433 an application for a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act for authority to construct and operate a 42-inch diameter natural gas pipeline and related compression and other facilities extending from Prudhoe Bay on the North Slope of Alaska to the Alaskan-Yukon border, and for authority to transport natural gas for shippers which enter into contracts with Applicant for transportation service. Alcan simultaneously filed a related application in Docket No. CP76-434 for a Presidential Permit pursuant to Executive Order 10485 to construct, operate, connect and maintain facilities on the International Boundary between the United States and Canada, at a point of interconnection between the facilities of Alcan in Alaska and those of Foothills Pipe Lines Ltd. in the Yukon territory.

Also on July 9, 1976, Northwest Pipeline Corporation (Northwest) filed in Docket No. CP76-435 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of various pipeline facilities in the states of Oregon and Washington and for the transportation of natural gas through such facilities. Northwest also filed a related application in Docket No. CP76-436 for a Presidential Permit pursuant to Executive Order No. 10485 to construct, connect, and maintain facilities on the International Boundary between the United States and Canada, at a point of interconnection near Sumas, Washington to enable the importation of Alaskan natural gas from certain Canadian facilities. Also on July 9, 1976, Northwest filed in Docket No. CP76-437 an application pursuant to Section 3 of the Natural Gas Act requesting authorization to export natural gas from Alaska into Canada and to import such Alaska gas from Canada into the United States at a point near Sumas, Washington.

All five applications filed by Alcan and Northwest relate to components of a single comprehensive project proposal for the transportation of natural gas from the Prudhoe Bay field on the North Slope of Alaska into the lower forty-eight states. Accompanying these applications Alcan and Northwest filed on July 9, 1976, a motion for consolidation and comparative hearings with the ongoing comparative proceeding in Docket Nos. CP75-96, *et al.* in which two competing project applications for transportation of this same Alaskan gas are being adjudicated. On July 16, 1976, Alcan petitioned for leave to intervene out of time in Docket Nos. CP75-96, *et al.*

The Alaskan gas proceeding had its inception on March 21, 1974, with the filing of related applications of Alaskan Arctic Gas Pipeline Company (Alaskan Arctic).[1] A second and potentially competing Alaskan gas project was subsequently brought before the Commission by El Paso Alaska Company (El Paso).[2] Then by order of January 23, 1975, the Commission consolidated El Paso's application with those of Alaskan Arctic and related companies under the lead docket of *El Paso Alaska Company, et al.*, Docket Nos. CP75-96, *et al.* In reaching its conclusion to consolidate the Commission found that the El Paso and Alaskan Arctic applications may be mutually exclusive, involving common questions of law and fact.[3] A prehearing conference was held on April 8, 1975, with the full evidentiary hearing commencing on May 5, 1975, and continuing through the present.

According to its application in Docket No. CP76-433, Alcan, which is a wholly owned subsidiary of Northwest, would construct 731 miles of 42-inch pipeline within Alaska, consisting of 539 miles of pipeline from Prudhoe Bay to Delta Junction parallel to the Alyeska oil pipeline and 192 miles from Delta Junction following the Alcan Highway to the Alaska-Yukon border. This pipeline would allegedly have a capacity of 2.4 Bcf/d and would cost $2.3 billion. The Alaskan gas would be delivered at the border into a 42-inch pipeline which Foothills Pipe Lines Ltd. (Foothills) would construct from the border 509 miles following the Alcan Highway to the Yukon-British Columbia border at a point near Watson Lake, Yukon. The Alaskan gas would then be delivered by Foothills into a pipeline to be constructed by Westcoast Transmission Company Ltd. (Westcoast) from that point to the British Columbia-Alberta border at a point of interconnection with Alberta Gas Trunk Line (Canada) Ltd. (AGTL): 30% of this Alaskan gas transported by Westcoast would go into its existing or expanded pipeline at Fort Nelson, British Columbia for delivery to Northwest's existing pipeline at Sumas, Washington on the British Columbia-Washington border. The remaining 70% would continue on to the aforementioned interconnection with AGTL which would take delivery of this gas for transportation through a pipeline it would construct to a point of interconnection with its existing or expanded pipeline near Zama Lake, Alberta. The Alaskan gas would then be transported through this pipeline to a point near Caroline Junction, Alberta from which point a portion of the gas would continue through the existing or expanded pipeline of first AGTL and then Alberta Natural Gas Company Ltd. (ANG) for delivery to the existing facilities of PGT on the British Columbia-Idaho border at Kingsgate, British Columbia. The remainder of the gas would be transported by AGTL from Caroline Junction to the Alberta-Saskatchewan border near Empress, Alberta through an existing or expanded pipeline. Foothills would then take delivery at Empress and transport the gas through a pipeline it would construct to the Saskatchewan-Montana border at Monchy, Saskatchewan for delivery to Northern Border.

According to its application in CP76-435 Northwest would construct 359 miles of 30-inch pipeline and related facilities mainly in Washington. This construction would allegedly cost $246,390,000. Northwest would operate these new facilities along with existing facilities in Washington and Oregon to transport Alaskan gas received from Westcoast at Sumas, Washington for the account of Pacific Interstate Transmission Company (PITC) and PGT to Kent, Oregon where it will be delivered to PGT for ultimate delivery in California.

Alcan and Northwest preface their motion to consolidate by stating that they initiated consideration of their project when the Commission Environmental Staff and the Department of Interior Draft and Final Environmental Impact Statements were introduced into the record and cross-examined. They allege in particular that they found the hypothetical Fairbanks-Alcan alternative route analyzed therein appealing and that their proposed transportation system is substantially modelled after

[1] In Docket No. CP74-239 Alaskan Arctic filed an application for a Section 7(c) certificate for the construction and operation of a pipeline from Prudhoe Bay to the Alaska-Yukon border to render transportation service for various shippers of Alaskan gas. At the same time in Docket No. CP74-240 Alaskan Arctic filed an application for Presidential Permit to construct and operate facilities at the international border between Alaska and the Yukon Territory.

Applications for certificates and permits for additional facilities which are related components of the overall Alaskan Arctic project were filed by Pacific Gas Transmission Company (PGT) on March 21, 1974, in Docket Nos. CP74-241 and CP74-242 and by Northern Border Pipeline Corporation (Northern Border) on May 14, 1974, in Docket Nos. CP74-290 and CP74-291.

[2] On September 24, 1974, in Docket No. 75-96 El Paso filed an application for a Section 7(c) certificate for the construction and operation of a pipeline from Prudhoe Bay to Gravina Point, Alaska, along with the construction of a liquefaction and storage facility at Gravina Point. Thereafter on March 3, 1975, in CP75-83-1 Western LNG Terminal Company (Western) filed an application for a Section 7(c) certificate for the construction of an LNG termnal and regasification facility at Point Conception, California, along with certain pipeline facilities. All of Western's facilities were intended primarily to receive the liquefied Alaskan gas transported through El Paso's facilities, and by notice of March 19, 1975, CP75-83-1 was consolidated into the Alaskan gas proceeding.

[3] Although the Commission found therein that both sets of applications were deficient vis-a-vis the filing requirements of Section 157.14 of its Regulations under the Natural Gas Act, it nonetheless prescribed a hearing schedule because of importance of the Alaskan gas situation and exigent circumstances involved.

V 41 149 AUG 2 76 UMI

that Fairbanks-Alcan alternative. They also noted that both El Paso and the Conservation Intervenors stated on the record (Tr. 27,589–27,590, and 27,602–27,603) that they do not oppose the motion to consolidate. Alcan and Northwest furthermore point out as a preliminary matter that no party has objected generally to the admission on June 9, 1976, and on future dates in July 1976 of evidence related to their project; therefore, they contend that even if consolidation is denied their alternative route will be before the Commission, and, if it is found to be superior, neither El Paso's nor Alaskan Arctic's project can be certificated.

The principal rationale upon which this motion is founded is that, since their application is allegedly mutually exclusive from either El Paso's or Alaskan Arctic's applications and non-frivolous, due process as per the *Ashbacker* Doctrine[4] requires a comparative hearing. Although Alcan and Northwest concede both the existence of a "cutoff" rule in the Commission's regulations[5] and also the validity of such a provision,[6] as well as the noncompliance of their filing therewith, they maintain that the public interest does in fact require consolidation and comparative hearing, as is provided by Section 157.11. In this latter regard they alleged that their applications and the evidence already in the record demonstrate the potential superiority of their proposal. They then advance *seriatim* alleged superiority of their project in terms of completion date, cost, environment, reliability, economic benefit to the nation, and compatibility with Canadian energy policy.

Alcan and Northwest attempt to minimize the delay to this proceeding resulting from consolidation by contending that other necessary preconstruction steps can be completed during the extended hearing period, that even with the delay of additional hearings their more rapid construction schedule will result in the earliest delivery of Alaskan gas, that even if consolidation were denied evidence would have to be received into the record on the project as an alternative route, that continuation of the expedited procedures utilized throughout this proceeding should reduce the delay, that the Court review of Commission refusal to consolidate would increase the delay, and that pending Congressional legislation[7] would mandate consolidation.

By notice issued July 12, 1976, any person wishing to do so was directed to respond to the applications and motion of Alcan and Northwest on or before July 19, 1976.

On July 9, 1976, Alaskan Arctic submitted a filing in which it opposes the motion for consolidation filed by Alcan and Northwest.[8] Initially, Alaskan Arctic observes that, accepting the validity of Section 157.11 of the Commission's Regulations under the Natural Gas Act, Alcan and Northwest have no right as a matter of law to an *Ashbacker* hearing, i.e. consolidation of their applications for hearing and decision with the applications made the subject of proceedings in Docket Nos. CP75–96, et al. Turning to the caveat in Section 157.11 which provides for waiver of the filing requirements contained therein when required by the public interest, Alaskan Arctic asserts that Alcan and Northwest have failed to make the requisite showing here. Alaskan Arctic advises that, because Northwest as a party intervenor will be free to present evidence in Docket Nos. CP75–96, et al. as to the efficacy of the Fairbanks corridor-Alcan Highway alternate route, there is nothing to be accomplished by permitting Alcan and Northwest into those proceedings as competing applicants, whereas, according to Alaskan Arctic, there is much to be gained from a contrary result. In the first place, denial of the motion to consolidate would assertedly serve to maintain the sanctity of Section 157.11. Second, Alaskan Arctic states that denial of the motion will remove any doubt as to the necessity of further Environmental Impact Statements, thereby saving precious time. Finally, Alaskan Arctic avers that denial of consolidation would avert serious infringement on the rights of other applicants who may be as well or better qualified to use the route proposed by Alcan and Northwest, should that route ultimately be found preferable by the Commission. Consequently, in addition to asking the Commission to deny the motion to consolidate, Alaskan Arctic recommends holding in abeyance the applications filed by Alcan and Northwest pending Commission decision in Docket Nos. CP75–96, et al. said applications to be processed only in the event the Commission finds the route proposed therein to be superior. In the interim, Alcan and Northwest would remain free to submit their alternate route evidence as party-intervenors.

In the event the Commission sees fit to grant consolidation, Alaskan Arctic suggests that we direct the Presiding Judge to prescribe a sharply expedited schedule for the tender of evidence by Alcan and Northwest, the Staff, and all other parties. Alaskan Arctic additionally urges us to direct Staff to dispense with the preparation and filing of a draft or final EIS reflecting the new applications. Alaskan Arctic insists that we are empowered to authorize such waiver under NEPA, pursuant to the decision in *Aberdeen and Rockfish R. Co. v. SCRAP*, 422 U.S. 289 (1975). Alaskan Arctic believes that the need for another EIS here is obviated in large part by the fact that Stag in Docket Nos. CP75–96 has already placed into evidence an EIS which discusses as an "alternate route" the route now proposed by Alcan and Northwest. In Alaskan Arctic's view, this EIS, considered in conjunction with other environmental evidence to be generated on the record by parties and representatives of other agencies, would constitute full compliance with NEPA. In effect, the "final EIS" would be subsumed within the Commission's own decision in the consolidated proceedings. These suggestions are allegedly offered by Alaskan Arctic in the interest of expedition.

Staff filed a response to the subject motion for consolidation on July 16, 1976. At the outset Staff echoes Alaskan Arctic's declaration that Alcan and Northwest have no legal *right* to a consolidated hearing. Notwithstanding this limitation, however, Staff believes that the public interest compels waiver of the requirements of Section 157.11 to permit the Commission to grant the instant motion to consolidate. Staff's reasons are essentially two-fold. First, Staff references the unprecedented effects which the selection of a system for the transportation of Alaskan gas will have on the nation and concludes that the public interest can best be served by development of the fullest record possible and simultaneous presentation to the Commission of various project proposals. Second, Staff indicates its belief that S.3521 will be passed into law and therefore finds it wise to do by administrative order what Congress will require by legislation. We find it unnecessary to consider the latter contention in deciding this motion.

Should consolidation occur, Staff recommends that the Commission establish dates for issuance of a supplemental EIS and for issuance of the initial decision the Presiding Judge to fashion a procedural schedule accordingly. Staff lists seven considerations which it believes should be addressed in a supplemental EIS and, based on certain assumptions, represents that a six-month period would be necessary for preparation thereof, although a less refined version could conceivably be introduced sooner, if necessary. To this end, Staff suggests the following procedures: Issuance of a notice prescribing a forty-five day comment period; issuance of a supplemental EIS thereafter; finally, the convening of a public hearing for the purpose of taking oral responses to said supplemental EIS.

[4] *Ashbacker Radio Company* v. *FCC*, 326 U.S., 327 (1945); *e.g.*, *Delta Airlines* v. *CAB*, 228 F.2d 17 (D.C. Cir. 1955); *Midwestern Gas Transmission Corporation* v. *FPC*, 258 F.2d 660 (D.C. Cir. 1958); and *Northeastern Gas Transportation* v. *FPC*, 195 F.2d 872 (3d Cir. 1952).

[5] Section 157.11 of the Commission's Regulations under the Natural Gas Act. (A mutually exclusive application will not be considered if filed less than fifteen days before the start of the hearing on the preexisting application unless the Commission finds that the public interest requires a comparative hearing despite the untimeliness).

[6] *e.g.*, *Valley Telecasting* v. *FCC*, 338 F.2d 278 (D.C. Cir. 1964).

[7] S. 3521, 94th Cong., 2d Sess., 122 Cong. Rec. 11356 (July 1, 1976).

[8] By petition filed July 19, 1976, Alaskan Arctic and the following related companies also sought leave to intervene in the proceedings in Docket Nos. CP76–43 *et al.*: Canadian Arctic Gas Pipeline Limited, Northern Border Pipeline Company, Michigan-Wisconsin Pipeline Company, Northern Natural Gas Company, Panhandle Eastern Pipe Line Company, Texas Eastern Transmission Corporation, Transwestern Pipeline Company and Natural Gas Pipeline Company of America.

El Paso Alaska filed a written response to the motion to consolidate on July 19, 1976 in which it, too, finds consolidation to be required by the public interest. El Paso Alaska would have the Commission attach the following conditions to its order of consolidation: (1) Require Alcan and Northwest to accept the record as it now stands and to avoid unnecessary duplication of evidence; and (2) require Alcan and Northwest to present all prepared direct evidence within a reasonable time. Regarding NEPA, El Paso Alaska follows Alaskan Arctic in asserting that the supplemental EIS can be incorporated into the Commission's final order and may be based upon evidence adduced by Staff and other parties on the record relating to the environmental impact of the Alcan and Northwest proposal. Unlike Alaskan, Arctic, however, El Paso Alaska would have the Commission refer the NEPA question to the Judge for an initial determination, with Commission review of the matter, if necessary.

Foothills also submitted a written response on July 19, 1976 in which it fully endorses the motion to consolidate.[9] Foothills therein represents that, once consolidation is approved, it and its sponsor companies, Wesctcoast and AGTL, will expeditiously submit appropriate filings with the NEB.

Written responses in support of the Alcan and Northwest motion to consolidate have also been received from the following parties: The State of Oregon and the Washington Utilities and Transportation Commission (which also petitions to intervene). Further support of the motion has been manifested in petitions to intervene filed by the following:

Cascade Natural Gas Corporation, Washington Natural Gas Company, Washington Water Power Company, and Intermountain Gas Company. The State of Utah has filed a Notice of Intervention in which it also supports the Alcan and Northwest.

During the public session of July 19, 1976, in Docket Nos. CP75–96, *et al.*, counsel for the Conservation Intervenors indicated his clients' wholehearted support of the Alcan and Northwest motion for consolidation. (Tr. 31,070).[10]

In addition to those mentioned above, the following entities have also petitioned for leave to intervene in Alcan's and Northwest's dockets:

Tucson Gas and Electric Company, Arizona Corporation Commission, Arizona Public Service Company, Pacific Gas and Electric Company, Tennessee Gas Pipeline Company, Pacific Gas Transmission Company, Public Service Commission of New York, Pacific Interstate Transmission Company, Western LNG Terminal Company (jointly with Pacific Gas LNG Terminal Company and Western LNG Terminal Associates), Southern California Gas Company (jointly with Pacific Lighting Service Company), United Gas Pipe Line Company, Utah Gas Service Company, Southwest Gas Corporation, Alaska Peoples Gas Light and Coke Company, North Shore Gas Company and Colorado Interstate Gas Company. All petitions will be hereinafter granted.

We find that Northwest's and Alcan's motion for consolidation should be granted, and accordingly expanded comparative hearings are ordered herein. Initially we note that Alcan's and Northwest's applications may be mutually exclusive to those of El Paso or Alaskan Arctic. In arriving at this conclusion we have had to cautiously weigh the crucial need to resolve this proceeding as expeditiously as possible against the enormous impact which our decision will have upon the nation, in light of the size, scope and complexity inherent in any system advanced to transport Alaskan gas to the lower forty-eight states.

In granting this motion we do not, however, subscribe to Northwest's and Alaskan's assertion that they have a right to enter this proceeding at this juncture as an applicant. To begin with, through enactment of its Regulations and during this proceeding the Commission has remained cognizant of the *Ashbacker* mandate; however, in the present context in which Northwest had been an active party-intervenor during an entire year of hearings before it first announced its intent to intervene as a competing applicant enforcement of our regulation requiring such a filing at least fifteen days before the commencement of hearings would normally be warranted. Notwithstanding this statement we are constrained to order consolidation in light of the dictates of the public interest.

Upon a review of Alcan's and Northwest's applications the Environmental Impact Statements in the record prepared by Commission Staff and the Department of the Interior, cross-examination related to these documents, and other record evidence, including *voir dire* examination of Northwest's policy witnesses (Tr. Vols. 149, 150, 150–A, and 151), we find that the applications presently before us present an alternative system for transporting natural gas from Prudhoe Bay to the lower forty-eight states which should be considered before our final decision is made. While we find that this alternative system is not frivolous and should be heard, we neither pass judgment upon the record evidence cited nor evaluate any of the three alternate and competing projects on their merits. Our order consolidating these applications for comparative hearing should in no way be read as indicating any Commission predilection towards one of the competing applicants.

While the public interest requires this requested consolidation, it also requires the most expeditious resolution possible of this Alaskan gas transportation proceeding. Accordingly, the effective and expedited hearing and briefing procedures already being followed in CP75–96, et. al., should be continued. In this regard we note from the pleadings presently before us that the several applicants all support this expedited approach to the expanded comparative hearings. We expect that all parties, and particularly Alcan and Northwest, will make every effort to comply with the evidentiary and procedural timetables prescribed by Administrative Law Judge Nahum Litt. As party-applicants, Alcan and Northwest will be required to accept the record as it now stands in Docket No. CP75–96, et al.

In this order we are deferring to a subsequent order several subsidiary questions, to-wit, the sufficiency of Alcan's and Northwest's applications as to the filing requirements set forth in our Regulations under the Natural Gas Act, the evidentiary and administrative procedures to be followed in satisfying the mandate of the National Environmental Policy Act, the establishment of a timetable for issuance of the initial decision and review thereof, and any other matters which require Commission consideration.

Finally, we direct the Presiding Administrative Law Judge to convene a prehearing conference for the purpose of establishing the procedures necessary to expeditiously commence and complete this newly expanded comparative hearing.

The Commission further finds: (1) It is necessary and appropriate that the proceedings relating to the transportation of natural gas from Prudhoe Bay to the lower 48 states should be further consolidated for hearing and decision as requested by applicants Alcan and Northwest.

(2) The petitioners mentioned in the body of this order should be granted intervention in Docket Nos. CP76–433, CP76–434, CP76–435, CP76–436, and CP 76–437. Alcan should be permitted to intervene in Docket Nos. CP75–96, et al.

The Commission orders: (A) The Presiding Administrative Law Judge is hereby directed to convene a prehearing conference at a time of his choosing.

(B) The petitioners named or referenced above are hereby permitted to intervene as requested subject to the Rules of the Commission, provided that the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene, and that the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order issued by the Commission in this proceeding.

(C) Pursuant to Section 1.20(b) of the Commission's Rules of Practice and Procedure, the proceedings in *Alcan Pipeline Company*, Docket Nos. CP76–433 and CP76–434, and *Northwest Pipeline Corporation*, Docket Nos. CP76–435, CP76–436 and CP76–437, are hereby consolidated for hearing and decision with the

[9] In a separate document filed concurrently therewith, Foothills, Westcoast, and AGTL seek leave to intervene in Docket Nos. CP76–433, et al.

[Docket No. G-103]

ENTEX, INC.

Order; Continuance of Jurisdictional Export Gas Service

JULY 23, 1976.

By orders issued September 10, 1940, 2 FPC 803, and January 26, 1945, 4 FPC 840, in Docket No. G-103, United Gas Corporation was authorized to sell gas for export, at or near the international boundary near Laredo, Texas, to Compania de Gas de Nuevo Laredo, S.A. (CGNL) for resale by CGNL in the City of Nuevo Laredo, Tamaulipas, Republic of Mexico. Entex, Inc. has succeeded to United Gas Corporation and is currently authorized to export gas to the City of Nuevo Laredo pursuant to Section 3 of the Natural Gas Act.

On July 22, 1976, CGNL filed a complaint with the Federal Power Commission alleging that Entex, Inc. has threatened to terminate the sale and delivery of natural gas to the City of Nuevo Laredo. The complainant alleges that Entex, Inc. is the sole supplier of gas to the City of Nuevo Laredo. Complainant avers that all of Nuevo Laredo hospitals need natural gas for sterilization purposes and that cutoff of gas threatens human life. In addition, complainant alleges that medical laboratories will be unable to conduct essential diagnostic tests, factories will be forced to shut down, restaurants and hotels will be forced to close and that people attempting to convert to electric energy will cause overloads resulting in multiple fires.

By telegram filed July 22, 1976, Entex, Inc. alleges that CGNL is delinquent in payments for gas and states that it did advise CGNL that gas deliveries would be suspended July 1, 1976, unless satisfactory arrangements were made to bring the account current. Entex, Inc. states that although the Fifth Circuit Court of Appeals' order temporarily enjoining Entex, Inc. from suspending deliveries expired by its own terms at 5:00 p.m. July 22, 1976,[1] Entex, Inc. has entered into an agreement with the Ministry of Industry and Commerce of the Republic of Mexico and will continue to sell and deliver gas until on or about August 11, 1976.[2]

[1] By order issued July 22, 1976, the Fifth Circuit Court of Appeals extended its temporary enjoinment order of July 12, 1976, an additional 11 days until 5:00 P.M. August 2, 1976, to allow the court time to review the matter.

[2] Entex, Inc. states that during this thirty day contract period, the Mexican government will extend PEMEX pipeline facilities to connect to CGNL's distribution system at which time such distribution system will have an alternate supply of gas.

Interruption of gas service to the City of Nuevo Laredo could have serious implications to life and property. CGNL has filed a complaint pursuant to Section 1.6 of the Commission's rules of practice and procedure which section provides time for Entex, Inc. to answer and for the Commission to evaluate both the complaint and answer before taking appropriate action. In light of the serious consequences which could result from interruption of service and this Commission's public interest mandate under the Natural Gas Act, we hereby order Entex, Inc. to continue to export natural gas to the City of Nuevo Laredo, pending our evaluation of the aforementioned complaint.

The Commission hereby instructs the General Counsel of the Federal Power Commission to institute legal proceedings in the Federal District Court for the District of Columbia in the event Entex, Inc. fails to conform to the directives of this order.

The Commission finds: The Commission finds that maintenance of service to CGNL pending evaluation of the complaint is not consistent with the public interest and that an order requiring Entex, Inc., to continue export service is necessary and appropriate to carry out the provision of this act.

The Commission orders: Entex, Inc., is directed to continue exporting as to CGNL pursuant to the authorization in Docket No. G-103 pending further order of this Commission.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22269 Filed 7-30-76;8:45 am]

[Docket No. RP76-97]

GULF ENERGY & DEVELOPMENT CORP.

Pipeline Rates; Order for Rehearing

JULY 23, 1976.

On June 25, 1976, Gulf Energy & Development Corporation (Gulf) filed an application for rehearing of the Commission's order issued in this docket on May 27, 1976. The Commission's order suspended for the maximum 5 month period Gulf's proposed rate increase herein and set the matter for hearing. In its application for rehearing Gulf requests the suspension period be reduced to not more than one day.

In support of its request for a reduction of the suspension period, Gulf alleges that under its presently effective rates, it will experience during the test period a negative rate of return of 11.21 percent and a negative rate of return on equity capital of 58.10 percent. Gulf further argues that the volume of deliveries made to its customer, Tennessee Gas Pipeline Company, is declining at a substantially faster rate than anticipated and as reflected in its filing in this docket.

The Commission is unable to accept the allegations of potential negative earnings contained in Gulf's application. Nevertheless, based upon a comparison of Gulf's actual costs and revenues for calendar year 1975, as contained in Gulf's initial filing herein, it appears that in 1975 Gulf earned less than one-half the 14.41 percent rate of return allowed by the Commission in Gulf's prior rate case in Docket No. RP74-86. It further appears in light of Gulf's declining deliveries that 1976 earnings under its existing rates would be deficient to an even greater extent.

Based upon a further review of the record in this proceeding, including the representations made in Gulf's application for rehearing and the actual 1975 cost and revenue comparisons cited above, the Commission finds that Gulf's application for rehearing is meritorious and should be granted to the extent herein permitted. Accordingly, the five-month suspension previously established is modified herein to permit the rate increase to become effective on the date of issuance of this order, July 21, 1976.

The Commissions finds: It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Gulf's application for rehearing be granted in part as permitted herein.

The Commission orders: (A) Gulf's application for rehearing is granted to reduce the five months' suspension period previously established by the Commission's order of May 27, 1976.

(B) Gulf's proposed rate increase is hereby permitted to become effective, following suspension, as of July 21, 1976, subject to refund.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-795]

GULF STATES UTILITIES CO.

Filing of Agreement

JULY 27, 1976.

Take notice that on July 19, 1976, Gulf States Utilities Company (Gulf States) tendered for filing an agreement for wholesale service between it and the City of College Station, Texas.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervent. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22341 Filed 7-30-76;8:45 am]

[Docket No. E-9309]

INTERSTATE POWER CO.

Application

JULY 23, 1976.

Take notice that on July 19, 1976, Interstate Power Company (Applicant) filed its third supplemental application with the Commission seeking an order pursuant to Section 204 of the Federal Power Act for additional authorization authorizing an extension of authorization previously granted by the Commission in this Docket to authorize issuance of short-term promissory notes to lending banks and/or commercial paper, not to exceed an aggregate of $40 million outstanding at any one time, said short-term promissory notes to be issued on or before December 31, 1978 and to mature not later than December 31, 1979, and said commercial paper to be issued with not to exceed nine-month maturities and to mature on or before December 31, 1979.

Applicant is incorporated under the laws of the State of Delaware, with its principal business office in Dubuque, Iowa and is engaged principally in the electric utility business in northern and northeastern Iowa, in southern Minnesota and a few small communities in Illinois.

Applicant states that the requested additional authorization will provide additional funds for its 1976-78 construction expenditures estimated to be $143,700,000, and will enable it to maintain cash working funds at normal levels.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C., 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application, as supplemented, is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22271 Filed 7-30-76;8:45 am]

[Docket No. CI74-319]

JAMES M. FORGOTSON, OPERATOR GULF COAST VENTURE

Order Denying in Part Application for Rehearing and Setting Matter for Hearing

JULY 23, 1976.

On May 26, 1976, the Commission issued an Order Adopting Initial Decision in this docket. That order denied Forgotson's application for abandonment pursuant to Section 7(b) of the Natural Gas Act. On June 25, 1976, Forgotson filed an Application for Rehearing and Submittal of Proposed Resolution on the Merits. In that application Forgotson challenges our determination that our order after statutory hearing in *O. G. McClain*, Docket Nos. CI73-452, is not controlling.

In making that determination we stated: "In [the McClain] proceeding there was evidence that the subject wells were not producing gas nor were they capable of such production." That is clearly distinguishable from the present circumstances where Forgotson's estimate that the reserves in the subject acreage may be as high as 1 Bcf.[1] In light of Forgotson's desire to rework the subject wells if abandonment were granted, the applicable test is set out in our Opinion No. 710, issued November 8, 1974. In that Opinion we quoted with approval language of the Court of Appeals for the District of Columbia Circuit:

"If [the applicant] wants to abandon service because it must now share that market, or because it prefers to use that gas for more profitable unregulated sales, or because it wants to be rid of what it considers a vexatious servitude, these are not reasons for granting his request. Abandonment may be allowed only if the "public convenience or necessity permit."[2]

The law requires that "the available supply of natural gas [be] depleted to the extent that the continuance of service is unwarranted, or that the present or future public convience and necessity permits such abandonment." Clearly, the public convenience and necessity will not be served by abandoning the potential recovery of up to 1 Bcf of natural gas for the interstate market. Accordingly, we will deny Forgotson's application for rehearing.

In the application for rehearing, however Forgotson set forth certain data related to estimated cost and estimated reserves supporting an application for special relief. His calculations show a unit cost of $1.72 per Mcf based upon his assumptions. His data are, however, inconclusive. Forgotson requests that the Commission give consideration to his various submittals filed when seeking special relief before. Insufficient data are available in our files to determine the merits of his present request. We will therefore order that a hearing be held before an Administrative Law Judge at which time Forgotson may present all of his supporting cost data as well as his reserve data which will allow this Commission to reach a determination of a just and reasonable rate for Forgotson's gas.

[1] Application at 4.

[2] Mimeo at 4.

The Commission finds: (1) The application for rehearing on Forgotson's abandonment application raises no new issues of law which were not considered by us prior to issuing our order of May 26, 1976.

(2) The application for rehearing on Forgotson's abandonment application should be denied in part.

(3) The cost and reserve data submitted by Forgotson in his application for special relief are insufficient for us to establish a just and reasonable rate.

The Commission orders: (A) That portion of the applicant's application for Rehearing and Submittal of Proposed Resolution on the Merits which seeks rehearing solely on his abandonment application is hereby denied.

(B) Pursuant to the authority of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I) an initial conference shall be held on August 31, 1976 at 10 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose [See the delegation of authority, 18 CFR, 3.5 (d)] shall preside at the initial conference in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(D) Within 20 days of the date of this order, Forgotson shall file its direct testimony and current cost and reserve evidence in support of its application. Forgotson's testimony and evidence filed herein shall be served upon the Presiding Administrative Law Judge, Commission Staff, and all other parties to the proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-442]

MISSISSIPPI RIVER TRANSMISSION CORP.

Application

JULY 22, 1976.

Take notice that on July 15, 1976, Mississippi River Transmission Corporation (Applicant), P.O. Box 14521, St. Louis, Missouri 63178, filed in Docket No. CP 76-442 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon nat-

V 41 149 AUG 2 76 UMI

ural gas service and metering facilities used therefor to Mobil Oil Corporation (Mobil) at its refinery in East St. Louis, Illinois, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that Mobil has closed its refinery and has cancelled the gas purchase contract. Deliveries of natural gas are said to have terminated on May 10, 1971, under a contract which provided for up to 300 Mcf of gas per day.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 17, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-443]

MISSISSIPPI RIVER TRANSMISSION CORP.

Application

JULY 22, 1976.

Take notice that on July 15, 1976, Mississippi River Transmission Corporation (Applicant), P.O. Box 14521, St. Louis, Missouri 63178, filed in Docket No. CP 76-443 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas service and metering facilities used therefor to Walworth Company (Walworth) at its manufacturing plant in East St. Louis, Illinois, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that Walworth has closed its plant and has cancelled the gas purchase contract. Deliveries are said to have terminated on May 1, 1974, under a contract which provided for up to 350 Mcf of gas per day.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 18, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-444]

MISSISSIPPI RIVER TRANSMISSION CORP.

Application

JULY 23, 1976.

Take notice that on July 15, 1976, Mississippi River Transmission Corporation (Applicant), P.O. Box 14521, St. Louis, Missouri 63178, filed in Docket No. CP76-444 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing October 8, 1976, and operation of facilities to take into its certificated pipeline system natural gas supplies to be purchased from independent producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in connecting the facilities of an independent producer or other similar seller, authorized by the Commission to sell natural gas for resale in interstate commerce, with the facilities of Applicant or of another natural gas company authorized to transport gas for the account of or to exchange gas with Applicant.

The application states that the total cost of the proposed facilities would not exceed $1,000,000 and that the cost of any single project would not $250,000. The facilities would be financed with available funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 17, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-445]

MISSISSIPPI RIVER TRANSMISSION CORP.

Application

JULY 22, 1976.

Take notice that on July 15, 1976, Mississippi River Transmission Corporation (Applicant), P.O. Box 14521, St. Louis, Missouri 63178, filed in Docket No. CP76-445 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas service and metering facilities therefor to St. Louis Car Division, General Steel Industries, Inc. (Car Division), at its St. Louis, Missouri, manufacturing plant, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that Car Division has abandoned its operations at this location and has sold its plant, that the property has been restructured as an industrial park, and that the various tenants of the industrial park receive natural gas service from a distributor customer of Applicant. Deliveries are said to have been discontinued on December 13, 1974, under a contract which provided for up to 2,500 Mcf of gas per day.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP76-446]

MISSISSIPPI RIVER TRANSMISSION CORP.

Application

JULY 23, 1976.

Take notice that on July 16, 1976, Mississippi River Transmission Corporation (Applicant), P.O. Box 14521, St. Louis, Missouri 63178, filed in Docket No. CP76-446 an application pursuant to Section 7 of the Natural Gas Act and Section 157.7 (g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the bandonment, for the 12-month period commencing August 16, 1976, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment would not exceed $1,000,000 and that the cost of any single project would not exceed $250,000. These costs would be financed with available funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10), and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22281 Filed 7-30-76;8:45 am]

MITCHELL ENERGY CORP. ET AL.

[Docket No. CI76-679]

Complaint and Request for Order to Show Cause

JULY 23, 1976.

Pursuant to Section 1.6 of the Commission's Rules of Practice and Procedure, on July 7, 1976, Mitchell Energy Corporation (Mitchell), 3900 One Shell Plaza, Houston, Texas, filed a complaint and a request for an order to show cause directed against Mr. C. C. (Charles) McClure, Jr., 1011 West Belknap, Jacksboro, Texas, and Mr. Robert S. McClure, 108 South Seventh Street, Jacksboro, Texas, avering that the McClures (Defendants) are attempting to cause Mitchell to unlawfully divert natural gas dedicated to the interstate market from that market and to cause Mitchell to partially abandon natural gas service now being made through jurisdictional facilities in contravention of Section 7(b) of the Natural Gas Act.

Mitchell asserts that it is the intent of Defendants to divert dedicated reserves from the interstate market without seeking approval from the Commission under Section 7(b). Mitchell therefore requests the Commission issue an order to show cause or to take such other action as may be necessary to prevent a violation of Section 7(b).

The facts, as presented by Mitchell in its filing of July 7, 1976, are as follows:

Mitchell is the operator of the Emma McClure Well No. 1 located on the Emma McClure Gas Unit No. 1 as described in that certain Declaration of Pool filed in the Deed Records of Jack County, Texas, at Volume 248, Page 97. All the natural gas production from this well has been and continues to be delivered through facilities operated by Mitchell and sold to Natural Gas Pipeline Company of America pursuant to Mitchell's FPC Rate Schedule No. 19.

The Messrs. McClure are successors in interest to one of the Mitchell entities' original lessor under an oil gas and mineral lease dated June 18, 1955, between Emma McClure, as lessor and

V 41 149 AUG 2 76 UMI

Christie M. Mitchell and Mitchell Company, as lessee, recorded at Volume 202, at Page 42 of the Deed Records of Jack County, Texas, and to an oil gas and mineral lease dated April 28, 1970, between Emma McClure, lessor, and Christie Mitchell and Mitchell, a partnership as lessee, recorded in Volume 247, at Page 1 of the Deed Records of Jack County, Texas. Parts of the aforementioned leases form the unit on which the Emma McClure Well No. 1 is located.

On May 14, 1976, the Messrs. McClure filed suit against Mitchell and others in the District Court for the 235th Judicial District of the State of Texas (Cause Number 6316) alleging that Mitchell had no right to continue the sales of natural gas from these wells and demanding that Mitchell relinquish all rights in and to these leases. On June 7, 1976, Mitchell filed a petition to remove this cause of action to the Federal District for the Fort Worth Division of the Northern District of the State of Texas. In that petition, Mitchell specifically alleged that this matter is within the primary jurisdiction of the Federal Power Commission as the granting of the relief sought by the McClures' petition would result in the unauthorized abandonment of jurisdictional service and the loss of natural gas now flowing to the interstate consumer without any determination by this Commission pursuant to Section 7(b) of the Act that such a cessation of service is required by the public convenience and necessity. On June 8, 1976, the Messrs. McClure filed a Motion to Remand denying the Commission's jurisdiction and stating "there is no federal question in this controversy."

Any person desiring to be heard or to make any protest with reference to said complaint and/or request for an order to show cause should on/or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22273 Filed 7-30-76;8:45 am]

[Docket No. CP73-262]

NATURAL GAS PIPELINE CO. OF AMERICA

Petition To Amend

JULY 22, 1976.

Take notice that on June 30, 1976, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-262 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests that the authorization in the instant docket be conformed to the facilities actually installed by Petitioner, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that in the instant docket it is authorized to construct and operate approximately 71.56 miles of 30-inch loop pipeline in Liberty and Jefferson Counties, Texas, and Cameron Parish, Louisiana, 8,000 brake horsepower of compression at Petitioner's compressor station No. 343, and other appurtenant facilities to expand Petitioner's Louisiana supply pipeline to permit the transportation of further increases in supply from onshore and offshore Louisiana areas. It is stated that subsequent to the filing of the certificate application in the instant docket, two compressor units consisting of a 3,000 bph and a 4,000 bhp unit became available as a result of the abandonment permitted and approved in Docket No. CP73-106 and that since the two units were surplus to Petitioner's needs at the time of abandonment, Petitioner determined that it would be advantageous to utilize the surplus units at compressor station No. 343.

The petition to amend states that Petitioner estimates an overall savings of approximately $600,000 in capital requirements with a material reduction in the cash requirements for work at compressor station No. 343 as a result of using the surplus compressor units. Further, it is stated, the units are of the same manufacturer and model as two other units presently installed and will thus permit savings in maintenance costs and spare parts inventory.

Petitioner states further that although it initially proposed to install 8,000 bhp of compression, the reduction to 7,000 bhp will not affect the operation of Petitioner's Louisiana pipeline because Petitioner estimated that it would have had an initial 1,280 horsepower surplus to its first year compression requirements and, based upon actual compressor operating performance curves, Petitioner will still have available 936 horsepower surplus to its first year compression needs. Petitioner also attributes the installation of 0.35 mile of pipeline looping at compressor station No. 343, over that initially estimated, as contributing to a lower horsepower requirement at the station.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 18, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22282 Filed 7-30-76;8:45 am]

[Docket No. CP76-447]

NATURAL GAS PIPELINE CO. OF AMERICA

Application

JULY 23, 1976.

Take notice that on July 19, 1976, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP76-447 an application pursuant to Section 7 of the Natural Gas Act and Section 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the abandonment, during the 12-month period commencing October 1, 1976, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable disatch in the construction and abandonment of facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment would not exceed $3,000,000 and that the cost of any single project would not exceed $500,000. These costs would be financed with funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 16, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71-125 (PGA76-8)]

NATURAL GAS PIPELINE CO. OF AMERICA

Purchased Gas Cost Adjustment to Rates and Charges

JULY 26, 1976.

Take notice that on July 16, 1976, Natural Gas Pipeline Company of America (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume, No. 1, the below listed tariff sheets, to be effective September 1, 1976:

Substitute Twenty-ninth Revised Sheet No. 5
Substitute Fourth Revised Sheet No. 5A

Natural states purpose of the filing is to track producer and pipeline supplier price changes and recover the accumulated deferred purchased gas costs as of May 31, 1976, through unit rate adjustments computed in accordance with Natural's revised PGA tariff provisions submitted to the Commission on July 14, 1976, in compliance with Opinion No. 762 issued May 21, 1976 at Docket No. RP74-96.

One of the conditions of Opinion No. 762 required that Natural change the effective date of its semi-annual PGA trackers from June 1 and December 1, to March 1 and September 1. Pending the Commission's acknowledgement of Natural's compliance filing submitted on July 14, 1976, it requested that the Commission's Regulations be waived to the extent necessary to permit the unit rate adjustment to become effective September 1, 1976.

Copies of this filing were mailed to Natural's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22334 Filed 7-30-76;8:45 am]

[Project No. 2291]

NEKOOSA PAPERS INC.

Application for Amendment of License

JULY 27, 1976.

Public notice is hereby given that an application was filed on May 19, 1976, by Nekoosa Papers Inc. (Correspondence to: Mr. Robert R. Johnson, Secretary, Nekoosa Papers, Inc., Wisconsin River Drive, Port Edwards, Wisconsin 54469) for an amendment of the license for the Port Edwards Project, FPC No. 2291, to reflect certain proposed changes in the generating facilities at the project. The Port Edwards Project is located near the Village of Port Edwards in Wood County, Wisconsin, on the Wisconsin River, a navigable waterway of the United States.

Applicant requests Commission authorization to make improvements on the existing hydroelecetric generating plant at the project, which contains four generating units with a combined installed capacity of 2,920 kW. Specifically, Applicant proposes to remove an existing 710 hp "S Morgan Smith" turbine from Flume No. 2 and rebuild and refurbish this unit to a capacity of 950 hp. This rebuilt turbine would be installed in Flume No. 6 and attached to generating Unit No. 5, which has a capacity of 670 kW. The installed capacity of the project following this work would be 3,590 kW. Applicant states that the construction would involve neither major structural work nor earth work of any kind.

Any person desiring to be heard or to make any protest with reference to said application should, on or before September 15, 1976, file with the Federal Power Commission, 825 N. Capitol St. NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 C.F.R. § 1.8 or § 1.10 (1975). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act, 16 U.S.C. § 825g and § 825h, and the Commission's Rules of Practice and Procedure, specifically Section 1.32 (b), 18 C.F.R. § 1.32(b) (1975), a hearing on this application may be held before the Commission without further notice if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein and if Applicant requests that the shortened procedure of Section 1.32(b) be used. If an issue of substance is so raised or Applicant fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or be represented at the hearing before the Commission.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-780]

NEVADA POWER CO.

Interconnection Agreement

JULY 23, 1976.

Take notice that on July 12, 1976, Nevada Power Company (Nevada) tendered for filing an Interconnection Agreement between it and the City of Pasadena (Pasadena) dated July 1, 1976. Nevada states the primary purpose of this Interconnection Agreement is to provide for the exchange of generating capacity and energy between the electric systems of the parties.

Nevada states that services may be provided under three Service Schedules:

1. Service schedule A—Emergency Assistance.
2. Service schedule B—Economy energy interchange.
3. Service schedule C—Banked energy.

Nevada requests an effective date of July 1, 1976, for this Agreement with an initial term of one year.

Nevada states that copies of this filing were served upon Nevada's jurisdictional customer, the California-Pacific Utilities Company, and upon the Public Service Commission of Nevada and the Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any

[Docket Nos. RP74-75 and RP75-89]

NORTHERN NATURAL GAS CO.

Pipeline Rates: Order Approving Stipulation; Agreement; Granting Consolidation

JULY 27, 1976.

The Presiding Administrative Law Judge certified to the Commission on February 6, 1976, the case record in the above-captioned proceeding. Northern Natural Gas Company (Northern) filed on February 23, 1976, a Petition to Reopen the Record for the purpose of placing the proposed stipulation and agreement into the record. The agreement filed on February 23, 1976, provides for settlement of the issues in this case on the basis of a modified cost of service treatment for Northern's "new gas production"[1] and results in approximately $8.3 million in refunds for certain locked-in periods. The Commission will approve the proposed stipulation and agreement for the reasons hereinafter stated.

The issue involved in this proceeding is "whether or not Northern has shown the requisite 'special circumstances' under Opinion No. 568 in order to receive cost of service treatment for expenditures relating" to its new gas production. (See Commission order issued January 4, 1974 in Docket Nos. RP71-107 (Phase II) and RP72-127). As the result of subsequent Commission orders, the new gas production issue was placed in Docket No. RP74-75 which covered locked-in periods from November 14, 1971, through October 26, 1975.[2] The record in this proceeding consists of the presentation and cross-examination of evidence by Northern and the Staff. Concurrently with the hearing, settlement discussions were held which resulted in the agreement now before the Commission. Summary of the essential sections of settlement follow:

Section I permits Northern to reflect in its rates a modified cost of service which prices Northern's new gas production on the basis of 75% of cost of service and 25% on average area/national rates. This section provides for adjustment to be made in Northern's cost of service as the Commission changes the area/national rates. Northern's ability to reflect the modified cost of service in its rates is limited to a ceiling based upon the unit cost of alternative fuels.

The cost of service for Northern's exploration program is defined in Section II. This section along with Section IV of the proposed agreement provides for the capitalization and amortization of unsuccessful exploration and development costs on the basis of the unit-of-production method. Northern will use the Commission's Uniform System of Accounts to record and account for its expenditures under this program. Tax normalization procedures will be followed in recording income taxes applicable to transactions creating timing differences for tax purposes.

The jurisdictional refunds for the locked-in periods of Docket No. RP74-75 from November 14, 1971 through October 26, 1975 amount to approximately $8.3 million based on the difference between Northern filed rates and the rates reached in this settlement. Under Section VI of the proposed agreement, this amount will be refunded along with 7% simple annual interest, equalling $8,321,126 for the locked-in periods, as a credit in Northern's next PGA filing following a final and nonappealable Commission approval of the agreement.

The Commission notes that Section IV of the proposed agreement provides for disposition of the new gas production issue in Docket No. RP75-89. This Section will be treated as a request for consolidation of this issue in both the referenced dockets. The Commission believes that consolidation is in the public interest because similar questions of fact and law on the new gas production issue are raised in both cases.

Section IV provides that the exploration program to be included provisionally in Docket No. RP75-89 will be approximately $5 million as developed on the basis of 75% cost of service and 25% average area/national rate and on use of the unit-of-production methodology. This provisional amount is subject to further modification for changes in Docket No. RP75-89 relating to items not covered by this settlement, e.g., determination of the proper rate of return and level of income taxes.

Section VII provides that none of the provisions become effective unless the Commission approves all the terms and conditions; Docket No. RP74-75 is terminated; and, the Commission order is final and nonappealable. Northern requests that the Commission "grant waivers and special permission . . . necessary to effectuate all the provisions of this Stipulation and Agreement." The two remaining provisions, Section VI and VIII, states that Northern's obligations in other agreements are neither diminished or enlarged by this agreement and that no party waives any claim or right to matters which are not provided for expressly in the proposed agreement.

The Commission's review of the proposed agreement leads to the conclusion that it reflects a just and reasonable resolution of the issues in this proceeding. The Commission notes that the agreement provides for the payment of 7% annual simple interest for the refunded amounts. The Circuit Court of Appeals for the District of Columbia decided in *American Public Gas Association. et al.* v. *FPC*, No. 75-1104 (May 19, 1976) that the 9% interest rate, made applicable by Order No. 513, Docket No. RP74-18 (issued December 10, 1974), should be applied to all excess amounts collected after October 9, 1974. Accordingly, Northern will be required to refund the approximately $8.3 million amount under this agreement with interest computed at a rate of 7% for the period prior to October 10, 1974 and at a rate of 9% for the period on and after October 10, 1974. This follows the Court's decision, and the Commission belief that it is in the public interest to allow the customers to receive the benefits of the interest rates which this Commission has held to be applicable for the periods involved.

The Commission finds: (1) Good cause exists to consolidate the issue of new gas production in Docket No. RP75-89 with Docket No. RP74-75.

(2) Good cause exists to accept and approve the proposed stipulation and agreement, as modified to provide 9% interest on the refunds for the period commencing October 10, 1974.

The Commission orders: (A) The issue of cost of service treatment for new gas production in Docket No. RP75-89 is hereby consolidated with Docket No. RP74-75 for purposes of decision.

(B) The stipulation and agreement offered as part of the certified record in this proceeding and, incorporated herein by reference, is hereby accepted and approved.

(C) In accordance with the decision in *American Public Gas Association, et al.* v. *FPC, supra*, Northern is ordered to pay 9% interest on the refunds resulting from the operation of the proposed agreements for the period commencing October 10, 1974.

(D) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, the Staff or any other party or person affected by this order in any proceeding now pending or hereinafter instituted by or against Northern or any other person or party.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22343 Filed 7-30-76;8:45 am]

[1] Northern's new gas production consists of Northern's production from (1) wells on leases acquired on or after October 7, 1969 and (2) wells commenced on or after January 1, 1973 on leases acquired prior to October 7, 1969, but excludes its $30.0 million program being conducted in the Permian-Rocky Mountain area under the settlement in Docket No. RP70-43 and a program now underway in Webb and Zapata Counties, Texas.

[2] The locked-in periods involved are:
(a) Docket No. RP71-107 (Phase II)—November 14, 1971 to December 2, 1972;
(b) Docket No. RP72-127—December 3, 1972 to October 26, 1974;
(c) Docket No. RP74-80—October 27, 1974 to October 26, 1975;
The new gas production issue in Docket No. RP74-80 was consolidated with Docket No. RP74-75 by Commission order issued February 13, 1975.

[Docket No. ER76-787]

PACIFIC POWER & LIGHT CO.

Filing of Amended Rate Schedule

JULY 26, 1976.

Take notice that Pacific Power & Light Company (Pacific) on July 15, 1976, tendered for filing, in accordance with Section 35.13 of the Commission's Regulations, Amendment #1 to Pacific's Rate Schedule FPC No. 35 for electric transmission service to the United States of America.

The amended rate schedule provides for an increase in the level of service to the United States Department of the Interior, Bureau of Reclamation, Columbia Basin Project in the State of Washington. Under the Amendment Pacific agrees to transfer additional electric energy to the project sufficient to serve an additional 100 horsepower pump motor. There is no change in the rate charged for service by the amendment, but the maximum charge limitation in the original agreement is removed.

Pacific requests waiver of the Commission's notice requirements to permit the rate schedule to become effective June 17, 1976, which it claims is the date of commencement of power sales under the rate schedule.

A copy of this filing has been supplied to the Washington Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-788]

POTOMAC EDISON CO.

Tariff Change

JULY 26, 1976.

Take notice that The Potomac Edison Company, on July 15, 1976, tendered for filing a proposed Electric Service Agreement for application to Potomac Edison's service to the Borough of Chambersburg, Pennsylvania. The proposed Electric Service Agreement cancels and supersedes the Service Agreement between the Company and the Borough dated January 31, 1966. The changes proposed would produce an estimated overall increase in revenues from jurisdictional sales and service of approximately $333,352, based on the twelve-month period ending July 31, 1976. The proposed effective date for the increased rates is August 15, 1976.

The proposed rate is identifical to that presently on file and in effect, subject to refund, in Schedule WS-HV of FPC Electric Tariff First Revised Volume No. 1 of the Company.

Copies of the proposed Electric Service Agreement were served upon the Borough of Chambersburg.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. R-393]

SMALL PRODUCER REGULATION

Opinion No. 742-A; Order Denying Rehearing and Reconsideration

JULY 27, 1976.

SMITH, Commissioner:

On August 28, 1975, the Commission issued Opinion No. 742 fixing small producer rates at 130% of the base ceiling rate for a comparable large producer sale. The Commission found that small producers incur greater costs than large producers and, therefore, should be accorded a higher rate of return.[1] Thus, the Commission applied a 20%, as compared to a 15%, rate of return to the Opinion No. 699-H[2] DCF analysis, and found that small producers should be allowed an increment of 30% over the nationwide or other base rate.

Although Opinion No. 742, for the most part, re-established direct regulation of small producer rates, any rate in excess of the 130% factor is to be indirectly regulated through a review of purchased gas costs in a pipeline rate proceeding. Simultaneous with the issuance of Opinion No. 742, the Commission, in Docket No. RM76-5, issued a Notice of Proposed Rulemaking wherein it proposed to prospectively reduce the rates of small producer sales to the 130% ceiling prescribed by Opinion No. 742.

Numerous applications for rehearing of Opinion No. 742 have been filed.[3] These applications raise the following issues.

The small producers (Yingling, Dougherty, Abercrombie) assert that the 20% rate of return is wholly inadequate. In support of this argument, the small producers assert that the overriding royalty that is paid by a small producer to a large producer in return for a farmout is frequently 12.5% or greater, thereby greatly reducing the 20% rate of return allowed by the Commission in Opinion No. 742. The small producers further argue that the 20% rate of return allowed does not offset the disadvantage to the small producers of the Commission's use of an average cost methodology because such methodology balances out costs experienced in both large and small fields of production, but small producers normally operate in the small fields with higher unit costs. The small producers also attack the average cost methodology asserting that they tend to experience costs at today's rate, not at an historical level.

Finally, the small producers argue that it is inequitable to require a pipeline to justify a purchase above the 130% level, since this requires cost justification.

The large producers (Shell, Union, Texaco, and Phillips) attack Opinion No. 742 on numerous grounds. They first assert that there is no record evidence to support the following findings made by the Commission (Opinion No. 742 at 3-5): (1) the lower productivity factor for small producers *vis a vis* large producers; (2) small producers drill more dry holes than large producers; (3) small producers account for less condensate than large producers, resulting in a lower

[1] As the Commission found in Opinion No. 742, these higher costs are partially the result of (1) less productivity, (2) a higher ratio of dry holes, (3) the production of less condensate, (4) the prominence of farmout arangements, (5) the high percentage of exploratory and wildcat drilling, and (6) a relative weaker credit standing.

[2] Opinion Nos. 699 *et seq.*, affirmed *sub nom., National Rate Cases For New Gas (Shell Oil Co.* v. *F.P.C.)*, 520 F.2d 1061 (5th Cir., 1975), *cert. denied sub nom., The California Co., et al.* v. *F.P.C.*, ____ *U.S.L.W.* ____ (Docket No. 75-1289, June 14, 1976).

[3] Applications for rehearing were filed by Shell Oil Company (Shell) on September 23, 1975; Northern Natural Gas Company (Northern) on September 25, 1975; Union Oil Company of California (Union) on September 25, 1975; Texaco Inc. (Texaco) on September 26, 1975; Phillips Petroleum Company (Phillips) on September 29, 1975; Interstate Natural Gas Association of America (INGAA) on September 29, 1975; Consolidated Gas Supply Corporation (Consolidated) on September 29, 1975; United Gas Pipe Line Company (United) on September 29, 1975; American Public Gas Association (APGA) on September 26, 1975; Dudley T. Dougherty, *et al.* (Dougherty) on September 29, 1975; J. S. Abercrombie Mineral Company, Bruce Anderson, Cotton Petroleum Corporation, Coquina Oil Corporation, C&K Petroleum, Inc., and Texasgulf, Inc. (Abercrombie) on September 29, 1975; and Yingling Oil, Inc. (Yingling) on October 28, 1975. The application of Yingling, having been filed outside the time limits prescribed by Section 19(a) of the Natural Gas Act, 15 U.S.C. 717R (a), will be treated as a motion for reconsideration.

V 41 1149 AUG 2 76 UMI

net liquid credit; (4) the prominence of farmout arrangements in the small producer segment of the industry which supports a higher royalty alowance; (5) the weaker credit standing of small producers; and (6) the fact that the capital structure of small producers results in higher debt costs to these producers than large producers. The large producers conclude that, without this record support, the Commission's conclusions regarding the higher operating risks and costs incurred by small producers, which justify allowance of a 20% rate of return, are erroneous.

The large producers also contend that the 130% rate differential unduly discriminates against large producers in violation of Section 4(b) of the Natural Gas Act and grants an undue preference to small producers in violation of Sections 4 and 5 of the Natural Gas Act. They further assert that the Commission erred in failing to justify the 10 Bcf per year differential between small and large producers.

The large producers also speculate that the 130% differential may cause royalty owners to assert that the small producer rate is the interstate price upon which royalties must be paid. Finally, the large producers argue that the Commission erred in not setting a formal hearing in this matter.

APGA contests the validity of Opinion No. 742 for essentially the same reasons as the large producers but raises two additional arguments. First, APGA argues that the opinion is deficient because it fails to discuss the impact that the 130% rate will have on interstate consumers. APGA also asserts the Commission erred in refusing to order refunds by small producers for sales made pursuant to Order No. 428 *et seq.*[4] above the just and reasonable level, *i.e.* the applicable area rate.

INGAA, Consolidated and Northern claim that the Commission erred in establishing a rate for small producers below the prevailing unregulated intrastate prices. INGAA and Consolidated also contend that the six factors to be used in determining the "justness and reasonableness of a rate in excess of the 130% standard are too vague to provide for meaningful indirect regulation. They further assert that these standards should not be applied retroactively to contracts executed prior to the issuance of Opinion No. 742. Northern, on the other hand, contends that having determined the "just and reasonable" rate for small producers to be 130% of the applicable area ceiling base rate, the Commission cannot lawfully permit collection of rates in excess thereof. Finally, INGAA, Northern and Consolidated argue that the institution of the proposed rulemaking in Docket No. RM76–5 was erroneous and totally unnecessary.

Phillips contends the Commission erred in failing to amend Section 157.40 (a) of its Regulations, 18 C.F.R. 157.40 (a) (1976), to allow resales of small producer gas under percentage purchases at the 130% rate level plus any reasonable increments.

United raises essentially the same issues as INGAA, *et al.*, with one addition. United asserts that its gas purchase contracts with small producers provide that the small producer is entitled to collect the "applicable area rate", which is defined as a rate "generally applicable to gas produced from an area". United contends that "since the Commission (in Opinion No. 742) did not determine a rate that is 'generally applicable,' it is not clear whether the Commission can lawfully permit a small producer to charge a rate 30% in excess of its entitlement under the contract area rate provision without violating the *Sierra* doctrine."

In response to the evidentiary arguments advanced by both the small and large producers, the Commission notes that the various factors used by the Commission in reaching its determination to allow small producers a 20% rate of return were discussed in detail in Opinion No. 742. Therein the Commission explicitly recognized that the record did not provide the most comprehensive statistical cost analysis[5], but that record did provide ample evidence to support a 20% rate of return. This conclusion was based on the increased risks inherent in small producer ventures and the higher costs incurred by this group of producers, and the record, as demonstrated below, fully supports the end result reached by the Commission.

In Opinion No. 699 *et seq.*, the Commission used a productivity range of 485 Mcf per foot to 552 Mcf per foot in calculating the cost of new gas supplies.[6] The comments filed by the parties in the instant proceeding indicates a much lower productivity level for small producers.

For example, the comments of Jerome P. McHugh and Associates and Consolidated Oil and Gas, Inc.[7] show that in 1974 McHugh's productivity per foot drilled was 241 Mcf per foot. The Response of Dudley T. Dougherty, *et al.* and W. B. Osborn, Operator,[8] indicates that Osborn's average productivity for the period 1960 through 1973 equaled 402 Mcf per foot drilled. Moreover, as the Commission noted in its initial opinion, small producers operate primarily onshore, and as the evidence indicates, the average onshore productivity is much lower than in offshore areas.[9] This supports adopting a lower productivity factor in establishing the "just and reasonable" rate for small producers in line with the four year productivity factor (1969–1972) of 336 Mcf per foot as set forth in Appendix C of Opinion No. 699.[10]

The comments filed also demonstrate that small producers are responsible for a majority of the exploratory and wildcat drilling in the U.S. In 1973, small producers accounted for over 76% of all exploratory well successes.[11] The Comments of the Office of Governor, State of Texas, indicate that in 1973 small producers accounted for 57% of the new gas discoveries in that State, and this figure rose to over 59% for the first nine months of 1974.[12] Available statistics indicate that in 1974, small producers drilled 76% of all wells in the U.S.[13]

These statistics bear directly on the ratio of allocated dry hole footage to successful gas well footage for small producers. The ratio for the industry as a whole is 1:1, and the ratio is obviously much higher for those producers responsible for a majority of all exploratory drilling that takes place. Accordingly, it becomes impossible not to assume that the dry hole drilling cost for small producers is higher than that allocated in the Opinion No. 699 series, and this coupled with a lower productivity factor means that the 3.72¢ per Mcf cost component in the Opinion No. 699 series

[4] See Order No. 428, 45 FPC 454 (1971); Order No. 428–A, 45 FPC 548 (1971); Order No. 428–B, 46 FPC 47 (1971). Order Nos. 428 *et seq.* were set aside in *Texaco Inc. et al.* v. *F.P.C.* 474 F.2d 416 (D.C. Cir. 1972); reversed and remanded in *F.P.C.* v. *Texaco Inc. et al.*, 417 U.S. 380 (1974).

[5] Although the evidentiary record cannot be used to support a comprehensive *independent* review of all cost components so as to establish a "just and reasonable" rate for small producers without any reliance upon the Opinion No. 699 series evidence, the record is sufficient to justify the higher rate of return allowed.

[6] The Commission relied upon a reserve additions for a ten-year period (1963–1972) to compute the low end of the reasonable cost range, and a seven-year period (1966–1972) to compute the high end of this range. The ten-year average resulted in a productivity factor of 552 Mcf per foot drilled, while the seven-year period resulted in a productivity factor of 485 Mcf per foot drilled.

[7] See Comments of Jerome P. McHugh and Associates And Consolidated Oil and Gas, Inc., On Notice Of Proposed Rulemaking, Docket No. R–393, filed October 22, 1974.

[8] See Response of Dudley T. Dougherty, *et al.* Co-Executors Of The Estate Of Mrs. James R. Dougherty And W. B. Osborn, Operator, Docket No. R–393, filed October 22, 1974.

[9] See Joint Response of Anderson Oil Company, *et al.*, Appendix A, "Average Annual Gas Well Productivity, 1974", Docket No. R–393, filed November 1, 1974.

[10] Based upon this productivity figure, the successful well cost component set forth in Opinion No. 699–H would equal 10.02¢ rather than the 6.15¢ chosen.

[11] See the Joint Response of Anderson Oil Company, *et al.*, *supra*, citing The Oil And Gas Journal, July 1, 1974, pp. 11–15, and the Comments of Anderson Oil Company, filed October 22, 1974. These Comments also note that small producers in the Appalachian area accounted for 141 out of 145 exploratory well successes.

[12] See also The Response of Dudley T. Dougherty, *et al.*, *supra*. Ironically, the State of Texas notes that despite the above statistics, only 11% of the producer sales to interstate pipelines during this period were made by small producers.

[13] See *World Oil*, February 15, 1975, "Independents Drilled 76% of 1974 Completions," p. 131. See also The Comments of Yucca Petroleum Company, filed October 21, 1974; The Comments of Panhandle Producers and Royalty Owners Association, filed October 21, 1974; The Comments of Texas Independent Producers and Royalty Owners Association, *et al.*, filed October 21, 1974.

(Op. No. 699–H, Appendix C) allocated for dry holes is wholly inadequate for small producers.[14]

Another factor which justifies a higher rate for small producers than that established in the Opinion No. 699 series is the fact that the net liquid credit for large producers is higher than what should be accorded for the small producers. The Commission has, on previous occasions, found that large producers account for an inordinately high share of industry condensate.[15] There is no evidence to indicate that this situation has changed, and we believe it is fair to presume, for purposes of this proceeding, that the large producers still account for a majority of condensate. Under this circumstance, if the Commission were to readjust each cost component in the Opinion No. 699 series in deriving the "just and reasonable" small producer rate, we would be compelled to apply a much lower net liquid credit for small producer sales, perhaps as much as a 50% reduction, as the comments on this point suggest.[16]

These factors previously enunciated in Opinion No. 742 justify a finding that the small producer segment of the industry is historically not only costlier but inherently riskier *vis a vis* large producer operations.[17] This in turn justifies a 20% rate of return for small producers.[18] This return selected by the Commission is well within the broad discretion afforded the Commission in establishing a rate structure[19] and fully supportable under the historic tests of the *Bluefield* and *Hope* decisions[20] for the "end result" of the Commission's orders is that known but unquantifiable costs and risks justify a higher rate of return for small producers. Moreover, affording the small producers this higher rate of return is the simplest and, at this time, the only available but still experimental method by which this Commission can adequately assure the small producers a "just and reasonable" rate.

We further observed in Opinion No. 742 that the higher rate of return would encourage new entrants into the production segment of the industry. Available statistics indicate that the Commission's regulatory treatment of small producers since the issuance of Order No. 428 *et seq.*, *supra*, has been a step in the right direction in this regard,[21] and our treatment of small producers herein should further this goal.[22] If we did not examine the arguments advanced by the large producers in this light, we would be derelict in our Congressionally mandated responsibility to examine the competitive effects of our regulatory actions.[23]

In response to the argument advanced by INGAA, Consolidated, and Northern that the small producer rate should equal the unregulated intrastate market rate, we note the Supreme Court's mandate in *F.P.C.* v. *Texaco*, *supra* at 397, that "* * * the prevailing price in the marketplace cannot be the final measure of 'just and reasonable' rates mandated by the Act * * *."

We also reject once again the allegations advanced by the large producers that our regulatory treatment herein constitutes undue discrimination and creates undue preferences between different segments of the industry. These matters have been settled long ago by the Supreme Court in the *Permian* and *Texaco* cases, where the Court endorsed the Commission's classification and separate regulatory treatment of small producers.

We again reject the large producers allegations that potential royalty problems may occur as a result of the rate structure herein. Such allegations are purely speculative at this time and any specific problem that arises in this regard can be remedied through the filing of a petition for special relief with the Commission.

In response to the arguments that the Commission should have set this entire matter for formal hearing, we note that the Commission's legal authority to establish rates under the Natural Gas Act by informal rulemaking, under Section 4, of the Administrative Procedure Act, 5 U.S.C. 553 (1970), has been firmly established.[24]

Phillips asserts the Commission erred in failing to amend Section 157.40(a) of its Regulations so as to permit large producers' resales of small producer gas under percentage sales agreements at the small producer rate plus a reasonable increment. Producers, large or small, are neither required nor permitted to file percentage sales contracts with this Commission.[25] The basic reason for this is that there is no need for the Commission to have on file a contract which allows a producer to collect only a percentage of a resale rate which is fully subject to Commission control. In other words, when the Commission regulates the resale rate, in effect, it also regulates the percentage rate. Consistent therewith, percentage sales by small producers[26] have never come within the provisions of small producer certificates.[27] As a result, a large producer reselling gas purchased from a small producer pursuant to a percentage sales arrangement is not entitled to file under Section 157.40(f) for such resale. No justification has been shown by Phillips either for the inclusion of sales by small producers under percentage sales contracts within the coverage of the small producer certificate or for the inclusion of resales relating thereto by the purchaser within the coverage of Section 157.40(f).[28] If Phillips

[14] The Comments of Bruce Anderson, *et al.*, filed October 22, 1974, asserted that the average dry hole foot per successful gas-well foot equals 2.86. Using the Opinion No. 699–H dry hole drilling cost of $16.69 per foot and the four year productivity factor for small producers of 336 Mcf would yield a cost component of 14.21¢ per Mcf for small producer dry hole expenditures compared to the 3.72¢ per Mcf allocated in Opinion No. 699–H.

[15] See, *e.g.*, Opinion No. 468, 34 FPC 159 (1965), *aff'd Permian Basin Area Rate Cases*, 390 U.S. 747 (1968).

[16] In Opinion No. 699, *supra*, the Commission adopted a net liquid credit of 3.89¢, noting that this figure may have been understated because of then recent increases in the prices being paid for condensate. The Comments of *Bruce Anderson, et al., supra* (p. 4, Appendix A, p. 3), calculate a net liquid credit of 2.0¢ for small producers.

[17] Perhaps the best description of the problems involved in the small producer segment of the industry is found in *Permian Basin Area Rate Cases*, 390 U.S. 747 (1969), where the Supreme Court stated (*id.* at 784–5):

[t]he difficulties of the small producers differ only in emphasis from those of the larger independent producers and the integrated producer-distributors; but these differences are not without relevant importance. Although the resources of the small producers are ordinarily more limited, their activities are characteristically financially more hazardous. It appears that they drill a disproportionately large number of exploratory wells and that these are frequently in areas in which relatively little exploration has previously occurred. Their contribution to the search for new gas reserves is therefore significant, but it is made at correspondingly greater financial risks and at higher unit costs. (Footnotes omitted.)

[18] Applying the 20% rate of return to the Opinion No. 699–H DCF analysis (aff'd *Shell Oil Co.* v. *F.P.C.*, *supra*) results in a rate of 67.67¢ per Mcf. Accordingly, the Commission determined to allow small producers 130% of the rate established by the Opinion No. 699 series.

[20] *Bluefield Waterworks and Improvement Co.* v. *Public Service Commission*, 262 U.S. 679 (1923); *F.P.C.* v. *Hope Natural Gas Co.*, 320 U.S. 591 (1944).

[21] See Appendix A, and the 1975 Annual Report of the Federal Power Commission, Table 31, p. 92.

[22] As the Supreme Court stated in *F.P.C.* v. *Texaco*, *supra* at 388:

* * * encouraging the exploration for and development of new sources of natural gas was one of the aims of the Act and one of the functions of the Commission. The performance of this role obviously involved the rate structure and implied a broad discretion for the Commission.

[23] As the Supreme Court has observed on previous occasions, the purpose of Congress is subjecting producers to rate regulation was because of the anticompetitive conditions found in the industry. See *e.g.*, *F.P.C.* v. *Texaco*, *supra*, at 398–399.

[24] See, *e.g.*, *Phillips Petroleum Co.* v. *F.P.C.*, 475 F.2d 842 (10th Cir. 1973), *cert. denied sub nom, Chevron Oil Co.* v. *F.P.C.*, 414 U.S. 1146 (1974); *Mobil Oil Corp.* v. *F.P.C.*, 483 F.2d 1238, 1250–51 (D.C. Cir. 1973); *American Public Gas Association* v. *F.P.C.*, 498 F.2d 718 (D.C. Cir. 1974); *National Rate Cases For New Gas (Shell Oil Co.* v. *F.P.C.), supra.*

[25] See Section 154.91(e) of the Commission's Regulations under the Natural Gas Act. See also Order No. 174–B, 13 FPC 1576.

[26] Opinion No. 468, 34 FPC 159, 208–212.

[27] See Order No. 308 issued October 29, 1965, 34 FPC 1202, 1205; and Order No. 428 issued March 18, 1971, 45 FPC 454, 459.

[28] There is no apparent reason why small producers should be permitted to collect the just and reasonable ceiling established in Opinion No. 742 for sales under either existing or new percentage sales contracts. The purchaser is limited to the applicable area or national ceiling rate, or its contract rate, whichever is lower for the resale of such gas, and the small producer by contract is limited to a percentage thereof. Moreover, with respect to future contracts, there are other types of gas purchase arrangements purchasers may utilize with small producer, and, of course, such purchasers by contract can protect their rights adequately with respect to the resale of such gas to a pipeline.

V 41 149 AUG 2 76 UMI

needs individual relief in this kind of situation, it may seek it pursuant to the appropriate special relief procedures.

In Opinion No. 742, the Commission stated that (p. 6): "• • • **an area rate** clause in a small producer contract does provide sufficient contractual authority for a small producer to collect a rate determined in accordance with the provisions of this order • • •" United argues that its area rate clauses do not comport with the above because area rate is defined in their contracts as a rate " 'generally applicable to gas produced from the area' as determined by the FPC." United avers that since the Commission did not determine, in Opinion No. 742, a "generally applicable" rate, small producers may not charge a rate 30% in excess of its entitlement under the area rate provisions of its contracts without a *Sierra* [29] finding. We disagree. The area rate clauses in United's contract comply with the findings in Opinion No. 742 since the Commission has established a rate "generally applicable" to a particular class of producers.

In conclusion, we reaffirm the application of a 20% rate of return to the Opinion No. 699-H DCF analysis. Accordingly, all sales of natural gas by small producers for resale in interstate commerce made in accordance with, and under the provisions of, Opinion No. 699 *et seq.*, shall be made at a rate of 130% of the applicable base ceiling rate established by the Commission in Opinion No. 699 *et seq.* The question now becomes whether to adjust prospectively the rate levels for small producer sales made pursuant to Commission Opinion Nos. 749 *et seq.* [30] by applying a 20% rate of return to the cost analysis set forth in that Opinion and whether to apply a 20% rate of return to the Opinion No. 770 [31] cost analysis.[32]

In Opinion No. 749 *et seq., supra*, the Commission prescribed "just and reasonable" rates for sales of natural gas in interstate commerce made prior to January 1, 1973. The cost studies and analyses relied upon by the Commission therein, in establishing the flowing gas rate, did not take into consideration small producers costs either individually or on a collective basis. Accordingly, the underlying rationale for affording small producers a rate differential, *i.e.* the fact that small producers have a higher risk factor and incur greater costs than large producers, applies to the Commission's rate structure established in Opinion Nos. 749 *et seq.* We, therefore, find it necessary to continue providing a differential for small producer sales covered by that Opinion. Recomputing the ceiling rate established therein, utilizing a 20% rate of return, results in a rate of 35¢ per Mcf (See Appendix B).

One final problem must be addressed regarding the flowing gas rates for small producers. In Opinion No. 749, the Commission provided (mimeo, p. 3) that the rates established therein would not "• • • supersede those area rates which are higher than this rate and which have found to be just and reasonable by the Commission in other proceedings." In recomputing the area rate ceilings, by applying a 20% rate of return to the cost computations set forth in our area rate opinions, it becomes necessary to adjust the rates, for small producer sales, made from the Permian and Rocky Mountain ares. For sales made under *Permain II*,[33] pursuant to contracts dated on or after October 1, 1968 (which are not covered by Opinion No. 699 *et seq., supra*), the just and reasonable small producer rate shall be 40.5 cents per Mcf. (See Appendix C.) For sales made from the Rocky Mountain Area, as defined in Section 154.109(b) of the Commission's Regulations and Opinion No. 699 *et seq., supra*, the just and reasonable small producer rate shall be 40.5 cents per Mcf. (See Appendix C.)[34]

We recognize that in taking such action, some parties (notably large producers) will assert that affording small producers a rate differential for flowing gas sales is not warranted because this class of producer still retains a percentage depletion allowance under the Tax Reduction Act of 1975 [35]. In our opinion, however, the retention of a depletion allowance is, at best, of minimal value to small producers insofar as their jurisdictional sales of flowing gas is concerned. The Tax Reduction Act of 1975 provides that an independent producer, as that term is defined in the Act, may elect to apply the percentage depletion allowance to either crude oil or natural gas.[36] It is fair to presume that a small producer, as defined by the Commission's regulations [37], who is also involved in the production of crude oil, will elect to apply a part of the allowance to the higher priced crude oil, thereby reducing the impact of the depletion allowance on gas production. Moreover, even assuming the small producer has no oil production, the maximum yearly depletable quantity of natural gas is not segregated between markets or price. Therefore, if a small producer has intrastate sales of natural gas, a portion of this production will constitute the daily depletable gas quantity used in calculating the allowance.[38] For these reasons, we conclude that the tax benefits that could be realized by a small producer as a result of the depletion allowance are so minimal that no change in the Opinion No. 749 rate, as adjusted with a 20% rate of return and a corresponding increase in the tax component, is warranted.

We have reviewed the evidentiary record in Docket No. RM75-14 and the results reached by us in establishing, in Opinion No. 770, the new nationwide gas ceiling for the 1975-76 biennium, for purposes of determining whether there is any justification for continuing to provide a rate differential between large producers and small producers for gas covered by that Opinion. We conclude that there is none. In theory it can be argued that a small producer should receive a 20% return for such sales. But we think the record developed in Docket No. RM-75-14, which led to the establishment of the rate level in Opinion No. 770, more accurately reflects *all* producers costs than any previous records developed in this regard, including Opinion No. 699 *et seq*, and Opinion No. 749 *et seq*. The conclusions which led us to establish a rate differential in previous rate opinions are reflected in the rate prescribed by Opinion No. 770, and we are confident that this rate will provide an adequate incentive for both large and small producers alike to search for and obtain new gas supplies. However, if these conclusions are incorrect as to a particular project, we encourage small producers to utilize the special relief or optional pricing procedures to obtain a "just and reasonable" rate.

Finally, in an order issued simultaneously herewith, the Commission is amending Section 157.40 of its Regulations prospectively reducing all small producer rates to the ceiling prescribed in Opinion No. 742 and Opinion No. 742-A. This action renders moot the various arguments regarding the propriety of indirectly regulating small producer sales and the standards for such indirect regulation. This action should not be construed as an abandonment of the concept of indirect regulation. However, having determined a "just and reasonable" rate for small producer sales, it would be administratively more convenient to directly regulate such sales.[39]

The Commission has, in numerous proceedings (See Appendix D), deferred establishment of a hearing schedule on the issue of the "justness and reasonableness" of small producer purchases in excess of the level prescribed by Opinion No. 742.[40] We determine here today that this issue should be deleted from those proceedings and disposed of in the instant proceeding. This determination is based upon our decision to prospectively reduce small producer sales to the Opinion Nos. 742 and 742-A level, and our decision not to require refunds for any past sales made above that level, including those sales made pursuant to Opinion Nos. 749 *et seq.* above the rate levels prescribed herein. This latter decision rests principally upon a balancing of the equities involved [41], and the equities in this proceeding do not require the ordering of refunds by the Commission. Although the rates in question may not have been, in all instances, "just and reasonable" rates, consumers have benefited from the supplies, a benefit realized during a period of severe curtailments where alternate fuel costs were higher than the cost of the gas in question. Moreover, to order refunds to be made by small producers would be contrary to our statements in Order No. 428, *et seq.* that pipelines would shoulder the responsibilities, through indirect regulation, of justifying small producer purchases. It would be inequitable to now penalize small producers who acted upon the reliances given by this Commission. Insofar as the pipeline's responsibilities are concerned, we find their actions, in purchasing supplies of gas above the levels prescribed herein to be prudent under the circumstances.

There is no question that the pipelines needed the supplies to offset deepening curtailment levels, and the availability of alternate sources of supply during this period is doubtful. Only the pipelines would be harmed if the rates were not approved and refunds were ordered. Accordingly, the Commission finds that the pipelines should be permitted to include these sales in their PGA increases.[42] Our decision herein is well within the Commission's discretionary authority regarding refund obligations.[43]

The Commission finds: The applications for rehearing and reconsideration present no facts or principles which warrant any changes or modification of Opinion No. 742.

The Commission orders: (A) The applications for rehearing and reconsideration are denied.

(B) From and after the issuance of this Opinion and the Commission's Order Amending Section 157.40 of its Regulations under the Natural Gas Act, small producers shall be authorized to make sales pursuant to existing and future contracts at the following rate levels:

(1) All sales of natural gas by small producers for resale in interstate commerce made in accordance with, and under the provisions of, Opinion Nos. 699, *et seq.*, shall be made at a maximum rate of 130% of the applicable base ceiling rate established by the Commission in Opinion No. 699, *et seq.*

(2) All sales of natural gas by small producers for resale in interstate commerce made in accordance with, and under the provisions of, Opinion Nos. 749, *et seq.*, shall be made at a maximum rate of 35.0¢ per Mcf except as provided for below:

(a) For gas produced in the Permian Basin Area, as defined by Opinion Nos. 662 and 662-A, and sold pursuant to contracts dated on or after October 1, 1968, small producers shall be entitled to collect a maximum rate of 40.5¢ per Mcf.

(b) For gas produced in the Rocky Mountain Area, as defined in Section 154.109(b) of the Commission's Regulations and Opinion No. 699, *et seq.*, small producers shall be entitled to collect a maximum rate of 40.5¢ per Mcf.

The above rates are subject to any adjustments permitted or required under the particular order of general applicability involved.

(C) Those proceedings involving the propriety of small producer purchases in excess of the levels prescribed by Opinion No. 742 are terminated as to that issue consistent with the terms of this order.

By the Commission.

KENNETH F. PLUMB,
Secretary.

APPENDIX A.—*Number of companies reporting and amount of gas sold in interstate commerce by large and small producers for the indicated years*

	Small producers	Large producers
1971		
Number of companies	6,848	92
Amount of gas sold (million cubic feet)	1,621,030	12,076,797
Percentage of total gas sold	11.10	88.90
1972		
Number of companies	6,119	92
Amount of gas sold (million cubic feet)	1,733,947	13,607,118
Percentage of total gas sold	11.76	88.24
1973		
Number of companies	6,186	92
Amount of gas sold (million cubic feet)	1,737,600	12,578,060
Percentage of total gas sold	12.03	87.97
1974		
Number of companies	7,118	92
Amount of gas sold (million cubic feet)	(1)	(1)
Percentage of total gas sold	(1)	(1)
1975 [1]		

[1] Final figures not available.

NOTE.—The small producer figures are from FPC form 314-B. Large producer figures were obtained using table H of FPC publication, "Sales by Producers" (the small producer amounts were deducted from the total sales to arrive at the large producer amounts).

COMPUTATION OF RETURN ON INVESTMENT AT A 20 PERCENT RATE FOR RETURN

[1] Cents per Mcf.

[29] *F.P.C.* v. *Sierra Pacific Power Company*, 358 U.S. 348 (1956).

[30] Opinion No. 749, "Opinion And Order Establishing Just And Reasonable Rates", Docket No. R-478, issued December 31, 1975; Opinion No. 749-A, "Interim Order Granting Rehearing For Purposes of Further Consideration, Revising Filing Requirements, Correcting Omissions, And Staying Refund Disbursements", issued February 27, 1976; Opinion No. 749-B, "Order Granting Reconsideration And Modifying Opinion No. 749-A", issued March 31, 1976; Opinion No. 749-C, "Opinion And Order On Rehearing", issued July 19, 1976.

[31] Opinion No. 770, "Opinion And Order Prescribing Uniform National Rate For Sales Of Natural Gas Dedicated To Interstate Commerce On Or After January 1, 1973, For The Period January 1, 1975 To December 31, 1976", Docket No. RM75-14, issued July 27, 1976.

[32] In Opinion No. 742, the Commission stated (p. 6) that the 130% differential determined therein would apply to the "• • • applicable base rate ceiling (*e.g.* flowing or new gas ceiling depending on the sale involved) established by the Commission in an order of general applicability (*e.g.*, an area or national rate order)." As we previously stated herein, however, any adjustments to large producer rate structures established by the Commission to insure small producers a "just and reasonable" rate shall be accomplished by applying a 20% rate of return to the methodolgy adopted and not be affording an automatic 130% differential to each rate structure. This also comports with Opinion No. 742 where the Commission stated (p. 3) that the percentage determined therein would not "• • • be necessarily a perpetual applicable determination • • •"

[33] *See*, Opinion No. 662, 50 FPC 390 (1973); Opinion No. 662-A, 50 FPC 932 (1973).

[34] In Opinion No. 699-H, *supra*, the Commission established a rate of 35 cents for the Rocky Mountain Area for contracts dated on or after October 1, 1968, where the sales would not qualify for the national rate. The rate was based upon the cost studies and analyses established in *Permian II* (Opinion Nos. 662 and 662-A). Accordingly, we find it appropriate to use in the *Permian II* cost analyses to calculate the small producer rate for the Rocky Mountain Area.

[35] *See*, Internal Revenue Code of 1954, § 613 A(b)(2), as added by the Tax Reduction Act of 1975, Pub. L. 94-12, 501.

[36] Section 613A(4) states in part:

• • • the depletable natural gas quantity of any taxpayer for any taxable year shall be equal to 6,000 cubic feet multiplied by the number of barrels of the taxpayers depletable oil quantity to which the taxpayer elects to have this paragraph apply. The taxpayers' depletable oil quantity for any taxable year shall be reduced by the number of barrels with respect to which an election under this paragraph applies.

The yearly quantity in barrels is 1,800 for 1976, and this figure drops by 200 each year until 1980 where it remains thereafter at 1,000 (§ 613A(3)). The applicable percentage is 22% for 1976-1980 but such percentage is reduced thereafter (§ 613A(3)).

[37] Section 157.40(a) of the Commission's Regulations Under The Natural Gas Act limits a small producer's sales to 10,000,000 Mcf or less each year.

[38] Assuming no oil production, the maximum yearly depletable quantity of natural gas for 1976 is 3,942,000 Mcf and 3,584,000 Mcf for 1977.

[39] Elimination of indirect regulation does not preclude a small producer from individually seeking special relief from the ceiling rate established in Opinion No. 742.

[40] The proceedings subject to stay involve purchases prior to and subsequent to the issuance of Opinion No. 742.

[41] As the Court of Appeals stated in *Consumer Federation of America* v. *F.P.C.*, 515 F. 2d 347 (D.C. Cir. 1975), *cert. denied*, 423 U.S. 906 (1975), on the issuance of refunds (*id.* at 359): "• • • [I]n matters of prospective and retroactive effect, there are large questions of equity and public interest. • • •"

[42] Our decision in this proceeding disposes of the issue of the propriety of small producer purchases in excess of 130% in all dockets listed in Appendix D, and in any other dockets in which this issue has arisen.

[43] See, *F.P.C.* v. *Tennessee Gas Transmission Co.*, 371 U.S. 145, 153 (1962); *Placid Oil Company* v. *F.P.C.*, 483 F.2d 880, 905 (5th Cir. 1973).

SOUTH TEXAS NATURAL GAS GATHERING CO.

Filing of Settlement Agreement

JULY 27, 1976.

Take notice that on July 16, 1976, South Texas Natural Gas Gathering Company (South Texas) filed a "Stipulation and Agreement in Settlement of Rate Proceedings" in this docket.

South Texas states that the proposed settlement agreement has been agreed to by all parties to the proceeding.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 9, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-783]

SOUTHERN CALIFORNIA EDISON CO.

Filing of Initial Rate Schedule; Request for Waiver

JULY 26, 1976.

Take notice that on July 14, 1976, Southern California Edison Company (Edison) tendered for filing a May 17, 1976, Agreement with the City of Pasadena providing for the transmission by Edison on an interruptible basis of power purchased on a non-firm basis by Pasadena from sources in the Pacific Northwest and from Nevada Power Company. Edison will charge Pasadena for transmission, dispatching, and scheduling services, and for losses between the scheduling points of such non-firm energy and Edison's point of interconnection with Pasadena.

Edison states that Pasadena requests that service be initiated at the earliest possible date under this Agreement, and for that reason Edison requests that the notice provisions of the Commission's regulations be waived and the filing be permitted to become effective no later than August 12, 1976.

Copies of this filing were served upon the City of Pasadena, California, and the Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest this application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to makes protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-441]

SOUTHERN NATURAL GAS

Application

Take notice that on July 15, 1976, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP76-441 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, during the 12-month period commencing October 21, 1976, the operation of facilities to take into its certificated pipeline system natural gas supplies to be purchased from independent producers and other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in connecting the facilities of an independent producer or other similar seller, authorized by the Commission to sell natural gas for resale in interstate commerce, with the facilities of Applicant or of another natural gas company authorized to transport gas for the account of or to exchange gas with Applicant.

The application states that the total cost of the proposed facilities would not exceed $12,000,000, that the cost of any single onshore project would not exceed $1,500,000, and that the cost of any single offshore project would not exceed $2,500,000. The facilities would be financed with cash on hand or which would be available from current operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-778]

SOUTHWESTERN PUBLIC SERVICE CO.

Cancellation

JULY 23, 1976.

Take notice that on June 11, 1976, the Southwestern Power Service Company (Southwestern) tendered for filing a notice of cancellation of Southwestern's Rate Schedule FPC No. 33, under which

V 41149
AUG 2 76
UMI

Southwestern has supplied wholesale electric service to the Pioneer Cooperative Association (Pioneer). Southwestern states that no sales have been made to Pioneer in over seven years and none are contemplated at this time.

Southwestern effectively requests a waiver of the notice requirements of the Commission's Regulations so as to permit to proposed cancellation to become effective as of April 13, 1976. Southwestern states that Pioneer has been notified of this filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22276 Filed 7-30-76;8:45 am]

[Docket Nos. CP70-185 and CP75-376]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO INC.

Petition To Amend

JULY 22, 1976.

Take notice that on June 30, 1976, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Petitioner), P.O. Box 2511, Houston, Texas 77001, filed in Docket Nos. CP70-185 and CP75-376 a petition to amend the orders issued in said dockets pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to continue the sales for resale of natural gas in interstate commerce pursuant to its Rate Schedule CD-6 under a single contract to Bay State Gas Company (Bay State), which sales were heretofore authorized to be made pursuant to said rate schedule under separate contracts to Bay State and Lawrence Gas Company (Lawrence), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that it is presently authorized in Docket No. CP70-185 to sell Bay State a contracted demand of 45,292 Mcf of gas per day under Rate Schedule CD-6 for delivery at the following points at the following daily volume limits:

Delivery point:	*Daily volume limit (1,000 ft³)*
Agawam	34,875
East Longmeadow	16,875
Northampton	4,567

Petitioner states further that it is presently authorized in Docket No. CP75-376 to sell Lawrence a contracted demand of 18,849 Mcf of natural gas per day under Rate Schedule CD-6, for delivery at one point with a daily volume of the same amount.

The petition to amend states that Bay State has been authorized to merge Lawrence and that Bay State has requested service from Petitioner under a single contract with a contracted demand of 64,141 Mcf of gas per day. Petitioner states that it is asserted by Bay State that the combining of the two contracts would help to ensure that all available pipeline natural gas would be utilized to help meet the requirements of the merged companies' high priority customers.

Petitioner proposes to render service under a single contract without change in the present daily volume limits. It is stated that the instant proposal would not permit Bay State to receive any more natural gas from Petitioner than Bay State and Lawrence are now permitted to receive under their separate contracts and that the proposed change would not increase or decrease the annual volumetric limitation imposed on Petitioner's system in Docket Nos. CP73-115 and CP74-27. Further, it is stated, the proposed change would not alter the end-use profile used by Petitioner in determining the level of curtailment of deliveries to the two companies. Accordingly, Petitioner concludes, there would be no impact on Petitioner's other customers as a result of the proposed change in service.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Tariff Filing

JULY 26, 1976.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco) on July 16, 1976, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1 and Original Volume No. 2 to become effective September 1, 1976. Transco states that the purpose of the filing is to "track" advance payments made by Transco in accordance with Article V of the "Agreement as to Rates" in Docket No. RP75-75 which agreement was accepted by Commission Order issued January 30, 1976 in such docket.

The revised tariff sheets filed to be effective September 1, 1976 reflect a "tracking" increase of 0.3¢ per Mcf as a result of inclusion in rate base of $14,317,676 which amount represents the net increase in advance payment amounts not previously reflected in rates.

The Company states that copies of the filing have been mailed to each of its jurisdictional customers and interested State Commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

TRANSWESTERN PIPELINE CO.

Proposed Changes in Gas Tariff

JULY 27, 1976.

Take notice that Transwestern Pipeline Company (Transwestern) on July 15, 1976, tendered for filing as part of its FPC Gas Tariff, Second Revised Volume No. 1, the following sheets:

Substitute Third Revised Sheet No. 5
Substitute Third Revised Sheet No. 6

These sheets are issued in substitution of sheets filed on May 28, 1976 by Transwestern pursuant to the Commission's Opinion Nos. 749 and 749-A. By letter order dated June 30, 1976 the Commission accepted Transwestern's May 28, 1976 filing effective August 1, 1976 subject to elimination of certain producer increases. Transwestern asserts that this substitute filing is in compliance with such letter order of June 30, 1976, and requests an effective date of August 1, 1976 for the above substitute sheets.

Copies of the filing were served upon the company's jurisdictional customers and the interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket Nos. RP73-94; PGA 76-3]

VALLEY GAS TRANSMISSION, INC.

Purchased Gas Cost Adjustment Filing

JULY 27, 1976.

Valley Gas Transmission, Inc. ("Valley"), on July 9, 1976, submitted for filing as part of its FPC Gas Tariff, Original Volume No. 1, its proposed Substitute Seventh Revised Sheet No. 2A. The proposed effective date is July 1, 1976.

Valley states that this tariff sheet is filed pursuant to the Purchased Gas Cost Adjustment Provision ("PGA Clause") of its Tariff, and in response to the Commission's letter order dated June 30, 1976 which rejected the PGA filing (PGA 76-2) which had been submitted on May 14, 1976. In that order the Commission stated that Valley had failed to comply with the conditions of the Commission's acceptance of Valley's PGA filing of November 14, 1975 (PGA 76-1) which required an adjustment in Valley's next semi-annual PGA filing to give rate effect to the settlement of the reserve dedication issue concerning the Luby and Petronilla Fields in Docket Nos. G-19618, et al.

Valley states that no adjustment is required because Valley's PGA clause and several subsequent filings made pursuant thereto have already given complete recognition to the settlement, thereby

V 41 149 AUG 2 76 UMI

eliminating the need for any additional adjustments. A detailed summary of the accrued purchased gas costs, which were the subject of the Commission's aforementioned conditions, and their amortization by means of later PGA filings is attached to the filing. Valley is therefore refiling as PGA 76–3 the same rates that it filed on May 14, 1976 in PGA 76–2.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and available for public inspection.

[Docket No. RP75-89]

NORTHERN NATURAL GAS CO.

Tender of Stipulation and Agreement

JULY 27, 1976.

Take notice that on July 15, 1976, Northern Natural Gas Company (Northern) tendered for filing a Stipulation and Agreement together with a Motion for approval thereof to resolve the above-captioned docket.

Northern states that on April 11, 1975, Northern filed revised tariff sheets providing increased rates of approximately $69,822,000 annually to jurisdictional customers, based on adjusted sales for the twelve (12) months ended December 31, 1974. Northern states that an effective date of May 27, 1975 was requested, but the increase was suspended until October 27, 1975 by the Commission's suspension order issued May 16, 1975. Northern states that the increase as effectuated subject to refund, was reduced to approximately $52,364,000 annually to comply with certain conditions imposed by the Commission's suspension order of May 16, 1975, supra and the orders of July 15, 1975 and October 31, 1975. Northern states that the Stipulation and Agreement provides a total increase of approximately $40,115,000, which includes $3,567,600 attributable to the reserved issue relating to Northern's request for cost-of-service treatment for its exploration program which is pending Commission decision in Docket No. RP74–75.

Copies of this Stipulation and Agreement is on file with the Commission and is available for public inspection. Any person desiring to comment on matters contained therein should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 17, 1976. Any reply comments should be filed on or before August 27, 1976.

[Docket No. ER76-782]

NORTHERN STATES POWER CO.

Supplement to Transmission Service Agreement

JULY 27, 1976.

Take notice that Northern States Power Company (Northern States) on July 14, 1976, tendered for filing Supplement No. 2 to the Transmission Service Agreement between Northern States and The State Board of Higher Education for the University of North Dakota.

Northern States states that Supplement No. 2 provides a Second Revised Schedule A establishing a revised schedule of rates for electric transmission service. An effective date of August 20, 1976, is requested by Northern States.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ES76-61]

PENNSYLVANIA POWER & LIGHT CO.

Application

JULY 27, 1976.

Take notice that on July 21, 1976, the Pennsylvania Power & Light Company (Applicant) filed an application, pursuant to section 204 of the Federal Power Act, seeking authorization to issue unsecured promissory notes maturing in less than one year from the date of issuance. Applicant seeks authority to issue from time to time through September 30, 1977, and to have outstanding at any one time unsecured promissory notes, in the form of bank loans, loans from institutional investors, loans from trust departments of commercial banks, or commercial paper, in an aggregate amount up to but not exceeding (a) 25 percent of Applicant's revenues during the last preceding twelve months of operations, or (b) $180 million, whichever is less.

The interest rate applicable to the unsecured promissory notes will be the best rate obtainable by Applicant for the type of transaction involved. This generally will be, in the case of bank loans, the prime commercial bank rate; in the case of commercial paper issued to commercial paper dealers, the market rate (or discount rate for commercial paper of comparable quality and of the particular maturity sold to commercial paper dealers.

Applicant is incorporated under the laws of the state of Pennsylvania with its principal business office at Allentown, Pennsylvania and is engaged in the generation, transmission, distribution and sale of electrical energy in the State of Pennsylvania.

The principal purpose for which Applicant will issue and sell unsecured promissory notes are (1) to purchase and carry fuel inventories, (2) to carry account receivable, (3) to provide for periodic large cash needs, such as tax, dividend and investment payments, (4) to supplement temporary funds for unexpected cash requirements, and (5) to provide interim financing for the construction of additions to Applicant's generation, transmission and distribution facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application, as supplemented, is on file with the Commission and available for public inspection.

[Docket No. RP73-89 (PGA76-2)]

SEA ROBIN PIPELINE CO.

Filing of Revised Tariff Sheet

JULY 27, 1976.

Take notice that on July 20, 1976, Sea Robin Pipeline Company (Sea Robin) tendered for filing Tenth Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1 proposed to become effective July 2, 1976.

Sea Robin states that this filing is being made pursuant to Commission order issued June 30, 1976 to reflect the elimination from the purchased gas cost in Sea Robin's May 14, 1976 PGA filing, volumes and costs related to three new purchase contract which did not materialize by July 1, 1976.

Sea Robin further states that a copy of the revised tariff sheet with supporting data is being mailed to all of Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 15, 1976. Protests will be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

UTAH POWER & LIGHT CO.

Termination of Filing

JULY 27, 1976.

Take notice that on July 21, 1976, the Utah Power & Light Company (Utah) tendered for filing a notice of termination of its filing in this proceeding. Utah states that the service schedule tendered herein on May 20, 1976, and declared deficient by Secretary's letter dated June 23, 1976, was predicated upon output from the company's Huntington Unit No. 2. As a result of an accident and fire, Utah states that it expects Huntington No. 2 to be out of service for a period of at least 18 months. Utah therefore requests permission to withdraw the proferred filing, intending to make a new filing at such time as Huntington No. 2 again becomes commercially operable.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-790]

WEST PENN POWER CO.

Changes in Rates and Charges

JULY 27, 1976.

Take notice that Allegheny Power Service Corporation (APSC) on July 13, 1976 tendered for filing on behalf of West Penn Power Company (West Penn), one of the electric utilities which make up the integrated Allegheny Power System, and Duquesne Light Company (Duquesne), Amendment No. 5 to the Interchange Agreement dated February 1, 1968 between West Penn and Duquesne designated West Penn Rate Schedule FPC No. 24 and Duquesne Rate Schedule FPC No. 9.

Amendment No. 5 provides for an increase in the demand charge for short-term power from $0.45 to $0.50 per kilowatt week to become effective September 1, 1976. Applicants state that since short-term power transactions are scheduled from time to time as load capacity conditions on the systems of the parties dictate it is impossible to estimate the increase in revenues which would result from Amendment No. 5.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 N. Capitol Street NE., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protest should be filed on or before August 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for inspection.

KENNETH F. PLUMB,
Secretary.

[OR 8789]

OREGON

Order Providing for Opening of Public Land

JULY 26, 1976.

1. In an exchange of lands made under the provisions of the act of July 31, 1939 (53 Stat. 1144), the following land has been reconveyed to the United States:

WILLAMETTE MERIDIAN

T. 10 S., R. 1 E.,
Sec. 19, SE¼NW¼.
The area described contains 40 acres in Linn County.

2. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of law applicable to revested Oregon and California Railroad lands, the land is hereby open to operation of the public land laws, including the mining laws (Ch. 2, Title 30 U.S.C.), and the mineral leasing laws. All valid applications received at or prior to 10 A.M. August 31, 1976, shall be considered as simultaneous filed at that time. Those received thereafter shall be considered in the order of filing.

3. Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

HAROLD A. BERENDS,
Chief, Branch of Lands and Minerals Operations.

SLEEPING BEAR DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Sleeping Bear Dunes National Lakeshore Advisory Commission will be held at 1 p.m. (e.d.t.), Friday, August 20, 1976, at the Sleeping Bear Dunes National Lakeshore Visitor Center, on State Route 109 at the junction of Welch Road, approximately five miles south of Glen Haven, Michigan.

The commission was established by Public Law 91–479 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Sleeping Bear Dunes National Lakeshore.

The members of the commission are as follows:

Mr. Noble D. Travis (Chairman)
Mr. John B. Daugherty
Mr. William B. Bolton
Mr. John D. Stanz
Mr. Charles H. Yeates
Mrs. C. R. Williams
Mr. Louis F. Twardzik
Mr. John H. Stahlin
Mr. Sam Eberly

The principal item of business will be the status of the Lakeshore land acquisition program.

V 41 149 AUG 2 76 UMI

The meeting will be open to the public. Any member of the public may file with the commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact J. A. Martinek, Superintendent, Sleeping Bear Dunes National Lakeshore, 400½ Main Street, Frankfort, Michigan 49635, telephone 616 352-9611. Minutes of this meeting will be available for public inspection four weeks after the meeting at the office of the Superintendent.

Dated: July 23, 1976.

MERRILL D. BEAL,
Regional Director
Midwest Region.

NEW RIVER GORGE

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, P.L. 91-190, the Department of the Interior has prepared a final environmental impact statement for the proposed New River Gorge National Wild and Scenic River.

The proposal involves the designation of 66 miles of the New River in West Virginia from Bluestone Lake near the town of Hinton to the town of Gauley Bridge as a federally administered component of the National Wild and Scenic Rivers System.

Copies are available for inspection at the Bureau of Outdoor Recreation, Northeast Regional Office, 600 Arch Street, Philadelphia, Pennsylvania 19106, and the Bureau of Outdoor Recreation, Office of Communications, Room 237, Interior South Building, 1951 Constitution Avenue, N.W., Washington, D.C. 20240.

A limited number of copies are also available and may be obtained by writing to the Regional Director, Northeast Regional Office at the address shown above.

Dated: July 23, 1976.

STANLEY D. DOREMUS,
Deputy Assistant
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

GRAIN STANDARDS

Maryland Grain Inspection Point

Notice is hereby given that the Maryland Department of Agriculture has requested that its designation to operate as an official inspection agency at Salisbury, Maryland, be suspended for a period of 1 year. The State of Maryland has provided grain inspection services at Salisbury, Maryland, for more than 20 years. In response to the request, the Department is suspending the designation of the Maryland Department of Agriculture for a period of 1 year to become effective August 1, 1976, without prejudice to the Maryland Department of Agriculture.

The Maryland Department of Agriculture has not performed any official inspections at Salisbury, Maryland, since January 1976. Therefore, under the administrative procedures provisions of 5 U.S.C. 553, it is found that good cause exists to implement the voluntary suspension of the Maryland Department of Agriculture without public notice and participation in rulemaking on such suspension and that good cause is found for making the proposed actions effective less than 30 days after the publication in the FEDERAL REGISTER.

Interested persons are hereby afforded the opportunity to submit written views and comments with respect to the suspension of the designation of the Maryland Department of Agriculture to operate as an official inspection agency at Salisbury, Maryland, in accordance with section 26.101(a) of the regulations under the U.S. Grain Standards Act.

Other interested persons are hereby given opportunity to make application for interm designation to operate as an official inspection agency at Salisbury, Maryland, pursuant to the requirements in section 26.96 of the regulations (7 CFR 26.96) under the U.S. Grain Standards Act.

NOTE.—Section 7(f) of the Act (7 U.S.C 79(f)) generally provides that not more than one inspection agency shall be operative at any one time for any one city, town, or other area.

All views and comments should be submitted in writing to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. All materials submitted should be in duplicate and mailed to the Hearing Clerk not later than September 1, 1976. All materials submitted pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Done in Washington, D.C. on: July 28, 1976.

IRVING W. THOMAS,
Acting Administrator.

OFFICE OF THE GENERAL COUNSEL

Statement of Organization, Functions, Delegations of Authority, and Availability of Information

The Statement of Organization, Functions, Delegations of Authority, and Availability of Information, of the Office of the General Counsel, appearing in 41 FR 5333, February 5, 1976, is amended as provided below to delete the reference to the Branch Office located at Juneau, Alaska, which is being closed. The functions formerly performed by the Juneau Office will be performed by the Portland, Oregon Regional Office.

The amendments are as follows:

1. In section 2(b) "Juneau, AK." is deleted.

2. In section 20(b) the words "Juneau, Alaska", "State of Alaska" and "FS region 10" are deleted.

No change is made in the responsibilities of the Portland, Oregon Regional Office since its area of responsibility includes Federal region 10 and Forest Service region 10 of which Alaska is a part.

These amendments are effective August 1, 1976.

Dated: July 26, 1976.

JAMES D. KEAST,
General Counsel.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

PANEL ON REVIEW OF GENERAL HOSPITAL AND PERSONAL USE DEVICES

Availability of Panel Report

In accordance with the provisions of a notice to manufacturers concerning medical device classification procedures published in the FEDERAL REGISTER of May 19, 1975 (40 FR 21848), the Food and Drug Administration announces the availability of the report of the classification results of the Panel on Review of General Hospital and Personal Use devices. The findings in the report were completed prior to May 28, 1976, the date on which the Medical Device Amendments of 1976 (Pub. L. 94-295) became effective. The report contains the tentative classification conclusions of the panel and includes a list of the devices reviewed, the answers to the classification logic scheme questions, and the recommended classification for each device, pursuant to the provisions in the May 19, 1975 FEDERAL REGISTER notice.

The Panel on Review of General Hospital and Personal Use Devices may be reconvened to determine whether to affirm or change the tentative recommendations in the report and, concurrently, to revise the logic scheme set forth in the May 19, 1975 FEDERAL REGISTER notice, where needed, to conform to the classification criteria and other requirements prescribed in Pub. L. 94-295.

The report has been placed on public display at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, and may be seen during working hours Monday through Friday. Copies of the report are available upon request from the above office.

Dated: July 26, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner
for Compliance.

ADVISORY COMMITTEES

Open Meetings

Pursuant to Public Law 92-463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be entirely open to the public to discuss issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available. Meetings will be held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland, 20014, unless otherwise stated.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496-5708) will furnish summaries of the meetings and rosters of committee members upon request.

Other information pertaining to the meeting can be obtained from the Executive Secretary indicated.

Name of Committee: President's Cancer Panel.
Dates: September 8, 1976; 9:30 a.m.—adjournment.
Place: Building 31/C, Conference Room 7, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To hear reports from the Director, National Cancer Program, NCI; the Chairman, President's Cancer Panel and to review the budget.
Executive Secretary: Dr. Richard A. Tjalma. Address: Building 31, Room 11A46, National Institutes of Health. Phone 301/496-5854.

Name of Committee: Tobacco Working Group.
Dates: September 8, 1976; 9:00 a.m.—adjournment.
Place: Building 31A, Conference Room 4, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To review activities of the Smoking and Health Program of the National Cancer Institute.
Executive Secretary: Dr. Thomas B. Owen. Address: Building 31, Room 11A05, National Institutes of Health, Phone: 301/496-6271.
Name of Committee: Temporary Review Committee for Frederick Cancer Research Center.
Dates: September 16, 1976; 9:00 a.m.—adjournment.
Place: Building 31C, Conference Room 8, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To review the work scope for Research for Proposals for recompetition of the contract to operate the Frederick Cancer Research Center.
Executive Secretary: Dr. William W. Payne. Address: NCI FCRC, Ft. Detrick, Frederick, Maryland. Phone 301/663-7305.
Name of Committee: Cancer Control and Rehabilitation Advisory Committee.
Dates: September 23-24, 1976, 9:00 a.m.
Place: Building 31C, Conference Room 8, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To discuss current and projected programs of the Division of Cancer Control and Rehabilitation.
Executive Secretary: Dr. Veronica L. Conley. Address: Blair Building, Room 7A07, National Institutes of Health. Phone: 301/427-7941.
Name of Committee: Virus Cancer Program Advisory Committee.
Dates: September 30, 1976-October 1, 1976; 10:00 a.m.
Place: Building 31A, Conference Room 4, National Institutes of Health.
Times: Open for the entire meeting.
Agenda: To discuss the overall direction of the Virus Cancer Program.
Executive Secretary: Dr. Elke Jordan. Address: Building 37, Room 1A01, National Institutes of Health. Phone: 301/496-6927.

Dated: July 20, 1976.

REVIEW OF RESEARCH GRANT APPLICATIONS

Meetings

Pursuant to Public Law 92–463, notice is hereby given of the meetings of committees advisory to the National Cancer Institute.

These meetings will be open to the public to discuss administrative details or other issues relating to committee business as indicated in the notice. Attendance by the public will be limited to space available.

These meetings will be closed to the public as indicated below in accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5) and 552(b)(6) of Title 5, U.S. Code and Section 10(d) of P.L. 92–463, for the review, discussion and evaluation of individual initial pending, supplemental, and renewal grant applications. The closed portions of the meetings involve solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mrs. Marjorie F. Early, Committee Management Officer, NCI, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20014 (301/496–5708) will furnish summaries of the meetings and rosters of committee members upon request. Other information pertaining to the meeting can be obtained from the Executive Secretary indicated. Meetings are held at the National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014, unless otherwise stated.

Name of committee: National Bladder Cancer Working Cadre.
Dates: September 9–10, 1976; 8:30 a.m.
Place: Logan Hilton Hotel/Room 317, Logan International Airport, Boston, Massachusetts.
Times: Open: September 9; 1 p.m. to 5 p.m. Open: September 10, 8:30 a.m. to adjournment. Closed: September 9; 8:30 a.m. to 1 p.m.
Agenda Open portion: Program evaluation and planning.
Closure reason: To review research grant applications.
Executive secretary: Dr. Olga G. Joly, Address: Westwood Building, Room 853, National Institutes of Health. Phone: 301/496–7194.
(Catalog of Federal Domestic Assistance Numbers; 13.393; 13.394; 13.395, National Institutes of Health).
Name of committee: National Cancer Advisory Board Subcommittee on Centers and Construction.
Dates: September 12, 1976, 7:00 p.m.
Place: Building 31/C, Conference Room 10, National Institutes of Health.
Times:
Open: September 12, 7 p.m. to 9:30 p.m.
Closed: September 12, 9:30 p.m. to adjournment.
Agenda for open portion: To review centers for comprehensiveness; the status of American Association of Cancer Institutes Liaison to NCI, and the staff report on evaluation and planning for cancer centers program.
Closure reason: To review Research Centers and Construction Grant Applications.
Executive secretary: Dr. William A. Walter, Jr. Address: Westwood Building, Room 826, National Institutes of Health. Phone: 301/496–7427.
(Catalog of Federal Domestic Assistance Program No. 13.392, National Institutes of Health).
Name of Committee: Clinical Cancer Education Committee.
Dates: September 30–October 1, 1976; 8:30 a.m.
Place: Building 1, Wilson Hall, National Institutes of Health.
Times: Open: September 30; 8:30 a.m. to 9:30 a.m. Closed: September 30; 9:30 a.m. to 5:00 p.m. Closed: October 1; 8:30 a.m. to adjournment.
Closure reason: To review research grant applications.
Executive secretary: Dr. Margaret Edwards, Address: Westwood Building, Room 10A18, National Institutes of Health. Phone: 301/496–7762.

ARTIFICIAL KIDNEY-CHRONIC UREMIA ADVISORY COMMITTEE

Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Artificial Kidney-Chronic Uremia Advisory Committee, National Institute of Arthritis, Metabolism, and Digestive Diseases, September 9, 1976. The meeting will be held in Building 31, Conference Room 7 at the National Institutes of Health, Bethesda, Maryland.

This meeting will be open to the public from 9 a.m. to 10 a.m. to discuss administrative reports. Attendance by the public will be limited to space available. In accordance with the provisions set forth in Sections 552(b)(4) and 552(b)(6), Title 5, U.S. Code and Section 10(d) of P.L. 92–463, the meeting will be closed to the public from 10 a.m. to 5 p.m. for the review, discussion and evaluation of individual contract proposals. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

Messrs. James N. Fordham or Leo E. Treacy, Office of Scientific and Technical Reports, NIAMDD, National Institutes of Health, Building 31, Room 9A04, Bethesda, Maryland 20014, (301) 496–3583, will provide summaries of the meeting and rosters of the committee members.

Dated: July 26, 1976.

R. W. LAMONT-HAVERS,
Deputy Director,
National Institutes of Health.

NATIONAL ADVISORY ENVIRONMENTAL HEALTH SCIENCES COUNCIL

Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Advisory Environmental Health Sciences Council, September 13-14, 1976, from 9:00 a.m. to 5:00 p.m., in Building 18, Conference Room, National Institute of Environmental Health Sciences, Research Triangle Park, North Carolina. This meeting will be open to the public from 9:00 a.m. to 12:00 noon on September 13, 1976, to discuss the National Institute of Environmental Health Sciences (NIEHS) contract review mechanism, the NIEHS mutagen screening system, administrative reports, recent legislation, interagency activities and other items of interest. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5) and 552(b)(6), Title 5 U.S. Code and Section 10(d) of Public Law 92-463, the meeting of the Council will be closed to the public on September 13, from 1:00 p.m. to 5:00 p.m. and on September 14, from 9:00 a.m. to adjournment for the review, discussion and evaluation of individual initial pending and renewal grant applicaitons. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Leota B. Staff, Committee Management Officer, NIEHS, Westwood Building, Room 404, Bethesda, Maryland, 20014, (301) 496-7483, will furnish rosters of committee members, and a summary of the meeting. Dr. Cobert D. LeMunyan, Acting Associate Director for Extramural Programs, National Institute of Environmental Health Sciences, Research Triangle Park, North Carolina 27709, (919) 549-8411, extension 3353, will furnish substantive program information pertaining to the meeting.

Dated: July 19, 1976.

NATIONAL CANCER ADVISORY BOARD

Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Cancer Advisory Board, National Cancer Institute, September 13-15, 1976, National Institutes of Health, Building 31, Conference Room 6. The Board Subcommittees on Diagnosis and Treatment and Carcinogenesis and Prevention will also meet September 12, 1976 at 4:00 p.m., National Institutes of Health, Building 31C, Conference Rooms 7 and 8, respectively.

The Board meeting will be open to the public on September 13 from 9:00 a.m. to 12:00 noon, for opening remarks and committee reports. On September 14, the meeting will be entirely open from 9:00 a.m. to 5:00 p.m. for review of the contract mechanism. The Board Subcommittees will be open to the public on September 12, from 4:00 p.m. to 4:30 p.m. to review administrative details. Attendance by the public at these meetings will be limited to space available.

In accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5), and 552(b)(6), Title 5, U.S. Code and Section 10(d) of Public Law 92-463, the Board meeting will be closed to the public on September 13 from 1:30 p.m. to 5:00 p.m. and on September 15 from 9:00 a.m. to adjournment, and the Subcommittee meetings on September 12, from 4:30 p.m. to adjournment, for the review, discussion and evaluation of individual initial pending, supplemental, and renewal grant applications. The closed portions of the meetings involve solely the internal expression of views and judgments of Board members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Dr. Richard A. Tjalma, Assistant Director: NCI, Building 31, Room 11A46, National Institutes of Health, Bethesda, Maryland 20014 (301/496-5854) will provide summaries of the meeting, substantive program information, and rosters of Board members.

National Institute of Education

ADVISORY COMMITTEES

Meeting

Pursuant to the provisions of Section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), notice is hereby given that the Panel on Education and Work of the National Institute of Education is scheduled to meet on August 17-19, 1976.

This meeting will be open to the public during the time indicated below to discuss administrative details or other issues related to committee business as described in the notice.

This meeting will be closed to the public as indicated below in accordance with the provisions set forth in Sections 552(b)(4), 552(b)(5) and 552(b)(6) of Title 5, U.S.C. and Section 10(d) of P.L. 92-463, for the review, discussion and evaluation of individual grant applications. The closed portion of the meeting involves solely the internal expression of views and judgments of committee members on individual grant applications containing detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

PANEL ON EDUCATION AND WORK

Date and Time: August 17-19, 1976-9:00 a.m.
Place: Sheraton National Hotel, Arlington, Virginia.
Open Session: August 17—9:00 to 10:30 a.m.
Closed Session: Otherwise.
Closure Reason: To review research grant applications.
Purpose: The Panel on Education and Work will review and evaluate proposals submitted for funding in the Education and Work grants competition of the National Institute of Education (NIE) and will recommend to the Director, NIE, which proposals should be funded. Final decisions will be made by the Director.
Agenda: The period from 9:00 a.m. to approximately 10:30 a.m. on August 17 will be devoted to discussion of the review criteria, panel procedures, and other matters of relevance to NIE's Education and Work program. From approximately 10:30 a.m. on August 17 until adjournment on August 19, the panel will review and discuss the applications that have been submitted for grant awards.

Dated: July 30, 1976.

RICHARD WERKSMAN,
Committee Management Officer,
National Institute of Education.

GRANTS PROGRAMS REVIEW PANELS

Establishment

After consultation with the Director, Office of Management and Budget, the Secretary of Health, Education, and Welfare has determined that the formation of the following review panels by the National Institute of Education under provisions of the Federal Advisory Committee Act is in the public interest in connection with performance of duties imposed on the Department by law, and that such duties can best be performed through the advice and counsel of such groups:

a. Panel on Education and Work.

b. Panel on School Capacity for Problem Solving.

These panels will be utilized to review, discuss, evaluate and rank proposals and to accomplish such external program reviews as shall be required by the Director, NIE. Meeting dates for each panel will be announced in the FEDERAL REGISTER.

Dated: July 29, 1976.

HAROLD L. HODGKINSON,
Director,
National Institute of Education.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

COMBINED STATION/TOWER AT PUEBLO, COLORADO

Change in Designation

Notice is hereby given that on or about September 23, 1976, the station services will be separated from the Combined Station/Tower at Pueblo, Colorado, and the facility will be designated as the Pueblo, Colorado, Airport Traffic Control Tower. Station service to the aviation public of Pueblo, Colorado, formerly provided by this facility will be provided by the Denver, Colorado, Flight Service Station. This information will be reflected in the FAA Organization Statement the next time it is issued.

Issued in Aurora, Colorado, on June 28, 1976.

M. M. MARTIN
Director, Rocky Mountain Region.

Urban Mass Transportation Administration

UMTA POLICY

Statement on Transbus

I. INTRODUCTION

The Transbus program was first conceived to serve two objectives: to bring into commercial use a new generation of transit buses that would provide better and more attractive transit service; and to encourage competition in the supply industry by providing equal opportunity to the three transit bus manufacturers to produce advanced bus designs. Since the issuance of the UMTA "Policy for Introducing Transbus Into Nationwide Service" on January 8, 1975, there have been a number of developments:

The market has seen a continued disturbing escalation in the purchase price of transit buses, estimated at 25 percent during the past two years and over 76 percent since 1971;

Prototype vehicles were successfully developed by each manufacturer, providing a useful test of new design techniques and transit industry and consumer reactions;

Based on these prototypes, a Transbus vehicle performance specification was developed in cooperation with the manufacturers and with the American Public Transit Association (APTA). While there has been a consensus on most elements of the specification and the accompanying standardized contract, quality assurance, and warranty documents, there is continued disagreement over the issues of bus floor height and whether the use of any standard performance specification should be mandated by the Federal Government;

Two manufacturers have announced their intention to produce "interim" or advanced design buses which incorporate most of the design features of the Transbus but which would have floor heights (29–32 inches) between those of current buses (34–35 inches) and the Transbus (22 inches or less). These interim buses would offer important operational cost savings, and a strong market demand has developed for their acquisition;

UMTA has issued final regulations on Transportation for Elderly and Handicapped Persons (41 FR 18234, issued April 30, 1976). These regulations mandate that service be provided to these groups of users, and further mandate that new buses to be acquired with UMTA financial assistance must have front step risers that do not exceed eight inches in height, have no more than eight inches in vertical distance from a standard six-inch curb to the first stair tread, and offer wheelchair accessibility packages (including lifts or ramps) which transit properties may order as an option. UMTA has taken a strong position in these regulations and in testimony, however, that the Federal Government should leave to local jurisdictions the choice of whether to use such wheelchair accessible transit buses or separate specialized services, or some combination, to meet the transit needs of wheelchair users and semi-ambulatory persons;

On May 5, 1976, the Administrator of UMTA held a day-long public hearing, announced in the FEDERAL REGISTER on April 14, 1976, on a number of bus design and procurement policy issues. The central issue had to do with whether the Federal Government should mandate or encourage the use of the Transbus performance specification and, if so, with what bus floor height specified. Another issue posed in that hearing was the date after which transit buses had to meet the eight-inch front step riser and wheelchair accessibility option requirements of the UMTA Elderly and Handicapped regulations. That date had been left open pending testimony from manufacturers and others on feasibility.

II. POLICY DECISIONS

UMTA has had the benefit of numermous meetings with manufacturers, transit operators, and public interest groups, as well as written submissions, Congressional testimony, and a special public hearing on these issues. Based on that body of information, UMTA makes the following determinations:

1. New transit buses to be purchased with UMTA financial assistance and advertised for bid after February 15, 1977, must have front step risers which do not exceed eight inches in height, and must offer a wheelchair level change device as an option which transit authorities can order. The UMTA regulation on Transportation for Elderly and Handicapped Persons will be amended to insert this February 15, 1977 effective date in the relevant provisions.

2. New transit buses to be acquired with Federal financial assistance and advertised for bid after February 15, 1977 must have effective floor heights of 24 inches or less after use of a "kneeling feature" on the bus. In other words, some combination of kneeling feature and lowered floor height must be capable of producing a net floor height of 24 inches or less. The aforementioned regulation will be amended to include the above requirement.

3. The purposes of the Transbus program have been largely fulfilled by the above mandate of an effective floor height of 24 inches, and with the introduction of newly designed, more efficient and more attractive transit buses into production in a competitive environment. It will remain an UMTA objective to continue to assist manufacturers to produce buses which are superior in a variety of respects, including having floor heights which do not exceed 22 inches. This floor height objective should be attained in an evolutionary fashion when the technical componentry is satisfactorily developed and when the prospective costs and benefits support a move to a lower floor height. Having in mind these necessary conditions, however, UMTA concludes that it is neither feasible nor appropriate to mandate a transit bus floor height of 22 inches or less at this time.

Finally, use of the quality assurance program and standard contract and warranty documents developed as part of the Transbus program will be strongly encouraged in the procurement of interim buses.

The reasons for these determinations are as follows:

1. *February 15, 1977 Effective Date of Front Step Riser and Wheelchair Access Option Requirements.* The policy decisions to require these items had been made in the context of the April 30, 1976 regulations; only the effective date had been left open pending information to be received in the May 5, 1976 hearing. At that hearing, one manufacturer testified

that these requirements could be met for actual bus deliveries within 14 months after publication of the rule; a second offered a proposed effective date of January 1, 1978 for deliveries; and the third suggested 18 month from the date of the hearing. The date of February 15, 1977 represents a compromise reflecting further discussions with the manufacturers, and backdating from delivery dates to the advertisement for bids.

2. *Effective Floor Height of 24 Inches or Less, With Kneeling Feature Mandated.* The mandate of an effective floor height of 24 inches is based upon UMTA's finding that such a result is technically possible through a combination of lowering the floor height of a bus and incorporating a kneeling feature. Both manufacturers currently planning interim or advanced design buses stated that they would be able to provide 29-inch floor heights on those buses within about one year. The third manufacturer said that he could bring the floor height of his improved current bus to about that level within 18 months. In all cases, the key technical hurdle appears to be the development of a bus tire of smaller diameter which can withstand the necessary loads. Such a tire is now being produced by a foreign manufacturer and its successful domestic production appears probable. Deflatable airbag devices which permit the front-end or front right corner of a bus to "kneel" down by four or five inches are now offered by all three manufacturers as an option on their current buses at an additional cost of $300–$400.

The benefits of mandating an effective floor height will be twofold. First, where the driver cannot draw up alongside a curb, he can use the kneeling feature to keep the first step from ground to front stair tread to eight inches or less, providing eased access for all riders. Second, a net 24-inch floor height, when combined with the further offset of a typical six-inch curb, may permit use of a ramp instead of a more expensive lift for wheelchair access (although assistance to the wheelchair user may be necessary, depending on the length of the ramp). Thus, for an increase in price of less than one percent per bus, features which substantially improve the accessibility of the vehicle for all riders, and especially for elderly and handicapped person, can be added.

In light of testimony received at the May 5, 1976 hearing, it is not practical to mandate rear step risers of eight inches or less.

3. *Continued Support of Improved Bus Design With Lowered Floor Heights, But Without a Federal Mandate of a 22-Inch Floor at This Time.* An important set of reasons militate against a 22-inch floor height mandate:

This would have the effect of delaying the introduction of newly designed transit buses into commercial use from three to five years. Manufacturers are likely to defer introduction of advanced design buses, which are available for delivery within a year, in order to develop tooling and production facilities for the lower floor vehicles. Yet, these more attractive and efficient buses are needed as soon as possible to meet current demand;

According to testimony from manufacturers and APTA, aspects of the 22-inch floor design (e.g., axles, tires, differentials) are not yet proven or production ready;

The additonal capital cost of the low-floor bus is variously estimated at seven to twenty-five percent above that of interim buses. Given the substantial concern at all levels of government with escalating bus prices, we believe that it is unwise to force up those prices even more at this time by Federal regulation. Further, the operating costs of the low-floor bus are likely to be slightly higher than those of the interim buses, and the low-floor bus would be less fuel efficient and would offer fewer seats;

At least two of the bus manufacturers do not currently have the financial capacity to retool for low-floor bus production. While they endorse a low-floor mandate, they want the Federal Government to finance all or most of the development costs of the vehicle, for example by paying for retooling costs through high cost negotiated contracts for initial vehicle production runs. UMTA believes such a procurement approach would be both unwise and probably unworkable at this time. Further, to mandate the low floor now would cause a wasteful discarding of some of the new tooling already developed for advanced design buses;

Most of the objectives of the Transbus program have been met: the market is supplying new products in a competitive fashion, and the advanced design buses include most of the design improvements put in motion by the Transbus investment (e.g., improved suspension, cantilevered seats, more easily maintainable exterior surfaces, etc.). An effective bus floor height of 24 inches is being mandated. As a matter of general policy, Federal regulatory mandates should be limited when the market is properly responding. Further, the public transit operator's association strongly opposes a Federal mandate.

It is certainly true that floor heights of 22 inches or less would offer some advantages: better ride quality (although at least one interim bus will include independent front suspension which will also provide a better ride than current buses); speedier passenger flow because of wider doors and one less step (although the interim buses will offer lower steps and a wide front or rear door); and greater accessibility to the elderly and handicapped (one less front step and easier accommodation to a less expensive ramp device for wheelchair access). UMTA concludes, however, that the marginal additional benefits in going from an effective 24-inch floor height (with kneeler) to a 22-inch floor height do not merit the substantial additional costs involved in any such Federal mandate imposed at this time.

Nevertheless, the lower bus floor height will continue to be a policy objective for the UMTA program. Any manufacturer who wishes to offer such a bus for purchase will be assisted through sole source procurement arrangements and progress payments. Further, in order to maintain progress toward achieving the low-floor objective, the UMTA Research and Development program will assist manufacturers to develop the reliable componentry which is still needed before the low floor can become a reality.

In summary, UMTA has determined that the major objectives of the Transbus program have been met. Permitting the advanced design buses to be produced and competitively marketed should permit the financial condition of manufacturers to stabilize, hold down development costs, and let the new buses be proven out and made operationally efficient. Under procurement guidelines already discussed with the manufacturers, interim bus purchases will be supported when performance specifications that do not unfairly restrict competition are used. Riders will see new and better buses within a year rather than having to wait for three to five more years.

Issued in Washington, D.C. on July 27, 1976.

ROBERT E. PATRICELLI,
Urban Mass Transportation Administration.

[Order 76-7-93]

CIVIL AERONAUTICS BOARD

AIR CARRIERS AND THE UNITED KINGDOM FOREIGN AIR CARRIERS, ORDER

Order Granting Waiver

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 23rd day of July, 1976.

In the matter of charter trips between the United States and the United Kingdom by air carriers and United Kingdom foreign air carriers.

By an exchange of diplomatic notes concluded on April 28, 1976, the United States and the United Kingdom entered into an Understanding governing, inter alia, the charterworthiness of passenger charter trips operated by the carriers of both countries between their respective territories. The Understanding is effective from April 28, 1976, to December 31, 1976. In principal effect, the Understanding provides that:

1. Except as otherwise provided in the Understanding, the air transport authorities of each country will accept as charterworthy air charter traffic which originates in the territory of the other and which is organized and operated pursuant to the rules of the other air transport authority, or according to waivers of such rules granted for exceptional reasons;

2. The Parties will accept modifications or additions to charterworthiness rules of the other Party, subject to objection and a right, following consultations, not to accept charters pursuant to such changes after a 30-day period;

V 41 149 AUG 2 76 UMI

3. The Parties may object to a charter rate within 30 days after receipt of notice of the rate, with a right, following consultations, to take appropriate action to prevent the use of such charter rate;

4. There be limitations imposed on the administrative burden of filing requirements and on enforcement procedures;

5. The air transport authorities of the country where a passenger charter is originated have the primary responsibility for enforcement of charterworthiness rules;

6. Passenger charterworthiness rules will be applied and enforced in a nondiscriminatory manner;

7. Rights are granted to operate charters where points in the territories of both Parties are served on any flight leg, provided a stop of at least two nights is made in the homeland for charters originating in the territory of the other Party; and

8. Withholding of approval for such flights is permitted only after consultations, and only with regard to flights commencing more than 120 days after submission of a notice of objections with a request for consultations.

The Understanding represents the recognition by both the United Kingdom and the United States that if passenger charter operations between their territories are to be facilitated there must be an accommodation as to the differing rules governing charter operations in effect under the laws and regulations of the two countries. Both the U.K. charter rules and the U.S. charter rules are designed, inter alia, to insure that the necessary distinction between group charter travel and individually ticketed service is maintained and that charters do not in reality become simply a guise for the performance of individually ticketed service. Although the U.K. rules differ in various respects from the requirements of U.S. rules, the Board is satisfied that the U.K. charter regulations are sufficient to maintain that distinction between charter and individually ticketed services contemplated under the provisions of the Federal Aviation Act of 1958 (the Act).

Under current Board charter regulations, U.S. carriers are required to conform to the U.S. charter rules for U.K.-originating as well as U.S.-originating charters, in the absence of the grant of a waiver or other exception in the regulations. The same is true with respect to U.K. scheduled carriers. U.K. charter carriers have authority in their permits which provides for the application of U.K. rules for U.K.-originating inclusive tour charters, but not for other types of charters. Each of the Board's charter regulations provides, nevetheless, for waiver of the requirements contained therein upon a finding that such waiver is in the public interest and that there are special or unusual circumstances warranting the grant of such a waiver.[1]

The grant of appropriate waivers will, in accordance with section 1102 of the Act, permit implementation of the obligations assumed by the United States in the April 28, 1976, Understanding.

In view of the foregoing, and in consideration of the Understanding effectuated by the exchange of diplomatic notes concluded April 28, 1976, the Board's responsibilities under section 1102 of the Act, and the effect of the Understanding in providing assurance that the U.S.-originating public will have the opportunity to travel to the United Kingdom under charter rules found by the Board to be in the public interest, the Board finds that the provisions of the April 28, 1976, Understanding represent a special circumstance which warrants the grant of waivers of the Board's various charter regulations to the extent necessary to permit U.S. certificated carriers and U.K. foreign air carriers to operate charters originating in the United Kingdom pursuant to the U.K. charter rules, and that the grant of such waivers would be in the public interest. Similarly, the Board finds that it is in the public interest to exempt U.S. indirect air carriers, pursuant to section 101(3) of the Act, from the provisions of Title IV of the Act insofar as is necessary to permit any such direct air carrier to organize U.K.-originating charters operated under U.K. rules pursuant to the provisions of the Understanding.[2]

In light of the Understanding providing for acceptance as charterworthy of those U.K.-originating charters operated pursuant to U.K. charter regulations, no useful purpose would be served by requiring waiver applications with respect to individual charter flights or series of flights. Accordingly, the Board finds that it is in the public interest to grant a blanket waiver from the charter regulations for all U.S. certificated carriers, and for U.K. carriers holding foreign air carrier permits issued by the Board, extending for the duration of the Understanding (or the Understanding as it may be extended), the exemptions for indirect air carriers will extend for the same duration.[3]

Accordingly, it is ordered That:

1. To the extent respectively applicable, waivers of the provisions of sections 207.11, 208.6, 212.8, and 214.7 of the Board's Economic Regulations (except with respect to the provisions of such sections governing charters to direct air carriers and direct foreign air carriers for commercial traffic), and of such other provisions of the Board's charter regulations as would otherwise be inconsistent with the waivers granted herein, be and they hereby are granted to all U.S. air carriers authorized to provide charter service (including off-route charter service) between the United Kingdom and the United States,[4] and all foreign air carriers of U.K. nationality holding foreign air carrier permits authorizing charter service (including off-route charter service) between the United Kingdom and the United States, insofar as is necessary to permit such air carriers and foreign air carriers to operate charters originating in the United Kingdom and destined for the United States in accordance with rules governing the charterworthiness of such charters as applied by the U.K. aviation authorities: *Provided, however*, That such waivers shall apply only to the extent contemplated by the Understanding incorporated in the exchange of diplomatic notes between the United States and the United Kingdom, concluded April 28, 1976, (or such Understanding as it may be amended, modified, or extended); *And provided further*, That the waivers granted herein shall not relieve such carriers from the requirements contained in Parts 207, 208, 212, and 214 of the Board's Economic Regulations, other than those relating to the charterworthiness of charters performed pursuant to those regulations;

2. All U.S. indirect air carriers of passengers be and they hereby are relieved, pursuant to section 101(3) of the Act, from the provisions of Title IV of the Act, insofar as is necessary to permit any such indirect air carrier to organize U.K.-originating passenger charters pursuant to the rules governing the charterworthiness of such charters as applied by the U.K. aviation authorities in accordance with the provisions of the Understanding incorporated in the exchange of diplomatic notes between the United States and the United Kingdom concluded April 28, 1976;

3. This order may be modified, amended, or revoked by the Board without notice or hearing;

4. The waivers, exemptions, and authorization granted herein shall terminate uopn the expiration of the Understanding on Passenger Charter Air Services incorporated in an exchange of diplomatic notes between the United States and the United Kingdom concluded April 28, 1976, or such Understanding as it may be amended, modified, or extended; and

5. This order shall be served upon all U.S. air carriers holding a certificate of public convenience and necessity issued

[1] See secs. 207.16, 208.3a, 212.13, 214.3, 372.3, 372a.3, 373.30, 378.30, and 378a.3 of the Board's Economic and Special Regulations.

[2] The Board has declined to exercise jurisdiction over foreign indirect air carriers organizing foreign-originating charters. Accordingly, no additional authority is needed to permit U.K. indirect air carriers to organize U.K.-originating charters according to U.K. rules.

[3] Similar waivers have been granted by the Board with respect to Canadian-originating charters (order 75-5-37, dated May 8, 1974) and Swiss-originating charters (order 76-1-2, dated Jan. 2, 1976), pursuant to a charter Agreement and Understanding with these countries.

[4] Pursuant to sec. 401(e)(6) of the Act, and in the absence of any Board regulations precluding such operations, U.S. carriers holding certificates of public convenience and necessity issued by the Board pursuant to sec. 401(d)(1) of the Act are authorized to provide off-route charter service between the United Kingdom and the United States in accordance with Board regulations.

by the Board, all U.K. holders of, and applicants for, a foreign air carrier permit, the Departments of State and Transportation, and the Ambassador of Great Britain.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[Order 76-7-100; Docket 27573, Agreement C.A.B. 25280, R-1 through R-8, R-10 through R-19, R-21]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Composite Cargo Rate Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 27th day of July, 1976.

In the Board's policy statement issued prior to the worldwide cargo conference of the members of the International Air Transport Association (IATA) held in Nice in May 1975, the Board expressed its concern about the erosion in revenue yields which occurs when the rates applicable to direct routings between foreign and U.S. points are applied over circuitous routings via higher-rated intermediate points. Not withstanding carrier claims of competitive necessity, the Board considered such matching of rates as questionable since the carriers would seek to compensate for such yield erosion by increasing point-to-point rates.

Despite the Board's request that the carriers address the issue, the Nice cargo rate agreement contained no provisions for routing control to prevent yield erosion. Those carriers who addressed the point in their comments to the Board contended that the absence of routing controls is clearly justified by cost considerations in allowing carrier flexibility in choice of the most efficient routing and the use of capacity in any given market and that routing controls are unnecessary since shippers generally select the better service that a direct routing offers. TWA, on the other hand, indicated its belief that routing flexibility should be restricted to those carriers certificated to provide direct service; however, it believed that intergovernment consultations were the proper forum to resolve the problem.

By Order 76-1-17, January 5, 1976, the Board conditioned its approval of IATA resolution 014b to preclude the carriers' filing rates between U.S. and foreign points at the direct routing level where the carriers' operating authority would require an actual routing through a higher-rated intermediate point.

Petitions for reconsideration of the Board's action have been filed by a number of carriers.[1] In general, the European carriers contend that as the IATA North Atlantic cargo rate agreement has not been implemented, the Board's condition is moot; that the Board failed to make legal findings and to justify the condition (a view also shared by Pan American World Airways, Inc.); that the Board's action is inconsistent and contrary to the powers conferred by the Federal Aviation Act, does not comply with the Administrative Procedure Act, disrupts present competitive relationships, and is unjustly discriminatory and unduly prejudicial.

National Airlines, Inc. alleges that the condition would impede Miami's growth as major gateway and suggests language to exclude Miami from the Board's condition while Seaboard World Airlines, Inc. objects to the alleged ambiguity in the language of the Board's condition, the adverse impact on intermodal air-truck transport, and the competitive burden on U.S. carriers whose route authority is not equal to foreign carriers. Both Seaboard and Pan American refer to possible unilateral action by foreign governments to alter the U.S. carriers' permits to make these carriers less competitive.

The Board has decided to grant the petitions for reconsideration to the extent of deferring the application of our proposed condition. While we are not convinced by the petitioners' arguments that our condition should be rescinded, we have decided to stay the condition in order that the carriers may have a further opportunity to address this issue within IATA in an effort to secure an agreement establishing cargo routing controls satisfactory to this Board. Depending on the outcome of that IATA review, the Board will consider what further action appears appropriate.

The Board, acting pursuant to sections 102, 204(a) and 412 of the Act, finds that implementation of the condition placed on IATA Resolution 014b in Order 76-1-17 dated January 5, 1976, should be deferred pending further order of the Board.

Accordingly, it is ordered, That: Implementation of the condition placed on IATA Resolution 014b, Construction Rule for Cargo Rates, by Order 76-1-17, dated January 5, 1976, be and hereby is deferred until further order of the Board.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

COMMISSION ON CIVIL RIGHTS

ALABAMA ADVISORY COMMITTEE

Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Alabama Advisory Committee (SAC) to this Commission will convene at 1:30 p.m. and end at 5:30 p.m. on August 19, 1976, at 1:30 p.m. and end at 5:30 p.m. on August 19, 1976, at the Hyatt House, Room 1701, 901 21st Street, Birmingham, Alabama 35203.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Southern Regional Office of the Commission, Citizens Trust Bank Building, Room 362, 75 Piedmont Avenue, NE., Atlanta, Georgia 30303.

The purpose of this meeting is discussion of programs made by State of Alabama in complying with court orders regarding prison system discussion of work release programs for inmates; discussion of women and minorities in State Government.

This is a planning meeting to select the major area of investigation for the Alabama Advisory Committee for this fiscal year.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., July 26, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.76-22252 Filed 7-30-76;8:45 am]

MARYLAND ADVISORY COMMITTEE

Meeting Cancellation

Notice is hereby given, pursuant to the Rules and Regulations of the U.S. Commission Civil Rights, that the meeting scheduled for August 9, 1976, of the Maryland Advisory Committee (SAC) to the Commission published in the FEDERAL REGISTER on Wednesday, July 21, 1976, on page 30055 (FR Doc. 76-21092) is hereby cancelled.

Dated at Washington, D.C., July 26, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.76-22253 Filed 7-30-76;8:45 am]

MARYLAND ADVISORY COMMITTEE

Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Maryland Advisory Committee (SAC) to this Commission will convene at 10:00 a.m. and end at 4:00 p.m. on September 11, 1976, at 2404 Ken Oak Road, Baltimore, Maryland 21209.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Mid-Atlantic Regional Office of the Commission., 2120 L Street, NW., Room 510, Washington, D.C. 20037.

The purpose of this meeting are reports of subcommittee activities and project planning for SAC activities for next 12–18 months.

This meeting will be conducted, pursuant to the Rules and Regulations of the Commission.

V 41 149 AUG 2 76 UMI

Dated at Washington, D.C., July 26, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.76-22254 Filed 7-30-76;8:45 am]

MINNESOTA ADVISORY COMMITTEE

Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Minnesota Advisory Committee (SAC) to this Commission will convene at 1:30 p.m. and end at 5:00 p.m. on September 7, 1976, at 11 East Kellogg Blvd., St. Paul, Minnesota 55101.

Persons wishing to attend this meeting should contact the Committee Chairperson, or the Mid-Western Regional Office of the Commission, 230 South Dearborn Street, 32nd Floor, Chicago, Illinois 60604.

The purpose of this meeting: Followup (1) School Desegregation Hearing; (2) Native American Report; (3) New Project and (4) Time and scheduling of meetings.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., July 27, 1976.

FEDERAL ENERGY ADMINISTRATION

COASTAL STATES GAS CORP. ET AL.

Domestic Crude Oil Allocation Program; Public Hearings and Request for Comments

The Federal Energy Administration (FEA) hereby gives notice that a public hearing will be held on August 13, 1976, concerning the Applications for Exceptions from the provisions of § 211.67(d)(4) of the Mandatory Petroleum Allocation Regulations (10 CFR 211.67(d)(4)) filed by the following firms on the dates indicated below:

Coastal States Gas Corporation—June 9, 1976
Southwestern Refining Company—June 11, 1976
Standard Oil Company of Ohio—June 30, 1976
Energy Corporation of Louisiana Ltd.—July 19, 1976.

The FEA also invites written comments from any interested party with respect to these exception applications.

On March 29, 1976, the FEA issued amendments to the Domestic Crude Oil Allocation Program (41 FR 13899, April 1, 1976) as set forth in 10 CFR 211.67 by adopting 10 CFR 211.67 (a)(3) and 10 CFR 211.67(d)(4). Section 211.67(a)(3) provides in pertinent part as follows:

For each month • • • each eligible firm that has imported an eligible product in that month shall be issued a number of entitlements equivalent to thirty (30%) percent of the number of entitlements that would be received by a refiner (without giving effect to the provisions of § 211.67(e)) in that month with respect to inclusion of a number of barrels of crude oil in that refiner's crude oil runs to stills equal to the number of barrels of that eligible product imported by that eligible firm. • • •

Section 211.67(d)(4) provides in pertinent part as follows:

For purposes of the calculations [of entitlements] the volume in excess of the first 5,000 barrels per day of a refiner's crude oil runs to stills for a particular month attributable to production of residual fuel oil for sale (whether directly for consumption or resale) by that refiner in or into the East Coast market shall be reduced by fifty (50%) percent. • • •

The approval of exception relief to any of the above applicants would increase the entitlement benefits which the firms would realize with respect to the residual fuel oil which they produce and sell in the East Coast market. Furthermore, the relief requested in the exception applications, if granted, would affect all of the participants in the Domestic Crude Oil Allocation Program as well as those firms which refine, market, or purchase residual fuel oil. The exception applications also raise general questions as to the extent to which the applicants are affected in a disproportionately severe manner by 10 CFR 211.67(a)(3) and 10 CFR 211.67(d)(4). In addition, these exception applications present significant issues as to whether the implementation of 10 CFR 211.67(a)(3) and 10 CFR 211.67(d)(4) have an unduly adverse impact upon the effectuation of such important national energy goals as the expansion of domestic defining capacity. In view of these considerations, the FEA has determined that it is appropriate that a public hearing be held with respect to the four exception applications referred to above in order to afford interested parties an opportunity to present their views in the matter.

Comments are specifically invited with regard to the allegations advanced by the applicants that they are adversely affected in a disproportionately severe manner by the FEA regulatory program and the effect which the potential removal of import fees would have on the problems described in the exception applications.

The public hearing will be held beginning at 9:30 a.m., e.s.t., August 13, 1976, in Room 2105, 2000 M Street, N.W., Washington, D.C. Copies of the four exception applications referred to above from which confidential information has been deleted are available in the Public Docket Room of the Office of Private Grievances and Redress, FEA, Room B-210, 2000 M Street, N.W., Washington, D.C., between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., Monday through Friday.

Interested persons are invited to participate by submitting data, views or arguments to Executive Communications, Room 3309, Federal Energy Administration, Box IF, Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Applications for Exceptions to 10 CFR 211.67(d)(4)." All comments received by August 17, 1976 and all other relevant information will be considered by the Federal Energy Administration. Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Any person who has an interest in the subject matter, or who is a representative of a group or class of persons that has such an interest, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, Room 3309, FEA, Box IF, Washington, D.C. 20461 and must be received before 4:30 p.m., e.s.t., August 11, 1976. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and phone number where he or she may be contacted through August 12, 1976. Each person selected to be heard will be so notified by the FEA before 5:00 p.m., e.s.t., August 11, 1976, and must submit 50 copies of his or her statement to the Office of Allocation Regulation Development, FEA, Room 2105, 2000 M Street, N.W., Washington, D.C., by 9:00 a.m., e.s.t., August 13, 1976.

The FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearings will be based on all information available to the FEA. At the conclusion of all initial oral statements, if time permits, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested persons may submit questions, to be asked of any person making a statement at the hearings, to Executive Communications, FEA, Room

3309, Box IF, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., before 4:30 p.m., e.s.t., August 12, 1976. Any person who wishes to ask a question at the hearings may submit the questions, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearings will be made and the entire record of the hearings, including the transcript, will be retained by the FEA and made available for inspection at the Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, N.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, other than Federal holidays. Any person may purchase a copy of the transcript from the reporter.

DAVID G. WILSON,
Acting General Counsel.

JULY 30, 1976.

CONSUMER AFFAIRS/SPECIAL IMPACT ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Consumer Affairs/Special Impact Advisory Committee will meet Wednesday, August 11, 1976, at 9 a.m., Room 5041, FEA Headquarters, 12th and Pennsylvania Avenue, NW., Washington, D.C.

The Committee was established to provide the Administrator, FEA, with diversified information and experiences possessed by a wide range of highly qualified individuals who have been extensively involved in planning, development, and implementation of programs to remedy the problems of the consumer, the poor, the elderly, and the handicapped persons in rural and urban America.

The agenda for the meeting is as follows:

1. Policies for a restructured consumer affairs/special impact advisory committee.
2. Policy discussion and recommendation on continuing regulatory programs.
3. Policy discussion and recommendation on FEA conservation policies.
4. Policy discussion and recommendation on alternative energy sources.
5. Policy discussion and recommendation on consumer participation in the FEA decision-making process.
6. Staff report on actions completed and undertaken in response to CA/SI advisory committee requests.

Subcommittees may meet informally Washington, D.C. the preceding evening, at the discretion of the Subcommittee Chairmen; the meetings will be open to the public. For further information on Subcommittee activities, call Lois G. Weeks, Director, Advisory Committee Management at (202) 961-7022.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform the Director, Advisory Committee Management, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Less than the normal 15-day notice is being given for this meeting in order for the Committee to focus on priorities for the restructured Committee under the renewed Charter before the current charter expires on August 16, 1976, and to submit final recommendations to the Administrator.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on July 28, 1976.

DAVID G. WILSON,
Acting General Counsel.

PETITIONS FOR RULEMAKING

None.

Board of Governors of the Federal Reserve System, July 26, 1976.

[SEAL] J. P. GARBARINI,
Assistant Secretary of the Board.

[FR Doc.76-22358 Filed 7-30-76;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of June 22, 1976

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on June 22, 1976.[1]

The information reviewed at this meeting suggests that growth in real output of goods and services, which had been vigourous in the first quarter, has moderated in the current quarter. In May retail sales declined from the March-April level and were near the monthly average of the first quarter. However, recovery in industrial production continued at about the average pace of the first 4 months of the year, and the gain in employment again was substantial. The unemployment rate declined from 7.5 to 7.3 percent. The rise in the wholesale price index for all commodities, which had been large in April, was moderate in May; average prices of farm products and foods rose much less than in April. Average prices of industrial commodities changed little in May, but in recent weeks price increases have been announced for some major industrial materials. The rise in consumer prices in May was somewhat faster than the average increase in earlier months of the year, owing to increases in prices of food and energy items. The advance in the index of average wage rates was larger in May than the gains in other recent months, owing in part to implementation of a new labor contract in a major industry.

The average value of the dollar against leading foreign currencies has been relatively steady in recent weeks. On June 7 a total of $5.3 billion of 6-month standby credits to the United Kingdom was announced, including $1 billion under the Federal Reserve System's swap line and $1 billion from the Exchange Stabilization Fund. Subsequently, the decline in the pound sterling was halted and partly reversed. In April the U.S. foreign trade deficit was at the same rate as in the first quarter.

Growth in monetary aggregates slowed substantially in May and early June from the exceptionally rapid rates recorded in April, mainly because of a sharp slackening in expansion of demand deposits at commercial banks; inflows of those time and savings deposits included in the broader aggregates were relatively well maintained. Market interest rates in general rose somewhat further in the latter part of May, but since then, short-term rates have fluctuated in a narrow range and long-term rates have edged down.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions that will encourage continued economic expansion, while resisting inflationary pressures and contributing to a sustainable pattern of international transactions.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the period ahead.

By order of the Federal Open Market Committee, July 23, 1976.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.76-22310 Filed 7-30-76;8:45 am]

FIRST GUARANTY BANK

Order Approving Application for Merger of Banks

First Guaranty Bank, Hurt, Virginia (Applicant), a member state bank of the Federal Reserve System, has applied to the Board of Governors of the Federal Reserve System for prior approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) to merge with Schoolfield Bank and Trust Company, Danville, Virginia (Schoolfield), the resulting bank to continue as a member state bank under the charter of Applicant with the name of First Virginia Bank-South. As an incident to the merger, the three existing offices of Schoolfield would become authorized branch offices of the resulting bank.

As required by the Bank Merger Act, notice of the proposed merger, in form approved by the Board of Governors, has been published and reports on competitive factors have been requested from the Attorney General, the Comptroller of the Currency and the Federal Deposit Insurance Corporation.

The Federal Reserve Bank of Richmond (Reserve Bank), acting under authority delegated by the Board of Governors of the Federal Reserve System (12 C.F.R. 265), has considered the application and all comments and reports re-

[1] The Record of Policy Actions of the Committee or the meeting of June 22, 1976 is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

V 41 149 AUG 2 76 UMI

ceived in the light of the factors set forth in the Bank Merger Act.

Applicant and Schoolfield are both wholly owned subsidiaries of First Virginia Bankshares Corporation, the state's sixth largest banking organization. The two banks operate in adjacent banking markets which include for Applicant the northern portions of Pittsylvania County, the City of Lynchburg and the nearby Virginia counties of Amherst, Appomattox, Bedford and Campbell. Schoolfield's market includes the City of Danville, the remaining portions of Pittsylvania County and the northern portions of Caswell and Rockingham Counties, North Carolina. As of March 31, 1976, Applicant held deposits of $1.9 million representing approximately 0.3 percent of its market's total deposits. Schoolfield, with deposits of $27.6 million, ranked fourth in size in its market with approximately 9.6 percent of total bank deposits.

The merger of Schoolfield into Applicant would result in no change in First Virginia Bankshares' relative position in the state or in either of the banking markets involved and would have no adverse effects upon competition in the area. On the contrary, this reorganization within the parent holding company could result in increased competition since the resulting bank would be a more likely vehicle for expanding in Pittsylvania County than the Applicant. Schoolfield may establish branches only in the City of Danville and surrounding Pittsylvania County within a radius of five miles, while Applicant and the resulting bank may branch throughout Pittsylvania County and within the City of Danville.

The financial and managerial resources and future prospects of the two banks proposing to merge and of the resulting institution have been considered and are considered consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served lend some weight in support of approval since the applicant, following merger, could offer [illegible] customers larger loans without resorting to participations with other subsidiaries of the holding company. In addition, there should be a pooling of resources within the merging banks and a reduction of duplicated services that would result in more efficient operations and improved customer services.

On the basis of the record in this case, the application is approved for the reasons summarized above. However, the transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmon pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective July 20, 1976.

GEORGE C. RANKIN,
First Vice President.

[FR Doc.76-22307 Filed 7-30-76;8:45 am]

FIRST MISSOURI BANKS, INC.

Acquisition of Bank

First Missouri Banks, Inc., Creve Coeur, Missouri, has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of First Missouri Bank of West County, St. Louis County, Missouri. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

First Missouri Banks, Inc. is also engaged in the following nonbank activities none of them directly but by holding stock in various banks and nonbank subsidiaries which furnish accounting, purchasing, auditing and management services. In addition to the factors considered under § 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in § 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than August 18, 1976.

Board of Governors of the Federal Reserve System, July 26, 1976.

J. P. GARBARINI,
Assistant Secretary of the Board.

[FR Doc.76-22308 Filed 7-30-76;8:45 am]

NABACH, INC.

Formation of Bank Holding Company

Nabach, Inc., Farmer City, Illinois, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. § 1842(a)(1)) to become a bank holding company through acquisition of 52 per cent of the voting shares of State National Bank of Lincoln, Lincoln, Illinois. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

Nabach, Inc., Farmer City, Illinois has also applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to continue to engage in the activity of acting as investment or financial adviser to the extent of providing portfolio investment advice. Notice of the application was published on May 27, 1976 in The Farmer City Journal, a newspaper circulated in Farmer City, Illinois. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 24, 1976.

Board of Governors of the Federal Reserve System, July 26, 1976.

J. P. GARBARINI,
Assistant Secretary of the Board.

INTERNATIONAL TRADE COMMISSION

[AA1921-154]

ACRYLIC SHEET FROM JAPAN

Determination of Injury

JULY 26, 1976.

On April 26, 1976, the United States International Trade Commission received advice from the Department of the Treasury that acrylic sheet from Japan, other than that produced and sold by Mitsubishi Rayon Company, Ltd., is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). Accordingly, on May 4, 1976, the Commission instituted investigation No. AA1921-154 under section 201(a) of said act to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Notice of the institution of the investigation and of a public hearing to be held in connection therewith was published in the FEDERAL REGISTER on May 10, 1976, (41 F.R. 19163). Notice of amendment of the notice of investigation and hearing was published in the FEDERAL REGISTER on May 18, 1976 (41 F.R. 20454).

In arriving at its determination, the Commission gave due consideration to all written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of the investigation, the Commission has determined by a vote of 3 to 3,[1] that an industry in the United States is being injured by reason of the importation of acrylic sheet from Japan that is being, or is likely to be sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Statement of Reasons for Affirmative Determination of Commissioners George M. Moore, Catherine Bedell, and Joseph O. Parker.

In our opinion an industry in the United States is being injured by reason of the importation into the United States of acrylic sheet from Japan which is being, or is likely to be, sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended. The reasons in support of this determination are set forth below.

THE PRODUCT

The imported product found to be sold at LTFV by the Department of the Treasury (Treasury) is acrylic sheet. Although there are some differences in the price and the physical properties of sheet made by different manufacturing processes, for most applications, sheet produced by one process is directly competitive with that produced by other processes. The term "acrylic sheet" for the purposes of our determination in this proceeding includes all such sheet irrespective of the method of manufacture.

THE INDUSTRY

In this determination we have considered the industry in the United States which is being injured by reason of sales at LTFV to consist of the facilities devoted to the production of acrylic sheet. Twelve firms produced acrylic sheet in the United States in 1975.

LTFV SALES

Treasury examined the sales during the period March–July 1975 of the two principal Japanese firms exporting to the United States. These two concerns supplied more than 70 percent of Japanese exports of acrylic sheet during that period. Although both firms were found to have sold at LTFV, Treasury discontinued its investigation of one producer, Mitsubishi Rayon Co., Ltd. (MRC), because the weighted average margin on that firm's sales was minimal and the firm satisfied other Treasury requirements for a discontinuance. The other Japanese producer, Kyowa Gas Chemical Industry Co., supplied about two-thirds of the sales examined by Treasury. It had a weighted average LTFV margin of almost 50 percent on its export sales to the United States. The Commission's investigation disclosed that this large LTFV margin more than equaled the amount by which these imports undersold domestically produced acrylic sheet.

MARKET PENETRATION

LTFV imports of acrylic sheet from Japan (total imports from Japan less those produced by MRC) increased by 300 percent between 1974 and 1975. It was in the period March-July 1975 that Treasury examined imports of acrylic sheet from Japan and found that it was being sold at LTFV. As a share of apparent U.S. consumption of acrylic sheet, the LTFV imports increased fourfold from about 1 percent of consumption in 1974, a year of shortages and exceptionally strong demand in the United States, to about 5 percent in the recession year 1975, when demand for the product declined sharply.

The 1975 surge in LTFV imports occurred at a time when U.S. producers' domestic shipments and U.S. consumption of acrylic sheet were declining by 22.3 and 20.5 percent, respectively, from the levels sustained in the years 1973–74. Thus, the increase in LTFV imports clearly exacerbated the injury that the U.S. industry was already experiencing as a result of the economic recession in 1975. The decline in U.S. consumption and the increase in LTFV imports caused U.S. producers to reduce production. The rate at which they operated their acrylic sheet facilities declined from 100 percent of capacity in 1973 to 60 percent in 1975.

PRICE DEPRESSION

LTFV imports of Japanese acrylic sheet undersold domestically produced acrylic sheet by amounts ranging from 2 to 18 cents per square foot on typical high-volume items during the 1974–75 period. This underselling was equal to as much as 24 percent of U.S. producers' prices. In late 1974 and 1975, the underselling and availability of large quantities of acrylic sheet from Japan resulted in Japanese suppliers of LTFV imports increasing their share of the U.S. market. This development contributed to the reductions (as much as 24 percent) in U.S. producers' prices to their largest customers.

The effect of LTFV imports in the U.S. market is further seen in a comparison of the price index for acrylic sheet with the price index for all rubber and plastic products. In April 1976 the index of U.S. producers' prices of 0.125-inch-thick cast acrylic sheet to each producer's three largest customers was only 12 percent above January 1973 levels, whereas the price index of all rubber and plastic products was 38.5 percent above January 1973 levels.

LOST SALES

Evidence obtained by the Commission from U.S. producers of acrylic sheet demonstrates that sales were lost to Japanese exporters. Purchasers verified that in late 1974 and 1975 they increased their purchases of acrylic sheet from Japanese suppliers, including suppliers of LTFV imports, at the expense of reducing their purchases from U.S. producers in order to take advantage of the lower prices of the Japanese material.

PROFIT AND LOSS

During the years 1971–74 the ratio of U.S. producers' net operating profit to net sales for their acrylic sheet operations ranged between 11.3 percent in 1971 and 18.3 percent in 1972 and averaged about 15 percent for the 4-year period. In 1975, the year in which Treasury found sales at LTFV, this ratio dropped to 1.7 percent.

It is recognized that in 1975 the domestic acrylic sheet industry was suffering from the economic recession. Therefore, the presence of LTFV imports and offers of large quantities of LTFV imports served to aggravate the injury caused by the recession. LTFV imports have an even greater impact under these conditions.

CONCLUSION

Accordingly, we have determined that an industry in the United States is being injured by reason of the importation of acrylic sheet from Japan found by Treasury to be, or likely to be, sold at LTFV.

STATEMENT OF REASONS FOR NEGATIVE DETERMINATION OF CHAIRMAN WILL E. LEONARD, VICE CHAIRMAN DANIEL MINCHEW AND COMMISSIONER ITALO H. ABLONDI

On April 26, 1976, the U.S. International Trade Commission instituted investigation No. AA1921-154 under section 201(a) of the Antidumping Act, 1921, as amended. The investigation was made to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation into the United States of acrylic sheet from Japan that the Department of the Treas-

[1] Commissioners Bedell and Parker found in the affirmative, and Commissioner Moore found in the affirmative by determining that an industry in the United States is being or is likely to be injured; Chairman Leonard, Vice Chairman Minchew, and Commissioner Ablondi found in the negative. Pursuant to section 201(a) of the Antidumping Act, 1921, as amended, the Commission is deemed to have made an affirmative determination if the Commissioners of the said Commission voting are evenly divided as to whether its determination should be n the affirmative or in the negative.

V41149 AUG 2 76 UMI

ury (Treasury) has determined is being, or is likely to be, sold at less than fair value (LTFV) within the meaning of such act. In order to find affirmatively, the Commission must find two conditions satisfied in this investigation. First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be being prevented from being established.[1] Second, such injury or likelihood of injury must be "by reason of" the importation into the United States of the class or kind of foreign merchandise which the Treasury has determined is being, or is likely to be, sold at LTFV.

On the basis of the information developed in the investigation, we have determined that any injury which the domestic industry may be experiencing or may be likely to experience is not by reason of LTFV imports. Therefore the second condition, that of causation, has not been satisfied, and we have made a negative determination.

THE PRODUCT

Acrylic sheet, more commonly known as plexiglas,[2] resembles glass in appearance. It is made by one of three processes (i.e., cell-casting, continuous-casting and extrusion) that are utilized to polymerize methyl methacrylate (MMA) into sheet form. More cell-cast sheet is produced in the United States than either continuous-cast or extruded sheet. Acrylic sheet is made in a number of thicknesses and sizes and is used in applications such as glazing, signs, lenses, diffusers, skylights, and floor- and chair-mats. Although acrylic sheet is available in a wide variety of colors, the bulk of production is clear and/or translucent white.

U.S. INDUSTRY

The U.S. industry most likely to be adversely affected by the LTFV imports with which this investigation is concerned consists of the facilities in the United States devoted to the production of acrylic sheet by the cell-cast, continuous-cast and/or extruded method. This is the only industry which will be considered herein; no evidence was presented to show that any other industry was possibly injured or threatened with injury by the subject LTFV imports, and it is extremely unlikely that another would be injured or threatened with injury if the industry most likely to be adversely affected is not so injured or threatened, as we find to be the situation in this investigation. Although the method used to manufacture acrylic sheet affects its properties and its cost, and hence to some extent its end-use applications, most sheet made by any of the three processes can be used for the same purpose, is directly competitive, physically interchangeable, and is sold through the same channels of distribution. The acrylic sheet industry here identified currently comprises 12 known manufacturers, 6 of which produce cast sheet (cell and/or continuous) and 6 of which produce extruded sheet.

NO INJURY BY REASON OF LTFV IMPORTS

Import penetration.—Total imports from Japan accounted for only 4.7 percent of domestic consumption during the period of Treasury's investigation. Imports from Japan sold at LTFV, i.e., imports other than those produced by Mitsubishi Rayon Co. (MRC), which was excluded from Treasury's LTFV determination, accounted for less than 3.5 percent in this same period. The LTFV import penetration ratio was about 5 percent for all of 1975, droping significantly to less than 2 percent in the period of January-April 1976. This relatively low import penetration throughout 1975, the only period where the industry may have been injured, occurred during the worst economic recession in the United States since the Great Depression. In light of this rather small import penetration during the period of great economic problems attributable to a recessionary period, it is difficult to attribute any identifiable injury to LTFV imports.[4]

Lost sales.—During 1974, the domestic industry began putting its regular acrylic sheet customers on allocation. Purchasers sought alternate suppliers, including Japanese sources, in an effort to assure themselves of a continuous source of supply. With this background, allegations of lost sales to LTFV imports in 1975 were made by the domestic industry. However, the Commission's investigation revealed that few lost sales could be documented, and that about half of the lost sales that could be documented were lost to non-LTFV imports from Mitsubishi Rayon Co. The number of documented LTFV lost sales were insignificant, and lost sales, given the allocation practices in 1974, cannot be shown to have been lost because of price discrimination.

Prices.—While the imported sheet sold at lower prices than the domestic product during 1975, the period of possible injury, part of this price difference is explained by circumstances of the sales. Domestic producers provide considerable technical assistance and are able to deliver acrylic sheet directly from inventory. In contrast, Japanese importers provide no technical assistance, and the time lapse between placing an order and delivery ranges between 30 and 90 days.

The end of the methyl methacrylate monomer shortage and a depressed demand for acrylic sheet in 1975 caused the market for sheet to become over supplied, thus forcing prices of both domestic and imported sheet to drop to their lowest levels since 1973. There has been no indication that any price depression or suppression experienced by the domestic industry is by reason of the importation of LTFV imports from Japan rather than as a result of the intense domestic price competition which usually accompanies a period of depressed demand for a product with rather limited uses and close substitutes. Indeed, for the years preceding 1975, a period in which the industry was doing well, Japanese imports undersold domestic sheet by significant amounts, to a large extent as a result of the different circumstances of sales referred to above. The only change in the situation in 1975 was the recession. Further, in January–April, 1976, when prices of the domestic product continued to fall compared to 1975 prices, LTFV imports declined from previous low levels, accounting for less than 2 percent of domestic consumption in that period and the prices of such imports were higher than those of the domestic product. Thus, we cannot conclude that any price suppression or depression with respect to the domestic product is "by reason of" LTFV sales.

Employment.—The ratio of man-hours involved in the production of acrylic sheet to man-hours involved in the production of all items produced by the same establishments increased steadily from 1971 to 1975, with a significant rise in the period January–April 1976. From 1971–1975, the trend of employment of production and related workers engaged in the production of acrylic sheet was similar to that of production and related workers engaged in the production of all items. In 1975, employment in both areas declined. From Jan.–April 1976, employment in both areas, including the acrylic sheet industry, increased. Thus, it can be seen that the trend of employment in the acrylic sheet industry paralleled that in production of all items in establishments producing acrylic sheet, indicating that imports had no effect on employment.

Profitability of domestic industry.—The acrylic sheet industry in the United States was rather profitable during the period 1971–1974 with net operating profits ranging from 11.3 percent to 18.3 percent of net sales. Although the ratio of net profits to net sales declined to 1.7 percent in 1975, the ratio increased dramatically in the first part of 1976 to 19.5 percent of net sales. In addition, no discernible difference in the profit pattern for acrylic sheet compared with that of the overall operations of the domestic producers was observed, indicating that any injury experienced by the acrylic sheet industry was not by reason of the LTFV imports, but rather as a result of the general economic conditions and the decreased demand for acrylic sheet.

NO LIKELIHOOD OF INJURY BY REASON OF LTFV IMPORTS

Although the Japanese acrylic sheet industry had substantial unused capacity in 1975, there is no reason to expect a sudden increase in import penetration. It is anticipated that economic recovery will result in greater utilization of capacity in both countries. While it is not expected that the Japanese will increase capacity for acrylic sheet production in the forseeable future, confidence in the future of the domestic industry is reflected by the fact that DuPont is scheduled to initiate production of acrylic sheet in August 1976 at a rated capacity of 30 million pounds annually.

Structural factors in the domestic industry indicate that imports will face difficulties in capturing a larger share of the domestic market. With the advent of DuPont's production of acrylic sheet, at least 75 percent of domestic production of acrylic sheet will have its own source of methyl methacrylate monomer, the primary raw material used in the production of acrylic sheet, making it difficult for imports to compete with this vertically structured industry. In addition, the current dominant U.S. producer has an exceptionally strong distributor network as well as a strong product image.

CONCLUSION

Because one of two conditions necessary for an affirmative determination, that any injury or likelihood of injury being experienced by a domestic industry be "by reason of" LTFV sales, is not satisfied, we conclude that an industry in the United States is not being and is not likely to be injured by reason of the importation of acrylic sheet from Japan that is being, or is likely to be, sold at LTFV within the meaning of the Antidumping Act, 1921, as amended.

By order of the Commission.

Issued: June 28, 1976.

KENNETH R. MASON,
Secretary.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; WORKING GROUP ON FIRE PROTECTION

Meeting; Change of Time

The August 11, 1976 meeting of the ACRS Working Group on Fire Protection, announced in FEDERAL REGISTER, Vol. 41, page 30748, Monday, July 26, 1976, will meet in Executive Session at 8:30 a.m. instead of 11 a.m., and the open session will follow at 9 a.m. instead of 11:30 a.m. and will continue until conclusion of business.

All other matters pertaining to this meeting remain the same.

Dated: July 28, 1976.

JOHN C. HOYLE,
Advisory Committee Management Officer.

[FR Doc.76-22373 Filed 7-30-76;8:45 am]

[Docket No. 50-293]

BOSTON EDISON CO.

Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-35 issued to Boston Edison Company (the licensee) for operation of Unit No. 1 of the Pilgrim Nuclear Power Station (the facility), a boiling water reactor located near Plymouth, Massachusetts.

In accordance with the licensee's application for a license amendment dated November 17, 1975 and supplements thereto dated March 1, 1976, March 19, 1976 and April 12, 1976, the amendment would impose operating limits in the Technical Specifications for single loop operation based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model, modified to apply to single loop conditions, that conforms to the requirements of the Commission's regulations in 10 CFR 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By September 1, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commisison's regulations. A petition for leave to intervene must set forth the interest of the petitoner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the proviisons of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commisison, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Mr. Dale G. Stoodley, Counsel, Boston Edison Company, 800 Soylston Street, Boston, Massachusetts 02199, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating conteptions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated November 17, 1975 and supplements thereto dated March 1, 1976, March 19, 1976 and April 12, 1976, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Plymouth Public Library on North Street in Plymouth, Massachusetts 02360. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 23rd day of July 1976.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[Docket Nos. 50-369, 50-370]

DUKE POWER CO. (WILLIAM B. MCGUIRE NUCLEAR STATION, UNITS 1 AND 2)

Order Scheduling Prehearing Conference

Take notice, that in accordance with the "Notice of Hearing on Application for Facility Operating License" published by the Atomic Energy Commission in the FEDERAL REGISTER on October 7, 1974 (39 FR 36037), a second special prehearing conference will be held in the above-captioned proceeding on Wednesday, August 4, 1976, at 10 a.m., local time in the Mecklenburg County Administration Building, Fourth Floor Commissioners' Meeting Room, 720 East Fourth Street, Charlotte, North Carolina 28202.

The Prehearing Conference will deal with the establishment of a schedule for

V 41 149 AUG 2 76 UMI

discovery and for the convening of an evidentiary hearing in this proceeding.

Members of the public are welcome to attend the conference of parties or their counsel, however no evidence will be received and no limited appearance statements will be accepted at the prehearing conference. Statements by members of the public making limited appearances will be received at the commencement of the evidentiary hearing which will be scheduled at a later date.

For the Atomic Safety and Licensing Board.

Issued at Bethesda, Maryland this 26th day of July, 1976.

ROBERT M. LAZO,
Chairman.

[Docket Nos. 50-448, 50-449]

POTOMAC ELECTRIC POWER CO. (DOUGLAS POINT NUCLEAR GENERATING STATION, UNITS 1 AND 2)

Evidentiary Hearing on Environmental Issues

When it became apparent on Friday, July 23, 1976 that the evidentiary hearing on environmental issues would not conclude on that date, it was agreed that the proceeding would resume on August 9, 1976.

Take notice, the hearing will begin at 10:30 a.m. (local time) on August 9, 1976 in the auditorium of the Thomas Stone High School, Route 5, Waldorf, Maryland. It will continue throughout the week until concluded—commencing at 9:30 a.m. each day thereafter.

The public is invited to attend. Limited appearance statements will be accepted from individuals who have not previously made statements. Oral statements will be limited to five (5) minutes but written statements, without limitation on length, may be inserted into the docket file.

It is so ordered.

For the Atomic Safety and Licensing Board.

Dated at Bethesda, Maryland this 28th day of July, 1976.

ELIZABETH S. BOWERS,
Chairman.

OFFICE OF MANAGEMENT AND BUDGET

[RECOMMENDATION A-47]

COMMISSION ON GOVERNMENT PROCUREMENT

Executive Branch Position

Notice is given that the executive branch does not accept Commission on Government Procurement Recommendation A-47 which is as follows:

Establish new standards for annually measuring the performance of procuring agencies and their prime contractors in using small business. Standards for measuring performance, including the sound use of set-aside techniques, should assess progress made in assisting small business to obtain a fair proportion of awards—not just statistical percentages.

The Commission on Government Procurement (COGP) stated in its Report that it was not satisfied with reliance on a percentage factor of total procurement awarded to small business firms as a measure of success—or lack of success—in proper utilization of small business firms. Two separate Interagency Task Groups examined this matter and attempted to develop new standards. They concluded that it is neither feasible nor economical to apply a new standard for annually measuring the performance of procuring agencies and their prime contractors in using small business. The Office of Federal Procurement Policy (OFPP) reviewed the work of the two Interagency Task Groups and further examined concepts for new standards. OFPP also concludes that new standards are not feasible or economical.

In recommending the establishment of new standards, the Commission intended that supervisory contract personnel, higher echelons of management, the Small Business Administration, and interested committees in Congress have access to the best possible information for determining that small business firms receive a fair share of total contract awards. The OFPP found that new standards are not essential to satisfy this need, as techniques and surveilance programs currently exist for providing this type of information. Examples of these are set-aside and breakout programs for small business; the Department of Defense Claimant Program which categorizes procurement into numerous groups within which the small business share or potential can be fully analyzed; and surveillance reviews by supervisory personnel of the agencies and by the Small Business Administration.

Notwithstanding the rejection of COGP Recommendation 47, its ultimate objective of full utilization of small business firms in contract performance is endorsed by OFPP. OFPP in concert with the procuring agencies and the Small Business Administration will work to fulfill the ultimate intent of the recommendation. Initial efforts will be directed toward uniform utilization of set-aside breakout and claimant programs in all agencies.

HUGH E. WITT,
Administrator for Federal Procurement Policy.

PRIVACY ACT OF 1974

Reports on New Systems

The purpose of this notice is to list reports on new systems filed with the Office of Management and Budget to give members of the public the opportunity to make inquiries about them and to comment on them.

The Privacy Act of 1974 requires that agencies give advance notice to the Congress and the Office of Management and Budget of their intent to establish or modify systems of records subject to the Act (5 U.S.C. 552a(o)). During the period July 12 through July 23, 1976 the Office of Management and Budget received the following reports on new (or revised) systems of records.

DEPARTMENT OF DEFENSE

System names: Consolidation of new and revised systems (See FEDERAL REGISTER of July 26, 1976 Part IV (Section 1).

Report date: July 2, 1976.

Agency point of contact: William T. Cavaney, Executive Director, Defense Pravacy Board, 1000 Independence Ave., SW, Washington, D.C. 20314.

DEPARTMENT OF TRANSPORTATION

System names (1) Files of the Board for Correction of Military Records (BCMR) for the Coast Guard. (2) Honors Attorney Recruitment files.

Report date: July 19, 1976.

Agency point of contact: John McGruder, Department of Transportation, Room 10320, 400 7th Street, SW, Washington, D.C. 20590.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[FR Doc.76-22240 Filed 7-30-76;8:45 am]

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

CERTAIN BRANDY

Proposed Duty Increase

By Proclamation No. 3564 of December 4, 1963 the United States suspended the application of certain trade agreement concessions on certain brandy valued over $9 per gallon (TSUS items 168.20 and 168.22). The action resulted in the placing of an additional duty on such brandy, raising the tariff from $1.25 and $1.00 per gallon, respectively, to $5.00 per gallon. This action was one of a group of actions taken in response to unreasonable restrictions maintained by the European Community (EC) on imports of poultry from the United States.

On July 16, 1974, in order to encourage the resolution of trade disputes between the European Community and the United States, and to obtain the removal of unreasonable import restrictions maintained by the EC on poultry imported from the United States, the United States provisionally restored prior trade agreement concession rates of duty on imports of brandy valued at over $9 but not more than $17 per gallon (Proclamation No. 4304 of July 16, 1974). It was the intention of the United States to provide a temporary adjustment for a limited period of time during which a satisfactory solution to the problem of EC poultry import restrictions could be found.

No solution having been reached on this problem in the intervening period, notice is hereby given of a proposed action to restore the $17/gallon price-break (above which the $5/gallon duty has applied) to the $9 level set when the concessions were suspended in 1963. It is proposed that the tariff on brandy (provided for in TSUS items 168.28 and 168.32) valued at over $9 per gallon be increased to not less than $5.00 per gallon.

This action is proposed, pursuant to sections 125 or 301 of the Trade Act of 1974 or other authority, to restore the balance of benefits of trade agreement concessions.

Anyone wishing to appear at a public hearing on this issue must submit a request to testify and 20 copies of testimony to the Office of the Special Representative for Trade Negotiations, 1800 G Street, N.W., Washington, D.C., 20506, by Aug. 16, 1976. If requests for a hearing are received from interested persons, a public hearing on the proposed U.S. action will be held on Sept. 1, 1976, in room 730, Office of the Special Representative for Trade Negotiations, 1800 G Street, N.W., Washington, D.C. Written briefs may be submitted in addition to or in lieu of testimony. Written briefs must be received by Aug. 27, 1976 in the Office of the Special Representative for Trade Negotiations.

Further details concerning any such hearing will be published in the FEDERAL REGISTER.

ALAN WM. WOLFF,
Acting Deputy Special Representative for Trade Negotiations.

JULY 28, 1976.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 19627; 70-5881]

INDIANA-KENTUCKY ELECTRIC CORP.

Proposed Agreement With Municipal Authority for Construction of Pollution Control Equipment

JULY 26, 1976.

In the matter of Indiana-Kentucky Electric Corporation, P.O. Box 468, Piketon, Ohio 45661.

Notice is hereby given that Indiana-Kentucky Electric Corporation ("IKEC"), an indirect electric utility subsidiary company of Allegheny Power System, Inc., American Electric Power Company, Inc., and Ohio Edison Company, all registered holding companies, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating Sections 9(a) and 12(d) of the Act and Rule 44(b)(3) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Ohio Valley Electric Corporation ("OVEC") and its wholly owned subsidiary company, IKEC, were each organized in 1952 under the laws of the states of Ohio and Indiana, respectively, to provide the power requirements of the gaseous diffusion plant at Portsmouth, Ohio ("Portsmouth plant"), now owned and operated by the United States Energy Research and Development Administration ("ERDA"). Arrangements for OVEC to supply power to the Portsmouth plant exist under an Atomic Energy Commission Power Agreement ("AEC Agreement") as modified from time to time. Ten participating companies own the capital stock of OVEC and 15 sponsoring companies supply power to and purchase power from OVEC (including, in each case, the holding company systems named above).

It is stated that ERDA and OVEC have signed Modification No. 7 to the AEC Agreement providing for the payment by ERDA to OVEC and IKEC of the entire cost of certain replacements of property and plant. Modification No. 7 includes any replacement (a) where such replacement is ordered or required by any regulatory agency or court having jurisdiction over the emission of pollutants or the discharge of wastes or (b) where such replacement is reasonably required to enable OVEC or IKEC to limit the emission of pollutants or the discharge of wastes. Modification No. 7 will become effective upon receipt of requisite regulatory approvals which are in the process of being obtained.

Modification #7 also provides that OVEC agrees to use its best efforts to arrange financing of pollution control replacements from sources of capital other than ERDA, unless ERDA prefers to directly finance such investment. Under Modification #7, ERDA agrees to pay an amount equal to the principal and interest due under an installment sale agreement relating to the purchase by OVEC or IKEC of any pollution control replacement. The right to receive such principal and interest payments must have been validly assigned by the seller of the pollution control replacement to a trustee under an indenture pursuant to which bonds or other debt securities shall have been issued and sold.

To supply part of the Portsmouth Plant requirements, IKEC has constructed six generating units situated in the Clifty Creek Plant in Indiana. Compliance by the Clifty Creek Plant with the air quality standards of Indiana will require the investment of an estimated $110 million for precipitators and related facilities ("project"). When completed, the project will replace existing particulate emission control equipment and facilities. By resolution adopted August 6, 1974, the City of Madison, Indiana ("City") determined to authorize and issue one or more series of its pollution control revenue bonds ("bonds") to finance the cost of engineering, design, acquisition and construction of the project and to reimburse IKEC monies previously expended for such purposes.

IKEC proposes to enter into an agreement of sale ("agreement") providing for the construction and installation of the project by the City and the issuance by the City of bonds (a) in an initial principal amount of $50 million ("Series A Bonds") and (b) additional bonds in principal amounts estimated to exceed $60 million. Proceeds of the sale of the Series A Bonds will be deposited by the City with Lincoln National Bank and Trust Company of Fort Wayne, as Trustee ("Trustee"). The proceeds will be applied to payment of the cost of the project. The Series A Bonds will be issued and secured by an indenture between the City and the Trustee.

The agreement will also provide for the sale of the project to IKEC, the payment by IKEC of the purchase price of the project in semiannual installments over a term of years and the assignment by the City to the Trustee of its interest in amounts receivable under the agreement. The agreement will provide that th obligation of IKEC to make payments to the City of the purchase price for the project shall be deemed satisfied to the extent that payments are received by the Trustee from ERDA. Each installment payable by IKEC will be sufficient to enable the City to pay interest and principal due on the Series A Bonds, including amounts payable in connection with any mandatory redemption thereof, any additional bonds or any refunding bonds. IKEC is also obligated under the agreement to pay the fees and charges of the Trustee as well as certain expenses of the City.

IKEC has the option to prepay the purchase price of the project under certain circumstances. The purchase price of the project will be required to be prepaid in the event (a) the AEC Agreement is not extended on or before August 31, 1977, or (b) the AEC Agreement is extended but later ceases to be in full force and effect.

IKEC will take necessary action to release existing facilities, which are part of the project, from the lien of its mortgage. After release from the mortgage, IKEC will convey such existing facilities to the City and will receive, out of the proceeds of the bonds, an amount equal to IKEC's original cost of the existing facilities. The existing facilities will thereupon become a part of the project which IKEC will purchase from City under the agreement. Title to the project will pass to IKEC at the time of the execution and delivery of the agreement.

It is contemplated that the Series A Bonds will be sold by the City pursuant to arrangement with a group of underwriters represented by E. F. Hutton & Company, Inc. The interest rate on the Series A Bonds will be fixed by the governing board of the City. Although IKEC will not be a party to the underwriting arrangements for the Series A Bonds, IKEC will not enter into the agreement unless the terms of the Series A Bonds and their sale by the City are satisfactory to it. IKEC understands that interest on the Series A Bonds will be exempt from federal income taxation in certain cases. IKEC has been advised that the annual interest rates on such securities can be expected at the time of issuance to be 1½-2½% lower than rates of similar obligations fully subject to federal income tax.

V 41 I 149 AUG 2 76 UMI

The Series A Bonds will be dated on or about the first day of the month in which they are issued, will bear interest semiannually, and will mature at a date or dates not later than October 14, 1992. It is expected that the Series A Bonds will not be redeemable at the option of the City within ten years from their issue date except under certain circumstances. The Series A Bonds will be subject to mandatory redemption under certain conditions.

It is stated that the Public Service Commission of Indiana has jurisdiction over certain aspects of the proposed transactions and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment.

Notice is further given that any interested person may, not later than August 23, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, and reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-22187 Filed 7-30-76;8:45 am]

[Release No. 34-12661; File No. SR-PSD-76-3]

PACIFIC SECURITIES DEPOSITORY TRUST CO.

Self-Regulatory Organizations

In the matter of proposed rule change by Pacific Securities Depository Trust Company.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 7, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

Statement of the terms of substance of the proposed rule change: The rule change consists of interface agreements between Pacific Securities Depository Trust Company ("PSD") and Depository Trust Company ("DTC") and the operational procedures of the interface which formalize and activate the reciprocal arrangements between PSD and DTC. Three reciprocal agreements have been executed by PSD and DTC which are substantially identical.

The terms of substance of the interface agreements are as follows:

1. PSD makes DTC custodian with respect to certain securities held by PSD, and the custodian agrees to promptly deliver any such securities to PSD without asserting any lien against such securities.

2. PSD warrants to the custodian that it has authority to enter into the agreement with the custodian and deliver the securities to the custodian.

3. PSD agrees to indemnify the custodian against losses incurred as a result of following the instructions of PSD, and the custodian agrees that its liability with respect to securities deposited with it by PSD will be the same as its liability with respect to securities deposited with it by other depositors.

4. The agreements continue until terminated by mutual agreement, or terminated by either party on not less than sixty days written notice to the other.

Statement of Basis and Purpose: The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the PSD/DTC interface is to further advance the establishment of the National Depository System mandated by the Securities Acts Amendment of 1975.

The PSD/DTC interface increases the capacity of PSD and DTC to facilitate prompt and accurate clearance and settlement of securities transactions for a broader group of banks and brokers and, in doing so, helps perfect the mechanism for a national system for the prompt and accurate clearance and settlement of securities transactions.

Comments were not solicited from participants. Discussions, however, have been held, on occasion, with participants which indicated a strong interest by participants in establishing the PSD/DTC interface.

PSD is of the opinion that the PSD/DTC interface will not impose any burden on competition; rather, the interface will foster and encourage competition. It will do this by permitting banks and brokers in various parts of the country to clear and settle transactions made with securities markets in different regions of the country with the ease of bookkeeping movements of securities.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its

reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file six copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L. Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before August 23, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 27, 1976.

UNITED STATES INFORMATION AGENCY

U.S. ADVISORY COMMISSION ON INFORMATION

Meeting

Pursuant to the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given of a meeting to be held on September 27, 1976. The session will commence at 9:15 a.m. in Room 600 at 1750 Pennsylvania Avenue, N.W., Washington, D.C. It will end at 12:15 p.m. and reconvene at 2:15 p.m. The Commission's agenda consists of: (a) Voice of America News and Current Affairs Programs; (b) The Bicentennial: USIA's Plans and Performance; and (c) Screening of Two USIA Films.

The session will be open to the general public. Persons wishing to attend the Commission's meeting should contact Mr. Louis T. Olom, Staff Director, U.S. Advisory Commission on Information, Room 1008, 1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547, telephone 632-5210, so that adequate space will be assured. Written statements concerning the topics set forth in the agenda should also be submitted to Mr. Olom.

WALTER W. JONES,
Chief, Management Division.

JULY 26, 1976.

VETERANS ADMINISTRATION

SPECIAL MEDICAL ADVISORY GROUP SUBCOMMITTEE ON ACADEMIC AFFAIRS

Meeting

The Veterans Administration gives notice pursuant to Public Law 92-463 that a meeting of the Subcommittee on Academic Affairs of the Special Medical Advisory Group authorized by 38 U.S.C. 4112(a) and 38 U.S.C. 5054, will be held at Chicago, Illinois, O'Hare Airport, Seven Continents Restaurant meeting room on August 13, 1976. The purpose of the Subcommittee on Academic Affairs is to advise the Administrator and the Chief Medical Director relative to care and treatment of disabled veterans, and other matters pertinent to the Veterans Adminisration's Department of Medicine and Surgery.

The meeting date of August 13, 1976 is established in order to meet scheduling requirements not within the direct control of the Veterans Administration.

Under the Veterans Administration's Exchange of Medical Information Program authority, this agency is planning to conduct a series of experiments in biomedical communications via the special purpose space vehicle Communications Technology Satellite (CTS). This technology poses distinct possibilities for pioneering cost effective advances in exchange of medical information for diagnostic, therapeutic, and educational purposes particularly to the benefit of VA hospitals, patients and medical communities located remote from medical teaching centers.

In order to begin broadcast on April 27, 1977 (the date approved by the National Aeronautics and Space Administration in contemplation of the VA's production contract) and to allow sufficient time for the VA's planned experiments during the official life of the satellite, it is essential that the contract for production of materials to be used via the satellite and the procurement cycle for earth station equipment begin by September 1, 1976. This requires that the meeting of the Subcommittee on Academic Affairs be conducted no later than August 13, 1976 to consider a proposal for such contract and thus allow sufficient time for its processing and also to allow for timely

V 41 149 AUG 2 76 UMI

commencement of the aforementioned procurement cycle.

Dated: July 27, 1976.

R. L. ROUDEBUSH,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 591-8]

ILLINOIS IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA Regional Administrator for Region V provides a summary of his findings resulting from an assessment of the overall adequacy of the implementation plan for the State of Illinois. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the national ambient air quality standards (NAAQS). In such situations, the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are substantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations, the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

BACKGROUND

On May 31, 1972 (37 FR 10862) under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator substantially approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates, sulfur dioxide, nitrogen dioxide, carbon monoxide, hydrocarbons, and photochemical oxidants for all Air Quality Control Regions (AQCR) in the State of Illinois. The implementation plan was originally designed to attain these national standards by mid-1975. Furthermore on March 8, 1973 (38 FR 6279), EPA disapproved all implementation plans with respect to maintenance of the national standards.

Following this action, on June 2, 1975, EPA identified Macon County in West-Central Interstate AQCR at the Decatur Air Quality Maintenance Area for total suspended particulates (TSP); the counties of Cook, DuPage, Kane, Lake, McHenry, and Will in Metropolitan Chicago Interstate AQCR as the Illinois-Indiana-Wisconsin Interstate Air Quality Maintenance Area (Illinois portion) for TSP, sulfur dioxide (SO_2), carbon monoxide (CO), photochemical oxidants, and nitrogen dioxide (NO_2); the counties of Peoria, Tazewell, and Woodford in Burlington-Keokuk Interstate AQCR as the Peoria Air Quality Maintenance Area for TSP and SO_2; and also the counties of Madison, Monroe, and St. Clair in Metropolitan St. Louis Interstate AQCR as the St. Louis Interstate Air Quality Maintenance Area (Illinois portion) for TSP, SO_2, and photochemical oxidants. The air quality maintenance area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national air quality standards. These AQMAs were promulgated in 40 FR 23756, June 2, 1975, and published in 40 CFR 52.735.

SIP DEFICIENCIES DETERMINED

The Regional Administrator has determined that the SIPs for the States of Minneapolis, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to demonstrate attainment and maintenance of the oxidant NAAQS. However, the specific areas where hydrocarbon controls will be needed have not yet been determined. A letter to each of the Governors of the six States in Region V has been sent explaining the analysis of the oxidant problem now under way in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors prevalent in Region V. (1) Monitored violations of the oxidant standard have occurred in all States in both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control Program gives only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate widespread oxidant non-attainment problems throughout the Region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout the metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no state has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at rural and urban sites in Illinois with the 1975 high and highest second high reading of .223 ppm and .218 ppms, respectively, occurring in Cook County. The national ambient air quality standard for oxidants is .08 ppm, not to be exceeded more than one time per year.

It is well understood that oxidants form when hydrocarbon and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend to be downwind of urban centers. The fact that oxidant readings in one State or area are greater than in another state or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringently in the first state or area. Therefore, as the above analysis suggests, the application of the solutions to the non-attainment of the oxidant standard may well need to be more widespread than in the past.

In addition to the air quality analysis presented above, the presently implemented oxidant control strategies were evaluated before making the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that at least a 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every State in Region V to achieve the oxidant standard. The emission reduction expected between 1975 and 1980 from an optimistic projection of the new motor vehicle controls, and the emission reduction expected from full implementation of the present State hydrocarbon emission limitations cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standards.

Therefore, SIPs for the six states in Region V are judged to be substantially inadequate for attainment and maintenance of the oxidant standards. This is not to say, however, that a specific set of hydrocarbon controls at this time must be implemented for all areas for which air quality has been reported over the oxidant standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975, representatives of the USEPA and the six Region V state air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was set up for the purpose of evaluating the oxidant SIP revisions. By November 1, 1976, each State is to identify these geographic areas where oxidant SIP revisions should be instituted. The Regional Administrator will by December 31, 1976, comment on the November 1, 1976, submission and provide additional guidance concerning the types of controls and geographic areas where such controls should be instituted. The State is then required to prepare by July 1, 1977, where feasible, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the NAAQS, and (2) a quantitative estimate of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the States should prepare and submit by July 1, 1978: (1) such measures for the attainment and maintenance of oxidant standards, and (2) a demonstration of the effect the control strategy will have on the air quality concentration.

The completed plan revision must demonstrate that the total control strategy will attain the standard as expeditiously as practicable but no later than three years after plan approval.

A number of reasonably available control measures for hydrocarbon emissions have already been identified. These measures will be evaluated in light of circumstances specific to those areas where oxidant related controls are determined to be needed. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements; employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP DEFICIENCY DETERMINATION PENDING

The Division of Air Pollution Control (DAPC) of the Illinois Environmental Protection Agency (IEPA) is undertaking a detailed analysis of the TSP, SO_2, CO, and NO_2 air quality maintenance areas listed in 40 FR 23753 dated June 2, 1975. In addition to these areas, the State DAPC is also performing an analysis of Rock Island and Henry Counties in the Metropolitan Quad Cities Interstate Air Quality Control Region (AQCR), and Massac County in the Paducah-Cairo Interstate AQCR. The IEPA is developing a role document for the assignment of responsibilities of maintenance strategy development and its implementation. In the development of the role document, IEPA is to recognize and utilize the regional planning agencies in accordance with Section 51.58 in the May 3, 1976, FEDERAL REGISTER.

On April 21, 1976, the staff of the Region V Office met with the staff of the Illinois DAPC to discuss the plans of the DAPC for the completion of the AQMA analyses. Based on these discussions and the State Work Plan dated April 21, 1976, the Regional Administrator is in this notice requesting that the State complete the required analyses and submit them in accordance with the schedule listed below Both the Regional Administrator and the staff of the DAPC are concerned that the approved control strategy portion of the existing State Implementation Plan (SIP) may not be adequate to provide for attainment of the National Ambient Air Quality Standards for the pollutants listed. The State is incorporating into its maintenance analyses an analysis of the capability of the SIP to provide for attainment. The schedules are summarized below (Table I):

TABLE I

AQMA	Pollutant	Date analysis due for— Nonattainment	Maintenance
Burlington	TSP	December 1976	December 1976.
Keokuk No. 065	SO_2	do	Do.
Metro-Chicago No. 067	TSP	do	July 1977.
	SO_2	do	Do.
	CO	April 1977	Do.
	NO_2	do	Do.
Metro-Quad [1] Cities No. 069	TSP	November 1976	May 1977.
Metro-St. Louis No. 070	TSP	April 1977	January 1978.
	SO_2	do	Do.
Pedneah-Cairo [1] No. 072	TSP	do	Do.
	SO_2	do	Do.
W. Central No. 075	TSP	November 1976	November 1976.

[1] The study area in AQCR's No. 069 (Quad Cities), and No. 072 (Paducah-Cairo) were not originally listed as AQMA's in the June 2, 1975, FEDERAL REGISTER. These 2 areas are listed by the State of Illinois as additional study areas which will undergo a detailed analysis.

If the Regional Administrator determines, based on a review of the submitted analysis, that the SIP is substantially inadequate to provide for attainment and maintenance of the NAAQS, the State shall be required, where feasible, to prepare and submit a plan revision according to the schedule set forth in Column A of Table II containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national standards for TSP, SO_2, CO, and NO_2, and (2) a demonstration of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the State shall prepare and submit according to the schedule set forth in Column B of Table II: (1) such measures for the attainment and maintenance of the standards for TSP, SO_2, CO, and NO_2, and (2) a demonstration that the control strategy will attain and maintain the primary and secondary standards for TSP, SO_2, CO, and NO_2.

TABLE II

AQMA	Pollutant	A	B
Burlington [1]	TSP	July 1977	July 1978.
Keokuk No. 065	SO_2	do	Do.
Metro-Chicago [2] No. 067	TS	do	Do.
	SO_2	do	Do.
	CO	do	Do.
	NO_2	do	Do.
Metro-Quad [3] Cities No. 069	TSP	do	Do.
Metro-St. Louis [4] No. 070	TSP	do	Do.
	SO_2	do	Do.
Paducah-Cairo [5] No. 079	SO_2	do	Do.
W. Central [6] No. 075	TSP	do	Do.

[1] Includes the counties of Peoria, Tazewell, and Woodford in Illinois.
[2] Includes Cook, Du Page, Kane, Lake, McHenry, and Will Counties in Illinois.
[3] Includes Rock Island and Henry Counties.
[4] Includes Madison, Monroe, and St. Clair Counties in Illinois.
[5] Massac County only.
[6] Macon County only.

The completed plan revision must demonstrate that the total control strategy will attain the primary standard as expeditiously as practicable but no later than three years after plan approval; and in the case of the secondary standards, the plan should specify a reasonable time for standards achievement.

OTHER SIP DEFICIENCES

The Illinois pollution control regulation which establishes short-term SO_2 emission limitations for all fuel combustion sources (Rule 204(e)) allows unlimited stack height credit in the calculation of source specific emission levels. On February 18, 1976, at 41 FR 7450, EPA published a tall stack policy which provides guidance with respect to allowable stack height credit in SIP strategies. The Illinois regulation does not provide for the proper stack height credit limitation and, therefore, the SIP is considered deficient.

In a recent ruling by the Illinois Supreme Court, certain provisions of the Illinois air pollution control regulations were remanded to the State for necessary demonstration of technological feasibility and economic reasonableness to support the existing regulations or the promulgation of substitute rules. The remanded portions, which are presently not enforceable, establish emission limitations for solid fuel combustion sources as follows: (1) TSP emission limitations for all existing sources, (2) SO_2 emission limitations for all new sources with actual heat input greater than 250 million BTU per hour, and (3) SO_2 emission limitations for existing sources located in the Chicago, St. Louis (Illinois), and the Peoria Major Metropolitan Areas.

The unenforceable portions of the Illinois regulations constitute a SIP deficiency. Accordingly, it is requested that a revision to the Illinois plan be devel-

V 41 149 AUG 2 76 UMI

oped or other appropriate action taken to correct these deficient areas.

CONCLUSION

The Governor is requested to submit, within 60 days, a letter of intent to the Regional Administrator, EPA Region V, which identifies the various actions the State will take to develop the appropriate plan revisions in accordance with the requirements set forth in this notice. The State also needs to identify in the letter the agencies that have been given responsibility to prepare the plan revision. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain national standards.

All of the current applicable implementation plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA or until EPA promulgates substitutes or additional regulations.

This notice is not subject to rulemaking procedures. The need for a plan revision for photochemical oxidants for the total State of Illinois is based on technical findings of the Regional Administrator which shows that the control strategy for oxidants is substantially inadequate. There is also a need for corrective action regarding: (1) Rule 204(e) because it is inconsistent with EPA's recently published tall stack policy, and (2) Rules 203(g)(1), 204(a)(1), and (c)(1)(A) because of the Illinois Supreme Court's affirmation of the Appellate Court's remand of these rules—the State's action must be in terms of either supporting the existing rules or revising them. With respect to total suspended particulates, sulfur dioxide, carbon monoxide, and nitrogen dioxide, the need for a plan revision in the previously discussed areas will be operative when and if the Regional Administrator finds applicable control strategies to be substantially inadequate. Authority for such action is provided in Section 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA. If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments; or if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing.

AUTHORITY: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2)(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER,
Regional Administrator,
Environmental Protection Agency.

INDIANA IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA Regional Administrator for Region V provides a summary of his findings resulting from an assessment of the overall adequacy of the implementation plan for the State of Indiana. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the National Ambient Air Quality Standards (NAAQS). In such situations the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are subsantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

BACKGROUND

On May 31, 1972 (37 FR 10863) and May 14, 1973 (38 FR 12698), under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates (TSP), sulfur dioxide (SO_2), nitrogen dioxide (NO^2), carbon monoxide (CO), hydrocarbons, and photochemical oxidants for all Air Quality Control Regions (AQCR) in the State of Indiana except for the TSP and SO_2 secondary standards in the Indiana portion of the Metropolitan Chicago Interstate AQCR and the Metropolitan Indianapolis Intrastate AQCR. The implementation plan was originally designed to attain those national standards approved by mid-1975. Furthermore, on March 8, 1973 (38 FR 6279), EPA disapproved all implementation plans with respect to maintenance of the national standards.

Following this action on June 2, 1975 (40 FR 23753, 40 CFR 52.792), EPA identified the county of Vanderburgh in the Evansville-Owensboro-Henderson Interstate AQCR as the Evansville Interstate Air Quality Maintenance Area for TSP and SO_2; the counties of Lake and Porter in the Metropolitan Chicago Interstate AQCR as the Illinois-Indiana-Wisconsin Interstate Air Quality Maintenance Area for TSP, SO_2 and photochemical oxidants; Marion County in the Metropolitan Indianapolis Intrastate AQCR as the Indianapolis Air Quality Maintenance Area for TSP, SO_2 and oxidants; and the counties of Clark and Floyd in the Louisville Interstate AQCR as the Louisville Interstate Air Quality Maintenance Area for TSP and SO_2. The air quality maintenance area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national air quality standards.

The Division of Air Pollution Control of the Indiana Department of Health is undertaking detailed analyses of the identified AQMA counties in accordance with the requirements for such analyses as set forth in 40 CFR Subpart D (40 FR 18382, May 3, 1976). In the interest of attaining and maintaining the NAAQS, the State should recognize and build upon the accomplishments of locally responsive regional planning agencies in accordance with Section 51.58 in the May 3, 1976 FEDERAL REGISTER.

On April 23, 1976, staff of the Region V Office met with staff of the Indiana Division of Air Pollution Control to discuss the plans of the State of Indiana for the completion of the required AQMA analyses. Based on these discussions, which indicated that progress has been made by the Indiana Division of Air Pollution Control, the Regional Administrator is requesting in this notice that the State complete the required analyses and submit them by April 1977.

SIP DEFICIENCIES DETERMINED

The Regional Administrator has determined that the strategies in the SIPs for the States of Minnesota, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to attain and maintain the oxidant NAAQS. However, the specific areas where hydrocarbon controls will be needed have not yet been determined. A letter to each of the Governors of the six states in Region V has been sent explaining the analysis of the oxidant problem now under way in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors in Region V. (1) Monitored violations of the oxidant standard have occurred in all States in both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control Program gives only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate a widespread oxidant non-attainment problem throughout the region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout the metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no state has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at rural and urban sites in Indiana with the highest second high one hour reading in Marion County of 0.200 ppm. The national ambient air quality standard for oxidants is 0.08 ppm, not to be exceeded more than one time per year.

It is well understood that oxidants form when hydrocarbons and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend to be downwind of urban centers. The fact that oxidant readings in one State or area are greater than in another State or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringently in the first State or area. Therefore, as the above analysis suggests, the application of the solutions to the problem of non-attainment of the oxidant standard may well need to be more widespread than in the past.

In addition to the air quality analysis presented above, the presently implemented oxidant control strategies were evaluated before make the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that at least a 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every State to achieve the standard. The emission reduction expected between 1975 and 1980 from an optimistic projection of the new motor vehicle controls and the emission reduction expected from full implementation of the present State hydrocarbon emission limitations cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standards.

Therefore, the SIPs for the six States in Region V are judged to be substantially inadequate to attain and maintain the oxidant standards. This is not to say, however, that a specific set of hydrocarbon controls at this time must be implemented for all areas for which air quality has been reported over the oxidant standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975, representatives of the USEPA and the six Region V State air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was set up for the purpose of evaluating the SIP revisions. By November 1, 1976, each State is to identify those geographic areas where oxidant SIP revisions should be instituted. The Regional Administrator will, by December 31, 1976, comment on the November 1, 1976, submission and provide additional guidance concerning the types of controls and geographic areas where such controls should be instituted. The State is then required to prepare by July 1, 1977, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the primary NAAQS, and (2) a quantitative estimate of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the States should prepare and submit by July 1, 1978: (1) such measures for the attainment and maintenance of oxidant standards, and (2) a demonstration of the effect the control strategy will have on the air quality concentration.

The completed plan revision must demonstrate that the total control strategy will attain the standard as expeditiously as practicable but no later than three years after plan approval.

A number of reasonably available control measures for hydrocarbon emissions has already been identified. These measures will be evaluated in light of circumstances specific to those areas where the states have determined the need for oxidant related controls. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements; employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP DEFIENCY DETERMINATION PENDING

As mentioned previously, the State is completing an analysis of the designated air quality maintenance areas consistent with the requirements of 40 CFR 51, Subpart D. Based on monitored violations of the TSP and SO_2 air quality standards, both the Regional Administrator and the staff of the Indiana Division of Air Pollution Control are concerned that the approved control strategy portion of the SIP may not be adequate to provide for attainment of the NAAQS. Therefore, as indicated below, the State is also incorporating into its maintenance analyses an analysis of the ability of the SIP to provide for attainment. For the Chicago area, an analysis addressing attainment and maintenance for both TSP and SO_2 will be submitted in April 1977. For the Evansville area, an analysis addressing maintenance for both TSP and SO_2 will be submitted by April 1977. For the Louisville area, an analysis addressing both attainment and maintenance for TSP and maintenance only for SO_2 will be submitted by October 1976. For the Indianapolis area, an analysis addressing both attainment and maintenance for TSP, and maintenance only for SO_2 will be submitted by April 1977.

If the Regional Administrator determines, based on the review of the submitted analyses, that the SIP is substantially inadequate to provide for the attainment and maintenance of the NAAQS for total suspended particulate or sulfur dioxide, the State will be required, if feasible, to prepare and submit by July 1, 1977, a plan revision containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national primary and secondary air quality standards for total suspended particulates and sulfur dioxide, and (2) a demonstration of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the State shall prepare and submit by July 1, 1978: (1) such measures for the attainment and maintenance of the secondary standards for total suspended particulates and sulfur dioxide, and (2) a demonstration that the total control strategies will attain and maintain the secondary standards for both pollutants.

OTHER DEFICIENCIES

On January 13, 1976, the U.S. Environmental Protection Agency released the "Legal Interpretation and Guidance to Implementation of Recent Court Decisions on the Subject of Stack Height Increases as a Means of Meeting Federal Ambient Air Quality Standards" otherwise known as the "tall stack policy." This policy was later published in the FEDERAL REGISTER on February 18, 1976 (41 FR 7450). The policy simply stated is that "* * * where constant emission limitations were employed to the maximum extent achievable, it would then be appropriate to permit the use of dispersion techniques where necessary to achieve ambient standards."

Indiana's APC-4R limits particulate emissions from the combustion of fuel in stationary equipment for indirect heating. Except in the Indiana portion of the Metropolitan Chicago Interstate Air Quality Control Region and in the Metropolitan Indianapolis Intrastate Air Quality Control Region, the emission limitation is based on a formula which allows emissions to increase with increasing stack height. This formula is not in accordance with the tall stack policy. The State should therefore revise APC-4R to comport with the tall stack policy as promulgated in the February 18, 1976, FEDERAL REGISTER by December 31, 1976, if feasible.

CONCLUSION

The Governor is requested to submit, within 60 days after any substantial plan inadequacy has been identified, a letter of intent to the Regional Administrator, EPA Region V, which identifies the various actions the State will take to develop the appropriate plan revision in accordance with the requirements set forth in this notice. The State also needs to iden-

V 41 149 AUG 2 76 UMI

tify in the letter the agencies that have been given responsibility to prepare the plan revision. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain the national standards.

All of the current applicable implementation plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA or until EPA promulgates substitute or additional regulations.

This notice is not subject to rulemaking procedures. The need for a plan revision for photochemical oxidants for the total State of Indiana is based on technical findings of the Regional Administrator which shows that the control strategy for oxidants is substantially inadequate. With respect to total suspended particulates and sulfur dioxide, the need for a plan revision in the previously discussed area will be operative when, and if, the Regional Administrator finds the applicable control strategy to be substantially inadequate. Revisions to APC-4R are required by the tall stack policy.

Authority for such action is provided in Section 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA. If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments or, if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing. Authority: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2)(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER,
Regional Administrator,
Environmental Protection Agency.

[FRL 592-2]

MICHIGAN IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA Regional Administrator for Region V provides a summary of his findings resulting from an assessment of the overall adequacy of the implementation plan for the State of Michigan. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the national ambient air quality standards (NAAQS). In such situations the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are substantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

BACKGROUND

On May 31, 1972, (37 FR 10842) under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator substantially approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates, sulfur dioxide, carbon monoxide, hydrocarbons, and photochemical oxidants in the Metropolitan Detroit-Port Huron Intrastate and the Toledo Interstate Air Quality Control Regions (AQCR). The implementation plan was originally designed to attain these national standards by mid-1975. The Administrator on May 14, 1973, after further consideration of the adequacy of the nitrogen dioxide control strategy and the validity of the air quality data for nitrogen dioxide, approved the nitrogen dioxide strategies for all the AQCRs in Michigan. Furthermore, on March 8, 1973 (38 FR 6279) EPA disapproved all implementation plans with respect to maintenance of the national standards.

Following this action on June 2, 1975, EPA identified the Counties of Macomb, Oakland, and Wayne in Metropolitan Detroit-Port Huron Intrastate AQCR as the Detroit Air Quality Maintenance Area for total suspended particulates (TSP); and also identified Monroe County in the Toledo Interstate AQCR as part of the Toledo Interstate Air Quality Maintenance Area for TSP. The Air Quality Maintenance Area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national air quality standards. These AQMAs were promulgated in 40 FR 23756, June 2, 1975, and published at 40 CFR 52.1178.

The Air Quality Division of the Michigan Department of Natural Resources is undertaking a detailed analysis of the identified counties in the Detroit AQMA in accordance with the requirements for such an analysis as set forth in 40 CFR Part 51 Subpart D (40 FR 18382, May 3, 1976). This analysis includes the AQMA County of Monroe. In the interest of attaining and maintaining the NAAQS, the State should recognize and build upon the accomplishments of locally responsive regional planning agencies in accordance with 40 CFR 51.58, as amended, in the May 3, 1976 FEDERAL REGISTER.

On April 28, 1976, staff of the Region V Office met with staff of the Michigan Air Quality Division to discuss the plans of the State of Michigan for the completion of the required AQMA analyses. Based on these discussions, which indicated that substantial progress has been made by the Air Quality Division, the Regional Administrator is requesting in this notice that the State complete the required analyses and submit them in August 1976.

SIP DEFICIENCY DETERMINATION

The Regional Administrator has determined that the SIPs for the States of Minnesota, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to attain and maintain the oxidant NAAQS. However, the specific areas where hydrocarbon controls will be needed have not yet been determined. A letter to each of the Governors of the six States in Region V has been sent explaining the analysis of the oxidant problem now underway in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors prevalent in Region V: (1) Monitored violations of the oxidant standard have occurred in all States in both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control Program achieves only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate widespread oxidant non-attainment problems throughout the Region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout these metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no state has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at urban sites in Michigan with the highest and highest second highest one-hour reading of 0.287 parts per million (ppm) and 0.271 ppm, respectively, occurring in Wayne County. The national ambient air quality standard for oxidants is 0.08 ppm, not to be exceeded more than one time per year.

It is well understood that oxidants form when hydrocarbon and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend

to be downwind of urban centers. The fact that oxidant readings in one state or area are greater than in another state or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringently in the first state or area. Therefore, as the above analyses suggests, the application of the solutions to the oxidant non-attainment problem may well need to be more widespread than in the past.

In addition to the air quality analyses presented above, the presently implemented oxidant control strategies were evaluated before making the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model, which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that a minimum of 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every state to achieve the standard. The emission reduction expected between 1975 and 1980, based on an optimistic projection of the new motor vehicle controls added to emission reduction expected from full implementation of the present state hydrocarbon emission limitation, cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standards.

Therefore, SIPs for the six states in Region V are judged to be substantially inadequate to attain and maintain the oxidant standard. This is not to say, however, that a specific set of hydrocarbon controls at this time must be implemented in all areas for which air quality has been reported over the oxident standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975, representatives of the USEPA and the six Region V State air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was set up for the purpose of evaluating the SIP revisions. By November 1, 1976, each state is to identify those geographic areas where oxidant SIP revisions should be instituted. The Regional Administrator will by December 31, 1976, comment on the November 1 submission and provide additional guidance concerning the types of controls and the geographic areas where such controls should be instituted. Each state is then required to prepare by July 1, 1977, where feasible, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the primary NAAQS, and (2) a demonstration of the effect on the air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, each state should prepare and submit by July 1, 1978, where feasible: (1) such measures for the attainment and maintenance of oxidant standards, and (2) a demonstration of the effect the control strategy will have on the air quality.

The completed plan revision must demonstrate that the total control strategy will attain the standard as expeditiously as practicable but no later than three years after plan approval.

A number of reasonably available control measures for hydrocarbon emissions have already been identified. These measures will be evaluated in light of circumstances specific to those areas where the states have determined the need for oxidant related controls. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements; employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP DEFICIENCY DETERMINATION PENDING

Due to monitored violations of the TSP air quality standards in the Metropolitan Detroit area, both the Regional Administrator and the staff of the Michigan Air Quality Division are concerned that the approved control strategy portion of the SIP may not be adequate to provide for attainment of the NAAQS for TSP in Wayne County. The State is therefore incorporating into its maintenance analyses, an analysis of the capability of the SIP to provide for attainment.

If the Regional Administrator determines, based on a review of the submitted analyses, that the SIP is substantially inadequate to provide for the attainment or maintenance of NAAQS for total suspended particulates, the State shall be required to prepare and submit by July 1, 1977, where feasible, a plan revision containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national standards for total suspended particulates, and (2) a demonstration of the effect on the air quality of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the State shall prepare and submit, where feasible, by July 1, 1978: (1) such measures for the attainment and maintenance of the standards for total suspended particulates, and (2) a demonstration that the control strategy will attain and maintain the primary and secondary standards for total suspended particulates.

The completed plan revision must demonstrate that the total control strategy will attain the primary standards as expeditiously as practicable but no later than three years after plan approval; and in the case of the secondary standards, the plan should specify a reasonable time for attainment of the standards.

OTHER SIP DEFICIENCIES

After the initial plan approval on May 31, 1972, a subsequent analysis of the Michigan State Implementation Plan surfaced a deficiency related to sulfur dioxide emission control regulations. Therefore, on May 28, 1976, the Regional Administrator indicated to the Governor that Michigan Department of Natural Resources Rule 336.49 does not comport with the U.S. Environmental Protection Agency tall stack policy as published on February 18, 1976, page 7450 of the FEDERAL REGISTER. The Regional Administrator requested the Governor to indicate within 30 days his intentions to submit a SIP revision correcting this deficiency.

CONCLUSION

The Governor is requested to submit, within 60 days, a letter of intent to the Regional Administrator, EPA Region V, which identifies the various actions the State will take to develop the appropriate plan revisions in accordance with the requirements set forth in this notice. The State also needs to identify in the letter the agencies that have been given responsibility to prepare a plan revision. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain national standards.

All of the current State Implementation Plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA, or until EPA promulgates substitute or additional regulations.

This notice is not subject to rulemaking procedures. The need for a plan revision for photochemical oxidants for the total State of Michigan is based on technical findings of the Regional Administrator that show that the control strategy for oxidants is substantially inadequate. With respect to total suspended particulates, the need for a plan revision in the previously discussed areas will be operative when and if the Regional Administrator finds applicable control strategies to be substantially inadequate. Authority for such action is provided in Section 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of a plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA. If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments, or if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing.

AUTHORITY: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER, Jr.,
Regional Administrator,
Environmental Protection Agency.

MINNESOTA IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA Regional Administrator for Region V provides a summary of his findings resulting from an assessment of the overall adequacy of the implementation plan for the State of Minnesota. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the national ambient air quality standards (NAAQS). In such situations the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are substantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

Background

On May 31, 1972 (37 FR 10874) under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates, sulfur dioxide, nitrogen dioxide, hydrocarbons, and photochemical oxidants in the State of Minnesota. The implementation plan was originally designed to attain these national standards by mid-1975. The carbon monoxide strategy was accepted on November 7, 1973 (38 FR 30832) and was also designed to attain the standards by mid-1975. However, on March 8, 1973 (38 FR 6279) EPA disapproved all implementation plans with respect to maintenance of the national standards.

Following this action on June 2, 1975, EPA identified the City of Duluth in the Duluth-Superior Interstate AQCR as the Duluth Air Quality Maintenance Area for total suspended particulates (TSP); and also identified all the counties in the Minneapolis-St. Paul Intrastate AQCR as part of the Minneapolis-St. Paul Air Quality Maintenance Area for particulate matter and sulfur dioxide. The air quality maintenance area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national ambient air quality standards. These AQMAs were identified in 40 FR 23754, June 2, 1975, and published at 40 CFR 52.1229.

The Minnesota Pollution Control Agency is undertaking a detailed analysis of the identified AQMA city and counties in accordance with the requirements for such an analysis as set forth in 40 CFR Subpart D (40 FR 18382, May 3, 1976). In the interest of attaining and maintaining the NAAQS, the State should recognize and build upon the accomplishments of locally responsive regional planning agencies in accordance with Section 51.58 in the May 3, 1976, FEDERAL REGISTER.

On April 13, 1976, staff of the Region V Office met with staff of the Minnesota Pollution Control Agency to discuss the plans of the State of Minnesota for the completion of the required AQMA analyses. Based on these discussions, which indicated that progress has been made by the Agency, the Regional Administrator is in this notice requesting that the State complete the required analyses and submit them according to the following schedule. The non-attainment analyses for the Minneapolis-St. Paul AQMA are to be submitted not later than October 1, 1976, for total suspended particulates and sulfur dioxide. The analysis for the City of Duluth is required by July 1, 1976, for total suspended particulates.

SIP Deficiencies Determined

The Regional Administrator has determined that the SIPs for the States of Minnesota, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to attain and maintain the oxidant NAAQS. However, the specific areas where hydrocarbon controls will be needed have not yet been determined. A letter to each of the Governors of the six States in Region V has been sent explaining the analysis of the oxidant problem now under way in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors prevalent in Region V. (1) Monitored violations of the oxidant standard have occurred in all States in both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control program gives only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate widespread oxidant non-attainment problems throughout the Region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout the metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no State has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at rural and urban sites in Minnesota with the highest and second highest one-hour reading in Sherburne County of 0.195 parts per million (ppm) and 0.175 ppm, respectively. The national ambient air quality standard for oxidants is 0.08 ppm, not to be exceeded more than one time per year.

It is well understood that oxidants form when hydrocarbon and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend to be downwind of urban centers. The fact that oxidant readings in one State or area are greater than in another state or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringently in the first state or area. Therefore, as the above analysis suggests, the application of the solutions to the problem of non-attainment of the oxidant standard may well need to be more widespread than in the past.

In addition to the air quality analysis presented above, the presently implemented oxidant control strategies were evaluated before making the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that at least a 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every State to achieve the standard. The emission reduction expected between 1975 and 1980 from an optimistic projection of the new motor vehicle controls and the emission reduction expected from full implementation of the present State hydrocarbon emission limitations cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standards.

Therefore, the six Region V SIPs are judged to be substantially inadequate to attain and maintain the oxidant standard. This is not to say, however, that a specific set of hydrocarbon controls, at this time, must be implemented for all areas for which air quality has been reported over the oxidant standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975 representatives of the USEPA and the six Region V State air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was established for the purpose of evaluating the SIP revisions. By November 1, 1976, each State is to identify those geographic areas where oxidant SIP revisions should be instituted. The Regional Administrator will by December 31, 1976, comment on the November 1, 1976, submission and provide additional guidance concerning the types of controls and geographic areas where such controls should be instituted. The State is then required to prepare by July 1, 1977, where feasible, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the NAAQS, and (2) a quantitative estimate of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the States should prepare and submit by July 1, 1978, where feasible: (1) Such measures for the attainment and maintenance of the oxidant standard, and (2) a demonstration of the effect the control strategy will have on the air quality.

The completed revision to the plan must demonstrate that the total control strategy will attain the standard as expeditiously as practicable but no later than three years after plan approval.

The number of "Reasonably Available Measures" for the control of hydrocarbon emission have already been identified. These measures will be evaluated in light of circumstance specific to those areas where the States have determined the need for oxidant related controls. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements; employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP Deficiency Determination Pending

Due to monitored violations of the TSP and SO_2 air quality standards in the Minneapolis-St. Paul AQCR, both the Regional Administrator and the staff of the Minnesota Pollution Control Agency are concerned that the approved control strategy portion of the SIP may not be adequate to provide for attainment of the NAAQS for TSP and SO_2 in the Minneapolis-St. Paul AQCR. The State is therefore incorporating into its maintenance analyses a study of whether the SIP is capable of providing for attainment.

If the Regional Administrator determines, based on the review of the submitted analyses, that the SIP is substantially inadequate to provide for the attainment or maintenance of the NAAQS for total suspended particulate or sulfur dioxide, the State shall be required to prepare and submit by July 1, 1977, where feasible, a plan revision containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national primary and secondary air quality standards for total suspended particulates and sulfur dioxide, and (2) a demonstration of the effect on air quality concentrations of such measures.

If additional control strategies, such as land use and transportation measures, are needed for attainment and maintenance of the national standards, the State shall prepare and submit by July 1, 1978, where feasible: (1) such measures for the attainment and maintenance of the secondary standards for total suspended particulates and sulfur dioxide, and (2) a demonstration that the control strategy will attain and maintain the secondary standards for both pollutants.

The completed plan revision must demonstrate that the total control strategy will attain the primary standards as expeditiously as practicable but no later than three years after plan approval; and in the case of the secondary standards, the plan should specify a reasonable time for achievement of the standards.

Conclusion

The Governor is requested to submit, within 60 days after a substantial plan inadequacy has been identified, a letter of intent to the Regional Administrator, EPA Region V, which identifies the various actions the State will take to develop the appropriate plan revision in accordance with the requirements set forth in this notice. The State also needs to identify in the letter the agencies that have been given responsibility to prepare the plan revision. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain national standards.

All of the current applicable implementation plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA, or until EPA promulgates substitute or additional regulations.

This notice is not subject to rulemaking procedures. The need for a plan revision for photochemical oxidants for the total State of Minnesota is based on the technical findings of the Regional Administrator which show that the control strategy for oxidants is substantially inadequate. With respect to total suspended particulates and sulfur dioxide, the need for a plan revision in the previously discussed areas will be operative when, and if, the Regional Administrator finds the applicable control strategies to be substantially inadequate. Authority for such action is provided in Section 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA.

If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments, or if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing. Authority: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2)(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER, JR.,
Regional Administrator,
Environmental Protection Agency.

[FR Doc.76-22366 Filed 7-30-76;8:45 am]

OHIO IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA Regional Administrator for Region V provides a summary of his findings resulting from an assessment of the overall adequacy of the implementation plan for the State of Ohio. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the national ambient air quality standards (NAAQS). In such situations the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are substantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

Background

On May 31, 1972 (37 FR 10886) under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator substantially approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates, sulfur dioxide, nitrogen dioxide, carbon monoxide, hydrocarbons, and photochemical oxidants for all Air Quality Control Regions (AQCR) in the State of Ohio. The implementation plan was originally designed to attain these national standards by mid-1975. Furthermore on March 8, 1973 (38 FR 6279), EPA disapproved all implementation plans with respect to maintenance of the national standards.

V 41 149 AUG 2 76 UMI

Following this action, on June 2, 1975, EPA identified the counties of Portage, Stark, and Summit in Greater Metropolitan Cleveland Intrastate AQCR as the Akron-Canton Air Quality Maintenance Area for total suspended particulate (TSP) and sulfur dioxide (SO_2); the counties of Cuyahoga, Geauga, Lake and Lorain in Greater Metropolitan Cleveland Interstate AQCR as the Ceveland Air Quality Maintenance Area for TSP and SO_2; Franklin County in Metropolitan Columbus Intrastate AQCR as the Columbus Air Quality Maintenance Area for TSP; the counties of Clark, Greene, and Montgomery in Dayton Intrastate AQCR as the Dayton Air Quality Maintenance Area for TSP and SO_2; Richland County in Mansfield-Marion Intrastate AQCR as the Mansfield Air Quality Maintenance Area for TSP; the counties of Lucas and Wood in Metropolitan Toledo Interstate AQCR as the Toledo Interstate Air Quality Maintenance Area (Ohio portion) for TSP and SO_2; and also the counties of Mahoning and Trumbull in Northwest Pennsylvania-Youngstown Interstate AQCR as the Youngstown Air Quality Maintenance Area for TSP. Subsequent to the June 2, 1975 identification, on September 9, 1975 EPA restated the original designations and also identified the counties of Butler, Clermont, Hamilton, and Warren in Metropolitan Cincinnati Interstate AQCR as the Cincinnati Interstate Air Quality Maintenance Area (Ohio portion) for TSP and photochemical oxidants; and the counties of Belmont, Columbiana, Jefferson, and Monroe in Steubenville-Weirton-Wheeling Interstate AQCR as the Steubenville Air Quality Maintenance Area. The air quality maintenance area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national air quality standards. These AQMA's were promulgated at Section 52.1883 in 40 FR 41952, September 9, 1975.

The Office of Air Pollution Control of the Ohio Environmental Protection Agency is undertaking a detailed analysis of the identified AQMA counties in accordance with the requirements for such an analysis as set forth in 40 CFR Subpart D (40 FR 18382, May 3, 1976). The requirements of Sections 51.2(h) and 51.58 of the May 3, 1976 FEDERAL REGISTER on intergovernmental coordination related to maintenance area planning are not currently satisfied in Ohio. The State should recognize and build upon the accomplishments of locally responsive regional planning agencies.

SIP DEFICIENCIES DETERMINED

The Regional Administrator has determined that the SIPs for the States of Minnesota, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to demonstrate attainment and maintenance of the oxidant NAAQS. However the specific areas where hydrocarbon controls will be needed have not yet been detrmind. A letter to each of the Governors of the six States in Region V has been sent explaining the analysis of the oxidant problem now under way in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors prevalent in Region V. (1) Monitored violations of the oxidant standard have occurred in all States in both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control Program (FMVCP) gives only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate widespread oxidant non-attainment problems throughout the Region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout the metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no state has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at rural and urban sites in Ohio with both the high and highest second high one hour readings of 0.225 parts per million (ppm) and 0.210 ppm, respectively, occurring in the Cincinnati Metropolitan Interstate AQCR. The national ambient air quality standard for oxidants is .08 ppm not to be exceeded more than one time per year.

Several special studies have been conducted in Region V. Probably the most important was conducted by the USEPA in 1974 in four States, including the State of Ohio. Below is a table summarizing the air quality results.

City	Designation	Highest hourly value (parts per million)	Days exceeding standard (percent)	Number of hours in violation
Canton	Urban	0.14	44	148
Cincinnati	do	.18	44	54
Cleveland	do	.14	26	51
Columbus	do	.15	27	113
Dayton	do	.13	35	114
McConnelsville	Rural	.16	56	239
Wilmington	do	.18	58	259
Wooster	do	.17	55	262

It is well understood that oxidants form when hydrocarbon and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend to be downwind of urban centers. The fact that oxidant readings in one State or area are greater than in another state or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringently in the first state or area. Therefore, as the above analysis suggests, the application of the solutions to the non-attainment of the Therefore, the six Region V SIPs are oxidant standard may well need to be more widespread than in the past.

In addition to the air quality analysis presented above, the presently implemented oxidant control strategies were evaluated before making the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that at least a 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every State in Region V to achieve the oxidant standard. The emission reduction expected between 1975 and 1980 from an optimistic projection of the new motor vehicle controls, and the emission reduction expected from full implementation of the present State hydrocarbon emission limitations cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standards.

Therefore, the six Region V SIPS are judged to be substantially inadequate for attainment and maintenance of the oxidant standards. This is not to say, however, that a specific set of hydrocarbon controls at this time must be implemented for all areas for which air quality has been reported over the oxidant standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975, representatives of the USEPA and the six Region V state air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was set up for the purpose of evaluating the SIP revisions. By November 1, 1976, each State is to identify areas where oxidant SIP revisions should be instituted. The Regional Administrator will by December 31, 1976 comment on the November 1, 1976 submission and provide additional guidance concerning the types of controls and geographic areas where such controls should be instituted. The State is then required to prepare by July 1, 1977, where feasible, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national primary NAAQS, and (2) a quantitative estimate of the effect on air quality concentrations of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the States should prepare and submit by July 1, 1978: (1) such measures for the attainment and maintenance of oxidant standards, and (2) a demonstration of the effect the control stategy will have on the air quality concentration.

Carbon monoxide violations have been recorded in Ohio. The Regional Administrator has found the Ohio SIP substantially inadequate for the Metropolitan Dayton and Metropolitan Cleveland AQCRs. Dayton's second 8-hour concentration of 23.1 mg/m³ (compared to a

standard of 10 mg/m³) at 117 South Main Street was projected to 11.3 mg/m³ in 1980.

Similarly, three sites in Cleveland (East 22nd Street and Woodland Avenue, 107th Street and Euclid Avenue, and 1030 Euclid) had second high 8-hour concentrations of 15.1 mg/m³ (1974), 24.7 mg/m³ (1975), and 24.6 mg/m³ (1974). These values were projected to 10.1 mg/m³, 12.4 mg/m³ and 12.4 mg/m³ in 1980. Therefore, for at least two sites, the SIP has been shown to be substantially inadequate in Cleveland. In these analyses, the only control strategies assumed were the FMVCP and a ban on open burning. Any necessary stationary source measures for these two cities should be submitted as SIP revisions by July 1, 1977, while transportation and land use SIP revisions should be submitted by July 1, 1978. Where CO related transportation/land use SIP revisions are needed, they should be developed in coordination with any oxidant SIP revisions which are ultimately required.

A number of reasonably available control measures for hydrocarbon and CO emissions have already been identified. These measures will be evaluated in light of circumstances specific to those areas where oxidant and CO related controls are determined to be needed. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements: employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP DEFICIENCY DETERMINATION

The Regional Administrator proposed to approve extending the TSP attainment date of May 31, 1975 approximately two years to April 15, 1977. Public comment on this proposed action were received and reviewed. Final rulemaking to approve the April 15, 1977 TSP attainment date, as proposed, is anticipated in the near future. The current TSP compliance status in Ohio is substantially worse than that of the other Region V states. Ohio is expected to undertake a major enforcement effort to assure statewide TSP attainment by April 1, 1977 with specific emphasis on those industrial areas boarding adjacent states. On June 2, 1975 (40 FR 23753) the Administrator identified several areas in the State of Ohio as air quality maintenance areas (AQMA) in that areas have the potential for failing to maintain the TSP national air quality standards due to projected growth in emissions. Therefore, the State is required to submit an air quality maintenance area analysis consistent with the requirements of 40 CFR Subpart D (40 FR 18382). The State is required to submit the AQMA analysis for TSP to the Regional Administrator by January of 1977.

If the Regional Administrator determines, based on a review of the submitted analysis, that the SIP is substantially inadequate to provide maintenance of the NAAQS, the State shall be required to prepare and submit by July 1, 1977, where feasible, a plan revision containing: (a) all achievable emission limitations that are needed to provide for the maintenance of the national standard for TSP, and (b) a demonstration of the effect on air quality concentrations of such measures.

If additional control strategy such as land use and transportation measures are needed for maintenance of the national standard, the State shall prepare and submit by July 1, 1978, where feasible: (a) such measures for maintenance of the standard for TSP, and (b) a demonstration that the control strategy will maintain the primary and secondary standards for TSP.

The completed plan revision must demonstrate that the total control strategy will maintain the national standards for no less than three years after attainment.

On November 10, 1975 (40 FR 52410), the Regional Administrator proposed substitute sulfur dioxide regulations designed to attain and maintain ambient standards for SO_2 in Ohio thereby correcting previously noted deficiencies in the Ohio Implementation Plan. The preamble to the November 10, 1975, proposal provides a concise history of the events leading up to and necessitating the substitute sulfur dioxide regulations. Since November of 1975 EPA has been conducting a review of the proposed rulemaking including a reanalysis in response to extensive interest expressed by the public. Promulgation of a substitute sulfur dioxide regulation is planned to take place in August 1976. Immediately upon promulgation the regulation will be enforced by EPA. However, the Clean Air Act clearly places upon the State the primary responsibility for attainment and maintenance of the national air quality standards. Therefore, the State of Ohio is requested to take the necessary steps to adopt a plan which is enforceable at the State level. On April 15, 1976, staff of the Region V Office of EPA met with staff of the Ohio EPA Office of Air Pollution Control to discuss, among other topics, the State's plans for adoption of an acceptable SO_2 plan. During that meeting it was determined that the most expeditious means for the State to adopt an acceptable plan was through adoption by reference of the Federal promulgation. Therefore, the State is urged to adopt by reference the Federally promulgated regulations within 180 days of their promulgation.

OTHER SIP DEFICIENCIES

The second EPA approval of the Ohio SIP was challenged in the 6th Circuit in *Buckeye Power Inc.* v. *Train*, 525 F. 2d 80 (CA 6, 1975). On brief, EPA acknowledged certain ambiguities in the Ohio regulations. With respect to the Fugitive Dust regulation (AP-3-09), EPA advised the court that it would request the State to revise the plan, or, if a revision were not forthcoming, clarify the plan itself. To date, the regulation has not been revised nor has a plan revision been submitted. Accordingly, the State of Ohio is requested to amend AP-3-09 by listing, rather than citing examples of, "reasonable precautions."

CONCLUSION

The Governor is requested to submit, within 60 days, a letter of intent to the Regional Administrator, EPA Region V, which identifies the various actions the State will take to develop the appropriate plan revisions in accordance with the requirements set forth in this notice. The State also needs to identify in the letter the agencies that have been given responsibility to prepare the plan revisions. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain national standards.

All of the current applicable implementation plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA or until EPA promulgates substitute or additional regulations.

This notice is not subject to rulemaking procedures. The need for plan revisions for photochemical oxidants for the total State of Ohio and CO for Dayton and Cleveland is based on technical findings of the Regional Administrator that show that the control strategies for oxidants and CO are substantially inadequate. With respect to total suspended particulates, the need for a plan revision in the previously discussed areas will be operative when and if the Regional Administrator finds applicable control strategies to be substantially inadequate. Authority for such action is provided in Sections 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA. If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments; or if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing. Authority: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2)(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER, Jr.,
Regional Administrator,
Environmental Protection Agency.

[FRL 592-5]

WISCONSIN IMPLEMENTATION PLAN

Attainment and Maintenance of National Ambient Air Quality Standards; Approval and Promulgation of Implementation Plans; Required Revision

In this notice the EPA regional Administrator for Region V provides a summary of his findings resulting from an

V 41 149 AUG 2 76 UMI

assessment of the overall adequacy of the Wisconsin State Implementation Plan. The findings of this assessment are basically reflected in three topical areas in which further actions are or may be required by the State or the EPA.

(1) A finding that certain aspects of the control strategy portion of the State Implementation Plan (SIP) are substantially inadequate for attainment and/or maintenance of the primary national ambient air quality standards (NAAQS). In such situations the Regional Administrator is requesting that the State develop and submit plan revisions to correct plan deficiencies.

(2) A finding that adequate information is not currently available to allow a full determination that portions of the control strategy are substantially inadequate to provide for attainment or maintenance of the primary NAAQS. In such situations the Regional Administrator is setting forth the schedule under which the State or the EPA should complete the necessary analyses.

(3) A finding that the State Implementation Plan is deficient in regulatory or procedural aspects other than the control strategy portion of the SIP. In this situation, appropriate requests for the submission of plan revisions are being made. In cases where a prior notice of SIP deficiencies has been made, that notice is referenced herein.

Background

On May 31, 1972 (37 FR 10842) under Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved the control strategy for the attainment and maintenance of the national primary and secondary standards for total suspended particulates, sulfur dioxide, nitrogen dioxide, carbon monoxide, hydrocarbons, and photochemical oxidants in the Lake Michigan Intrastate and the Southeastern Wisconsin Intrastate Air Quality Control Regions (AQCR). The State Implementation Plan was originally designed to attain these national standards by mid-1975. Furthermore, on Mrach 8, 1973 (38 FR 6279) EPA disapproved all implementation plans with respect to maintenance of the national standards.

Following this action on June 2, 1975, EPA identified the counties of Winnebago, Outagamie, and Brown in the Lake Michigan Intrastate AQCR as the Lake Michigan Subregion Air Quality Maintenance Area for total suspended particulate (TSP); and also identified all the counties in Southeastern Wisconsin Intrastate AQCR as part of the Illinois-Indiana-Wisconsin Interstate Air Quality Maintenance Area for total suspended particulates (particulate matter), sulfur dioxide and photochemical oxidants. The Air Quality Maintenance Area (AQMA) identification serves to specify those geographic areas that have a potential for failing to maintain one or more of the national ambient air quality standards. These AQMAs were promulgated in 40 FR 23756, June 2, 1975, and published at 40 CFR 52.2580.

The Bureau of Air and Solid Waste Management of the Wisconsin Department of Natural Resources is undertaking a detailed analysis of the identified AQMA counties in accordance with the requirements for such an analysis as set forth in 40 CFR Part 51, Subpart D (40 FR 18382, May 3, 1976). It is recognized that in the interest of attaining and maintaining the NAAQS, the State is building upon the accomplishments of locally responsive regional planning agencies in accordance with 40 CFR 51.58 as amended by the May 3, 1976, FEDERAL REGISTER.

On April 8, 1976, staff of the Region V Office met with staff of the Wisconsin Bureau of Air and Solid Waste Management to discuss the plans of the State of Wisconsin for the completion of the required AQMA analyses. Based on these discussions, which indicated that substantial progress has been made by the Bureau, the Regional Administrator is in this notice requesting that the State complete the required analyses and submit them according to the following previously agreed to schedule. The analyses for the Southeast Wisconsin AQMA are to be submitted no later than July 1976 for total suspended particulates, and October 1976 for sulfur dioxide. The analysis for the Lake Michigan Subregion is due in January 1977 for total suspended particulates.

SIP Deficiences Determined

The Regional Administrator has determined that the SIPs for the States of Minnesota, Wisconsin, Michigan, Ohio, Indiana, and Illinois are substantially inadequate to attain and maintain the oxidant NAAQS. However, the specific areas where hydrocarbon controls will be needed have not yet been determined. A letter to each of the Governors of the six States in Region V has been sent explaining the analysis of the oxidant problem now under way in each State and suggesting a regional approach to a solution. The Regional Administrator's determination is based upon three factors prevalent in Region V. (1) Monitored violations of the oxidant standard have occurred in all States at both rural and metropolitan sites. (2) States have generally gained as much hydrocarbon control as possible from the present SIPs. (3) The Federal Motor Vehicle Control Program achieves only a portion of the hydrocarbon reduction needed to meet the oxidant standard.

Several studies were conducted during 1974 and 1975 which demonstrate widespread oxidant non-attainment problems throughout the Region. Summer studies conducted in the Cincinnati, Ohio and Indianapolis, Indiana metropolitan areas have indicated oxidant violations throughout these metropolitan areas at every monitoring site. Additionally, in 1974 a statewide study in Ohio, including 5 urban and 3 rural sites, has revealed numerous and substantial violations. An analysis of the urban and rural oxidant data in Region V shows that no state has escaped the pervasiveness of the oxidant problem.

Oxidant standard violations have been observed at rural and urban sites in Wisconsin, with the highest and second highest one hour readings of 0.291 parts per million (ppm) and 0.282 ppm, respectively, occurring in Racine County. The national ambient air quality standard for oxidants is 0.08 ppm, not to be exceeded more than one time per year.

It is well understood that oxidants form when hydrocarbon and nitrogen oxide emissions chemically react in the presence of sunlight. When this reaction takes place, high concentrations will tend to be downwind of urban centers. The fact that oxidant readings in one state or area are greater than in another state or area does not necessarily indicate that the solution to the oxidant problem must be applied more stringenly in the first state or area. Therefore, as the above analyses suggests, the application of the solutions to the oxidant non-attainment problem may well need to be more widespread than in the past.

In addition to the air quality analyses presented above, the presently implemented oxidant control strategies were evaluated before making the determination that the oxidant SIPs are substantially inadequate. Utilizing Appendix J from 40 CFR Part 51 as a model which gives the percentage of hydrocarbon emission reduction needed to achieve the oxidant NAAQS as a function of measured oxidant concentrations, it has been determined that a minimum of 50% reduction in hydrocarbon emissions would be needed in at least one major metropolitan area in every state to achieve the oxidant standard. The emission reduction expected between 1975 and 1980, based on an optimistic projection of the new motor vehicle controls added to the emission reduction expected from full implementation of the present state hydrocarbon emission limitations, cannot provide the reduction needed to demonstrate attainment and maintenance of the oxidant standard.

Therefore, the six Region V SIPs are judged to be substantially inadequate to attain and maintain the oxidant standard. This is not to say, however, that a specific set of hydrocarbon controls at this time must be implemented in all areas for which air quality has been reported over the oxidant standard. The oxidant violations must be analyzed as a comprehensive problem. Since December 1975 representatives of the USEPA and the six Region V State air pollution control agencies have been meeting to discuss ways to analyze and solve the Region V oxidant situation.

On the basis of these discussions, the following schedule was set up for the purpose of evaluating the SIP revisions. By November 1, 1976, each State is to provide an assessment of where oxidant SIP revisions should be instituted. The Regional Administrator will by December 31, 1976, comment on the November 1

submission and provide additional guidance concerning the types of controls and the geographic areas where such controls should be instituted. Each State will then be required to prepare by July 1, 1977, where feasible, a plan revision for oxidants containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the primary NAAQS, and (2) a demonstration of the effect on air quality of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, each State should prepare and submit by July 1, 1978, where feasible: (1) such measures for the attainment and maintenance of oxidant standards, and (2) a demonstration of the effect the control strategy will have on the air quality.

The completed plan revision must demonstrate that the total control strategy will attain the standard as expeditiously as practicable but no later than three years after plan approval.

A number of reasonably available control measures for hydrocarbon emissions have already been identified. These measures will be evaluated in light of circumstances specific to those areas where the states have determined the need for oxidant related controls. These potential control measures include: inspection/maintenance; vapor controls for organic solvents, petroleum refineries, chemical and other industries, and gasoline marketing; heavy duty vehicle retrofits; transit improvements; employer incentives (carpool programs); parking management; traffic management; and preferential bus and carpool treatment.

SIP Deficiency Determination Pending

Due to monitored violations of the TSP air quality standards in the Southeastern Wisconsin Intrastate AQCR and an uneasiness about the adequacy of the SO_2 strategy, both the Regional Administrator and the staff of the Wisconsin Bureau of Air and Solid Waste Management are concerned that the approved control strategy portion of the SIP may not be adequate to proivde for attainment of the NAAQS for TSP in Milwaukee, Kenosha and Racine counties or for attainment of the NAAQS for SO_2 in Milwaukee and Waukesha counties. The State is therefore incorporating into its maintenance analyses an analysis of the capability of the SIP to provide for attainment.

If the Regional Administrator determines, based on the review of the submitted analyses, that the SIP is substantially inadequate to provide for the attainment or maintenance of the NAAQS for total suspended particulates or sulfur dioxide, the State will be required to prepare and submit by July 1, 1977, where feasible, a plan revision containing: (1) all achievable emission limitations that are needed to provide for the attainment and maintenance of the national primary and secondary air quality standards for total suspended particulate and sulfur dioxide, and (2) a demonstration of the effect on air quality of such measures.

If additional control strategies such as land use and transportation measures are needed for attainment and maintenance of the national standards, the State shall prepare and submit by July 1, 1978, where feasible: (1) such measures for the attainment and maintenance of the standards for total suspended particulates and sulfur dioxide, and (2) a demonstration that the control strategy will attain the standards for both pollutants.

The completed plan revision must demonstrate that the total control strategy will attain the primary standards as expeditiously as practicable but no later than three years after plan approval; and in the case of the secondary standards, the plan should specify a reasonable time for attainment of the standards.

Other SIP Deficiencies

After the initial plan approval on May 31, 1972, a subsequent analysis of the State Implementation Plan surfaced two deficiencies in the review procedures for permitting construction or modification of sources. First, Section 144.39(1) of the Wisconsin Statutes (Ch. 83, Laws of 1967) permits construction of new sources or modifications if the State Agency fails to issue a prohibition order regardless of whether or not such construction or modification would interfere with attainment or maintenance of national ambient air quality standards. Second, the requirements of 40 CFR 51.18 (h) are not met in that the State does not have approved procedures providing for a 30 day public comment period on the State's tentative approval or disapproval of permits to modify or construct. In the September 30, 1975, FEDERAL REGISTER, the Regional Administrator requested public comments on a proposed disapproval and on substitute regulations for these deficiencies. On March 9, 1976, the Regional Administrator announced in the FEDERAL REGISTER a public hearing on the proposed corrective regulations. However, the public hearing was cancelled because on April 15, 1976, the Governor signed into law provisions which appeared to correct the noted deficiencies. While official State submittal of the corrective legislation and implementing regulations has not yet been received by the Regional Office, EPA is satisfied that the State has addressed these deficiencies, and will take no further action at this time.

Conclusion

The Governor is requested to submit within 60 days after a substantial plan inadequacy has been identified, a letter of intent to the Regional Administrator EPA, Region V, which identifies the various actions the State will take to develop the appropriate plan revision in accordance with the requirements set forth in this notice. The State also needs to identify in the letter the agencies that have been given responsibility to prepare a plan revision. Failure by the State to submit a letter of intent within 60 days will be considered by EPA as an indication that no plan revision will be forthcoming from the State. In this case, EPA will begin to develop a Federal plan to attain and maintain national standards.

All of the current applicable implementation plan remains in effect until the plan revision is submitted by the State to EPA and is approved by EPA, or until EPA promulgates substitute or additional regulations.

This notice is not subject to rulemaking procedures. The need for a plan revision for photochemical oxidants for the total State of Wisconsin is based on technical findings of the Regional Administrator that show that the control strategy for oxidants is substantially inadequate. With respect to total suspended particulates and sulfur dioxide, the need for a plan revision in the previously discussed areas will be operative when, and if, the Regional Administrator finds applicable control strategies to be substantially inadequate. Authority for such action is provided in Section 110(a)(2)(H) and 110(c) of the Clean Air Act. Ample opportunity for public comment on the Regional Administrator's determination of plan inadequacy will be provided during the public hearing that the State is required to hold on the plan revision before submission to EPA. If EPA must prepare and promulgate its own regulations, EPA will provide opportunity for written comments; or if the State held no hearing on the revisions, EPA will provide opportunity for a public hearing. Authority: Section 110(a)(2)(H) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(a)(2)(H) and Section 110(c) of the Clean Air Act, as amended, 42 U.S.C. 1857c-5(c).

Dated: July 16, 1976.

GEORGE R. ALEXANDER, JR.,
Regional Administrator,
Environmental Protection Agency.

STATE-FEDERAL FIFRA IMPLEMENTATION ADVISORY COMMITTEE (SFFIAC) WORKING GROUP ON CERTIFICATION

Open Meeting

Pursuant to P.L. 92-463, notice is hereby given that a two-day meeting of the State-Federal FIFRA Implementation Advisory Committee's Working Group on Certification will be held on Wednesday and Thursday, August 18-19, at the New York Department of Environmental Conservation Conference Center, Saranac Lake, New York. The meeting will begin at 9:00 a.m.

This is the third meeting of the Working Group on Certification under SFFIAC auspices. The purpose of the meeting is to discuss current aspects of pesticide applicator certification with the intent of reporting to the full Committee, so that the latter will be able to advise EPA on certification at its next meeting, cur-

V 41 149 AUG 2 76 UMI

rently scheduled to be held in September 1976.

This meeting is open to the public. For further details, please contact James H. White, Acting Chief, Certification and Regional Support Branch, Operations Division, Office of Pesticide Programs, Environmental Protection Agency, 401 M Street, S.W., Washington, DC 20460, (202) 755-8299.

Dated: July 26, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

BADLANDS BROADCASTING CO. AND ROUGHRIDER BROADCASTING CO.

Memorandum Opinion and Order

In re applications of Badlands Broadcasting Company, Dickinson, North Dakota; Roughrider Broadcasting Co., Dickinson, North Dakota, for construction permits.

1. By Memorandum Opinion and Order, 41 FR 7456, published February 18, 1976, the Commission designated the above-captioned mutually exclusive applications for consolidated hearing. Now before the Review Board is a petition to enlarge issues, filed March 4, 1976, by Badlands Broadcasting Company (Badlands),[1] requesting the addition of financial, ascertainment,[2] improper certification issues against Roughrider Broadcasting Co. (Roughrider).

FINANCIAL ISSUE

2. As the first ground for its requested financial issue, Badlands argues that numerous deficiencies with respect to the bank credit letters upon which several Roughrider shareholders rely for funds raise serious questions as to whether those shareholders will be able to meet their respective stock subscription commitments to the applicant.[5] Specifically, Badlands maintains that, contrary to the requirements of FCC Form 301, Section III, Question 4(e): a $12,500.00 loan commitment letter from the Dakota Northwestern Bank to Edward Bashus fails to specify the security required, the rate of interest, and terms of repayment; a $55,000.00 loan commitment letter from the American State Bank of Williston to Earl Bolinske fails to specify the terms of repayment, the rate of interest, and whether any security or collateral will be required; a $55,000.00 loan commitment letter from the First National Bank and Trust Company of Fargo to Duane Liffrig fails to indicate the terms of repayment, the rate of interest, and whether any security or collateral will be required; and a $12,500.00 loan commitment letter from the American State Bank of Williston to Ronald Reichert has expired and does not indicate the terms of repayment or whether any security or collateral will be required. In support, Badlands cites, *inter alia*, *Alvin L. Korngold*, 31 FCC 2d 39, 22 RR 2d 661 (Rev. Bd. 1971); *Jackson-Missouri Broadcasting Co.*, —FCC 2d—, 14 RR 2d 2145 (1968); and *Florida-Georgia Television Co., Inc.*, —FCC 2d—, 10 RR 2d 846 (1967). As a related matter, Badlands contends that the subscription agreements from the various Roughrider shareholders state that the corporation will not exercise the subscriptions unless a license is granted to the applicant. Consequently, Badlands concludes that, since the Commission requires that a facility must be constructed and tested prior to issuance of a license, the funds necessary to construct the station may not be available on the basis of the subscription agreements in question. Finally, Badlands argues that Roughrider has estimated zero costs for equipment installation and has made no provision for payment of the $5,400.00 grant fee, and that in view of all the deficiencies indicated, a general financial issue is warranted.

3. The Review Board will deny the requested issue.[6] Subsequent to the filing of the subject petition to enlarge, Roughrider filed a petition for leave to amend its application, dated March 26, 1976. The amendment, which was accepted by Order of the Presiding Law Judge, FCC 76M-464, released April 14, 1976, provides, *inter alia*, new notarized subscription agreements from Earl Bolinske, Duane Liffrig, Ronald Reichert subscription agreements from Earl Bolinske, Duane Liffrig, Ronald Reichert and Edward Bashus, which state that Roughrider may exercise the subscriptions after a construction permit is granted. In addition, the amendment provides new bank credit letters from the above-named banks to the four principals in question, which specify the security required, the rates of interest, and terms of repayment.[7] Accordingly, we agree with Roughrider that this amendment clearly and fully documents the obligation and capacity of Roughrider's stock subscribers to meet their commitments to the applicant and, therefore, satisfactorily resolves the questions raised concerning whether Roughrider has sufficient funds available to construct and operate for one year. Moreover, Badlands' challenge to Roughrider's cost estimates has also been rebutted. In its amendment, Roughrider estimates installation costs at $4,000, and claims that its surplus of available funds is sufficient to cover the Commission's grant fee of $5,400. We agree. By our calculations, Roughrider's first year construction and operating costs will total $137,804.[8] To meet these costs the applicant has $152,750.00 available, consisting of $17,750.00 on deposit and new capital of $135,000.00. Consequently, Roughrider has a resulting surplus of funds in the amount of $14,946.00, which is clearly sufficient to provide for the $4,000.00 in installation costs and the $5,400.00 added to miscellaneous costs to cover the grant fee, as allocated in the March 26 Roughrider amendment.

IMPROPER CERTIFICATION ISSUE

4. With regard to its requested improper certification issue, petitioner alleges that, while Roughrider's president Ray E. David certified and signed the Roughrider application on June 14, 1974, all exhibits and sections had not yet been prepared and attached, as required by Section I of FCC Form 301.[9] For example, petitioner states that the Articles of Incorporation for Roughrider were certified by the Secretary of State of North Dakota on June 24, 1974, 10 days after David's certification of the application; that the by-laws of Roughrider were certified by Ronald Reichert, its secretary-treasurer, on June 15, 1974, one day after David's certification and 10 days prior to the incorporation of Roughrider; and that the Roughrider balance sheet provided in exhibit No. 4 reflects a June 15, 1973 date. Petitioner also avers that subsequent Roughrider filings raise further questions concerning the applicant's compliance with the Commission's certification requirements. Specifically, Badlands asserts that while, on July 16, 1974, Roughrider's Washington counsel filed an amendment with the Commission which indicates that David signed and certified that amendment on the same date, David lives in Williston, North Dakota, and there is no indication that he was in Washington on July 16th. In support, petitioner refers to a letter, dated July 10, 1974, from Reichert to Roughrider's Washington counsel, which recites that David "will be forwarding" other information to Washington counsel. Furthermore, movant alleges that Roughrider's October 16, 1974 amendment, which adds six leaders to Roughrider's community leader survey, creates an even more obvious abuse of the Commission's certification requirements. In support, petitioner refers to a letter dated October 10, 1974, forwarded to Roughrider's Washington counsel by Reichert, which lists the names, occupations, and addresses of the six additional persons contacted and states:

• • • I am also enclosing a blank sheet of paper with my name signed on it for your amendment.

According to Badlands, since the amendment as field has a detailed listing of community problems determined as a result of the supplemental interviews, whereas the letter from Reichert contains no such list, Reichert did not "have the opportunity to review the amendment before it was filed."

5. In opposition, Roughrider incorporates by reference its "Opposition to motion to dismiss application," filed March 9, 1976.[10] Opponent argues that that pleading answers all of Badlands' allegations since it indicates that both David and Reichert were personally familiar with the contents of the application and amendments thereto prior to their filing with the Commission. Specifically,

---

[1] Also before the Board for consideration are the following related pleadings: (a) opposition, filed March 17, 1976, by Roughrider; (b) supplemental opposition, filed March 26, 1976, by Roughrider; (c) comments, filed March 30, 1976, by the Broadcast Bureau; (d) reply, filed April 9, 1976, by Badlands; (e) request for leave to file supplement, filed June 2, 1976, by Badlands; (f) supplement to motion to enlarge, filed June 2, 1976, by Badlands; (g) comments on (e) and (f), filed June 16, 1976, by the Broadcast Bureau; (h) opposition to (e), filed June 16, 1976, by Roughrider; (i) supplement to (h), filed June 18, 1976, by Roughrider; and (j) opposition to (i), filed July 1, 1976, by Badlands. Roughrider's supplemental opposition will be accepted since that pleading is unopposed by the other parties to this proceeding and is designed to inform us of the filing and substance of an amendment to Roughrider's application, which was subsequently accepted by the Presiding Law Judge, see para. 3, *infra*. In addition, Badlands' request for leave to file supplement will be granted and the supplement to motion to enlarge accepted. In the Board's view, although the supplement is an unauthorized pleading, good cause for its acceptance has been shown. Specifically, we note that the supplement, filed June 2, 1976, contains new information that was discovered upon review of the transcripts of various depositions, which were received by counsel for Badlands "during the week of May 27, 1976", and that the supplement contains decisionally significant information consideration of which will not prejudice any party or unduly delay disposition of the petition at hand. Finally, since Roughrider's supplement to opposition to petition to enlarge, filed June 18, 1976, consists entirely of two affidavits, which Roughrider had previously indicated would be shortly forthcoming, we will also accept that supplement to opposition.

[2] In our view, since a general ascertainment issue has already been designated by the Commission, all aspects of Roughrider's ascertainment efforts may be examined by the parties at the hearing. *Big Country Radio, Inc.*, 50 FCC 2d 967, 32 RR 2d 119 (1975). Nevertheless, we believe it proper to point out that we agree with Badlands' allegation that a question is raised as to whether Art Kubick and/or Carol Kalnz, both of whom are listed as prospective Roughrider employees who conducted portions of Roughrider's general public survey are, in fact, proposed employees of Roughrider. See Q. and A. 11(b) of the *Primer on Ascertainment of Community Problems of Broadcast Applicants*, 27 FCC 2d 650, 21 RR 2d 1507 (1971). On the other hand, we do not believe a sufficient question has been raised as to whether Ronald Reichert was a Roughrider principal at the time he conducted the community leader surveys. See *KSIG Broadcasting Co., Inc.*, 54 FCC 2d 560 (Rev. Bd. 1975).

[3] Rule 1.65 requires applicants to advise the Commission of changes which may be of decisional significance within thirty days of their occurrence.

[4] In pertinent part, Rule 73.35(a) provides that: "No license for a standard broadcast station shall be granted to any party • • • if such party directly or indirectly owns, operates, or controls one or more standard broadcast stations and the grant of such license will result in any overlap of the • • • 1 mV/m • • • contours of the • • • stations. • • •"

[5] Badlands asserts that Roughrider's application estimates total first year construction and operating costs to be $176,000.00, and that available funds are represented to be $194,645.00, $135,000.00 of which consists of new capital to be provided from stock subscriptions.

[6] To the extent that petitioner raises allegations in its reply pleading concerning deficiencies in Roughrider's balance sheet and the unreasonableness of applicant's installation costs, we note that the clerical error in Roughrider's balance sheet has been corrected by Roughrider's March 26 amendment, *infra*, and now complies with the requirements of FCC Form 301, Section III, page 2, para. 2(a), and that petitioner's apparent allegation that Roughrider's equipment installation estimate is unreasonable is entirely unsupported.

[7] We also note that the letter upon which Ronald Reichert relies has been updated. Furthermore, while the bank credit letters all specify that the lines of credit will require the personal guarantees of the individuals in question, the amendment includes such a guarantee from each individual. Moreover, we disagree with the Broadcast Bureau that the figures in Reichert's balance sheet in and of themselves raise a serious question as to whether the bank could reasonably make such a loan.

[8] Roughrider has calculated total costs of $176,000; however, in the computation below, we have distributed the proposed equipment credit and figured actual first year costs. Thus, Roughrider's total equipment costs are $89,498.85, 25% of which is due in down payment, with the balance to be financed in 36 monthly payments at 8½% interest, and the first payment due 60 days after shipment of the transmitter. Accordingly, our calculations indicate that Roughrider's first year costs will consist of:

Down payment on equipment	$22,375
1st yr. payments on equipment and interest	25,429
Land	2,500
Building	2,000
Miscellaneous	21,000
1st yr. operating costs	64,500
Total	137,804

[9] Badlands notes that Section I of FCC Form 301 states that, "This Section should not be signed and dated until all of the following Sections and Exhibits have been prepared and attached."

[10] The certification issue raised by Badlands was also the basis for a motion to dismiss application, filed February 26, 1976, by Badlands. By Order, FCC 76M-327, released March 17, 1976, the Presiding Law Judge denied Badlands' motion to dismiss.

V 41 149 AUG 2 76 UMI

Roughrider notes that its March 9 opposition contains a March 3, 1976 affidavit from David, who avers that the Articles of Incorporation submitted with Roughrider's application clearly stated that they were a duplicate copy; that the original articles were certified by the North Dakota Secretary of State on June 13, 1974, one day prior to his own certification of the Roughrider application; that, although the by-laws were certified by Ronald Reichert on June 15, 1974, the by-laws were adopted prior thereto at a corporate meeting on June 7, 1974; and that, although because of a lack of coordination with Reichert, he (David) inadvertently dated his certification of the application one day prior to Reichert's certification of the previously adopted by-laws, nevertheless, he was "fully familiar" with the by-laws, having discussed the matter "many times" previously with Reichert. With regard to the July 16, 1974 amendment, David avers that he was familiar with the contents of the amendment prior to filing, having previously discussed it with both Reichert and Washington countel. In addition, Roughrider refers to the February 29, 1976 affidavit of Ronald Reichert, which is contained in its March 9 opposition. Therein, Reichert avers that all of the information set forth in the amendments and application was reviewed by him personally and that, even though the October 16, 1974 amendment "may have been" reviewed by telephone rather than by mail, there is no rule which requires a completed amendment to be reviewed and then signed by a principal of an applicant. Furthrmore, with respect to the by-laws, Reichert avers that he prepared them in his capacity as Roughrider's local counsel several weeks prior to their certification on June 15, 1974; that all the information set forth in the by-laws was discussed at length, reviewed, and approved, albeit informally by David at an earlier meeting of corporation principals; that due to a lack of coordination, David assumed Reichert would certify the by-laws on June 14; and that there was no impropriety since David was fully familiar with the by-laws and could attest to their accuracy. Finally, affiant avers that June 15, 1974 is the proper date for the balance sheet and that the June 15, 1973 date was a typographical error.

6. The Review Board believes that an improper certification issue is required. In our view, a serious question has been raised by Badlands as to whether Roughrider has complied with the signature certification requirements of FCC Form 301. Ray David, Roughrider's president, signed the application on June 14, 1974, thereby acknowledging that he had familiarized himself with the instructions concerning signature requirements and certifying that the statements in the application were true, complete, and correct. Ronald Reichert concedes in his affidavit, however, that Roughrider's balance sheet was dated on June 15, 1974, and Roughrider offers no explanation for this discrepancy in its opposition. In addition, Reichert and David admit in their affidavits that Roughrider's corporate by-laws were certified on June 15, 1974, one day after David's certification of the application and their explanation that the by-laws were informally adopted on June 7, 1974, prior to actual incorporation of Roughrider, and that, therefore, David was "fully familiar" with their contents when he signed the subject application, does not satisfactorily explain the matter. In this regard, it is important to note that David never states in his affidavit that he ever personally reviewed by by-laws as proposed or in final form. Finally, we believe further inquiry into the preparation of the October 16, 1974 amendment is warranted since it appears that at the time Reichert signed and thereby certified the amendment to be accurate, he had not provided or reviewed all the material which is now contained therein. Reichert's explanation that the amendment "may have been" reviewed by telephone is not sufficient to dispel the doubts raised. Compare *Belo Broadcasting Corp.*, 56 FCC 2d 557, 35 RR 2d 839 (Rev. Bd. 1975). Consequently, an issue will be added inquiring into the above-noted circumstances surrounding the preparation of Roughrider's application and October 16, 1974 amendment thereto. See *United Broadcasting Company (KBAY)*, 58 FCC 2d 1346, —RR 2d — (1976); *Post Newsweek Stations, Florida, Inc.*, 54 FCC 2d 254, 34 RR 2d 676 (Rev. Bd. 1975).[11]

SECTIONS 1.65 AND 73.35 ISSUES

7. Turning to the requested Rule 1.65 issue, Badlands argues that the Roughrider application has never been amended to reflect the filing, on October 9, 1974, of an application for a new standard broadcast station at Beulah, North Dakota (File No. BP-18,808), by Mercer Broadcasting, Inc. (Mercer), in which Mr. and Mrs. William A. Bolinske[12] are shown as directors, 100% owners, and president and secretary-treasurer, respectively. This failure to amend is decisionally significant, continues movant, because Earl and William Bolinske have common business interests,[13] Beulah is 50 miles from Dickinson, and there is substantial overlap of the proposed 1 mV/m daytime contours of Roughrider and Mercer. Petitioner also contends that a Rule 1.65 issue is required since the applicant has failed to amend its application to reflect the fact that Ray David is an insurance broker and has been chief campaign aide for Senator Milton R. Young in the 1974 election and that he is currently a campaign coordinator in Bismarck, North Dakota, for gubernatorial candidate Robert Melland.[14] Finally, petitioner apparently bases its request for a Section 73.35 issue on the grounds that the commonality of Earl Bolinske's business interests with those of his brother and sister-in-law raises a presumption of common control which, when considered in light of the 1 mV/m overlap of the proposed daytime contours of Roughrider and Mercer, requires addition of the requested issue. In support, petitioner cites, *inter alia*, *Stuart W. Epperson*, 21 RR 675 (1961); *Four States Broadcasting Co.*, 18 RR 616 (1959); and *Southern Indiana Broadcasters, Inc.*, 14 RR 117 (1956).

8. In opposition to the requested Section 73.35 issue, Roughrider asserts that since the drug business interests of William and Earl Bolinske, which are located in communities 128 miles apart, are operated independently of each other and are unrelated to the broadcast stations each principal proposes, the mere fact that Earl and William are related does not raise any presumption of common control, citing, *inter alia*, *KTRB Broadcasting Co., Inc.*, 46 FCC 2d 605, 29 RR 2d 1578 (1974), and *Morris's Inc.*, 44 FCC 2d 321, 28 RR 2d 1723 (Rev. Bd. 1973). In support, opponent also relies on the affidavit of Earl Bolinske.[15] With regard to the failure to amend to reflect the filing of the Mercer application, Roughrider maintains that since Earl Bolinske was not "intimately involved" in the actual preparation of the Roughrider application, he was unfamiliar with the requirements of para. 21(b) of FCC Form 301 and, therefore, failed to notify counsel of his brother's business activities. However, Roughrider notes than an amendment reflecting this information will be shortly be filed.[16]

[11] However, an injury into the circumstances surrounding the preparation and certification of the July 16, 1974 Roughrider amendment is not warranted. Specifically, we note that Badlands' allegations are based entirely on speculation and surmize and, therefore, fail to meet the support and specificity requirements of Section 1.229(c) of the Commission's Rules.

[12] William Bolinske is the brother of Earl Bolinske, who is a director and proposed 25% stockholder of Roughrider. Badlands points out that the Roughrider application states in response to para. 21(b) of FCC Form 301, that no "member of the immediate family of any party to this application [has] any interest in or connection with any broadcast station or pending application."

[13] According to Petitioner, the Roughrider application indicates that Earl Bolinske is president and a director and 33⅓% owner of Interstate Drug, and a director and 33⅓% owner of Plaza Drug, and that Earl is associated with William Bolinske and another individual in both drug stores. In addition, movant alleges that the Mercer application shows that William is a 33⅓% investor in Plaza Drug.

[14] In support, Badlands attaches two newspaper articles and an affidavit, dated March 3, 1976, from Courtney Flatau, president of Badlands. Flatau avers that the articles in question appeared in the *Dickinson Press* on February 7 and 8, 1976.

[15] Earl Bolinske avers, in pertinent part, that, while he owns Interstate Drug with his brother and another individual, "we operate our stores as individuals and confer only during our annual meeting each year as to the operation of the company"; that with regard to his participation in radio broadcasting, "no inquiry was made of [his] partners [in] Interstate Drug"; that if the Roughrider application is granted his "partners in Interstate Drug will have no voice or input of any kind" in that operation; that if his brother's application for Mercer is granted "we will operate independent of one another"; that his brother had now knowledge of his plans for a broadcast station and that he was not aware of either his brother's intent to file the Mercer application, having first learned of those plans from the newspaper, or of the Commission's Rule requiring an amendment to reflect his brother's filing. Finally, affiant states that he had no intent to deceive, as Roughrider's application clearly indicates that William was his brother and partner in Interstate Drug.

9. The Board will deny both of the requested issues. We are of the view that petitioner has failed to allege facts sufficient to raise a question of violation of Section 73.35(a) of the Rules. Thus, petitioner has made no showing that Earl Bolinske, Roughrider's one-fourth owner, has an interest in that applicant that is tantamount to ownership or control. See *United Community Enterprises, Inc.*, 37 FCC 2d 953, 25 RR 2d 745 (Rev. Bd. 1972). And, we further believe that petitioner's allegations fail to raise any question of prohibited cross-interest. See *Farmville Broadcasting Company*, 47 FCC 2d 463, 40 RR 2d 726 (1974). Finally, the Board will also deny the requested Rule 1.65 issue. Petitioner has failed to show the potential decisional significance of either Ray David's past and present employment and political activities, or Roughrider's failure to timely amend its answer to question 21(b) of FCC Form 301 to reflect the filing of the Mercer application. Under these circumstances, we do not believe that an evidentiary inquiry into these matters is warranted.

10. Accordingly, it is ordered, That the supplemental opposition, filed March 26, 1976, by Roughrider Broadcasting Co., is accepted; and that the request for leave to file supplement, filed June 2, 1976, by Badlands Broadcasting Company is granted, and the supplement, filed June 2, 1976, is accepted; and that the supplement to opposition to request for leave to file supplement, filed June 18, 1976, by Roughrider Broadcasting Co., is accepted; and

11. It is further ordered, That the petition to enlarge issues, filed March 4, 1976, by Badlands Broadcasting Company is granted to the extent indicated herein, and is denied in all other respects; and

12. It is further ordered, That the issues in this proceeding are enlarged to include the following issue:

To determine whether the application of Roughrider Broadcasting Co., and the October 16, 1974 amendment thereto, were properly certified and executed by a principal thereof in accordance with FCC requirements, and in light of the evidence adduced, whether Roughrider Broadcasting Co. possesses the requisite and/or comparative qualifications to be a Commission licensee.

13. It is further ordered, That the burden of proceeding with the introduction of evidence under the issue added herein shall be on Badlands Broadcasting Company, and that the burden of proof shall be on Roughrider Broadcasting Co.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[16] The March 26 amendment, see par 3, *supra*, indicates that Mr. and Mrs. William Bolinske filed an application for a new standard broadcast station at Beulah, North Dakota on October 9, 1974. In addition, the amendment reflects that as of February 1, 1976, Ray David became campaign coordinator for gubernatorial candidate Robert Melland, that Ray David worked as campaign coordinator for Senator Milton R. Young in the November 1974 election, and that Ray David became an independent insurance broker in May 1975.

COAST RADIOTELEGRAPH STATIONS

Order Staying Effectiveness of Memorandum Opinion and Order

In the matter of inquiry into problems of coast radiotelegraph stations.

1. The Commission has before it for consideration the following pleadings addressed to its Memorandum Opinion and Order (hereinafter referred to as "Order")[1] in this Docket released May 27, 1976:

(a) An Application for Stay Pending Judicial Review filed by TRT Telecommunications Corporation (TRT) on June 18, 1976, seeking a stay of the Commission's Order, insofar as it applies to TRT, pending completion of judicial review of the Order;[2]

(b) A Petition for Partial Reconsideration and Modification of the Commission's Order and a separate Request for Stay, both filed by RCA Global Communications, Inc. (RCA Globcom) on June 28, 1976;

(c) A Petition for Reconsideration and Clarification or Rule Waiver filed by Mobile Marine Radio (MMR) on July 1, 1976; and,

(d) An Application for Stay Pending Judicial Review filed by ITT World Communications Inc. (ITT Worldcom)[3] on July 8, 1976.

2. It appears from the pleadings filed in this matter that the intent of the Commission's Order, released May 27, 1976, is subject to misinterpretation. We therefore believe that the public interest will be served by Commission review of its Order to determine what, if any, clarification or modification of that Order is necessary and desirable. Therefore, we shall stay the effectiveness of that Order pending such review.

3. Accordingly, it is ordered that the effectiveness of the Commission's Memorandum Opinion and Order, released May 27, 1976, is stayed, pending further order of the Commission.

Adopted: July 15, 1976.

Released: July 26, 1976.

[Docket No. 20881; FCC 76-670]

SWAN ANTENNA SYSTEMS

Memorandum Opinion and Order

By the Commission:

1. On February 24, 1976, in Oliver W. Swan, d.b.a. Swan Antenna Systems, Cochise County, Arizona, FCC 76–123, 57 FCC 2d 1265, the Commission ordered an evidentiary hearing on the applications for construction permits for new television translator stations filed by Oliver W. Swan, d.b.a. Swan Antenna Systems.[1] Nine issues were designated for hearing of which issue number 2 stated:

To determine whether the applicant operates or has operated cable television systems, as defined by Section 76.5(a) of the Commission's Rules, and, if so, whether such systems are being operated or have been operated, in violation of Section 76.11(a) of the Rules.[2]

2. By order of the Presiding Administrative Law Judge (FCC 76M–273), dates were set for the initiation of discovery and a prehearing conference. All parties to the proceeding, with the exception of Swan, initiated various forms of discovery. However, on April 12, 1976, Swan filed a "Request for Dismissal of Case". The Cable Television Bureau, Broadcast Bureau and Carleton Signal Corp. filed comments on that motion. By Order (76M–537), the Presiding Administrative Law Judge dismissed the applications with prejudice and terminated the proceeding stating in part:

Swan's two applications will be dismissed, and this proceeding terminated • • • Once those applications are dismissed, the jurisdictional res is gone. The only reason the Presiding Officer could or should take evidence in this case would be to ultimately grant or deny that which is before him; namely, the two translator applications • • • The Commission made it clear that it wanted evidence taken on Issue 2, inter alia, and that it was only if this evidence taken during the application stage warranted it that the show cause aspects would come to life.

3. While the action of the Administrative Law Judge adequately disposed of Swan's applications, it in no way resolved the issue as to whether Swan is or was operating cable television systems without having applied for or having obtained a certificate of compliance. The cable television component of the aforementioned proceeding began when Carleton Signal Corp. d.b.a. Bisbee CATV filed with the Broadcast Bureau's Translator Unit a petition to deny Swan's translator applications. Part of that petition stated:

• • • On February 18, 1975, the Commission wrote Swan concerning said [translator] applications and added 'you are required to advise the Commission whether you have any interest in, or connection with, any cable systems.' There is no reply to this letter in the FCC file. However, Swan's presently pending applications (BPTTV–5236 and BPTTV–5327) show that he now claims an interest in eight (8) alleged MATV systems, all of which systems were in operation in June, 1974, and at least one (1) of which was found by an FCC inspector, in May 1975, to have 75 subscribers.[3]

4. A copy of the pleading referred to in paragraph 3 supra was provided to the Cable Television Bureau by the Broadcast Bureau. Based on the information contained therein the Cable Bureau, on July 21, 1975, wrote Swan and requested information relevant to his cable television operations, including whether or not he operated a cable television system as defined by Section 76.5(a) of the Commission's Rules. On July 28, 1975, Swan responded, stating that he did not operate cable television systems as defined by Section 76.5(a). However, he also stated:

I am the owner and operator of separate and distinct community television facilities which come within the provision of the cases cited in your letter.[4]

5. In a further effort to clarify the nature and scope of Swan's cable operations the Commission's staff, on May 19, 1976, wrote Swan requesting specific information as to Swan's cable operations. That letter contained ten (10) questions to which Swan responded on May 28, 1976. That response indicated that Swan operated cable facilities in five communities of which none had in excess of 42 subscribers. However, Swan in no way indicated why he considers those "separate and distinct" communities and the franchises supplied by Swan do not aid the Commission in making that determination. Additionally, the Commission has received information from other sources which indicates that Swan may be operating in as many as 14 communities.[5] Again, however, the Commission is unable to determine the veracity of this information or if those are separate and distinct communities so as to comprise separate cable television operations.

6. As we previously stated in our order in Oliver W. Swan, supra, this matter before us raises serious questions. We are not persuaded that the "community television facilities" which Swan concedes that he operates are not cable television systems within the meaning of Section 76.5(a) of the Rules, and he may, therefore, be operating in violation of Section 76.11(a) of the Rules. Furthermore, the fact that Swan's translator applications have been dismissed and the hearing in Dockets 20715 and 20716 has been terminated does not alleviate our concern expressed in issue number 2 in that proceeding. However, for the reasons stated herein, we are unable to make a finding at this time that Swan operates a cable television system as defined by Section 76.5(a) of the Rules so as to sustain an Order to Show Cause. Yet, the matter raises a serious enough question so that we feel it is appropriate to order an evidentiary hearing. If it is determined that Swan's "community television facilities" are subject to the Commission's Rules, Swan will, by this order, be required to show cause why he should not be compelled to cease and desist from further violation of the rules.

Accordingly, it is ordered, That pursuant to Section 309(e) of the Communications Act of 1934, as amended and Section 76.7(f) of the Commission's Rules, an evidentiary hearing is ordered, at a time and place and before an Administrative Law Judge to be specified in a subsequent order upon the following issue:

To determine if Oliver W. Swan d.b.a. Swan Antenna Systems operates or has operated cable television systems, as defined by Section 76.5(a) of the Commission's Rules and, if so, whether such systems are being operated or have been operated, in violation of Section 76.11(a) of the Rules.

It is further ordered, That the burden of going forward with the production of evidence will be on the Cable Television Bureau.

It is further ordered, That the Chief, Cable Television Bureau, Carleton Signal Corp., d.b.a. Bisbee CATV and Oliver W. Swan d.b.a. Swan Antenna Systems ARE MADE PARTIES to this proceeding. are made parties to this proceeding.

It is further ordered, pursuant to Section 312(b) and (c) of the Communications Act of 1934, as amended, that, if the issue, above, is resolved in the affirmative, Oliver W. Swan shall show cause if any he may have, why an order should not issue requiring him to cease and desist from further operation of cable television systems in violation of the Commission's Rules.

It is further ordered, That, to avail himself of the opportunity to be heard, Oliver W. Swan d.b.a. Swan Antenna Systems and Carleton Signal Corp., d.b.a. Bisbee CATV, pursuant to Section 1.221 (c) of the Commission's Rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That the Secretary of the Federal Communications Commission SHALL SEND copies of this Order by certified mail to Oliver W. Swan d.b.a. Swan Antenna Systems and Carleton Signal Corp., d.b.a Bisbee CATV.

Adopted: July 14, 1976.

Released: July 30, 1976.

FEDERAL COMMUNICATIONS COMMISSION,

RCC—TELEPHONE INTERCONNECTION

Additional Meetings

JULY 26, 1976.

The Commission's Common Carrier Bureau has scheduled additional meetings concerning interconnection between the wireline telephone companies and the Radio Common Carriers (RCCs), which furnish two-way radiotelephone and one-way signaling service to the public.

FRe------

The meetings will be held on August 5 and 6, 1976, in the offices of American Telephone and Telegraph Company. Room 711, 2000 L Street, NW., Washington, D.C. The August 5th meeting will begin at 9:30 a.m. The August 6th meeting is scheduled to begin at 9:00 a.m.

Because of the possibility of last-minute room and time changes, participants should contact Mrs. Borthwick at 632–6400 on the morning of each meeting to verify the room location and time.

VUE-METRICS, INC., ET AL.

Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Vue-Metrics, Inc. Philadelphia, Pennsylvania for a con-

[1] Files Nos. BPTTV–5326 and 5327A.

[2] If issue 2 were to be resolved in the affirmative, the Commission ordered Swan to Show Cause why he should not cease and desist from violation of Commission Rules.

[3] In this regard we note that the report we have from the engineer in charge of the Douglas, Arizona, monitoring station states, "It would be very difficult to confirm or disprove that Swan has 50 customers or less in any one community." If there is a report that states Swan has 75 subscribers on at least one cable television system, we do not possess it.

[4] The cases cited in our letter were Telerama, Inc. 3 FCC 2d 585 (1966) and Mission Cable TV, Inc., 4 FCC 2d 236 (1966). These cases bear on determining applicable communities for the purpose of establishing cable television systems and Swan's use of these cases in his reply indicates a lack of understanding of the applicability of our cable television rules to his operations.

[5] Bisbee CATV furnished the Commission a copy of the 1975 yellow pages ad of Swan Antenna Systems which lists "Cable TV Services" in 14 separate areas only three of which Swan listed in his response to the Commission's May 19, 1976 letter.

V 41 149 AUG 2 76 UMI

struction permit for a new television station, Vue-Metrics, Inc., Philadelphia, Pennsylvania for subscription television authorization, Radio Broadcasting Company, Philadelphia, Pennsylvania, for a construction permit for a new television station, Radio Broadcasting Company, Philadelphia, Pennsylvania, for subscription television authorization.

By the Commission: Commissioner Lee absent.

1. The Commission has for consideration the applications of Vue-Metrics, Inc., for a construction permit for a new television broadcast station on channel 57 at Philadelphia, Pennsylvania (BPCT-4368) and for authority to conduct subscription television operations over the facilities of the proposed station (BSTV-1); and the application of Radio Broadcasting Company for a construction permit for a new television station on channel 57 at Philadelphia (BPCT-4486) and for authority to conduct subscription television operations over the proposed station (BSTV-5). The applications for construction permits are mutually exclusive in that, operating as proposed on the same channel in the same community, mutually destructive interference would result if both proposals were granted. Likewise, the subscription television applications are "mutually exclusive" in that, pursuant to section 73.642(a) of the Commission's rules, only one STV authorization may be granted in any single community. However, an STV authorization may be granted only to a television broadcast licensee or permittee. Thus, once one of the applicants receives the construction permit, the remaining applicant will be ineligible for an award of subscription television authority and its application may be dismissed. Therefore, while this Order will set the construction permit applications for comparative hearing in a consolidated proceeding, under the *Ashbacker*[1] doctrine, and consolidates the STV applications into the same proceeding for the purpose of trying specific issues concerning the STV applications, it is not intended (or necessary) to conduct a *comparative* hearing on the STV applications. Accordingly, no comparative evidence will be taken on the STV applications.

THE VUE-METRICS APPLICATIONS

2. To construct the proposed station and operate it for a period of one year, Vue-Metrics will require $955,264.[2] Of this amount, some $737,792 is apparently anticipated from the STV franchisee, American Subscription Television, Inc.[3] No source has been identified for the remaining $217,472, other than a letter dated March 24, 1975, to AST from Herbert, Sidney and Allen Kohl, declaring their willingness to contribute $2,200,000 for the Philadelphia station and STV operation. There is, however, no letter from AST to Vue-Metrics agreeing to supply the necessary additional funds or specifying the terms on which funds will be provided. Under the circumstances, a financial issue against Vue-Metrics would appear indicated to explore the availability and the amount of funds available for construction and operation of the station.

3. Certain of the discrepancies in Vue-Metrics application make it seem possible that the applicant has also underestimated its first-year expenses. It is assumed, because the item is separately provided for in its estimates, that Vue-Metrics' tower is not part of the equipment packaged to be leased from the equipment leasing company. Vue-Metrics has allocated $30,000 for the item, "Rent, Tower," but has not indicated from whom the tower will be leased, or the terms of the lease. Thus, there appears to be no basis for the allocation. Similarly there is no support for the $18,000 allocated to "Rent: Office and Studio." While Vue-Metrics has indicated a cost of remodeling and constructing buildings of $120,000, it is not clear whether the expenses are separate items, or whether the $18,000 rental figure includes partial repayment of construction expenses. Finally, Vue-Metrics has allocated only $4,000 to the rental of its transmitter site during the first year. A lease agreement (or, more correctly, a memorandum of agreement prior to execution of a lease) clearly provides for an annual lease payment of $7,500, commencing with the date on which construction begins. While Vue-Metrics' STV franchisee, AST, has made a $2,500 prepayment, it would appear that at least $1,000 more than Vue-Metrics has estimated will be due to the lessor during the period of construction and the first year of operation. Therefore, an issue will be specified to inquire into the cost of renting the tower, transmitter site and office and studio facilities, and the impact of any additional funds required on Vue-Metrics' financial qualifications.

4. A further financial issue will be necessary with regard to the Vue-Metrics' STV application. As support for the Kohl brothers' ability to advance $2,200,000, Vue-Metrics has submitted a joint balance sheet for the three brothers, and an individual schedule of assets for Allen Kohl. Both documents are deficient in several respects. The joint balance sheet is dated December 31, 1974 and, therefore, is of very limited value. "Securities Traded on Major Exchanges" have not been more specifically identified and their present market value, therefore, cannot be ascertained. We do not know the percentage composition of the item "Silver and Platinum" and thus cannot ascertain its current value. No appraisal has been submitted of "Oil and Gas Investments" or real estate.[4] Moreover, they do not indicate what sale price could be arranged if it were necessary to liquidate these properties at less-than-best terms in order to raise funds for the Philadelphia adventure. Most significantly, while indicating their "willingness" to provide funds for the project, the Kohls have not expressely stated their willingness to liquidate real property, if necessary, to fulfill their commitment. Under these circumstances, we have not considered these fixed assets available for the purpose of constructing and operating the station or the STV operation.

5. If none of the above items are considered available for financing the venture, we are left with, at most, $3,500,000 in current and liquid assets (including an income tax overpayment which, since the date of the balance sheet, most likely has been converted into cash). On the equity side of the balance sheet, the Kohls have failed to segregate current and long-term liabilities. Inasmuch as the Commission has no basis for allocating the single item "loans payable" into current and long-term portions, the entire amount must be treated as current. With more than $13,000,000 of such "current" liabilities, the Kohls have failed to demonstrate the availability of any current and liquid assets in excess of current liabilities and thus will be presumed, until it is proven otherwise, unable to fulfill their joint commitment to provide funds for Vue-Metrics' proposed station and STV operation.

6. The individual financial data of Allen Kohl does not clarify Vue-Metrics' financial situation. Although his financial statement, together with his personal schedule of assets, would, individually, indicate the availability of sufficient funds, the loan commitment from the three brothers states only that "we hereby declare our willingness to make available $2,200,000. This sort of language has been judicially construed to constitute a joint commitment,[5] and does not, we believe, create a several liability (although this may be a matter settled by state law[6]). In the absence of Allen Kohl's express statement of intent to create a several liability in the event his brothers are unable or choose not to fulfill their part of the commitment, we will not assume that he intends to finance the adventure single-handedly. In view of the foregoing, a financial issue with regard to Vue-Metrics' STV application appears to be in order.

THE RADIO BROADCASTING COMPANY APPLICATION

7. To construct and operate its proposed television station, RBC will require an estimated $581,166.[7] To meet this requirement, RBC relies on the cash flow from its existing operations in the radio common carrier and multi-point distribution services. While RBC has claimed after-tax profits for 1974 exceeding $64,000, and made certain projections concerning its cash flow for the current fiscal year, we conclude that these sources are not sufficiently documented to be considered available. Profits do not necessarily reflect increases in working capital available for operations. And there has been no verification of RBC's cash flow picture by a qualified accountant, or any information submitted concerning the manner in which it was computed. A financial issue, therefore, is in order. It will also be necessary to explore RBC's proposal to lease equipment for both the station and the STV operation from Firstmark Leasing Corp. RBC has assumed that equipment lease payments during the period of construction and first-year of operation will total $25,666, based upon the following assumptions: (a) a five-year lease; (b) an 8% add-on charge; and (c) a twelve-month deferral of all lease payments due under the lease. None of these assumptions is supported by the letter from Firstmark submitted by RBC. Therefore, a further issue will be specified to inquire into the availability and terms of the proposed lease agreement; the impact on the estimated expenses of construction and operation; and the implications for RBC's financial qualifications.

8. Similarly, in view of RBC's apparent lack of capital, a financial issue will be required with regard to its STV proposal. A further difficulty exists, however, in attempting to calculate the cost of encoding and decoding equipment. RBC intends to utilize its own STV system, but has not yet submitted details of its system to the Commission for advance technical approval, as required by section 73.644 of the rules. Therefore, there seems to be no basis for judging the validity of RBC's estimate for the cost of the equipment, if it is not known whether the equipment will be acceptable.[8] Therefore, a further issue will be specified concerning the reasonableness of RBC's estimates, and any consequential impact on its financial requirements and qualifications.

9. As mentioned above, Radio Broadcasting Company has not proposed to use any of the STV systems approved by the Commission's Chief Engineer. Approval of the applicant's proposed system is a prerequisite to any grant of subscription television authority. Section 73.644 of the rules. Failure to specify an approved system *or* request a waiver of the rule presumably would make RBC's application subject to dismissal without a hearing. U.S. v. Storer Broadcasting Co., 351 U.S. 192 (1956). However, practically speaking, the defect is not critical in this instance, because RBC is not even eligible for a grant until it is determined whether it will be a permittee of the Commission. Therefore, we will permit RBC to go to hearing on this portion of its application, thereby providing RBC with an opportunity to correct the deficiency by submitting an application for technical approval.

10. Finally with respect to Radio Broadcasting Company's application, we note that RBC is the licensee of a station in the multipoint distribution service (MDS) in Philadelphia. We take official notice that a common use of MDS is for the distribution of entertainment programs, principally movies, to apartment houses, and that the technology is developing for even wider distribution over this medium. While RBC's discretion in the carriage of programming on its MDS station is limited by its status as a common carrier, it is also clear that MDS is being used in many communities to provide a service to at least a segment of the market for which RBC, as a subscription television operator, will be expected to compete. While we have, in the past, limited our inquiry in cases of common ownership of common carrier and broadcast facilities, Alabama Microwave, Inc., 23 FCC 2d 792 (1970), where the two services actually compete, we believe a full inquiry is necessary to determine whether anticompetitive effects inimical to the public interest might result. Accordingly, an appropriate issue will be specified.

11. Accordingly, It is hereby ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned applications of Vue-Metrics, Inc., and Radio Broadcasting Company for construction permits for new television broadcast stations are designated for comparative hearing, and that the above-captioned applications of Vue-Metrics, Inc., and Radio Broadcasting Company for subscription television authorization are designated for hearing, in a consolidated proceeding at a time and place to be fixed in a subsequent Order, upon the following issues:

(1) To determine, with respect to the application of Vue-Metrics, Inc., for subscription television authority:

(a) Whether, and in what amount, funds will be available to American Subscription Television, Inc., for subscription television operations; and

(b) Whether, in light of the evidence on the above issue, Vue-Metrics, Inc., and American Subscription Television, Inc., are financially qualified to implement the subscription television proposal

[1] *Ashbacker Radio Corporation* v. *FCC*, 326 U.S.O. 327, 66 S. Ct. 148, 90 L. Ed. 108 (1946).

[2] AST's financial proposal for the STV operation includes $530,000 for purchase of station time, and $207,792 for rental of station equipment. Other estimated expenses of the STV operation are: lease of encoding and decoding equipment, $184,284; pre-operating expenses, $164,000; promotions and advertising, $100,000; general and administrative expenses, $160,000; new subscriber costs, $15,000; and miscellaneous expenses, $25,000, for a total of $1,386,076.

[3] Itemized as follows: Equipment lease payments, $260,264; other (including legal, engineering, installation and miscellaneous) expenses, $50,000; buildings, $120,000; and working capital (first-year operating expenses), $525,000.

[4] An appraisal report has been submitted estimating the value of property in Fort Lauderdale at $4,500,000 "If a reasonable time is allowed to find a purchaser," and without disclosing whether the property is subject to any liens or encumbrances.

[5] *New Haven & Northhampton Co.* v. *Hayden*, 119 Mass. 361, 364 (1876).

[6] *See, Groves* v. *Sentell*, 153 U.S. 465, 476 (1894).

[7] Itemized as follows: Equipment lease payments, $25,666 (as noted in the text, below, we are adopting RBC's estimate, although the letter from the leasing company is deficiently imprecise); buildings, $5,000; other expenses, including installation, legal and engineering fees, and miscellaneous expenses, $29,000; FCC grant fee, $22,500; and working capital $499,000.

[8] Because lease payments on the STV equipment and the STV working capital requirement are included in the itemized expenses for construction and operation of the station, the only additional item of expense for the STV operation is $60,000 for promotion and advertising, for a total of $641,166.

V 41 149 AUG 2 76 UMI

and continue subscription television operations for one year.

(2) To determine, with respect to the application of Vue-Metrics, Inc., for a construction permit:

(a) Whether, in light of the evidence on the above issue (1), and in what amount, funds will be available to Vue-Metrics, Inc., for the construction and operation of the proposed television station, and

(b) Whether Vue-Metrics, Inc., has reasonably estimated the cost of leasing its transmitter site, transmission tower, and office and studio facilities and, if not, whether additional funds will be required, and

(c) Whether, in light of the evidence on the above issues, Vue-Metrics, Inc., is financially qualified to construct the proposed station and operate the station for one year.

(3) To determine, with respect to the application of Radio Broadcasting Company for subscription television authority:

(a) Whether Radio Broadcasting Company's proposal for a subscription television system of encoding and decoding television broadcast signals can receive advance approval from the Commission, as provided in section 73.644 of the rules.

(b) Whether Radio Broadcasting Company has reasonably estimated the cost of encoding and decoding equipment necessary for the proposed subscription television operation.

(c) Whether equipment for the proposed subscription television operation can be leased from Firstmark Leasing Corporation, and on what terms.

(d) In light of the evidence on the above issues (b) and (c), the funds required for the implementation and continuation of the proposed subscription television operation.

(e) Whether, and in what amount, funds will be available to Radio Broadcasting Company for subscription television operations; and

(f) Whether, in light of the evidence on the above issues (b), (c), (d), (e), Radio Broadcasting Company is financially qualified to implement the proposed subscription television operation and continue subscription television operations for a period of one year.

(g) Whether, in light of Radio Broadcasting Company's ownership of a common carrier station in the multipoint distribution service, anti-competitive consequences could result, and, if so, the consequent impact on Radio Broadcasting Company's qualifications to be the holder of a subscription television authorization.

(4) To determine, with respect to the application of Radio Broadcasting Company for a construction permit for a new television station:

(a) Whether equipment for the proposed television station can be leased from Firstmark Leasing Corporation, and on what terms.

(b) In light of the evidence on the above issue, whether additional funds will be required.

(c) Whether, and in what amount, funds will be available to Radio Broadcasting Company for the construction and operation of the proposed station.

(d) Whether, in light of the evidence on the above issues, Radio Broadcasting Company is financially qualified to construct the proposed station and operate the station for one year.

(5) To determine, with respect to the applications of Vue-Metrics, Inc., and Radio Broadcasting Company for construction permits for new television stations:

(a) Which application, on a comparative basis, if granted, would better serve the public interest, convenience and necessity; and

(b) Which application, if either, in the light of the evidence on the above issues (2) and (4) and (5)(a), should be granted.

(6) To determine, with respect to the applications of Vue-Metrics, Inc., and Radio Broadcasting Company for subscription television authority, which application, if either, in the light of the evidence on issues (1) and (3), and the resolution of issue (5)(b), should be granted.

12. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days from the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

13. It is further ordered, That the applicants herein, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and manner prescribed in such rule, and shall advise the Commission of the publication of such notice, as required by section 1.594(g) of the rules.

Adopted: June 24, 1976.

Released: July 28, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 104]

ASSIGNMENT OF HEARINGS

JULY 28, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 52793 (Sub 21), Bekins Van Lines Co., MC 15735 (Sub 27), Allied Van Lines, Inc., and MC 1931 (Sub 16), Vonder Ahe Van Lines, Inc. now being assigned November 2, 1976 (2 weeks), at Los Angeles, California in a hearing room to be later designated.

MC 110683 Sub 108, Smith's Transfer Corp., now being assigned September 23, 1976 (2 days), at Louisville, Ky., in a hearing room to be later designated.

MC-F 12679, C.T. Transport, Inc.—Purchase—B & S Transportation, Inc. now being assigned November 9, 1976 (2 weeks), at Buffalo, New York in a hearing room to be later designated.

MC 33446 (Sub-No. 3), Redifer Bus Company, now assigned October 27, 1976, at Cleveland, Ohio is canceled and application dismissed.

MC 135552 (Sub 3), Allied Underwriters, Inc., Extension-Charter and Special Operations now being assigned November 1, 1976 (1 week) at LaCrosse, Wisconsin in a hearing room to be later designated.

MC 119792 (Sub 53), Chicago Southern Transportation Company now being assigned October 26, 1976 (2 days) at Chicago, Illinois in a hearing room to be later designated.

MC 25869 (Sub 127), Nolte Bros. Truck Line, Inc. now being assigned October 27, 1976 (1 day) at Chigaco, Illinois in a hearing room to be later designated.

ROBERT L. OSWALD,
Secretary.

FINANCE APPLICATION

JULY 29, 1976.

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's General rules of practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

No. MC-F-12882 (Correction), (BRIGGS TRANSPORTATION CO.,—CONTROL AND MERGE—I & S McDANIEL, INC.,) published in the FEDERAL REGISTER, July 16, 1976, on page 29526. Prior notice should read as follows: *Operating rights sought to be controlled and merged: General commodities* as a *common carrier* over regular routes between Paoli, Ind., and Cincinnati, Ohio; between Indianapolis, Ind., and Huntingburg, Ind., between Switz City, Ind., and Vincennes, Ind., between junction Indiana Highway 45 and Indiana Highway 56, and Indianapolis, Ind., between Washington, Ind., and Jasper, Ind., between Huntingburg, Ind., and Evansville, Ind., between Vincennes, Ind., and Lawrenceville, Ill. Service is authorized to and from all intermediate points on the above-specified routes; between Indianapolis, Ind., and Evansville, Ind. Service is authorized to and from the intermediate points of Sullivan, Vincennes and Princeton, Ind.; *General commodities*, except those of unusual value and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Terre Haute, Ind., and Freedom, Ind., between Worthington, Ind., and Hubbell, Ind. Service is authorized to and from all intermediate points. *Commodities generally*, between Princeton, Ind., and junction Indiana Highways 57 and 56; between junction Indiana Highways 67 and 58 and Freelandville, Ind., between junction Indiana Highway 56 and unnumbered highway and Dubois, Ind., between junction **Indiana Highways 37 and** 39 and junction Indiana Highways 39 and 67; between junction U.S. Highway 50 and Indiana Highway 1 and Milan, Ind., all intermediate points on the above-specified routes.

General commodities, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and commodities requiring special equipment, over regular routes, between Oden and Brownstown, Ind., between Bloomington and Loogootee, Ind., between Bloomfield, Ind., and the junction of Indiana Highways 54 and 37; between Elnora, Ind., and the junction of Indiana Highways 58 and 67; *General Commodities*, except articles of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those requiring special equipment, over a regular route, as an alternate route for operating convenience only, between Oakland City, Ind., and junction Indiana Highway 57 and U.S. Highway 41; *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, and those requiring special equipment, over regular routes. Service is authorized to and from the following intermediate or off route points in connection with said carrier's presently authorized regular route operations. (a) All points in Marion County, Ind.; St. Mary's of the Woods, West Terre Haute, and Hulman Air Field in Vigo County, Ind.; points in Indiana within five miles of Cincinnati in Hamilton County, Ohio; and (b) points within five miles of the following cities, Martinsville, Bloomington, Bedford, Paoli, Linton, Bicknell, Washington, Vincennes, within Indiana, Oakland City (except that portion of the area encompassed by the radius from Winslow), Winslow (except that portion encompassed by the radius from Oakland City and from Petersburg), Petersburg (except that portion encompassed by the radius from Winslow), Princeton, Boonville, Bloomfield (Greene County), Seymour, Lawrenceburg, Jasper (except that portion of the area encompassed by the radius from Huntingburg), and Huntingburg (except that portion encompassed by the radius from Jasper) in Indiana, between Vincennes, Ind., and Washington, Ind., (as an alternate route for operating convenience only in connection with said carrier's otherwise authorized regular route operations); between Loogootee, Ind., and junction U.S. Highway 50 and Indiana Highway 37, Service is authorized to and from the intermediate points of Shoals, Ind.

[1] This notice corrects the hearing date. August 16, 1976 instead of Sept. 8, 1976.

V 41 149 AUG 2 76 UMI

General commodities, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over alternate routes for operating convenience only, subject to the restriction that no service is to be rendered over these routes in connection with the transportation of traffic moving between Indianapolis, Ind., and Cincinnati, Ohio, or Louisville, Ky., and points beyond, between junction U.S. Highway 41 and Indiana Highway 54, on the one hand, and, on the other, Linton, Ind.; between Indianapolis, Ind., on the one hand, and on the other, Seymour, Ind.; between junction U.S. Highways 31 and 31A at or near Columbus, Ind., on the one hand, and, on the other, junction U.S. Highway 31 and U.S. Highway 50 at or near Seymour, Ind.; between junction Indiana Highway 7 and U.S. Highway 31A at or near Columbus, Ind., on the one hand and, on the other, junction Indiana Highway 7 and U.S. Highway 50 at or near North Vernon, Ind. *General commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Southern Indiana Gas and Electric Company plant located on the Ohio River near Yankeetown, Ind., as an off-route point in connection with carrier's authorized regular route operations to and from Evansville, Ind. *General commodities*, except those of unusual value Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment; between junction U.S. Highway 50 and U.S. Highway 150 at or near Shoals, Ind., and junction U.S. Highway 150 and Indiana Highway 56 at or near Prospect, Ind., serving all intermediate points; Alternate or connecting routes for operating convenience only.

General commodities, except those of usual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction U.S. Highway 50 and Indiana Highway 60 at or near Huron, Ind., and junction Indiana Highway 60 and Indiana Highway 37, at or near Mitchell, Ind., serving no intermediate points; between junction Indiana Highway 157 and Indiana Highway 54 at or near Bloomfield, Ind., serving no intermediate points between junction U.S. Highway 50 and U.S. Highway 31 near Seymour, Ind., and junction Indiana Highway 56 and Indiana Highway 135 at or near Salem, Ind., serving no intermediate points, between junction Indiana Highway 59 and Indiana Highway 246 at or near Clay City, Ind., and junction Indiana Highway 59 and Indiana Highway 67 at or near Sanborn, Ind., serving no intermediate points. *General commodities*, except those of unusual value Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, Serving Huron, Ind., as an intermediate point on carrier's regular route between Loogootee, Ind., and junction U.S. Highway 50 and Indiana Highway 37. Serving the plant site of the U.S. Gypsum Company, near Shoals, Ind., as an off-route point in connection with carrier's regular route operations in Indiana.

General commodities, with exceptions, serving the site of the Warrick Works of the Aluminum Company of America, plant, located near Newburgh, Warrick County, Ind., as an off-route point in connection with carrier's authorized regular route operations to and from Evansville, Ind., over Indiana Highway 62 and U.S. Highway 41, *General commodities*, with exceptions, serving the sites of the Indiana Michigan Electric Company and the Ayrshire Collieries Corporation, located in Curry Township, Sullivan County, Ind., as off-route points in connection with carrier's authorized regular-route operations over U.S. Highway 41 between Evansville, Ind., and Terre Haute, Ind., *General Commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between junction Indiana Highway 46 and Indiana Highway 59, and Bloomington, Ind., as an alternate route for operating convenience only, in connection with carrier's regular route operations, serving no intermediate points, *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment between Salem, Ind., and Borden, Ind., serving all intermediate points. *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction Indiana Highway 67 and Indiana Highway 57 and U.S. Highway 50 at or near Washington, Ind., serving no intermediate points; between junction Indiana Highway 56 and Indiana Highway 61 at or near Campbelltown, Ind., and junction Indiana Highway 61 and Indiana Highway 62 at or near Boonville, Ind., serving no intermediate points; between junction U.S. Highway 50 and Indiana Highway 60 at

General commodities, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Mitchell, Ind., and junction Indiana Highway 60 and Indiana Highway 56 near Salem, Ind., as an alternate route for operating convenience only, serving no intermediate points; *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment between Paoli, Ind., and English, Ind., serving all intermediate points, *General commodities*, with exceptions, between junction U.S. Highway 50 and Indiana Highway 235, and junction Indiana Highway 135 and Indiana Highway 235, serving the intermediate point of Medora, Ind., *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the facilities of the New York Central Railroad, known as the Big Four Yards, located generally in the territory east of Indiana Highway 267, south of U.S. Highway 36, and north of U.S. Highway 40 in Hendricks County, Ind., as an off-route point in connection with carrier's authorized regular-route operations to and from Indianapolis, Ind. with restriction. *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between English, Ind., and Louisville, Ky., serving the intermediate points of Temple and Marengo, Ind.; from Louisville, Ky., to Milltown, Ind., serving intermediate and off-route points within 5 miles of Milltown for delivery only; *Livestock*, from Milltown, Ind., to Louisville, Ky., serving intermediate and off-route points within 5 miles of Milltown for pickup only; *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment. Service is authorized to and from points within 10 miles of Crawfordsville, LaFayette, and Terre Haute, Ind., and those in Marion County, Ind., as intermediate or off-route points in connection with carriers regular-route operations authorized herein.

General commodities, except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading. Service is authorized to and from points within 5 miles of Danville, Ill., as off-route points in connection with carrier's regular-route operations to and from Danville authorized herein. *General commodities*, except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk and those requiring

special equipment, between Terre Haute, Ind., and Indianapolis, Ind., between Indianapolis, Ind., and Danville, Ill., between points in Indiana as follows: From Veedersburg to Williamsport; from Veedersburg to Terre Haute; from Crawfordsville to Jamestown; from Crawfordsville to Lafayette; from Crawfordsville to Lafayette, service is authorized to and from off-route points of Mellott, Newton and New Richmond; from Crawfordsville to junction Indiana Highway 47 and U.S. Highway 41, service is authorized to and from off-route points of Marshall and Turkey Run State Park; from Danville to Bainbridge; from Bellmore to junction unnumbered highway and U.S. Highway 41 near Rockville; from junction U.S. Highway 41 and Indiana Highway 47 to Clinton; from junction U.S. Highway 41 and Indiana Highway 163 north of Lyford to Rockville, service is authorized to and from off-route point of Dana and to and from all intermediate points on above routes; from Crawfordsville to Indianapolis, service is authorized to and from the intermediate points of Lebanon, restricted to traffic moving to or from points west thereof, and Smartsburg and Shannondale, without restriction; from junction Indiana Highways 25 and 28 near Odell to Attica (as an alternate route); from Lebanon over U.S. Highway 52 to Lafayette (as an alternate route); from Williamsport to junction Indiana Highway 63 and U.S. Highway 136 (formerly Indiana Highway 34) (as an alternate route), service is authorized to and from the intermediate point of West Lebanon, between Jamestown, Ind., and Dover, Ind., between Terre Haute, Ind., and Fairbanks, Ind. Alternate routes for operating convenience only.

General commodities, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction Indiana Highway 63 and 234 at or near Cayuga, Ind., and junction Indiana Highway 63 and U.S. Highway 34), in connection with carrier's regular route operations authorized herein; between Morton, Ind., and Rockville, Ind., in connection with carrier's regular route operations authorized herein, between Groveland, Ind., and New Winchester, Ind., in connection with carrier's regular route operations authorized herein; between Crawfordsville, Ind., and junction Indiana Highway 43 and U.S. Highway 40, in connection with carrier's regular route operations authorized herein; between Brazil, Ind., and junction Indiana Highway 59 and U.S. Highway 36, in connection with carrier's regular route operations authorized herein; between New Winchester, Ind., and junction U.S. Highway 40 and Indiana 75, in connection with carrier's regular route operations authorized herein; between Lizton, Ind., and junction Indiana Highway 236 (formerly Indiana Highway 136) and Indiana Highway 39, in connection with carrier's regular route operations authorized herein. [Notice No. 300]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission within 30-days after the date of this publication. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-76559, filed May 3, 1976. Transferee: HAROLD EDWARD MERVIN MEDLAND, doing business as, ERIE COACH LINES, London, N5W IJ5 Ontario, Canada. Transferor: All Star Tours Limited, 415 Hespeler Road, Cambridge, Ontario, Canada. Applicant's Representative: S. Harrison Kahn, Esquire, 733 Investment Building, Washington, DC 20005. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC-127027 Sub 1, issued August 21, 1970, as follows: Passengers and their baggage, in round-trip charter operations, beginning and ending at ports of entry on the United States-Canada Boundary line, and extending to all points in the United States (except Alaska and Hawaii). Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76560, filed May 3, 1976. Transferee: THE LAIGHTS LTD., Box 216, Hanover, Ontario, Canada. Transferor: LISHMAN COACH LINES LIMITED, 41 Fairway Road South, Kitchener, Ontario, Canada. Applicants' Representative: S. Harrison Kahn, Esquire, 733 Investment Building, Washington, D.C. 20005. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC-124990 issued February 12, 1965, as follows: Passengers and their baggage in the same vehicle with passengers, in round-trip charter operations, beginning and ending at ports of entry on the United States-Canada Boundary line located in Michigan and New York, and extending to all points in the United States, except those in Alaska and Hawaii. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76587, filed July 2, 1976. Transferee: SAFEGUARD TRANSPORT, INCORPORATED, P.O. Box 312, Fishersville, Virginia 22939. Transferor: LAMBERT & BANKS, INC., P.O. Box 277, Stuarts Draft, Virginia 24477. Applicants' Representative: Richard A. Scholes, Franklin and Franklin, P.O. Drawer 1140, Waynesboro, Virginia 22980. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC-139278, issued February 4, 1976, as follows: hides and scrap metal, from Harrisonburg, Stuarts Draft, and Warsaw, Va., to points as specified in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Vermont and West Virginia; animal and poultry feed, barn snow and oyster shells, from Baltimore, Md., to points in Virginia; wheat, bran and midds products, from Washington, D.C., to points in Virginia; milk replacer, from Lima, Ohio, to points in Virginia; vitamins and minerals used in animal and poultry feed, from Chicago, Ill., to points in Virginia; salt and salt products, from Rittman, Ohio, and Watkins Glen, N.Y., to Fairfield, Staunton, Waynesboro and Weyers Cave, Va., and from the facilities of Watkins Salt Company, at Watkins Glen, N.Y., White Marsh, Md., Akron, Ohio, and Wilmington, N.C., to points in Virginia and West Virginia; and lumber between points in Virginia, Maryland, North Carolina, Pennsylvania and West Virginia. Transferee presently holds no authority from this Commission. Application for temporary authority under Section 210a(b) was approved on June 7, 1976.

No. MC-FC-76595, filed May 21, 1976. Transferee: SHARON LEE MOTOR LINES, INC., P.O. Box 4085, Amarillo, TX 79105. Transferor: J. H. WARE TRUCKING, INC., P.O. Box 398, Fulton, MO 65251. Applicants' Representative: Larry D. Knox, Esquire, 900 Hubbell Building, Des Moines, IA 50309. Authority sought for purchase by transferee of a portion of the operating rights of transferor as set forth in Certificate No. MC-138375, issued May 31, 1974, and all of the operating rights of transferor as set forth in Permits Nos. MC-138375 Sub-5 and MC-138375 Sub-11, issued March 12, 1975, and February 25, 1975, respectively, as follows: Magazines, periodicals, printed matter and advertising and display materials, from the plantsite and warehouse facilities utilized by Triangle Publications, Inc., at or near Philadelphia, Pa., to Memphis, Tenn., and points in Missouri, Kansas, Arkansas, Louisiana, Texas, Oklahoma, New Mexico, Arizona, Colorado, Utah, California, Washington, Oregon, Idaho, Nevada, Wyoming, and Montana; and meats, meat products, and meat byproducts, from St. Joseph, Mo., to points in Pennsylvania, New York, Ohio, and Maryland. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76603, filed May 24, 1976. Transferee: HAUSMAN TRUCKING, INC., 912 Cutler Street, Waterloo, IA 50703. Transferor: LAWRENCE HAUSMAN, doing business as HAUSMAN TRUCKING, 912 Cutler Street, Waterloo, IA 50703. Applicants' Representative: Larry D. Know, Esquire, 900 Hubbell Building, Des Moines, IA 50309. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificates Nos. MC-55072 and MC-55072 Sub-11 issued June 24, 1966, and September 13, 1967, respectively, as follows: Washing machines, washing machine parts, creamery machinery and supplies, malt liquors, and bakery goods, from and to specified points in Wisconsin, Iowa, Illinois, and Michigan, varying with the commodity; meats, meat products, and meat byproducts and dairy products, from Waterloo, Iowa, to Peoria and Decatur, Ill.; and meats, meat products, and meat byproducts, dairy products and articles distributed by meat packinghouses, from Waterloo, Iowa, to Bloomington, Champaign, Galesburg, Springfield, and Urbana, Ill. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76610, filed July 19, 1976. Transferee: RAYMOND WALLER and R. STEPHEN WALLER, d/b/a WALLER TRANSFER, 207 Main Street, Malvern, Iowa 51551. Transferor: JOHN WALLER and RAYMOND WALLER, d/b/a WALLER TRANSFER, 207 Main Street, Malvern, Iowa 51551. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-25932, issued February 26, 1969, as follows: *livestock*, between Malvern, Iowa, and points in Iowa and Nebraska within 25 miles of Malvern, on the one hand, and, on the other, St. Joseph and Kansas City, Mo., and Kansas City, Kans., and from Malvern, Iowa, and points in Iowa within 25 miles of Malvern, to Omaha and Nebraska City, Nebr.; *building materials*, between Malvern, Iowa, on the one hand, and, on the other, Nebraska City and Gretna, Nebr.; *household goods* and *emigrant movables*, between Malvern, Iowa, and points in Iowa within 25 miles of Malvern, on the one hand, and, on the other, points in Missouri and Nebraska within 50 miles of Malvern; and *general commodities*, with exceptions, from Omaha, Nebr., to Malvern, Iowa, and points in Iowa within 25 miles of Malvern. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76619, filed July 6, 1976. Transferee: STIMPSON & SON MOVERS, INC., 261 Main Street, Charlestown, Massachusetts 02129. Transferor: ALBERT J. STIMPSON, d/b/a B. STIMPSON & SON, 261 Main Street, Charlestown, Massachusetts 02129. Applicants' representative: Edward I. Masterman, 225 Franklin Street, Boston, Massachusetts 02110. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-27555, issued September 20, 1955, as follows: household goods as defined by the Commission, between Boston, Mass., and points in Massachusetts within ten miles of Boston, on the one hand, and, on the other, points in Maine, Rhode Island, Connecticut, New York, and New Jersey. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76632 (Correction), filed July 7, 1976. Transferee: ALBERT L. RING, ANDREW C. RING, BERNARD J. RING, AND RONALD J. RING, a Partnership, doing business as FRANK RICHARD RING, P.O. Box 96, Neola, Iowa 51559. Transferor: LEONARD L. MADSEN, doing business as KROEGER TRANSFER, Box 104, Minden, Iowa 51553. Applicants' attorney: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, Nebraska 68106. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-42194, issued February 13, 1967, as corrected, as follows: General commodities, with specified exceptions, between Minden, Iowa, and Omaha, Nebr., serving the intermediate points of Neola, Underwood, and Weston, Iowa, over specified highways. Transferee is presently authorized to operate as a common carrier under Certificate No. MC-62601 and as a contract carrier under Permit No. MC-135133 (Sub-No. 1). Application has not been filed for temporary authority under Section 210a(b). The purpose of this republication is to show that transferee presently holds both common and contract authority from this Commission. The date for filing protests will remain August 14, 1976.

No. MC-FC-76655 filed July 13, 1976. Transferee: ALDRICH TRUCKING, INC., 3420 N. E. 9th Avenue, Ocala, Florida 32670. Transferor: JAMES W. ALDRICH, 3420 N.E. 9th Avenue, Ocala, Florida 32670. Applicants' representatives: John R. Paquin, Aldrich Trucking, Inc., P.O. Box 32, Ocala, Florida 32670. Norman J. Bolinger—Attorney, 1729 Gulf Life Tower, Jacksonville, Florida 32207. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC-133962 (Sub-No. 3), issued September 15, 1972, as follows: Charcoal, charcoal briquets, vermiculite, and hickory chips, in bags, and charcoal lighter fluid, charcoal grilles and accessories, from the plant sites of Husky Industries, Inc., at Jacksonville, Ocala, and Romeo (Marion County), Fla., to points in Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia, and West Virginia. Restriction: The operations authorized are limited to a transportation service to be performed, under a continuing contract, or contracts, with Husky Industries, Inc., of Cody, Wyo. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76656 filed July 9, 1976. Transferee: KRIMBEL TRUCKING CO., INC., 3554 McReynolds Avenue, Modesto, California 95355. Transferor: PHIL LEROY KRIMBEL, doing business as KRIMBEL TRUCKING COMPANY, 607 Hill Road, Aberdeen, Washington 98550. Applicant's representative: Russell L. McFarland, P.O. Box 777, Lockeford, California 95237. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC-139313 (Sub-No. 1), issued March 5, 1976, as follows: Beer and wine, from Lodi, Los Angeles, Madera, Reedley, Modesto, San Francisco, and Saratoga, Calif., to Aberdeen, Olympia, and Everett, Wash. Restriction: The authority is limited to a transportation service to be performed, under a continuing contract, or contracts, with the following shippers: Crown Distributors, Inc., of Aberdeen, Wash.; Friendly Distributors, Inc., of Everett, Wash., and Cammarano Bros., Inc., of Olympia, Wash. NATIONAL DEFENSE

Department of the Army

REAL PROPERTY

Facilities Engineering, Natural Resources—Land, Forest and Wildlife Management (AR420-74)

V 41 1 49 AUG 2 76 UMI

DEPARTMENT OF DEFENSE

Department of the Army

[32 CFR Part 642]

REAL PROPERTY

Facilities Engineering, Natural Resources—Land, Forest and Wildlife Management (AR 420–74)

Notice is hereby given that the Secretary of the Army, acting through the Chief of Engineers, is proposing a regulation to prescribe the policies, responsibilities, and procedures for the management of land, forest and wildlife on all Army installations. The regulation implements Department of Defense Directive 5500.5 and the policies and procedures of 32 CFR 650, "Environmental Protection and Enhancement." The proposed regulation is being published pursuant to the following authorities: Executive Order 11514, Protection and Enhancement of Environmental Quality; Title 10 U.S.C. 2671, Miliary Reservations and Facilities, Hunting, Fishing and Trapping; Pub. L. 86–797, Wildlife Conservation on Military Reservations; Pub. L. 90–465, Conservation Programs on Military Reservations; Pub. L. 93–452, Conservation and Rehabilitation Programs on Military and Public Lands; Pub. L. 93–629, Federal Noxious Weed Act of 1974; and Pub. L. 93–205, Endangered Species Act of 1973. This regulation applies to: Installations and activities in active use by the Regular Army, those held in inactive or standby condition for future active use by the Regular Army, and those in an excess category; Federally operated installations and activities, or portions thereof, which are in full-time or intermittent use by the National Guard, or which are being held by the Department of the Army for use by the National Guard; Installations and activities, or portions thereof, which are in full-time or intermittent use by the Army Reserve or ROTC. This regulation does not apply to: Installations and activities, or portions thereof, which have been licensed or transferred to the States, to the Commonwealth of Puerto Rico or to the Territory of the Virgin Islands for use by the National Guard; Civil Works functions of the Corps of Engineers; Facilities occupied by Army activities as tenants when responsibility for support is vested in another Government agency.

The proponent agency of this regulation is the Office of the Chief of Engineers. Prior to the adoption of this proposed regulation, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Chief of Engineers, Forrestal Building, Washington, DC 20314, ATTN: DAEN–FEB–N on or before September 15, 1976.

DEAN R. PAQUETTE,
Colonel, Corps of Engineers, Acting Director of Facilities Engineering.

Dated: July 26, 1976.

This regulation provides general Department of the Army policy and guidance in the management of natural resources (land, forest, and wildlife). Local limited supplementation of this regulation is permitted but not required. If supplements are issued, Army staff agencies and major Army commands will furnish one copy of each to HQDA (DAEN–FEB) WASH. DC 20314; other commands will furnish one copy of each to the next higher headquarters.

This regulation superseded AR 420–74, 27 June 1966, and AR 420–77, 31 July 1970, including all changes.

642.13 Multiple use.
642.14 Land management.
642.15 Forest management.
642.16 Timber management.
642.17 Wildlife management.
642.18 Grounds.
642.19 Commercial forest land.
642.20 Environmental quality.
642.21 Sustained yield.
642.22 Economically productive forest.
642.23 Endangered and threatened species.
624.24 Land use capability.
642.25 Coastal Zone.
642.26 Coastal State.
642.27 Greenhouse.
642.28 Lathhouse.
642.29 Nursery.
642.30 Controlled burning.
642.31 Prescribed burning.
642.32 Cooperative plan agreement.
642.33 Special State permit.

Subpart C—Land Management

642.41 General.
642.42 Staffing.
642.43 Training.
642.44 Contracting.
642.45 Mission requirement for the land.
642.46 Memorandums of understanding.
642.47 Installation Natural Resources Advisory Committee.
642.48 Access to military lands and waters.
642.49 Multiple use.
642.50 Inventor and classification.
642.51 Land use limitations.
642.52 Land productivity.
642.53 Agricultural leases.
642.54 Dust and erosion control.
642.55 Fire protection.
642.56 Weed control.
642.57 Management records.
642.58 Inspections and technical assistance.
642.59 Program evaluation.

Subpart D—Grounds Maintenance

642.71 General.
642.72 Grounds maintenance responsibilities.
642.73 Cemeteries.
642.74 Gardens.
642.75 Greenhouses and lathhouses.
642.76 Irrigation.
642.77 Nurseries.
642.78 Landscape plantings.

Subpart E—Forest Management

642.91 General.
642.92 Objectives.
642.93 National forest land.
642.94 Funding.
642.95 Forest inventories.
642.96 Harvesting timber.
642.97 Installation sawmills.

Subpart F—Fish and Wildlife Management

642.111 General.
642.112 Authority to hunt, fish and trap.
642.113 Installation permits and fees.
642.114 Cooperative plan agreement.
642.115 Introduction of new species.
642.116 Population control.
642.117 Habitat management.

Appendix A Privacy Act of 1974.
Appendix B Installation Natural Resources Report.
Appendix C Certificate of Training, DA Form 87.

AUTHORITY: 10 U.S.C. 3012.

Subpart A—General

§ 642.1 Purpose.

This regulation sets forth policy, procedure and responsibilities for the maintenance, repair and improvement of land and the natural surface resources thereon in support of the military mission and in consonance with national policies. It implements DOD Directive 5500.5 and DOD Instructions 4170.6, 4170.7, 4170.8, 5000.13, and 7310.1. Supporting guidance and details are delineated in Department of Army Pamphlet 420–7. The scope includes, to the extent that it is compatible with the mission, the conservation, management and utilization of the soils, water areas, croplands, grasslands, rangelands, forests, and fish and wildlife species.

§ 642.2 Applicability.

(a) This regulation applies to all commanders of major Army commands (MACOMs), field operating agencies, installations and activities under control of the Department of the Army by ownership, lease, or similar instrument, under the following conditions of use:

(1) Installations and activities in active use by the Regular Army, those held in an inactive or standby condition for future active use by the Regular Army, and those in an excess category (see AR 405–90, for further guidance with respect to excess properties).

(2) Federally operated installations and activities, or portions thereof, which are in full-time or intermittent use by the National Guard, or which are being held by the Department of the Army for use by the National Guard.

(3) Installations and activities, or portions thereof, which are in full-time or intermittent use by the Army Reserve or ROTC.

(b) This regulation does not apply to:

(1) Installations and activities, or portions thereof, which have been licensed or transferred to the States, to the Commonwealth of Puerto Rico or to the Territory of the Virgin Islands for use by the National Guard.

(2) Civil Works functions of the Corps of Engineers.

(3) Facilities occupied by Army activities as tenants when responsibility for support is vested in another Government agency, such as the General Services Administration (GSA).

(c) Nothing contained in this regulation or in Cooperative Plan Agreements negotiated with State and Federal authorities shall modify any rights granted by treaty or otherwise to an Indian tribe or to members thereof.

§ 642.3 Objectives.

Objectives are to:

(a) Develop, initiate, and maintain progressive programs for land management and utilization.

(b) Maintain, protect and improve the environmental qualities, esthetic values and ecological relationships by:

(1) Protection of real estate investment from depreciation.

(2) Compliance with environmental protection and enhancement policies and procedures as outlined in AR 200–1.

(3) Protection and improvement of the natural beauty of the landscape.

(4) Improvement of the appearance of installations and facilities by appropriate landscape development.

(5) Prevention of damage and destruction of valuable natural resources from fire, insects and disease.

(6) Recognition of critical circumstances in plant and animal life cycles and their requirements for sustenance, especially endangered and/or threatened species.

(7) Responding to the increasing need for food, fiber and timber products and outdoor recreational opportunities by managing lands capable of producing these resources.

(8) Conducting training and field exercises in a manner which will least endanger the environment while still accomplishing training objectives.

§ 642.4 Responsibilities.

Responsibilities for the Natural Resources Management Program are assigned as follows:

(a) The Chief of Engineers:

(1) Provide staff supervision of the Department of the Army Natural Resources Program. Formulate HQDA policies, objectives, criteria, and standards for this program Army-wide.

(2) Conduct staff visits as prescribed in AR 420–10.

(3) Provide technical assistance to those commands not staffed with professional natural resources personnel.

(b) MACOM and field operating agency commanders:

(1) Provide command and technical supervision of the Natural Resources Management Program at installations under their command jurisdiction.

(2) Conduct staff visits as prescribed in AR 420–10.

(3) As determined by program requirements, staff with professional natural resources personnel who will:

(i) Review technical adequacy of installation natural resources plans, programs, projects, reports, environmental impact statements and the equitable allocation of manpower, materials, equipment and funding requirements.

(ii) Maintain surveillance over land utilization and management.

(iii) Appraise and initiate training programs essential to maintain technical capability of personnel engaged in natural resources management activities.

(iv) Approve proposals for use of nonstandard chemicals in vegetative management.

(v) Recommend for certification, installation personnel who have been found competent by examination and on-the-job training to use herbicides, fungicides, growth regulators and other chemicals used in vegetative management.

(vi) Provide technical assistance to installations.

(vii) Maintain professional proficiency by attendance and participation at professional meetings and keep abreast of new developments.

(viii) Coordinate with other agencies engaged in natural resources management.

(4) Approve timber available for harvest when not within the installation commander's authority.

(c) Installation Commanders:

(1) Provide for the funding, staffing, and resources required to effectively manage the natural resources on his installation.

(2) Plan land utilization to avoid or minimize adverse effects on environmental quality.

(3) Where applicable, enter into a Cooperative Plan Agreement with State and Federal conservation agencies for the conservation and development of fish and wildlife resources.

(4) Appoint and assure the functioning of a Natural Resources Advisory Committee where applicable.

(d) Facilities Engineer:

(1) Manage all phases of the Natural Resources Program on the installation.

(2) Provide for training of personnel.

(3) Coordinate with local, State and Federal governmental and civilian conservation agencies relative to the installation natural resources program.

Subpart B—Explanation of Terms

§ 642.11 General.

For the purpose of this regulation, the following explanation of terms will apply.

§ 642.12 Natural resources.

The viable products of nature and their environments of soil, air and water. Included are the plants and animals occurring on grasslands, rangelands, croplands, forests, lakes, and streams.

§ 642.13 Multiple use.

The integrated management of all natural resources, each with the other, to achieve the optimum use and enjoyment while maintaining the environmental qualities, ecological relationships and esthetic values in proper perspective.

§ 642.14 Land management.

The planning and execution of programs to improve, utilize and maintain all land and water areas for the greatest net public benefit while supporting the military mission. Included are subordinate land uses that are mutually compatible and consistent with maintaining environmental qualities.

§ 642.15 Forest management.

The science, the art and the practice of managing and using for human benefit the natural resources that occur on or in association with forest lands.

§ 642.16 Timber management.

The conduct of work necessary to produce and identify salable wood products on those forest areas that can be managed for profitable growing of sawtimber, pulpwood poles, ties, posts, piling and

V 41 I 149 AUG 2 76 UMI

other timber products on a sustained yield basis.

§ 642.17 Wildlife management.

The practical application of scientific and technical principles to wildlife populations and habitats so as to maintain such populations essentially for ecological, recreational, and/or scientific purposes.

§ 642.18 Grounds.

All land and water acreage for which an installation commander has responsibility (including satellite areas). Grounds are grouped into the following three categories:

(a) Improved grounds. This category includes acreage on which intensive maintenance activities must be planned and performed annually as fixed requirements. Activities include mowing, irrigation, fertilization, cultivation, aerification, seeding, sodding, spraying, pruning, trimming, weed, dust and erosion control, drainage, planting for landscape effect, wind and sound abatement and other intensive practices.

(b) Semi-improved grounds. This category includes areas on which periodic recurring maintenance is performed but to a lesser degree than on improved grounds. Practices normally include such cyclic variables as soil sterilization, weed and brush control, drainage maintenance, and mowing for fire protection. Semi-improved grounds acreage may be combined with improved grounds acreage for reporting purposes when only two categories of grounds (improved and other than improved) are used.

(c) Unimproved grounds. All other acreage (including forest land, areas under buildings and surfaced areas), not classified as improved or semi-improved. Practices and intervals of attention are generally unpredictable such as might evolve from mission activities; soil, water and wildlife conservation, flood, fire, insects or disease epidemics.

§ 642.19 Commercial forest land.

Land which is capable of economically producing crops of industrial wood in excess of 20 cubic feet per acre per year under management and is not programmed for another use that would preclude future forest development. Acreage classification will also depend upon products produced and available markets. Normally, land areas of less than 100 acres total forest land for an installation will not be classified as commercial forest land.

§ 642.20 Environmental quality.

The development and maintenance of harmonious interaction between man and that part of the world in which living organisms can sustain their kind.

(a) Environmental Impact Assessment (EIA). An analysis of a proposed Federal action which serves as the basis for determining whether there will be a significant impact on the environment. Maintained in the installation files if determined that no significant impact will occur.

(b) Environmental Impact Statement (EIS). A formal document that describes the environmental considerations and possible alternatives of a major Federal action. A final EIS must be submitted by the decisionmaker through command channels to HQDA (DAEN–ZCE) WASH DC 20301 for review and filing with CEQ prior to the initiation of any action (Chapter 2, AR 200–1).

§ 642.21 Sustained yield.

The yield of renewable resources a land area can produce continuously at a given intensity of management.

§ 642.22 Economically productive forest.

Each effort must make a contribution to the timber management operations that will produce an eventual return commensurate with the effort.

§642.23 Endangered and threatened species.

(a) Endangered species. Those plants and animals which are in danger of extinction throughout a significant portion of their ranges as determined by the U.S. Department of the Interior and the Smithsonian Institution.

(b) Threatened species. Those plants and animals which are likely to become endangered within the foreseeable future throughout a significant portion of their ranges as determined by the U.S. Department of the Interior and the Smithsonian Institution.

§ 642.24 Land use capability.

The classification of land into use categories according to its ability to produce.

§ 642.25 Coastal Zone.

The coastal waters (including the lands therein and thereunder) strongly influenced by each other and in proximity to the shorelines of the several coastal states. Includes transitional and intertidal areas, salt marshes, wetlands, and beaches (PL 92–583).

§ 642.26 Coastal State.

A state of the United States in, or bordering on, the Atlantic, Pacific, or Arctic Ocean, the Gulf of Mexico, Long Island Sound, or one or more of the Great Lakes. The term also includes Puerto Rico, the Virgin Islands, Guam, and American Samoa (PL 92–583).

§ 642.27 Greenhouse.

A building designed for producing or protecting plants and normally provided with a heating unit.

§ 642.28 Lathhouse.

A structure which is constructed for the most part of spaced wood or metal lath, tropical leaves or fibers, or similar materials, and is designed for producing or protecting plants.

§ 642.29 Nursery.

An outdoor area where trees, shrubs, turf grass, or flowers are produced or held for transplanting.

§ 642.30 Controlled burning.

The planned application of fire with intent to confine it to a predetermined area.

§ 642.31 Prescribed burning.

Skillful application of fire to natural fuels under conditions of weather, fuel moisture, soil moisture, etc., that will allow confinement of the fire to a predetermined area and at the same time will produce the intensity of heat and rate of spread required to accomplish certain planned benefits to one or more objectives of silviculture, wildlife management, grazing, hazard reduction, etc. Its objective is to employ fire scientifically to realize maximum net benefits at minimum damage and acceptable cost.

§ 642.32 Cooperative plan agreement.

A plan for the management of fish and wildlife resources on an installation which has been mutually agreed upon by the Installation Commander, Regional Director, U.S. Fish and Wildlife Service, and the State Fish and Wildlife Agency (16 U.S.C. 670).

§ 642.33 Special State permit.

Prepared and issued by the installation in accordance with 16 U.S.C. 670 and the cooperative plan agreement to individuals participating in hunting, fishing, or trapping activities. Valid only on the installation where issued.

Subpart C—Land Management

§ 642.41 General.

Land management operations will be in harmony with modern conservation and land use practices which are continuously applied in an orderly and timely manner. Implementation of national land use and conservation policies is required on all Federal lands to the extent practicable and without affecting the assigned mission. Commanders will actively cooperate with local, State and Federal organizations in the application of national land use and conservation policies. All land management operations (grounds, forest, wildlife) will be conducted as a facilities engineering activity in accordance with accepted scientific and professional practices.

§ 642.42 Staffing.

(a) Since the natural resources disciplines encompassed within this regulation are sciences, commanders will establish the optimum staffing of professionally trained personnel (e.g., agronomist, forester, wildlife manager, landscape architect, soil conservationist, agricultural engineer, horticulturist) to insure necessary technical guidance in the planning and execution of the Natural Resources Program. Commanders will also seek supplementary aid from appropriate natural resource agencies (Federal, State and local) for technical assistance.

(b) Each major command and installation having jurisdiction over substantial acreage will provide technically qualified and experienced natural resources management personnel to act as a focus for all natural resources management activities. Major commands with both land and forest management programs should staff with a minimum of one agronomist and one forester. Number and discipline of installation personnel will be dependent upon scope of programs. Installations having 1000 acres or more of improved grounds and 5000 acres or more of remaining acreage will be responsive to the above criteria. Smaller installations may be responsive based on intensity of requirements. Qualifying experience will include broad academic training in plant sciences, soil, water and vegetative management and work experience commensurate with the circumstances. Personnel will keep abreast of current developments through coordination with local agencies involved in natural resources management and attendance at professional meetings.

§ 642.43 Training.

(a) The facilities engineer will provide for periodic and comprehensive technical instruction and training of personnel.

(b) Personnel engaged in poisonous plant and weed control operations (including control of objectionable trees, brush, and aquatic plants) require special training in handling toxic herbicides and associated equipment. Training programs will comply with DOD requirements and include oral and written instruction, demonstrations and examinations. Emphasis will be placed on identification of weeds; characteristics of plant growth; storage, selection, mixing, transporting, and application of herbicides; calibration, operation and maintenance of equipment; safety; record keeping and associated information. This training, periodic examination, and certification are required to safeguard personnel against accidents and protect property, animals, and beneficial vegetation. A Certificate of Training (DA Form 87 or equivalent, Appendix C–1) will be issued by the MACOM to each trainee successfully completing a herbicide training course. Certificates of training will be valid for 3 years only and will be surrendered at termination of employment.

(c) Maximum utilization will be made of locally available training (e.g., extension service, university, professional and trade organizations, government, commercial) and that offered by the armed services.

§ 642.44 Contracting.

Frequently work by installation forces must be supplemented by contracts. Typical work which can be performed by contract when qualified contractors are available includes grass mowing, application of herbicides, lime and fertilizer, seeding and sodding, landscaping, and reforestation. Determinations made on methods of performance (in-house versus contract) must adhere to the requirements of AR 235–5. Contracts will be utilized when economically beneficial to the government or beyond the capability of in-house forces.

§ 642.45 Mission requirements for the land.

The installation commander will plan land utilization with an understanding of the potential environmental environmental effects of proposed actions. Whenever possible, mission requirements for the land will avoid or minimize adverse effects and restore or enhance environmental quality.

§ 642.46 Memorandums of understanding.

Memorandums of understanding have been established between the Department of Defense and the Departments of Agriculture (27 March 1963) and Interior (11 July 1960). The memorandums authorize execution of cooperative agreements in attainment of mutual conservation objectives. The installation commander may develop cooperative agreements with:

(a) Department of Agriculture functioning through the Agriculture Research Service, the Soil Conservation Service, and the Forest Service for the development, protection and conservation of forest and other vegetative cover resources, for soil and water conservation, and for research relating thereto.

(b) The Department of the Interior functioning through the U.S. Fish and Wildlife Service for the conservation of fish and wildlife resources.

(c) When required, assistance may be obtained from other government agencies not specifically included in the above memorandums of understanding (e.g., Agricultural Extension Service, Bureau of Outdoor Recreation, Bureau of Land Management, National Park Service).

§ 642.47 Installation Natural Resources Advisory Committee.

Installation commanders having active programs or the potential for programs within the concept of this regulation will appoint a Natural Resources Advisory Committee.

(a) The Committee functions are for the purpose of:

(1) Assuring continuous planning and balanced application of the natural resources program.

(2) Planning, promoting, and fostering natural beauty and environmental protection and enhancement programs both on base and in cooperation with local communities.

(b) The Committee will include, but not be limited to the commander, the facilities engineer, the natural resource management personnel (agronomist, wildlife manager, forester, landscape architect, soil conservationist), environmental coordinator, entomologist, provost marshal/security officer, operations, safety, legal, medical, recreation services; and veterinarian personnel; and a representative of the installation rod and gun club. When feasible, representatives of Federal and State natural resources agencies, and local civilian conservation groups, will be invited to attend committee meetings as guests.

§ 642.48 Access to military lands and waters.

(a) By the public.

(1) Installation commanders will provide for controlled public access at Department of the Army installations and facilities containing land and water areas suitable for the recreational use and enjoyment of the public. Such access will be within manageable quotas, subject to safety requirements and military security, and at such times as such access can be granted without bona fide impairment of the military mission, as determined by the installation commander. Opportunities for recreational use by the public of military lands and waters must be equitably distributed by impartial selection devices, such as a system based on drawings or lots, or a system based on the principle of first come, first served.

(2) When all public access must be withheld, the reasons must be substantiated by a statement incorporated in the Cooperative Plan Agreement required between the installation commander, the State fish and wildlife authorities, and the U.S. Fish and Wildlife Service.

(b) By Federal and State conservation officials.

(1) Installation commanders will provide installation access, subject to safety requirements and military security, for:

(i) Designated State fish and wildlife or conservation officials at such times and under such conditions as mutually agreed between the installation commander and the governor of the state in which the installation is located.

(ii) Accredited conservation representatives of Federal agencies furnishing professional advice and technical assistance under this regulation, in accordance with appropriate arrrangements.

(2) Federal and State conservation officials provided installation access will be issued an Identification Card and Pass Permit (DD Form 1221) by the installation commander for use under terms specified in the Cooperative Plan Agreement. Preparation of photographs, lamination, accountability, loss, surrender, and disposition will be in accordance with the general procedure in AR 606–5. Provisions of the Privacy Act of 1974 (5 U.S.C. 552a) will be complied with (see Appendix A).

§ 642.49 Military use.

In applying the multiple use concept, special attention will be given to environmental factors, recreation, land use capability, and the incorporation of conservation measures in the development, design, construction, and maintenance of installations. Consideration will be given to all demands for use of the land and water resources with optimum use being made when consistent with the military mission and sound conservation and environmental concerns. Areas required to support the military mission can often concurrently be used for forest, fish and wildlife, agricultural outleases and recreational programs. Areas will not be set aside for an exclusive use (e.g., wildlife

V 41 149 AUG 2 76 UMI

preserve, forest preserve, natural areas) unless concurred in by the MACOM and affected Federal and State agencies.

§ 642.50 Inventory and classification.

The initial step to be taken in the development of a multiple use natural resources management program requires an inventory and classification of the resources present and their status. The inventory shall identify and evaluate the condition and potential of wetlands, marine and estuarine areas, fresh water, forest land, grasslands, scenic and natural areas, aesthetics and any other significant environmental element. When in-house capability is not adequate to accomplish this task, maximum use should be made of assistance from the MACOM and cooperating local agencies.

§ 642.51 Land use limitations.

Determination of the most environmentally acceptable land use is dependent upon such factors as soil, water, vegetation, climate, and topography. Each of these factors, alone or in combination, can limit the use of an area and must be considered during the assessment of operations, maintenance, development, and construction activities. Interpretation of soil capability and climatic data by experienced, professional personnel will provide information for determining land use limitations and capability for timber production, wildlife habitat, recreation, agricultural outleasing, military operations, and construction. Commanders may request the assistance of the local soil conservation district regarding soil information and surveys. Land uses which have a detrimental effect on natural resources, or the potential for such an effect, will be avoided. When operations require a land use which is not compatible with the environment, measures will be taken to protect adjacent land and water resources.

§ 642.52 Land productivity.

On lands controlled by or owned by the United States or any of its agencies, it is the declared national policy to:

(a) Reduce exploitation, wasteful and unscientific use of the natural resources.

(b) Preserve and improve soil productivity.

(c) Where feasible, to contribute to the social needs and a continuous and stable supply of food, fiber and timber products through economic use and conservation of the land.

§ 642.53 Agricultural leases.

(a) Military land will be constantly examined, to determine what areas, if any, can be made available for outleases. In accordance with the concept of multiple land use, areas which are required to support the military mission may also be outleased for agricultural purposes. The installation commander will:

(1) Prepare reports of availability of land for outleasing in accordance with procedures given in AR 405–80.

(2) Include with the report of availability appropriate portions from the natural resources management plan which pertain to the management of the area made available. Also include any other technical provisions outlining conservation measures and practices to be performed by the lessee on the area to be leased which will assure the maintenance and/or improvement of soil productivity and the associated environment.

(3) Insure that outleased areas are available to the maximum extent practicable for concurrent compatible uses.

(4) Inspect outleased lands to insure compliance with maintenance and conservation requirements and report noncompliance to the District Engineer for enforcement.

(5) Insure that consideration is given to exclude economically productive hardwood timber stands from livestock grazing.

(6) Provide for the maintenance, protection, repair and restoration by the lessee of the area leased.

(b) The MACOM agronomist will review all technical provisions outlining land use and conservation practices to assure their compliance with good agricultural and environmental concepts.

(c) Changes and amendments to existing leases which affect the conservation and management practices, including services performed, will be a thoroughly coordinated procedure involving the installation, the MACOM agronomist, and the District Engineer.

(d) Where applicable, outlease specifications will contain provisions for lessees to assume full responsibility for the application of pesticides and animal damage control on their leases in accordance with the provisions of the National Environmental Policy Act and other applicable Federal laws and directives (see AR 420–76). Supplemental agreements to existing leases should be negotiated to amend them so as to comply with this provision.

§ 642.54 Dust and erosion control.

Installation sources of dust, runoff, silt, and erosion debris will be controlled to prevent damage to land and facilities including adjacent property. A protective cover (e.g., vegetation, gravel, mulch, pavement) will be maintained at all times unless bare ground is essential for mission requirements. When bare ground is necessary, other measures (check dams, diversions, etc.) will be used to control dust and erosion.

§ 642.55 Fire protection.

Installation land and facilities will be cleared of fire hazards and the vegetative growth controlled to the degree essential to the safety of the installation and its natural resources. Blading of firebreaks to mineral soil will be avoided if excessive erosion results from such action. Control of vegetation by mowing or use of herbicides will be used as an alternative to mineral soil firebreaks where possible. Controlled burning is an effective and efficient means to reduce or prevent the accumulation of hazardous fuels and will be used where it is recognized land management practice for natural resources management and fire protection. The decision to use prescribed or controlled burning will be based on the safety hazard involved, the hazard that will develop if burning is not accomplished, and local regulations. Installation activities making use of the land (e.g., testing, training, maneuvers) will be constantly aware of fire hazards and adjust their programs, including suspension of activities, to avoid high hazard areas and/or periods.

§ 642.56 Weed control.

(a) Objectional plant growth will be controlled by mowing, use of EPA registered and approved herbicides, cultivation, or other means. Special precautions will be taken in the application of toxic pesticides to safeguard personnel from contact and prevent indirect contact and/or windswept contamination of livestock browse areas, agricultural crops, or ornamental plants. For safety precautions see TMs 5–629 and 5–630 and AR 385–10. Herbicides will only be applied by or under the supervision of a trained and certified competent applicator.

(b) The MACOM agronomist/forester is responsible for the technical supervision and monitoring of the weed control program. Use of herbicides will be in accordance with the guidance principles given for pesticides in ARs 420–76 and 200–1.

(c) Technical provisions of all proposed contracts for herbicide applications will be reviewed and approved by the MACOM agronomist/forester. Supervision of contracts will be by certified personnel.

§ 642.57 Management records.

Installation records of land management activities will be developed and maintained on an annual (fiscal year) basis (e.g., pesticides, plantings, lime and fertilizer, timber harvest, etc.).

§ 642.58 Inspections and technical assistance.

MACOM and field operating agency commanders will make scheduled and special visits to installations to insure compliance with this program and provide technical assistance relative to natural resources (AR 420–10).

§ 642.59 Program evaluation.

Appropriate Headquarters, Department of the Army natural resource management personnel will make scheduled visits to MACOM, field operating agency commands and appropriate installations to ascertain degree of conformity with technical policies, standards, and procedures, and to provide on-site technical consultant service in resolving technical problems relative to natural resources.

Subpart D—Grounds Maintenance

§ 642.71 General.

Grounds will be maintained at the levels and intensities necessary to meet the designated use criteria, protect the natural resources, and insure a pleasing appearance in harmony with the natural landscape. Designated turf areas will be seeded, renovated fertilized, and irrigated

to the degree required to maintain a permanent vegetative cover of desirable plants. Guidance available from local agricultural agencies and universities will be used in determining the most adapted species of vegetation and the maintenance practices necessary to meet the designated use. Improved grounds will be maintained at a level comparable with similar public facilities in the area.

§ 642.72 Ground maintenance responsibilities.

(a) Government-owned facilities. Except as specified in (1) and (2) below, grounds maintenance services are facilities engineering responsibilities:

(1) Family Housing. See Chapter 3, AR 210–50 for command and occupant responsibility for Government-owned family quarters.

(2) Bachelor Housing.

(i) Separate Lawns. For Government-owned quarters having separate lawns (e.g., separate dwellings or side-by-side duplexes), occupants will mow lawns with power or hand-pushed mowers, irrigate lawns and shrubs, cultivate shrubs, edge adjacent to paved surfaces and flower or shrub beds, and remove leaves, paper, bottles, stones and other litter. Boundaries should be established which clearly delineate the extent of grounds assigned to each occupant for use and maintenance. Boundaries shall correspond to the limits of the logical yard of each dwelling but will normally be not more than 50 feet from the dwelling. Grounds maintenance outside these boundaries may be performed by the installation. (For "Self-Help Program" criteria, see AR 420–22.)

(ii) Communal lawns. For other Government-owned housing having lawns common to more than one occupant (e.g., barracks, BOQ's and apartments), occupants will perform grounds maintenance services as in (i) above; if impracticable, these services will be performed as a facilities engineering activity.

(b) Leased Facilities. Except as specified in (1) and (2) below, grounds maintenance services are lessor responsibilities.

(1) Family housing leases. See Chapter 15, AR 210–50 for command and occupant responsibility for leased quarters.

(2) Other leases.

(i) In the United States.

(A) Separate lawns. For Government-leased housing and quarters having separate lawns (e.g., separate dwellings or side-by-side duplexes), occupants will preform grounds maintenance services as set forth in § 642.72(a)(2)(i), using tools furnished by the Government.

(B) Communal lawns. For other Government-leased housing having lawns common to more than one occupant (e.g., BOQ's and apartments), lease instruments will delineate lessor and Government responsibilities.

(ii) In oversea areas. Responsibilities for grounds maintenance of Government-leased housing facilities will be predicated upon the customs and practices of the country; lease instruments will specifically delineate lessor and U.S. Government responsibilities.

§ 642.73 Cemeteries.

The installation commander has jurisdiction over post, private, and prisoner-of-war cemeteries located on Army installations, and is responsible for maintenance and operation as follows:

(a) At active installations.

(1) Post cemeteries. (See AR 210–190).

(i) Standard of maintenance will be equal to those authorized for other intensively maintained grounds. Areas will be protected as required by fencing, and will be kept orderly. Care will be taken to prevent damage to monuments, markers, and headstones. These will be kept clean and will be reset and realined when necessary.

(ii) As required, graves will be opened and closed, temporary headboards provided and placed, and permanent headstones set.

(2) Private cemeteries. It is Department of the Army policy to aquire title to all private cemeteries within boundaries of installations owned in fee by the United States. For the purpose of this regulation, a private cemetery is any cemetery or burial plot on the installation which, regardless of present ownership, was initially owned by a person or agency other than the United States.

(i) When the deed of conveyance is silent with respect to maintenance or access to a private cemetery, or separate agreements with private parties have not been made, the installation commander will be responsible for maintenance, as follows: excessive shrubs and trees will be removed; fencing for protection when required; headstones destroyed or seriously damaged by military activity will be replaced; and grounds will be kept clean and orderly. Public access will be allowed when consistent with safety and military security.

(ii) When the deed of conveyance or separate agreement with private parties requires the United States to provide maintenance or access, standards of maintenance in (2)(i) above apply.

(3) Prisoner-of-war cemeteries. Standards of maintenance in (2)(i) above apply.

(b) At inactive installations. For the three types above minimum standards of maintenance apply. Included is a periodic mowing, removal of brush, repair of fences, and resetting of headstones and markers, as required to maintain a neat appearance. These standards will also apply to cemeteries that remain after real estate disposal action has been completed for the remainder of the installation.

(c) Pet cemeteries. Maintenance of pet cemeteries is not a facilities engineering responsibility.

§ 642.74 Gardens.

Preparation (plowing, harrowing and discing) of a community type garden in excess of one-quarter acre in size may be performed as a facilities engineering function. Preparation of smaller garden plots and the cultivation, maintenance, harvesting, and clean-up of vegetable gardens will not be accomplished as a facilities engineering responsibility.

§ 642.75 Greenhouses and lathhouses.

(a) The maintenance of greenhouses and lathhouses designated by The Surgeon General for therapeutic purposes, and by The Provost Marshal General for vocational training purposes at United States disciplinary barracks, is a facilities engineering activity (including the provision of utilities necessary for operation). Furnishing of operating (including supervisory) personnel is the responsibility of the using service.

(b) Appropriated funds will be used for maintenance and operational support of only those greenhouses and lathhouses designated as set forth in (a) above.

§ 642.76 Irrigation.

(a) Irrigation will be accomplished where supplemental water is essential to establish and support lawns and other improved types of vegetation.

(b) Irrigation water will be limited to that necessary to provide minimum requirements to support vegetation planting in an acceptable condition. State university recommendations will be utilized in determining the amount of water necessary to meet these standards.

(c) Underground irrigation systems will comply with guidance in TM 5–813–1.

§ 642.77 Nurseries.

Expenditure of appropriated funds is not authorized for the operation of nurseries. Trees and shrubs will be obtained from commercial nurseries and Federal and State agencies when available. If economical, plants from natural wooded areas may be used providing they can be dug with sufficient roots and soil to meet commercial nursery standards (TM 5–630).

§ 642.78 Landscape plantings.

(a) All planting, pruning, cultivation, and other maintenance by whomsoever done, will conform to criteria in TM 5–630.

(b) Trees and shrubs will be removed if they have become crowded, or, if they are not: essential for shade, windbreaks, screening of unsightly objects, or erosion control; complementary to architectural features of the building area; adapted to the locale.

(c) Existing and new foundation plantings will be limited to the minimum needed to complement the building design. Normally not more than one-fourth of an individual foundation perimeter will be planted with shrubs or trees.

(d) The expenditure of appropriated funds for shearing hedges and ornamental plants into formal or decorative designs is not authorized except as specifically prescribed in the approved planting plan.

(e) Climing vines, shrubs, and trees which block or damage windows, eaves, gutters or other construction components will be eliminated.

(f) Plantings which reduce sight distances or otherwise constitute a traffic

V 41 149 AUG 2 76 UMI

hazard near street intersections, walks, and drives will not be permitted.

(g) Non-essential plantings which result in excessive lawn maintenance will be removed. Painting or whitewashing of tree trunks is not authorized.

(h) Planting and maintenance of flowerbeds, rose gardens, and nut or fruit trees for their edible products, except for wildlife food purposes, are not facilities engineering responsibilities.

Subpart E—Forest Management

§ 642.91 General.

Effective forest management provides for the sustained production of timber and related natural resources values such as natural beauty, recreation, wildlife, watershed protection, and the yield of high quality water. The optimum production of each of these forest products on the same area is compatible provided appropriate adjustments are made in the Natural Resources Management Plan. Forest Management activities will, when pertinent, include:

(a) Cultural treatment designed to improve timber quality and quantity which are within the realm of economic feasibility.

(b) Use of harvesting or treatment specifications designed to attain sustained yield and improve troop training areas, watersheds, wildlife habitat and to compliment natural beauty values along scenic corridors.

§ 642.92 Objectives.

Forest management objectives are included in DA Pam 420–7.

§ 642.93 National forest land.

On those installations which contain National Forest land, nonmilitary utilization of that land will comply with U.S. Department of Agriculture policy (36 CFR 261).

§ 642.94 Funding.

(a) Forest management financial support is derived primarily from funded reimbursement from proceeds of sales and direct appropriated funds. Reimbursable expenses that are directly related to economic production of timber products and its harvest include: timber management, reforestation, timber stand improvement, inventories, fire protection, construction and maintenance of timber area access roads, purchase of equipment and supplies, erosion control, disease and insect control, planning, timber marking, inspections, sales preparation and training of personnel in lumber and timber operations and sales. Such expenses will be distributed to AR 37–100–XX account code 728012.23000 "Maintenance of Forest Areas." Command budget documents pertaning to this account should be coordinated with appropriate natural resources personnel.

(b) Costs related to purposes other than timber production and disposal do not qualify for reimbursement; e.g., costs of roads and trails for traffic or recreation, training area improvement, beautification projects, screens or buffer zones, drainage, fire protection on non-commercial forest land and other costs that would normally be incurred even if there were no timber production and harvest activities.

(c) Expenses eligible for reimbursement on non-commercial forest land are limited to that directly related to timber sales; e.g., marking, preparation of declaration of availability, and sales inspection.

(d) Guidance relating to management plans, declaration of timber availability, staffing, and additional information and guidance on budgeting and financing, including the annual work plan, is contained in DA Pam 420–7.

§ 642.95 Forest inventories.

(a) Volume Inventories will be made and kept current for all installation forest lands managed for timber production. This will be accomplished by technically qualified forestry personnel.

(b) Inventory systems will be submitted to the MACOM for approval prior to implementation.

§ 642.96 Harvesting timber.

(a) Approval authority

(1) The MACOM will approve timber available for harvest in any amount not within the installation commander's authority.

(2) Installation commanders are authorized to:

(i) sell small volumes of standing timber that have an estimated value of not more than $1,000 and are in conformity with the installation Forest Management Plan. The total of such sales in any one calendar year will not exceed $10,000.

(ii) Sell small volumes of forest products remaining after harvest and/or forest management operations (e.g., tops, fuelwood, greens) and from dead, dying, damaged or fallen trees resulting from fires, insects, disease or storms.

(iii) Sell pulpwood, sawlogs or other wood products from trees removed from new construction sites (e.g., utility lines, rights-of-way, building construction areas or training areas) when time does not permit or volume does not justify disposal by formal declarations of availability. Coordination must be accomplished with the construction contract to assure timeliness and to avoid conflict with contract specifications.

(b) Disposal Action

(1) Installation commanders will submit to the MACOM reports of availability for all timber planned to be harvested. See DA Pam 420–7 for preparation of reports of availability.

(2) The MACOM will take action within authority in preceding § 642.96 (a) (1) and submit approved reports of availability to the appropriate division engineer for disposal action (AR 405–90).

(3) Procedures for selling small volumes of timber by the installation commander are contained in DA Pam 420–7.

(4) Disposal of merchantable timber by destriuction (e.g., burning, burying, natural decay, etc.) may be accomplished only after all sources of sale have been investigated.

(5) Timber or forest products may not be exchanged as reimbursement for services.

§ 642.97 Installation sawmills.

Installation sawmills and the logging operations incident thereto are not authorized except:

(a) To the degree required to train troops in specialized construction activities.

(b) When necessary to prevent the compromise of security information.

Subpart F—Fish and Wildlife Management

§ 642.111 General.

(a) The Fish and Wildlife Management program will provide habitat control and improvements, which comply with accepted scientific practices and are consistent with the total natural resources program. Emphasis will be placed on the development of native habitat favorable to the production of fish and wildlife.

(b) Installation commanders with potential for a fish and wildlife program will:

(1) Program for funds to conduct an effective program.

(2) Require the optimum use and staffing of professionally trained personnel (e.g., wildlife manager) at installation having program potential.

(3) Authorize and control fishing, hunting, and trapping in conformance with established regulations and approved management plans.

(4) Establish a Fish and Wildlife Law Enforcement Program under the supervision of the installation/activity provost marshal/security officer and provide for enforcement in accordance with applicable directives and insure:

(i) Enforcement of all hunting, fishing, and trapping laws, regulations and directives.

(ii) Against unauthorized entry of individuals into restricted areas,

(iii) Control of predators as requested by the facilities engineer.

(iv) Personnel and equipment resources are available to the provost marshal/security officer for conduct of the enforcement program.

(c) Program guidance to installation commanders is contained in DA Pam 420–7.

§ 642.112 Authority to hunt, fish, and trap.

(a) All hunting, fishing or trapping on a military installation or facility under the control of the Department of the Army shall be in accordance with the fish and game laws of the State, commonwealth, or territory in which it is located.

(b) Any individual who desires to hunt, fish or trap on a military reservation must obtain a license or permit either;

(1) From the State, in which the installation is located, or

(2) From the commander of said installation or his designee (16 U.S.C. 670a).

(c) Whoever violates a requirement prescribed under subsections (a) or (b) above is guilty of an offense under 10 U.S.C. 2671(c).

(d) The commander of the installation, or person designated by him, will collect fees, where applicable, for permits they issue and will enforce such permits.

§ 642.113 Installation permits and fees.

(a) Special State Hunting, Fishing and Trapping Permits.

(1) Installation commanders will issue special State permits to individuals only when such are in possession of a valid State, territorial, or county hunting, fishing, or trapping license, as applicable except as set forth in § 642.113(a) (3) below.

(2) These special State permits do not apply to National Forest Lands under control of the Department of Agriculture and will so state.

(3) An exception to the license requirement can be made when State laws do not grant equality of treatment to military personnel by not waivering residency requirements as specified in 10 USC 2671. Commander will make written application to HQDA (DAEN–FEB) WASH DC 20314, through appropriate channels, for authorization to issue permits to military personnel to hunt, fish or trap on the installation without securing an appropriate State, territorial, or county license.

(b) Fees.

(1) The annual demand for operation and maintenance funds frequently has a negative effect on installation efforts to fulfill obligations to foster sound fish and wildlife management programs. As a consequence other fund sources must be considered.

(2) Pursuant to 16 USC 670 a–f, installation commanders:

(i) Should discuss funding aspects with the State agencies formally cooperating with the installation with a view toward amending the cooperative agreement to:

(A) Establish fees for hunting, fishing, or trapping, or

(B) Raising existing fees to levels comparable to facilities within the civilian community.

(ii) May, if agreeable to the cooperative plan agreement, issue special State permits to individuals for fishing, hunting, or trapping on that installation or facility, and require the payment of a nominal fee therefore. (These special permits are in addition to the State license and Federal stamps as required.)

(A) Such fees are to be used on the installation from which collected for the protection, conservation, and management of fish and wildlife, including habitat improvement and related activities, as may be stipulated in the cooperative plan, but for no other purpose.

(B) Collections and disbursements of these fees will be accounted for and reported in accordance with AR 37–100 and AR 37–108.

(iii) Will issue special State permits subject to the following criteria:

(A) Persons holding hunting, fishing or trapping permits will stand at par with each other for use privileges, except that participation of the general public will be within manageable quotas.

(B) A sliding scale of fees may be established for enlisted personnel to encourage participation.

(C) Fee charges should not exceed those prices for comparable facilities within the civilian community.

(D) Will ascertain that the cooperative plan specifically provides, as required by 16 U.S.C. 670b, that the possession of a special permit for hunting migratory game birds will not relieve the permittees of the requirements of the Migratory Bird Hunting Stamp Act, as amended, nor of the requirements pertaining to State Law as set forth in 10 U.S.C. 2671.

§ 642.114 Cooperative plan agreement.

Cooperative Plan Agreements for Conservation and Development of Fish and Wildlife Resources will be prepared and implemented for all Category I installations (those having land and water areas suitable for the conservation and management of fish and wildlife). The Cooperative Plan Agreement will be prepared and amended as appropriate in coordination with appropriate State and Federal fish and wildlife conservation agencies and will be in agreement with the approved Natural Resources Management Plan. Guidelines for the Plan Agreement are contained in DA Pam 420–7. A copy of each Cooperative Plan Agreement, revision or amendment will be forwarded through command channels to HQDA (DAEN–FEB–N) WASH DC 20314. These plans are exempt from reports control under paragraph 7–2a, AR 335–15.

§ 642.115 Introduction of new species.

Species of fish and wildlife which are foreign to the United States will not be introduced on Army land unless approved by the US Fish and Wildlife Service, the State, and DAE–FEB–N. Introduction of species native to the United States or reintroduction of formerly indigenous species will be accomplished only upon the approval of the US Fish and Wildlife Service, the State, and the MACOM and will be made a part of the Cooperative Plan Agreement. All introduction or reintroduction of wildlife species will be thoroughly assessed to determine the impact on existing flora and fauna and the installation mission before accomplished.

§ 642.116 Population control.

The objective of population control will be to maintain the wildlife population within the carrying capacity of the land and prevent health and safety hazards. Wildlife populations will be continually monitored to detect overpopulations and the potential for such. Coordination with Federal and States natural resources agencies will be accomplished regarding wildlife overpopulation determinations and control measures. Such control measures will be in accordance with applicable Federal, State and local laws. When species overpopulations cannot be redued adequately by normal harvest measures, management practices will be changed or initiated which discourage propagation of that particular species.

§ 642.117 Habitat management.

All habitat improvements will be accomplished in a manner to preserve or enhance the esthetic values and quality of the environment. Activities will be directed towards the development of native habitats and perennial plantings. Planting of annual food plots will be avoided as a major activity. First consideration will be given to the management of habitat utilized by threatened and/or endangered species and those species which are indigenous to the installation.

Subpart G—Environmental Management

§ 642.131 General.

(a) Special consideration will be given to soil and vegetation characteristics, surface and subsurface water, unique archeological and geological sites, and wildlife in the development, design, construction and maintenance of an installation and the performance of its mission. All possible efforts will be made to protect the land and water resources so that none will be lost, degraded or destroyed. Measures will be taken to control sources of pollutants harmful to the land and its resources.

(b) Personnel will comply with the environment quality policies and procedures specified in AR 200–1 and those standards established by applicable Federal, State, interstate, or local authority.

(c) The Natural Resources Management Program will be a specific element of the assessment of continuing and planned programs as required by AR 200–1.

§ 642.132 Endangered species.

The Endangered Species Act of 1973, Public Law 93–205, requires all Federal departments and agencies to carry out programs for the conservation of endangered and threatened species. Installation commanders will assure that actions authorized, funded, or carried on do not jeopardize the continued existence of such endangered and threatened species. Coordination will be accomplished with appropriate staff elements for the development of programs for avoiding interference by military activities with both "on base" and "off installations" threatened or endangered species and their habitat. Cooperative agreements for the conservation and development of fish and wildlife and other natural resources will be expanded to include assistance in the development of endangered species programs. Where applicable, an inventory of endangered or threatened flora or fauna and their habitat which are indigenous to or dependent upon the installation will be developed. Consideration will be given to species protected by both Federal and State laws. Introduction or reintroduction of threatened or endangered species will be accomplished only after a thor-

V 41 149 AUG 2 76 UMI

ough assessment of its impact on the military mission and operation of the installation, and concurrence by appropriate Federal and State agencies.

§ 642.133 Predators.

Concurrence by appropriate State or Federal natural resources officials must be obtained prior to performance of predator control measure. Control of predators or other animals considered to be of sanitary or health significance will be coordinated with the installation medical officer. Consideration will be given to the National Environmental Policy Act and EIA/EIS requirements (AR 200–1) in any predator control operations.

§ 642.134 Poisonous and noxious plants.

Poisonous plants will be controlled only where they present a health hazard to personnel. Many plants contain poisonous parts or are poisonous during certain stages of growth. Destruction or eradication of these plants would not be practicable or in compliance with good conservation principles. Education of personnel to become aware of potential hazards should be accomplished in place of widespread destruction programs. Control of plants designated as noxious by Federal or State agencies will be in accordance with environmental policies and in harmony with local community programs and adjacent property owners.

§ 642.135 Pesticides.

Use of chemical pesticides for the protection and control of vegetation is permitted when other methods of control are not feasible. Pesticide application and handling will be in accordance with applicable guidance given in AR's 200–1, 420–76, TM's 5–629, 5–630, 5–632 and § 642.56 of this regulation. Aerial applications will also conform to guidance in AR 40–574. All uses of pesticides will be in strict compliance with a currently approved Environmental Protection Agency label, unless approved otherwise by the MACOM professional pest management personnel. Only pesticides registered by EPA will be used on an installation. They will also be limited to standard items, those listed in the DOD section of Federal Supply Catalogs, unless approved by the MACOM professional pest management personnel.

§ 642.136 Coastal Zone management.

Public Law 92–583, Coastal Zone Management Act, provides National policy and a program whereby coastal states can develop and establish a Coastal Zone Management Plan. All Federal lands are excluded by the Federal land exclusion provision in the Act and that exclusion encompasses all lands used by the United States without regard to the ownership or the jurisdictional status of the land. However, Federal actions in or affecting a coastal zone must, to the extent practicable, be consistent with the coastal states approved plan. Activities will ensure that a State's Coastal Zone Management Plan recognizes the existence and impact of all military installations, facilities and lands, and excludes provisions for mandatory application over same. Commanders shall cooperate and coordinate with the Coastal States during all phases of Coastal Zone Management Plan formulation and implementation. Coordination will be accomplished through the Army Coastal State representative and will be limited to necessary unclassified and releasable information such as inventory and mission data, master plans, and the like.

§ 642.137 Base attractiveness and scenic values.

The "Base Attractiveness Program" gives increased attention to the enhancement of the attractiveness of military installations. The emphasis of this program is to make service life more attractive, while at the same time increase the overall value of the Army physical establishment. New construction projects will include provisions essential to base attractiveness with adequate design and funding considerations. This will include landscaping, buffer zones, screening, parks, and recreational areas as appropriate. Commanders will include the resources essential to support base attractiveness in budget estimates, projects estimates and other resource justifications. Both day-to-day type operations and maintenance and project type work will be performed in a way to contribute to base attractiveness and environmental improvement. Consideration should be given to the protection of areas which have scenic, archaeological, geological, or historical significance.

§ 642.138 Beach protection.

Protection of beaches on Army land is required to prevent water from flooding shore developments, military installations, inland cities, and other improved lands during storms in coastal areas. Natural and/or constructed barriers will be considered as requirements dictate. Plans for barrier construction and for any proposed alterations will be carefully studied by specially qualified experts. Consideration will be given to requirements of State Coastal Zone Management Plans.

Subpart H—Outdoor Recreation

§ 642.151 General.

Objectives and guidance relative to the Outdoor Recreation Program are provided in AR 28–1. The facilities engineer is responsible for the maintenance of recreation facilities and will be actively involved in developing the General Recreation Plan for the installation. Guidance in the planning and design of recreational facilities is found in TM's 5–803–10, 5–803–11, and 5–803–12.

§ 642.152 Land use designation.

Recreation facilities will be based upon formal design in accordance with the Installation Master Plan. Development of the General Recreation Plan portion of the Installation Master Plan (AR210–20) will give attention to land use capability and limitations when determining recreation activities to be conducted.

§ 642.153 Maintenance of recreational facilties.

(a) General. Maintenance responsibilities of the facilities engineer on recreational facilities (golf, courses; badminton, tennis, and volleyball courts; baseball diamonds; football fields; playgrounds; and similar outdoor facilities) will include protection and replacement of playing surfaces, backstops, posts, fences, fixed playground equipment and other fixed items, and the measuring and original permanent marking of diamonds, fields, courts, and similar playing areas. Maintenance of remote facilities may be performed by recreation services when more economical and agreed to by the facilitles engineer and recreation services. Provision and maintenance of nets and other removable items, rolling, temporary marking and detailed treatment of playing areas, and similar services will not be accomplished as a facilities engineering responsiiblity.

(b) Golf courses. Golf courses will be maintained at a standard equivalent to other improved grounds, subject to the provisions of (1) and (2) below. The MACOM may authorize the use of water for irrigation to the extent that existing facilities permit without interference to the normal domestic requirements of the installation. The extent of maintenance to be performed will be as follows:

(1) Unrestricted courses. Maintenance of golf courses for use of all military personnel may be performed by the facilities engineer on the roughs, fairways, and other areas and facilities not requiring specialized equipment or skills. Maintenance of greens, bunkers, traps, tee boxes, and the payment of salary for a professional greenkeeper or general superintendent is not a facilities engineering responsibility.

(2) Restricted courses.

(i) Golf courses at memorially named Army hospitals restricted entirely to the training, rehabilitation, and recreation of patients may be maintained in their entirety as a facilities engineering responsibility. If the golf courses are not restricted to patients, a proportionate share of the costs, based upon the use made by patients, may be financed from appropriated funds available for maintenance of facilities.

(ii) Other golf courses restricted to club members or officers, operated as nonappropriated fund activities and for which a use fee is charged, will be maintained as a facilities engineering activity only to the extent that other improved grounds are maintained. Cost of water used for irrigation will be charged in accordance with AR 420–41.

§ 642.154 Off-road vehicles.

Use of off-road vehicles on Army lands will be in accordance with AR's 210–9 and 28–1. Soil capability and affected land and water resources will be of prime concern when areas are evaluated for use by off-road vehicles. Land and water areas designated for off-road vehicle use will be included in the installation Natural Resources Management Plan and

the Installation Master Plan. The facilities engineer is responsible for determining suitability of trails and areas and monitoring for damage, over-use, and the need for corrective action. The recreational aspects of off-road vehicle use is the responsibility of recreation services.

Subpart I—Plans

§ 642.161 General.

(a) An installation Natural Resources Management Plan will be prepared and implemented for all active and inactive installations in CONUS, Alaska, and Hawaii, meeting the criteria set forth below. The Plan will include, as appropriate, four separate parts: I Land Management; II Landscape Plantings; III Forest Management; and IV Fish and Wildlife Management. The annual work plans will be developed and maintained as the installation record of planning and approved activities and should not require additional detailed cost collection effort during the year.

(b) Cooperative Plan Agreements for Conservation and Development of Fish and Wildlife Resources will be prepared and implemented for all Category I installation (those having land and water area suitable for the conservation and management of fish, wildlife and other natural resources as determined by consultation with appropriate Federal and State fish and wildlife agencies).

§ 642.162 Criteria for the Installation Natural Resources Management Plan.

(a) Part I will be prepared by installation having 500 or more acres of improved, semi-improved and unimproved grounds combined, or 50 or more acres of improved grounds.

(b) Part II will be prepared for all installations listed in Appendix A of AR 210–20 which require preparation of complete master plans. Other installation performing landscaping will prepare detailed plans to cover the work intended when other than replacement planting of like species is involved.

(c) Part III will be prepared by installations having 100 or more acres of commercial forest land.

(d) Part IV will be prepared by installations having land and water areas suitable for the management of fish and wildlife resources. Suitability will be based upon consultation with appropriate Federal and State fish and wildlife conservation agencies. Determinations of unsuitability will be submitted to the MACOM for waiver of requirement to prepare this part. This plan will complement the Cooperative Plan Agreement.

§ 642.163 Preparation.

(a) Guidelines and formats to be used in the preparation of plans are contained in DA Pam 420–7.

(b) The Installation Natural Resources Management Plan will be prepared and kept current by qualified specialist personnel. The formats given in DA Pam 420–7 will be used when completing major revisions to existing plans or in preparing new ones.

(c) The Cooperative Plan Agreement provided for under 16 USC 670 will be prepared and amended as appropriate in coordination with appropriate State and Federal fish and wildlife conservation agencies.

§ 642.164 Revisions.

The Installation Natural Resources Management Plan will be reviewed annually and revised as necessary, utilizing binders which facilitate page changes. Major revisions of Parts I, III, and IV will be accomplished at least every 5 years. Landscape Planting Plans (Part II) will be revised as needed. Information such as that relating to soils, natural vegetation and environmental data, not requiring revision, should be retained in the Plan.

§ 642.165 Approval.

Each Installation Natural Resources Management Plan and major revision thereof will be forwarded to the MACOM for approval. The approved plans, together with TM's 5–630 and 5–631 will be the technical basis for installation implementation. Review, approval, and distribution of annual revisions (e.g., work plans) will be in accordance with provisions established by the MACOM.

§ 642.166 Distribution.

(a) A copy of Parts I, III, and IV of each approved Natural Resource Management Plan and a copy of each Cooperative Plan Agreement will be forwarded through command channels to HQDA (DAEN–FEB–N) WASH DC 20314.

(b) A copy of each approved major revision to Parts I, III and IV of the Natural Resources Management Plan and copy of each amendment to the Cooperative Plan Agreement will be forwarded, as above, when revisions are made.

§ 642.167 Reports control exemption.

These plans are exempt under paragraph 7–2a, AR 335–15.

Subpart J—Conservation Awards

§ 642.171 The Secretary of Defense Conservation Award.

The Secretary of Defense will annually present an award to the installation of the Army, Navy or Air Force that conducted the most outstanding Natural Resources Conservation Program during the three preceding calendar years. Plaques will be presented annually to the two runner-up installations. Special recognition awards, or citations, may as appropriate be presented to additional installations for conducting meritorious natural resources conservation programs.

§ 642.172 Chief of Staff Conservation Award.

The Chief of Staff, U.S. Army, will annually present silver plaques to the two installations (one small, one large) that conducted the most outstanding natural resources conservation programs during the three preceding calendar years.

§ 642.173 Preparation.

Details regarding entry requirements, submission instructions, nomination procedure, and description of the awards, are contained in DA PAM 420–7. All applicable installations are encouraged to submit nominations through command channels.

§ 642.174 Submission of installation nominations.

Nominations will be submitted to HQDA (DAEN–FEB–N) WASH DC 20314 by 15 March of each years for the award period ending the previous 31 December.

(a) Headquarters, FORSCOM, TRADOC, and DARCOM may each submit four nominations from installations in CONUS, Hawaii and Alaska.

(b) Other MACOMS in CONUS may submit a maximum of two nominations each.

Subpart K—Installation Natural Resources Report (Reports Control Symbol DD–I&L (A)670)

§ 642.181 Purpose and scope.

(a) The report is designed to provide HQDA (DAEN–FEB–N) with data relative to the execution of integrated natural resources programs involving:

(1) Management of grounds, fish and wildlife, and forest areas.

(2) Development and conservation of natural beauty values and outdoor recreation potentials.

(3) Enhancement of environmental quality.

(b) The report is basis for:

(1) Performance evaluation and management analysis.

(2) Technical studies.

(3) Development of policies, standards and programs.

(4) Providing higher authority with information pertinent to implementation of integrated natural resources programs.

(c) The report consists of three parts, with each part on a separate sheet, as follows:

Part I—Land Use and Conservation, DA Form 2785–R (App. B–1). Part II—Forest Management, DA Form 2785–1–R (App. B–2). Part III—Fish and Wildlife Mangement, DA Form 2785–2–R (App. B–3). These forms will be prepared locally on 8 x 10½ inch paper.

§ 642.182 Frequency, routing and due date.

The report will be prepared at the end of each fiscal year and dispatched through command channels, in triplicate, to reach HQDA (DAEN–FEB–N) WASH DC 20314, within 45 days after the close of the fiscal year.

§ 642.183 Instructions for Parts I and II.

(a) Part I will be prepared by each Army installation in the U.S., Puerto Rico, and Panama, required to prepare the Land Management part of the Installation Natural Resources Management Plan.

(b) Part II will be prepared by each Army installation in the U.S., Puerto Rico and Panama required to prepare

V 41 149 AUG 2 76 UMI

the Forest Management part of the Installation Natural Resources Management Plan.

§ 642.184 Instructions for Part III.

(a) Criteria. The criteria for submission of Part III will be established after consultation with appropriate Regional Director of the U.S. Fish and Wildlife Service and the State official(s) designated by the governor of the state concerned. Based upon this consultation, installations will be classified under one of the four following categories. (Note: All installations are currently classified. Category classification will be changed when installation program potential is determined (by consultation as above) to warrant such changes):

(1) Category I. Installations having land and water areas suitable for the conservation and mangement of fish, wildlife, and other natural resources.

(2) Category II. Installations for which a decision is pending as to program suitability within the meaning of (1) above.

(3) Category III. Installations which are classified, due to lack of adequate land or water areas, as unsuitable for a program of conservation and management of fish and wildlife and other natural resources, such classification being determined after the consultation prescribed in (a) above.

(4) Category IV. Installations which obviously do not have land or water areas (e.g., recruiting centers, armories, cemeteries, hospitals, city office building headquarters, and the like) which would provide the program potential for the conservation and management of fish and wildlife and other natural resources within the meaning of this regulation.

(b) Reporting.

(1) Category I installations will complete Part III of the report annually.

(2) Category II installations will complete applicable portions of Part III of the report annually.

(3) Installations classified in Category III or IV are excused from reporting unless or until the acquisition of additional land and water areas provides a program potential within the meaning of this regulation. Newly established installations classified in Category III or IV will be excused from further reporting after submission of their initial report which will consist of a signed statement attesting to their category designation.

PART III:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

Reimbursement of Other Agencies

V 41 149
AUG 2 76
UMI

Title 24—Housing and Urban Development

CHAPTER XIII—FEDERAL DISASTER ASSISTANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-76-282]

PART 2205—FEDERAL DISASTER ASSISTANCE

Reimbursement of Other Agencies

On April 19, 1976, the Federal Disaster Assistance Administration of the Department of Housing and Urban Development published proposed regulations in the FEDERAL REGISTER (41 FR 16476) to establish certain procedures and criteria for reimbursement, to other Federal agencies providing disaster assistance under the Disaster Relief Act of 1974, (Pub. L. 93-288, 42 U.S.C. 5121 note) by adding a new Subpart H to Part 2205. Section 302(a) of the Act authorizes the President to direct any Federal agency, with or without reimbursement, to utilize its available personnel, equipment, supplies, facilities, and other resources in support of State and local disaster assistance efforts. The authority to implement this section was delegated by the President to the Secretary of Housing and Urban Development pursuant to E.O. 11795, 39 FR 25939, July 15, 1974, and by the Secretary to the Administrator, Federal Disaster Assistance Administration, pursuant to a Delegation of Authority, 39 FR 28227, August 5, 1974.

Subpart H supersedes previous regulations on this subject, 24 CFR 2201, adopted pursuant to the Disaster Relief Act of 1970 (Pub. L. 91-606, 42 U.S.C. 4401 et seq.). Section 2205.82(a) of Subpart H sets forth with greater specificity certain expenditures not eligible for reimbursement. Except as noted below, there are no other major substantive changes from the previous regulations.

Interested persons were given until June 3, 1976, to submit written data, views or arguments concerning the proposed regulations. No written comments or objections have been received.

Since publication of the proposed regulations, the HUD Office of Inspector General has recommended that these regulations specifically require other agencies to keep detailed records relating to disaster work and emphasize that costs claimed by reimbursements are subject to audit by HUD and the General Accounting Office. Accordingly, paragraph (e) has been added to Section 2205.83, as shown below.

A Finding of Inapplicability of Section 102.26, National Environmental Policy Act of 1969, has been made in regard to Subpart H in accordance with HUD procedures set forth in HUD Handbook 1390.1 (38 FR 19182). A copy of this Finding of Inapplicability is available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, Washington, D.C.

In consideration of the foregoing, 24 CFR Part 2205 is amended by adding a new Subpart H as set forth below.

Subpart H—Reimbursement of Other Agencies

Sec.
2205.80 Purpose.
2205.81 Procedures for obtaining or authorizing the provision of services or use of resources of other Federal agencies.
2205.82 Eligibility of certain expenditures for reimbursement.
2205.83 Procedures for requesting reimbursement.

AUTHORITY: Sec. 7(d) Department of HUD Act; 42 U.S.C. 3535(d).

Subpart H—Reimbursement of Other Agencies

§ 2205.80 Purpose.

The regulations in this part prescribe the procedures for obtaining or authorizing the provision of services or use of resources of other Federal agencies in providing assistance under the authorities of Public Law 93-288, and are effective for such assistance obtained or authorized in emergencies or major disasters declared after the date of publication of these regulations.

§ 2205.81 Procedures for obtaining or authorizing the provision of services or use of resources of other Federal agencies.

(a) The Administrator or Regional Director, in determining the nature and extent of assistance required to implement his authorities under the Act, will take into consideration the types of assistance available from other Federal agencies. Either the Administrator or the Regional Director may request or direct other Federal agencies to provide such available assistance as is determined to be necessary.

(b) All such directives or requests shall be in writing or, if oral, shall subsequently be confirmed in writing and shall contain a specific clause with reference to the anticipated level of reimbursement.

§ 2205.82 Eligibility of certain expenditures for reimbursement.

(a) The Administrator or the Regional Director may not approve reimbursement of costs incurred while performing work under an agency's own authority.

(b) The Administrator or the Regional Director may approve reimbursement of the following costs which are incurred in providing requested assistance:

(1) Overtime, travel and per diem of permanent Federal agency personnel.

(2) Wages, travel and per diem of temporary Federal agency personnel assigned solely to performance of services requested by the Administrator or the Regional Director in the major disaster or emergency area designated by the Administrator.

(3) Travel and per diem of Federal military personnel assigned solely to performance of services requested by the Administrator or the Regional Director in the major disaster or emergency area designated by the Administrator.

(4) Cost of work, services, and materials procured under contract for the purpose of providing assistance requested by the Administrator of the Regional Director.

(5) Cost of materials, equipment, and supplies (including transportation, repair and maintenance) from regular stocks which are utilized or consumed in providing requested assistance.

(6) All costs incurred which are paid from trust, revolving, or other funds, the full reimbursement of which is required by law.

(7) Such other costs as the Administrator may approve, based upon written justification, submitted by the agency concerned, or as otherwise agreed to in writing between the Administrator and the agency.

§ 2205.83 Procedures for requesting reimbursement.

(a) Requests for reimbursement of amounts greater than $1,000 may be submitted at any time. Requests for lesser amounts will be submitted quarterly. Final accounting for expenditures will be submitted within 90 days after completion of an agency's work under each request for assistance. Billings totaling less than $1,000 are not to be submitted more often than quarterly.

(b) Requests for reimbursement will be accompanied by documentation which specifically details personnel services, travel and all other expenses by object class as specified in OMB Circular A-12 and by any sub-object classification used in the agency's accounting system. In addition, where contracts constitute a significant portion of the billings, a listing of the individual contracts and their associated cost will be provided.

(c) Reimbursement requests will cite the specific directive or request for assistance under which the work was performed, and the disaster identification number. Requests for reimbursement of costs incurred under more than one directive or request will not be combined for billing purposes.

(d) Unless otherwise agreed, all requests for reimbursement shall be directed to the FDAA Regional Director of the region in which the costs were incurred.

(e) All Financial records, supporting documents, statistical records, and other records pertinent to the provision of services or use of resources of other Federal agencies shall be retained and shall be accessible to duly authorized representatives of HUD and the U.S. Comptroller General for the purpose of making audits, excerpts, and transcripts for a period of three years starting from the date of submission of the final billing.

Effective Date: This regulation shall be effective August 2, 1976.

It is hereby certified that the economic and inflationary impact of this regulation has been carefully evaluated in accordance with OMB Circular A-107.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

V 41 149 AUG 2 76 UMI

federal register

MONDAY, AUGUST 2, 1976

PART IV:

OFFICE OF THE FEDERAL REGISTER

PRIVACY ACT OF 1974

Publication Guidelines

V41 I149 AUG 2 76 UMI

OFFICE OF THE FEDERAL REGISTER

PRIVACY ACT OF 1974

Publication Guidelines

STATEMENT OF PURPOSE

The purpose of this guideline is to announce the publication of the first Annual Compilation of rules and notices issued under the Privacy Act of 1974 and to advise agencies of procedures developed for preparing the Compilation.

The Privacy Act (Public Law 93-579, section 552(e)(4)) requires that all agencies shall publish "* * * in the FEDERAL REGISTER at least annually a notice of the existence and character of systems of records * * *". The Act also requires that the FEDERAL REGISTER "* * * shall annually compile and publish the rules promulgated under subsection (f) and agency notices published under subsection (e)(4) in a form available to the public at low cost." (Section 552(f)).

The Office of the Federal Register (OFR) has developed these procedures to help agencies to meet their responsibilities under the Act and to minimize the printing costs involved in reissuing and reprinting all the Privacy Act notices.

ANNUAL COMPILATION

The Annual Compilation will consist of the system notices and rules submitted to the OFR under the Privacy Act of 1974 by August 30, 1976. (This is the annual republication date prescribed in OMB Circular A-108, 40 FR 28963).

AGENCY PROCEDURES

In order to meet the requirements of Section 552(e)(4), each agency must submit a document by August 30, 1976, for publication in the FEDERAL REGISTER. This document should reflect one of the following alternatives:

(a) Announce that there have been no changes in the systems of records as previously published in the FEDERAL REGISTER and cite the appropriate FEDERAL REGISTER page and date of publication (see example in Appendix A). OFR will then compile these notices for publication.

(b) By prior arrangement with the OFR, itemize and describe substantive changes to the records systems and announce submittal of an updated tape which reflects such changes for inclusion in the Compilation.

(c) Submit a document containing the full text of the systems of records maintained by the agency.

PUBLICATION SCHEDULES

Current estimates are that the Compilation will consist of four volumes plus finding aids. Prospects are that two of these volumes can be printed and distributed before September 30, 1976. Agencies contained in the Compilation volumes to be distributed in September will be in compliance with Section 552(e)(4). For agency notices which are scheduled to appear in volumes of the Compilation that cannot be ready by September 30th, OFR will provide full text publication in the FEDERAL REGISTER by that date so that those agencies also will be in compliance with section 552(e)(4). Agencies are urged to act promptly and contact OFR representatives so that publication schedules can be established and maintained.

MANNER OF SUBMISSION

Whenever possible, the FEDERAL REGISTER will use an agency's magnetic tape of previously published notices of systems of records to produce the Compilation. For those agencies which have previously published notices, this will eliminate the need to resubmit for FEDERAL REGISTER publication those systems which have remained unchanged.

Notices of new systems submitted for publication in the FEDERAL REGISTER must be submitted in machine readable format in order to be published in the 1976 Compilation. All Privacy Act notice documents should be submitted in either Optical Character Recognition (OCR) Type or on magnetic tape in accordance with the specifications in Appendix B to these guidelines.

If an agency's previously published systems of notices are, or have been, revised extensively, it may be possible for the agency to submit an updated magnetic tape to the OFR for inclusion in the Compilation without republishing the full text of the tape in the daily FEDERAL REGISTER. In such a case, the agency should consult with the OFR before submitting a document.

AGENCY OVERRUNS

Before final printing of the Compilation volumes agencies will be given the opportunity to order overruns from the Government Printing Office for only those sections of interest to the agency.

FOR FURTHER INFORMATION

Any questions or problems with regard to these guidelines or publication of the Annual Compilation should be directed to the Privacy Act Coordinator by calling 523-5240, or by writing the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C., 20408. The Office is located in Room 8401 at 1100 L Street, NW., Washington, D.C.; Office hours are from 8:45 a.m. to 5:15 p.m.

FRED J. EMERY,
Director of the Federal Register.

APPENDIX A

MODEL DOCUMENT CITING EXISTENCE AND CONTINUED EFFECTIVENESS OF SYSTEMS OF RECORDS

The purpose of this document is to give notice that the systems of records identified in notices published in the FEDERAL REGISTER at 40 FR 111110, 112001, 114711, and 41 FR 110112, continue in effect. This notice is published in compliance with the requirements of 5 U.S.C. 552a(e)(4) as added by section 3 of the Privacy Act of 1974.

APPENDIX B

INPUT REQUIREMENTS FOR FR PRIVACY ACT EDIT PROGRAM UTILIZING OCR SCANNABLE COPY

Typing Requirements

Typewriters must have 10 character per inch pitch, OCR-A size I type font with 85 characters and/or symbols and space bar which conform to FIPS PUB 32.

The following FIPS PUB 32 symbols will not be used:

| long vertical mark (field identifier) fig. II-24.
Ψ symbol fork, figure II-22.
— group erase, figure II-96.

The symbol hook (ʃ) figure II-21 will occasionally be used to indicate special functions.

The character erase (■) figure II-95, will be used to correct typing errors, as follows:

■ delete previous letter
■■ delete all characters, back to, but not including, previous space
■■■ delete entire line, back to the left hand margin.

Corrections on copy will not be made by erasing, white-out, or striking out. Only clean copy, with the exception of the character erase used for correcting errors, will be acceptable.

Copy must be typed double space at a 5 or 6 lines per inch pitch.

Spacing between words or sentences will be restricted to 2 spaces.

Operator must distinguish between figure one (1) and lower case letter ell (l) and between figure zero and capital letter O. These characters are not interchangeable.

Hyphens must never appear at the end of a line. If a hyphenated word must extend beyond the image area, use 2 erase symbols and start a new line. Strikes over previously typed letters are acceptable for this function only when the insertion of the two erase symbols would fall outside the right side margins.

Quotation marks—(") for single open quotes; ("") for double open quote; (') for single close quote and apostrophe, ('') for double close quote.

A one-time carbon ribbon that is equivalent to an IBM 3121 Black Ribbon Part No. 1136108 or 1136390 is normally adequate to meet requirements.

Paper Requirements

Paper will be made available through the Office of the Federal Register and will have preprinted on it, in non-OCR readable ink, margins, alinement and first character positions. Indents for 3, 6, and 9 spaces are also marked and are referred to in these specifications.

Margins and alinement are critical and must be followed.

Data Identifiers (Keyword Indicators)

The codes listed following these paragraphs must be placed immediately in front of the data they refer to. These codes will cause the correct function code and heading to be added by the edit program.

1. Data entries are to be preceded by a keyword indicator, the character (ㅁ), and a letter as assigned.
2. The keyword indicators and the subsequent letter causes the edit program to generate the proper headings as they appear on the following list.
3. Data may reflect either a textual paragraph or column/list format. The start of each paragraph is a new line, with a 3-space indent. When names, addresses, etc., require a column list format, each individual line will be a new line with a 6-space indent. It is advisable, where possible, to enter names, addresses, etc., in paragraph form.

Keyword and letter	Paragraph title
ㅁA	(NONE)*
ㅁB	System name:
ㅁC	Security classification:
ㅁD	Security location:
ㅁE	Categories of individuals covered by the system:
ㅁF	Categories of records in the system:
ㅁG	Authority for maintenance of the system:
ㅁH	Routine uses of records maintained in the system, including categories of users and the purposes of such uses:
ㅁI	Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:
ㅁJ	Storage:
ㅁK	Retrievability:
ㅁL	Safeguards:
ㅁM	Retention and disposal:
ㅁN	System manager(s) and address:
ㅁO	Notification procedure:
ㅁP	Record access procedures:
ㅁQ	Contesting record procedures:
ㅁR	Record source categories:
ㅁS	Systems exempted from certain provisions of the act:

*Unique system number assigned by the submitting department. To be used in creating an index. First position after ㅁA must be either a blank or alphabetic character. 20 characters maximum.

For further information on scanner input contact the Privacy Act Coordinator at the Office of the Federal Register.

V 41 149 AUG 2 76 UMI

INPUT REQUIREMENTS FOR FR PRIVACY ACT EDIT PROGRAM

1. All files will be submitted on ½ inch wide magnetic tape whose recording mode is 9 track. Acceptable recording densities are 800 or 1600 CPI.
2. Files are to be devoid of equipment-oriented identification label records, i.e., unlabeled.
3. Files are comprised of blocks of data not to exceed 3000 characters.
4. Data entries are to be preceded by a keyword indicator, the character "+", and a number as assigned. See attachment I.
5. The keyword indicators and the subsequent number causes the edit program to generate the proper headings as they appear on attachment I.
6. Data may reflect either a textual paragraph or column/list format. The start of each paragraph is preceded by the character "$". When names, addresses, etc., require a column list format, each individual line will be preceded by the character "%". It is advisable, where possible, to enter names, addresses, etc., in paragraph form.
7. The character set indicated in attachment II provides for upper and lower case letters, the numbers zero through nine, and the normally used punctuation, e.g., period, comma, colon, semicolon, hyphen, em dash, shil, exclamation mark, question mark, quote, apostrophe, ampersand, asterisk, and open and close parens.

These codes represent the characters to be called by the composition program in composing the submitted data. Any fractions, math signs, etc., are to be spelled out.

When submitting magnetic tape to OFR for publication, an agency should submit the tape itself as printer's copy, and two printouts for use as an original document and public inspection copy. One of the printouts must be signed by the issuing official, the other may be "certified to be a true copy of the original," or both may be signed.

In the case of a large group of notices, for example, when an agency submits all of its notices at one time, a signed covering letter may be included, so that the issuing official may sign just one letter, rather than each systems notice.

Sample Notice II illustrates how a system notice will look with the codes required by the specifications appearing above. Note that the actual headings, "System Name," "Location," etc., should not be printed or typed but only the symbols. The program developed by the Government Printing Office will insert the headings where appropriate.

+1 DOD 412.07.

+2$ Research Clearance Files 412.07—DOD/Navy.

+4$ Records Management Division, Administrative Management Directorate, the Adjutant General Center Office of the Secretary of the Army.

+5$ U.S. citizens, doing unofficial research, who apply for access to Army classified files.

+6$ Individual's application for related processing papers and access authorization and extension; correspondence between the Records Management Division and (1) applicant, (2) records custodians, (3) other Government agencies; retained copies of research notes and manuscript and selected documents.

+7$ Section 12, Executive Order 11652, "Classification and Declassification of National Security Information and Material."

+8$ Records are used to obtain clearance for access to classified information by applicant; to obtain approval of research subject matter; to determine location, availability and classification of records desired by the researchers; to request and coordinate the review of manuscript; and to enable discussion of proposed or ongoing research when problems arise. Primary users are the Office of the Secretary of the Army, and Offices of the Department of the Army Staff and major commands.

■

LOW INCOME HOUSING

Modernization Program
PHA–Owned Projects

V 41 1 149 AUG 2 76 UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing-Federal Housing Commissioner

[24 CFR Part 868]

[Docket N. R-76-404]

LOW INCOME HOUSING

Modernization Program PHA-Owned Projects

Notice is hereby given that the Department of Housing and Urban Development (HUD) proposes to amend Chapter VIII of Title 24 by adding a new Part 868.

This proposed rule codifies previously uncodified requirements and procedures for participation by Public Housing Agencies (PHAs) in the Low-Income Housing Modernization Program. The Modernization Program provides funds to PHAs to finance capital improvements in PHA-owned, low-income housing projects (including conveyed Lanham and Public Works Administration (PWA) projects) that appreciably extend their useful life, increase their value or utility, or make the projects more suitable for their intended use. The proposed rule does not apply to Section 23 and Section 10(c) Leased Housing Programs, the Section 23 Housing Assistance Payments Program, the Section 8 Housing Assistance Payments Program, the Low-Rent Housing Homeownership Opportunities Program (Turnkey III), the Mutual Help Homeownership Opportunities Program, or to Modernization of low-income housing projects undertaken with funds derived from the Community Development Block Grant Program under Title I of the Housing and Community Development Act of 1974.

The proposed rule sets forth eligibility requirements for an allocation of Modernization Funds to PHAs. These requirements include the presentation of evidence of the need for the proposed capital improvements, management capability to complete the proposed capital improvements, compliance with civil rights statutes, executives orders, and regulations, and a PHA agreement to correct deficiencies in management practices. The proposed rule prescribes the procedures to be followed by PHAs in applications for funding. The proposed rule also sets forth requirements for modernization contracts, including labor and civil rights provisions, and HUD reporting requirements.

The proposed rule primarily codifies existing requirements and procedures to make them available in one place without imposing new obligations. In instances where requirements have been modified, such as HUD review and approval of bidding documents and contract awards and the allowance of Major Repairs as Work Items, comments are particularly solicited. Interested persons are invited to submit written comments, suggestions, objections, or views with respect to final regulations concerning the subject matter of the proposed rule to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410. Each person submitting a comment should include the docket number and reasons for any recommendations.

All relevant material received by September 2, 1976, will be considered before final action is taken on this proposal. A copy of each written communication will be available for public inspection during regular business hours at the above address.

The Department has determined that this proposed rule does not have a substantial environmental impact and a finding of inapplicability is available for public inspection in the office of the Rules Docket Clerk at the above address.

It is hereby certified that the economic and inflationary impacts of this proposed rule have been carefully evaluated in accordance with the OMB Circular A-107.

It is therefore proposed to amend Title 24 of the Code of Federal Regulations by adding a new Part 868, Modernization Program—PHA-Owned Projects, to read as follows:

PART 868—MODERNIZATION PROGRAM—PHA-OWNED PROJECTS

Sec.

868.1 Purpose and scope.
868.2 Definitions.
868.3 Types of modernization.
868.4 Eligibility requirements for an allocation of modernization funds.
868.5 Resident participation.
868.6 Procedures for obtaining approval of modernization program.
868.7 Contracting requirements.
868.8 Labor provisions.
868.9 Requests for modernization funds.
868.10 Monitoring and evaluation.
868.11 Revisions of the modernization program budget.
868.12 Revisions of the modernization work program.
868.13 Completion of modernization programs.

AUTHORITY: United States Housing Act of 1937, (42 U.S.C. 1437 et seq); sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d))

§ 868.1 Purpose and scope.

The purpose of this part is to prescribe requirements and procedures for Modernization by Public Housing Agencies (PHAs) of PHA-owned, low-income housing projects, including conveyed Lanham and Public Works Administration (PWA) projects, to upgrade living conditions, correct physical deficiencies, and achieve operating efficiency and economy. This part does not apply to the Section 23 and Section 10(c) Leased Housing Programs, the Section 23 Housing Assistance Payments Program, the Section 8 Housing Assistance Payments Program, the Low-Rent Housing Homeownership Opportunities Program (Turnkey III), the Mutual Help Homeownership Opportunities Program, or to Modernization of low-income housing projects undertaken with funds derived from the Community Development Block Grant Program under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301-5316).

§ 868.2 Definitions.

As used in this part:

"Act" means the United States Housing Act of 1937, as amended (42 U.S.C. 1430–1437j).

"Annual Contributions Contract" (ACC) means a contract under the Act between the Secretary of the Department of Housing and Urban Development (HUD) and the PHA, containing the terms and conditions under which the Secretary makes loans and annual contributions to assist PHAs in providing decent, safe, and sanitary housing for families of low-income and provides Modernization Funds to PHAs to modernize PHA-owned, low-income housing projects.

"Force Account Labor" means labor employed directly by the PHA on a permanent or a temporary basis.

"Major Repairs" means Work Items that are usually not recurrent, are substantial in scope, involve expenditures that would otherwise materially distort the level trend of maintenance expense, are not the result of PHA failure to perform adequate maintenance during the period after April 1, 1975, and may include the replacement of structural elements due to normal wear and tear by items of substantially the same kind.

"Modernization" means capital improvements, such as alterations, betterments, additions, replacements or Major Repairs that appreciably extend the useful life of the property (site, structures, or nonexpendable equipment), increase its value or utility, or make it more suitable for its intended use.

"Modernization Funds" means funds derived from an allocation of contract authority under Section 5 of the Act to increase the total development cost of the project for the purpose of financing capital improvements under an approved modernization program.

"Operating Funds" means all project revenues (dwelling rentals, interest income received during the operation of the project, etc.), operating reserves, and HUD operating subsidies as shown on the PHA's approved operating budget.

"Work Item" means any separately identifiable unit of work constituting a part of a modernization program.

§ 868.3 Types of modernization.

There are two types of Modernization, as follows:

(a) Comprehensive modernization is a modernization program for an individual project that contains Work Items to upgrade the entire project, correct physical deficiencies, and achieve operating efficiency and economy so that upon completion of the program, the project will not require and is not eligible for Modernization for the Work Items funded under the comprehensive modernization program for at least ten years from the date of completion.

(b) Limited modernization is a modernization program for selected parts of an individual project that includes Work Items to correct serious physical deficiencies and improve operating efficiency and economy. Work Items relating to energy conservation, compliance with Federal, State, and local laws relating to health and safety, preservation of the basic integrity of the structures and systems, and immediate and demonstrable cost-savings to the PHA are priority Work Items.

health and safety; preservation of the basic integrity of the structures and systems, and immediate and demonstrable cost-savings to the PHA are priority Work Items.

§ 868.4 Eligibility requirements for an allocation of Modernization Funds.

To be eligible for an allocation of Modernization Funds, the PHA shall:

(a) Present evidence of the actual need for the proposed Work Items;

(b) Propose the most economical way of accomplishing needed Work Items;

(c) Provide accurate cost estimates;

(d) Limit proposed modernization expenditures to eligible Work Items;

(e) Limit proposed Work Items to Work Items that cannot be funded from current Operating Funds;

(f) Present a report on any previously approved modernization programs;

(g) Present evidence of management capability to complete the proposed modernization program within a two-year period;

(h) Agree to correct any deficiencies in management practices for:

(1) Routine maintenance operations;

(2) Preventive maintenance;

(3) Services and support from local and State government and community organizations for the project, including the ongoing operation of any recreational and community facilities;

(4) Rent collection policies and practices;

(5) Tenant selection policies;

(6) PHA progress in achieving resident employment where the PHA operates more than 500 dwelling units; or

(7) Other PHA management practices specifically identified by HUD.

(i) Present evidence, satisfactory to HUD:

(1) In the case of Indian Housing Authorities (IHAs):

(i) Of compliance with Title II of the Civil Rights Act of 1968 (Indian Civil Rights Act) (25 U.S.C. 1301–1303) or with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d–2000d–4) and Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601–3619), as applicable. The Indian Civil Rights Act is applicable (Title VI and Title VIII are inapplicable) to IHAs established by exercise of a tribe's powers of self-government. In the case of an IHA established under State law, the applicability of the Indian Civil Rights Act (or of Title VI and Title VIII) shall be determined by HUD on a case-by-case basis in accordance with 24 CFR 805.105; and

(ii) Of compliance with Section 7(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e (b)), Executive Order 11246 (30 FR 12319), and Section 3 of the Housing and Urban Development Act of 1968, as amended, (12 U.S.C. 1701u) in accordance with 24 CFR 805.106 and 805.204.

(2) In the case of all other PHAs, of compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 (27 FR 11527) and 11246, and Section 3 of the Housing and Urban Development Act of 1968, as amended.

(j) Propose no modernization program to correct construction and design deficiencies in projects completed less than five years previously if additional development funds can be made available;

(k) Present evidence of compliance with HUD regulations and requirements under the Flood Disaster Protection Act of 1973;

(l) Agree to resident participation in identifying needed Work Items under § 868.5; and

(m) Obtain HUD clearance under the National Environmental Policy Act, where applicable.

§ 868.5 Resident participation.

The PHA shall notify the residents of the project to be modernized and the resident organization, if any, of the proposed modernization program, afford residents an opportunity to present their views, and consider resident recommendations. Resident participation is advisory only. The PHA shall provide HUD with an evaluation of resident recommendations, indicating the reasons for acceptance or rejection, consistent with the PHA's own determination of efficiency, economy, and need, under § 868.6(c)(7). After HUD approval of the modernization program, the PHA shall inform the residents and the resident organization, if any, of the approved Work Items. The provisions of this section do not apply where only priority Work Items, as explained in § 868.3(b) are proposed because of the nature of these Work Items.

§ 868.6 Procedures for obtaining approval of a modernization program.

(a) *Informal consultation.*—The PHA shall consult with the appropriate HUD Office to discuss its modernization needs; to obtain information and advice on HUD policies and procedures, and to explore the availability of Modernization Funds.

(b) *Preliminary application.*—The PHA shall submit to the appropriate HUD Office a preliminary application in letter form which shall contain:

(1) The reason comprehensive or limited modernization or both is being proposed;

(2) A brief description of each Work Item proposed for each project and the estimated amount of Modernization Funds needed to finance each Work Item;

(3) The reasons the Work Items proposed cannot be financed from current Operating Funds:

(4) A brief description of modernization Work Items previously approved, but not completed, for each project, including the current status and any significant problems;

(5) A listing of total Modernization Funds previously approved by HUD, monies previously provided to the PHA, and monies expended by the PHA to date;

(6) An estimate of additional Modernization Funds, if any, needed to complete previously approved modernization programs;

(7) A brief description of resident participation in identifying needed Work Items; and

(8) A report on the status of the PHA's tenant selection and assignment plan and whether the PHA has any outstanding complaints or lawsuits against the PHA alleging violations of civil rights statutes, executive orders, and regulations.

(c) *HUD-PHA joint review.*—The PHA shall participate in an on-site review with the appropriate HUD Office to develop a mutual agreement on the scope of the proposed modernization program and the details of the final application. The joint review shall include:

(1) On-site inspection of the proposed Work Items for each project, the time for completion, the method of accomplishment (by contract or Force Account Labor), cost estimates, and the method of PHA inspection of the work;

(2) PHA need for the technical services of a professional architect/engineer in planning, designing, and implementing all or part of the proposed modernization program;

(3) PHA plan for organizing and staffing the modernization program;

(4) PHA performance in administering previously approved modernization programs;

(5) PHA compliance with civil rights statutes, executive orders, and regulations, as applicable, under § 868.4(i);

(6) Determination of the applicability of § 868.4(j);

(7) Resident participation;

(8) Determination of the applicability of HUD regulations and other published requirements under the National Environmental Policy Act;

(9) PHA management practices; and

(10) Project characteristics, including:

(i) Occupancy rate for the project over the last five years and the anticipated occupancy rate after completion of the proposed modernization program;

(ii) Relationship of the projects to the adjacent neighborhood;

(iii) General physical condition of the project's systems and structures; and

(i) Availability of community services.

(d) *Final application.*—Upon notification from HUD, the PHA shall submit to the appropriate HUD office the final application which shall contain:

(1) A program budget, in a form prescribed by HUD, describing each Work Item, amount of Modernization Funds requested, method of accomplishment, estimated dates for starting and completing work, and a summary of Work Items by project;

(2) A work program, in a form prescribed by HUD, stating the estimated amount of Modernization Funds to be expended and the estimated work to be completed for each Work Item by quarter

V 41 149 AUG 2 76 UMI

for eight quarters (a two-year period);

(3) An organization and staffing plan, stating the proposed organization, staffing, and inspection of the program;

(4) A management plan, describing any management Work Items and estimated progress by quarter for eight quarters (a two-year period) where management deficiencies have been identified by HUD;

(5) A PHA report on compliance by the local governing body with the terms of the Cooperation Agreement and any additional services or facilities that the PHA plans to request from the local governing body;

(6) A resolution by the PHA Board of Commissioners:

(i) Approving the program budget, the work program, the organization and staffing plan, and the management plan; and

(ii) Certifying that:

(A) The PHA will comply with all policies, procedures, and requirements, prescribed by HUD for the modernization program;

(B) The estimated costs of the modernization program cannot be funded from current Operating Funds;

(C) The proposed Work Items are eligible for modernization funding;

(D) The amount of Modernization Funds requested represent the PHA's best estimate of the costs of the modernization program described in the final application;

(E) The PHA will comply with civil rights statutes, executive orders, and regulations, as applicable, under § 864.4 (i); and

(F) The PHA has complied with HUD regulations and requirements under the Flood Disaster Protection Act of 1973 or that such regulations and requirements are not applicable.

(7) Environmental data, in a form prescribed by HUD, under procedures to be developed by HUD.

(e) *ACC amendment.*—After HUD approval of the PHA's final application, the PHA shall enter into an ACC amendment or an ACC to obtain Modernization Funds.

§ 868.7 Contracting requirements.

(a) *Compliance with State and local law.*—The PHA shall comply with State and local law applicable to bidding and contract award.

(b) *PHA agreement with architect/engineer.*—The PHA shall submit the proposed agreement, if any, in a form prescribed by HUD, with an architect/engineer for technical services to the appropriate HUD office for review and approval before executing the agreement.

(c) *Bidding documents.*—The PHA shall submit complete plans, drawings, specifications, and other related documents for each proposed modernization contract over $5,000 to the appropriate HUD office for review and approval before inviting bids.

(d) *Contract award.*—The PHA shall submit all documents relating to the proposed award of modernization construction and equipment contracts to the appropriate HUD office for review and approval before making an award, if the amount of the contract exceeds $10,000 or the amount included in the latest approved modernization program budget, whichever is lower. The Director of the HUD office with which the PHA normally transacts its low-income housing business may waive the requirements of this paragraph (d) of this section for an individual PHA that has demonstrated satisfactory performance.

(e) *Contract Changes and time extensions.*—The PHA shall submit to the appropriate HUD office for review and approval all proposed contract changes which increase the original contract amount, extend the date for completing work by more than 30 days, or change the approved scope of the work by adding new Work Items or lowering the work quality before issuing changes to the contractor.

(f) *Contract settlement.*—Regardless of the amount of the contract, the PHA shall submit all documents for final payment of the contractor to the appropriate HUD office for review and approval before making the payment.

§ 868.8 Labor provisions.

(a) *Technical wage rates.*—Under Section 12 of the Act, the PHA and its contractors shall pay not less than the wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Secretary, to all architects, technical engineers, draftsmen, and technicians employed by the PHA itself or by an architect/engineer or other contractor engaged by the PHA, for a modernization program.

(b) *Davis-Bacon Act.*—Under Section 12 of the Act, the PHA and its contractors shall pay not less than the wages prevailing in the locality, as predetermined by the Secretary om Labor, under the Davis-Bacon Act, to all laborers and mechanics employed by the PHA itself or by a contractor engaged by the PHA for modernization work or contracts over $2,000.

§ 868.9 Requests for Modernization Funds.

To request Modernization Funds against the approved modernization program, the PHA shall:

(a) Consult informally with the appropriate HUD office as to the amount of Modernization Funds needed for the time period in question, the immediacy of need, and the method of financing;

(b) Submit a request to the appropriate HUD office for only the amount of Modernization Funds needed for the time period in question and support the request with a written justification, in a form prescribed by HUD; and

(c) Submit the latest required progress reports under § 868.10(b), unless the first required report is not yet due.

§ 868.10 Monitoring and evaluation.

(a) *On-site physical inspections.*—The PHA shall provide, by contract or otherwise, adequate and competent supervisory and inspection personnel during Modernization, whether the work is performed by contract or Force Account Labor and with or without the services of an architect/engineer, to assure work quality and progress.

(b) *Progress reporting.*—For each quarter until completion of the modernization program, the PHA shall submit, in a form prescribed by HUD, to the appropriate HUD office:

(1) A modernization quarterly progress report, showing the PHA's actual performance in comparison with its planned performance contained in the modernization work program, by Work Item for each project, including the planned and actual expenditures during the preceding quarter and cumulatively, and the work planned but not accomplished.

(2) An explanation, including the reasons for the deficiency and the corrective actions which the PHA has planned or taken, where the modernization quarterly progress report indicates:

(i) An overrun of 10% or more in actual cumulative expenditures in comparison with planned cumulative expenditures; or

(ii) Any work planned but not accomplished during any previous quarter.

(3) A narrative report, describing the PHA's actual performance in comparison with its planned performance contained in the modernization management plan, including the current status of each management Work Item and an explanation if no progress has been made.

(c) *Conversion of previously approved modernization programs to progress reporting.*—By January 1, 1977, any PHA with an incomplete modernization program approved before July 1, 1974, shall submit, in a form prescribed by HUD, to the appropriate HUD office:

(1) A modernization work program for each project in an incompleted modernization program; and

(2) Progress reports, under paragraph (b) of this section, until program completion.

§ 868.11 Revisions of the modernization program budget.

The PHA shall not incur any modernization cost in excess of the total approved modernization budget. The PHA shall submit a revision of the modernization program budget, in a form prescribed by HUD, to the appropriate HUD office for review and approval if the PHA plans (within the total approved modernization budget) to:

(a) Delete or substantially revise approved Work Items;

(b) Add new Work Items; or

(c) Incur modernization costs in excess of:

(1) 10% of the approved budget amount of a Work Item; or

(2) The approved budget amount for any project.

§ 868.12 Revisions of the modernization work program.

The PHA shall submit a revision of the modernization work program, in a form prescribed by HUD, to the appropriate HUD office for review and approval where there is:

(a) A revision of the modernization program budget;

(b) HUD approval of an extension of contract time, extending the date for completing work by more than 30 days; or

(c) A HUD determination that the PHA is not properly administering the modernization program, is not exhibiting sufficient progress toward completion and by reason thereof is so far behind schedule that work cannot be completed within the two-year period.

§ 868.13 Completion of modernization programs.

Upon completion of modernization programs, the PHA shall submit the actual modernization cost certificate, in a form prescribed by HUD, to the appropriate HUD office for review, audit verification, and approval. If the audited modernization cost certificate indicates that excess funds have been provided, the PHA shall dispose of the excess funds as directed by HUD. If the audited modernization cost certificate discloses unauthorized expenditures, the PHA shall take any action that HUD may direct.

Issued at Washington, D.C., July 26, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing, Federal Housing Commissioner.

OFFICE OF MANAGEMENT AND BUDGET

■

BUDGET RESCISSIONS AND DEFERRALS

V 41 149 AUG 2 76 UMI

OFFICE OF MANAGEMENT AND BUDGET

BUDGET RESCISSIONS AND DEFERRALS

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith propose four rescissions totalling $126.4 million in budget authority provided in the Second Supplemental Appropriations Act, 1976. In addition, I am reporting four new deferrals totalling $334 million in budget authority.

Three of the proposed rescissions are for education programs of the Department of Health, Education, and Welfare. The other rescission proposal affects the child nutrition program of the Department of Agriculture. These funds are either not needed to accomplish program objectives or, in the case of $3 million which would fund State school financing programs, would be used inappropriately to fulfill a State responsibility rather than a Federal responsibility.

Approval of these rescission proposals would (1) reduce Federal spending by $126.4 million over the transition quarter, 1977, and 1978, and (2) provide the Congress with an opportunity to demonstrate its willingness to prevent unnecessary Federal spending even if this involves reconsidering earlier funding decisions.

One of the deferrals consists of $4 million in construction funds for the Rogers Memorial Hospital in the District of Columbia. This deferral is reported to give Congress time to consider a request to reprogram the funds. The reprogramming that I will propose would allow all eligible medical facilities construction projects in the country an equal opportunity to compete for the funds. The other three deferrals are reported because there will be delays in the use of available funds.

THE WHITE HOUSE, July 28, 1976.

Gerald R. Ford

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: U.S. Department of Agriculture	New budget authority (P.L. 94-303): $419,500,000
Bureau: Food and Nutrition Service	Other budgetary resources: 20,000,000
Appropriation title & symbol: 12X3539--Child Nutrition Programs	Total budgetary resources: 439,500,000
	Amount proposed for rescission: $9,350,000
OMB identification code: 05-84-3539-0-1-604	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

This proposal would rescind the following amounts provided for the transition quarter in the Second Supplemental Appropriations Act, 1976:

(1) for school food service equipment, $7 million
(2) for State administrative expenses, $2.4 million

The President requested no transition quarter funds for school food service equipment grants but did request a total of $4.1 million that would be used for State administrative expenses.

Nonfood assistance funds

Large amounts of nonfood assistance funds (school food service equipment grants) were furnished to the States in past years in order to increase participation by schools in the National School Lunch program. Nonfood assistance funds have served to draw as many schools into the National School Lunch program as possible. The schools that are not now participating in the National School Lunch program either have other types of food service, do not wish to have food service, or have impediments preventing participation in the national program that go beyond a lack of food service equipment. There is no evidence that this program will continue to increase the number of schools participating in the National School lunch program. The Administration believes that the block grant approach as specified in the proposed Child Nutrition Reform Act would provide States with the flexibility to design programs that would reach the needy children not now participating in the National School Lunch program.

V 41 149 AUG 2 76 UMI

R76-46
2

State administrative expenses

This program subsidizes State administration expenses incurred in carrying out State responsibilities related to the National School Lunch program. The supplemental request of $4.1 million for the transition period compares with $6.4 million provided by the enacted supplemental. The budget estimates include both $1.7 million for the transition quarter provided under the traditional direct appropriation and approximately $2.4 million for the Summer Feeding Program provided under the new section 13(k) of the National School Lunch Act, as amended by P.L. 94-105. Current estimates indicate that the original budget request is sufficient to meet anticipated needs and that consideration of additional increases cannot be justified pending completion of the on-going State Staffing study in the fall of 1976.

Estimated effects

The rescission proposal would result in no funding for nonfood assistance grants in the transition quarter. Since the Administration believes that the basic objective of the program--increasing the number of schools participating in the National School Lunch program--will no longer be accomplished by this program, no programmatic effect is anticipated by the rescission. In addition, authority for an annual level of $3 million will be in effect for future grants under the recently expanded Child Care Food program (Section 17 of the National School Lunch Act). While the rescission would reduce direct appropriation outlays for State administrative expenses by $2.4 million in the transition quarter, the resulting program level (which includes funding under the Summer feeding program) would result in a substantial increase over fiscal 1975 levels. This level is sufficient to provide for the increased workload resulting from recently enacted amendments to the National School Lunch Act and the Child Nutrition Act and should not affect the overall administration of the National School Lunch and Child Nutrition programs.

Rescission Proposal No: R76-47

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budget authority (P.L. 94-303) $ 3,000,000
Bureau Office of Education	Other budgetary resources ---
Appropriation title & symbol Elementary and Secondary Education (State Equalization) 7560279	Total budgetary resources 3,000,000
	Amount proposed for rescission $ 3,000,000
OMB identification code: 09-40-0279-0-1-501	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

The $3,000,000 being proposed for rescission represents funds appropriated in the Second Supplemental Appropriations Act, 1976 (P.L. 94-303). These funds would be used to reimburse States for the development of State school financing programs that conform with equity guidelines established by the Federal Government. The Administration did not request funds for this activity because this is a responsibility that States themselves should support. Financial support for specific State activities such as the development of equitable school financing mechanisms is a State -- not Federal -- responsibility.

Estimated Effects

The closing date for submission of State plans and applications under Section 842 of the Education Amendments of 1974 (P.L. 93-380) is July 1, 1977. Because of the wide variance in stages of development of approvable State school plans, it has not been accurately determined how many States would submit approvable plans. However, it is estimated that most States will go forward with equalization efforts without regard to Federal funding for support. Consequently, little negative impact is anticipated on State efforts toward equalization.

Rescission Proposal No: R76-48

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency Dept. of Health, Education and Welfare	New budget authority P.L. 94-94 $55,000,000; P.L. 94-303 24,000,000
Bureau Office of Education	Other budgetary resources 11,000,000
Appropriation title & symbol School Assistance in Federally Affected Areas (Savings Provisions) 7560280 75X0280	Total budgetary resources 90,000,000
	Amount proposed for rescission $24,000,000
OMB identification code: 09-04-0280-0-1-501	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

The combination of appropriations from the regular 1976 Education Appropriations Act (P.L. 94-94) and the Second Supplemental Appropriations Act, 1976 (P.L. 94-303) is $90 million, which would fully fund the discretionary "hold harmless" provisions. There is a total of four discretionary "hold harmless" provisions (contained in P.L. 87-874) that function to:

(1) insure that each district receives 80% of the previous fiscal year's payment if the impact aid payment is less than 10% of the school district's budget. If this payment is 10% or more of the school district's budget, they are guaranteed 90% of the previous year's payment;
(2) provide that if there was a decline during FY 1974 and FY 1975 of 10% or more in the impact aid eligible students, a district is assured that its payment will be at least 90% of the previous year's payment;
(3) "hold harmless" at 90% of the previous fiscal year's amount a district's payment if 10% of the average daily attendance in the district are "b" category pupils who attend school in the district, but reside outside of the State or county in which the district is located;
(4) provide that no district will receive less money as a result of the introduction of funding for "c" category pupils (those whose parents either live or work on low cost public housing) than they would without funding for these "c" category students.

The proposed rescission of $24,000,000, appropriated in the Second Supplemental Appropriations Act, 1976, would reduce "hold harmless" payments to school districts. To a great extent, the "hold harmless" provisions negate the programmatic reforms of the Education Amendments of 1974 (P.L. 93-380). Variously, they provide aid to school districts for children who are either not eligible (except for the "hold harmless" provisions) or not using the school districts' services.

V 41 149 AUG 2 76 UMI

R76-48

2

Estimated Effects

The proposed rescission would reduce "hold harmless" payments to school districts from approximately 100% of the previous year's entitlement to approximately 75%. Such proration is consistent with the partial funding of other sections in the current appropriation.

Rescission Proposal No: R76-49

PROPOSED RESCISSION OF BUDGET AUTHORITY

Report Pursuant to Section 1012 of P.L. 93-344

Agency: Department of Health, Education, and Welfare	P.L. 94-94 New budget authority: $110,000,000
Bureau: Office of Education	(P.L. P.L. 94-303) Other budgetary resources: 90,000,000
Appropriation title & symbol: Education for the Handicapped (State Grant Program) 7560282 756/70282	Total budgetary resources: 200,000,000
	Amount proposed for rescission: $90,000,000
OMB identification code: 092-40-0282-0-1-501	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act ☐ Other
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☒ Multiple-year 9-30-77 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

The President's 1976 Budget included a request of $50 million for the State Grant Program. An amount of $110 million was appropriated for this program in P.L. 94-94, and an additional $90 million was appropriated in the Second Supplemental Appropriations Act, 1976 (P.L. 94-303), resulting in a total of $200 million for academic year 76/77. P.L. 94-303 limited the duration of availability of the $90 million supplemental to September 30, 1976, whereas the $110 million appropriated in P.L. 94-94 is available through September 30, 1977.

This action would result in a funding level for this program of $110 million, which exceeds the program level of $100 million for academic year 1975/76 by $10 million. These funds are for State grants for diagnostic and prescription services, direct support, and other services.

In the past the late availability of appropriations made it difficult for States to program large additional Federal funds effectively. In addition, States must take a number of preliminary steps to implement the new education for the handicapped law which will limit their ability to immediately effect major expansion of services. Further, the rescission of $90 million would result in a funding level for this program of $110 million, which exceeds the original request by $60 million. While the Administration recognizes the priority of serving handicapped children, it also recognizes that the present Federal deficit mandates fiscal restraint in order to meet as many educational priorities as possible in a fiscally responsible manner. The Administration views the appropriation of $110 million for academic year 1976-77 as adequate to meet the priority placed on Federal special education.

R76-49
2

The rescission is being proposed in order to preclude the excess obligation of funds to States which they might not be able to spend effectively and to maintain a Federal financing level consistent with the Administration's priority for this program within the bounds of fiscal responsibility.

Estimated Effects

The proposed rescission of $90,000,000 for this program would require States to provide additional funds for the special education and related services and comprehensive planning activities mandated by the Education for All Handicapped Children Act of 1975 including systems to locate and identify handicapped children, individualized education plans, and a comprehensive system of inservice training for instructional and support personnel.

The remaining level would be $110 million.

Outlay Effect: (estimated in millions of dollars)

Comparison with President's 1977 Budget	
1. Budget outlay estimate for the transition quarter	26.7
2. Outlay savings, if any, included in the budget outlay estimate	-0-
Current Outlay Estimates for the transition quarter	
3. Without rescission	37.6
4. With rescission	26.8
5. Current outlay savings	10.8
Outlay Savings for 1977	79.2
Outlay Savings for 1978	-0-

NOTE: The estimated effects stated above would be modified in the event of potential congressional action. The full Senate Committee has proposed in H.R. 14232 that the language in the Second Supplemental Appropriations Act (P.L. 94-303) be changed as follows:

> "Sums appropriated for "Education for the handicapped" under P.L. 94-303 are for use in school year 1976-77 and are to become available on July 1, 1976 and remain available through September 30, 1977."

If this proposal is enacted into law, the $90,000,000 supplemental funds for the State Grant program will be advance-funded and bring the total appropriated for the State Grant program, available during fiscal year 1977, to $200,000,000.

If the $90.0 million is changed to advance funding as noted above, the outlay effect of a rescission of that amount would be as follows:

Grant program [ ] Yes [X] No	[ ] Other ____
Type of account or fund: [X] Annual [ ] Multiple-year ____ *(expiration date)* [X] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other ____

Justification Section 501(a) of the Foreign Relations Authorization Act, Fiscal Year, 1976, P.L. 94-141, amended section 2(c) of the Refugee and Migration Assistance Act by authorizing a fund not to exceed $25 million to enable the President to provide emergency assistance for unexpected, urgent refugee and migration needs. The fund was authorized in lieu of the President's previous authority under section 2(c) to transfer up to $10 million of foreign assistance funds in any fiscal year to meet similar needs.

Budget authority has been provided to the fund as follows: (1) the Second Supplemental Appropriation Act, 1976, (P.L. 94-303) provides $10 million in funds available until expended, and (2) the Foreign Assistance and Related Agencies Appropriation Act, 1976, (P.L. 94-330) provides $5 million in funds available until September 30, 1976, for a combined total of $15 million.

All authorities of the amended section 2(c) are vested in the President. In Executive Order No. 11922, the President allocated all funds appropriated under authority of section 2(c) to the Secretary of State, but he retained the authority to determine which refugee and migration needs are to be provided assistance. In keeping with this reservation of authority and to achieve the most economical use of appropriations (31 U.S.C. 665 (C)(1)), the full availability of the fund is deferred. Reapportionments will be made case-by-case during 1976 and the transition quarter as the President determines the refugee assistance needs to be financed by the fund.

Justification

The deferral of $4 million for the expansion and modernization of Rogers Memorial Hospital is proposed pending consideration by Congress of a reprogramming request so that all eligible construction projects in the country will have an equal opportunity to compete for this medical facilities construction financial assistance.

The Second Supplemental Appropriations Act (P.L. 94-303) appropriated these funds under the authority of Section 305(b)(3) of the Public Health Service Act. This is a specialized authority intended to be used in supporting research, evaluation, and demonstration projects in the design, construction, utilization, organization, and cost of facilities and equipment. In addition, the appropriation language for these funds in P.L. 94-303 contains a waiver of the provisions of Section 308 of the Public Health Service Act which sets forth the requirements governing the use of funds appropriated under Section 305. By means of the waiver, this project has been exempted from the peer review process and national competition among similar projects throughout the country.

The intent of Congress as expressed in the report of the full Senate Committee accompanying this appropriation act was to have this project the sole recipient of the funds. The Administration opposes inequitable and preferential treatment of institutions through the legislative award of grants. Moreover, the direct award of $4 million to the Rogers Memorial Hospital is contrary to the National Health Planning and Resources

D76-115

2

Development Act of 1974 (P.L. 93-641). That Act sets as a goal the funding and development of area and State-wide health planning agencies that have the responsibility for determining the resource development for their respective areas/States.

Estimated Effects

The $4 million was appropriated for the explicit purpose of assisting the Rogers Memorial Hospital in expansion and modernization of its physical plant and is intended to provide new operating rooms, an intensive care unit, a coronary care unit, and help bring the existing structure into conformance with the Federal Life Safety Code. The Federal Government has already provided $18,324,684 to this project. This represents 82% of the cost of the facility to date. The $4 million will increase the Federal share of the project to $22 million or 85% of the total project costs.

Allowing the $4 million to be available for national competition will permit States and institutions which have determined their medical facility resource needs to compete for these funds.

Coverage

This action covers the fourth quarter of FY 1976 and the transition quarter as follows:

	Fourth Quarter Fiscal 1976	T.Q.
New budget authority (P.L. 94-303)	313,375,000	600,000
Unobligated balance	—	299,000,000
Total	313,375,000	299,600,000
Amount deferred	299,000,000	167,500,000

Justification

This action defers the obligation of $299,000,000 through June 30, 1976, and the obligation of $167,500,000 through September 30, 1976. The program is authorized by the Energy Policy and Conservation Act (P.L. 94-163). The deferred amount was appropriated in the Second Supplemental Appropriations Act, 1976 (P.L. 94-303), which was signed into law on June 1, 1976.

A portion of the funds, appropriated on a no-year basis, is being deferred until 1977 while environmental impact studies, site appraisals, and site configuration studies are being completed and reviewed and plans are being prepared on a site by site basis for construction, materials acquisition, and other steps needed to implement the program. These tasks will insure the efficient, effective, and timely implementation of the program. The Federal Energy Administration plans to complete these tasks at the earliest possible date.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

CAB—Air carriers and foreign air carriers; construction, publication, filing and posting..... 28946; 7–14–76
DOT/FAA—Airworthiness directive, McDonnell Douglas..... 27029; 7–1–76

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Twelve agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 *Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 11930 • July 30, 1976

Performance by the Federal Energy Office of Energy Functions of the Federal Energy Administration

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, including the Energy Policy and Conservation Act (89 Stat. 871, 42 U.S.C. 6201 *et seq.*), the Emergency Petroleum Allocation Act of 1973, as amended (15 U.S.C. 751 *et seq.*), the Energy Supply and Environmental Coordination Act of 1974 (88 Stat. 246, 15 U.S.C. 791 *et seq.*), the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 *et seq.*), the Energy Reorganization Act of 1974 (88 Stat. 1233, 42 U.S.C. 5801 *et seq.*), Section 202 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 581c), Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), Section 301 of Title 5 of the United States Code, and section 3301 of Title 5 of the United States Code, and consistent with the provisions of 5 CFR 351.301, and as President of the United States of America, it is hereby ordered as follows:

SECTION 1. There is hereby established in the Executive Office of the President a Federal Energy Office, which shall be under the immediate supervision and direction of an Administrator of the Federal Energy Office, hereinafter referred to as the Administrator, who shall be appointed by the President. The Administrator shall be compensated at the rate now or hereafter prescribed by law for level II of the Executive Schedule.

SEC. 2. Within the framework of the Energy Resources Council, the Administrator shall advise the President with respect to the establishment and integration of domestic and foreign policies relating to the production, conservation, use, control, distribution, and allocation of energy and with respect to all other energy matters, and shall perform such other functions as may be delegated to him pursuant to law.

SEC. 3. There shall be in the Federal Energy Office the following officers each of whom shall be appointed by the President and each of whom shall receive compensation at the rate now or hereafter prescribed by law for that level of the Executive Schedule indicated: Two deputy administrators (level III); six assistant administrators (level IV); a general counsel (level IV); and a director of intergovernmental, regional and special relations (level V).

SEC. 4. The Administrator is hereby designated, pursuant to section 14 of the Energy Supply and Environmental Coordination Act of 1974, as the Federal Energy Administrator for purposes of the Energy Supply and Environmental Coordination Act of 1974, and section 119 of the Clean Air Act, as amended (42 U.S.C. 1857).

SEC. 5. The Federal Energy Office established by this order is designated the agency to carry out all functions vested in the Administrator of the Federal Energy Administration under the Energy Policy and Conservation Act.

V 41 150 AUG 3 76 UMI

SEC. 6. There is hereby delegated to the Administrator all the authority that was delegated to the Administrator of the Federal Energy Administration pursuant to Executive Order No. 11790 of June 25, 1974 and Executive Order No. 11912 of April 13, 1976.

SEC. 7. The Administrator is designated a member of the Energy Resources Council established by the Energy Reorganization Act of 1974 and Executive Order No. 11814 of October 11, 1974, as amended, and shall perform the functions assigned by the President and by the Chairman of the Council, who is the Secretary of Commerce, to the Administrator of the Federal Energy Administration.

SEC. 8. The Administrator shall exercise the functions of the Administrator of the Federal Energy Administration under Proclamation No. 3279, as amended.

SEC. 9. (a) All orders, rules, regulations, rulings, interpretations, or other directives issued or pending, all rule making, judicial or administrative proceedings commenced or pending, all voluntary agreements, plans of action, and all other actions commenced or taken by, under the authority of or ratified by the Administrator of the Federal Energy Administration prior to the effective date of this order that would be valid under the authority delegated or transferred by this order, are hereby continued, confirmed, ratified and made effective under this order and shall remain in full force and effect, unless or until altered, amended, or revoked by the Administrator or by such competent authority as he may specify.

(b) All personnel, property, records, contracts, obligations, cooperative agreements, rights, and unexpended balances of appropriations, allocations, and other funds employed, used, held, available, or to be made available, in connection with functions of the Administrator of the Federal Energy Administration are hereby transferred to the Federal Energy Office.

(c) The Administrator is authorized to exercise the authority of the President under the Defense Production Act of 1950, as amended, to establish not more than eight positions and to appoint individuals to such positions compensated at the rate now or hereafter prescribed by law for level V of the Executive Schedule.

(d) All individuals who, immediately prior to the effective date of this order, are serving in or have been nominated to positions under the Federal Energy Administration Act of 1974, which correspond to the positions established in the Federal Energy Office by sections 1 and 3 of this order are, on the effective date of this order, appointed to the positions established in the Federal Energy Office by sections 1 and 3 of this order.

(e) All individuals appointed to and serving in positions in grades GS–16, 17 and 18 pursuant to the Federal Energy Administration Act of 1974, which appointments have been approved as to classification and qualifications by the Civil Service Commission, shall be continued in such grade unless any such position is determined by the Civil Service Commission to involve responsibilities substantially less than those responsibilities involved when originally established pursuant to the Federal Energy Administration Act of 1974. Continuation in such grades shall also be subject to allotment by the Civil Service Commission of available positions in grades GS–16, 17 and 18. The Civil Service Commission shall discharge its responsibilities with respect to the allotment of positions in grades GS–16, 17 and 18 by providing, consistent with law, the efficiency of the Civil Service, and the provisions of this order, for the allotment of sufficient positions in grades GS–16, 17 and 18 to carry out the first sentence of this subsection (e) and to provide for such additional positions as the Administrator and the Civil Service Commission deem necessary.

(f) Nothing in the order shall affect rights to reemployment under the provisions of section 5(a)(1)(B) of the Emergency Petroleum Allocation Act of 1973, as amended, or section 212(g) of the Economic Stabilization Act of 1970, as amended. Any employee transferred pursuant to subsection (b) of this section having a right to reemployment under the provisions of section 28 of the Federal Energy Administration Act of 1974 shall retain that right during the period of his employment with the Federal Energy Office established by this order. Any employee of the Federal government appointed, without a break in service of one or more work days, to any position in the Federal Energy Office established by this order shall have the rights of reemployment provided by subpart B of Part 352 of title 5 of the Code of Federal Regulations.

SEC. 10. The Administrator shall, before promulgating proposed rules, regulations, or policies affecting the quality of the environment, provide a period of not less than five working days from receipt of notice of the proposed action during which the Administrator of the Environmental Protection Agency may provide written comments concerning the impact of such rules, regulations, or policies on the quality of the environment. Such comments shall be published along with public notice of the proposed action. The review required by this section may be waived for a period of 14 days if there is an emergency situation which, in the judgment of the Administrator, requires immediate action.

SEC. 11. The Administrator of General Services shall provide, on a reimbursable basis, such administrative support as may be needed by the Federal Energy Office. All departments and agencies of the Executive branch shall, to the extent permitted by law, provide assistance and information to the Administrator of the Federal Energy Office.

SEC. 12. This order shall become effective on July 31, 1976.

Gerald R. Ford

THE WHITE HOUSE,
July 30, 1976.

EDITORIAL NOTE: For the text of the President's statement, dated July 30, 1976, on signing Executive Order 11930, see the Weekly Compilation of Presidential Documents (vol. 12, no. 32).

V 41 150 AUG 3 76 A UMI

Memorandum of July 19, 1976

Determination Under Section 103(d)(3) of the Agricultural Trade Development and Assistance Act of 1954, as Amended (Public Law 480)—Portugal

[Presidential Determination No. TQ1]

Memorandum for the Secretary of State, the Secretary of Agriculture

THE WHITE HOUSE,
Washington, July 19, 1976.

Pursuant to the authority vested in me under the Agricultural Trade Development and Assistance Act of 1954, as amended (hereinafter "the Act"), I hereby:

Determine that for Portugal the waiver of the exclusion provided for by Section 103(d)(3) of the Act, for the purpose of selling up to $5 million of agricultural commodities under Title I, is in the national interest of the United States.

Gerald R. Ford

STATEMENT OF REASONS THAT A WAIVER UNDER SECTION 103(d)(3) OF THE AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954, AS AMENDED (PUBLIC LAW 480), IS IN THE NATIONAL INTEREST

In response to current Portuguese import needs, it is proposed to export to that country an additional five million dollars of agricultural commodities bringing the total assistance provided in fiscal year 1976 and the transitional quarter under Title I of the Agricultural Trade Development and Assistance Act of 1954, as amended (P.L. 480), to $25 million.

The United States has consistently supported the efforts of the moderate Pinheiro Azevedo government to restore political stability to Portugal. Beset with enormous economic problems, exacerbated by the influx of thousands of refugees, Portugal needs urgent economic assistance. Concessional sales of agricultural commodities to Portugal constitute a tangible demonstration of our willingness to help provide this assistance.

Portuguese nationalized firms exported to Cuba in 1975, and it is likely they will do so again this year. Therefore, in order to enter into an agreement with the Government of Portugal for such a sale under Title I, it is necessary that the President determine that such sales to Portugal would be in the national interest of the United States. Section 103(d)(3) of P.L. 480 excludes from eligibility for concessional sales under Title I any country which sells or furnishes or permits ships or aircraft under its registry to transport to or from Cuba or North Vietnam any equipment, materials, or commodities, so long as those countries are governed by Communist regimes. However, under Section 103(d)(3), as amended by Section 203 of P.L. 94-161, the President is authorized to waive this exclusion if he determines that such a waiver is in the national interest.

The considerations noted above make the proposed sale of agricultural commodities to Portugal and the necessary waiver important to the national interest of the United States.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—CHILD NUTRITION PROGRAMS

PART 220—SCHOOL BREAKFAST AND NONFOOD ASSISTANCE PROGRAMS AND STATE ADMINISTRATIVE EXPENSES

PART 235—STATE ADMINISTRATIVE EXPENSE FUNDS

Redesignation

Regulations governing a program for the payment of State Administrative Expense Funds, formerly contained in Part 220 of this chapter, are hereby redesignated as Part 235.

Sections 220.1–220.3 and §§ 220.24–220.29 are superseded insofar as they refer to State Administrative Expense Funds and §§ 220.19–220.23 are deleted.

Since this part has been removed from Part 220, with the primary changes being of an editorial nature to conform the regulations to the revised child nutrition program regulations necessitated by Pub. L. 94–105 and a minor change in the allocation formula, the Department finds that proposed rulemaking and public participation procedure is impracticable and unnecessary.

Accordingly, the regulations governing State Administrative Expense Funds are amended and reissued, as follows:

Part 235 is added to read as follows:

Sec.

235.1 General purpose and scope.
235.2 Definitions.
235.3 Administration.
235.4 Allocation of funds to States.
235.5 Payments to States.
235.6 Use of funds by State agencies.
235.7 Records and reports.
235.8 Management evaluations and audits.
235.9 Procurement standards.
235.10 Property management requirements.
235.11 Other provisions.

AUTHORITY: Secs. 7 and 10, Pub. L. 89–642, 80 Stat. 888, 889 (42 U.S.C. 1776, 1779).

§ 235.1 General purpose and scope.

This part announces the policies and prescribes the regulations necessary to carry out the provisions of section 7 of the Child Nutrition Act of 1966, as amended. It prescribes the methods for making advances of funds to State agencies for use for administrative expenses incurred in supervising and giving technical assistance in connection with additional activities undertaken by them under the special assistance phase of the National School Lunch Program (7 CFR Part 210), the Child Care Food Program (7 CFR Part 226), the School Breakfast Program (7 CFR Part 220), and the Nonfood Assistance Program (7 CFR Part 230).

§ 235.2 Definitions.

For the purpose of this part, the term:

(a) "Act" means the Child Nutrition Act of 1966, as amended.

(b) "CND" means the Child Nutrition Division of the Food and Nutrition Service of the U.S. Department of Agriculture.

(c) "Department" means the U.S. Department of Agriculture.

(d) "Distributing agency" means a State, Federal, or private agency which enters into an agreement with the Department for the distribution of commodities pursuant to Part 250 of this chapter.

(e) "Expendable personal property" means all tangible personal property other than nonexpendable property.

(f) "FNS" means the Food and Nutrition Service of the U.S. Department of Agriculture.

(g) "FNSRO" means the appropriate Food and Nutrition Service Regional Office of the Food and Nutrition Service of the U.S. Department of Agriculture.

(h) "Fiscal year" means a period of 12 calendar months beginning October 1, 1976, and October 1 of each calendar year thereafter and ending with September 30 of the following calendar year.

(i) "Institution" means a child care center or a sponsoring organization as defined in Part 226 of this chapter.

(j) "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit. The State agency may use its own definition of nonexpendable personal property provided that such definition would at least include all tangible personal property as defined herein.

(k) "OA" means the Office of Audit of the Department.

(l) "OI" means the Office of Investigation of the Department.

(m) "Personal property" means property of any kind except real property. It may be tangible—having physical existence—or intangible having no physical existence—such as patents, inventions, and copyrights.

(n) "Real property" means land, land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

(o) "School" means (1) An educational unit of high school grade or under operating under public or nonprofit private ownership in a single building or complex of buildings. The term "high school grade or under" includes classes of preprimary grade when they are conducted in a school having classes of primary or higher grade, or when they are recognized as a part of the educational system in the State, regardless of whether such preprimary grade classes are conducted in a school having classes of primary or higher grade. (2) With the exception of residential summer camps which participate in the Summer Food Service Program for Children and private foster homes, any distinct part of a public or nonprofit private institution or any public or nonprofit private child care institution which (i) maintains children in residence, (ii) operates principally for the care of children, and (iii) if private, is licensed to provide residential child care services under the appropriate licensing code by the State or a subordinate level of government. The term "child care institution" includes, but is not limited to: homes for the mentally retarded, the emotionally disturbed, the physically handicapped, and unmarried mothers and their infants; group homes; halfway houses; orphanages; temporary shelters for abused children and for runaway children; long-term care hospitals for chronically ill children; and juvenile detention centers. (3) With respect to the Commonwealth of Puerto Rico, nonprofit child care centers certified as such by the Governor of Puerto Rico.

(p) "School Food Authority" means the governing body which is responsible for the administration of one or more schools and which has the legal authority to operate a breakfast or a lunch program therein. The term "School Food Authority" also includes a nonprofit agency or organization to which such governing body has delegated authority to operate the lunch or breakfast program in schools under its jurisdiction, provided the governing body retains the responsibility to comply with breakfast or lunch program regulations.

(q) "Secretary" means the Secretary of Agriculture.

(r) "State" means any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

(s) "State agency" means (1) the State educational agency or (2) such other agency of the State as has been designated by the Governor or other appropriate executive or legislative authority of the State and approved by the Department to administer programs under Part 210, Part 220, Part 226, or Part 230 of this chapter.

(t) "State educational agency" means, as the State legislature may determine, (1) the chief State school officer (such as the State Superintendent of Public Instruction, Commissioner of Education, or similar officer), or (2) a board of education controlling the State department of education.

V 41 I 150 AUG 3 76 UMI

§ 235.3 Administration.

(a) Within the Department, FNS shall act on behalf of the Department in the administration of the program for payment to States of State Administrative Expense Funds covered by this part. Within FNS, CND shall be responsible for administration of the program.

(b) Each State agency desiring to receive payments under this part shall enter into a written agreement with the Department. Each agreement shall cover the operation of the Program during the period specified therein and may be extended at the option of the Department.

§ 235.4 Allocation of funds to States.

(a) For the period beginning July 1, 1976, and ending September 30, 1976, FNS shall determine the amount of State Administrative Expense Funds payable to each State as follows: To the extent that funds are available, FNS shall establish a tentative allocation for each State agency which shall include: (1) A basic amount related to the number of man-years required to establish, maintain and expand the programs for needy children, including the State's outreach effort. This amount shall be determined by FNS on the basis of information available as to the salary level of State food service personnel; and (2) an additional amount determined by dividing 2 per centum of the remaining funds among Guam, Puerto Rico, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands on the basis of the number of children, aged 3 to 17, inclusive, in each State and by dividing the balance of 98 per centum of such remaining funds among other States on the basis of the number of children, aged 3 to 17, inclusive, in each State in families with incomes of less than $6,000 per annum. Information as to the program or programs for which these funds are available for each State shall be supplied by FNS to each State agency. Appropriate reductions from or additions to the tentative allocation so computed shall be made by FNS for any State where FNS determines that the scope and size of the State's child nutrition programs warrant such changes.

(b) Beginning with the fiscal year ending September 30, 1977, FNS shall determine the amount of State Administrative Expense Funds for each State each fiscal year as follows: To the extent that funds are available, FNS shall establish a tentative allocation which shall include: (1) A basic amount related to the number of man-years required to establish, maintain and expand the programs for needy children, including the State's outreach effort. This amount shall be determined by FNS on the basis of information available on an application form prescribed by FNS that conforms with Attachment M (Standard Form for Applying for Federal Assistance) of Federal Management Circular 74–7 (34 CFR Part 256). (2) An amount determined by dividing the remaining available funds among the States on the basis of the estimated total number of meals served free or at reduced price the previous fiscal year under the National School Lunch Program, the School Breakfast Program and the Child Care Food Program. FNS shall inform each State agency as to the child nutrition program or programs for which allocated funds are available. Appropriate reductions from or additions to the tentative allocation so computed shall be made by FNS for any State where FNS determines that the scope and size of the State's child nutrition programs warrant such changes.

§ 235.5 Payments to States.

State Administrative Expense Funds allocated to any State shall be made available by means of Letters of Credit issued by FNS in favor of the State agency. The basic amount of funds based on man-years may be made available to each State agency upon receipt of the application. Additional funds shall not be made available before approval of the State Plan of Child Nutrition Operations provided for under 7 CFR 210.4a or the State Plan of Child Care Food Program Operations provided for under 7 CFR 226.7 (the "State Plan").

§ 235.6 Use of funds by State agencies.

(a) State Administrative Expense Funds paid to any State shall be used by State agencies to employ additional personnel, as approved in the applicable State Plan, to supervise and give technical assistance to School Food Authorities and to institutions in their initiation, expansion, and conduct of any program for which the funds are made available. State agencies may also use these funds, in an amount approved by FNSRO in the application form, for their general administrative expenses in connection with any such program, including travel and related expenses. Additional personnel or part-time personnel hired to give assistance to any such program are expected to meet professional qualifications and to be paid at salary scales of positions of comparable difficulty and responsibility under the State agency. Personnel may be used on a man-year equivalent basis, thus permitting new personnel and existing staff to be cross-utilized for most effective and economical operation under existing and new programs.

(b) State Administrative Expense Funds shall be used consistent with the cost principles and constraints on allowable and unallowable costs and indirect cost rates as prescribed in Federal Management Circular 74–4 (7 CFR Part 255).

(c) State Administrative Expense Funds may also be used by the State agency to pay administrative expenses of a distributing agency (when such agency is an agency other than the State agency) to employ additional personnel relating to supervisory and technical assistance provided by such distributing agency to School Food Authorities and to institutions in the initiation, expansion, and conduct of any program for which State Administrative Expense Funds are made available.

(d) The amount of State Administrative Expense Funds paid to a distributing agency shall be based on the amount of additional funds needed to perform such supervisory and technical assistance deemed necessary by the State agency: *Provided, however,* That the total amount paid to a distributing agency in any fiscal year shall not exceed 10 percent of the total amount of the State Administrative Expense Funds made available to the State agency for that fiscal year, unless specific written approval is obtained from FNSRO. Requests for State Administrative Expense Funds for a distributing agency which exceed the 10 percent limitation shall be submitted to FNSRO, with the State Plan, for approval.

(e) Where State Administrative Expense Funds are used to acquire personal property or services the provisions of § 235.9 and § 235.10 must be observed.

(f) Each State agency shall release to FNS any Federal funds made available to it under this part which are unobligated at the end of each fiscal year. Release of funds by the State agency shall be made as soon as practicable, but in any event not later than 30 days following demand by FNSRO and shall be reflected by related adjustment in the State agency's Letter of Credit.

(g) Each State agency shall adequately safeguard all assets and assure that they are used solely for authorized purposes.

§ 235.7 Records and reports.

(a) Each State agency shall keep records on administrative expenses conforming with the applicable State Plan, and shall make such records available, upon a reasonable request, to FNS, OA, OI, or the U.S. Comptroller General and shall maintain current accounting records of State Administrative Expense Funds which shall adequately identify fund authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income. The records may be kept in their original form or on microfilm, and shall be retained for a period of three years after the date of the submission of the final Financial Status Report, subject to the exceptions noted below:

(1) If audit findings have not been resolved, the records shall be retained beyond the three-year period as long as required for the resolution of the issues raised by the audit.

(2) Records for nonexpendable property acquired with State Administrative Expense Funds shall be retained for three years after its final disposition.

(b) Each State agency shall submit information on State Administrative Expense Funds on forms provided by FNS and shall continue to report information on the use of State Administrative Expense Funds after the end of the fiscal year to which they pertain until all unpaid obligations have been liquidated at which time the next report made should be marked "Final" and submission discontinued for that fiscal year.

§ 235.8 Management evaluations and audits.

(a) Each State agency shall provide for audits of State agency operations under this part to be made with reasonable frequency, but beginning in fiscal year 1978 once every two years. The audits shall determine the fiscal integrity of financial transactions and reports, and the compliance with applicable laws and regulations and with the administrative requirements set forth in Attachment H of Federal Management Circular 74–7 (34 CFR Part 256). Audits may be made by State Auditors General, by State Controllers, or other comparable State audit groups, or by Certified Public Accountants or State licensed public accountants.

(b) Each State agency shall develop a plan for the conduct of such audits which shall be incorporated into the State Plan where applicable. The State Plan shall: (1) State the frequency of audits of the State agency and delineate the positive action to be taken during fiscal years 1976 and 1977 to achieve audit frequency of not less than once every two years as set forth in paragraph (a) of this section; (2) provide a description of the State agency in adequate detail to demonstrate the independence of the audit organization; and (3) provide a systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(c) While OA shall rely to the fullest extent feasible upon State sponsored audits, it shall, whenever considered necessary, (1) perform on-site test audits, and (2) review audit reports and related working papers of audits performed by or for State agencies.

(d) Use of audit guides available from OA is encouraged. When these guides are utilized, OA will coordinate its audits with State sponsored audits to form a network of intergovernmental audit systems.

(e) Each State agency shall provide FNS with full opportunity to conduct management evaluations of all operations of the State agency under this part and shall provide OA with full opportunity to conduct audits of all such operations. Each State agency shall make available its records, including records of the receipt and expenditure of funds, upon a reasonable request by FNS, OA, or the U.S. Comptroller General.

§ 235.9 Procurement standards.

(a) *General purpose and scope.* This section provides standards for use by State agencies in establishing procedures for the procurement of supplies, equipment, and other services with State Administrative Expense Funds. These standard are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal law and Executive Orders. State agencies may use their own procurement regulations which reflect applicable State law, rules, and regulations, provided that procurement adheres to the standards set forth in this section.

(b) The standards contained in this section do not relieve the State agency of the responsibilities arising under its contracts. The State agency is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into with State Administrative Expense Funds. This includes, but is not limted to: disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violations of law, are to be referred to the State or Federal authority that has proper jurisdiction.

(c) Each State agency shall maintain a code or standard of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending State Administrative Expense Funds. The State agency's officers, employees, or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible under State law, rules, or regulations, such standards shall provide for appropriate penalties, sanctions, or other disciplinary actions to be applied for violations of such standards either by the State agency's officers, employees, or agents, or by contractors or their agents.

(d) All procurement transactions of the State agency, regardless of whether negotiated or advertised and without regard to dollar value, shall be conducted in a manner so as to provide maximum open and free competition. The State agency should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(e) The State agency shall establish procurement procedures which comply with the provisions of this section.

(f) Proposed procurement actions shall be reviewed by appropriate officials of the State agency to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(g) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal description may be used as a means to define the performance or other salient requirements of a procurement and, when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(h) Positive efforts shall be made by the State agency to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed with State Administrative Expense Funds.

(i) The type of procuring instruments used (e.g., fixed-price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.) shall be appropriate for the particular procurement and for promoting the best interest of the Federal program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(j) Formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (j) 4 of this section is necessary to accomplish sound procurement. However, procurements of $10,000 or less need not be so advertised unless otherwise required by State law or regulations. When formal advertising is employed:

(1) The awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the State agency, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid.

(2) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State agency.

(3) Any or all bids may be rejected when it is in the State agency's interest to do so, and such rejections are in accordance with applicable State law, rules, and regulations.

(4) Procurements may be negotiated by the State agency if it is not practicable or feasible to use formal advertising. Notwithstanding the existence of circumstances justifying negotiations, competition shall be obtained to the maximum extent practicable. Generally, procurements may be negotiated if one or more of the following conditions prevail:

(i) The public exigency will not permit the delay incident to advertising;

(ii) The material or service to be procured is available from only one person or firm; all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to FNS for prior approval;

(iii) The aggregate amount involved does not exceed $10,000;

(iv) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution;

(v) No acceptable bids have been received after formal advertising;

(vi) The purchases are for highly perishable materials or medical supplies, for materials or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture; or

(vii) Negotiation is otherwise authorized by law, rules, or regulations.

(k) Contracts shall be made by State agencies only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and techni-

V 41 150 AUG 3 76 UMI

cal resources, and accessibility to other necessary resources.

(l) The procurement records or files of State agencies for negotiated purchases in amounts in excess of $10,000 shall provide at least the following pertinent information: (1) Justification for the use of negotiation in lieu of advertising, (2) contractor selection, (3) the basis for the cost or price negotiated.

(m) A system for contract administration shall be maintained by the State agency to assure contractor compliance with terms, conditions, and specifications of the contract or order, and to assure adequately and timely follow-up of all purchases.

(n) The State agency shall include provisions to define a sound and complete agreement in all contracts which it awards when the contract costs are to be borne by State Administrative Expense Funds.

(o) In awarding contracts the State agency must comply with the following requirements:

(1) The State agency's contracts shall contain contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contracts awarded by State agencies in excess of $10,000 shall contain suitable provisions for termination by the State agency, including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall set forth the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) Where applicable, all contracts awarded by State agencies in excess of $2,500 which involve the employment of mechanics or laborers shall include a provision for compliance with section 103 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR Part 5). Under section 103 of the act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard work day or work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 8 hours in any calendar day or 40 hours in the work week. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market or contracts for transportation.

(4) Contracts awarded by State agencies, the principal purpose of which is to create, develop, or improve products, processes or methods; or for exploration into fields which directly concern public health, safety, or welfare; or contracts in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Department. The contractor shall be advised as to the source of additional information regarding these matters.

(5) All negotiated contracts (except those of $10,000 or less) awarded by State agencies shall include a provision to the effect that the State agency, the Department, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the contractor which are directly pertinent to State Administrative Expense Funds, for the purpose of making audit, examination, excerpts, and transcriptions.

(6) Contracts in excess of $100,000 shall contain a provision which requires compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970, as amended (42 U.S.C. 1857b et seq.). Suspected violations shall be reported by the State agency in writing to the Regional Office of the United States Environmental Protection Agency, with a copy to the Department.

(p) State agencies shall observe their regular requirements and prices with respect to bonding and insurance.

§ 235.10 Property management requirements.

(a) *General purpose and scope.* This section prescribes policies and procedures governing title, use, and disposition of personal property obtained by the State agency, whose cost was borne in whole or in part with State Administrative Expense Funds. State agencies may follow their own property management policies and procedures provided they observe the requirements of this section.

(b) *Nonexpendable personal property.* The following requirements shall be observed in the acquisition, use and disposition of nonexpendable personal property:

(1) *Title.* When nonexpendable personal property is acquired by a State agency, in whole or in part with Federal funds, title shall be vested in the State agency.

(2) *Use.* The State agency shall retain such property as long as there is a need for such property to accomplish the purpose for which it was acquired whether or not the State agency continues to receive Federal funds for programs administered by the Department.

(3) *Disposition.* When there is no longer a need for such property to accomplish the purpose for which it was acquired, the State agency shall use the property in connection with other Federal programs it administers. Priority shall be given to Federal programs administered by the Department over the programs administered by other Federal agencies. When the State agency no longer has need for such property in any of its federally assisted programs, the property may be used for the State agency's own official activities. In such situations, the State agency may use the property without reimbursement to the Department or sell the property and retain the proceeds if the property had an acquisition cost of less than $500 per unit and has been used 4 years or more. In the case of other property, the State agency may retain the property for its own use, provided that a fair compensation is made to the Department for the Federal share of the property. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the property to the current fairmarket value of the property. If the State agency has no need for the property, disposition shall be made as follows:

(i) Except for property having an acquisition cost of less than $500 per unit which has been used for 4 years or more, the State agency shall sell property having an acquisition cost of $1,000 or less per unit and reimburse the Department in accordance with paragraph (a)(3)(ii) of this section.

(ii) If the property had an acquisition cost of over $1,000 per unit, the State agency shall request disposition instructions from the Department. If the Department has no need for the property, the availability of the property shall be reported to the General Services Administration (GSA) by the Department to determine whether a requirement for the property exists in other Federal programs. The Department shall issue instructions to the State agency within 120 days following the receipt of the request. If the State agency is instructed to ship the property elsewhere, the State agency shall be reimbursed by the Department with an amount which is computed by applying the percentage of the State agency's participation in the cost of the property to the current fair market value of the property, plus any shipping or interim storage costs incurred. If the State agency is instructed to otherwise dispose of the property, the State agency shall be reimbursed by the Department for the costs incurred in the disposition. If disposition instructions are not issued within 120 days after reporting, the State agency shall sell the property and reimburse the Department an amount which is computed by applying the percentage of Federal participation in the cost of the property to the sales proceeds. Further, the State agency may be permitted to retain $100 or 10 percent of the proceeds, whichever is greater, for the State agency's selling and handling expenses.

(iii) *Special property.* When the Department determines that nonexpendable personal property with an acquisition cost of $1,000 or more and financed solely with Federal funds is unique, or difficult or costly to replace, the Department may reserve the right to require the State agency to transfer title to the property to the Department, or to another party subject to the following provisions:

(A) The right to require the transfer of title may be reserved only by means of an express special condition in the grant or contract, or, if approval for the acquisition of the property is given after the grant is awarded, by means of a written stipulation at the time the approval is given.

(B) The property shall be appropriately identified in the award document or otherwise made known to the State agency.

(C) The Department shall not exercise this right until the State agency no longer needs the property for the purpose for which it was acquired. That need shall be deemed to end on the date of completion or termination of the grant or contract unless the State agency continues to conduct a program or programs administered by the Department after that date and demonstrates to the Department a continued need for the property in the program or programs.

(D) The Department shall issue disposition instructions within 120 days after the completion of the need for the property under the program for which it was acquired. If instructions are not issued within such 120-day period, the Department's right shall lapse, and the State agency shall apply the applicable standards contained in paragraphs (b)(2) and (b)(3) of this section.

(E) The State agency shall be entitled to reimbursement for any shipping and interim storage costs it incurs pursuant to the Department's disposition instructions.

(4) *Property management standards.* The State agency property management standards for nonexpendable personal property shall also include the following procedural requirements:

(i) Property records shall be maintained accurately and provide for: (A) A description of the property; (B) manufacturer's serial number or other identification number; (C) acquisition date and cost; (D) source of the property; (F) location, use, and condition of the property; and (G) ultimate disposition data including sales price or the method used to determine current fair market value if the State agency reimburses the Department for its share.

(ii) A physical inventory of property shall be taken and the results reconciled with the property records at least once every 2 years to verify the existence, current utilization, and continued need for the property.

(iii) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or the theft of the property. Any loss, damage, or the theft of nonexpendable property shall be investigated and fully documented. The State agency shall be responsible for replacing or repairing (with funds of the State agency) property which is lost, damaged, or destroyed due to the negligence of the State agency.

(iv) Adequate maintenance procedures, recommended by the manufacturer, shall be implemented to keep the property in good condition.

(v) Proper sales procedures shall be established for unneeded property which would provide for competition to the extent practicable and result in the highest possible return.

(c) *Expendable personal property.* The State agency may at its option either retain or sell items of expendable personal property when no longer needed for any federally sponsored activity (including activities sponsored by other Federal agencies). Compensation to the Department is required if the aggregate fair market value of all of those items acquired under the grant or contract exceeds $500 when no longer needed for any federally sponsored activity. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original property to the current fair market value of items retained and to the sales proceeds of items sold.

(d) *Intangible personal property.* (1) *Patents and inventions.* If any program activity produces patents, patent rights, processes or inventions in the course of work aided by the Department, such fact shall be promptly and fully reported to the Department. Unless there is prior agreement between the State agency and the Department on disposition of such items, the Department shall determine whether protection of such invention or discovery will be sought and how the rights in the invention or discovery—including rights under any patent issued thereon—shall be disposed of and administered in order to protect the public interest consistent with "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies. August 23, 1971), and "Statement of Government Patent Policy" (36 FR 16889).

(2) *Copyrights.* When a program activity results in a book or other copyrightable material, the author or State agency is free to copyright the work, but the Department reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use the work for government purposes.

(e) *Publications.* Any publication or presentation resulting from or primarily related to Federal financial assistance shall contain the following acknowledgement:

The activity which is the subject of the report was supported in whole or in part by the U.S. Department of Agriculture, Food and Nutrition Service. However, the opinions expressed herein do not necessarily reflect the position or policy of the U.S. Department of Agriculture, and no official endorsement by the U.S. Department of Agriculture should be inferred.

§ 235.11 Other provisions.

(a) *State funds.* Expenditures of funds from State sources for the administration of food programs for children shall not be diminished as a result of funds received under this part.

(b) *Termination for cause.* FNS may terminate a State agency's participation in the program for payment of State Administrative Expense Funds in whole, or in part, whenever it is determined that the State agency has failed to comply with the conditions under this part. FNS shall promptly notify the State agency in writing of the termination, together with the effective date. When the program for payment of State Administrative Expense Funds has been terminated for cause, any further payments made to the State agency or any recoveries by FNS from the State agency shall be in accordance with the legal rights and liabilities of the parties.

(c) *Termination for convenience.* FNS and the State agency may terminate the State agency's participation under this part in whole, or in part, when both parties agree that continuation would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. The State agency shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. FNS shall allow full credit to the State agency for the Federal share of the noncancellable obligations, properly incurred by the State agency prior to termination.

(d) *State requirements.* Nothing contained in this part shall prevent a State agency from imposing additional operating requirements which are not inconsistent with the provisions of this part.

NOTE.—The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Effective date: This part becomes effective August 1, 1976.

Dated: July 29, 1976.

JOHN DAMGARD,
Deputy Assistant Secretary.

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Subpart—Mediterranean Fruit Fly

REVOCATION OF NOTICE OF EXISTENCE OF EMERGENCY AND REGULATIONS RELATED THERETO

• Purpose: To revoke the Mediterranean fruit fly emergency regulations in Los Angeles County, California. •

The notice of existence of emergency and regulations related thereto with respect to the Mediterranean fruit fly, in 7 CFR 331.1 (40 FR 49784), are hereby revoked. However, such provisions shall be deemed to continue in full force and effect for the purpose of sustaining any action or other proceeding with respect to any right that accrued, liability that was incurred, or violation that occurred prior to said date.

Statement of Considerations.—An intensive eradication program was begun

V 41 150 AUG 3 76 UMI

following the discovery in September 1975 of an infestation of the Mediterranean fruit fly in Los Angeles, California. Delimiting surveys utilizing traps indicated that the Mediterranean fruit fly infestation was limited to an area of approximately 100 square miles of Los Angeles County. Foliar spraying of citrus and related host trees and soil treatments were begun in October 1975. Because of the urban environment, however, the normal chemical treatments in the amounts needed to achieve eradication could not be utilized and, therefore, a sterile fly release program was instituted for the purpose of eradicating the Mediterranean fruit fly. Ground releases of sterile flies began in late October 1975, and aerial releases began in December. Ground and aerial releases ended the last of May 1976. The trapping program has continued since the pest was discovered. The last adult nonsterile fly was trapped on November 14, 1975. The Deputy Administrator has determined that eradication of the Mediterranean fruit fly has been achieved because enough time has elapsed for development of three complete life cycles without the detection of nonsterile flies, and a followup intensive surveillance has confirmed such finding.

§ 331.1 [Reserved]

Accordingly, the Mediterranean fruit fly notice of existence of emergency and regulations related thereto in § 331.1 (7 CFR 331.1) are hereby revoked. Also, § 331.1 is reserved.

This revocation relieves restrictions heretofore imposed, and should be made effective promptly in order to be of maximum benefit to the persons subject to the restrictions that are being relieved. Also, it does not appear that public participation in rulemaking procedures concerning this action would make additional relevant information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public participation with respect to this action is impracticable, unnecessary, and contrary to the public interest and good cause is found for making the revocation effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 105, 106, 107; 71 Stat. 32, 33, 34 (7 U.S.C. 150dd–150ff); 37 FR 28464, 28477, 38 FR 19141.)

The foregoing revocation of notice of existence of emergency and regulations related thereto shall become effective August 2, 1976.

Done at Washington, D.C. this 27th day of July 1976.

T. G. DARLING,
Acting Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service.

NOTE: This document is reprinted without change from the issue of Monday, August 2, 1976.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 916—NECTARINES GROWN IN CALIFORNIA

Expenses and Rate of Assessment for the 1976–77 Fiscal Period

This document authorizes $765,380 of Nectarine Administrative Committee expenses, under Marketing Order No. 916, for the 1976–77 fiscal period and fixes a rate of assessment of $0.065 per No. 22D standard lug box of nectarines handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On July 7, 1976, notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 27844) regarding proposed expenses and the proposed rate of assessment for the period March 1, 1976, through February 28, 1977, pursuant to the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916) regulating the handling of nectarines grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice provided that all written data, views, or arguments in connection with said proposals be submitted not later than July 23, 1976. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Nectarine Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 916.215 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Nectarine Administrative Committee during the period March 1, 1976, through February 28, 1977, will amount to $765,380.

(b) *Rate of Assessment.* The rate of assessment for said period, payable by each handler in accordance with § 916.41, is fixed at $0.065 per No. 22D standard lug box of nectarines, or equivalent quantity of nectarines in other containers or in bulk.

(c) *Terms.* Terms used in the marketing agreement, as amended, and order, as amended, shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order, and "No. 22D standard lug box" shall have the same meaning as set forth in section 1380.19 of the California Code of Food and Agriculture.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of nectarines grown in California are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable nectarines handled during the aforesaid period; and (3) such period began on March 1, 1976, and said rate of assessment will automatically apply to all such nectarines beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–22402 Filed 8–2–76;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Peach Commodity Committee Expenses, Rate of Assessment, and Carryover of Unexpended Funds

This document authorizes $686,409 of Peach Commodity Committee expenses, under Marketing Order No. 917, for the 1976–77 fiscal period and fixes a rate of assessment of $0.065 per No. 22D standard lug box of peaches handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses. It also authorizes the carryover, as a committee reserve, of unexpended assessment income from fiscal 1975–76.

On July 13, 1976, notice of rulemaking was published in the FEDERAL REGISTER (41 FR 28794) regarding proposed expenses and the related rate of assessment for the fiscal year beginning March 1, 1976, and ending February 28, 1977, and the carryover of unexpended 1975–76 assessment income pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917; 41 FR 17528), regulating the handling of fresh pears, plums, and peaches grown in California. The notice invited interested persons to submit written data, views, or arguments through July 26, 1976. No such material was submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Peach Commodity Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 917.216 Peach Commodity Committee expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1976, through February 28, 1977, will amount to $686,409.

(b) *Rate of Assessment.* The rate of assessment for such fiscal period payable by each handler in accordance with § 917.37 is fixed at six and five-tenths cents ($0.065) per No. 22D standard lug box of peaches, or its equivalent in other containers or in bulk.

(c) *Reserve.* Unexpected assessment funds in excess of expenses incurred during the fiscal period ended February 29, 1976, be carried over as a reserve in accordance with the applicable provisions of § 917.38.

(d) *Terms.* Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order, and "No. 22D standard lug box" shall have the same meaning as set forth in Section 1380.19 of the California Code of Food and Agriculture.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of peaches are currently underway; (2) the relevant provisions of said amended marketing agreement and this part require that the rate of assessment fixed for a particular season be applicable to all fresh peaches handled from the beginning of such fiscal period; and (3) the fiscal period began March 1, 1976, and the rate of assessment herein fixed will automatically apply to all such peaches beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–22401 Filed 8–2–76;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Pear Commodity Committee Expenses and Rate of Assessment for the 1976–77 Fiscal Period

This document authorizes expenses of $541,625 of the Pear Commodity Committee, under Marketing Order No. 917, for the 1976–77 fiscal period and fixes a rate of assessment of $0.125 per box of pears. This assessment is to be paid to the committee by each handler as his pro rata share of expenses. It also authorizes the carryover, as a committee reserve, of unexpended assessment income from fiscal 1975–76.

A notice of rulemaking on this matter was published in the FEDERAL REGISTER (41 FR 26703) on June 29, 1976, regarding proposed expenses and the rate of assessment for the fiscal period beginning March 1, 1976, and ending February 28, 1977. The notice afforded interested persons opportunity to submit written data, views, or arguments on the proposal. None were received. This action is taken under the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917; 41 FR 17528), regulating the handling of fresh pears, plums, and peaches grown in California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Pear Commodity Committee (established under the marketing agreement and Order No. 917), and other available information, it is found and determined that the expenses and rate of assessment for that committee for the 1976–77 fiscal period and authorization to carryover unexpended assessment income from fiscal 1975–76 as a reserve shall be contained in a new § 917.214, hereinafter set forth.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of pears are currently underway; (2) the relevant provisions of the amended marketing agreement and this part require that the rate of assessment fixed for a particular season be applicable to all fresh pears from the beginning of such fiscal period; and (3) the fiscal period began March 1, 1976, and the rate of assessment herein fixed will automatically apply to all such pears beginning with that date.

§ 917.214 Pear Commodity Committee expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1976, through February 28, 1977, will amount to $541,625.

(b) *Rate of Assessment.* The rate of assessment for such fiscal period payable by each handler in accordance with § 917.37 is fixed at twelve and one-half cents ($0.125) per No. 29B special lug box of pears, or its equivalent in other containers or in bulk.

(c) *Reserve.* Unexpended assessment funds in excess of expenses incurred during the fiscal period ended February 29, 1976, shall be carried over as a reserve in accordance with the applicable provisions of § 917.38.

(d) *Terms.* Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–22400 Filed 8–2–76;8:45 am]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Plum Commodity Committee Expenses and Rate of Assessment for the 1976–77 Fiscal Period

This document authorizes expenses of $813,650 of the Plum Commodity Committee, under Marketing Order No. 917, for the 1976–77 fiscal period and fixes a rate of assessment of $0.08 per lug box of plums. This assessment is to be paid to the committee by each handler as his pro rata share of expenses. It also authorizes the carryover by the committee, as a reserve, of unexpended assessment income from fiscal 1975–76.

A notice of rulemaking on this matter was published in the FEDERAL REGISTER (41 FR 25017) on June 22, 1976, in which expenses of $848,650 and an assessment rate of $0.075 per lug box of plums was proposed. On July 6, 1976, a notice of rulemaking was published in the FEDERAL REGISTER (41 FR 27735), to amend the original proposal so as to recommend expenses of $813,650 and a rate of assessment of eight cents ($0.08) per lug of plums. The notices afforded interested persons opportunity to submit written data, views, or arguments on the proposals. None were received.

This action is taken under the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917; 41 FR 17528), regulating the handling of fresh pears, plums, and peaches grown in California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matter presented, including that in the notices, the information and recommendations submitted by the Plum Commodity Committee (established under the marketing agreement and Order No. 917), and other available information, it is found and determined that the expenses and rate of assessment for that committee for the 1976–77 fiscal period and authorization to carry over the unexpended assessment income from fiscal 1975–76 as a reserve shall be contained in a new § 917.215, hereinafter set forth.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) Shipments of the current crop of plums are now underway; (2) the relevant provisions of the amended marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period be applicable to all fresh plums from the beginning of such fiscal period, and (3) the fiscal period began March 1, 1976, and the rate of assessment herein fixed will automatically apply to all such plums beginning with that date.

§ 917.215 Plum Commodity Committee expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1976, through February 28, 1977, will amount to $813,650.

(b) *Rate of Assessment.* The rate of assessment for such fiscal period payable by each handler in accordance with § 917.37 is fixed at eight cents ($0.08) per No. 22D standard lug box of plums, or its equivalent in other containers or in bulk.

(c) *Reserve.* Unexpended assessment funds in excess of expenses incurred

V 41 I 150 AUG 3 76 UMI

during the fiscal period ended February 29, 1976, shall be carried over as a reserve in accordance with § 917.38.

(d) *Terms.* Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 29, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-22399 Filed 8-2-76;8:45 am]

[Docket No. AO–198–A8]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Order Amending Order

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each previously issued amendment thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed amendment of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California.

Upon the basis of the record it is found that:

(1) The order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The order, as amended, and as hereby further amended, regulates the handling of raisins produced from grapes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of commercial and industrial activity specified in, the marketing agreement and order [1] upon which hearings have been held;

(3) The order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

[1] Text of the marketing agreement filed as part of the original document.

(4) There are no differences in the production and marketing of raisins produced from grapes grown in the production area which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of raisins produced from grapes grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than August 4, 1976. Any delay beyond that date would tend to disrupt the orderly marketing of raisins produced from grapes grown in California. The amendatory order moves the beginning date of the crop year from September 1 to August 1. Thus, the 1976–77 crop year begins August 1, 1976. The provisions of this amendatory order should become effective as soon as practicable following their publication in the FEDERAL REGISTER (which will occur after August 1, 1976) so that they are applicable before raisins are handled in volume during the 1976–77 crop year. Some provisions of the amendatory order may require rulemaking and, therefore, should be made effective in time to enable the Raisin Administrative Committee to make such considerations before active raisin harvesting starts.

In view of the foregoing, it is hereby found and determined that good cause exists for making this order effective August 4, 1976, and that it would be contrary to the public interest to delay the effective date of this order for 30 days after its publication in the FEDERAL REGISTER (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559).

(c) *Determinations.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Raisins Produced from Grapes Grown in California" upon which the aforesaid public hearing was held has been signed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping raisins covered by the said order, as amended, and as hereby further amended who, during the period August 1, 1975 through April 30, 1976, handled not less than 50 percent of the volume of such raisins covered by the said order, as amended, and as hereby further amended, and

(2) The issuance of this amendatory order, amending the aforesaid order, as amended, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who during the period August 1, 1975 through April 30, 1976 (which has been deemed to be a representative period), have been engaged within the State of California, in the production of grapes which were sundried or dehydrated by artificial means until they became raisins for market, such producers having also produced for market at least two-thirds of the volume of such commodity represented in the referendum.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of raisins, shall be in conformity to and in compliance with the terms and conditions of the said order, as amended, and as hereby further amended, as follows:

1. Section 989.18 is revised to read:

§ 989.18 Committee.

"Committee" means the Raisin Administrative Committee established under § 989.26.

2. Section 989.19 is revised to read:

§ 989.19 Executive Operations Committee.

"Executive Operations Committee" means the Executive Operations Committee established under § 989.43.

3. Section 989.21 is revised to read:

§ 989.21 Crop year.

"Crop year" means the 12-month period beginning with August 1 of any year and ending with July 31 of the following year.

4. Section 989.22 is amended to read:

§ 989.22 District.

"District" means any one of the geographical areas referred to in §§ 989.26 or 989.43, and specified in § 989.96.

5. The center heading, "Raisin Advisory Board" appearing between §§ 989.25 and 989.26 is changed to read, "Raisin Administrative Committee".

6. Section 989.26 is amended to read:

§ 989.26 Establishment and membership.

A Raisin Administrative Commitee is hereby established consisting of 47 members, of whom 35 shall represent producers, nine shall represent handlers, one shall represent dehydrators, one shall represent the cooperative bargaining association(s), and one shall be a public member. The producer members shall be selected in the number and for the districts as designated in § 989.96, or as such number or districts may be authorized pursuant to § 989.26a. The handler members shall include the following:

(a) One member selected from and representing handlers doing business as cooperative marketing associations or cooperative marketing organizations engaged in the business of packing raisins, each of which acquired not less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year;

(b) Two members selected from and representing the three handlers, other than cooperatives, who acquired the largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year;

(c) Two members selected from and representing the three handlers, other than cooperatives, who acquired the next largest percentages of the total raisin

acquisitions during the 12-month period preceding the then current crop year;

(d) Two members selected from and representing the four handlers, other than cooperatives, who acquired the next largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; and

(e) Two members selected from and representing all other handlers, including cooperatives, each of which acquired less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year, and including all processors.

The dehydrator member shall be selected from dehydrators as provided in § 989.29(b)(4). The bargaining association member shall be selected from the cooperative bargaining association(s). The public member shall be nominated by the committee and selected by the Secretary as a public member. For each member of the committee there shall be an alternate member who shall have the same qualifications as the member for whom he is an alternate.

7. Section 989.26a is amended to read:

§ 989.26a Changes in producer representation.

The Secretary, on recommendation of the committee, may change the total number of producer members on the committee, may change the number of districts designated in § 989.96, may redefine such districts into which the production area is divided, or may change the number of producer members which shall be selected to represent particular districts. In making any such change consideration shall be given to such factors as geographical shifts in the numbers of producers and in raisin production within the area.

8. Section 989.26b is amended to read:

§ 989.26b Changes in handler representation.

The Secretary, on recommendation of the committee, may change the total number of handler members on the committee, the handler size groups set forth in § 989.26 from which handler members shall be selected, the number of handlers comprising any such size group, or the number of handler members to represent any such size group. In making any such change, consideration shall be given to such factors as changes in the numbers of handlers, relative raisin acquisition positions of handlers, and their similarity of interests in the handling of raisins.

9. Section 989.26c is amended to read:

§ 989.26c Changes in dehydrator representation.

The Secretary, on recommendation of the committee, may change the number of dehydrator members on the committee or may discontinue dehydrator representation on the committee. In making any such change or discontinuing dehydrator representation, consideration shall be given to such factors as total number of dehydrators currently operating, the number of dehydrators operated by raisin packers, and the extent to which the interest of dehydrators is adequately served by other members on the committee.

10. Section 989.27 is amended to read:

§ 989.27 Eligibility.

No person shall be selected or continue to serve as a member or alternate member of the committee who is not actively engaged in the business of the group which he represents, either in his own behalf, or as an officer, agent, or employee of a business unit engaged in such business: Provided, That, any handler eligible to represent a particular size group shall continue to represent for the entire term the size group for which he was selected. The committee shall certify during April of each crop year each member's and alternate member's eligibility to continue to serve on the committee.

11. Section 989.28 is amended to read:

§ 989.28 Term of office.

(a) *Producer members.* The term of one-third or approximately one-third of the producer members and producer alternate members of the committee shall end on April 30 each year, but each such member and alternate member shall continue to serve until his respective successor is selected and has qualified. The producer members and producer alternate members of the committee shall serve for terms of 3 years beginning May 1 and ending April 30 of the third following year.

(b) *Handler, dehydrator, cooperative bargaining association and public members.* The handler, dehydrator, cooperative bargaining association and public members, and their respective alternates, shall each serve for terms of 1 year, beginning May 1 and ending April 30 of the following year, but each shall continue to serve until his respective successor is selected and has qualified.

12. Section 989.29 is amended to read:

§ 989.29 Initial members and nomination of successor members.

(a) *Initial members.* Members and alternate members of the Raisin Advisory Board serving immediately prior to the effective date of this amended subpart shall, if thereafter they are also eligible, serve on the committee for their specified terms of office and until their respective successors have been selected and have qualified.

(b) *Nomination for successor members.* Nominations for successor members and alternate members of the committee shall be made as set forth in subparagraphs (1) to (6) of this paragraph.

(1) The committee shall give reasonable publicity of a meeting or meetings of producers, handlers and dehydrators, and if applicable, cooperative bargaining association(s), for the purpose of making nominations for member and alternate member positions to be filled on the committee: *Provided,* That with respect to producer members and producer alternate members, a meeting or meetings shall be held in each district for which nominations are to be made to fill producer member and producer alternate member positions on the committee: *And provided further,* That member and alternate member nominations of handlers, dehydrators, and cooperative bargaining association(s) may be made to the committee by mail in lieu of meetings.

(2) Only producers as defined in § 989.11, engaged as such with respect to the most recent grape crop in the particular districts for which nominations are to be made, may nominate, or vote for, any producer member or producer alternate member for such district. Any producer so engaged with respect to the most recent grape crop in the particular district for which nominations are to be made, may be nominated to represent said district as a producer member or producer alternate member of the committee; in the event any of such nominees are engaged as producers in more than one district, he may be a nominee for only one district. One or more eligible producers for each producer member position to be filled on the committee may be proposed for nomination and one or more eligible producers for each alternate member position to be filled may be proposed for nomination. Each producer shall cast only one vote with respect to each position for which nomination is to be made. The person receiving a majority of the votes with respect to each producer member or producer alternate member position shall be the person to be certified to the Secretary as the nominee for each such position. In the event no person receives a majority, there shall be a runoff vote between the two persons receiving the largest number of votes. The eligibility of each producer voting in a nomination meeting shall be certified by the committee, during or after the meeting, and, in the event one or more who voted was not eligible and this may have affected the result of any nomination vote, another meeting with respect to such nomination shall be held.

(3) Only handlers who packed or processed raisins during the then current crop year may nominate, or vote for, handler members or handler alternate members. One or more eligible handlers for each handler member position to be filled may be proposed for nomination and one or more eligible handlers for each alternate member position to be filled on the committee may be proposed for nomination. Nominations by each of the handler groups specified in § 989.26 or pursuant to § 989.26b, shall be made by and from handlers, or employees, representatives, or agents of handlers falling within such groups. Each handler shall cast only one vote with respect to each position for which nomination is to be made: *Provided,* That only handlers coming within the particular group, as specified in § 989.26 or pursuant to § 989.26b, as applicable, for which nomination is to be made, shall vote. The per-

V 41 I 150 AUG 3 76 UMI

son receiving the most votes with respect to each handler member or handler alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(4) Only dehydrators who produced raisins by dehydrating grapes during the then current crop year may nominate, or vote for, dehydrator members or dehydrator alternate members. One or more eligible dehydrators for each dehydrator member position to be filled on the committee may be proposed for nomination, and one or more eligible dehydrators for each alternate member position may be proposed for nomination. Each dehydrator shall cast only one vote with respect to each position for which nomination is to be made. The person receiving the most votes with respect to each dehydrator member or dehydrator alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(5) Each vote cast shall be on behalf of the person voting, his agents, subsidiaries, affiliates, and representatives. Voting at each meeting shall be in person. The result of each ballot at each such meeting shall be announced at that meeting. Voting at each meeting of producers shall be by secret ballot, and at each meeting of handlers, and dehydrators, voting may be by secret ballot.

(6) Each such nomination shall be certified by the committee to the Secretary on or before April 5 immediately preceding the commencement of the term of office of the member or alternate member position for which the nomination is certified.

13. Section 989.30 is amended to read:

§ 989.30 Selection.

The Secretary shall select producer, handler, dehydrator, cooperative bargaining association and public members and alternate members in the numbers specified in § 989.26 or pursuant to §§ 989.26a, 989.26b, or 989.26c, as applicable, and with the qualifications specified in § 989.27. Such selections may be made from nominations certified pursuant to § 989.29 or from other eligible producers, handlers, dehydrators, or cooperative bargaining association officers or employees.

14. Section 989.31 is amended to read:

§ 989.31 Failure to nominate.

In the event nomination for a member or alternate member position on the committee is not certified pursuant to and within the time specified in § 989.29, the Secretary may select an eligible person to fill such position without regard to nomination.

15. Section 989.32 is amended to read:

§ 989.32 Acceptance.

Each person selected by the Secretary as a member or as an alternate member of the committee shall, prior to serving on the committee qualify by filing with the Secretary a written acceptance within 10 calendar days after being notified of his selection.

16. Section 989.33 is amended to read:

§ 989.33 Alternate members.

The alternate for a member of the committee shall act in the place and stead of such member (a) during his absence, and (b) in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

17. Section 989.34 is amended to read:

§ 989.34 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's unexpired term shall be nominated and selected in the manner set forth in §§ 989.29 and 989.30, insofar as such provisions are applicable. If nomination to fill any vacancy is not filed within 40 calendar days after such vacancy occurs, the Secretary may select an eligible person to fill such vacancy without regard to nomination.

18. Section 989.35 is amended to read:

§ 989.35 Powers.

The committee shall have the following powers:

(a) To administer the terms and provisions of this part;

(b) To make rules and regulations to effectuate the terms and provisions of this part; and

(c) To recommend to the Secretary amendments to this part.

19. Section 989.36 is amended to read:

§ 989.36 Duties.

The committee shall have, among others, the following duties:

(a) To act as intermediary between the Secretary and any producer, packer, dehydrator, processor or cooperative bargaining association;

(b) To keep minutes, books, and other records, which shall clearly reflect all of its acts and transactions, and such minutes, books, and other records shall be subject to examination by the Secretary at any time;

(c) To investigate and assemble data on the production, handling and market conditions with respect to raisins;

(d) To submit to the Secretary such available information with respect to raisins and grapes as he may request, and such other information as the committee may deem desirable and pertinent;

(e) To select from among its members a chairman and other officers, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(f) To appoint or employ such other persons as it may deem necessary, and to determine the salaries and define the duties of each such person;

(g) To cause the books of the committee to be audited by certified public accountants at least once each year, or at such other times as the committee may deem necessary or as the Secretary may request, and the report of each such audit shall show, among other things, the receipts and expenditures of funds, and at least two copies of each such audit shall be submitted to the Secretary;

(h) To prepare quarterly statements of its financial operations and make such statements, together with the minutes of its meetings, available at the office of the committee for inspection by producers, handlers and dehydrators;

(i) To give reasonable advance notice of the times, places, and purposes of its meetings by mail or other appropriate means to each member and alternate member and such notice shall be given as widespread publicity as is practicable.

(j) To conduct meetings for the purpose of making nominations for membership on the committee and the certifying of nominations made for such purposes to the Secretary, and the making of nominations to the Secretary for member and alternate member positions on the Executive Operations Committee; and

(k) To establish, with the approval of the Secretary, such rules and procedures relative to administration of this subpart as may be consistent with the provisions contained in this subpart and as may be necessary to accomplish the purposes of the act and the efficient administration of this subpart.

20. Section 989.37 is revised to read:

§ 989.37 Obligation.

Upon the removal, resignation, disqualification, or expiration of the term of office of any member or alternate member, such member or alternate member shall account for all receipts and disbursements and deliver to his successor, to the committee, or to a designee of the Secretary all property (including, but not limited to, all books and records) in his possession or under his control as member or alternate member, and he shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designee full title to such property and funds, and all claims vested in such member or alternate member. Upon the death of any member or alternate member of the committee, full title to such property, funds, and claims vested in such member or alternate member shall be vested in his successor or, until such successor has been selected and has qualified, in the committee.

21. The center heading "Raisin Administrative Committee" appearing between §§ 989.37 and 989.39 is deleted.

22. A new § 989.38 is added, reading as follows:

§ 989.38 Procedure.

The committee shall meet at the call of its chairman or its vice-chairman when acting as chairman, or at the call of any three members. Except as otherwise provided in § 989.45, all decisions of the committee reached shall be by majority vote of the members present. All votes shall be cast in person and a quorum must be present. The presence of 25 members shall be required to constitute a quorum. The Secretary, on recommendation of the committee, may change the quorum requirements if warranted by a change made pursuant to § 989.26a in the total number of producer members on the committee or by a change made pursuant to § 989.26b in the total number of handler members on the committee, or by a change made pursuant to § 989.26c in the total number of dehydrator members on the committee. The committee shall give to the Secretary the same notice of meetings of the committee as it gives to its members.

23. Section 989.39 is revised to read:

§ 989.39 Compensation and expenses.

The members of the Committee and the Executive Operations Committee, and the alternate members when acting as members, shall serve without compensation but shall be allowed their necessary expenses as approved by the committee. Whenever specifically authorized in advance by the committee, or when requested to attend due to the anticipated absence of a member, an alternate member of the committee shall be reimbursed for reasonable expenses incurred by him in attending not to exceed three committee meetings per crop year when the committee member for whom he serves, as alternate also attends such meetings.

§§ 989.39a—989.42 [Deleted]

24. Section 989.39a is deleted.
25. Section 989.39b is deleted.
26. Section 989.39c is deleted.
27. Section 989.40 is deleted.
28. Section 989.41 is deleted.
29. Section 989.42 is deleted.

30. A center heading "Executive Operations Committee" is added between §§ 989.42 and 989.43.

31. Section 989.43 is revised to read:

§ 989.43 Establishment and membership.

An Executive Operations Committee is hereby established to receive, investigate, and report to the Secretary, complaints of violations of this part and to perform such functions as assigned by the committee. Any action of the Executive Operations Committee is subject to disapproval by the committee. The Executive Operations Committee shall consist of 15 members, of whom eight shall represent producers, five shall represent handlers, one shall represent dehydrators and one shall represent the cooperative bargaining association(s). The producer members shall be selected to represent such district or group of districts as the committee may establish with the approval of the Secretary. Of the five handler members, one shall be selected from and represent each of the following divisions:

(a) The handlers doing business as cooperative marketing associations, or cooperative marketing organizations engaged in the business of packing raisins, each of which acquired not less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year;

(b) The three handlers, other than cooperatives, who acquired the largest percentages of total raisin acquisitions during the 12-month period preceding the then current crop year;

(c) The three handlers, other than cooperatives, who acquired the next largest percentages of total raisin acquisitions during the 12-month period preceding the then current crop year;

(d) The four handlers, other than cooperatives, who acquired the next largest percentages of total raisin acquisitions during the 12-month period preceding the then current crop year; and

(e) All other handlers, including cooperatives, each of which acquired less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year, and including all processors. For each member of the Executive Operations Committee, there shall be an alternate member who shall have the same qualifications as the member for whom he is an alternate.

32. A new § 989.43a is added, reading as follows:

§ 989.43a Changes in producer representation.

The Secretary, on recommendation of the committee, may change the total number of producer members on the Executive Operations Committee and may change the number of producer members which shall be selected to represent particular districts or groups of districts. In making any such change consideration shall be given to such factors as changes in producer and handler membership on the committee, representation of the several producing districts, maintenance of producer positions as majority of the Executive Operations Committee, and geographical shifts in the number of producers and in raisin production within the area.

33. A new § 989.43b is added, reading as follows:

§ 989.43b Changes in handler representation.

The Secretary, on recommendation of the committee, may change the total number of handler members on the Executive Operations Committee, the handler size groups set forth in § 989.43 from which handler members shall be selected, the number of handlers comprising any such size group, or the number of handler members to represent any such size group. In making any such change, consideration shall be given to such factors as changes in the numbers of handlers, relative raisin acquisition position of handlers, and their similarities of interest in the handling of raisins.

34. A new § 989.43c is added, reading as follows:

§ 989.43c Changes in dehydrator representation.

The Secretary, on recommendation of the committee, may change the number of dehydrator members on the Executive Operations Committee or may discontinue dehydrator representation on the Executive Operations Committee. In making any such change or discontinuing dehydrator representation, consideration shall be given to such factors as total number of dehydrators currently operating, the number of dehydrators operated by raisin packers, and the extent to which the interest of dehydrators is adequately served by other members on the Executive Operations Committee.

35. Section 989.44 is revised to read:

§ 989.44 Term of office.

Members and alternate members of the Executive Operations Committee shall each serve for terms of one year, beginning on June 1, and ending on May 31 of the following year but each such member and alternate member shall continue to serve until his respective successor is selected and has qualified.

36. Section 989.45 is revised to read:

§ 989.45 Nomination.

(a) *Producer members.* The producer members of the committee, and producer alternate members when acting as members, shall nominate from among the producer members and producer alternate members of the committee the required number of persons for producer member positions on the Executive Operations Committee and an alternate for each person.

(b) *Handler members.* The handler members of the committee and handler alternate members when acting as members, shall nominate from among the handler members and alternate members of the committee, the required number of persons for handler member positions on the Executive Operations Committee, and an alternate for each such person. Nomination for such handler members shall be made by and from handlers, employees, representatives or agents of handlers falling within each such group.

(c) *Dehydrator member.* The dehydrator member and alternate member on the committee shall be the dehydrator nominees for member and alternate member on the Executive Operations Committee.

(d) *Cooperative bargaining association member.* The cooperative bargaining association(s) member and alternate member on the committee shall be the association nominees for member and alternate member of the Executive Operations Committee.

(e) *Initial members.* Members and alternate members of the Raisin Administrative Committee serving immediately prior to the effective date of this amended subpart shall, if thereafter they are also eligible, continue to serve on the Executive Operations Committee as the initial members and alternate members for their specified terms of office and until their respective successors have been selected and have qualified.

(f) *Successor members.* Nominations for successor members and alternate members of the Executive Operations Committee shall be certified by the com-

V 41 150 AUG 3 76 UMI

mittee to the Secretary annually within 30 days following the selection by the Secretary of committee members.

37. Section 989.46 is revised to read:

§ 989.46 Selection.

The Secretary shall select producer, handler, dehydrator, and cooperative bargaining association members and alternate members of the Executive Operations Committee in the numbers specified in § 989.43. Such selections may be made from the nominations certified pursuant to § 989.45, or from any other eligible producers, handlers, dehydrators, or cooperative bargaining association officers or employees.

38. Section 989.47 is revised to read:

§ 989.47 Failure to nominate.

In the event nomination for a member or alternate member position on the Executive Operations Committee is not certified pursuant to and within the time specified in § 989.45, the Secretary may select an eligible person to fill such position without regard to nomination.

39. Section 989.48 is revised to read:

§ 989.48 Acceptance.

Each person selected by the Secretary as a member or as an alternate member of the Executive Operations Committee shall, prior to serving, qualify by filing with the Secretary a written acceptance within 10 calendar days after being notified of such selection.

40. Section 989.49 is revised to read:

§ 989.49 Alternate members.

An alternate for a member of the Executive Operations Committee shall act in the place and stead of such member (a) during his absence, and (b) in the event of his removal, resignation, disqualification, or death until a successor for such member's unexpired term has been selected and has qualified.

41. Section 989.50 is revised to read:

§ 989.50 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the Executive Operations Commitee to qualify, or in the event of the removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's unexpired term shall be nominated and selected in the manner set forth in §§ 989.45 and 989.46, insofar as such provisions are applicable. If nomination to fill any such vacancy is not filed within 40 calendar days after such vacancy occurs, the Secretary may select an eligible person to fill such vacancy without regard to nomination.

42. Section 989.51 is revised to read:

§ 989.51 Powers.

The Executive Operations Committee shall have the power to receive, investigate, and report to the Secretary, complaints of violations of this part.

43. Section 989.52 is revised to read:

§ 989.52 Duties.

The Executive Operations Committee shall have the following duties: (a) To investigate compliance with and to use means available to it to prevent violation of the provisions of this part; and (b) to perform such other functions as assigned by the committee.

44. Section 989.54 is revised to read:

§ 989.54 Marketing policy.

(a) *Free tonnage.* On or before August 15 of each crop year, the committee shall review shipment data, inventory data, and other matters relating to the quantity of raisins of all varietal types. For any varietal type for which a free tonnage percentage may be recommended, the quantity of free tonnage shall be 90 percent of the prior crop year's free tonnage shipments for that varietal type, adjusted by the physical year-end carryin inventory. The desirable carryin inventory on August 1 for natural Thompson Seedless raisins shall be a minimum of 35,000 tons. This free tonnage quantity shall be made known by the committee in accordance with paragraph (f) of this section. In years following limited free tonnage shipments, the committee may use the highest shipments of any one of the prior three years as a base to determine the free tonnage.

(b) *Free and reserve percentages.* On or before October 5 of each crop year (except that this date may be extended by the committee not more than 5 days if warranted by a late crop) the committee shall submit to the Secretary an estimate of raisin production of any varietal type for which a free tonnage quantity has been computed by the committee. If the committee determines that a field price is firmly established on any varietal type of raisin for which a free tonnage has been computed, it shall recommend a preliminary free tonnage percentage to the Secretary which, when applied to the estimated production of that varietal type, would release 85 percent of the free tonnage for such varietal type. If the committee determines that a field price is not firmly established, it shall recommend a preliminary free tonnage percentage to the Secretary which would release 65 percent of the free tonnage for such varietal type. No later than February 15, the committee shall recommend to the Secretary a free tonnage percentage which will tend to release the full free tonnage for any varietal type. Prior to February 15, interim changes of percentages may be recommended by the committee to the Secretary to release less than the full free tonnage for any varietal type. The difference between any free tonnage percentage designated and 100 percent shall be the reserve tonnage percentage. In developing its free and reserve percentages for any varietal type, the committee shall consider and report to the Secretary on the following factors:

(1) The estimated tonnage held by producers, handlers, and for the account of the committee at the beginning of the crop year;

(2) The expected general quality and any modifications of the minimum grade standards;

(3) The estimated tonnage of standard and offgrade raisins which will be produced;

(4) If different than the free tonnage, the estimated trade demand for raisins in free tonnage outlets;

(5) An estimated desirable carryout at the end of the crop year for free tonnage and, if applicable, for reserve tonnage;

(6) The estimated market requirements for raisins outside free tonnage outlets, considering the estimated world raisin supply and demand situation;

(7) Current prices being received and the probable general level of prices to be received for raisins by producers and handlers;

(8) The trend and level of consumer income;

(9) Any prohibition of trade practices, pursuant to § 989.62, intended for the crop year; and

(10) Any other pertinent factors bearing on the marketing of raisins including the estimated supply of and demand for other varietal types and regulations applicable thereto.

(c) *Modification.* In the event the committee subsequently deems it advisable to modify its marketing policy on any crop, because of national emergency, crop failure or other major change in economic conditions, it shall hold a meeting for that purpose, and file a report thereof with the Secretary within 5 days (exclusive of Saturdays, Sundays, and holidays) after the holding of such meeting, which report shall show such modification, the basis therefor, as well as the recommendation of the committee.

(d) *Reserve tonnage to sell as free tonnage.* On or before November 15 of the crop year, the committee shall offer to handlers a quantity of reserve tonnage raisins. One offer shall consist of a quantity equal to 10 percent of the prior year's shipments of free tonnage to equate the current year's supply with the prior year's shipments. This offer shall be allocated to handlers on the basis of their prior year's acquisitions. At the same time, the second offer shall consist of a quantity equal to 10 percent of the prior year's shipments of free tonnage for market expansion. The offer shall be allocated to handlers on the basis of their prior year's shipment of free tonnage. Each offer shall be open to handlers not more than five business days, and subsequently, two reoffers of any tonnage unsold in the original offers open not more than two business days each, may be made. The reoffer tonnage shall be allocated to handlers who purchase 100 percent of their allocation in preceding offers and shall be on the basis of the quantity each handler purchased as a

percentage of the total allocation of all handlers eligible to participate. At the close of the second reoffer any remaining tonnage may be offered to handlers purchasing all of their previous allocations on a first-come, first-served basis and such offer shall be open to handlers for two business days. Any handler who had no shipments or acquisitions of raisins during the prior crop year would be allocated raisins under these offers on the basis of his acquisitions (up to the time the first offer is made) of raisins in the current crop year. If field prices are not established on or before November 15, the offers shall be made not more than 15 days following such establishment. The price of reserve tonnage raisins offered to handlers to sell as free tonnage under this section shall be the established field price for free tonnage raisins of the applicable varietal type, plus estimated costs to equity holders incurred by the committee, plus 3 percent of the established field price for free tonnage raisins of the applicable varietal type.

(e) *Verbatim record.* The committee shall file with its report to the Secretary a verbatim record of that portion of its meeting or meetings relating to its marketing policy.

(f) *Publicity.* The committee shall promptly give reasonable publicity to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them. Similar publicity shall be given to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary's action thereon. Copies of all marketing policy reports shall be maintained in the office of the committee, where they shall be made available for examination by any producer, dehydrator, handler, or cooperative bargaining association representative. The committee shall notify handlers, dehydrators, and cooperative bargaining association(s) of the Secretary's action on percentages by registered or certified mail.

§ 989.66 [Amended]

45. The word "desirable" appearing in the first sentence of § 989.66(g) is deleted.

46. Paragraph (a), the second sentence of paragraph (c), the first sentence of paragraph (d)(1), the first sentence of paragraph (f), and the first sentence of paragraph (j) of § 989.67 are amended to read:

§ 989.67 Disposal of reserve raisins.

(a) At the time the committee meets to consider free and reserve percentages for a crop year, the committee shall consider the marketing of reserve tonnage raisins for the subsequent 12-month period. The committee shall dispose of all reserve tonnage in such manner as to achieve, as nearly as may be practicable, maximum disposal of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. Any reserve tonnage raisins held unsold by the committee on May 1 of the subsequent crop year shall be physically disposed of promptly in any available outlet not competitive with normal market channels for free tonnage raisins or sales of new crop reserve tonnage raisins in export: *Provided*, That, whenever the Secretary finds, based upon a recommendation of the committee, or on the basis of information otherwise available to him that because of national emergency, crop failure, an insufficient supply of reserve tonnage raisins for export, or other change of economic or marketing conditions, retention of reserve tonnage raisins carried over is warranted, the foregoing requirements as to disposal shall not apply and such raisins may be disposed of in any outlet recommended by the committee and approved by the Secretary.

* * * * * *

(c) * * * The list of countries shall be reviewed by the committee annually when it reviews matters relating to the free tonnage, and shall recommend any changes in the list to the Secretary for approval. * * *

(d)(1) Reserve tonnage raisins shall be sold to handlers at prices and in a manner intended to maximize producer returns and achieve maximum disposition of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. * * *

* * * * * *

(f) Whenever the committee concludes that the orderly disposition of reserve tonnage would be promoted by the committee replacing any portion or all of handlers' export shipments of free tonnage raisins, to other than free tonnage outlets, made prior to the committee's first offer to sell reserve tonnage, it may do so and may specify such requirements and conditions as are necessary to carry out the replacement consistent with the objectives of this amended subpart. * * *

* * * * * *

(j) The committee shall not sell reserve tonnage raisins of any varietal type to handlers to provide them with raisins to sell as free tonnage, other than as provided in § 989.54, unless it files with the Secretary complete information and receives from the Secretary notice that he does not disapprove of such sale and that because of: National emergency, crop failure; change of economic or marketing conditions; free tonnage shipments during the then current crop year exceeding shipments of a comparable period of the prior crop year by more than 5 percent: *Provided*, That, such sale of reserve tonnage shall be limited to the quantity exceeding 105 percent of shipments for the first 10 months of the prior crop year; and/or an inadequate carryover, the free tonnage outlets cannot be reasonably well supplied by the tonnage released to the industry as a whole by the committee's marketing policy for that varietal type. * * *

47. The first sentence of § 989.79 is amended to read:

§ 989.79 Expenses.

The committee is authorized to incur such expenses (other than those specified in § 989.82) as the Secretary finds are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the committee and for such purposes as he may, pursuant to this subpart, determine to be appropriate. * * *

48. Section 989.85 is revised to read:

§ 989.85 Personal liability.

No member or alternate member of the committee or any employee or agent thereof and no member or alternate member of the Executive Operations Committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any person, for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty.

§ 989.91 [Amended]

49. The date contained in the proviso in § 989.91(c) is changed from "August 31" to "July 31".

50. Section 989.95 is amended to read:

§ 989.95 Right of Secretary.

The members of the committee and the Executive Operations Committee (including alternates and successors) and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary, in his discretion, at any time. Every decision, determination, or other act of the committee or of the Executive Operations Committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee or the Executive Operations Committee shall be deemed null and void.

§ 989.96 [Amended]

51. Section 989.96 Exhibit A is amended as follows:

(a) The heading is amended to read "§ 989.96 Producer members of the Raisin Administrative Committee".

(b) The reference to § 989.26b in paragraph (h) is changed to read "§ 989.26a".

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 4, 1976.

Signed at Washington, D.C., on: July 29, 1976.

JOHN M. DAMGARD,
Deputy Assistant Secretary.

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS: MILK) DEPARTMENT OF AGRICULTURE

[Milk Order No. 1012]

PART 1012—MILK IN THE TAMPA BAY MARKETING AREA

Order Suspending Certain Provisions

This order of suspension is issued pursuant to the provisions of the Agricul-

V 41 150 AUG 3 76 UMI

tural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Tampa Bay Marketing Area.

It is hereby found and determined that for the months of July and August 1976 the following provisions of the order do not tend to effectuate the declared policy of the Act:

Paragraphs (2) and (3) of § 1012.13(b).

STATEMENT OF CONSIDERATION

This action suspends for July and August 1976, provisions limiting diversions of milk to nonpool plants to not more than 25 percent of member and nonmember milk, respectively, that is physically received at pool plants during the month. Diversions in excess of that quantity are not producer milk.

The suspension was requested by Suncoast Milk Producers Cooperative in order to maintain pool status for milk of its member producers in July and August.

The cooperative unexpectedly lost a substantial part of its business with one pool handler. Since other fluid outlets are not immediately available, the cooperative now must move to nonpool outlets for surplus disposition the milk formerely moved to this handler. As a result, during July the cooperative's movements of milk from members' farms directly to nonpool manufacturing outlets will exceed 25 percent of its member producer milk physically received at pool plants during the month. It is expected that this situation will continue in August. However, the association expects that seasonally declining production along with seasonally increasing Class I sales will remedy the situation after September 1.

Absent the suspension, the cooperative's diversions of milk in excess of the 25 percent limit would lose pool status. This would result in substantially reduced returns to certain of the cooperative's member producers regularly associated with the fluid market, thus disrupting the orderly marketing of milk in the Tampa Bay market.

No such problem is indicated with respect to milk of nonmember producers. Nevertheless, should the need arise the suspension action also will allow greater diversions of nonmember milk.

Statements supporting the requested suspension were received from other cooperatives representing the vast majority of producers regularly supplying the market.

Accordingly, it is hereby found and determined that notice of proposed rulemaking, public procedure thereon, and thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that substantial quantities of milk of producers who regularly supply the fluid market otherwise would be excluded from the marketwide pool, thereby causing a disruption in the orderly marketing of milk; and

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date.

Therefore, good cause exists for making this order effective August 3, 1976.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of July and August 1976.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 3, 1976.

Signed at Washington, D.C., on July 29, 1976.

JOHN DAMGARD,
Deputy Assistant Secretary.

[FR Doc.76-22473 Filed 8-2-76;8:45 am]

[Milk Order No. 124]

PART 1124—MILK IN THE OREGON-WASHINGTON MARKETING AREA

Order Suspending Certain Provisions

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Oregon-Washington marketing area.

It is hereby found and determined that for the month of August 1976 the following provisions of the order do not tend to effectuate the declared policy of the Act and are therefore suspended:

1. In § 1124.11(a), "and from whom at least three deliveries are received at a pool plant during the month", and

2. In § 1124.11(b), "and from whom at least three deliveries are received during the month at his pool plant(s)".

STATEMENT OF CONSIDERATION

This action suspends for August 1976 the requirement that three deliveries of a producer's milk be received at a pool plant during the month to qualify his milk (as producer milk) for diversion to a nonpool plant. This action continues for an additional month an earlier suspension of identical provisions for the months of April through July 1976 (41 FR 15398).

The basis of this action and the earlier action cited above is the record of a public hearing held March 10–11, 1976, for the Oregon-Washington order market (Docket No. AO–368–A9, Hearing Notice 41 FR 8189). At this hearing, eligibility requirements for diversion were fully reviewed.

A decision issued by the Deputy Administrator, Program Operations, on July 1, 1976 (41 FR 27844), based upon record evidence, recommended that the eligibility requirements for diversion be limited to only a single delivery of a producer's milk each month of September, October, and November. If delivery is made in all three such months, no further diversion eligibility requirements need be met through August. The diversion terms proposed by the Department under such circumstances, if adopted, would not require any pool plant delivery of a producer in August solely for the purpose of qualifying his milk for diversion that month.

Cooperative handlers in the market have found it difficult at times to qualify all their members for producer status under the order because of the 3-delivery diversion requirement. As a result, unnecessary hauling costs are incurred in connection with meeting the 3-delivery requirement, particularly during the months of heavy milk production when a greater quantity of market reserves must be moved for manufacture. This period of heavy production extends into the month of August and warrants the same interim action, pending the outcome of the amendatory proceeding, as was effectuated for the months of April–July 1976 by the earlier suspension.

This suspension action is the only means available to the Department for reasonably ensuring that the diversion provisions, now at issue in the aforementioned proceeding, may not be a contributing factor to market disorder in August this year.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area since, under the circumstances described herein, the most efficient method of handling the market's reserve milk supply is by diversion direct from producers' farms to milk manufacturing plants. This suspension will permit greater flexibility in the movement of market reserves to manufacturing plants pending the outcome of a public hearing held March 10–11, 1976, at which a proposal to reduce the number of pool plant deliveries required to qualify for diversion was reviewed for this order. Producers requested this suspension at the public hearing. Interim action is necessary pending amendatory procedures. A decision issued by the Deputy Administrator, Program Operations, on July 1, 1976 (41 FR 27844), based upon record evidence, recommended that the eligibility requirements for diversion be limited to only a single delivery of a producer's milk each month of September, October, and November.

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date, therefore, good cause exists for making this order effective with respect to producer milk deliveries during August 1976.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the month of August, 1976.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: August 3, 1976.

Signed at Washington, D.C., on: July 29, 1976.

JOHN DAMGARD,
Deputy Assistant Secretary.

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

[File No. CO 845–P]

PART 100—STATEMENT OF ORGANIZATION

Closing of Port of Entry at Coral Bay, St. John, Virgin Islands

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER of June 11, 1976 (41 FR 23718) pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383) and in which there was set forth the proposed amendment to § 100.4(c)(2) of Title 8 of the Code of Federal Regulations pertaining to the proposal to close the port of entry at Coral Bay, St. John, Virgin Islands.

No representations were received concerning the proposed rule of June 11, 1976. No change has been made in the proposed rule and it is hereby adopted as set forth below.

As amended, § 100.4(c)(2) reads in pertinent part as follows:

§ 100.4 Field Service.

* * * * *

(c) *Suboffices.* * *

(2) *Ports of entry for aliens arriving by vessel or by land transportation.* * * *

* * * * *

(Sec. 103, 66 Stat. 173 (8 U.S.C. 1103))

The basis and purpose of the regulation prescribed herein is to close the port of entry at Coral Bay, St. John, Virgin Islands because only three or four inspections are performed there each month, mostly of United States citizens returning from adjacent British islands. These inspections can readily be performed without inconvenience to the public at the port of entry located at Cruz Bay, St. John, Virgin Islands.

Effective date: The amendment to the regulation contained in this order shall become effective September 2, 1976.

Dated: July 28, 1976.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 76-520]

PART 561—DEFINITIONS

Scheduled Items

JULY 28, 1976.

The Federal Home Loan Bank Board considers it desirable to amend Part 561 of the rules and regulations for Insurance of Accounts (12 CFR Part 561) by revising §561.15 thereof as described below.

Prior to this amendment, paragraph (g) of § 561.15, which defines "scheduled items", appeared by implication to require that a security acquired in exchange for a scheduled item be classified as a scheduled item, and the provision was so interpreted as to securities not qualifying as "liquid assets" under § 523.10(g) of this chapter. The purpose of this amendment is to implement the Board's determination that such a requirement is unnecessarily stringent and that securities so exchanged should not be categorized as scheduled items if they (1) qualify as liquid assets under § 523.10 (g) of this chapter or (2) have a market value at least equal to their par value.

The Board also takes this opportunity to make technical amendments to paragraphs (d)(1)(i) and (d)(2)(i) of § 561.15 by changing the references therein to "paragraph (i)" to read "paragraph (1)", to conform to the redesignation of § 561.15(i) as § 561.15(1).

The Board finds that notice and public procedure are unnecessary under 12 CFR 508.11 and 5 U.S.C. 553(b), since the amendments relieve restriction or clarify and conform existing regulations, and that publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(a) prior to effective date is unnecessary for the same reason.

Accordingly, the Board hereby amends § 561.15 by amending paragraphs (d)(1)(i), (d)(2)(i), and by revising paragraph (g) thereof, as set forth below, effective August 6, 1976.

§ 561.15 [Amended]

1. Paragraphs (d)(1)(i) and (d)(2)(i) of § 561.15 are amended by changing the references therein to "paragraph (i)" to read "paragraph (1);" and 2. Section 561.15(g) is revised to read as follows:

* * * * *

(g) Real estate acquired in exchange for any of the scheduled items described above or securities so acquired unless (1) the market value of such securities when they are acquired at least equals their par value or (2) such securities qualify as liquid assets under § 523.10(g) of this chapter.

* * * * *

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; (12 U.S.C. 1725, 1726, 1730). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[No. 76-521]

PART 563—OPERATIONS

Loans to One Borrower

JULY 28, 1976.

The following summary of the amendment adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulation.

I. *Previous Regulation.* Limited the amount that an insured institution could loan on the security of real estate to one borrower.

II. *Proposed Amendment.* Would have extended the limitation to include all types of loans by an insured institution.

III. *Final Amendment.* Same as proposed except the limitation is not extended to include loans by an insured institution on the security of its savings accounts.

The Federal Home Loan Bank Board, by Resolution No. 76–347, dated May 14, 1976, proposed to amend § 563.9–3 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.9–3) for the purpose of extending the limitation on the amount an insured institution may loan on the security of real estate to one borrower to include all types of loans. Notice of such proposed rulemaking was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20895–20896), with an invitation to interested persons to submit written comments by June 21, 1976.

On the basis of its consideration of all relevant material presented by interested persons and otherwise available to it, the Board deems it advisable to adopt the amendment as proposed, with one modification: the limitation is not extended to include loans on the security of an insured institution's savings accounts. This change reflects the Board's view that the unique character of such loans makes it unnecessary to apply the § 563.9–3 limitation to them.

Accordingly, the Board hereby amends § 563.9–3 to read as set forth below, effective September 6, 1976.

§ 563.9–3 Loans to one borrower.

(a) *Definition of terms.* For the purposes of this section the term "one bor-

V 41 150 AUG 3 76 UMI

rower" means (1) any person or entity that is, or that upon the making of a loan will become, obligor on a loan, (2) nominees of such obligor, (3) all persons, trusts, partnerships, syndicates, and corporations of which such obligor is a nominee or a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, and (4) if such obligor is a trust, partnership, syndicate, or corporation, all trusts, partnerships, syndicates, and corporations of which any beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock, is also a beneficiary, partner, member, or record or beneficial stockholder owning 10 percent or more of the capital stock of such obligor; and the term "total balances of all outstanding loans" means the original amounts loaned by an insured institution plus any additional advances and interest due and unpaid, less repayments and participating interests sold and exclusive of any loan on the security of such institution's savings accounts or real estate the title to which has been conveyed to a bona fide purchaser of such real estate.

(b) *Limitations.* No insured institution shall have outstanding any loan to one borrower, as defined in paragraph (a) of this section, if the sum of (1) the amount of such loan and (2) the total balances of all outstanding loans owed to such institution and its service corporation affiliates by such borrower exceeds an amount equal to 10 percent of such institution's withdrawable accounts or an amount equal to such institution's net worth, whichever amount is less: *Provided,* That, notwithstanding any other limitation of this sentence, any such loan may be made if the sum of subparagraphs (1) and (2) of this paragraph does not exceed $100,000 or if such loan is secured by a first lien on low-rent housing.

(c) *Determination by institution; maintenance of records.* If an insured institution or service corporation affiliate thereof makes a loan to any one borrower, as defined in paragraph (a) of this section, in an amount which, when added to the total balances of all outstanding loans owed to such institution and its service corporation affiliates by such borrower, exceeds $250,000 or 2 percent of the net worth of such institution, whichever is greater, but in all cases where such outstanding loans exceed $1,000,000, the records of such institution or its service corporation affiliate with respect to such loan shall include documentation showing that such loan was made within the limitations of paragraph (b) of this section; for the purpose of such documentation such institution or service corporation affiliate may require, and may accept in good faith, a certification by the borrower identifying the persons, entities, and interests described in the definition of one borrower in paragraph (a) of this section.

(Sec. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; (12 U.S.C. 1725, 1726, 1730). Reorg Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

J. J. FINN,
Secretary.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2826]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Benton & Bowles, Inc.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.135 Nature of product or service; § 13.170 Qualities or properties of product or service; 13.170–63 Non-toxic; 13.170–64 Nutritive; § 13.195 Safety; 13.195–60 Product; § 13.205 Scientific or other relevant facts. Subpart—Misrepresenting oneself and goods—Goods: § 13.1685 Nature; § 13.710 Qualities or properties; § 13.1740 Scientific or other relevant facts. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1870 Nature. Subpart—Using deceptive techniques in advertising: § 13.2275 Using deceptive techniques in advertising; 13.2275–70 Television depictions.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45, 52)

In the Matter of Benton & Bowles, Inc., a corporation.

Consent order requiring a New York City advertising agency for General Foods Corporation, among other things to cease misrepresenting that a plant, or any part thereof, is suitable for human consumption in its raw state, where the plant is depicted growing in its natural, uncultivated environment. Further, respondent is prohibited from representing, through depictions, descriptions, etc., anything commonly recognized as food or lawful food additive which tends to influence behavior creating imminent risk or physical harm to viewers.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

For the purposes of this order, the following definitions apply:

1. The term "commerce" means commerce as defined by the Federal Trade Commission Act, as amended.

2. The term "plant" means any whole plant or any constituent part thereof,

3. The term "suitable for human consumption" shall not apply to the sole depicting or sole act of picking a plant or any constituent part thereof in its raw state.

[1] Copies of the Complaint, Decision and Order filed with the original document.

I

It is ordered, That respondent Benton & Bowles, Inc., a corporation (hereinafter referred to as respondent), its successors and assigns, and its officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution in or affecting commerce of any product, forthwith cease and desist from, directly or indirectly:

A. Representing, through depictions, descriptions, or otherwise, that a plant is suitable for human consumption in its raw state in an advertisement containing a visual depiction of (1) the plant in its growing state or natural surroundings which depiction is not a clear portrayal of conditions of domestic cultivation for human consumption or (2) the consumption of a raw plant, described in the advertisement as wild.

B. Representing, through depictions, descriptions, or otherwise, that a plant is suitable for human consumption in its raw state in an advertisement containing a visual depiction of the plant in its growing state or natural surroundings where said plant is not the advertised product or an ingredient, or characterizing flavor, or source thereof, in the advertised product.

C. Representing, through depictions, descriptions, or otherwise, that any given thing or things, other than things that are commonly recognized as foods or lawful food additives, are suitable for human consumption as a food where it is reasonably foreseeable, through reasonable inquiry, that such representation has the tendency and capacity to influence members of the audience in reasonably good health to engage in behavior which creates an imminent risk of physical harm to those persons or to others.

D. Provided, however, that paragraph B shall not prohibit the representation, through depictions, descriptions, or otherwise, that a plant is suitable for human consumption in its raw state where the provisions of paragraphs A and C are met, and said plant:

(1) Is nontoxic in its raw state; and

(2) Does not have the tendency and capacity to be confused with a plant, which if consumed in its raw state, is toxic.

II

It is further ordered, That respondents shall forthwith distribute a copy of this Order to each of its operating divisions.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order.

The Decision and Order was issued by the Commission July 6, 1976.

JOHN D. MACOLL,
Acting Secretary.

PART 43h—ENROLLMENT OF ALASKA NATIVES

Applications, Preparation and Approval of Roll

The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 22566 of the FEDERAL REGISTER of June 4, 1976 (41 FR 22566), there was published a notice of proposed rulemaking to amend Part 43h, Subchapter F, Chapter I of Title 25 of the Code of Federal Regulations. The amendment was proposed pursuant to the authority contained in Section 25 of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, Pub. L. 92–203, as amended and supplemented by the Act of January 2, 1976, 89 Stat. 1145, Pub. L. 94–204. The purpose of amending the regulations governing the preparation of the roll of Alaska Natives was to permit the filing and review of applications for enrollment pursuant to the Act of January 2, 1976, supra.

Other revisions and amendments were proposed to include in the regulations necessary revisions and amendments to make the regulations conform with the provisions of the Act of January 2, 1976, supra.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections.

Suggested changes were submitted by The 13th Regional Corporation on July 7, 1976. Although not timely received the comments and suggestions were carefully considered. The three suggested modifications, if adopted, would provide for the enrollment of eligible nonresident Natives in the 13th region unless the applicant affirmatively elected to be enrolled in another region. The 13th Regional Corporation argues that, based on the court order establishing the 13th region, it is appropriate to assume an eligible nonresident Native who fails to indicate his or her preference for being enrolled in one of the 12 regions in Alaska or the 13th region prefers to be enrolled in the 13th region.

In its order establishing the 13th region the Court addressed itself primarily to the manner in which the Interior Department counted the votes for enrollment in or out of the 13th region in determining whether the 13th region would be established; i.e., counting the abstaining enrollees in the total number of voters to determine a majority of votes. By excluding the number of abstaining enrollees in computing the total number of voters, a majority of actual votes cast were in favor of establishing the 13th region. The Court did not order that the abstaining enrollees be counted as votes in favor of the 13th region. Had it been the Court's intent to assume the presumption offered by The 13th Regional Corporation we believe it would not have provided for a final election for nonresident enrollees to indicate their preference for enrollment in or out of the 13th region.

Section 5 of the 1971 Act specifies as an exception to the priorities for determining in which of the 12 regions in Alaska a nonresident Native is to be enrolled, that such an enrollee may elect to be enrolled in the 13th region. We interpret this provision as requiring affirmative action by the ehrollee to elect enrollment in the 13th region.

In the original enrollment nonresident enrollees were not specifically advised that if they failed to indicate their preference they would be enrolled in the appropriate region in Alaska. But such was the actual result, implicitly approved by the Court, of their abstention from voting. This information is now contained in the amendment to the regulations and in the instructions which will be provided with each application.

We believe The 13th Regional Corporation's suggested modifications would not reflect the intent of the Congress or the Court, and therefore, they have not been adopted.

The only changes made in the text of the regulations are corrections of printing errors. Accordingly, with those corrections, the proposed amendment is hereby adopted and is set forth below.

Since the January 2, 1976 Act set a statutory deadline for applying for enrollment and the filing period is now running, the 30-day deferred effective date would further reduce the filing period. Therefore, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective on August 3, 1976.

THOMAS S. KLEPPE,
Secretary of the Interior.

JULY 30, 1976.

Part 43h of Subchapter F, Chapter I, Title 25 of the Code of Federal Regulations is amended as follows:

1. By revising paragraphs (a) and (j) of § 43h.1 and adding a new paragraph (o) to § 43h.1 to read as follows:

§ 43h.1 Definitions.

(a) "Act" means the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, Public Law 92–203, as amended and supplemented by the Act of

V 41 150 AUG 3 76 UMI

January 2, 1976, 89 Stat. 1145, Public Law 94–204.

• • • • •

(j) "Region" means the geographic area covered by the operation of one of the 12 Native associations recognized in Section 7(a) of the Act, or its successor regional corporation, and includes the 13th region.

• • • • •

(o) "Adopted person" means a person whose natural parents' parental rights have been terminated by court order and given to others to exercise.

2. By revising paragraphs (a) and (b) of § 43h.4 to read as follows:

§ 43h.4 Enrollment in regions.

(a) Permanent residents of Alaska: A Native permanently residing in Alaska on April 1, 1970, shall be enrolled in the region and village or other place in which he or she was a permanent resident on that date.

(b) Nonresidents of Alaska: A Native who is 18 years of age or older at the time of filing his or her application for enrollment and who, on April 1, 1970, was not a permanent resident of one of the regions in Alaska shall be enrolled according to the following order of priority:

(1) In the 13th region, if he or she so elects, or

(2) In the region where he or she resided on April 1, 1970, if he or she had resided there without substantial interruption for 2 or more years, or

(3) In the region where he or she previously resided for an aggregate of 10 years or more, or

(4) In the region where he or she was born, or

(5) In the region from which an ancestor came.

• • • • •

3. By revising § 43h.5 to read as follows:

§ 43h.5 Enrollment in the 13th region.

A Native eligible for enrollment who is 18 years of age or older and who, on April 1, 1970, was not a permanent resident of Alaska shall on the date he or she files an application for enrollment, elect whether to be enrolled in the 13th region or in the region determined pursuant to § 43h.4(b). Such election shall apply to all dependent members of his or her household who are less than 18 years of age on the date of such election, but shall not affect the enrollment of anyone else. Eligible Natives, entitled to make such an election but who abstain from indicating their preference when they file their applications, shall be enrolled in the appropriate region in Alaska pursuant to paragraphs (2) through (5) of § 43h.4(b).

4. By revising § 43h.6 and adding a new paragraph (h) to read as follows:

§ 43h.6 Applications for enrollment.

(a) All applications for enrollment shall be in writing on forms provided by the Bureau of Indian Affairs and shall be signed by or for the head of each household, spouse, and/or the dependent members of his or her household under 18 years of age. A separate application shall be completed and signed by or for other members of a household 18 years of age or older.

(b) Applications for adopted children or other minors not living with their parents, mentally incompetent persons, members of the Armed Services and/or any eligible members of their immediate families stationed outside the Continental United States, or persons who have died since December 18, 1971, may be filed by a sponsor on or before the deadline specified in this section. Applications for adopted children should be supported by copies of decrees of adoption, if available. Applications for deceased persons should be supported by copy of death certificate or other document which establishes the date of death.

(c) The application shall contain, among other information, the applicant's Social Security number, name, address, sex, date and place of birth, degree of Alaska Native Blood, permanent residence as of April 1, 1970, the village from which his or her ancestors came, and for a nonresident of Alaska, his or her election regarding enrollment in the 13th region. Social Security numbers and cards will be issued by the Social Security Administration to those persons who do not have them.

(d) Completed applications must be submitted to the Enrollment Coordinating Office (Kaloa Building, 16th & "C" Streets), Pouch 7–1971, Anchorage, Alaska 99510, within one year from January 2, 1976.

(e) Residents of Alaska: An enumerator shall be assigned temporarily to each of the 12 Regional Corporations in Alaska to assist in the completion and submission of applications. Upon the request of a Village Corporation, provided there are five or more applications to be filed, an enumerator shall be sent to the village to assist in the completion and submission of applications. They shall also visit centers in urban areas to furnish assistance in completion and submission of applications. Persons who are missed by the enumerators may apply to the Enrollment Coordinating Office by mail or in person.

(f) Nonresident of Alaska: (1) Enumerators shall be assigned or detailed temporarily to the following places to assist in completion and submission of applications by persons residing outside the State of Alaska:

(i) One enumerator to The 13th Regional Corporation;

(ii) One enumerator to the Bureau of Indian Affairs Seattle Liaison Office;

(iii) Enumerators in various urban localities where there is a heavy concentration of Natives.

(2) Persons who are missed by an enumerator or who reside in an area not served by an enumerator may apply to the Enrollment Coordinating Office by mail or in person.

(g) Notice to regional and village corporations: Each regional corporation shall be notified of the name, date, and place of birth, and claimed residence of every applicant for enrollment, including dependents, within the region. Each village corporation shall be notified of the name, date, and place of birth, and claimed residence of every applicant for enrollment, including dependents, within the village. The provisions of this section shall not be applied to the application of an adopted person.

(h) Use of address of record: All notices of action shall be sent to the most current name and address of record in an applicant's file. It is the responsibility of the applicant to advise the Enrollment Coordinating Office of any change of name or address.

5. By revising § 43h.7 to read as follows:

§ 43h.7 Determination of eligibility.

(a) Determination of eligibility shall be made by decision of the Coordinator on the basis of information set forth in the application, records of the Bureau of Indian Affairs, village and tribal rolls and such other evidence as is available, including the submissions, if any, of the regional or village corporations.

(b) Each applicant shall be notified in writing of the decision. If such decision is favorable, the name of the applicant shall be placed on the roll. If the decision is adverse as to enrollment or as to the region or village in which enrolled, the applicant or sponsor shall be notified by certified mail, return receipt requested, of the decision together with the reasons for the decision and of his or her right of appeal.

(c) Each regional corporation shall be notified by certified mail, return receipt requested, of the Coordinator's decisions with respect to persons enrolled or denied enrollment with that region. Each village corporation shall be notified by certified mail, return receipt requested, of the Coordinator's decisions with respect to persons enrolled or denied enrollment in that village. Except with respect to adopted persons, the regional and village corporations shall be further notified of their rights to appeal such decisions and the reasons for acceptance or rejection of the enrollment application.

• • • • •

6. By revising § 43h.8 to read as follows:

§ 43h.8 Appeals.

(a) Appeals by individuals from adverse decisions must be in writing and filed with the Enrollment Coordinating Office not later than 30 days after the date of receipt by certified or registered mail, return receipt requested, of the notice of the adverse decision or not later than 37 days after the date of mailing of such notice where certified or registered mail service to the individual is not available or where any notice is returned to the Coordinator in accordance with postal regulations. Appeals by regional and village corporations from the Coordinator's decisions must be in writing and filed with the Enrollment Coordinating Office not later than 30 days after receipt of the notice sent by certified or registered mail, return receipt requested, or not later than 37 days after the date of mailing of such notice where certified or registered mail service is not available or where any notice is returned to the Coordinator in accordance with postal regulations. A decision of the Coordinator on the application of an adopted person, as defined in § 43h.1(o), will not be subject to appeals by regional or village corporations, leaving such decisions subject to appeal only by the adopted person or his or her guardian or sponsor, if such adopted person is a minor.

(b) Each appeal from a decision on an application for enrollment shall be by petition, which shall state the bases and reasons for the appeal, and which shall include or be accompanied by all arguments, briefs, records, or other evidence which the appellant urges as grounds for reversal. No additional presentation will be allowed except upon a showing satisfactory to the Regional Solicitor.

(c) A copy of each appeal petition and its supporting documents filed by an applicant shall be served by the Coordinator upon the regional and/or village corporation whose region or village names appear on the decision appealed from. A copy of each appeal petition and its supporting documents filed by a regional corporation shall be served by the Coordinator upon the applicant for enrollment and upon the village corporation whose village name appears on the decision appealed from. A copy of each appeal petition and the supporting documents filed by a village corporation shall be served by the Coordinator upon the applicant for enrollment and upon the regional corporation for the region whose name appears on the decision appealed from.

(d) Service as provided for in paragraph (c) of this section shall be made by the Coordinator at the time an appeal is filed with the Enrollment Coordinating Office by delivering a copy of the appeal petition and supporting documents either in person or by certified or registered mail, return receipt requested. If certified or registered mail service to an addressee is not available, service may be made on that addressee by sending to that addressee a copy of the appeal petition and supporting documents by first class mail which is neither certified nor registered. Service will be considered to have been made at the time: (1) Of acknowledgment; (2) of personal service; (3) of delivery by certified or registered mail, return receipt requested; (4) seven (7) days after the date of mailing by first class mail which is neither certified nor registered; or (5) seven (7) days after the date of mailing by certified or registered mail, return receipt requested, which is returned by the Postal Service undelivered. Within 15 days of filing the appeal petition with the Enrollment Coordinating Office, proof of service must be furnished to the Regional Solicitor by the Coordinator. This proof may be made by informing the Regional Solicitor in writing of the names of the parties served; whether service was made personally or by certified, registered, or first class mail which was neither certified nor registered; and the address, if mailed, to which copies of the appeal petition and supporting documents were sent.

(e) A party served with a copy of an appeal petition and supporting documents shall have 20 days from the date of service in which to file written views on the appeal with the Regional Solicitor.

(f) Upon receipt of an appeal petition, the Coordinator will forward the petition, with all records pertaining thereto, to the Regional Solicitor. Determination on appeals will be made by the Regional Solicitor on behalf of the Secretary and shall be final. The applicant and the appropriate village and regional corporation shall be notified in writing of the determination of the Regional Solicitor.

7. By revising § 43h.9 to read as follows:

§ 43h.9 Preparation, certification, approval and amendment of the roll.

(a) The Alaska Native Roll shall be prepared by the Enrollment Coordinating Office, and shall contain for each enrollee his or her name, Social Security number, last known address, sex, date of birth, degree of Alaska Native blood or other basis for determining eligibility, permanent residence as of April 1, 1970, and the village and/or region in which he or she is enrolled.

(b) The roll approved December 17, 1973, subject to appeals and the legal determinations shall be maintained by the Enrollment Coordinating Office, and shall be amended from time to time as necessary to correct errors to show changes in names, addresses, place of enrollment, or other information entitled to recognition, to reflect determinations of eligibility and ineligibility, and for such other purposes as may be required.

8. By revising § 43h.10 to read as follows:

§ 43h.10 Establishment of a 13th Region.

(a) Effective October 1, 1975, by Secretarial Order No. 2980, there was established a 13th region for the benefit of Alaska Natives who are not permanent residents of Alaska and who elected to be enrolled therein. Order No. 2980 was issued pursuant to an order entered on December 30, 1974, in the consolidated cases entitled *Alaska Native Association of Oregon, et al.*, v. *Morton, et al.*, and *Alaska Federation of Natives International, et al.*, v. *Morton, et al.*, Civil Nos. 2133–73 and 2141–73, in the United States District Court for the District of Columbia, and as provided by Section 7(c) of the Act.

(b) Nonresidents of Alaska who are eligible for enrollment pursuant to applications submitted under authority of Section 1 of the Act of January 2, 1976, 89 Stat. 1145, Pub. L. 94–204, may be enrolled in the 13th region or in the appropriate region in Alaska as provided in § 43h.4.

9. By revising § 43h.11 to read as follows:

§ 43h.11 Metlakatla Community members.

No person who was enrolled in the Metlakatla Indian Community of the Annette Islands Reserve as of April 1, 1970, shall be eligible for enrollment under this Part.

§ 43h.13 [Reserved]

10. By revoking and reserving § 43h.13.

11. By revising § 43h.14 to read as follows:

§ 43h.14 Deadlines for amending enrollment applications.

Amendments to enrollment applications or amended applications filed pursuant to the Act of January 2, 1976, will not be considered originally or on appeal unless filed (received by the Enrollment Coordinating Office) on or before April 2, 1977. All such amendments or amended applications received subsequent to April 2, 1977, will be returned to the applicant without action.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 659–76]

PART 16—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION

Subpart E—Exemption of Record Systems Under the Privacy Act

ADOPTION OF REGULATIONS EXEMPTING A CRIMINAL DIVISION SYSTEM OF RECORDS

On June 9, 1976, the Department of Justice published in the FEDERAL REGISTER (41 FR 23206) a proposed regulation amending subpart E to 28 CFR Part 16 exempting a system of records maintained by the Criminal Division of the Department of Justice from provisions of the Privacy Act of 1974 (5 U.S.C. 552a). Interested persons were invited to submit written comments not later than July 9, 1976. No comments were received.

Pursuant to the authority vested in me by 5 U.S.C. 552a, and as Attorney General of the United States, the amendment to Subpart E of Part 16 of Chapter I of Title 28, Code of Federal Regulations, is adopted as published in the FEDERAL REGISTER of June 9, 1976 (41 FR 23206).

Dated: July 23, 1976.

EDWARD H. LEVI,
Attorney General.

§ 16.91 Exemption of Criminal Division Systems—Limited access, as indicated.

• • • • •

(s) The following system of records is exempted pursuant to the provisions of 5 U.S.C. 552a(j)(2) from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(4)(G), (H) and (I), (e)(5) and (8), (f), and (g) of 5 U.S.C. 552a; in addition, the following system of records is exempted pursuant to the provisions of 5 U.S.C. 552a(k)(1) and (k)(2) from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f) of 5 U.S.C. 552a:

V 41 150 AUG 3 76 UMI

(1) Freedom of Information/Privacy Act Records (JUSTICE/CRM–024).

(2) These exemptions apply only to the extent that the records contained in this system have been obtained from other systems of records maintained by the Criminal Division for which exemptions from one or more of the foregoing provisions of the Privacy Act of 1974 have been promulgated. The exemption claimed for this system of records applies only to records obtained from such other Criminal Division systems and only to the same extent as the records contained in such other systems have been exempted.

(t) The system of records listed under paragraph (s) of this section is exempted for the following reasons:

(1) In the course of processing requests for records pursuant to the Freedom of Information Act (5 U.S.C. 552) or for access or correction of records pursuant to the Privacy Act (5 U.S.C. 552a), it is frequently necessary to search for records in systems of records for which exemptions have been claimed pursuant to 5 U.S.C. 552a (j) or (k). When records are located in said systems, it is frequently necessary to prepare copies for the purpose of consulting with agency personnel or with other agencies, either with regard to determining whether or to what extent the records should be disclosed, or access provided, or correction made or denied, or for review in the event of administrative appeal or judicial review.

(2) If records otherwise exempt pursuant to published rules should lose their exempt character when taken from such exempt systems for the purpose of compliance with the Freedom of Information Act and the Privacy Act in reviewing such records and making determination with regard to disclosure, access, and correction, the purpose of the Privacy Act in providing such exemptions, and of the Department of Justice in claiming such exemptions would be defeated and nullified. The proper, efficient, and timely processing of citizens' requests pursuant to said Acts would be hindered and impeded.

[FR Doc.76-22404 Filed 8-2-76;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

South Carolina; Certification of Completion of Developmental Steps

1. *Background.* Subpart D of Part 1902 of Title 29, Code of Federal Regulations (40 FR 54780) sets out procedures under which the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) will make a determination under section 18(e) of the Occupational Safety and Health Act of 1970 (hereinafter referred to as the Act) whether, on the basis of actual operations under a State plan, the criteria of section 18(c) of the Act are being applied under the plan. Such a determination may not be made until at least three years after commencement of operations under the plan and, in the case of a developmental plan, until the State has satisfactorily completed all developmental steps and the Assistant Secretary has had at least one additional year to evaluate the plan on the basis of actual operations. Upon making a determination under 18(e) that the 18(c) requirements are being applied, Federal enforcement of standards and Federal standards (except with regard to on-going cases) cease to apply in the State with respect to any occupational safety and health issue covered under the determination.

Section 1902.34 of Subpart D provides that the evaluation of a State's fully operational program, preparatory to an 18(e) determination, shall commence upon publication in the FEDERAL REGISTER of a certification that all developmental steps have been completed. Such certification must list the developmental steps, including approved amendments thereto, and the dates their approvals were published in the FEDERAL REGISTER; approved substantive changes in the State plan and dates published in the FEDERAL REGISTER; documentation that the State merit system has been approved and found acceptable; and a description of the occupational safety and health issues covered by the certification. If the Assistant Secretary finds that the State has completed all the developmental steps specified in the plan, he shall give notice of same by publishing the certification in the FEDERAL REGISTER and amend the appropriate Subpart of Part 1952 of this Chapter to reflect this finding.

On December 6, 1972, notice was published in the FEDERAL REGISTER (37 FR 25932) of the approval of the South Carolina plan as a developmental plan and adoption of Subpart C of Part 1952 containing the decision and describing the plan. During the three year period, ending December 31, 1975, following commencement of State operations (three years from the date of the State's first 23(g) grant award), Edgar L. McGowan, Commissioner, South Carolina Department of Labor, submitted documentation attesting to the completion of each State developmental commitment for review and approval as provided in 29 CFR Part 1953. Following Departmental review, opportunity for public comment, and subsequent modification of the State's submissions, as deemed appropriate, the Assistant Secretary has approved the completion of all individual South Carolina developmental steps.

2. *Notice of certification of completion of developmental steps under the South Carolina Plan.* In accordance with the provisions of 29 CFR 1902.34, notice is given that the South Carolina occupational safety and health plan is hereby certified, effective August 3, 1976, as having completed all the developmental steps specified in the plan as approved November 30, 1972, on or before December 31, 1975 (see Subpart C of 29 CFR Part 1952) as follows:

(a) All developmental steps specified in the plan and amendments thereto have been completed:

(1) Legislative amendments required to bring the South Carolina occupational safety and health statute (§ 40–257.1 through § 40–274, South Carolina Code of Laws, 1962) into conformity with Federal requirements were enacted effective June 12, 1973, and approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975);

(2) South Carolina occupational safety and health standards identical to Federal standards have been promulgated, subsequently amended to reflect changes in Federal standards and approved by the Regional Administrator for Occupational Safety and Health (hereinafter referred to as the Regional Administrator) on February 27, 1975 (40 FR 16257, April 10, 1975), September 10, 1975 (40 FR 50584, October 30, 1975), October 22, 1975 (40 FR 55405, November 28, 1975), and April 26, 1976 (41 FR 23809, June 11, 1976);

(3) A management information system has been developed. Documentation was submitted on July 10, 1975, and approved by the Assistant Secretary on April 20, 1976 (41 FR 17547, April 27, 1976);

(4) A voluntary compliance program, including on-site consultation services, has been developed and implemented by South Carolina. Documentation on completion of this developmental step was approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975);

(5) A program to provide coverage of State and local government employees in a manner identical to that of employees in the private sector has been developed and implemented. Documentation on completion of this developmental step was initially submitted on May 23, 1974, resubmitted with amendments on June 24, 1975, and approved by the Assistant Secretary on April 20, 1976 (41 FR 17547, April 27, 1976);

(6) Coverage of agricultural workers was initiated directly by the South Carolina Department of Labor on July 1, 1973. Documentation on completion of this developmental step was approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975);

(7) Merit system coverage was extended to South Carolina Department of Labor, Division of Occupational Safety and Health employees effective May 31, 1973. Agreement with the Department of Health and Environmental Control requires that all health personnel cooperating in the State occupational safety and health program be likewise covered by the State merit system. Documentation on the completion of this developmental step was approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975);

(8) A revised South Carolina compliance manual has been developed. Documentation was initially submitted on July 24, 1974, resubmitted with amendments on November 20, 1975, and approved by the Assistant Secretary on July 20, 1976 (41 FR 31204, July 27, 1976);

(9) Regulations establishing procedures for the review of contested cases (Article IV) were revised and promulgated by the State on June 5, 1975, submitted on June 6, 1975, and approved by the Assistant Secretary on April 20, 1976 (41 FR 17547, April 27, 1976);

(10) An Affirmative Action plan to promote equal employment opportunity was submitted on October 10, 1975, and approved as a completed developmental step by the Assistant Secretary on May 19, 1976 (41 FR 21774, May 28, 1976);

(11) The South Carolina Safety and Health poster which informs both private and public employees of their rights and obligations under the South Carolina plan and is to be displayed in all workplaces in the State was submitted on October 20, 1975, and approved by the Assistant Secretary on February 19, 1976 (41 FR 9547, March 5, 1976);

(12) Amendments to State administrative regulations in response to previous commitments and to achieve compatibility with revised enabling legislation were submitted by the State during the period May 23 through November 8, 1974, and approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975):

(i) Temporary variance procedures (Article II, sec. 2.06);

(ii) Permanent variance procedures (Article II, sec. 2.07);

(iii) Employee complaint procedures (Article V, sec. 5.08);

(iv) Employee walkaround procedures (Article V. sec. 5.06);

(v) Prohibition of advance notice of inspection (Article V, sec. 5.04); and

(vi) Recording and Reporting of Occupational Injuries and Illnesses (Article III).

Further minor regulatory amendments were submitted during the period January 15, through November 26, 1975, and approved by the Assistant Secretary on March 19, 1976 (41 FR 12654, March 26, 1976):

(i) Definition of person expanded to include "organization of employees" in Article I, General (Section 1.02G); Article II, Variances (Section 2.01G); Article III, Recordkeeping and Reporting (Section 3.01G); and Article V, Inspections (Section 5.01G).

(ii) Article I, General: Section 1.08—Incorporation by Reference (standards), Section 1.12—General Duty Clause.

(iii) Article II, Variances: Section 2.21—Public Notice of Petition for a Variance and Interim Order, Section 2.22—Variance from Recordkeeping Requirements (available only through U.S. Secretary of Labor), Section 2.23—Variances Granted by Secretary of Labor (honored upon employer filing with South Carolina Commissioner of Labor).

(iv) Article V, Inspections: Section 5.01D—New section reflecting South Carolina legislative provision prohibiting employee loss of wages or other benefits during participation in walkaround with State inspector.

(13) As a result of certain administrative actions the following changes in the South Carolina plan narrative were submitted during the period May 23 through November 8, 1974, and approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1975):

(i) South Carolina Department of Labor to assume responsibility originally intended to be delegated to the State Fire Marshal (secs. 7.03 and 8.02–3);

(ii) South Carolina Department of Labor to assume responsibility originally intended to be delegated to the State Liquefied Petroleum Gas Board (secs. 7.04, 8.01–3, and 8.02–4);

(iii) South Carolina Department of Labor to assume responsibility originally intended to be delegated to the State Department of Agriculture (secs. 7.06 and 11.02);

(iv) Standards Advisory Council disbanded as unnecessary since the State is adopting Federal standards; and

(v) Total number of safety inspectors reduced to twenty-nine (29) and industrial hygienists to six (6) (Appendix 7–a).

(14) A description of the State's occupational health program as performed by the Division of Occupational Health, Department of Health and Environmental Control, together with a formal agreement were submitted as an amendment to the plan during the period May 1974, through April 1975 and approved by the Secretary of Labor on September 22, 1975 (40 FR 44132, September 25, 1976).

(b) The personnel operations of the South Carolina Department of Labor, Occupational Safety and Health Division and the servicing merit system agency have been found to be in substantial conformity with the "Standards for a Merit System of Personnel Administration" by the U.S. Civil Service Commission by letter dated January 22, 1976 (See section (7) above.)

(c) This certification covers all occupational safety and health issues covered under the Federal program except for the longshoring and maritime standards found in 29 CFR Parts 1915, 1916, 1917, and 1918 (longshoring, ship repairing, shipbuilding, shipbreaking), which are excluded from coverage under the plan, and the State program covering State and local government employees.

3. *Location of the plan and its approved supplements for inspection and copying.* A copy of the approved supplements along with the approved plan may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N–3112, 200 Constitution Avenue, N.W., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Suite 587, 1375 Peachtree Street, N.E., Atlanta, Georgia 30309; and Office of the Commissioner of Labor, South Carolina Department of Labor, 3600 Forest Drive, Columbia, South Carolina 29206.

4. *Effect of certification.* The operation of the South Carolina occupational safety and health program will be monitored and evaluated for a period of not less than one year after publication of this certification, to determine whether the State program in operation is at least as effective as operations under the Federal program in order to make a determination under section 18(e) of the Act that Federal enforcement authority and standards should cease to apply in issues under the plan.

In accordance with 29 CFR 1902.35 Federal enforcement authority under sections 5(a)(2), 8, 9, 10, 13 and 17 of the Act (29 U.S.C. 654(a)(2), 657, 658, 659, 662 and 666) and Federal standards authority under section 6 (29 U.S.C. 655) of the Act will not be relinquished during this evaluation period. However, under the terms of the operational agreement entered into with South Carolina on May 9, 1975, (40 FR 27024, June 26, 1975), the exercise of this authority by the U.S. Department of Labor will continue to be limited to, among other things: Complaints filed with the U.S. Department of Labor about violations of the discrimination provisions of section 11(c) of the Act; enforcement of new Federal standards, such as emergency temporary standards, promulgated under section 6 of the Act where necessary to protect employees until such time as the State shall have promulgated equivalent standards; enforcement of Federal standards in the maritime and longshoring issues of 29 CFR Parts 1915, 1916, 1917 and 1918 which issues have been specifically excluded from coverage under the South Carolina plan; and investigations and inspections for the purpose of the evaluation of the South Carolina plan under section 18 (e) and (f) of the Act.

In accordance with this certification 29 CFR 1952.104 is hereby amended to reflect successful completion of the developmental period by changing the title of the section and by adding a paragraph (m) as follows:

§ 1952.104 Completion of developmental steps and certification.

* * * * * *

(m) In accordance with § 1902.34 of this chapter, the South Carolina occupational safety and health plan was certified, effective August 3, 1976, as having completed all developmental steps specified in the plan as approved on November 30, 1972, on or before December 31, 1975.

(Sec. 18, Pub. L. 91–596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Washington, D.C. this 28th day of July 1976.

MORTON CORN,
Assistant Secretary of Labor.

In FR Doc. 76-21743, appearing on page 31207 in the issue of Tuesday, July 27, 1976; in the table to § 180.367, the second entry under the commodity heading reading "Costs, fat" should read "Goats, fat".

Title 41—Public Contracts and Property Management

CHAPTER 28—DEPARTMENT OF JUSTICE

PART 28–1—GENERAL

Procurement Regulations; Initial Issue

This is the initial portion of the Department of Justice Procurement Regulations published under the authority of the Federal Property and Administrative Services Act of 1949, as amended and §§ 0.75(j) and 0.76(j) of Title 28, Code of Federal Regulations. This portion establishes the Department of Justice Procurement Regulations as Chapter 28 of the Federal Procurement Regulations System, and provides for the delegation of contracting authority within the Deparment.

Chapter 28, is added to Title 41 of the Code of Federal Regulations to read as follows:

Part 28–1 is added to read as follows:

Subpart 28–1.1—Introduction

Sec.
28–1.101 Scope of Subpart.
28–1.102 Purpose.
28–1.103 Authority.
28–1.104 Applicability.
28–1.105 Exclusions.

Subpart 28–1.2—Definition of Terms

28–1.205 Procuring activities.
28–1.206 Head of the procuring activity.

Subpart 28–1.3 [Reserved]

Subpart 28–1.4—Procurement Responsibility and Authority

28–1.404–50 Delegation of contracting officers.
28–1.404–51 Redelegation of contracting officer authority.
28–1.404–52 Modification of contracting officer's delegation.
28–1.404–53 Contracting officer's representatives to contractors.
28–1.404–54 Contracting officer's representative—receipt of supplies, equipment or services.
28–1.405 Ratification of unauthorized contract awards.

AUTHORITY: 40 U.S.C. 486(c); 28 CFR 0.75 (j) and 0.76(j).

Subpart 28–1.1—Introduction

§ 28–1.101 Scope of Subpart.

This subpart establishes the Department of Justice Procurement Regulations (JPR) as Chapter 28 of the Federal Procurement Regulations System (41 CFR Ch. 28) and states the relationship of the JPR to the Federal Procurement Regulations (FPR), 41 CFR Ch. 1.

§ 28–1.102 Purpose.

The purpose of these regulations is to provide direction, control and uniformity in the Department's procurement of personal property and nonpersonal services (including construction).

§ 28–1.103 Authority.

JPR are issued under the Federal Property and Administrative Services Act of 1949, as amended and §§ 0.75(j) and 0.76(j) of Title 28, Code of Federal Regulations.

§ 28–1.104 Applicability.

The FPR as implemented and supplemented by the JPR apply to the procurement operations of all Department of Justice procuring activities. However, nothing in those regulations shall impair or affect the authority of the Federal Prison Industries with respect to any program conducted for the purpose of rehabilitation, *Provided*, That the Federal Prison Industries shall, to the maximum extent practicable, consistent with the fulfillment of the purposes of the program and the effective and efficient conduct of its business, coordinate its operations with the requirements of the regulations prescribed by the FPR and JPR. Therefore, the Federal Prison Industries shall comply with those regulations except for reasons peculiar to the operation of the Federal Prison Industries. Where compliance with a specific regulation would be inconsistent with Federal Prison Industries programs, a deviation shall be requested in accordance with § 28–1.109–2(b).

§ 28–1.105 Exclusions.

(a) Certain Department of Justice procurement policies and procedures which come within the scope of this Chapter 28 may nevertheless be excluded under special circumstances such as the following:

(1) The subject matter has a security classification.

(2) The policy or procedure is expected to be effective for a period of less than 6 months.

(3) The policy or procedure is being instituted on an experimental basis for a reasonable period.

(4) The policy or procedure must be implemented in less time than is required to incorporate it as a part of this Chapter 28.

(b) Policies and procedures issued under paragraph (a)(4) of this section will be codified into Chapter 28 not later than 6 months from the date of issue.

Subpart 28–1.2—Definition of Terms

§ 28–1.205 Procuring activities.

(a) "Procuring activity" means any of the following elements of the Department of Justice:

(1) Office of Management and Finance, Operations Support Staff.

(2) Drug Enforcement Administration.

(3) Federal Bureau of Investigation.

(4) Federal Prison Industries.

(5) Law Enforcement Assistance Administration.

(6) U.S. Marshals Service.

(7) Immigration and Naturalization Service.

(8) Bureau of Prisons.

§ 28–1.206 Head of the procuring activity.

"Head of the procuring activity" means those officials identified in § 28.1.404–50(a) having the responsibility for supervision and direction of the procuring activities identified in § 28–1.205.

Subpart 28–1.3 [Reserved]

Subpart 28–1.4—Procurement Responsibility and Authority

§ 28–1.404–50 Delegation of contracting officers.

(a) Pursuant to 28 CFR 0.139(a), the authority vested in the Attorney General to execute, award and administer contracts, including purchase orders, Government bills of lading and other agreements for the expenditure of funds in the acquisition of supplies, nonpersonal services, personal services negotiated under the authority of FPR 1–3.204, for the sale of personal property and to take such actions specifically designated as the responsibility of the contracting officer by the FPR and JPR is hereby delegated to those employees appointed, designated to or acting in the following positions:

(1) Director, Operations Support Staff, Office of Management and Finance.

(2) Director, Federal Bureau of Investigation.

(3) Director, Bureau of Prisons.

(4) Commissioner, Federal Prison Industries.

(5) Commissioner, Immigration and Naturalization Service.

(6) Administrator, Drug Enforcement Administration.

(7) Administrator, Law Enforcement Assistance Administration.

(8) Director, U.S. Marshals Service.

(b) In addition to the authority delegated by the Attorney General in paragraph (a) of this section, the LEAA derives procurement authority from the Omnibus Crime Control and Safe Streets Act of 1968; however, the Department-wide procurement policy of the Attorney General must be adhered to by the LEAA.

§ 28–1.404–51 Redelegation of contracting officer authority.

(a) The contracting officers listed in § 28–1.404–50(a) may redelegate authority to one or more of their subordinates to act as contracting officers. Such delegated authority shall be without power of further redelegation except as follows:

(1) Contracting authority delegated by the Director, Bureau of Prisons; Commissioner, Federal Prison Industries; and the Director, U.S. Marshals Service to Regional Office heads and heads of offices of individual field installations may be further delegated to subordinate individuals at the respective regional offices and installations without power of redelegation.

(2) Contracting authority delegated by the Commissioner, Immigration and Naturalization Service to Heads of Regional Offices may be further delegated to (i) subordinate individuals to provide supply support for the Regional Office, without power of redelegation and (ii) heads of District and/or Sector Offices who may redelegate such authority to subordinate individuals without power of further redelegation.

(b) Contracting authority to other than those positions expressly identified in paragraph (a) of this section shall be redelegated only to subordinate individuals who (1) are actively engaged in procurement, (2) must function as contracting officers in the performance of their duties and (3) meet the qualification requirements of FPR 1–1.404. However, authority to make individual small purchases by the imprest funds (petty cash) method (FPR 1–3.604) may be delegated to subordinate individuals not actively engaged in procurement, *Provided*, (i) That the office(s) they serve would otherwise be without supply support for their immediate needs and (ii) that they have been adequately instructed in the regulations concerning small purchases. The redelegation of contracting authority directly to specific persons without regard for intermediate organizational levels only establishes authority to represent the Government in its commercial business dealings. It is not intended to affect the organizational relationship between the contracting officers and higher administrative and supervisory levels in the performance of their duties.

(c) Designations to other than those positions expressly identified in paragraph (a) of this section shall be made only to individuals. Designations, whether to individuals or by position, shall be in writing and shall specifically state the scope and limitation of the designated contractual authority. A copy of each designation shall be forwarded to the Assistant Attorney General for Administration, Office of Management and Finance.

(d) When exercising delegated contracting authority, a designated employee shall be identified as the contracting officer and shall function within the limits prescribed by law, the FPR and JPR.

(e) A contracting officer shall maintain evidence of his delegation and scope of authority and while functioning as a contracting officer shall make such evidence available upon request by anyone.

§ 28–1.404–52 Modification of contracting officer's delegation.

Designation documents shall not be modified. To effect modification, the current delegation shall be revoked and a new delegation issued.

§ 28–1.404–53 Contracting officer's representatives to contractors.

(a) Contracting officers, other than those delegated authority to purchase only by the imprest fund (petty cash) method under § 28–1.404–51(b), may designate other Government employees to act as their authorized representative to the contractor for specified purposes of contract administration. Such designation shall contain specific instructions as to the extent to which the representative has been delegated authority to take action for the contracting officer. The designation shall state that it does not include authority to sign contractual documents or to otherwise make commitments or issue changes which will affect the price, quantity, quality or performance terms of the contract as these rights are reserved to the contracting officer. The designation may include authority such as the following:

(1) To act as liaison and to coordinate contractor/government activities.

(2) To arrange for and coordinate the use of government resources (personnel, space, documents, etc.).

(3) To provide technical guidance in the performance of the contract.

(4) To receive, review and approve, (but not reject or deny), progress reports, invoices, final reports or other functions of a technical nature.

(b) Designations shall be in writing to the designee and a copy shall be furnished to the contractor. This may be accomplished by inclusion in the contract or by a separate document.

§ 28–1.404–54 Contracting officer's representative—receipt of supplies, equipment or services.

(a) A contracting officer, other than those delegated authority to purchase only by the imprest fund (petty cash) method under § 28–1.404–51(b), may, without notice to the contractor, designate other competent Government personnel, by name or by position and location, to represent him in receiving and inspecting supplies, equipment or services. Duties such as, but not limited to, the following may be performed by these designees:

(1) The inspection and certification as to compliance with quality and quantity requirements; and

(2) Inspection of supplies and equipment for condition and quantity and the acceptance of supplies, equipment or services based on quality inspections made by other authorized representatives.

(b) Designation shall be accomplished by a written notice and as may be otherwise prescribed by the head of the procuring activity.

(c) Representatives shall not advise contractors as to either acceptable or unacceptable contract performance. Findings and recommendations shall be provided to the contracting officer as appropriate. Notices to contractors concerning receipt of unacceptable supplies, equipment or services shall be made only by the contracting officer.

§ 28–1.405 Ratification of unauthorized contract awards.

In each instance where an unauthorized contract award occurs (including small purchases), whether ratified or not, the head of the procuring activity shall report the following data to the Assistant Attorney General for Administration, Office of Management and Finance:

(a) Circumstances regarding the unauthorized contract.

(b) Vendor.

(c) Product or service.

(d) Value.

(e) Action taken by procuring activity.

Effective date: This regulation is effective October 1, 1976.

Dated: July 21, 1976.

GLEN E. POMMERENING,
Assistant Attorney General for Administration.

[FR Doc.76-22393 Filed 8-2-76;8:45 am]

Title 43—Public Lands: Interior

CHAPTER 1—BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR

PART 419—ADMINISTRATIVE CLAIMS UNDER PUBLIC WORKS APPROPRIATION ACT FOR TETON DAM

On July 14, 1976 final regulations were published in the FEDERAL REGISTER (41 FR 29084) governing the processing of claims for actual damages to or loss of property, income, personal injury or for death directly resulting from the failure on June 5, 1976, of Teton Dam of the Lower Teton Division of the Teton Basin Federal Reclamation Project. The regulations were intended to provide payment to the victims of the tragic flood as soon as possible. Interested persons were given 30 days to comment to the Commissioner, Bureau of Reclamation. In addition the Secretary of the Interior reserved the right to modify the regulations from time to time.

While the 30 day comment period has not yet expired, the Secretary of the Interior has recognized through experience with actual claims program administration that in order to compensate flood victims fairly and expeditiously, three immediate changes are necessary in the regulations. First, due to the nature of flood damage, damage to or loss of property, income or personal injury may not be discovered for some time. For example, a building foundation which seems to be sound today may collapse after a claim has been paid due to undetected water seepage caused by the floodwaters. In order to consider fairly such claims a sentence has been added to § 419.1–0(b) providing that an additional claim may be submitted if the claimant had not discovered and by the exercise of reasonable diligence could not have discovered the damage or injury prior to the authorized officer's determination of the claimant's single original claim.

Second, § 419.1–1(a)(5) has been deleted. It required the claimant to certify that if the claim was withdrawn, the claimant would refund or repay to the Treasury all amounts received as partial or emergency payments. Corresponding references to § 419.1–1(a)(5) have been omitted in § 419.3 and § 419.4. The repayment provision could cause serious hardship to individuals, be viewed as a possible penalty for participating in the ad-

V 41 150 AUG 3 76 UMI

ministrative claims program and have a detrimental effect on the administration of the program. The interest of the Federal government is adequately protected by other provisions in the regulations and other legal remedies.

Third, an addition has been made to § 419.7. Section 419.7 governs release of the United States, its agents and employees upon acceptance by the claimant of the payment voucher. In many cases disputes may arise as to the adequacy of the authorized officer's determination. In order to carry out the purpose of these regulations that is to provide payment to the flood victims as soon as possible so they may rebuild their lives and communities, a new paragraph (d) has been added to § 419.7. This new paragraph provides that if the claimant is unwilling to release the United States, its agents and employees from liability for damages caused by the incident, the claimant may elect to accept payment of 50 percent of the amount determined by the authorized officer. If the claimant files a timely request for reconsideration, the remaining 50 percent, or whatever amount is determined by the Office of Hearings and Appeals, will be paid upon final decision by the Office of Hearings and Appeals. If the Office of Hearings and Appeals decides that an amount less than 50 percent of the amount initially determined by the authorized officer and paid to the claimant under this provision is due, the claimant must repay the excess to the Treasury. If the claimant fails to file a timely request for reconsideration, the authorized officer will send the claimant a payment voucher for the remaining 50 percent of the amount determined by the authorized officer. The claimant must execute and return the payment voucher within 45 days or no payment will be made for the remaining 50 percent and the claimant shall be considered to have waived any claim to further payment under these regulations. This waiver does not affect any other rights of the claimant. Acceptance of payment for the final 50 percent of the amount determined by the authorized officer or of the amount decided upon by the Office of Hearings and Appeals shall release the United States, its agents and employees from all possible liability caused by the incident.

Finally, one additional change in the regulations is necessary. Section 419.9(f) only was meant to exclude payment of interest based on any payments authorized or made under these regulations. Direct interest on loans to flood victims made by public or private entities may be claimed under these regulations. Some confusion has arisen about this provision, therefore the last clause of § 419.9 (f) has been deleted.

The Secretary of the Interior has determined that due to the need to provide expeditious relief for disaster victims, public notice and hearings on these regulations are contrary to the public interest and such proceedings shall not be followed. For the same reason, these regulations shall be effective immediately, rather than 30 days following publication. (See 5 U.S.C. 553.)

In consideration of the administrative problems and inequities discussed above and pursuant to the authority contained in the Annual Public Works Appropriation Act of 1976, Pub. L. 94–180, 89 Stat. 1035, and the Act of July 12, 1976, 90 Stat. 889, 43 CFR Part 419 is amended as follows, effective immediately.

Dated: July 28, 1976.

KENT FRIZZELL,
Acting Secretary of the Interior.

1. 43 CFR Part 419 is amended by revising § 419.1–0(b) to read as follows:

§ 419.1–0 When presented.

* * * * *

(b) Single claim. All claims for actual damages to or loss of property, income, personal injury or death, by a single claimant shall be submitted by the claimant as and in a single claim, except as otherwise provided in this section, and each claim shall designate clearly that it is being submitted under the provisions of the Public Works Appropriation Act of 1976, Pub. L. 94–180, 89 Stat. 1035, and the Act of July 12, 1976, 90 Stat. 889. An additional claim may be submitted by the claimant if the claimant had not discovered and by the exercise of reasonable diligence could not have discovered the damage to or loss of property, income or personal injury prior to determination of the claimant's single original claim by the authorized officer.

* * * * *

2. In § 419.1, paragraph (a) is revised to read as follows:

§ 419.1–1 Eligibility.

(a) In order to qualify for payment under these regulations the claimant must certify at the time of submitting his claim, that:

(1) The loss or injury being claimed has not been compensated for by any assistance from other means.

(2) Should the claimant subsequently receive assistance from other means the claimant will refund or repay to the Treasury any payments made under these regulations, to the extent they are duplicated by such subsequent assistance from other means.

(3) The damage, injury, or loss for which a claim is made occurred within the major disaster area as a direct result of the incident.

(4) Upon payment of claims under the provisions of these regulations, with the exception of payment of emergency claims under § 419.3 or partial payments under § 419.4, the claimant shall release the United States, its agents and employees from all possible liability arising from the incident. (See § 419.7)

* * * * *

3. Section 419.3 is revised to read as follows:

§ 419.3 Emergency claim.

(a) The claims officer may in his discretion and upon request of the claimant refer any claim filed under these regulations or portion thereof, to the authorized officer prior to final completion of the investigative report if the claim or portion thereof is for an item or service essential to the claimant to prevent personal hardship or injury.

(b) The authorized officer may, under the authority of this section of these regulations, make payment to the claimant; however, such payment shall not exceed $10,000.

(c) Payment of emergency claims under this section shall be made in accordance with the provisions of § 419.6.

4. Section 419.4 is revised to read as follows:

§ 419.4 Partial payment of claim.

(a) The claims officer may in his discretion and upon request of the claimant refer a portion of any claim filed under these regulations to the authorized officer upon completion of the investigation of such portion of the claim. Only logically severable portions of the claim, as determined by the claims officer, shall be referred to the authorized officer.

(b) Upon receipt of the claims officer's partial investigative report under paragraph (a) of this section, the authorized officer shall make a determination of the claim under the procedures of § 419.2–1. If the authorized officer finds that partial determination is inappropriate, the authorized officer shall return the partial investigative report to the claims officer.

(c) Notice of determination of each partial claim shall be sent in accordance with § 419.2–1(b). Payment of partial claims under this section shall be made in accordance with the provisions of § 419.6.

5. A new paragraph (d) is added to 43 CFR 419.7 to read as follows:

§ 419.7 Release.

* * * * *

(d) If the claimant is unwilling to release the United States, its agents and employees from liability for damages caused by the incident under paragraphs (a) and (b) of this section, the claimant may elect to accept payment of 50 percent of the amount determined by the authorized officer. The acceptance of such payment shall not constitute a release of the United States, its agents and employees under these regulations. If the claimant files a timely request for reconsideration under § 419.5 of these regulations after receiving payment under this paragraph, the remaining 50 percent of the amount determined by the authorized officer, or whatever amount is determined by the Office of Hearings and Appeals, will be paid to the claimant under § 419.6 upon final decision of the Office of Hearings and Appeals decides that an amount less than 50 percent of the amount initially determined by the authorized officer and paid to the claimant under this provision is due, the claimant must promptly repay or refund to the Treasury the amount by which the payment made to the claimant exceeds the amount found by the Office of Hearings and Appeals to have been due. If the claimant fails to file a timely request for reconsideration under § 419.5 after receiving payment under this paragraph or, after filing a timely request for reconsideration withdraws the request or fails to prosecute the request for any reason, the authorized officer will send the claimant a payment voucher under § 419.6 for the remaining 50 percent of the amount determined by the authorized officer. The claimant must execute and return the payment voucher within 45 days or no payment will be made for the remaining 50 percent of the amount determined by the authorized officer and the claimant shall be considered to have waived any claim to further payment under these regulations as to the claim determined by the authorized officer for which the claimant elected to accept payment of 50 percent of the amount determined. Acceptance of payment for the final 50 percent of the amount determined by the authorized officer or for the amount decided upon by the Office of Hearings and Appeals shall release the United States, its agents and employees from all possible liability for damages caused by the incident to the extent provided in under paragraphs (a) and (b) of this section, whichever is applicable.

6. Section 419.9 is revised to read as follows:

§ 419.9 Limitation of damages.

(a) *General.* Claims shall be paid only for damages directly resulting from the incident and which occurred within the major disaster area. No claims shall be paid for punitive damages. The burden of proof on all claims shall be on the claimant.

(b) *Death.* Death claims shall be paid only if the death was directly caused by the incident including, but not limited to, drowning or injuries caused by floodwaters. The measure of damages in the case of a death shall be the actual pecuniary loss suffered by the heirs as would be determined under the laws of the State of Idaho.

(c) *Personal injury.* Claims based on personal injury shall be paid only if the injuries claimed were directly caused by the incident. The measure of damages in the case of a personal injury shall be actual special damages as recoverable under the laws of the State of Idaho.

(d) *Property damage.* Claims based on property damage shall be paid only if the damage claimed was directly caused by the incident, such as, but not limited to, floodwaters or Federal agency activities undertaken as a part of disaster relief activities. No claims shall be paid in excess of whichever of the following constitutes equitable compensation for loss as determined by the authorized officer: (1) The replacement cost of the property, (2) the cost of repairing the property to its condition prior to June 5, 1976, or (3) the amount determined necessary to replace or repair the property under the rules of the Federal agency which has made a disaster loan for such damage.

(e) *Loss of income.* Claims for loss of income whether resulting from personal injury, property damage or death will be paid to the extent such damages would be determined under the laws of the State of Idaho.

(f) *Interest.* No interest shall be paid any claimant based on any payments authorized or made under these regulations.

PART 76—CABLE TELEVISION SERVICES
PART 78—CABLE TELEVISION RELAY SERVICES

Miscellaneous Amendments

Order regarding Editorial amendment of Parts 76 and 78 of the Commission's rules and regulations.

1. Preparatory to the edition of a new Volume XI of the Commission's rules and regulations, numerous editorial changes were made in Part 76 Cable Television Service, and Part 78 Cable Television Relay Service.

2. Adoption of these changes is desirable in order to clarify the rules, make them uniform as to usage and terminology, delete obsolete material, and otherwise improve them from an editorial standpoint. Since the changes are editorial in nature, the prior notice and effective date provisions of section 4 of the Administrative Procedure Act (5 U.S.C. 553) are not applicable. The changes below will be included in the new edition of Volume XI which will be available from the Superintendent of Documents, U.S. Government Printing Office, in the near future.

3. *Accordingly, it is ordered,* Pursuant to authority contained in sections 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended, and §0.231(d) of the Commission's rules and regulations, That effective August 18, 1976, Parts 76 and 78 are amended as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; (47 U.S.C. 154, 155, 303).)

Adopted: July 26, 1976.

Released: July 28, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
R. D. LICHTWARDT,
Executive Director.

§ 76.13 [Amended]

1. In § 76.13(a)(1) amend the reference, 76.61(b)(2)(ii), appearing twice to read: § 76.61(b)(2).

§ 76.54 [Amended]

2. In § 76.54(b), in the first sentence, delete "On or after March 31, 1973, and begin paragraph (b): Significant viewing * * *; and delete note at end of paragraph (d).

§ 76.311 [Amended]

3. In § 76.311(c)(1)(i) delete "not later than June 30, 1972," and insert comma after the word "program".

4. Section 78.3 is revised to read as follows:

§ 78.3 Other pertinent rules.

Other pertinent provisions of the Commission's rules and regulations relating to the Cable Television Relay Service (CARS) are included in the following parts of this chapter:

Part 0—Commission organization.
Part 1—Practice and procedure.
Part 2—Frequency allocations and radio treaty matters; general rules and regulations.
Part 17—Construction marking and lighting of antenna structures.
Part 76—Cable television service.

§ 78.15 [Amended]

5. In § 78.15(b) "CAR" is amended to read: "CARS".

§ 78.18 [Amended]

6. In § 78.18(a)(4) "cable television relay" is deleted and "CARS" inserted; in paragraph (g) "cable television relay (CAR)" is deleted and CARS inserted.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[R.S.O.N. 1210, Corrected Amdt. 3]

PART 1033—CAR SERVICE

Providence and Worcester Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 7th day of April, 1976.

Upon further consideration of Revised Service Order No. 1210, (40 FR 7452, 19478 and 41 FR 4929), and good cause appearing therefor:

It is ordered, That: § 1033.1210 *Revised Service Order No. 1210* Providence and Worcester Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanch-

V 41 150 A UG 3 76 UMI

ette, Richard C. Bond and John H. McArthur, trustees; Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond and John H. McArthur trustees, authorized to operate over tracks of Providence and Worcester Company. (Revised Service Order No. 1210) be, and it is hereby, amended by changing the name Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond and John H. McArthur, Trustees, wherever it appears in this order, to Consolidated Rail Corporation (ConRail).[1]

Effective date: This amendment shall become effective at 12:01 a.m., April 8, 1976.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Lewis R. Teeple, Thomas J. Byrne, and William J. Love.

ROBERT L. OSWALD,
Secretary.

[Rev. S.O. No. 1210, Amdt. 4]

PART 1033—CAR SERVICE

Providence and Worcester Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 28th day of July, 1976.

Upon further consideration of Revised Service Order No. 1210, (40 FR 7452, 19478, 41 FR 4929 and 15414), and good cause appearing therefor:

It is ordered, That: § 1033.1210 *Revised Service Order No. 1210* Providence and Worcester Company authorized to operate over tracks of Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond and John H. McArthur, trustees; Penn Central Transportation Company, Robert W. Blanchette, Richard C. Bond and John H. McArthur, trustees, authorized to operate over tracks of Providence and Worcester Company (Revised Service Order No. 1210) be, and it is hereby, amended by substituting the following paragraph (h) for paragraph (h) thereof:

[1] Correction of order designation.

(h) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., January 31, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date: This amendment shall become effective 11:59 pm, July 31, 1976.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Lewis R. Teeple, Thomas J. Byrne and William J. Love.

ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Browns Park National Wildlife Refuge, Colo.

The following special regulation is issued and is effective on August 3, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

COLORADO

BROWNS PARK NATIONAL WILDLIFE REFUGE

Public hunting of deer is permitted on the Browns Park National Wildlife Refuge, Colorado, for the 1976 seasons except in those areas designated by signs as closed to hunting. Archery deer season is August 21 through September 24, 1976, inclusive. Muzzle loading deer season is September 11 through September 19, 1976, inclusive. General deer season is October 30 through November 5, 1976, inclusive.

Hunting will be in accordance with all applicable State regulations covering the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting of wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 6, 1976.

HERBERT G. TROESTER,
Refuge Manager, Browns Park National Wildlife Refuge, Vernal, Utah.

JULY 21, 1976.

[FR Doc.76-22420 Filed 8-2-76;8:45 am]

PART 32—HUNTING

J. Clark Salyer National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective August 3, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

J. CLARK SALYER NATIONAL WILDLIFE REFUGE

Public hunting of deer with bow and arrow on the J. Clark Salyer National Wildlife Refuge, North Dakota, is permitted from August 27 through November 7 and November 22 through December 12, 1976, only on the area designated by signs as open to hunting. This open area, comprising 31,542 acres, is delineated on a map available at the refuge headquarters, Upham, North Dakota 58789 and from the office of the Area Manager, U.S. Fish and Wildlife Service, P. O. Box 1897, Bismarck, North Dakota 58501. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer with bow and arrow, subject to the following conditions:

Hunting is by foot only. Vehicles are to remain on established refuge roads only.

All hunters must exhibit their hunting licenses, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32 and are effective through December 12, 1976.

JON M. MALCOLM,
Refuge Manager, J. Clark Salyer National Wildlife Refuge.

JULY 20, 1976.

[FR Doc.76-22389 Filed 8-2-76;8:45 am]

PART 32—HUNTING

J. Clark Salyer National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective August 2, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

NORTH DAKOTA

J. CLARK SALYER NATIONAL WILDLIFE REFUGE

Public hunting of deer on portions of the J. Clark Salyer National Wildlife Refuge, North Dakota, is permitted from 12:00 noon to sunset November 12, 1976, and from sunrise to sunset November 13, 1976 through November 21, 1976, on the entire refuge except the headquarters area posted as closed to hunting. This open area is delineated on a map available at the refuge headquarters, Upham, North Dakota 58789, and from the Area Office, U.S. Fish and Wildlife Service, P.O. Box 1897, Bismarck, North Dakota 58501. Hunting shall be in accordance with all applicable State regulations cov-

ering the hunting of deer subject to the following conditions:

(1) A Special Federal Refuge permit is required and may be obtained by applying to the North Dakota Game and Fish Department, 2121 Lovett Avenue, Bismarck, North Dakota 58505.

(2) All hunters must exhibit their Special Federal Refuge permit, hunting license, deer tag, game and vehicle contents to Federal and State officers upon request.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 21, 1976.

JON M. MALCOM,
Refuge Manager, J. Clark Salyer National Wildlife Refuge.

JULY 27, 1976.

[FR Doc.76-22390 Filed 8-2-76;8:45 am]

PART 32—HUNTING

Ouray National Wildlife Refuge, Utah

The following special regulation is issued and is effective on August 3, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

UTAH

OURAY NATIONAL WILDLIFE REFUGE

Public hunting of deer is permitted on the Ouray National Wildlife Refuge, Utah, for the 1976 archery and rifle seasons except in those areas designated by signs as closed to hunting. This open area, comprising 9,500 acres, is delineated on maps available at refuge headquarters, Vernal, Utah, and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 2215, 125 South State Street, Salt Lake City, Utah 84111. Archery deer season is August 21 through September 6, 1976, inclusive. Rifle deer season is October 23 through November 2, 1976, inclusive.

Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) Hunting on Indian lands east of Green River, as posted, requires the possession of a Ute Tribal Permit.

(2) Every deer killed must be checked out at refuge headquarters before hunters leave the area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 12, 1976.

HERBERT G. TROESTER,
Refuge Manager, Browns Park National Wildlife Refuge, Vernal, Utah.

JULY 21, 1976.

[FR Doc.76-22421 Filed 8-2-76;8:45 am]

PART 32—HUNTING

Valentine National Wildlife Refuge, Nebraska

The following special regulation is issued and is effective August 3, 1976.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

The public hunting of prairie grouse and pheasants on the Valentine National Wildlife Refuge, Nebraska, shall be permitted only on areas designated by signs as open to hunting. The open areas are delineated on maps available at refuge headquarters, Valentine, Nebraska 69201, and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Hunting shall be in accordance with all applicable State regulations governing the hunting of prairie grouse and pheasants, subject to the following special conditions:

(1) The refuge will be open to prairie grouse during the regular State prairie grouse season. The open area shall include 40,765 acres or 57 percent of the refuge.

(2) The open season for hunting pheasants on the refuge will be the same as the regular State pheasant season. The open areas shall include 70,085 acres or 98 percent of the refuge. If the State pheasant and prairie grouse season run concurrently at any time, pheasant hunting will be prohibited east of Highway 83 until the grouse season closes.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through the close of the regular State 1976–77 pheasant and prairie grouse hunting season.

ROBERT E. NAGEL,
Acting Refuge Manager, Fort Niobrara-Valentine Complex.

JULY 21, 1976.

[FR Doc.76-22388 Filed 8-2-76;8:45 am]

PART 32—HUNTING

Valentine National Wildlife Refuge, Nebraska

The following special regulation is issued and is effective August 3, 1976.

§ 32.32 Special regulations; big game, for individual wildlife refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Valentine National Wildlife Refuge, Nebraska, is permitted only on the area designated by signs as open to hunting. This open area, comprising 70,085 acres, is delineated on maps available at refuge headquarters, Valentine, Nebraska and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Hunting shall be in accordance with all applicable state regulations governing the hunting of deer.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32 and are effective through December 31, 1976.

ROBERT E. NAGEL,
Acting Refuge Manager, Fort Niobrara—Valentine Complex.

JULY 21, 1976.

[FR Doc.76-22387 Filed 8-2-76;8:45 am]

PART 33—SPORT FISHING

Valentine National Wildlife Refuge, Nebraska

The following special regulations is issued and is effective August 3, 1976.

§ 33.5 Special regulations; sport fishing for individual refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

Sport fishing on the Valentine National Wildlife Refuge, Nebraska is permitted only on the areas designated by signs as open to fishing. These open areas comprising 2,392 acres of water on the refuge, are delineated on maps available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Sport fishing shall be in accordance with all applicable State regulations subject to the following special regulations:

(1) The open season for sport fishing on the refuge during daylight hours only, will be from January 1, 1977 through December 31, 1977.

(2) Hook and line, bow and arrow, and hand spear fishing only are permitted.

(3) Boats with or without electric-type outboard motors are permitted on lakes open to sport fishing in accordance with State boating regulations. Internal combustion type motors are prohibited.

(4) The use or possession of live or dead minnows or whole fish for bait, or the possession of any seine or net for capturing live minnows is prohibited. Parts of dead fish or minnows may be used as bait.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1977.

ROBERT E. NAGEL,
Acting Refuge Manager, Fort Niobrara-Valentine Complex.

JULY 21, 1976.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 83—SCREWWORMS

Entire State of Texas Designated Area of Recurring Infestation

• Purpose. The purpose of this amendment is to designate the entire State of Texas as an area of recurring infestation. •

Statement of considerations. During the present calendar year, screwworm infestations have occurred in more than one-half of the 254 counties in Texas. Historically, screwworm infestations in that State, as in other States, have been heaviest from August through November of each year. Recent heavy rainfall in Texas has provided an ideal environment for a rapid increase in the screwworm population and for the resulting spread of screwworms throughout that State. Under existing regulations, the large number of livestock moving interstate from those Texas counties which are not currently included in the designated areas of recurring infestation, are not required to undergo inspection and treatment for screwworms as a prerequisite for such movement. However, many of the animals, from the Texas counties not included, have wounds or disease conditions which may harbor screwworms, and are, when moved interstate without any restrictions, the primary means of spreading this disease interstate.

Because of these conditions, the unrestricted movement of livestock from the entire State of Texas, without compliance with the inspection and certification requirements, and treatment when found necessary, constitutes a threat to the livestock of the United States. In order to prevent this threat, the entire State of Texas is being designated as an area of recurring infestation because of screwworms. As is the case with all other regulations which are in effect to prevent the interstate spread of livestock diseases, the additional restrictions imposed by this amendment will remain under continuing review, and will be revoked upon a determination that they are no longer deemed necessary to prevent the interstate spread of screwworms.

Accordingly, Part 83, Title 9, Code of Federal Regulations, is amended by revising § 83.2 as follows:

§ 83.2 Notice relating to existence of screwworms.

Notice is hereby given that screwworm infestations exist, usually from April 15 through November 30 of each year, in the entire State of Texas and in portions of the States of Arizona, California, and New Mexico, as designated in paragraphs (a), (b), (c), and (d) of this section. Therefore, the following areas are hereby designated as areas of recurring infestation.

(a) *Arizona.* Cochise, Gila, Graham, Greenlee, Maricopa, Pima, Pinal, Santa Cruz, Yavapai, and Yuma Counties.

(b) *California.* Imperial, Orange, Riverside, and San Diego Counties

(c) *New Mexico.* Dona Ana, Grant, Hidalgo, Luna, and Otero Counties.

(d) *Texas.* The entire State.

(Sec. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; (21 U.S.C. 111, 112, 115, 117, 120, 121); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective August 3, 1976.

The amendment imposes certain further restrictions necessary to prevent the spread of screwworms, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 30th day of July 1976.

J. M. HEJL,
Deputy Administrator,
Veterinary Services.

[FR Doc.76-22666 Filed 8-2-76;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 26]

PUBLIC ENTRY AND USE

Johnston Atoll National Wildlife Refuge

The Fish and Wildlife Service proposes to issue Special Regulations for the protection and conservation of the natural resources and fish and wildlife of Johnston Atoll National Wildlife Refuge. These regulations were promulgated by the Commander, Field Command, Defense Nuclear Agency, the Defense Nuclear Agency, and the Department of Defense in accordance with a Memorandum of Understanding dated May 27, 1976 between the United States Fish and Wildlife Service and the Defense Nuclear Agency. The Fish and Wildlife Service proposes to adopt these regulations by the issuance of Special Regulations under 50 CFR 26.

Johnston Atoll, consisting of Johnston, Sand, North, and East Islands, together with the surrounding reefs is a strategic military installation under the administration of the Department of Defense. Johnston Atoll is also designated as a National Wildlife Refuge, administered for that purpose by the United States Fish and Wildlife Service of the Department of the Interior.

It is the policy of the Department of Defense and the Department of the Interior to act responsibly and effectively in conservation management, including the duty to restore, improve, develop, and conserve, through wise use, the renewable natural resources of the lands and waters under military control. It has been determined that the following regulations will permit both agencies to discharge their responsibilities on Johnston Atoll in accordance with the Internal Security Act of 1950 (64 Stat. 1005, 50 U.S.C. 1005), the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927, 16 U.S.C. 668dd) and the Endangered Species Act of 1973 (87 Stat. 884, 16 U.S.C. 1531).

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections, with respect to the proposed rulemaking, to the Regional Director, Fish and Wildlife Service, Box 3737, Portland, Oregon 97208 by September 1, 1976.

In consideration of the foregoing, the following special regulation is proposed:

§ 26.34 Special regulations concerning public access, use and recreation for individual national wildlife refuges.

JOHNSTON ATOLL NATIONAL WILDLIFE REFUGE

a. General Restrictions for Entire Atoll Area.

(1) It is prohibited for any person to hunt, trap, capture, willfully disturb, or kill any bird of any kind whatever, or take the eggs of such bird, except as specifically authorized by the Manager.

(2) It is prohibited for any person to hunt, trap, capture, or kill any member of a species which has been designated as threatened or endangered pursuant to the Endangered Species Act of 1973 (P.L. 93–205, 87 Stat. 884, 16 U.S.C. 1531).

(3) No molesting or harvesting of turtles or seals is permitted.

b. Additional Restrictions for Certain Areas.

(1) Sand Island: No animals of any kind are permitted upon this Island, except for a reasonable number of domesticated dogs which personnel may keep as pets; however, any such domesticated dogs must be restricted from entering the nesting areas on the Island.

(2) East Island:

(a) No animals of any kind are permitted on this Island.

(b) There shall also be no human visitation to the nesting areas during the nesting season (February 1–September 1), except for:

(1) Purposes of maintenance and repair of facilities on this Island; and

(2) Reasonable use of the unvegetated beach and dock areas shall also be permitted during the nesting season incident to recreational fishing and diving activities.

(3) Lagoon areas within the reef:

(a) Fishing is limited to sport fishing for recreational purposes and for authorized scientific purposes only.

(b) Diving and shell and coral collecting are limited to recreational and scientific purposes only. No commercial activity is permitted.

(c) Harvesting of mature lobsters is permitted for personal consumption only and on a noncommercial basis. The lobster season shall be closed during the period June 1 to August 31, and no lobster harvesting shall be permitted during such closed season. Harvesting of lobsters of less than mature age (approximately one pound) is not permitted at any time.

(d) The use of nets within the lagoon area is prohibited, except for throw nets with a minimum mesh size of one and one-half inches stretched diagonal measure.

The provisions of this special regulation supplement the regulations which govern public entry and use on natural wildlife refuges generally, which are set forth in Title 50 Code of Federal Regulations, Part 26, and are effective until revoked or amended.

DONALD HANKLA,
Acting Regional Director.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

RURAL TELEPHONE PROGRAM

Proposed Revision in REA Specification PE–60 for Trunk Carrier Equipment

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to revise REA Bulletin 345–50 to announce the addition of new requirements in REA Specification PE–60 for trunk carrier equipment. On issuance of REA Bulletin 345–50, Appendix A to Part 1701 will be modified accordingly.

Persons interested in the revision to the specification may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, on or before September 2, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

A copy of the revised page 14 of REA Specification PE–60 may be secured in person or by written request from the Director, Telephone Operations and Standards Division.

The text of revised REA Bulletin 345–50 announcing the revision of the specification is as follows:

REA BULLETIN 345–50

REA SPECIFICATION PE–60 FOR TRUNK CARRIER EQUIPMENT

I. *Purpose.* To announce issuance of revised page 14 of REA Specification PE–60 for Trunk Carrier Equipment.

II. *General.* There has been a definite need for a trunk carrier system which would be especially useful in low density areas of the United States and which would be fully com-

V 41 150 AUG 3 76 UMI

patible with station carrier in the same cable. The new requirements reflected in the enclosed sheet are intended to cover low density trunk carrier equipment. Page 14 of REA Specification PE-60 dated April 1975 should be removed and replaced by the enclosed page dated July 1976. This change becomes effective upon its issuance.

III. *Availability of specifications.* Copies of the revised page 14 of PE-60 will be furnished by REA upon request. Questions concerning the revised page may be referred to the Chief, Transmission Branch, Telephone Operations and Standards Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202 447-3917.

Dated: July 28, 1976.

C. R. BALLARD,
Assistant Administrator,
Telephone.

Correction

In FR Doc. 76-18206 appearing on page 25911 in the issue for Wednesday, June 23, 1976, make the following correction:

In the third column of page 25911, in the 5th line of the second full paragraph, the words "same and effective" should have read "safe and effective".

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 13, 81, 83]

[Docket No. 20813]

RADIOTELEGRAPHY USE IN MARITIME SERVICES

Frequencies, Operating Procedures, Technical Standards and Other Criteria; Extension of Comment Period

Order. In the matter of amendment of Parts 2, 13, 81 and 83 to implement changes in frequencies, operating procedures, technical standards and other criteria relating to the use of radiotelegraphy in the maritime services adopted at the ITU World Maritime Administrative Radio Conference, Geneva, 1974,[1] Docket No. 20813.

1. The American Institute of Merchant Shipping (AIMS) has requested that the time for filing comments and reply comments in this docket be extended from July 26 and August 10, 1976, respectively, to August 6 and August 23, 1976, respectively.

2. AIMS states that its Director of Telecommunications, who is responsible for soliciting and coordinating industry comments regarding the subject docket, will be attending the Inter-Governmental Martime Consultative Organization's (IMCO) Subcommittee on Radiocommunications meeting in London from July 19 to July 23, 1976, and will not return to the United States until July 25, 1976. In that this leaves but one day to finalize an industry submission prior to the comment deadline, an extension of the filing period is requested.

3. For good cause shown, we find the public interest will be served by an extension of the comment and reply comment filing periods as requested by AIMS.

4. Accordingly, pursuant to the authority contained in §§ 0.331 and 1.46 of the Commission's rules, the request of AIMS is granted and the dates for filing comments and reply comments in this proceeding are extended to August 6 and August 23, 1976, respectively.

Adopted: July 26, 1976.

Released: July 27, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[47 CFR Part 73]

[Docket No. 20834]

FM BROADCAST STATIONS IN MUNCIE, INDIANA

Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of Amendment of § 73.202(b), FM Broadcast Stations (Muncie, Indiana), Docket No. 20834, RM-2413.

1. On June 1, 1976, the Commission adopted a notice of proposed rulemaking and order to show cause in the above-entitled proceeding (41 FR 24186). The date for filing comments has expired (July 15) and the date for filing reply comments is presently July 26, 1976.

2. On July 20, 1976, Twin Cities Broadcasting, Inc., licensee of Radio Station WXUS(FM), Lafayette, Ind. (WXUS), by counsel, filed a petition for extension of time for filing comments and reply comments to July 30 and August 10, 1976, respectively. WXUS was also requested to file comments by July 15, showing cause why its license should not be modified. A petition for acceptance of the late-filed request for extension was also filed. Counsel states that Donald R. Walters, Vice-President of Twin Cities Broadcasting, Inc., with no prior legal training, attempted to research, prepare and file comments on behalf of WXUS. WXUS, counsel adds, chose to forego the assistance of Washington counsel because the marginal financial condition of the station left it with an inadequate source of funding for professional services. He states that Mr. Walters was unable to file timely comments, since as a layman he admitted he was overwhelmed by the procedures involved. Counsel notes also that on June 30, the Station Manager of WXUS resigned, requiring Mr. Walters to devote a substantial amount of his time to the day-to-day internal operation of the station. On July 19, WXUS requested Bilger and Blair, its counsel, to provide legal assistance on this matter.

3. Pursuant to the provisions of § 1.46 of the rules, motions for extension of time are to be filed seven days prior to the filing date to afford the Commission sufficient time to act on the request and give timely notice of the action to interested persons. Late-filed requests will be considered in cases of last minute emergencies which could not have been anticipated by the party requesting the extension. Since the Commission has ordered Station WXUS to show cause why its license should not be modified, and since we would be hesitant to imply WXUS's consent to the proposed modification, an extension of time should be granted in our opinion.

4. *Accordingly, it is ordered,* That the dates for filing comments and reply comments in Docket No. 20834, are extended to and including July 30, and August 10, 1976, respectively.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: July 23, 1976.

Released: July 28, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
NEAL K. MCNAUGHTEN,
Acting Chief, Broadcast Bureau.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1109]

[Ex Parte No. 327]

RATE INCENTIVES FOR CAPITAL INVESTMENT

Proposed Rulemaking and Order

JULY 27, 1976.

Congress has declared as its purpose in enactment of the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94-210, (4 R Act) "to provide the means to rehabilitate and maintain the physical facilities, improve the operations and structure, and restore the financial stability of the railway system of the United States, and to promote the revitalization of such railway system, so that this mode of transportation will remain viable in the private sector of the economy and will be able to provide energy-efficient, ecologically compatible transportation services with greater efficiency, effectiveness, and economy." In order to encourage capital investment and thus assist in the rehabilitation and revitalization of the railway system, Congress has enacted section 206 of the 4 R Act. This new section governs the publication of railroad rates based on a capital investment of $1,000,000 or more, individually or collectively, by a carrier, or by a shipper, receiver, agent thereof, or an interested third party. The full text of section 206, amending the Interstate Commerce Act by adding a new provision, section 15(19), is set forth below.

To promote the filing of rates based on capital investment of $1,000,000 or more, it appears preferable to adopt regulations under the new section 15(19) of the Act rather than permit uncertainty to exist for an extended period of time while rules, standards and procedures are developed on a case by case basis. Accordingly, the regulations here proposed for adoption are designed to encourage the filing of capital incentive rates by facilitating publication and by establishing expedited procedures to resolve controversies associated with the filing of rates based on a capital investment of a $1,000,000 or more.

DISCUSSION OF THE PROPOSED REGULATIONS

The provisions of section 15(19) of the Act have limited applicability. New railroad rate filings that do not involve a capital investment of a million dollars or more are subject to other sections of the Act. Only those railroad tariff proposals based on a capital investment of a million dollars or more are subject to the special requirements of section 15(19) of the Act. For this reason, the first regulation proposed for adoption § 1109.20(a), limits the application of the remainder of the regulations here proposed for adoption to rates based on a capital investment of a million dollars or more. A finding under section 15(19) and the proposed procedures is optional; a carrier may elect to take advantage of the new statutory provision or it may file a capital incentive rate under section 15(8), subject to normal investigation and suspension procedures.

Although Congress could have provided that capital incentive rates might be filed with the Commission 30 days in advance of their effective dates, as is the usual procedure for rate changes pursuant to section 6 of the Act, Congress instead provided that the actual filing of a capital incentive rate must be preceded by the filing of a "notice of intention to file a schedule stating a new rate * * *" This notice must be filed so as to allow the Commission a "180-day period following the filing of such notice of intention" to determine whether "the proposed schedule, or any part thereof, would be unlawful." To assure that a decision on the merits, in the event of protest, can be rendered in the 180-day period the proposed regulation §1109.20(b) provides:

(1) That two copies of the proposed tariff be submitted with the notice of intention to file, one copy of which will be placed on file and remain available for public inspection in the Public Tariff File, Room 6217, of the Interstate Commerce Commission, Washington, D.C.;

(2) That a sworn affidavit setting forth in detail the anticipated capital investment accompany the notice; and

(3) That the carrier prepare and submit a summary, suitable for publication in the FEDERAL REGISTER, containing relevant data upon which a concerned person can form an informed judgment on whether to protest the proposal.

Proposed regulation § 1109.20(c) provides that notice of a carrier's proposal to file a capital incentive rate shall be given to concerned persons by publication of a summary of the proposal in the FEDERAL REGISTER.

Protests, if any, must be filed 25 days after the date of publication of the summary in the FEDERAL REGISTER [proposed regulation §1109.20(d)]. Section 15(19) directs that, if a protest is filed, the Commission must conduct a hearing. This requirement of a mandatory hearing, in the event of protest, is implemented by proposed regulation § 1109.20(e).

Proposed regulation § 1109.20(e)(2) places the burden of proof on protestant. Section 15(19) states, "[u]nless * * * the Commission determines * * * that the proposed schedule, or any part thereof, would be unlawful, such carrier may file the schedule * * *" Thus, a capital incentive rate cannot be prevented from being filed unless the Commission makes a definite finding of unlawfulness based on substantial evidence on the record as a whole.

Section 556 of the Administrative Procedure Act (5 U.S.C. 556), establishes the general rule that the proponent of a rule or order has the burden of proof. Since a proposed captal incentive rate will become effective automatically absent a prior Commission finding of unlawfulness, it must be the protestant which is seeking an order from the Commission. Consequently, the protestant must have the burden of proof.

The remaining proposed regulations provide that, with respect to all filings under section 15(19), the Commission will enter an order either authorizing or prohibiting the publication of capital incentive rates, [proposed regulation § 1109.20(f)] and for the reopening to consider going concern value [§ 1109.20(h)(1)] and to consider violations of sections 2, 3 or 4 of the Act after the incentive rate has been in effect for a 5 year period, [proposed regulations § 1109.20(h)(2).]

The regulations [proposed regulation § 1109.20(g)] require that a tariff provision implementing a capital incentive rate must indicate that the rate has been established in accord with these special procedures [proposed regulations 49 CFR 1109.20(a) et seq.] and make reference to the Commission order authorizing the publication of that capital incentive rate.

Wherefore, in order to provide opportunity for full consideration of the proposed rules previously discussed and set forth in Appendix B hereto, and any related matters:

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of section 206 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210), the Interstate Commerce Act (49 USC 15(19)), and the Administrative Procedure Act (5 USC 553 and 559) with the objective of encouraging capital investment in railroad facilities by facilitating the publication of new rates based on capital investment of a million dollars or more, individually or collectively, by a carrier, shipper, receiver, agent, or interested third party.

It is further ordered, That all common carriers by railroad subject to Part I of the Interstate Commerce Act, be, and they are hereby, made respondents in this proceeding.

It is further ordered, That any person interested in this proceeding shall notify this Commission by filing with the Office of Proceedings, Interstate Commerce Commission, Room 5342, Washington, D.C. 20423, on or before August 23, 1976, the original and one copy of a statement of intent to actively participate. The Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed. No oral hearing will be scheduled for the receiving of testimony unless a need therefor should later appear.

It is further ordered, That following the preparation of the service list, a procedural order will be entered designating due dates for submission of evidence and arguments.

And it is further ordered, That a copy of this notice be served on each respondent, that a copy be deposited in the office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and that statutory notice of the institution of this proceeding, be given to the general public by delivery of a copy thereof to the Director, Office of the Federal Register for publication therein.

By the Commission.[1]

ROBERT L. OSWALD,
Secretary.

Section 15 of the Interstate Commerce Act is amended by adding at the end thereof the following new paragraph:

RATE INCENTIVES FOR CAPITAL INVESTMENT

(19) Notwithstanding any other provision of law, a common carrier by railroad subject to this part may file with the Commission a notice of intention to file a schedule stating a new rate, fare, charge, classification, regulation, or practice whenever the implementation of the proposed schedule would require a total capital investment of $1,000,000 or more, individually or collectively, by such carrier, or by a shipper, receiver, or agent thereof, or an interested third party. The filing shall be accompanied by a sworn affidavit setting forth in detail the anticipated capital investment upon which such filing is based. Any interested person may request the Commission to investigate the schedule proposed to be filed, and upon such request the Commission shall hold a hearing with respect to such schedule. Such hearing may be conducted without answer or other formal pleading, but reasonable notice shall be provided to interested parties. Unless, prior to the 180-day period following the filing of such notice of intention, the Commission determines, after a hearing, that the proposed schedule, or any part thereof, would be unlawful, such carrier may file the

[1] (Commissioner MacFarland did not participate.)

[1] See 41 FR 24155, Tuesday, June 15, 1976.

V 41 150 AUG 3 76 UMI

schedule at any time within 180 days thereafter to become effective after 30 days' notice. Such a schedule may not, for a period of 5 years after its effective date, be suspended or set aside as unlawful under section 2, 3, or 4 of this part, except that the Commission may at any time order such schedule to be revised to a level equaling the variable costs of providing the service, if the rate stated therein is found to reduce the going concern value of the carrier.

It is proposed to amend 49 CFR 1109 by adding § 1109.20 as set forth below:

§ 1109.20 Requirements and special procedures relating to rate incentives for capital investment.

(a) *Applicability.* The provisions of this part apply to railroad proposals for a new rate, fare, charge, classification, regulation, or practice that requires a total capital investment of $1,000,000 or more, individually or collectively, by such carrier, or by a shipper, receiver, or agent thereof, or an interested third party. These proposed rates are hereinafter referred to as capital incentive rates.

(b) *Notice of intention.* A notice of intention to file a schedule containing a capital incentive rate must be filed in advance of the filing of the actual tariff by the carrier (or its agent) electing to use the special procedures adopted pursuant to section 15(19). This notification, an original and 7 copies, shall make reference to Ex Parte No. 327, and shall be accompanied by the following documents:

(1) Two copies of the proposed tariff, one copy of which will be received and remain available for public inspection in the Public Tariff File, Room 6217, of the Interstate Commerce Commission, Washington, D.C.

(2) A sworn affidavit setting forth in detail the anticipated capital investment upon which such filing is based.

(3) *A summary suitable for publication in the* FEDERAL REGISTER. The summary shall include the name of the entity proposing to make the capital investment, the anticipated amount of the capital investment, the nature of the railroad facility to be augmented, improved or constructed, the commodity or commodities to be transported, the proposed duration of the capital incentive rate, the name and address of the responsible carrier official or representative to whom inquiries and request for documents relating to the proposal should be addressed, and a statement that a copy of the proposed tariff is available for public inspection in the Public Tariff File, Room 6217, of the Interstate Commerce Commission, Washington, D.C.

(c) FEDERAL REGISTER *publication.* The Commission will, as soon as practicable cause a summary of the proposal to be published in the FEDERAL REGISTER.

(d) *Protest.* Within 25 days from date of publication in the FEDERAL REGISTER, any interested person, herein referred to as protestant seeking a hearing on the proposed capital incentive rate must so inform the Commission and the carrier official or representative identified in the FEDERAL REGISTER. An original and 7 copies of this notification, hereinafter referred to as a protest, must be filed with the Commission and shall make reference to Ex Parte No. 327, the date of publication of the summary in the FEDERAL REGISTER, and the grounds for the requested investigation.

(e) *Hearing.* Upon the receipt of a protest, the Commission by order will immediately schedule a hearing to commence 30 days from service of the order.

(1) *Burden of proof.* In any hearing pertaining to a capital incentive rate the burden of proof shall be upon the protestant.

(2) *Procedural dates.* Protestant's initial presentation, in written form under modified procedure (unless oral hearing is directed), shall be due 30 days from service of the Commission order instituting the proceeding. The reply statement of the carrier (respondent) or any interested party shall be due 20 days thereafter. Complainant's rebuttal statement shall be due 20 days after the filing of the reply statement.

(3) *Postponement of procedural dates.* In view of the statutory requirement that hearings be concluded within a 180-day period following the notice of intention to file a capital incentive rate, postponement of the procedural dates established by these regulations is not contemplated. Request for postponement, if received later than 10 days before the due date, will not be accepted for filing.

(f) *Orders authorizing or prohibiting the publication of capital incentive rates.* With respect to every capital incentive rate proposal, the Commission shall enter an order either authorizing the publication of the actual tariff on 30 days' notice or prohibiting the publication of such rate.

(1) *Non-investigated proposals.* An order shall be entered 35 days after publication of the summary in the FEDERAL REGISTER authorizing the tariff publication on 30 days' notice of the non-investigated capital incentive rate. This authorization order shall be valid for a 180-day period and, if not exercised within that period, the order shall be of no further force or effect.

(2) *Investigated proposals.* (i) If, after hearing, the Commission finds that the capital incentive rate proposal is lawful, it will enter an order or report and order giving reasons for its conclusion and authorizing the filing on 30 days' notice of a tariff incorporating the proposal. This authorization, if not exercised, shall expire 180 days after service of the order.

(ii) If, after hearing, the Commission finds that the capital incentive rate proposal is unlawful, it will enter an order or report and order giving reasons for its conclusions prohibiting the publication of a tariff implementing the proposal.

(g) *Notation in tariffs or schedules.* Tariff provisions implementing capital incentive rates shall contain the following notation:

Provisions named herein authorized by Commission order served ——————, 19—, and in conformity with 49 CFR 1109.20.

(h) *Reopening.* (1) The Commission shall retain jurisdiction to order that the capital incentive rate be increased to a variable cost level in the event the capital incentive rate is found to reduce the going concern value of the carrier.

(2) For a period of 5 years following the date a capital incentive rate becomes effective, the proceeding shall not be reopened for consideration of alleged violations of sections 2, 3, or 4 of the Act. Similarly, the schedules may not be set aside in a complaint proceeding as unlawful under sections 2, 3, or 4 within 5 years after the effective date of the incentive rate publication.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Fiscal Service

ADVISORY COMMITTEE ON FEDERAL CONSOLIDATED FINANCIAL STATEMENTS

Meeting

The second meeting of the Advisory Committee on Federal Consolidated Financial Statements is scheduled for Wednesday September 8, 1976, at 10:00 a.m. in Room 4121, Department of the Treasury, 15th & Pennsylvania Avenue, NW., Washington, D.C.

As announced in the Federal Register on February 20, 1976, the Secretary of the Treasury has approved a plan which calls for development and publication of consolidated financial statements for the Government on an accrual basis. There are major conceptual issues which need to be studied and resolved before a useful and reasonably reliable set of consolidated financial statements can be prepared in accordance with generally accepted accounting principles applicable to the Federal Government. Accordingly, the Advisory Committee on Federal Consolidated Financial Statements was formed to advise, recommend and lend vital staff assistance to the Secretary in the development of consolidated financial statements for the Federal Government.

For this second meeting, the members will be requested to formulate recommendations on the following conceptual issues:

Objectives of the Statements
Format of the Statements
Pension Fund Liabilities
Contingencies (Commitments)

Due to time constraints, no oral presentations by the public will be allowed at this meeting. However, anyone desiring to comment on the above issues should submit a written statement not later than September 1, 1976. All written statements received by this date will be considered by the Committee in determining its recommendations.

The meeting will be open to the public. It is to be held in a room accommodating 39 people in addition to members of the Committee and Treasury officials. Since the meeting is in a restricted admittance area, persons interested in attending are asked to call Mr. Michael Smokovich on (202) 964-8543 not later than 5 p.m. September 7, so that confirmation of space and access procedures can be provided.

Persons who want to submit written statements or desire further information should write to Mr. Michael Smokovich, Bureau of Government Financial Operations, Government Accounting Systems Staff, Treasury Annex No. 1, Room 412, Pennsylvania Avenue and Madison Place, NW., Washington, D.C. 20226. The minutes of the meeting will be available for public inspection. Copies may be obtained upon written request to Mr. Smokovich.

Dated: July 29, 1976.

DAVID MOSSO,
Fiscal Assistant Secretary.

Office of the Secretary

[Public Debt Series No. 20-76]

TREASURY BONDS OF 1996-2001

Invitation To Bid

JULY 29, 1976.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $1,000,000,000, or thereabouts, of bonds of the United States, designated Treasury Bonds of 1996-2001 (CUSIP No. 912810 BW 7). The interest rate for the bonds will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these bonds may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves in exchange for maturing Treasury securities held by them and as agents of foreign and international monetary authorities for new cash only. Tenders will be received up to 1:30 p.m., eastern daylight saving time, Friday, August 6, 1976, under competitive and noncompetitive bidding, as set forth in Section III hereof. The 7½ percent Treasury Notes of Series C-1976 and 6½ percent Treasury Notes of Series G-1976 maturing August 15, 1976, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. DESCRIPTION OF BONDS

1. The bonds will be dated August 16, 1976, and will bear interest from that date, payable on a semiannual basis on February 15 and August 15, 1977, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature August 15, 2001, but may be redeemed at the option of the United States on and after August 15, 1996, in whole or in part, at par and accrued interest on any interest day or days, on 4 months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe. In case of partial redemption, the bonds to be redeemed will be determined by such method as may be prescribed by the Secretary of the Treasury. From the date of redemption designated in any such notice, interest on the bonds called for redemption shall cease.

2. The income derived from the bonds is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Book-entry bonds will be available to eligible bidders in multiples of those amounts. Interchanges of bonds of different denominations and of coupon and registered bonds, and the transfer of registered bonds will be permitted.

5. The bonds will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States bonds.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Daylight Saving time, Friday, August 6, 1976. Each tender must state the face amount of bonds bid for, which must be $1,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension

V 41 150 AUG 3 76 UMI

and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or the notes referred to in Section I which will be accepted at par) of 5 percent of the face amount of bonds applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted a coupon rate will be determined at a ⅛ of one percent increment that translates into an average accepted price close to 100.000 and a lowest accepted price above 94.000. That rates of interest will be paid on all of the bonds. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $1,000,000,000 of bonds offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price[1] (in three decimals) of accepted competitive tenders.

IV. PAYMENT FOR AND DELIVERY OF BONDS

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before August 16, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, notes referred to in Section I (interest coupons dated August 15, 1976, should be detached), in other funds immediately available to the Treasury by August 16, 1976, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treausry no later than: (1) Wednesday, August 11, 1976, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, August 9, 1976, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered bonds are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed the payment with the tender up to 5 percent of the amount of bonds allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. When payment is made with notes, a cash adjustment will be made to or required of the bidder for any difference between the face amount of notes submitted and the amount payable on the bonds allotted.

2. Delivery of bonds in bearer form will be made on or about August 19, 1976. Purchasers of bearer bonds may elect to receive interim certificates on August 16, 1976, which will be exchangeable for the bonds when available at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for bonds allotted hereunder are not required to be assigned if the bonds are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the bonds, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities, as hereinafter set forth. Bonds to be registered in names and forms different from those in the inscriptions or assignments of the notes presented should be assigned to "The Secretary of the Treasury for Treasury Bonds of 1996–2001 in the name of (name and taxpayer identifying number)." If bonds in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon Treasury Bonds of 1996–2001 to be delivered to _____." Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of bonds on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

GEORGE H. DIXON.
Acting Secretary of the Treasury.

[FR Doc.76-22636 Filed 7-30-76;3:53 pm]

[Public Debt Series No. 18-76]

TREASURY NOTES OF SERIES J–1979

Invitation To Bid

JULY 29, 1976.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for $2,000,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series J–1979 (CUSIP No. 912827 FV 9). The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves in exchange for maturing Treasury securities held by them and as agents of foreign and international monetary authorities for new cash only. Tenders will be received up to 1:30 p.m., eastern daylight saving time, Tuesday, August 3, 1976, under competitive and noncompetitive bidding, as set forth in Section III hereof. The 7½ percent Treasury Notes of Series C–1976 and the 6½ percent Treasury Notes of Series G–1976, maturing August 15, 1976, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. DESCRIPTION OF NOTES

1. The notes will be dated August 16, 1976, and will bear interest from that date, payable on a semiannual basis on February 15 and August 15, 1977, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature August 15, 1979, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., eastern daylight saving time, Tuesday, August 3, 1976. Each tender must state the face amount of notes bid for, which must be $5,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or the notes referred to in Section I, which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tends, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be determined at a ⅛ of one percent increment that translates into an average accepted price close to 100.000 and a lowest accepted price above 99.500. That rate of interest will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the $2,000,000,000 of notes offered, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated yield from any one bidder will be accepted in full at the average price[1] (in three decimals) of accepted competitive tenders.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before Monday, August 16, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, notes referred to in Section I (interest coupons dated August 15, 1976, should be detached), in other funds immediately available to the Treasury by August 16, 1976, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, August 11, 1976, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Monday, August 9, 1976, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes alloted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. When payment is made with notes, a cash adjustment will be made to or required of the bidder for any difference between the face amount of notes submitted and the amount payable on the notes allotted.

V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the new notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the new notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities, as hereinafter set forth. When the new notes are to be registered in names and forms different from those in the inscriptions or assignments of the notes presented the assignment should be to "The Secretary of the Treasury for Treasury Notes of Series J–1979 in the name of (name and taxpayer identifying number)." If notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for Coupon Treasury Notes of Series J–1979 to be delivered to _____." Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

GEORGE H. DIXON.
Acting Secretary of the Treasury.

[Public Debt Series No. 19-76]

8 PERCENT TREASURY NOTES OF SERIES B–1986

Offering of Notes

I. OFFERING OF NOTES

JULY 29, 1976.

1. The Secretary of the Treasury pursuant to the authority of the Second Liberty Bond Act, as amended, offers $4,000,000,000, of notes of the United States, designated 8 percent Treasury Notes of Series B–1986 (CUSIP No.

[1] Average price may be at, or more or less than 100.000.

[1] Average price may be at, or more or less than 100.000.

V41150 AUG 3 76 UMI

912827 FW 7), at par. On the basis primarily of the level of subscriptions received accompanied by the 20 percent deposit, as hereinafter provided in Section III, paragraph 4, the Secretary of the Treasury expressly reserves the right to increase the amount of the offering. It is not expected that the amount of the increase would be substantially in excess of $2,000,000,000. Additional amounts of these notes may be issued to Government accounts and to Federal Reserve Banks in exchange for maturing Treasury securities held by them. The 7½ percent Treasury Notes of Series C–1976 and 6½ percent Treasury Notes of Series G–1976, maturing August 15, 1976, will be accepted at par in payment, in whole or in part, to the extent subscriptions are allotted by the Treasury. The books will be open through Wednesday, August 4, 1976, for the receipt of subscriptions.

II. DESCRIPTION OF NOTES

1. The notes will be dated August 16, 1976, and will bear interest from that date, payable on a semiannual basis on February 15 and August 15, 1977, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature August 15, 1986, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible subscribers in multiples of these amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. SUBSCRIPTIONS AND ALLOTMENTS

1. Subscriptions accepting the offer made by this circular will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, through Wednesday, August 4, 1976. Each subscription must state the face amount of notes subscribed for, which must be $1,000 or a multiple thereof.

2. All subscribers are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after midnight August 4, 1976.

3. Commercial banks, which for this purpose are defined as banks accepting demand deposits and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit subscriptions for account of customers provided the names of the customers are set forth in such subscriptions, and accompanied by the deposits prescribed below. Others will not be permitted to submit subscriptions except for their own account.

4. Under the Second Liberty Bond Act, as amended, the Secretary of the Treasury has the authority to reject or reduce any subscription, to allot more or less than the amount of notes applied for, and to make different percentage allotments to various classes of subscribers when he deems it to be in the public interest; and any action he may take in these respects shall be final. Subject to the exercise of that authority, subscriptions for $500,000, or less, will be allotted in full provided that 20 percent of the face value of the notes for each subscriber is submitted as a deposit (in cash or the notes referred to in Section I which will be accepted at par). Such deposits must be submitted to the Federal Reserve Bank or Branch, or to the Bureau of the Public Debt, with the subscriptions, including those submitted for the account of customers. Guarantees in lieu of deposits will not be accepted. Allotment notices will not be sent to subscribers submitting subscriptions in accordance with this paragraph.

5. Subscriptions not accompanied by the deposit, as set forth in the preceding paragraph, will be received subject to a percentage allotment. Subscriptions will be received without deposit from commercial and other banks for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, Federal Reserve Banks and Government accounts. Subscriptions from others must be accompanied by a deposit of 5 percent of the face amount of notes applied for, or by a guarantee of such deposit by a commercial bank or dealer as described in paragraph 3 above. Allotment notices will be sent out promptly upon allotment to subscribers submitting subscriptions in accordance with this paragraph. Following allotment, any portion of the 5 percent payment in excess of 5 percent of the amount of notes allotted may be released upon the request of the subscriber.

6. Subscribers may submit subscriptions under the provisions of paragraph 4 with a 20 percent deposit, and paragraph 5 with a 5 percent deposit. Each subscription will be treated as a separate subscription.

IV. PAYMENT FOR AND DELIVERY OF NOTES

1. Payment at par for notes allotted hereunder must be made or completed on or before August 16, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, notes referred to in Section I (interest coupons dated August 15, 1976, should be detached), in other funds immediately available to the Treasury by August 16, 1976, or by check drawn to the order of the Federal Reserve Bank to which the subscription is submitted, or the United States Treasury if the subscription is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, August 11, 1976, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Monday, August 9, 1976, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the subscription up to 5 percent of the amount of notes alloted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

2. Delivery of notes in bearer form will be made on August 16, 1976, except that if adequate stocks of the notes are not available on that date, the Department of the Treasury reserves the right to issue interim certificates on that date which will be exchangeable for the notes when available at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. If a subscriber elects to receive an interim certificate, the certificate must be returned at his own risk and expense.

V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the new notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the new notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the geneeral regulations governing United States securities, as hereinafter set forth. When the new notes are to be registered in names and forms different from those in the inscriptions or assignments of the notes presented the assignment should be to "The Secretary of the Treasury for 8 percent Treasury Notes of Series B–1986 in the name of (name and taxpayer identifying number)." If notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for 8 percent coupon Treasury Notes of Series B–1986 to be delivered to ------ ------." Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Dept, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

GEORGE H. DIXON,
Acting Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON "ELECTRONIC TEST EQUIPMENT"

Advisory Committee Meeting

Pursuant to the provision of Pub. L. 92–463, notice is hereby given that the Defense Science Board Task Force on Electronic Test Equipment will meet in open session on 5 and 6 October 1976 in Room 9W67, National Center Building No. 1, 2511 Jefferson Davis Highway, Arlington, Virginia. Each session will commence at 9 a.m. The meeting on the second day will adjourn at noon.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to examine the greater use by the Department of Defense of privately developed, commercially available off-the-shelf electronic test equipment, including modifications thereof, with the goal of achieving economy and reliability benefits for the several armed services to recommend policies and procedures which will maximize these benefits.

This will be the first meeting of the Task Force to review implementation of the Task Force recommendations.

Telephone inquiries should be directed to Mr. Rudolph J. Sgro, Task Force Executive Secretary at (202) 695–7915.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

JULY 28, 1976.

[FR Doc.76-22381 Filed 8-2-76;8:45 am]

DEFENSE SCIENCE BOARD TASK FORCE ON SPECIFICATIONS AND STANDARDS IMPROVEMENT

Advisory Committee Meeting

Pursuant to the provisions of Pub. L. 92–463, effective January 5, 1973, notice is hereby given that the Defense Science Board Task Force on Specifications and Standards Improvement will meet in open session at 0900 hours, Thursday and Friday, September 16 and 17, 1976, in Room 1 E801 #2, the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to provide an evaluation of current DoD Specifications and Standards and the related DoD organization, system and procedures to serve as a basis for DoD policy decisions to reduce costs in systems/equipment design and application.

At this meeting, the Task Force will discuss its findings to date; summarize actions taken and projected; relate specifications and standards impact on weapon system design, production; consider cost impact on systems and equipment of specifications and standards governing rellability, maintainability, quality, configuration control and the like; identify specifications and standards application problems and initiatives required for solution and consider related subjects that may come before the group.

Attendees outside of Task Force membership will be admitted as observers to the proceedings. With time permitting and at the discretion of the Chairman, a specified but limited time will be allotted so as to permit observers to comment, make recommendations, take issue, or otherwise speak with respect to the subjects.

Due to the limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by September 9, 1976. Notice should include information with respect to interest and degree of participation.

Mr. Lester Fox, Director, Defense Materiel Specifications and Standards Office, Cameron Station, Alexandria, Virginia 22314.

Telephone inquiries may also be made to Mr. Fox at (202) 274–7061.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES V. N. V. NEDERLANDSCHE COMBINATIE VOR CHEMISCHE INDUSTRIE ET AL.

Proposed Consent Judgment; Comments

Pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16, the following written comments on the proposed judgment filed with the United States District Court for the Southern District of New York in Civil Action No. 70 Civ. 2079 (D.N.E.), United States of America v. N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al., were received by the Department of Justice and are published herewith, together with Justice's response to the comments.

Dated: July 28, 1976.

CHARLES F. B. MCALEER,
Assistant Chief, Judgments and Judgment Enforcement Section, Antitrust Division.

UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, against N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al., Defendants. (D.N.E.) Civil No. 70 Civ. 2079).

PLAINTIFF'S SECOND RESPONSE TO COMMENTS UPON THE PROPOSED CONSENT JUDGMENT BETWEEN THE UNITED STATES AND DEFENDANTS BOEHRINGER MANNHEIM GMBH AND VEREINIGTE CHININFABRIKEN ZIMMER & CO. GMBH

This response is directed to the second group of comments upon the proposed consent judgment between the United States and defendants Boehringer Mannheim GmbH and Vereinigte Chininfabriken Zimmer & Co. GmbH ("consenting defendants"), which was received following May 29, 1976 and prior to June 30, 1976 (attached hereto as Exhibit A). This response is made and filed in accordance with the provisions of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b) and (d)). The proposed consent judgment and a Competitive Impact Statement were filed with the Court on April 30, 1976 and published in the FEDERAL REGISTER on May 3, 1976 (41 Fed. Reg. 18328–34 (1976)). Comments received as of May 29th and the response of the United States thereto ("First Response to Comments," attached hereto as Exhibit B), dated June 16, 1976, were published in the FEDERAL REGISTER on July 1, 1976 (41 F.R. 27090–95 (1976)). This response and the comments to which it is directed will also be published together in the FEDERAL REGISTER.

During this second comment period the Department of Justice received ten comments upon the proposed consent judgment. Most of these comments either were limited to a request for copies of the settlement papers or were addressed to the issues to which the

V 41 150 AUG 3 76 UMI

plaintiff responded in the First Response to Comments. Two comments were received which raise additional issues to which plaintiff responds below.

I. *This proceeding is not intended to be punitive.* M. Ehrenberg has suggested that the proposed consent judgment provides for insufficient punishment for the acts alleged in the complaint and believes that some financial sanction should be charged against these defendants, including rebates to persons who use quinine and quinidine products. Plaintiff brought this proceeding for the purpose of enjoining and restraining the violations of the Sherman Act alleged in the complaint. Consenting defendants and others were charged with fixing prices, allocating markets, rigging bids, establishing quotas and allocating supplies. Relief in civil injunctive proceedings brought by the Government under the Sherman Act is directed to restoring competition by terminating the illegal practices alleged in the complaint and by preventing their recurrence in the future rather than by punishment for past acts. Persons can be punished for violations of the antitrust laws by fine and imprisonment if they are charged with criminal violations of the Sherman Act in a criminal proceeding. Such a proceeding was brought by the United States in this Court on October 25, 1968 (*U.S. v. Nederlandsche Combinatie Voor Chemische Industrie, et al.*, 68 Cr. 870 (S.D.N.Y.)). On July 3, 1969, defendant Boehringer entered a plea of nolo contendere to these charges and was fined $80,000. Boehringer's subsidiary, Zimmer, was dismissed from the case at that time.

In addition, the United States sued these defendants for civil damages it suffered as a result of the same violations alleged in the complaint in this action. That suit, *United States v. Nederlandsche Combinatie Voor Industrie, et al.*, 70 Civ. 2080 (S.D.N.Y.), was filed simultaneously with this action. Defendant Boehringer paid $100,000 to the United States in settlement of that suit.

These defendants were also sued in two class actions, one brought by retail druggists and the other by individual consumers of quinine, quinidine and other cinchona products. These actions, which provided for "rebates" to those members of the class included as plaintiffs in such actions, are discussed at Section 2 of the First Response to Comments which is attached hereto as Exhibit B.

Thus, while this proceeding is not directed at criminal punishment of defendants for the violations of the Sherman Act that were alleged, defendants have been punished in a criminal proceeding and have paid damages in three civil proceedings, one action brought by the United States and two class actions brought by private persons.

It also should be noted that the proposed consent judgment represents a settlement rather than a judicial determination that defendants have violated the antitrust laws. The proposed consent judgment specifically recites that there has been no testimony taken and no trial or adjudication of any issue of fact or law in the case. (See page 2 of the proposed consent judgment)

II. *The Availability of Intervention in this Proceeding.* Glen N. W. McNaughton, an attorney representing Peter Marmion, inquires as to the procedures available for intervention in this proceeding and for obtaining damages against defendants for the activities alleged in the complaint. He states that his client attempted to enter the quinine and quinidine manufacturing industry in the early 1960's.

Initially, it must be stated that this proceeding offers no opportunity for the redress of private damage claims against defendants. The purpose of this proceeding is to determine whether the proposed consent judgment agreed to between the United States and consenting defendants is in the public interest and should be entered. Persons wishing to intervene in this lawsuit for the purpose of participating in this decision may be authorized to intervene by the Court pursuant to and in accordance with the requirements of Section 2(f) of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16 (f)(3)). Parties seeking to participate in that manner should make their application directly to the Court and serve notice of such an application upon plaintiff and consenting defendants.

The recourse available to persons claiming to have been damaged by the actions of the defendants alleged in the complaint has been discussed at Section 4 of the Competitive Impact Statement filed in this case and referred to above. Further discussion appears at Section 2 of the First Response to Comments. It can be noted, however, that since it does not appear that Mr. McNaughton's client was either claiming damage as a consumer or as a retail pharmacist, the two class actions discussed in the Competitive Impact Statement and the First Response to Comments do not affect any potential action he may have against consenting defendants.

Dated: July 26, 1976.

Respectfully submitted,

DONALD A. KAPLAN.
JULIE BROOKS MURRAY.

EXHIBIT A

NEW YORK, N.Y.
May 20, 1976.

Hon. DAVID N. EDELSTEIN,
Chief Judge United States District Court, Southern District of New York.

YOUR HONOR: I do not understand the legal language of the public notice in the New York Times, regarding "Proposed Quinine Settlement".

I was awarded some money and I am inquiring if some additional amount is due me.

I would appreciate an early reply and remain.

Sincerely yours,

WALTER BLUM.

BOSTON, MASS.
May 25, 1976.

Ref. Proposed Quinine Settlement Public Notice—Boston Globe, May 24, 1976.

Mr. JOEL DAVIDSON,
Chief Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C.

DEAR SIR: On page five of the Boston Globe for Monday, May 24, 1976, there is a public notice requesting comments from the public.

Does "Quinine, quindine and cinchona" refer to the illegal importation of drugs into the United States?

Does "U.S. v. N.V." mean United States versus New York, New Hampshire or Nevada?

Does the prevalence of German-Dutch in the names of the companies involved indicate a monopoly?

Does "Chininfabriken" indicate manufacture in Red China or Nationalist China? Or does it indicate another product? Opium or Poppy seeds?

Does "consenting defendants" mean that the defendants were aware they were involved in an illegal operation before the operation got off the ground? Did these companies (mentioned above) propose to import the raw material (cinchona) refine/it, manufacture it and distribute it to the public in markets of their own choosing?

Does "sales quotas" and "fix prices" mean that sales have been, are or will be confined to certain segments of the public under prices which make the product available to any person having the wherewithal to buy? Do our antitrust laws concern themselves with only material considerations or may a person denied just recognition sue for grievance under those laws?

Preceding the public notice on page five (ref above) there is a news release continued from page one which occupied the public media for some days. Were all the passengers, hostages?

Is "13" made to appear as "18"?

Do you believe either of the explanations offered res. the method by which the hijackers smuggled the guns and grenades into the plane?

Having read the news release, are you inclined to believe that the "ten bodies" found in the "gutted fuselage" are probably the ten hi-jackers alive and well and the "captured three" under-cover agents working for the United States?

The news release ends with a government statement.

I would like a copy of the information offered in the public notice and any information I may need in order to secure said copy.

Sincerely Yours,

AMELIA ANNA WILSON.

NEW YORK, N.Y.,
May 28, 1976.

Re: Proposed Quinine Settlement.
Mr. JOEL DAVIDOW,
Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C.

DEAR MR. DAVIDOW: I refer to a notice that has been published in the New York Times of May 7, under above-captioned heading.

I would appreciate it if you could kindly send me the text of the proposed settlement. I would also appreciate being appraised of my rights under this settlement given the fact that I have been, due to my health condition, a heavy user of quinine products since 1954 up until today.

Any information and assistance in this matter will be very highly appreciated.

Looking forward to your reply, I remain
Very sincerely.

MARC BREUER.

GENNEVILLIERS.
May 31, 1976.

Mr. JOEL DAVIDOW,
Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C.

DEAR MR. DAVIDOW: Our Company started on March 1974 in the field of fine chemicals production. We are now entering the quinine and quinidine market, starting from Cinchona bark purchased in Africa and South America.

We have read in the "Chemical Marketing Reporter" about the proposed quinine settlement, and we would be grateful to receive copies of the proposal and the CIS, if available.

We thank you for your much valued comments.

Sincerely yours,

DIDIER WIRTH,
Président Directeur Général,
Isochem S. A

BROOKLYN, N.Y.
June 1, 1976.

DEAR MR. DAVIDOW: I am very much interested in the Proposed Quinine Settlement case now before Hon. Chief Judge David N. Edelstein. In particular Item No. 4 of the competitive impact statement. As I am still using quinidine for heart irregularities.

Sincerely Yours,

HARRY SCHLOSSBERG.

BROOKLYN, N.Y.
June 1, 1976.

Hon. DAVID N. EDELSTEIN

I am interested in Item No. 4 of the competitive impact statement, of the proposed Quinine settlement case now before you. I am still taking their pills for my heart irregularities, and I am thankful someone is riding check on these drug manufacturers.

Sincerely yours,

HARRY SCHLOSSBERG.

2 JUNE 1976.

Mr. JOEL DAVIDOW,
Chief, Forcign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C.

DEAR MR. DAVIDOW: In pursuance of the advertisement in the New York Times of the "Proposed Quinine Settlement", would you please send me a copy of the proposed judgment itself.

I want to intervene in this matter on behalf of Caribe Pharmaceutical Corporation.

In the early sixties, my client, Peter Marmion, incorporated a company under the name of Caribe Pharmaceutical Corporation and expended a huge amount of money in securing sources of Cinchona Park and in arranging for a supply of same, he also erected a plant in Puerto Rico for the manufacture of quinine and quinidine.

He installed machinery and acquired the necessary help, and started the manufacture of quinine and quinidine in Puerto Rico in the early 1960s.

When he commenced the operation, it seemed financially viable considering the price at that time of quinine and quinidine on the market. However, because of the cartel and its ramifications, the defendants in the above case, in order to drive my client out of business and make it impossible for him to manufacture and sell quinine and quinidine at a profit, reduced the price of quinine and quinidine to such a price that my client could not compete and was forced to discontinue his operation, disband his business, dispose of his plant, all to his detriment, to the extent of over two million dollars.

We would like to intervene and set forth more at length the details of my client's loss caused by the cartel. What is our next step?

Yours faithfully,

GLEN N. W. McNAUGHTON.

JAMAICA, N.Y., *June 4, 1976.*

DEAR SIR: As per the article in the New York Times, "Proposed Quinine Settlement," I have been a large user of Quinidine for the past 20 years. Would I be entitled to any settlement in the above litigation?

I would appreciate a reply from your office.

Sincerely yours,

ROSE ZACKIN.

NEW ROCHELLE, N.Y., *June 7, 1976.*

JOEL DAVIDOW,
Chief, Foreign Commerce Section, Antitrust, Division, Dcpt. of Justice, Washington, D.C.

DEAR MR. DAVIDOW: I recently heard of a proposed Quinine settlement entitled Civil Action No. 70 Civ. 2079 filed May 21, 1970 U.S. v. N.V. Nederlandsche Combinatie Voor Chemische Industries et al. regarding Quinine products between the years 1958 to 1966. Since my now deceased father had such products prescribed to him in great quantity during those years does this action mean that I may recover overcharges for which I paid? If so, how may I go about recovering same?

Yours truly,

SEYMOUR KURTZMAN.

COLONIA, N.J.

In Re: Civil Action 70, Civ. 2079.

Judge EDELSTEIN,
U.S. District Court,
New York, N.Y.

SIR: We are one of the families victimized by the companies that controlled the import prices of the Cinchona products.

My mother has been living on the Quinidine medication for approximately 20 years. During that time we have spent a small fortune, literally, on the drug. It is not fair to allow the Co's. to go unpunished with a mere verbal slap on the wrists and no more. Some financial sanctions should be charged against them and perhaps some rebates made to those people who used the medications continuously, and of course, suffered the greatest financial damage. The U.S. Govt. is far too lenient in this matter.

Respectfully,

M. EHRENBERG.

EXHIBIT B

UNITED STATES DISTRICT COURT FOR THE SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, against N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al., Defendants. ((D.N.E.) Civil No. 70 Civ. 2079.)

PLAINTIFF'S RESPONSE TO COMMENTS UPON THE PROPOSED CONSENT JUDGEMENT BETWEEN THE UNITED STATES AND DEFENDANTS BOEHRINGER MANNHEIM GMBH AND VEREINIGTE CHININFABRIKEN ZIMMER & CO. GMBH

This response to comments upon the proposed consent judgment between the United States and defendants Boehringer Mannheim Gmbh and Vereinigte Chininfabriken Zimmer & Co. Gmbh ("Consenting Defendants") is made and filed in accordance with the provisions of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16 (a) and (d)). The proposed consent judgment and a Competitive Impact Statement were filed with the Court on April 30, 1976 and published in the FEDERAL REGISTER on May 3, 1976 (41 Fed. Reg. 18328–18334 (1976)). Comments received as of May 29, 1976 will be published simultaneously with this response and typewritten copies of the comments are attached hereto as Exhibit A.

As of May 29, 1976 the Department of Justice has received 32 comments upon the proposed consent judgment. Other than simple requests for copies of the settlement papers, these comments with one exception (discussed below) are concerned with three topics: (1) the sharp increase in price for quinidine-based drugs in the post 1966 period; (2) the availability of private remedies for supposed overcharges for quinidine-based drugs related to these price increases; and (3) the effect of the proposed consent judgment on the present prices to the consumer of quinine and quinidine-based products. One additional comment raises a number of different questions which will be discussed separately below.

I. The Extreme Price Increase for Quinidine-based Products in the Post 1966 Period. Almost all of the comments upon the proposed consent judgment are directed at the substantial increase in retail prices for quinidine-based drugs which has occurred mainly in the early 1970's. While the complaint in this action, which was filed on May 21, 1970, alleges a conspiracy beginning in 1958 and ending in 1966, the proposed judgment is designed to prevent these consenting defendants from engaging in any illegal price fixing, customer or market allocation or bid rigging in the future. Unfortunately, factors not within control of these consenting defendants and, thus, beyond the power of this consent judgment to remedy, have undoubtedly contributed to the recent price increases.

In order to determine reasons for recent price increases, the Department of Justice conducted interviews with leading United States pharmaceutical manufacturers, importers and government officials of nations which produce the raw material (cinchona bark). These inquiries indicate several factors other than illegal private collusion may, in part, explain the price increases.

A significant factor affecting current prices is the involvement of governments in the production, pricing and export of raw cinchona bark. For instance, Indonesia, the largest producer of cinchona bark, has nationalized almost all of the cinchona plantations and controls the export of cinchona products through a government-owned company. In addition, Indonesian law forbids the export of the raw bark, requiring that it be processed initially in Indonesia. One result is that prices charged for quinine sulphate by the Indonesian government-owned company to United States importers rose from approximately $70 per kilogram (2.2 pounds) to approximately $190 per kilogram between June 1974 and June 1975. Another example of government involvement is found in Zaire, the only other major producer of cinchona bark. Although both public and private ownership of cinchona planations exists in Zaire, the export price of cinchona bark is controlled by the government. Price increases that are a result of regulation by foreign governments within their borders may be beyond the reach of the antitrust laws of the United States.

According to all sources interviewed, another major factor contributing to the price increases is an unprecedented and unanticipated increase in the demand for quinidine heart medicine and for quinidine anti-malarial agents. The problem of increased demand is compounded by the fact that it takes at least seven years, and more often 14 years, before cinchona trees mature enough to be commercially useful. Even then, the bark may be stripped only at seven-year intervals. Therefore, it would normally take nearly a decade for the supply of raw material to respond to a dramatic increase in demand as is presently occurring.

Adding to the problem are international currency fluctuations and the devaluation of the United States dollar that have occurred in the past several years, which put United States purchasers of West German and Dutch products (whose currencies are among the strongest) at a disadvntage. As most cinchona products are processed by West German and Dutch businesses (consenting defendants are West German corporations), these currency fluctuations and devaluations are probably reflected in quinine prices. Still another factor contributing to the price increases is the pervasive world-wide inflation, which has pushed up cost at every stage of production of the product. This inflation has generally been more pronounced outside the United States; thus, products imported into the United States such as quinine and quinidine reflect these higher rates of inflation.

In summary, many significant factors, other than conduct by consenting defendants and other private persons and firms subject to attack under our antitrust laws, may be among the causes for the recent price increases for guinidine based drugs. Nonetheless, the Department of Justice will continue to monitor the situation for evidence of illegal practices, not only as part of its continuing

V 41 150 AUG 3 76 UMI

specific responsibility for supervision under the proposed consent judgment, but also pursuant to its general responsibility to protect the American consumer against violations of the antitrust laws.

II. Private remedies available to users of quinidine-based drugs related to recent price increases. If users of quinidine-based drugs believe that the recent price increases are the result of violations of the antitrust laws, they retain their full rights to bring antitrust civil damage actions against consenting defendants or any of the original defendants in the above entitled action. Section 4 of the Clayton Act (15 U.S.C. § 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages such person has suffered. The entry of the proposed final judgment will not have any effect on the right of any potential private plaintiffs claiming they have been damaged as a result of post 1966 conduct to sue for monetary damages or any other legal or equitable remedies.

However, with respect to persons believing they have been overcharged for quinidine products or otherwise damaged as a result of the activities during the 1958 to 1966 period which were the subject of the complaint in this action, their rights to sue under Section 4 of the Clayton Act may be foreclosed as a result of two antitrust class actions brought on behalf of consumers of cinchona bark derivative products and wholesalers and retailers of these same products in the United States District Court for the Eastern District of Pennsylvania. A class action entitled *Mary Cusick, Executrix of the Estate of Richard J. Cusick, Deceased, et al.* v. *N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al.*, Civil Action No. 68-2457 (the "Cusick action"), was filed on November 6, 1968 on behalf of individual consumers of quinine, quinidine, other cinchona products and any other related products or substances, who would have suffered as a result of the same violations alleged in the complaint in this action. A second class action entitled *Sol S. Turnoff Drug Distributors, Inc., et al.* v. *N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al.*, Civil Action 69-1883 (the "Turnoff action"), was brought on August 14, 1969 on behalf of wholesalers and retailers of the same products, suffering as a result of the same alleged violations. Boehringer was named as a defendant in both actions and contributed $180,000 to a joint settlement pool, which totaled $1,300,000. The plaintiff makes no comment with respect to the effect of these settlements on Boehringer's wholly-owned subsidiary, Zimmer, which was named in the complaints but not in the settlements.

Against the total settlement pool all injured members of the two classes were entitled to file claims. An order establishing the classes for settlement purposes and providing for notice to class members was signed by the United States District Court for the Eastern District of Pennsylvania on April 10, 1973. The terms of the settlement and notices of opportunity to file claims or to request exclusion from the settlement pursuant to Rule 23(c)(2) of the Federal Rules of Civil Procedure were printed in English or Spanish newspapers throughout the United States. The individual druggists and wholesalers each received a similar notice by direct mail. Approximately 750 consumer claims and 750 wholesaler and retailer claims were filed. A final order approving the settlement was signed by the same court on June 25, 1973.

As a consequence of these settlements, all potential users, retailers or wholesalers of cinchona bark products, except for those requesting exclusion from the two classes, had an opportunity to receive relief based upon the same antitrust violations by consenting defendant Boehringer alleged in the complaint in this action. All other potential private plaintiffs who might have been damaged by the alleged violations retain their rights to sue for monetary damages and any other legal and equitable relief based on the 1958–1966 period. However, this proposed consent judgment, when approved by the Court, may not be used as prima facie evidence in private litigation pursuant to Section 5(a) of the Clayton Act (15 U.S.C. § 16(a)).

III. Effect of the Proposed Consent Judgment on the Present Prices to the Consumer of Quinine and Quinidine-based Products. The effects of the proposed consent judgment are described in detail beginning at Section 3 of the Competitive Impact Statement, entitled "The Proposed Consent Judgment And Its Anticipated Effects On Competition." The comments, however, are generally addressed to what effect the proposed consent judgment will have upon persons who are paying present prices for quinidine-based drugs. To the extent these prices are the result of the factors described under Section I above, the proposed consent judgment will have little effect on such prices, and will offer little opportunity for redress to consumers. However, the proposed consent judgment will prevent and restrain consenting defendants from taking any action of a nature similar to that alleged in the complaint, such as fixing prices, allocating markets, rigging bids, establishing quotas and allocating supplies, which might have contributed to the recent sharp price increase. The goal of this final judgment is a more diverse and competitive industry in quinine and quinidine drugs at both the manufacturing and the refining stage (at least with respect to private persons and firms).

IV. Response to Additional Questions and Comments Raised by James Morgan Scott, Jr. In addition to inquiries similar to those raised by other persons commenting upon the proposed judgment, Mr. James Morgan Scott, Jr. raises several additional questions and puts forward several additional comments which are dealt with below.

Mr. Scott inquires as to the total damage to the United States public caused by the known and suspected illegal practices of consenting defendants. There has been no determination of the total damage to the United States public resulting from the practices alleged to have been committed by consenting defendants during the period of the conspiracy, 1958 to 1966. However, to the extent that damages to the United States as a quinine purchaser and seller and damages to members of the quinine-product consuming public or to sellers of these products make up part of the total damage to the United States public, some figures are available. Defendant Boehringer has paid $100,000 in settlement of a damage suit brought by the United States based upon the allegations similar to those in this action, *United States* v. *N. V. Nederlandsche Combinatie Voor Chemische Industrie, et al.*, 70 Civ. 2080 (S.D.N.Y., filed May 21, 1970). Defendant Boehringer also contributed $180,000 to the settlement of the two private treble damage class actions referred to in Section II above. Of course, these amounts do not necessarily represent the total damage to the United States Government or to the members of the private treble damage class allegedly sustained at the hands of consenting defendants for their actions during the period 1958 to 1966 any more than does any other settlement of a damage action.

Mr. Scott next poses three questions as to the wisdom and propriety of the settlement and why no damages were recovered. The United States does not, by this proposed consent judgment, concede the innocence of consenting defendants, nor do consenting defendants concede any wrongdoing under the antitrust laws. The essence of a consent judgment is that the parties have seen fit to avoid the cost and uncertainties of full litigation in favor of this proposed consent judgment which, as stated in the Competitive Impact Statement, provides for relief which fully prohibits and corrects the violations alleged in the complaint.

In Section 4 of the Competitive Impact Statement, the Government's position with respect to the alternative of full trial on the merits is stated fully. Furthermore, the sole purpose of this action was to enjoin and restrain consenting defendants from continuing or renewing any of the violations of the antitrust laws alleged in the complaint. No damages were sought in this action. A separate damage action brought on behalf of the United States (described in Section 3 of the Competitive Impact Statement) was settled for $100,000.

Mr. Scott inquired as to the cost to United States taxpayers of this lawsuit thus far. This action was filed on May 21, 1970 and was part of a larger investigation by the Department of Justice that began in 1966 with Grand Jury hearings. During the early Grand Jury stages of the investigation, two or three attorneys from the Antitrust Division were devoting nearly full time to the investigation. This lasted approximately one and one half to two years. Subsequent to indictments by the Grand Jury in 1968, a much smaller amount of time was expended, since most of the activity in the case was related to the settlement agreements reached with various defendants. Thus, in total, approximately three to five person-years in attorneys' time have been spent in the investigation, litigation and settlement of all aspects of the criminal, civil injunctive and civil damage cases involving the quinine cartel of the 1958 to 1966 period. Mr. Scott also inquired as to the number of active cases in the Antitrust Division and how many cases have been filed. As of April 30, 1976, there were 150 pending cases in which the Antitrust Division of the Department of Justice presently has responsibility. Since July 1, 1969, the Antitrust Division has initiated 464 civil and criminal cases.

Mr. Scott also inquired as to the percentage of complaints to the Antitrust Division which result in the filing of a case and what portion of filed cases result in settlements. There is no way to determine what percentage of complaints by members of the public result in the filing of cases by the Antitrust Division. Very often investigations are commenced before any complaint is received. On the other hand, many complaints do not involve violations of the antitrust laws. The great majority of all cases filed by the Antitrust Division result in settlement, either by a consent judgment in civil cases or by pleas of nolo contendere or guilty in criminal cases.

Mr. Scott requests further explanation of the statement, following Section 6 of the Competitive Impact Statement, that no materials and documents of the type described in Section (b) of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16(b)) were considered determinative in formulating this proposed consent judgment. Such statement simply means that no one particular document or group of documents alone convinced the Department of Justice to enter into the proposed consent judgment presented to the Court for its approval. The Department was, of course, aware of the numerous documents produced in this action and the testimony of witnesses before the Grand Jury. It was the totality of this evidence rather than any particular part of it or any document subsequently furnished to the Department of Justice which was determinative in formulating the proposed consent judgment. Consequently, Mr. Scott's next comment, where he suggested that it would be more truthful to say that several hundred pounds of material were considered determinative in reaching the settlement, is not entirely incorrect. Within the meaning of the statutory requirements, however, no such documents in and of themselves were "determinative", but it is correct to assume that the substantial evidence upon which the original lawsuit was based was considered by attorneys for the Department of Justice in connection with this proposed consent judgment.

Mr. Scott's final inquiry concerns the volume of the pleadings and transcripts in this case. With respect to consenting defendants, the only documents filed are the complaint, proposed consent judgment, Competitive Impact Statement, two orders by the Court related to the procedures under the Antitrust Procedures and Penalties Act and a statement pursuant to section 2(g) of the Act (15 U.S.C. § 16(g)) filed by consenting defendants. There was one hearing in court related to the settlement, on December 9, 1974. The transcript of that proceeding contains 42 pages.

Dated: June 18, 1976.

Respectfully submitted,
DONALD A. KAPLAN.
JULIE BROOKS MURRAY.

[FR Doc.76-22395 Filed 8-2-76;8:45 am]

UNITED STATES V. UNITED ARTISTS THEATRE CIRCUIT, INC. ET AL.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16 that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Eastern District of New York in Civil Action No. 71 C609, *United States of America* v. *United Artists Theatre Circuit, Inc.* and *United Artists Eastern Theatres, Inc.* The complaint in the case alleges that the acquisition of the Prudential Theatres Co., Inc., by the United Artists Theatre Circuit (UATC) substantially lessened competition in the purchase of licenses to exhibit feature motion pictures in Suffolk, Nassau and Queens counties and throughout the New York Metropolitan Area. The proposed judgment requires UATC to divest certain theatres which it acquired from Prudential. It also enjoins UATC, for 10 years, from acquiring any operating motion picture theatre in Suffolk, Nassau or Queens counties without the approval of the Government or the Court and requires UATC to give the Government 60 days prior nottice of its intention to acquire any operating motion picture theatre elsewhere in the New York Metropolitan Area. Public comment is invited on or before October 8, 1976. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Bernard Wehrmann, Chief, New York Office, Antitrust Division, Department of Justice, 26 Federal Plaza, New York, New York 10007.

Dated: July 27, 1976.

CHARLES F. B. MCALEER,
Assistant Chief, Judgments and Judgment Enforcement Section.

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. United Artists Theatre Circuit, Inc., and United Artists Eastern Theatres, Inc., Defendants. 71 Civ. 609, stipulation; Filed: July 26, 1976.

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. § 16), and without further notice to any party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendants in this way and any other proceeding.

Dated: July 26, 1976.

For Plaintiff: Thomas E. Kauper, Assistant Attorney General; William E. Swope, Charles F. B. McAleer, Bernard Wehrmann, Ralph T. Giordano, Erwin L. Atkins, Charles W. Brooks, Attorneys, Department of Justice.

For defendants: Wachtell, Lipton, Rosen & Katz, Attorneys for United Artists Theater Circuit, Inc., and United Artists Eastern Theatres, Inc.

By HERBERT M. WACHTELL,
A Member of the Firm.

UNITED STATES DISTRICT COURT EASTERN DISTRICT OF NEW YORK

UNITED STATES OF AMERICA, plaintiff, v. UNITED ARTISTS THEATRE CIRCUIT, INC. and UNITED ARTISTS EASTERN THEATRES, INC., Defendants. 71 Civ. 609 *final Judgment*, Filed: July 26, 1976.

Plaintiff, United States of America, having filed its complaint herein on May 20, 1971, and the defendants United Artists Theatre Circuit, Inc. and United Artists Eastern Theatres, Inc., having appeared and filed their answer to the complaint denying the material allegations thereof and raising certain affirmative defenses, and the plaintiff and the defendants, by their respective attorneys, having consented to the entry of this Final Judgment without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting any evidence or admission by any party with respect to any such issue;

Now, Therefore, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting any evidence or admission by any party with respect to any such issue and upon the consent of the parties, it is hereby

Ordered, Adjudged and Decreed as follows:

I. This Court has jurisdiction of the subject matter of this action and of the parties hereto. The complaint states a claim upon which relief may be granted against the defendants under Section 7 of the Act of Congress of October 15, 1914 (15 U.S.C. § 18), commonly known as the Clayton Act, as amended.

II. As used in this Final Judgment:

(A) "UATC" means defendants United Artists Theatre Circuit, Inc. and United Artists Eastern Theatres, Inc., and each of their subsidiaries.

(B) "Eligible Purchaser" means any person or persons, proposing to purchase, lease or sublease any theatre for theatre purposes, to which the plaintiff, after notice, does not object, or if the plaintiff does object, of which the Court approves.

(C) "person" means any individual, partnership, corporation or other business or legal entity other than UATC or its subsidiaries.

(D) "Non-theatre purpose" means that the proposed use of a theatre will be for other than the exhibition of feature motion pictures except on a possible temporary interim basis.

(E) "New York Metropolitan Area" means the five Counties of the City of New York, the Counties of Westchester, Rockland, Nassau and Suffolk in the State of New York, the Counties of Bergen, Essex, Hudson, Passaic and Union in the State of New Jersey and the County of Fairfield in the State of Connecticut.

III. The provisions of this Final Judgment shall apply to UATC, its subsidiaries, successors and assigns, to each of their respective officers, directors, agents and employees, and to all other persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise. Any Eligible Purchaser who acquires any assets by means of a divestiture pursuant to this Final Judgment shall not be considered a successor or assign of UATC.

IV. (A) UATC is ordered and directed to divest to Eligible Purchasers, within 60 months from the date of entry of this Final Judgment, each of the theatres listed in Appendix A to this Final Judgment.

(B) Divestiture of the theatres listed in Appendix A shall be accomplished in the following ways:

(1) UATC may sell or, subject to the provisions of Section IV(C) of this Final Judgment, lease any such theatre owned by it in fee;

(2) UATC may assign the lease of any such theatre of which it is the lessee or, subject to the provisions of Section IV(E) of this Final Judgment, sublease such theatre.

(C) With respect to any theatre which is divested by lease (hereinafter "Lease"):

(1) The term of the Lease shall be not less than 20 years for any theatre listed in Group 1 of Appendix A, except that the Lease shall grant the lessee the right to terminate the Lease effective as of the end of the tenth year of the term; not less than 10 years for any theatre listed in Group 2; and not less than 5 years for any theatre listed in Group 3. (Such periods of 20, 10 and 5 years are

V 41 150 AUG 3 76 UMI

referred to hereinafter as the "Minimum Lease Term".)

(2) UATC may, during the Minimum Lease Term, sell, lease, or otherwise dispose of its fee in any such theatre to any person for any use, provided that such sale, lease or other disposition is made subject to the Lease and the rights of the lessee under the Lease continue until the termination of the Lease.

(3) The Lease for any theatre listed in Group 1 or Group 2 of Appendix A, which is entered into prior to the appointment of a trustee pursuant to Section V of this Final Judgment, may provide that if the fee is purchased by an Eligible Purchaser during the Minimum Lease Term, such Lease may be terminated at the option of the Eligible Purchaser. No such provision, however, may be contained in any Lease negotiated by a trustee pursuant to Section V of this Final Judgment.

(4) The Lease for any theatre listed in Group 3 of Appendix A, which is entered into prior to the appointment of a trustee pursuant to Section V of this Final Judgment, may provide that UATC may terminate the Lease during the Minimum Lease Term if UATC accepts a bona fide offer by a third person to purchase the fee for non-theatre purposes or to lease the fee for non-theatre purposes for a term of not less than 20 years and such a sale or lease is consummated. UATC may, however, exercise its right of termination under such a provision only to the extent permitted by paragraph D of this Section IV. No such provision may be contained in any Lease negotiated by a trustee pursuant to Section V of this Final Judgment.

(5) The Lease shall grant the lessee an option as provided for in the Lease to purchase the fee at any time during the term of the Lease, provided that such option shall terminate if the lessee, within 60 days after written notice to it by UATC of receipt of a bona fide offer by a third person to purchase the fee, including any offer contemplated by subparagraphs (2), (3), or (4) of this Section IV(C), shall refuse to purchase the fee upon the same economic terms offered by the third person. Such option, however, shall be reinstated if the sale to the third person is not consummated.

(D) As to not more than 2 of the theatres listed in Group 3 of Appendix A, UATC, at any time after the entry of this Final Judgment and whether before or after the making of a Lease as to such theatre, shall have the right to accept a bona fide offer to purchase the fee for non-theatre purposes or to lease the fee for non-theatre purposes for a term of not less than 20 years, and UATC may terminate the Lease of any such theatre upon the consummation of such sale or lease if the Lease was entered into prior to the appointment of a trustee pursuant to Section V of this Final Judgment. In no event may UATC, pursuant to the provisions of this paragraph D, sell or lease for non-theatre purposes, the fee of more than 2 of the theatres listed in Group 3 of Appendix A, but nothing herein shall be construed to abrogate any rights of UATC to dispose of its fee ownership in any such theatre pursuant to the provisions of subparagraph (2) of Section IV(C), and subparagraphs (2) and (3) of Section VII(C) of this Final Judgment.

(E) With respect to any theatre which is divested by sublease (hereinafter "Sublease"), such Sublease shall be for the entire remaining present term of the master lease less one day provided that if the remaining term of the master lease is in excess of 10 years the Eligible Purchaser may, at its option, enter into a Sublease for a period of not less than 10 years, with a right effective as of the end of the Sublease term to renew for the remaining term of the master lease less one day, or any portion thereof (such periods are hereinafter referred to as the "Minimum Sublease Term").

(F) UATC shall make known the availability of the theatres listed in Appendix A by customary and usual means, including appropriate advertising. UATC shall furnish, on an equal and nondiscriminatory basis, to all bona fide prospective purchasers who so request, all necessary information regarding said theatres and shall permit them to make such inspection of the facilities and operations of the theatres as is reasonably necessary for a prospective purchaser to advise itself properly.

(G) Ninety days after the date of entry of this Final Judgment and every 90 days thereafter until UATC has divested each of the theatres listed in Appendix A, UATC shall submit written reports to the plaintiff, describing the steps which have been taken to comply with this Section IV. Each report shall include the name and address of each person who, during the preceding 90 days, had made an offer, expressed a desire, or entered into negotiations to purchase, lease or sublease any theatre, together with full details of same. Each report shall also include the name and address of each person who, during the preceding 90 days, UATC has sought to interest in the purchase, lease or sublease of any theatre, together with full details of same.

(H) At least 60 days before the consummation, pursuant to this Section IV, of a divestiture to a proposed Eligible Purchaser of any theatre listed in Appendix A, UATC shall furnish in writing to the plaintiff the name and address of the proposed Eligible Purchaser, together with the terms and conditions of the proposed divestiture. At the same time, UATC shall list the name and address of each person not previously reported who offered or expressed a desire to purchase, lease or sublease such theatre, together with full details of same. Within 20 days of the receipt of this information, the plaintiff may request in writing additional information concerning the transaction and parties thereto. If no request is made for additional information, the plaintiff shall advise UATC in writing no later than 20 days prior to the scheduled consummation date whether it has any objections to the proposed divestiture. If a request for additional information is made, the plaintiff shall advise UATC in writing within 30 days after receipt of all such information or within 30 days after receipt of a statement in writing from UATC that it does not have the requested information, whether it has any objections to the proposed divestiture. If the plaintiff does not object within the periods specified, then the divestiture may be consummated. If the plaintiff does so object, the proposed divestiture shall not be consummated unless UATC obtains approval from the Court or the plaintiff's objection is withdrawn.

V. If UATC does not divest itself, in accordance with the provisions of this Final Judgment, of each of the theatres listed in Appendix A within 60 months from the date of entry of this Final Judgment, the Court shall on application of the Plaintiff appoint a trustee for the purpose of divesting the remaining theatres in accordance with the provisions of this Final Judgment. The trustee shall dispose of each of the remaining threatres by sale, assignment, Lease or Sublease. Any such Lease or Sublease shall be for the applicable Minimum Lease or Sublease Term. The trustee shall act with all deliberate speed to dispose of each of the remaining threatres. Each divestiture by the trustee shall be in accordance with the provisions of this Final Judgment and subject to prior approval of the Court after the parties have had an opportunity to be heard with respect to each such proposed divestiture and the price and terms thereof. The trustee shall serve, at the cost and expense of UATC, on such terms and conditions as the Court sees fit. The appointment of a trustee by the Court shall not preclude UATC itself from divesting any of the remaining theatres in accordance with the provisions of this Final Judgment.

VI. (A) Any contract of sale, assignment, Lease, or Sublease to an Eligible Purchaser of a theatre listed in Appendix A shall require the Eligible Purchaser to file with this Court its representation that it proposes to operate the theatre for the exhibition of feature motion pictures.

(B) No Lease or Sublease shall contain any rental provisions based upon a share of the profits of the theatre covered by the Lease or Sublease or of any other theatre, provided, however, that rental provisions may be based upon a percentage of the gross receipts of the leased or subleased theatre.

VII. (A) UATC shall be in full control of the operations and management of each theatre listed in Appendix A until the theatre has been divested in accordance with the provisions of this Final Judgment. Pending initial divestiture, UATC shall continue to operate each theatre for the exhibition of feature motion pictures and shall not close or curtail its operations without the prior written consent of the plaintiff or, if such consent is refused, upon the approval of the Court.

(B) UATC shall not participate in any way, directly or indirectly, in the management, operation or control of any theatre listed in Appendix A after it has been divested pursuant to this Final Judgment, nor shall UATC book or buy feature motion pictures for any such theatre after it has been divested. Where a theatre has been divested by Lease or Sublease, these prohibitions shall be expressly set forth in the Lease or Sublease.

(C) Notwithstanding the provisions of paragraph (B) of this Section VII:

(1) UATC may accept and enforce a bona fide lien, mortgage or other form of security received by it to secure full payment of any unpaid portion of the purchase price. UATC may also enforce the terms and conditions of any Lease or Sublease in accordance with its provisions or as provided by law, and may exercise the rights of a lessor or sublessor in the event of a default. If two or more theatres are divested to a single Eligible Purchaser, such Lease, Sublease, lien, mortgage, or other form of security may not provide that a default by the lessee or mortgagor with respect to one such theatre shall constitute a default with respect to all such theatres, provided, however, that such provision may be contained in any such Lease, Sublease, lien, mortgage, or other form of security, if reasonably necessary to the security of UATC.

(2) If UATC, by enforcement of any bona fide lien, mortgage or any other form of security interest reacquires ownership, possession or control of any divested theatre or in the event of reacquisition or repossession by UATC prior to the expiration of the Minimum Lease or Sublease Term of a leased or subleased theatre divested hereunder, UATC shall promptly notify the plaintiff in writing and shall divest such theatre by sale, assignment, Lease or Sublease to an Eligible Purchaser within 12 months of reacquisition or repossession in accordance with the provisions of this Final Judgment. The minimum duration of any such subsequent Lease or Sublease shall be the applicable Minimum Lease or Sublease Term less the period of time such theatre was operated by an Eligible Purchaser prior to reacquisition or repossession by UATC. If UATC is unable to

divest any such theatre to an Eligible Purchaser within 12 months of reacquisition or repossession, UATC may, with the prior written consent of the plaintiff, or, if such consent is refused, upon approval of the Court, sell, lease or otherwise dispose of such theatre to any person for non-theatre purposes. In no event may UATC, directly or indirectly, operate such theatre for more than 18 months after reacquisition or repossession by UATC without the prior written consent of the plaintiff or, if such consent is refused, upon approval of the Court.

(3) If UATC reacquires or repossesses any divested theatre after the expiration of the applicable Minimum Lease or Sublease Term, or if it reacquires or repossesses any theatre disposed of by sale or lease pursuant to Section IV(D) of this Final Judgment, UATC may sell, lease or otherwise dispose of any such theatre to any person for any purpose, but in no event may UATC, directly or indirectly, operate such theatre for more than 18 months after such reacquisition or repossession without the prior written consent of the plaintiff or, if such consent is refused, upon approval of the Court.

VIII. (A) UATC is enjoined and restrained for a period of 10 years from the date of entry of this Final Judgment from acquiring any part of the assets or stock of any operating motion picture theatre in the Counties of Queens, Nassau and Suffolk in the State of New York, other than the Whitman Theatre located in Huntington, New York, except with the prior written consent of the plaintiff, or if such consent is refused, then upon the approval by this Court after a determination by this Court that the effect of any such acquisition of assets or stock will not be to substantially lessen competition or tend to create a monopoly in the exhibition of feature motion pictures in any section of the country.

(B) For a period of 10 years from the date of entry of this Final Judgment, UATC is ordered and directed to give the plaintiff written notice of its intention to acquire any part of the assets or stock of any operating motion picture theatre in any of the Counties of the New York Metropolitan Area, other than the Counties of Queens, Nassau and Suffolk, at least 60 days before the closing of any such acquisition.

IX. (A) For the purpose of determining or securing compliance with this Final Judgment and for no other purpose, UATC shall permit duly authorized representatives of the Department of Justice on written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice, subject to any legally recognized privilege:

(1) Access during the business hours of UATC, who may have counsel present, to those books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession, custody or under the control of UATC which relate to any matters contained in this Final Judgment;

(2) Subject to the reasonable convenience of UATC and without restraint or interference from it, to interview officers or employees of UATC, any of whom may have counsel present, regarding such matters.

(B) UATC shall submit such reports in writing, with respect to the matters contained in this Final Judgment, as may from time to time be requested in writing by the Attorney General or the Assistant Attorney General in charge of the Antitrust Division.

(C) No information obtained by the means provided in this Section IX of this Final Judgment shall be divulged by a representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the plaintiff except in the course of legal proceedings to which the United States is a party for the purpose of determining or securing compliance with this Final Judgment or as otherwise required by law.

X. Jurisdiction of this action is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions thereof, and for the enforcement of compliance therewith and punishment of violations thereof.

XI. Entry of this Final Judgment is in the public interest.

Dated: ----------

United States District Judge.

UNITED STATES DISTRICT COURT, EASTERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. United Artists Theatre Circuit, Inc., and United Artists Eastern Theatres, Inc., Defendants. 71 Civ. 609. Competitive impact statement relating to proposed consent judgment, filed: July 26, 1976.

This Competitive Impact Statement is filed by the Government pursuant to the requirements of Section 2 of the Act of Congress of December 21, 1974 (15 U.S.C. § 16), commonly known as the Antitrust Procedures and Penalties Act. It relates to the proposed consent judgment submitted for entry against the defendants in this civil antitrust suit.

NATURE AND PURPOSE OF THE PROCEEDING

On May 20, 1971, the Government filed a civil antitrust suit against United Artists Theatre Circuit, Inc., New York, New York, charging that its acquisition in July 1968 of the assets of Prudential Theatres Co., Inc. (Prudential), Long Island, New York, might substantially lessen competition or tend to create a monopoly in the purchase of licenses to exhibit feature motion pictures in the New York Metropolitan Area, in violation of Section 7 of the Clayton Act. In November 1971 United Artists Eastern Theatres, Inc., Long Island, New York, a wholly-owned subsidiary of United Artists Theatre Circuit, Inc., was added as a defendant in the action. (Both are referred to collectively herein as UATC.)

In its complaint the Government asked the Court to declare the acquisition to be violative of Section 7 of the Clayton Act and to order UATC to divest itself of all of the assets acquired from Prudential.

EVENTS GIVING RISE TO THE ALLEGED VIOLATION

This suit concerns the purchase of licenses to exhibit feature motion pictures. Such licenses are purchased from distributors by exhibitors or operators of motion picture theatres, in competition with other exhibitors in the same area.

At the time of the acquisition, Prudential and UATC were among the four largest exhibitors of feature motion pictures in the New York Metrolopitan Area, which includes the 5 counties of New York City, the counties of Westchester, Rockland, Suffolk and Nassau in the State of New York, the counties of Bergen, Essex, Hudson, Passaic and Union in the State of New Jersey and the county of Fairfield in the State of Connecticut. Prudential operated 56 theatres in this area, including 40 theatres in Suffolk county, 7 in Nassau county and 2 in Queens county. UATC operated 60 theatres in the New York Metropolitan Area, including 11 in Nassau county and 8 in Queens county. At the time of the acquisition, UATC did not operate any theatres in Suffolk county.[1]

[1] At the time of the acquisition, Prudential also operated 21 theatres in Wisconsin and 1 theatre in western New Jersey. UATC was (and remains) one of the largest exhibitors in the nation, operating several hundred theatres throughout the United States.

V 41 150 AUG 3 76 UMI

The Government's principal theory of illegality is that the acquisition of Prudential's theatres in the New York Metropolitan Area has significantly increased UATC's bargaining power with distributors to the detriment of smaller theatre circuits and independent exhibitors in the area. That is, UATC may now offer distributors substantially greater and more extensive theatre coverage in the New York Metropolitan Area thereby enhancing its bargaining power, especially for licenses to the more desirable films. This increased bargaining power is derived primarily from Prudential's block of 40 theatres in Suffolk county which, at the time of the acquisition, accounted for approximately 60% of all of the theatres located there. Smaller theatre circuits and independent exhibitors, unable to offer such broad and extensive coverage to distributors, are placed at a competitive disadvantage in negotiating for film licenses.

The Government also claims, as secondary theories of illegality, that the acquisition eliminated actual competition for film licenses between Prudential and UATC in Nassau and Queens counties, and potential competition between them in Suffolk county. Although UATC did not operate any theatres in Suffolk county prior to the acquisition, it most likely would have expanded its operations into that area had it not acquired Prudential.

THE PROPOSED CONSENT JUDGMENT AND ITS ANTICIPATED EFFECTS ON COMPETITION

Under the proposed consent judgment UTAC must divest 23 designated theatres located (with some alternates) in the New York Metropolitan Area, including 18 in Suffolk county, 3 in Nassau county, 1 in Queens county and 1 in Westchester county. Together with 7 former Prudential theatres already voluntarily divested by UATC during the pendency of this suit (5 in Suffolk county and 1 each in Nassau and Fairfield counties), this will represent a total divestiture of 30 of 56 or over 53% of all of the former Prudential theatres in the New York Metropolitan Area and 23 of 40 or over 57% of those in Suffolk county. The proposed judgment will, thus, significantly reduce the number of former Prudential theatres in the New York Metropolitan Area which UATC may make available to distributors, especially in Suffolk county. This, in turn, will substantially lessen the additional bargaining power which UATC obtained as a result of the acquisition. The divestitures in Suffolk, Nassau and Queens counties will also increase competition in these areas.

The proposed judgment requires UATC to divest each of the designated theatres by sale, lease, sublease or assignment to persons and under terms and conditions approved by the Government or the Court. Where divestiture is by lease, the minimum lease periods range from 5 to 20 years depending on the potential of the underlying real estate for more useful non-theatre development. For similar reasons, UATC would have the option of divesting any 2 of the 5 designated drive-in theatres for non-theatre purposes. All other theatres, however, must be divested for theatre purposes. The proposed judgment protects against UATC ever reacquiring permanent operating control of any of the theatres which it divests.

Under the proposed judgment UATC would be obliged to make reports to the Government every 90 days setting forth the steps taken to accomplish the divestitures. In order to assure to the extent possible that the designated theatres will be successfully divested, the proposed judgment provides for the appointment of a trustee by the Court if UATC has not divested all of the theatres within 60 months. The trustee would be appointed to divest the remaining theatres and would serve at the cost and expense of UATC.

The proposed judgment prohibits UATC, for 10 years, from acquiring any operating theatre in Suffolk, Nassau and Queens counties except with the approval of the Government or the Court.[2] This provision protects against acquisitions by UATC in these areas which would be detrimental to competition. The proposed judgment also requires UATC, for 10 years, to give the Government 60 days prior written notice of its intention to acquire any operating theatre in any other part of the New York Metropolitan Area. In addition, the Government would have visitation rights to inspect documents and interview officers and employees of UATC in order to determine and secure compliance with the judgment.

REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS
